"G. The Chairmen of the House Appropriations and Senate Finance Committees shall each appoint four members from their respective committees to a joint subcommittee to (i) review the recommendations from the Joint Legislative Audit and Review Commission (JLARC) studies titled "Operation and Performance of Virginia's Social Services System" and "Self-Sufficiency Among Social Services Clients in Virginia"; (ii) assess the progress of the Department of Social Services and related agencies in

improving Virginia's social services system local administrative funding process, human resource management, information technology planning and development, and organization and management of the State Department of Social Services; (iii) assess efforts by the Department of Social Services and related agencies to increase personal accountability and enhance the effectiveness of services in helping clients attain self-sufficiency; (iv) review any proposed changes to the Temporary Assistance to Needy Families Program that may be needed to comply with new federal requirements, pursuant to the federal Deficit Reduction Omnibus Reconciliation Act of 2005; and (v) review the funding policies of the foster care and adoption subsidy program."

Explanation:

(This amendment creates a joint subcommittee composed of four members each from the House Appropriations and Senate Finance Committees to review and assess the progress of the Department of Social Services and the social services system in implementing recommendations from two JLARC studies which examined the system in 2005. In addition, the joint subcommittee would review proposed changes to the TANF program that may be needed to comply with recent federal reauthorization of the program. Finally, the joint subcommittee would review funding policies for the foster care and adoption subsidy programs. Expenditures in recent years, particularly in the adoption subsidy program, have increased significantly.)

Explanation:

(This amendment provides \$357,531 and 8.00 positions the first year and \$585,060 and an additional 4.00 positions the second year to add staffing for the Capitol Police.

The additional staffing will be used to provide security services for the new public entrance to the State Capitol, at the Patrick Henry Building, and to provide a roving patrol within Capitol Square during the hours between 5:00 p.m. and 8:00 a.m. No funding for these positions will be allotted to the agency until such time as the Joint Rules Committee has approved the additional positions.)

Explanation:

(This amendment provides \$71,295 the first year and \$160,735 the second year from the general fund to the Division of Capitol Police to create a Patrol Officer II position class. The funding provided supports 15 Patrol Officer II positions the first year and 31 such positions the second year. Currently, 75 percent of the agency's turnover is composed of officers with fewer than five years of service. As presently constituted, a patrol officer must wait at least 3 years before consideration will be given for promotion to sergeant. This new position class would provide an intermediary step between the entry level position and the first ranked position. No funding will be provided to the agency until such time as the Joint Rules Committee has approved this new position class for the agency.)

Explanation:

(This amendment provides an additional general fund appropriation of \$100,000 in

the first year to the Department of Agriculture and Consumer Services' "Plant Pest and Disease Control" program to support the eradication of hydrilla on Lake Gaston. Hydrilla is an invasive plant species that interferes with recreation, destroys fish and wildlife habitats, and can severely impact water delivery systems. The federal government has appropriated \$495,000 and the City of Virginia Beach \$200,000 toward a \$1,720,000 budget of the Lake Gaston Weed Control Council. Five affected counties in Virginia and North Carolina each contribute \$40,000 to this effort.)

In order to provide improved services through up-to-date facilities as well as to achieve long-term cost savings, notwithstanding other provisions of the Code of Virginia, the Virginia School for the Deaf and the Blind at Staunton and the Virginia School for the Deaf, Blind, and Multi-disabled at Hampton shall be consolidated into

one school upon completion of any renovations, additions, or new facility construction at a site as determined by the State Board of Education with assistance from the Department of General Services.

2.a. The State Board of Education, assisted by the Department of General Services, shall use a Public-Private Education Act (PPEA) proposal to plan and design the consolidation of the Virginia School for the Deaf and the Blind at Staunton and the Virginia School for the Deaf, Blind and Multi-disabled at Hampton into a single campus and the transfer of students, programs and services to a single campus, the selected and named location site of the consolidated campus of which shall be incorporated into a PPEA proposal that will be accepted, reviewed and adopted by the State Board of Education no later than July 31, 2006.

b. The State Board of Education, assisted by the Department of General Services, is authorized to enter into an agreement for construction of the new school at a total cost not to exceed \$61.5 million and shall work in a collaborative manner to determine and submit a comprehensive plan for the consolidation that is within the designated amount of \$61.5 million by October 1, 2006.

3. The Departments of Education and General Services shall provide a report on the final location selected by the State Board of Education and on the planning and construction process to the Governor and the Chairmen of the House Committees on Education and Appropriations and the Senate Committees on Finance and Education and Health by August 15, 2006. At a minimum, the report shall address:

a. Revised cost estimates to complete the project within the allocated \$61.5 million authorized in the PPEA and proposed timelines for construction of the new facility for consolidating services for the students served by Virginia's two schools at Staunton and Hampton;

b. In cooperation with the Department of Planning and Budget, revised projected operating budgets for fiscal years 2007 through 2010, including any one-time transition costs;

c. The status of proposed mechanisms to assist school divisions with programs for children transferring into local school divisions rather than continuing enrollment at the new school location;

d. Detailed cost estimates of possible program enhancements, including specialized

technology, expanding services to include deaf children with emotional disabilities."

Explanation:

(This amendment provides the language to direct the State Board of Education to select a final site and final construction plans, by July 31, 2006, that will fit within the allocated \$61.5 million in order to complete the consolidation plan of the schools for the deaf, blind and multi-disabled.)

"34. Tuition Assistance Grant for Disabled Students Program
a. There is hereby established a Tuition Assistance Grant Program for Disabled

Students to provide grants for students with disabilities, for whom an individualized educational program has been written in accordance with regulations of the Board of Education, who attend a private school of choice. Students with disabilities include K-12 students who are autistic, mentally retarded, physically disabled, seriously emotionally disturbed, speech impaired, hearing impaired, visually impaired, multiple disabled, other health impaired or who have a specific learning disability, or who are otherwise disabled, as defined by the Board of Education.

b.1) The parent of a public school student with a disability who is dissatisfied with the student's progress may request and receive from the state a tuition assistance grant for the student to enroll in and attend a private school in accordance with this section if:

2. The student attended a public school of the Commonwealth for at least one year. This requirement shall not apply to a dependent child of a member of the United States Armed Forces who transfers to a school in the Commonwealth from out of state or from a foreign country pursuant to a parent's permanent change of station orders.

3. The parent has obtained acceptance for admission of an eligible student to a private school and has notified the school division of the request for a tuition assistance grant at least 60 days prior to the anticipated date of the grant payment. The parental notification shall be through a communication sent directly to the division or through the Department of Education to the division in a manner that creates a written or electronic record of the notification and the date of receipt of the notification.

c.1) The tuition assistance grant shall remain in force until the student returns to a public school or graduates from high school. However, at any time, the student's parent may remove the student from the private school and place the student in another private school that is eligible to receive tuition assistance grants under this section.

2) If the parent chooses a tuition assistance grant under this section and the student is accepted by the private school, pending the availability of space for the student, the parent of the student shall notify the school division 60 days prior to the anticipated date of the tuition assistance grant payment.

3) For a student who attends a private school and participates in the Tuition Assistance Grant Program whose parent requests that the student take the Standards of Learning tests or assessments, the division shall provide locations and times to take all such assessments.

d.1) To be eligible to participate in the Tuition Assistance Grant Program, a private school shall be a Virginia private school and shall:

2) Demonstrate fiscal soundness by being in operation for at least one year, or providing the Board of Education with a (i) statement by a certified public accountant confirming that the private school is insured and the owner or owners have sufficient capital or credit to operate the school for the upcoming year serving the number of students anticipated with expected revenues from tuition and other sources that may be reasonably expected; or (ii) surety bond or letter of credit for the amount equal to the scholarship funds for any quarter.

