1. Out of this appropriation, \$1,000,000 the first year from the general fund is provided for start-up grants of up to \$300,000 per school per year, depending on the extended school year model adopted. First priority shall be given to the school divisions awarded planning grants in fiscal year 2014 and the College Readiness Center pilot. Next priority shall be given to schools based on need, relative to the most current state accreditation ratings or similar federal designations.

2. Out of this appropriation, \$7,150,000 the second year from the general fund is provided for a targeted extended school year incentive in order to improve student achievement. Annual start-up grants of up to \$300,000 per school may be awarded for a period of up to two years after the initial implementation year. The per school amount may be up to \$400,000 in the case of schools that have a Denied Accreditation status. After the third consecutive year of successful participation, an eligible school's grant amount shall be based on a shared split of the grant between the state and participating school division's local composite index. Such continuing schools shall remain eligible to receive a grant based on the 2012 JLARC Review of Year Round Schools' researched base findings.

3. Except for school divisions with schools that are in Denied Accreditation status, any other school division applying for such a grant shall be required to provide a twenty percent local match to the grant amount received from either an extended year start-up or planning grant in the second year.
4. In the case of any school division with schools that are in Denied Accreditation status that apply for funds, the school division shall also consult with the Superintendent of Public Instruction or designee on all recommendations regarding instructional programs or instructional personnel prior to submission to the local board for approval.
5. Out of this appropriation, \$613,312 each year from the general fund is provided for planning grants of no more than \$50,000 each for local school divisions pursuing the creation of new year-round school programs for divisions or individual schools in support of the findings from the 2012 JLARC Review of Year Round Schools. School divisions must submit applications to the Department of Education by August 1 of each year. Priority shall be given to schools based on need, relative to the state accreditation ratings or similar federal designations. Applications shall include evidence of commitment to pursue implementation in the upcoming school year. If balances exist, existing extended school year programs may be eligible to apply for remaining funds.
6. A school division that has been awarded an extended school year start-up grant, a year-round program start-up grant, or an extended year planning grant for the development of an extended year or a new year-round program may spend the awarded grant over two consecutive fiscal years.
7. a) Any such school division receiving funding from a Targeted Extended School Year grant shall provide an annual progress report to the Department of Education that evaluates end of year success of the extended year or year-round model implemented as compared to the prior school year performance as measured by an appropriate evaluation matrix no later than August 1 each year.
b) The Department of Education shall develop such evaluation matrix that would be appropriate for a comprehensive evaluation for such models implemented. Further, the Department of Education is directed to submit the annual progress reports from the participating school divisions and an executive summary of the program's overall status and levels of measured success to the Chairmen of House Appropriations and Senate Finance Committees no later than October 1 each year.
8. Any funds remaining in this paragraph following grant awards may be disbursed by the Department of Education as grants to school divisions to support innovative approaches to instructional delivery or school governance models."

Explanation:

(This amendment provides \$4.8 million the second year from the general fund to increase the state's allocation from \$2.4 million to \$7.2 million in funding for a targeted extended school year incentive. Funding is based on start-up grants of up to \$300,000 per school up to a total of three years. The grant award may be up to \$400,000 in the case of schools that are in a Denied Accreditation status. Except for any school that has a Denied Accreditation status, all other participating schools shall be required to provide a 20% local funding match. After the third consecutive year of successful participation, an eligible school's grant amount shall be based on a shared split of the grant between the state and participating school division's local composite index. All participating schools shall be required to submit an evaluation assessment report of the planning and progress of the extended year or year round model implemented no later than August 1 each year to the Department of Education (DOE). The DOE is directed to develop the appropriate and effective evaluation matrix for school divisions to use. In addition, the DOE is directed to also submit the evaluation reports from the participating school divisions to the Chairmen of the House Appropriations and Senate Finance Committees no later than October 1 each year. "36. Compensation Supplements

a.1) The appropriation in this item includes \$52,865,367 the second year from the general fund for the state share of a payment equivalent to a 1.5 percent salary incentive increase, effective August 16, 2015, for funded SOQ instructional and support positions. Funded SOQ instructional positions shall include the teacher, guidance counselor, librarian, instructional aide, principal, and assistant principal positions funded through the SOQ staffing standards for each school division in the biennium. The \$52,865,367 includes \$218,854 referenced in paragraph 28. i., for the Academic Year Governor's Schools for a 1.5 percent salary incentive increase, effective August 16, 2015, for instructional and support positions.

2) It is the intent of the General Assembly that the instructional and support position salaries be improved in school divisions throughout the state by at least an average of 1.5 percent in the second year. Sufficient funds are appropriated in this act to finance, on a statewide basis, the state share of a 1.5 percent salary increase for funded SOQ instructional and support positions, effective August 16, 2015, to school divisions which certify to the Department of Education, by June 15, 2015, that salary increases of a minimum average of 1.5 percent have been provided in the second year by January 1, 2016, to instructional and support personnel. In certifying that the salary increases have been provided, school divisions may not include any salary increases that were provided in the second year solely to offset the cost of required member contributions to the Virginia Retirement System under § 51.1-144, Code of Virginia.

b. The state funds for which the division is eligible to receive shall be matched by the local government, based on the composite index of local ability-to-pay, which shall be calculated using an effective date of January 1, 2016, as the basis for the local match requirement for both funded SOQ instructional and support positions.

c. This funding is not intended as a mandate to increase salaries."

Page 142, after line 48, insert:

"i. Out of the appropriation included in paragraph 36, a.1., of this item, \$218,854 the second year from the general fund is included for the Academic Year Governor's School funding allocation to increase the per pupil amount up to an additional \$74.97 per pupil amount as an add-on for a 1.5 percent compensation incentive supplement with an effective date of August 16, 2015."

Explanation:

(This amendment provides \$52.8 million the second year from the general fund for instructional and support positions the state's share of a 1.5 percent salary increase for funded SOQ instructional and support positions and for a 1.5% salary incentive for the Academic Year Governor's Schools instructional and support positions.

Although state funding is calculated based on 1.5 percent with an effective date of August 16, 2015, the local required match is based on a average of 1.5 percent with an effective date of no later than January 1, 2016, and divisions must certify that a minimum 1.5 percent increase will be provided to employees by this date. The amendment specifies that in meeting the salary increases to be eligible for this incentive funding, school divisions may not include any increases that were provided in fiscal year 2016 to offset the cost of required member contributions to the VRS. Furthermore, this allocation is contingent on the state revenue forecast performance pursuant to the provisions set out in Item 467.O.1.)

Furthermore, the Department is mandated to communicate to all eligible school divisions the remaining available balances in the program's adopted budget, after the fall

participation reports have been submitted and finalized for such grants. "

Explanation:

(This amendment requires DOE to offer any unobligated balances for one-time grants, with priority to proposals to expand the use of partnerships with either nonprofit or for-profit providers, as is currently allowed but limited in actual use. This is in lieu of new provisions proposed in the introduced budget authorizing unused but appropriated funds for the Virginia Preschool Initiative for at-risk four-year-olds to school divisions that have used 100 percent of their state allocated slots and also have waiting lists beginning the second year (instead of sweeping end-of-year balances that may exist even after assumed nonparticipation). Under the introduced budget, the number of slots allocated would have been determined using the balance of the number of slots estimated to calculate the fiscal year 2016 appropriation and the number of actual slots to be used for fiscal year 2016 as reported on the May 15th Pre-K grant proposals submitted by school divisions. Current budget language authorizes DOE to expend unobligated balances for grants to qualifying school divisions for one-time expenses, other than capital, related to start-up or expansion of programs.)

Explanation:

(This amendment adds language requiring the Virginia Department of Health (VDH), with assistance from the Department of Health Professions, to issue guidelines on the prescription of certain pain medicines. Opioid overdose continues to be a major public health problem in the United States. It has contributed significantly to accidental deaths among those who use prescription opioids. Opioid overdose is the number one cause of accidental death in the United States, eclipsing automobile accidents (unintentional opioid overdose kills one person every 36 minutes in this country). This increase coincides with a nearly fourfold increase in the use of prescribed opioids for the treatment of pain. With appropriate education, patients on long-term opioid therapy, and others at risk for overdose, can benefit from the availability of FDA approved opioid antagonists to utilize in the event of a known or suspected overdose. 3. The Department of Medical Assistance Services is authorized to amend the FAMIS MOMS and FAMIS Select demonstration waiver (No. 21-W-00058/3) for FAMIS MOMS enrollees to add coverage for dental services to align with pregnant women's coverage under Medicaid.

4. The Department of Medical Assistance Services is authorized to amend the State Plan under Title XXI of the Social Security Act to plan to allow enrollment for dependent children of state employees who are otherwise eligible for coverage.

5. The department shall have authority to implement necessary changes upon federal approval and prior to the completion of any regulatory process undertaken in order to effect such changes."