3) Notify the Board of Education of its intent to participate in the Tuition Assistance Grant Program under this section, specifying the grade levels and services that the private school has available for students with disabilities who are participating in the scholarship program.

4) Comply with the antidiscrimination provisions of 42 U.S.C. § 2000d.

5) Meet state and local health and safety laws and codes.

6) Employ or contract with teachers who hold baccalaureate or higher degrees, or have at least three years of teaching experience in public or private schools, or have special skills, knowledge, or expertise that qualifies them to provide instruction in subjects taught.

7) Hold a license to operate as a school for students with disabilities pursuant to Chapter 16 of Title 22.1.

8) Adhere to the tenets of its published disciplinary procedures prior to expulsion of a scholarship student.

e. A parent who applies for the Tuition Assistance Grant Program is exercising the parental option to place the child in a private school and thus shall select the private school and apply for the admission of the child.

The parent shall request the tuition assistance grant at least 60 days prior to the anticipated date of the tuition assistance grant payment.

Any student participating in the tuition assistance grant program shall remain in attendance throughout the school year, unless excused by the school for illness or other good cause, and shall comply fully with the school's code of conduct.

The parent of each student participating in the tuition assistance grant program shall comply fully with the private school's parental involvement requirements, unless excused by the school for illness or other good cause.

If the parent requests that the student participating in the tuition assistance grant program take all Standards of Learning tests required by the Standards of Accreditation, the parent shall be responsible for transporting the student to the assessment site designated by the school division.

f. School funds issued on behalf of participating students pursuant to this chapter shall be dispersed by warrant from the Superintendent of Public Instruction, directly to the school in which the student is enrolled.

A participant who fails to comply with this subsection shall forfeit the tuition assistance grant.

The amount of the tuition assistance grant approved for an eligible student with disabilities shall be calculated in accordance with the appropriation act and shall not exceed the average state share of per pupil expenditures.

Nothing in this chapter shall give rise to any liability on the part of the Commonwealth based on the award or use of a grant from the Tuition Assistance Grant Program.

The Board of Education shall issue guidelines to administer this chapter and aid local school divisions and private schools in the implementation of the Tuition Assistance Grant Program."

Explanation:

(This amendment provides language that establishes a Tuition Assistance Grant Program for disabled students, as defined by the State Board of Education. In addition, the grant program would provide funding to a qualified private school that the student would attend if not enrolled in a public school. The grant amount would be equal to the state's share of funding as determined by the appropriations act).

Explanation:

(This amendment reduces \$560,000 the first year and \$560,000 the second year from the general fund due to lower estimated participation in the School Breakfast program. The School Breakfast program provides \$0.20 per meal served of state support to those school divisions who choose to participate. The revised lower funding will match the requested funding from school divisions in fiscal year 2006.)

The Department of Education shall submit, upon

completion of the participation cycle of the first cohort of school divisions, but not later than September 1, 2007, the comprehensive report to the Chairmen of the House Appropriations and Senate Finance Committees. The report will be used as an evaluation tool to determine the pilot program's merits and whether it should be implemented in other school divisions."

Explanation:

(This amendment eliminates the general fund support in the Education for a Lifetime initiative for the Hard-to-Staff Schools. The amendment saves \$3.7 million the first year and \$2.4 million the second year from the general fund. However, the pilot program may continue with the current federal No Child Left Behind Title II, Part A, Teacher and Principal Training and Recruitment funds, as allocated by the Department of Education.

The amendment's language requires that the Department of Education develop and submit a comprehensive report that demonstrates the merits of the pilot program and any impact that the pilot has had on the participating school divisions' teacher recruitment and retention along with the nexus to improved student achievement.)

The State Council of Higher Education, in consultation with the Healthcare Workforce Task Force described herein, shall develop and recommend criteria for awarding additional state funds via a competitive grant process to innovative regional public-private sector partnerships that seek to maximize the number of newly licensed nurses and increase the supply of graduate nursing faculty. The Healthcare Workforce Task Force will develop criteria for the grant award process, identify aggressive attainment goals, establish mechanisms to monitor results and recommend program scope for the Council and policy makers to consider. The Task Force will be co-chaired by the Secretaries of Education and Health and Human Resources and will also include two members of the Senate appointed by the President pro tempore and three members of the House of Delegates appointed by the Speaker of the House. In addition to these seven policy makers, the Task Force will include six individuals appointed by the co-chairs with experience and knowledge of nursing and other allied health professional supply, training and practice issues as follows: two higher education leaders, two business leaders and two hospital or health system executives. The criteria developed by the Task Force for reviewing potential grant applications will reward a) regions that demonstrate partnerships between education institutions and healthcare employers for addressing the registered nursing shortage; b) applicants that document past, current and new matching private funds applied toward registered nurse education (to leverage potential public funds); c) innovative and cost-effective plans that expand the output of registered nurses (e.g., standardized curricula, improved retention rates and improved pass rates on licensure exams); and d) partnerships that demonstrate a desire and capability to be held accountable for results. The Council and Healthcare Workforce Task Force shall submit a report on the healthcare workforce competitive grant program scope, criteria and structure to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees by September 1, 2006.

A. Out of this appropriation, \$354,057,244 the first year from the general fund attributable to actual tax collections for fiscal year 2005 shall be paid into the Revenue Stabilization Fund pursuant to § 2.2-1829, Code of Virginia, by the State Comptroller on or before June 30, 2007, based on the certification of the Auditor of Public Accounts of actual tax revenues for fiscal year 2005. This appropriation meets the mandatory deposit requirement of Article X, Section 8 of the Constitution of Virginia.

B. Out of this appropriation, \$95,000,000 the second year from the general fund shall be paid by the State Comptroller on or before June 30, 2008, into the Revenue Stabilization Fund pursuant to § 2.2-1829, Code of Virginia. This amount represents an estimate of the required deposit to the Revenue Stabilization Fund attributable to tax collections for fiscal year 2006, which the Auditor of Public Accounts shall determine for the year ending June 30, 2006.

C. On or before November 1 of each year, the Auditor of Public Accounts shall report to the General Assembly the certified tax revenues collected in the most recently ended fiscal year. The Auditor shall, at the same time, provide his report on the 10 percent limitation and the amount that could be paid into the Fund in order to satisfy the mandatory deposit requirement of Article X, Section 8 of the Constitution of Virginia as well as the additional deposit requirement of § 2.2-1829, Code of Virginia."

Explanation:

(This amendment provides for the constitutionally required deposit to the Revenue Stabilization Fund in fiscal year 2007 as certified by the Auditor of Public Accounts based on final fiscal year 2005 revenue collections. This amendment also contains an appropriation for the Revenue Stabilization Fund for fiscal year 2008, based on preliminary assumptions about fiscal year 2006 revenue collections. The actual amount required for fiscal year 2008 will not be determined until certified by the Auditor of Public Accounts on November 1, 2006, based on actual fiscal year 2006 collections. A companion amendment to House Bill 29 removes the prepayment of the fiscal year 2007 deposit to ensure that transfers out of the Fund are not required. The Auditor of Public Accounts indicates that proposing a deposit in excess of the calculated Fund maximum is contrary to the constitutional provisions regarding the Revenue Stabilization Fund.)