Explanation:

(This amendment adds \$14.9 million from the general fund and \$16.0 million from nongeneral funds the first year and \$104.3 million from the general fund and \$119.9 million from nongeneral funds the second year to (i) provide limited medical services, including coverage of prescription medicines, and a robust set of behavioral health services to 21,600 adults with serious mental illness with incomes at or below 60 percent of the federal poverty, (ii) provide comprehensive dental care for an estimated 45,000 pregnant women in the Medicaid and FAMIS MOMS programs, (iii) provide additional funding to enroll an estimated 35,000 additional children in the Medicaid and FAMIS children's health insurance programs, and (iv) extend FAMIS eligibility to children of low-income state employees who would otherwise be eligible for the program. Language is added to specifically authorize these changes to the Medicaid and FAMIS programs. Language requires the Department of Medical Assistance Services (DMAS) to amend its demonstration project to modify eligibility criteria set forth in the demonstration project for individuals with serious mental illness and authorizes amendments to the FAMIS MOMS and FAMIS Select demonstration waiver to add comprehensive dental coverage for FAMIS MOMS and extend FAMIS coverage to children of low-income state employees who would otherwise be eligible for the program. Finally, language provides the department with the authority to implement the necessary changes prior to the completion of the regulatory process.)

Explanation:

(This amendment reduces \$2.9 million the first year and \$5.7 million the second year from the general fund and provides a corresponding increase in the Health Care Fund to reflect a revised estimate of tobacco tax revenues that are deposited to the Health Care Fund. This estimate assumes tobacco tax projections will decline by 1.2 percent each year as compared to a three percent decline estimated in the introduced budget. Since the Health Care Fund is used as state match for the Medicaid program, any change in revenue results in a corresponding offset in general fund support.)

Explanation:

(This amendment captures savings of \$21.9 million from the general fund and \$21.9 million from matching federal Medicaid funds in the second year contained in the Medicaid forecast for two technical adjustments. The Medicaid forecast assumed that \$14.1 million from the general fund and a like amount of nongeneral funds would be spent in fiscal year 2016 to implement a federal Department of Labor (DOL) rule to require the "Employer of Record" to pay overtime for personal care attendants providing home care in the Medicaid waiver programs. The amendment strikes language in the introduced budget implementing this rule, due to a recent federal court decision that struck down these provisions in the DOL rule. The second technical adjustment reduces \$7.8 million from the general fund and a like amount of

nongeneral funds from Medicaid savings actions taken in Chapter 2, 2014 Special Session I, that should have been adjusted in the second year.)

2. The Department of Medical Assistance Services, in collaboration with the Department of Behavioral Health and Developmental Services, shall report on plans to redesign the Medicaid comprehensive Intellectual and Developmental Disability waivers prior to the submission of a request to the Centers for Medicare and Medicaid Services to amend the waivers. In developing the report, the departments shall include plans for the list of services to be included in each waiver; service limitations, provider qualifications, and proposed licensing regulatory changes; and proposed changes to the rate structure for services and the cost to implement such changes. In addition, the Department of Medical Assistance Services, in collaboration with the Department of Behavioral Health and Developmental Services, shall report on how the individuals currently served in the existing waivers and those expected to transition to the community will be served in the redesigned waivers based on their expected level of need for services. The departments shall complete their work and submit the report to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees by November 1, 2015."

Explanation:

(This amendment provides funding to increase rates for in-home residential services, day services, therapeutic consultation services, congregate residential services, and skilled nursing services effective July 1, 2015. These increases are based on the analysis from the recent rate study of Medicaid waiver rates, which indicates that the rates are inadequate to build the appropriate community capacity to move individuals out of state training centers. The Intellectual Disability, Developmental Disability and Day Support waivers are currently being redesigned and will likely change in fiscal year 2017. The funding in this amendment provides an investment in the new rates to move the Commonwealth forward to a community-based system for individuals with intellectual or developmental disabilities. Language is also added to require the Department of Medical Assistance Services and the Department of Behavioral Health and Developmental Services to report on plans to redesign the Medicaid comprehensive Intellectual and

Developmental Disability waivers prior to a submission of a request to the Centers for Medicare and Medicaid Services to amend the waivers. The report is required to be submitted by November 1, 2015.)

Currently, the rate for consumer-directed care is \$8.86 per hour in the rest of the state and \$11.47 per hour in Northern Virginia. and prior to the completion of any regulatory process undertaken in order to effect such change."

Explanation:

(This amendment provides funding in the second year and adds language to offset savings assumed in the Department of Medical Assistance Services budget from pending and reducing payment for claims from emergency room physicians who treat Medicaid recipients when a retrospective review determines that the individuals could have received care in an outpatient setting. Emergency room physicians have no choice in treating individuals who present in emergency rooms and must do so as required by federal law. The department shall have the authority to implement these reimbursement changes effective July 1, 2015, and prior to completion of any regulatory process undertaken in order to effect such change."

Explanation:

(This amendment provides funding for Physician Supplemental Payments for additional support for Children's Hospital of the King's Daughters (CHKD). These payments help cover the cost of caring for thousands of children facing life-threatening illnesses, traumatic injuries and chronic conditions as well as those who need access to routine well-child care regardless of their families' ability to pay for services. These payments also ensure that CHKD's patients have access to every type of pediatric subspecialist, surgeon and pediatrician needed in a highly coordinated, efficient and regionalized system of care in greater Hampton Roads. Furthermore, Physician Supplemental Payments help CHKD address critical

workforce development needs as the region's only teaching hospital for pediatrics, for the EVMS pediatric and family medicine residencies, and for every school of nursing within the region. Physician Supplemental Payments currently cover less than a third of CHKD's \$13 million physician costs.)

Explanation:

(This amendment increases the general fund appropriation for Medicaid by \$221,568 and reduces a like amount of nongeneral funds the second year, reflecting reduced revenues to the Virginia Health Care Fund (VHCF). Because revenues in the fund are required to be used as the state share of Medicaid, a reduction in revenue results in a need to increase the general fund amount for the program. For community-based screening for children, the screening shall be performed by an individual or entity with whom the department has entered into a contract for the performance of such screenings.

2. The department shall track and monitor all requests for screenings and report on those screenings that have not been completed within 30 days of an individual's request for screening. 4. The Department of Medical Assistance Services shall promulgate regulations to implement these provisions to be effective within 280 days of its enactment. The department may implement any changes necessary to implement these provisions prior to the promulgation of regulations undertaken in order to effect such changes."

Explanation:

(This amendment adds \$200,000 from the general fund and \$600,000 from federal matching Medicaid funds in the second year for the Department of Medical Assistance Services to implement a contract for preadmission screening for children in need of long-term care services to ensure screenings are completed within statutory required timeframes. Language also requires the agency to track and monitor all requests for screenings and report on those not completed within statutory timeframes. The department is required to report on the timeliness of such screenings as well as the implementation of the contract for children's preadmission screenings prior to the 2016 Session. percent in 2013. The department shall have the authority to implement this reimbursement change effective July 1, 2015, and prior to completion of any regulatory process in order to effect such change."

Explanation:

(This amendment provides funding and adds language to hold harmless any nursing facility which was negatively impacted by the conversion from a cost-based reimbursement methodology to a price-based reimbursement methodology for Medicaid nursing facility payments because the methodology did not account for recent facility improvements to provide high quality care. The transition rates that would be imposed on such facilities are based on a three-year period, which penalizes facilities which have recently improved care and invested significant funds to improve the facility. Explanation:

(This amendment provides authority for the Department of Medical Assistance Services to increase payments to Medicaid managed care organizations to allow

Explanation:

(This amendment modifies the definition of eligibility criteria for the Medicaid Alzheimer's Assisted Living waiver to more broadly define eligible individuals that may be served by the waiver program. Currently, eligibility criteria for the waiver set forth in the Virginia Administrative Code defines those eligible as individuals with a diagnosis of Alzheimer's or a related dementia, however, it does not recognize the similar needs of individuals with other types of dementia. Of the remaining 96 percent, (i) 65 percent shall be distributed to a baseline allocation determined by the accreditation status of the CAC: (a) developing and associate centers 100 percent of base; (b) accredited centers 150 percent of base; and (c) accredited centers with satellite facilities 175 percent of base; and (ii) 35 percent shall be allocated according to established criteria to include: (a) 25 percent determined by the rate of child abuse per 1,000; (b) 25 percent determined by child population; and (c) 50 percent determined by the number of counties and independent cities serviced."

Explanation:

(This amendment alters the funding methodology used to distribute funds to Child Advocacy Centers (CACs) which has become outdated due to a substantial growth in CACs and a shift in the number of CACs from associate membership to accredited membership. The change anticipates continued growth of satellite centers which are not supported by the current formula. The revised formula (i) provides incentives for National Children's Advocacy Accreditation; (ii) eliminates competition between centers; (iii) eliminates subjective criteria; and (iv) provides for equitable distribution.)

3. It is the intent of the General Assembly to increase the reversion amount from one-quarter of the excess fees calculation in the fiscal year ending June 30, 2016, to one-third of the excess for the calculation in the fiscal year ending June 30, 2017, and to one-half of the excess for the calculation in the fiscal year ending June 30, 2018."

D. Effective July 1, 2015, each locality receiving notice that it has a fines reversion as defined in A. above shall submit a payment to the State Comptroller for the entire amount of the reversion by August 1 for deposit into the Literary Fund."