Out of the amounts appropriated for Insurance Services, there shall be paid for the relief of Phillip Thurman from the general fund, upon execution of a release of all present and future claims he may have against (i) the Commonwealth or any instrumentality, officer, employee, or political subdivision thereof, (ii) any legal counsel appointed pursuant to § 19.2-159, Code of Virginia, and (iii) all other parties of interest, (a) the sum of \$100,000 to be paid to Phillip Thurman on or before August 1, 2006, by check issued by the State Treasurer on warrant of the Comptroller and (b) the sum of \$338,598 to purchase an annuity for the primary benefit of Phillip Thurman providing equal monthly payments for a period of 15 years commencing on or before September 1, 2006.

C. The State Treasurer shall purchase the annuity at the lowest cost available from any A+ rated company authorized to sell annuities in the Commonwealth, including any A+ rated company from which the State Lottery Department may purchase an annuity. The annuity shall provide that it shall not be sold, discounted, or used as securitization for loans and mortgages. The annuity shall, however, contain beneficiary provisions providing for the annuity's continued disbursement in the event of the death of Phillip Thurman to his children and his spouse upon his death."

Explanation:

(This amendment provides \$438,598 the first year from the general fund for the relief of Phillip Thurman, who spent 20 years in prison for crimes for which he was later exonerated based on DNA evidence. Mr. Thurman receives \$100,000 upfront in cash, and \$338,598 through monthly payments from a 15-year annuity.)

The committee shall forecast and track for each fiscal year through fiscal year 2012: (i) the number of inmates presently incarcerated in the Department of Corrections and approaching release who meet the criteria set forth in House Bill 1038 (2006 Session) and may be eligible for evaluation as sexually violent predators; (ii) the number of Commitment Review Committee (CRC) evaluations to be completed; (iii) the number of eligible inmates recommended by the CRC for civil commitment, conditional release, and full release; (iv) the number of civilly committed residents of the Virginia Center for Behavioral Rehabilitation who are eligible for annual review; and (v) the number of individuals civilly committed to the Virginia Center for Behavioral Rehabilitation and granted conditional release from civil commitment in a state SVP facility. At a minimum, the forecast committee shall include representatives from: the Department of Mental Health, Mental Retardation

and Substance Abuse Services (DMHMRSAS) Office of SVP Services, the Department of Corrections, the Office of the Attorney General, the Department of Planning and Budget, the Senate Finance and House Appropriations Committee Staff, the Crime Commission, the Virginia Criminal Sentencing Commission and other entities as deemed appropriate. The Secretary shall complete a summary report of current SVP cases and a forecast of SVP-eligibility, civil commitments, and SVP conditional releases, including projected bed space requirements, to the Governor and Senate Finance and House Appropriations Committees by October 1 of each year.

2. As part of the forecast process, the Department of Corrections shall administer a STATIC-99 screening to all potential Sexually Violent Predators eligible for civil commitment pursuant to § 37.2-900 et seq., Code of Virginia, within 6 months of admission to the Department of Corrections. The results of such screenings shall be provided to the Commissioner of DMHMRSAS on a monthly basis and used for the SVP population forecast process.

3. The Office of the Attorney General shall also provide to the Commissioner of DMHMRSAS, on a monthly basis, the status of all SVP cases pending before their office for purposes of forecasting the SVP population."

Explanation:

(This amendment requires the Secretary of Health and Human Resources to set up a forecast process for estimating the number of individuals who may be released from prison and civilly committed as sexually violent predators to a state facility or granted conditional release and require monitoring and/or treatment. The Virginia Department of Health, in consultation with the Trauma System Oversight and Management Committee, shall review the criteria used to distribute funding to the trauma centers and make refinements as necessary to encourage existing trauma centers to upgrade their trauma designation. The Department shall report on the use of those funds in improving Virginia's trauma system to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees by December 1 of each year."

Explanation:

(This amendment provides additional funding to Virginia's 14 trauma centers to offset uncompensated care losses attributable to treating uninsured patients, inadequate reimbursement from public payors and the need to maintain operations in a state of readiness to treat trauma patients any time of the day and night. The Virginia Department of Health currently distributes funding to the trauma centers through the Trauma Center Fund. The Trauma Center Fund was established for the purpose of defraying the costs of providing emergency medical care to victims of automobile accidents attributable to alcohol or drug use. It is comprised of moneys paid into it by (i) those who are convicted of two or more DUI-related offenses within 10 years (\$50 fee), and (ii) those applying for reinstatement of suspended or revoked driver's licenses

(\$40 fee). Fees collected for this purpose are estimated to total \$4.2 million in FY 2006. Language requires the department to review the criteria used in distributing money in the fund and to make changes as necessary to encourage trauma centers to upgrade their trauma designation. Further, the department is required to report on the use of funds to improve the trauma system in Virginia.)

New statutory language was passed by the 2004 General Assembly which realigned the funding formula guiding the distribution of the \$4-for-Life funding. However, the new distribution formula was contingent upon receipt of the full amount of \$4-for-Life funding which will occur beginning July 1, 2007. The implementation of the new formula makes the current language in the budget related to this distribution obsolete. In addition, language is added to clarify that funding provided to the Department of State Police for med-flight operations will be provided from the Rescue Squad Assistance Fund, thereby ensuring that the new funding formula adopted for \$4-for-Life will be effective on July 1, 2007.)

The Day Support waiver was designed to serve 300 individuals with an original appropriation of \$2.9 million from the general fund and \$2.9 million from matching federal Medicaid funds, effective July 1, 2005. During the design of the waiver, the department estimated that the addition of supported employment would have an additional cost impact, which could impact the number of individuals who could be served by the waiver. Currently, more than 200 individuals receive services through the Day Support waiver. Supported employment would be an appropriate addition to the continuum of services to better serve these individuals. (This amendment adds language directing the Department of Medical Assistance Services to request any clinical laboratory performing a serum creatinine test on a Medicaid recipient over the age of 18 years to calculate and to report the estimated glomerular filtration rate (eGFR) of the patient to the physician. The eGFR is a calculation which measures how well a patient's kidneys are filtering wastes from the blood. Currently, physicians are required to ask for this calculation. Explanation:

(This amendment reduces \$16.1 million from the general fund each year to reflect a lower estimate of the Medicare Part D "clawback" payment. The introduced budget included \$16.3 million the first year and \$20.2 million the second year for the clawback, a general fund payment to the federal government for the Medicare Part D prescription drug benefit. Based on downward revisions to the projected growth in

pharmacy spending from calendar year 2003 to 2006, the federal government reduced the commonwealth's annual payment amount. The overall general fund impact of the new prescription drug benefit under the federal Medicare Part D remains sizeable -- \$48.2 million for the biennium -- but less than the previous estimate of \$80.4 million.)

for individuals with severe behavioral difficulties are covered under therapeutic consultation services."

Explanation:

(This amendment directs the Department of Medical Assistance Services to modify the Mental Retardation Waiver and Individual and Family Developmental Disabilities Support Waiver programs to ensure that applied behavioral analysis for individuals with autism or autistic spectrum disorders and positive behavioral supports for individuals with severe behavioral difficulties are covered under therapeutic consultation services. Therapeutic consultation services are currently available under both of these waivers. Intensive, comprehensive treatment of children at early stages in their development who are at high risk for autism or autistic spectrum disorders using applied behavior analysis methods has shown promise in helping these children become ready for school and avoid more costly treatment later in life. For some children, this type of early intervention has resulted in the avoidance of special education services. The Mental Retardation Waiver provides home- and community-based services to children under age six and the Individual and Family Developmental Disabilities Support Waiver provides services to children over the age of six who have developmental disabilities and who, without such services, would require institutional services. Positive behavioral supports is another behavioral treatment modality that may be provided under therapeutic consultation services. This modality decreases the need for more intrusive interventions to eliminate challenging behaviors for both children and adults.)