Explanation:

(This amendment adjusts the formula by which local collections of fines and fees based on local ordinances may not exceed a certain threshold of the total collections of fines and fees beginning in fiscal year 2016. This amendment removes fees from the calculation of the formula and specifies that one-quarter of the amount by which collections of local fines and forfeitures exceeds 65 percent of total collections is to be returned to the Literary Fund. Page 523, strike lines 17 through 20.

"§ 4-9.05 IMPLEMENT JLARC RECOMMENDATIONS

a. The Boards of Visitors at each Virginia public four-year higher education institution, to the extent practicable, shall:

1. require their institutions to clearly list the amount of the athletic fee on their website's tuition and fees information page. The page should include a link to the State Council of Higher Education for Virginia's tuition and fee information. The boards should consider requiring institutions to list the major components of all mandatory fees, including the portion attributable to athletics, on a separate page attached to student invoices;

2. assess the feasibility and impact of raising additional revenue through campus recreation and fitness enterprises to reduce reliance on mandatory student fees. The assessments should address the feasibility and impact of raising additional revenue through charging for specialized programs and services, expanding membership, and/or charging all users of recreation facilities;

3. direct staff to perform a comprehensive review of the institution's organizational structure, including an analysis of spans of control and a review of staff activities and workload, and identify opportunities to streamline the organizational structure. Boards should further direct staff to implement the recommendations of the review to streamline their organizational structures where possible;

4. require periodic reports on average and median spans of control and the number of

supervisors with six or fewer direct reports;

5. direct staff to revise human resource policies to eliminate unnecessary supervisory positions by developing standards that establish and promote broader spans of control. The new policies and standards should (i) set an overall target span of control for the institution, (ii) set a minimum number of direct reports per supervisor, with guidelines for exceptions, (iii) define the circumstances that necessitate the use of a supervisory position, (iv) prohibit the establishment of supervisory positions for the purpose of recruiting or retaining employees, and (v) establish a periodic review of departments where spans of control are unusually narrow; and,

6. direct institution staff to set and enforce policies to maximize standardization of purchases of commonly procured goods, including use of institution-wide contracts;

7. consider directing institution staff to provide an annual report on all institutional purchases, including small purchases, that are exceptions to the institutional policies for standardizing purchases.

b. The State Council on Higher Education for Virginia, to the extent practicable, shall:

1. convene a working group of institution financial officers, with input from the Department of Accounts, the Department of Planning and Budget, and the Auditor of Public Accounts, to create a standard way of calculating and publishing mandatory non-E&G fees, including for intercollegiate athletics;

2. update the state's Chart of Accounts for higher education in order to improve comparability and transparency of mandatory non-E&G fees, with input from the Department of Accounts, the Department of Planning and Budget, the Auditor of Public Accounts, and institutional staff. This process should be coordinated with the standardization of tuition and fee reporting;

3. convene a working group of institutional staff to develop instructional and research space guidelines that adequately measure current use of space and plans for future use of space at Virginia's public higher education institutions;

4. coordinate a committee of institutional representatives, such as the previously authorized Learning Technology Advisory Committee. In addition to the objectives set out in the Appropriation Act for the Learning Technology Advisory Committee, the committee should identify instructional technology initiatives and best practices for directly or indirectly lowering institutions' instructional expenditures per student while maintaining or enhancing student learning.

c. Notwithstanding the provisions of § 23-9.14:1, the State Council of Higher Education for Virginia shall annually train boards of visitors members on the types of information members should request from institutions to inform decision making, such as performance measures, benchmarking data, the impact of financial decisions on student costs, and past and projected cost trends. Boards of Visitors members serving on finance and facilities subcommittees should, at a minimum, participate in the

training within their first year of membership on the subcommittee. SCHEV should obtain assistance in developing or delivering the training from relevant agencies such as the Department of General Services and past or present finance officers at Virginia's public four-year institutions, as appropriate.

d. The Department of Planning and Budget shall revise the formula used to make allocation recommendations for the state's maintenance reserve funding to account for higher maintenance needs resulting from poor facility condition, aging of facilities, and differences in facility use. Beginning with fiscal year 2016, the Department of Planning and Budget shall submit these recommendations to the Governor and General Assembly no later than November 1 of each year.

e. The Six-Year Capital Outlay Plan Advisory Committee, the Department of Planning and Budget, and others as appropriate shall use the results of the prioritization process established by the State Council of Higher Education for Virginia in determining which capital projects should receive funding.

f. Beginning with fiscal year 2016, the Auditor of Public Accounts shall include in its audit plan for each public institution of higher education a review of progress in implementing the the JLARC recommendations contained in paragraph § 4-9.05 a."