This amendment maintains the reimbursement policy adopted by the 2005 General Assembly that increased the payment adjustment factor from 75 to 76 percent in fiscal year 2006 for Type 2 hospitals. Explanation:

(This amendment provides funding for a five percent rate increase for skilled nursing services provided through two Medicaid home- and community-based waiver programs -- the technology assisted waiver and the AIDS waiver programs. This brings the rate for skilled nursing services up to a level equivalent to that provided for skilled nursing services provided through the Mental Retardation (MR) and Individuals and Family Developmental Disabilities Support (DD) waiver programs. Actions by the 2004 and the 2005 General Assembly provided an additional five percent increase for MR and DD waiver services beginning July 1, 2005, including skilled nursing services provided through those waiver programs. Rates for private-duty and skilled nursing would increase from \$30.00 per hour to \$31.50 per hour for Registered Nurses (RNs) and from \$26.00 per hour to \$27.30 per hour for Licensed Practical Nurses (LPNs) in Northern Virginia. In the rest of the state rates for RNs would increase from \$24.70 per hour to \$25.94 per hour and rates for LPNs would increase from \$21.45 per hour to \$22.52 per hour.)

The Secretary of Public Safety, in conjunction with the Director of the Department of Corrections, shall provide a status report on the implementation and operation of the jail transition programs administered by the department. The report shall address: (1) the participating jails, date the jail joined the program, and whether the department or other organizations are contracted to administer the programs; (2) services provided to inmates participating in the program; (3) the status of inmates released from custody through the program in fiscal year 2005; (4) factors affecting utilization or expansion of the program; and (5) the impact of the program on the department's ability to address the backlog of state-responsible inmates in local and regional jails. In addition, such report shall include an evaluation plan for determining the efficacy of the pilot program. This report shall be provided to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees no later than October 1, 2006."

Explanation:

(This amendment requires the Secretary of Public Safety to provide a status report on the implementation and operation of the Department of Corrections' jail transition program that was implemented in fiscal year 2004.)

"C. The Virginia Information Technologies Agency, in consultation with the state agencies that rely upon the products of the Virginia Base Mapping Program (VBMP), shall develop an internal service fund providing for an equitable rate structure supporting updates to the Commonwealth's base map and digital centerline files, the updates to which are to be undertaken every four years, beginning with the next scheduled update in fiscal year 2010. The Virginia Information Technologies Agency shall report on the development of this internal service fund rate structure and the agency's plans to fully fund the acquisition of all work products directly related to digital orthophotography to the Governor, the Chairmen of the House Appropriations and Senate Finance Committees, and the Joint Legislative Audit and Review Commission by October 1, 2006. It is the intent of the General Assembly that the new internal service fund be effective by July 1, 2008."

Explanation:

(This amendment provides authorization for the Virginia Information Technologies Agency to develop an internal service fund to finance future updates to the Virginia digital base map and centerline files used for the provision of E-911 services, state and local economic development efforts, state and local emergency management planning, and other services. The internal service fund is to be developed by VITA in consultation with the state agencies that rely on these digital orthophotographic files. Prior to the internal service fund's operation, the agency must report on the development of the internal service fund as well as its plans to acquire the needed work products and files.)

across the Commonwealth as set out in subparagraphs a through c below.

a. Pursuant to the provisions of House Bill 1257, 2006 Session of the General Assembly, from these amounts, the portions of the one-third of the insurance license tax revenues attributable to Northern Virginia and Hampton Roads based on each region's share of the state's total population shall be transferred, respectively, to the Northern Virginia Transportation Investment Fund and to the Hampton Roads Transportation Investment Fund. The amounts to be deposited into the Northern Virginia Transportation Investment Fund are estimated at \$37,476,000 in the first year and \$39,609,000 in the second year. The amounts to be deposited into the Hampton Roads Transportation Investment Fund are estimated at \$30,536,000 in the first year and \$32,274,000 in the second year.

b. From the amounts included in paragraph A.2., \$27,500,000 the first year and \$29,100,000 the second year shall be transferred to Item 437 of this act for Mass Transit Capital Assistance. Such appropriation is that portion of those revenues dedicated to transportation in Enactment 10 of Chapters 1019 and 1044 of the Acts of Assembly of 2000 not attributable to the insurance license tax on automobile premiums, and shall be used on an on-going basis to provide the additional state share allocated by the Commonwealth Transportation Board for the statewide Capital Assistance program. Such funds deposited each year are to be in addition to and shall not diminish the amounts provided to mass transit as the local share or the amount provided from the Commonwealth Mass Transit Fund. As a condition of receiving such funding, no locality may reduce its total contribution to mass transit below the amount provided in fiscal year 2006. Any funds not required to be allocated to achieve the purpose outlined in § 58.1-638 A.4.f., Code of Virginia, shall be allocated by the Commonwealth Transportation Board for Formula Assistance for distribution under that program.

c. The remaining amounts made available in paragraph A.2. of this item, estimated at \$43,288,000 in the first year and \$45,717,000 in the second year, shall be used to meet the costs of highway system maintenance and operations.

3. In addition to the amounts provided for the Northern Virginia Transportation Investment Fund and the Hampton Roads Transportation Investment Fund in paragraph A.2.a. of this item, there also shall be provided \$30,000,000 in the first year and \$40,000,000 in the second year from the general fund, representing a portion of the revenues generated by the recordation tax, which shall be dedicated to these regional programs. Of this amount, \$20,000,000 in the first year and \$25,000,000 in

the second year shall be deposited into the Northern Virginia Transportation Investment Fund and \$10,000,000 in the first year and \$15,000,000 in the second year shall be deposited into the Hampton Roads Transportation Investment Fund.

4. Out of this appropriation, \$37,400,000 the first year and \$37,400,000 the second year from the general fund shall be transferred to Item 447 of this act and deposited into the Priority Transportation Fund and be used to offset debt service payment requirements on the Transportation Trust Fund attributable to the \$317,000,000 of Federal Highway Reimbursement Anticipation Notes issued to replace the moneys diverted to the general fund in fiscal year 2003. This appropriation continues the General Assembly's commitment to repaying that debt from the general fund.

5. Out of this appropriation, \$600,000,000 the first year is provided from the general fund, which shall be used to expedite the completion of highway, rail and mass transit projects across the Commonwealth, as set out in the sub-paragraphs 5.a. through 5.e. below:

a. From these amounts, \$110,400,000 the first year is provided from the general fund for the required match not otherwise available from other Commonwealth revenues for Congressionally designated projects included in P.L. 109-59 of the 109th Congress. Such funds shall be deposited into the Transportation Trust Fund and used to advance these projects in accordance with federal laws, guidance, and/or regulations. Upon federal notification and/or approval, the Director, Department of Planning and Budget, shall transfer the appropriation to the managing state agency. From this appropriation of \$110,400,000 from the general fund, an amount estimated at \$20,900,000 shall be transferred to the Department of Rail and Public Transportation to provide the match for Congressionally designated rail and transit projects. These funds shall be available to match designated highway, rail, mass transit and operations projects but shall not be used to provide a match for facilities designated in the federal act such as trails or heritage, music, interpretive and visitors centers.

b. From these amounts, \$38,100,000 the first year from the general fund is provided for transit capital projects, which shall be transferred to Item 437 of this act as follows: \$20,000,000 the first year to the Washington Metropolitan Area Transit Authority for capital improvements, including railcar storage improvements; \$15,000,000 the first year for the Virginia Railway Express rolling stock purchases; and \$3,100,000 the first year for Hampton Roads Transit for the purchase of hybrid-electric buses to serve the City of Norfolk. Hampton Roads Transit is hereby authorized to utilize an additional \$3,100,000 from the nongeneral fund money made available to them through the state

transit capital program to complete their planned cycle of hybrid-electric vehicle replacements in Norfolk.

c. From these amounts, \$71,600,000 the first year from the general fund is provided for rail projects, which shall be transferred to Item 438 of this act as follows: \$45,000,000 for rail upgrades in the corridor from Manassas to Front Royal to facilitate passenger and freight rail along that corridor and allow diversion of truck traffic from Interstate 81; \$17,600,000 for a plan of improvements to the Powell's Creek to Arkendale segment of the CSX rail line in the Fredericksburg to Washington, D.C., corridor. This funding will be used to supplement funding previously appropriated to this project from the Rail Enhancement Fund and expedite the project but shall not be used to reduce commitments from that Fund to the remaining costs of the project; and \$9,000,000 for an intermodal facility and associated safety and road improvements in the Rt. 460 Corridor to create transportation access to further promote and expand the economic opportunities created by port facilities located within the Commonwealth.

d. From these amounts, \$14,000,000 the first year from the general fund is provided for the preliminary engineering and design of the Craney Island Marine Terminal, which shall be transferred to Item 453 of this act.

e. From these amounts, \$365,900,000 the first year from the general fund shall be transferred to Item 443 of this act and used for highway construction projects as follows: 1) \$30,000,000 the first year from the general fund to complete the funding for the construction of the I-264/64 Interchange; 2) \$95,000,000 to complete the funding to widen Interstate 66 westbound to three lanes from the Virginia line to Falls Church; 3) \$15,000,000 to complete the funding for construction of the grade separations and rail relocations along Route 164; 4) \$6,000,000 to complete the four-laning project of the section of Sycolin Road in the Town of Leesburg from Hope Drive to the vicinity of Leesburg Airport; 5) \$25,000,000 for improvements to Route 7 from Reston Parkway to Tyco Road; 6) \$15,000,000 for improvements to Route 1 in Prince William County; 7) \$7,500,000 to complete funding for the fourth lane Interstate 95 project scheduled for advertisement in July 2007; 8) \$5,600,000 to complete Phase 1 of the Russell Road improvements which include the widening of Russell Road from two to four lanes from the Quantico Back Gate to Route 1 to address the recommendations of the Northern Virginia BRAC working group; 9) \$10,000,000 for improvements to the Interstate 264/Lynnhaven Road interchange; 10) \$25,000,000 for improvements to Route 460; 11) \$10,000,000 for improvements to Fort Eustis Boulevard; 12) \$15,000,000 for improvements to Route 17 between Route

134 to Route 630; 13) \$30,000,000 to widen Interstate 64 between Broad Street and Route 288; 14) \$75,000,000 for Interstate 81 to manage freight movement and make safety improvements by constructing climbing lanes for trucks, improving dangerous and/or congested segments based on existing safety and traffic studies, and make driver safety improvements along the corridor using technology, intelligent transportation systems and enforcement programs as set out in the Transportation System Management Plan under the environmental impact statement completed for that corridor; and 15) \$1,800,000 for the Garrisonville Park and Ride lot in Stafford County.

6. Out of this appropriation, the first \$35,000,000 collected in the first year and the first \$35,000,000 collected in the second year pursuant to the provisions of House Bill 527, 2006 Session of the General Assembly, shall be transferred to Item 488 of this act and shall be allocated to the Local Revenue Sharing Program established pursuant to House Bill 681, 2006 Session of the General Assembly. These funds shall be used to incentivize local participation in transportation improvements. In conjunction with other funding provided in Item 488 of this act for local revenue sharing, this provides \$50,000,000 in the first year and \$50,000,000 in the second year for this program.

7. Out of this appropriation, after funding has been provided for the provisions of paragraph 6 of this item, the next \$25,000,000 collected the first year and the next \$25,000,000 collected the second year pursuant to the provisions of House Bill 527, 2006 Session of the General Assembly, shall be deposited into the Transportation Partnership Opportunity Fund to support timely and cost-effective construction and acquisition of transportation facilities pursuant to the Public-Private Transportation Act of 1995, as amended, and design-build projects authorized pursuant to § 33.1-12(b), Code of Virginia.

8. Out of this appropriation, after funding has been provided for the provisions of paragraphs 6 and 7 of this item, all remaining revenues generated from the penalties established pursuant to the provisions of House Bill 527, 2006 Session of the General Assembly, shall be deposited into the Local Congestion Fund as established by that legislation. Sums available for this program shall be allocated on a grant basis, as administered by the Commonwealth Transportation Board. Amounts available are estimated at \$33,900,000 in the first year and \$76,810,000 in the second year. The first priority for funding from revenues made available in this paragraph shall be for constructing a traffic light on Route 638 between Route 644 and the Route 7100 in Fairfax County with necessary roadway improvements at Barrack Road, and another light at a place to be determined by VDOT to allow left turns onto Route 638 by

residents living on the East Side of Route 638."

"A.1. The amounts provided in the subprogram Administrative and Support Services shall be expended for the Enterprise Applications Public-Private Partnership Project

Office. The Project Office shall be headed by a Director, selected by the Governor to serve under a six-year contract. The Project Office Director shall be a state employee; however, his position shall not be considered an agency head for purposes of § 4-6.00 of this act. The Information Technology Investment Board shall review and approve the Director's qualifications prior to finalizing the contract. The Director shall report directly to the Governor.

2. The Project Office Director shall have all the powers necessary to direct the Commonwealth's efforts to modernize central administrative systems through the Enterprise Applications Public-Private Partnership. Specifically, the Director shall (a) have authority to hire staff necessary to support the Project Office and such employees shall be considered state employees, except such positions shall be restricted to the life of the partnership project; (b) develop an implementation strategy with milestones, deliverables and funding requirements for presentation and approval of the Information Technology Investment Board and Governor; (c) plan, coordinate, monitor and control individual agency involvement; (d) prioritize efforts to ensure the implementation strategy is executed as planned and approved; and (e) monitor development efforts and provide reports to the Governor, the Information Technology Investment Board, and the Chairmen of the House Appropriations and Senate Finance Committees, as requested.

3.a. All Executive Department agencies and institutions shall comply with the directives and requirements established by the Director.

b. The Project Office Director shall report unacceptable agency cooperation to the affected Cabinet Secretary, the Governor's Chief of Staff, and Chairmen of the House Appropriations and Senate Finance Committees. The Chief of Staff may direct the Project Office to assume responsibility for the management of an agency's enterprise applications-related work for the period of time considered necessary by the Project Office Director.

c. For agencies whose enterprise applications management efforts are the responsibility of the Project Office, the Project Office shall have responsibility for operational decisions relative to the enterprise applications efforts.

4. Legislative, Judicial, and Independent agencies, and institutions of higher education, shall work cooperatively with the Project Office Director to ensure the successful completion of the Enterprise Applications Public-Private Partnership activities.

5. The Director shall make reports no less than quarterly as follows: (i) to the Governor and Chairmen of the House Appropriations and Senate Finance Committees on major aspects of the Partnership, including status of funding needs, areas of risk, and major problems and implications, and (ii) to the Information Technology Investment Board that compare actual performance to the milestones, deliverables and funding in the approved implementation strategy.

B. The amounts provided in the subprogram Enterprise Architecture Development Services shall be expended to support the Enterprise Applications Master Services Interim Agreement between the Commonwealth of Virginia and CGI-AMS, pending approval of the comprehensive agreement by the Information Technology Investment Board, to perform the following activities: (1) for each business process, (a) document the system requirements, recommended solutions, and an implementation plan for review and approval by the Governor and the Information Technology Investment Board, and (b) identify existing policy and statutory conflicts that are impediments to the recommended solution and a plan for managing those conflicts; and (2) work towards enhanced collections and cost recoveries above current baselines through specific management agreements with involved agencies with the appropriate approval of the Attorney General. Work on enhanced collections and recoveries shall not proceed if they commit the Commonwealth to expanding or significantly altering any existing federal or state program without the review and approval of the Governor and General Assembly.

C. 1. The amounts appropriated in this item shall be held in the Virginia Technology Infrastructure Fund as established by § 2.2-2023, Code of Virginia, and shall only be available for the purpose of this item after approval of their use by the Information Technology Investment Board.

2. The Project Office Director shall prepare a budget of administrative cost for the Information Technology Investment Board to review and consider providing such amount does not exceed the amount appropriated in this item. The Information Technology Investment Board shall review and approve the budget and therefore release the funds for such use. The Project Office Director shall prepare and submit quarterly reports to the Information Technology Investment Board of how the Project Office Director is spending these funds.

3. Within subprogram Enterprise Architecture Development Services, the Project Office Director shall prepare and submit a budget for each business process and other activities in accordance with paragraph B of this item. The budget shall include the

amount, if any, of salary and other costs that participating agencies will incur for their involvement in the business process and activity as set forth in paragraph A.2. The Information Technology Investment Board shall review and approve the budget for each business process and other activity and therefore release the funds for such use. The Project Office Director shall prepare and submit quarterly reports to the Information Technology Investment Board of how the Project Office Director is spending these funds.

D. Moneys resulting from enhanced collections and cost recoveries pursuant to Item B.2. shall be held in the Virginia Technology Infrastructure Fund as established by § 2.2-2023, Code of Virginia. Except for amounts appropriated and held in the Fund as described in paragraph C, no moneys shall be used for additional work on Enterprise Applications Public Private Partnership activities without the approval of the Information Technology Investment Board, who shall inform the Governor, the Chairmen of House Appropriation, House Finance and Senate Finance Committees of the anticipated use. The Information Technology Investment Board shall inform any vendor that these additional funds are subject to review and approval by the General Assembly.

E. The Department of Planning and Budget shall not take any administrative actions to reduce these amounts without notification to the Chairmen of House Appropriation and Senate Finance Committees.

F. No funds shall be used from this item to pay any costs incurred before July 1, 2006, related to the Enterprise Applications Master Services Agreement dated December 30, 2005."

Explanation:

(This amendment alters language contained in the introduced budget governing the analysis of the Commonwealth's business systems and the procurement of replacement systems. The language provides general fund support for the creation of the Enterprise Applications Public-Private Partnership Project Office, under the direction of a director who will be appointed by the Governor for a six-year term. The director can hire staff, develop an implementation plan for presentation to and approval by the Information Technology Investment Board (ITIB), coordinate, monitor, and control state agency involvement, prioritize efforts to execute the approved implementation plan, and report on the success of implementation to the Governor and General Assembly. Funding is also provided to support a comprehensive agreement between the Commonwealth and a consulting firm for various services once approved by the

ITIB. However, until the consulting contract and a program budget prepared by the project office director have been approved by the ITIB, all funding for the consulting services contract shall be held a Virginia Technology Infrastructure Fund. Similarly, any amounts produced by the consulting firm's efforts to enhance the Commonwealth's collection of past due debts or federal funds shall be placed into this fund.)

(This amendment provides \$500,000 the first year from the general fund to Northern Virginia Family Service to retire the remaining construction debt for the Georgetown South Community Center, a \$1.5 million facility that opened on June 24, 2004. This center provides a range of community services, including: Early Head Start services, prenatal care and immunizations, primary care services, nutrition education, anti-gang programs, and job training, as well as serving as a site for other community events and meetings. The center's construction received support from a variety of local governments, businesses, churches, and community organizations, and those organizations continue support its ongoing operations. An asterisk has been added to the organization's title to indicate this grant shall not be subject to the matching fund requirements included in §§ 2.2-1505 and 10.1-2213, Code of Virginia, or § 4-5.05 of this act.)

Explanation:

(This amendment provides \$50,000 the first year from the general fund to the Valentine Richmond History Center, located in Richmond, which is a member of the Association for the Preservation of Virginia Antiquities and Historic Richmond Foundation. Funding will be used to promote historic sites and museums adjacent to Capitol Square in conjunction with the Commonwealth's 400th anniversary celebration at the State Capitol. These sites and museums include the Valentine Richmond History Center, First African Baptist Church, Monumental Church, and the John Marshall House. The custodian of these funds will be the Valentine Richmond History Center.)

Explanation:

(This amendment provides \$500,000 the first year from the general fund to the Virginia War Museum, which is located in the City of Newport News. The Virginia War Museum is an official war memorial museum of the Commonwealth of Virginia, and it is the oldest museum within the City of Newport News. It greatly needs to expand its interpretation of America's most recent conflicts - including Panama, Desert Storm and Afghanistan - as global threats to American security have witnessed a transformation in the role of the military. The museum must interpret the military's changing role as well as honor those who have defended our freedom throughout the world. To do this, the museum must expand its front entrance area and add more space for exhibits.)

The funds will support the continuing capital improvements to the Endview Plantation historic site. Endview Plantation was originally built in the mid-eighteenth century and was sold to the City of Newport News by the plantation's heirs in the mid-1970s. Archeologists discovered the brickwork pattern of a kitchen outbuilding at the Endview Plantation. The foundation of the kitchen includes a brick chimney wall. The reconstruction and restoration of the kitchen will help recreate the historic landscape of this structure, and it will be utilized as an important component of living history interpretation to include African-American historical interpretation tracing the transition from slavery to contraband to freedom.)

Explanation:

(This amendment provides \$100,000 the first year from the general fund to the Fort Lee Quartermaster Museum Foundation, which is located in Fort Lee. Since 1957 the Quartermaster Museum has preserved the history and heritage of the U.S. Army Quartermaster Corps, the Army's oldest logistic branch. For more than two centuries Quartermaster soldiers have fed, clothed and equipped the United States Army. The mission of the Museum is to collect, preserve, exhibit and interpret the history of the Quartermaster Corps from its birth in 1775 to the present. To this end, the Museum has collected over 23,000 artifacts relating to the Corps' history and has assembled thousands of documents relating to Quartermaster Corps history. The funding will support a construction project for a new entrance to Museum. The new entrance will direct new visitors to both the Quartermaster Museum, the U.S. Army Women's Museum and possibly secure two new museums. The request is geared to support Fort Lee's additional BRAC-related staffing.)

(This amendment provides \$100,000 the first year from the general fund to the Foundation of Virginia Recreation & Park Society, which is located in Mechanicsville. The mission of the Foundation is to produce an annual statewide athletic and wellness event for Senior Athletes who are at least 50 years old. Virginia Recreation and Park Society is an official qualifying venue for the National Senior Games. Calendar year 2006 will be the 28th consecutive year of its operation. This is a proactive prevention program for the citizens of Virginia ages 50 and older.)

1. Virginia State University is authorized to enter into a long-term lease or other written agreements with the Virginia State University Real Estate Foundation (VSUREF) for the development, design, construction and financing of the new Campus Dining Facility. The University currently has one dining facility, Jones Dining Hall. Due to the predicted steady increase in student enrollment, construction of a new dining facility is required to meet the dining needs of the students, faculty, staff and campus visitors. To provide a logical balance in distance from the present Jones Dining Hall, the new Campus Dining Facility will be located in the proximity of the Student Village and the proposed Campus Gateway Housing Complex. VSUREF will develop this dining facility to be an integral part of and in support of the Virginia State University dining system needs.

2. Virginia State University, with approval from the Governor, is further authorized to enter into written agreements with a public or private entity to support such a dining facility. The support may include agreements to (i) manage the operation and maintenance of the facility, including collection of dining fees, and (ii) otherwise support the dining facility consistent with law, provided that the University shall not be required to take any action that would constitute a breach of the University's obligations under any documents or other instruments constituting or securing bonds or other indebtedness of the University or the Commonwealth of Virginia."

Gateway Housing Complex which is approved as part of the Virginia State University Housing Master Plan Phase I, with a size modification. Current housing needs have forced Virginia State University to a) expand upon the initial size and scope of the Campus Gateway Housing Complex and b) reduce the construction time frame of the new residential housing facility. The Campus Gateway Housing Complex will be constructed on the northeast approach to campus and will provide an aesthetic enhancement to the most widely used campus entrance. The Campus Gateway Housing Complex, with the increase in size, will be a 500-bed housing complex that will provide suite-style living quarters for Virginia State University students. VSUREF will develop this housing complex to be an integral part of the Virginia State University housing system, in support of the University's housing needs.

1. The Department of Mental Health, Mental Retardation and Substance Abuse Services, with the concurrence of the Secretary of Health and Human Resources, is hereby authorized to design and construct, or permit the design and construction of, a replacement facility for the existing Eastern State Hospital. The Department is authorized to enter into a comprehensive agreement pursuant to the Public-Private Partnership Educational Facilities and Infrastructure Act of 2002 for the design and construction of the facility under a capital lease agreement, the term of which shall not exceed 20 years, or by financing through the Virginia Public Building Authority or other appropriate mechanism for a principal amount not to exceed \$59,715,000.
2. The purpose of the solicitation shall be to determine the interest of the private sector, through public-private partnerships or other methods, in engaging in activities at the site that foster economic development and urban development efforts. The solicitation shall provide for an opportunity for a public-private partnership for the construction of a new hospital facility. Development of the remainder of the site shall not begin until construction of the hospital has commenced.
3. The responsibility for operation of the facility shall remain with the department. No proposal shall be accepted that includes private operation of the facility.

"1. The Department of General Services is authorized to enter into lease agreements pursuant to customary procedures for space in a multi-tenant building to be constructed by the Virginia Biotechnology Research Partnership Authority in the Virginia Biotechnology Research Park located in the City of Richmond and leased to agencies of the Commonwealth and to tenants of the Research Park. The building is more particularly described as a building of approximately 75,000 square feet and accompanying parking facilities referred to as "Biotech 8" and intended to be leased to a combination of private, not-for-profit and governmental entities under varying lease terms.

2. The provisions below relating to a capital reserve fund shall be operable so long as all bond issues of the Authority for the financing of the building (a) do not exceed in the aggregate \$20,000,000 in principal amount, (b) have a final maturity of no more than 25 years from the date of issuance and (c) have no interest rate in excess of seven percent.

3. In addition, the Virginia Biotechnology Research Partnership Authority is authorized to establish a capital reserve fund in connection with the bond issues described above into which the Authority may deposit (i) any moneys appropriated and made available by the Commonwealth for the purpose of such a fund, (ii) any

proceeds from the sale of the bonds described above as provided in the resolution authorizing the issuance of, or the trust indenture securing the bonds, and (iii) any other moneys that may be made available to the Authority for such fund. All moneys held in such capital reserve fund, except as hereinafter provided, shall be used solely for the payment when due of the principal of and premium, if any, and interest on the bonds or obligations under credit enhancements issued by the Authority secured in whole or in part by such a fund. If, however, moneys in any such fund are ever less than the minimum capital reserve fund requirement established for the fund, the Authority shall not use the moneys for any optional purchase or redemption of bonds. Any income or interest earned on, or increment to, any capital reserve fund due to its investment may be transferred by the Authority to other funds or accounts of the Authority to the extent it does not reduce the amount of the capital reserve fund below its minimal requirement. The amount of the minimum capital reserve fund requirement shall not exceed the maximum annual debt service on bonds issued by the Virginia Biotechnology Research Partnership Authority for the building.

4. The Authority shall not at any time issue bonds or credit enhancements secured in whole or in part by such capital reserve fund, if upon the issuance of bonds or credit enhancements, the amount in the capital reserve fund will be less than its minimal requirement unless the Authority, at the time of issuance of the bonds or credit enhancements, deposits in the fund an amount that, together with the amount then in the fund, will not be less than the fund's minimal capital reserve requirement.

5. In order to assure further the maintenance of such capital reserve fund, the Chairman of the Authority shall annually, on or before December 1, make and deliver to the Governor and the Secretary of Administration a certificate stating the sum, if any, required to restore each capital reserve fund to its minimal requirement. Within five days after the beginning of each session of the General Assembly, the Governor shall submit to the presiding officer of each House of the General Assembly printed copies of a budget including the sum, if any, required to restore each capital reserve fund to its minimal requirement. All sums, if any, that may be appropriated by the General Assembly for any restoration and paid to the Authority shall be deposited by the Authority in the capital reserve fund. All amounts paid to the Authority by the Commonwealth pursuant to the provisions of this section shall constitute and be accounted for as advances by the Commonwealth to the Authority and, subject to the rights of the holders of any bonds of the Authority or the beneficiaries of credit enhancements of the Authority, shall be repaid to the Commonwealth without interest from available operating revenues of the Authority in excess of amounts required for the payment of bonds, credit enhancements or other obligations of the Authority, the

maintenance and funding of reserve funds in connection with other projects, and operating expenses.

6. The state treasury may lend to the Virginia Biotechnology Research Partnership Authority an amount not to exceed \$20,000,000 for costs of the building and its financing incurred prior to the issuance of the bonds and funding, with such loan to be repaid from the proceeds of bonds to be issued by the Authority. Such a loan shall be made with the approval of the Secretary of Finance or his designee, and in according with the standards set forth in § 4-3.02 b. of this act.

7. Nothing in this section shall be construed as limiting the power of the Authority to issue bonds or credit enhancements not secured by a capital reserve fund.

8. Notwithstanding any other provision of this act, the provisions above shall remain in effect unless specifically repealed by legislative act."

Withholding of Spending Authority

Language

Page 485, strike lines 27 through 49 and insert:

"a. For purposes of this subsection, withholding of spending authority is defined as any action that impedes or limits the ability to spend the appropriated moneys, regardless of the mechanism used to effect such withholding.

b.1. Changed Expenditure Factors: The Governor is authorized to reduce spending authority, by withholding allotments of appropriations, when expenditure factors, such as enrollments or population in institutions, are smaller than the estimates upon which the appropriation was based. Moneys generated from the withholding action shall not be reallocated for any other purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House Appropriations and Senate Finance Committees.

2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations have been specifically presented in writing to the General Assembly at its next regularly scheduled session.

c. Increased Nongeneral Fund Revenue:

1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any state

agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or mentally retarded payable from the Mental Health and Mental Retardation Revenue Fund; and (e) general fund appropriations for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other purpose.

2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program, following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations, which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

d. Reduced General Fund Resources:

1. The term “general fund resources” as applied in this subsection includes revenues collected and paid into the general fund of the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium, and all unexpended balances brought forward from the previous biennium.

2. In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the estimated general fund resources available.

3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of general fund revenues shall be communicated to the Chairmen of the Senate Finance, House Appropriations and House Finance Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year’s estimate, the Governor shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to the Chairmen of the Senate Finance, House Appropriations, and House Finance Committees.

b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller shall provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes for the just-completed fiscal year, with a comparison of such actual totals with the total of such

taxes in the official budget estimate for that fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes, as shown on the preliminary close, was one percent or more below the amount of such taxes in the official budget estimate for the just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund revenues for the current biennium and the next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the Chairmen of the Senate Finance, House Finance and House Appropriations Committees, not later than September 1 following the close of the fiscal year.

5. The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved by the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House Appropriations and Senate Finance Committees. Subsequent modifications to the approved reduction plan also must be submitted to the Chairmen of the House Appropriations and Senate Finance Committees, prior to withholding allotments of appropriations. This reduction plan, with modifications thereto, shall be the sole basis for withholding spending authority due to reduced revenues.

6. In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state agencies to the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's Cabinet Secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be forwarded within five calendar days of submission to the Chairmen of the Senate Finance and House Appropriations Committees.

7. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and House Appropriations Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to the grantee than the proportional cut apportioned to the agency. Without regard to § 4-5.07 b.4. of this act, the remaining appropriation to the grantee which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by July 31, or in two equal installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation is less than or equal to \$500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its authorities, or for payment of a legally authorized deficit.

- c) The payments for care of graves of Confederate dead.
 - d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the governing board.
 - e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.
 - f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.
 - g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source for payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the Executive Department.
 - h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting revenues for such appropriation are estimated to be insufficient to pay the appropriation.
8. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction or on an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to the maximum of 15 percent, as prescribed in subdivision 7a of this subsection.
9. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such appropriations; however, the Governor shall take no action

to reduce allotments of appropriations for major nongeneral fund sources on account of reduced revenues until such time as a formal written re-estimate of revenues for the current and next biennium, prepared in accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the Chairmen of the Senate Finance, House Finance, and House Appropriations Committees. For purposes of this subsection, major nongeneral fund sources are defined as Highway Maintenance and Operating Fund and Transportation Trust Fund.

10. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to the following:

- a) The Governor shall declare in writing to the Chairmen of the Senate Finance and House Appropriations Committees that a fiscal emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the exact amount of such transfer within five calendar days of the transfer;
- b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913, Code of Virginia, debt service funds, or federal funds; and
- c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the amount transferred from each account or fund and recommendations for restoring such amounts.

11. The Director, Department of Planning and Budget, shall report spending authority withheld under the provisions of this subsection to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the action to withhold. Said report shall include the amount withheld by agency and appropriation item.

12. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between projected general fund resources and appropriations, the Speaker of the House of Delegates and the President Pro Tempore of the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the legislature."

"1.a) During any fiscal year, the Director, Department of Planning and Budget, may transfer appropriation authority from one state or other agency to another, to effect the following:

- 1) distribution of amounts budgeted in the central appropriation to agencies, or withdrawal of budgeted amounts from agencies in accordance with specific language in the central appropriation establishing reversion clearing accounts;
- 2) distribution of pass-through grants or other funds held by an agency as fiscal agent;
- 3) correction of errors within this act, where such errors have been identified in writing by the Chairmen of the House Appropriations and Senate Finance Committees;
- 4) proper accounting between fund sources 0100 and 0300 in higher education institutions;
- 5) transfers specifically authorized elsewhere in this act or as specified in the Code of Virginia;
- 6) to supplement capital projects in order to realize efficiencies or provide for cost overruns unrelated to changes in size or scope; or
- 7) to administer a program for another agency or to effect budgeted program purposes approved by the General Assembly, pursuant to a signed agreement between the respective agencies.

b. During any fiscal year, the Director, Department of Planning and Budget, may transfer appropriation authority within an agency to effect proper accounting between fund sources and to effect program purposes approved by the General Assembly, unless specifically provided otherwise in this act or as specified in the Code of Virginia. However, appropriation authority for local aid programs and aid to individuals, with the exception of student financial aid, shall not be transferred elsewhere without advance notice to the Chairmen of the House Appropriations and Senate Finance Committees. Further, any transfers between capital projects shall be made only to realize efficiencies or provide for cost overruns unrelated to changes in size or scope.

c.1. In addition to authority granted elsewhere in this act, the Director, Department of Planning and Budget, may transfer operating appropriations authority among sub-agencies within the Judicial System, the Department of Corrections, and the Department of Mental Health, Mental Retardation and Substance Abuse Services to effect changes in operating expense requirements which may occur during the biennium.

2. The Director, Department of Planning and Budget, may transfer appropriations from the Department of Mental Health, Mental Retardation and Substance Abuse Services to the Department of Medical Assistance Services, consisting of the general fund amounts required to match federal funds for reimbursement of services provided by its institutions and Community Services Boards.
3. The Director, Department of Planning and Budget, may transfer appropriations from the Office of Comprehensive Services to the Department of Medical Assistance Services, consisting of the general fund amounts required to match federal funds for reimbursement of services provided to eligible children.
4. The Director, Department of Planning and Budget, may transfer an appropriation or portion thereof within a state or other agency, or from one such agency to another, to support changes in agency organization, program or responsibility enacted by the General Assembly to be effective during the current biennium.
5. The Director, Department of Planning and Budget, may transfer appropriations from the second year to the first year, with said transfer to be reported in writing to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the transfer, when the expenditure of such funds is required to:
 - a) address a threat to life, safety, health or property, or
 - b) provide for unbudgeted cost increases for statutorily required services or federally mandated services, in order to continue those services at the present level, or
 - c) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a situation deemed threatening to life, safety, health, or property, or
 - d) provide for payments to the beneficiaries of certain public safety officers killed in the line of duty, as authorized in Title 2.2, Chapter 4, Code of Virginia and for payments to the beneficiaries of certain members of the National Guard and United States military reserves killed in action in any armed conflict on or after October 7, 2001, as authorized in § 44-93.1 B., Code of Virginia; or
 - e) continue a program at the present level of service or at an increased level of service when required to address unanticipated increases in workload such as enrollment, caseload or like factors, or unanticipated costs, or
 - f) to address unanticipated business or industrial development opportunities which will benefit the state's economy, provided that any such appropriations be used in a manner consistent with the purposes of the program as originally appropriated.
6. An appropriation transfer shall not occur except through properly executed appropriation transfer documents designed specifically for that purpose, and all transactions effecting appropriation transfers shall be entered in the state's computerized budgeting and accounting systems.
7. The Director, Department of Planning and Budget, may transfer from any other

agency, appropriations to supplement any project of the Virginia Public Building Authority authorized by the General Assembly and approved by the Governor. Such capital project shall be transferred to the state agency designated as the managing agency for the Virginia Public Building Authority.

8. In the event of the transition of a city to town status pursuant to the provisions of Chapter 41 of Title 15.2 of the Code of Virginia (§ 15.2-4100 et seq.) subsequent to July 1, 1999, the provisions of § 15.2-1302 shall govern distributions from state agencies to the county in which the town is situated, and the Director, Department of Planning and Budget, is authorized to transfer appropriations or portions thereof within a state agency, or from one such agency to another, if necessary to fulfill the requirements of § 15.2-1302."

1. Such loans are limited to those projects that shall be repaid from revenues derived from nongeneral fund sources.

2.a) When the payment of authorized obligations for operating expenses is required prior to the collection of nongeneral fund revenues, any state agency may borrow from the state treasury the required sums with the prior written approval of the Secretary of Finance or his designee as to the amount, terms and sources of such funds; such loans shall not exceed the amount of the anticipated collections of such revenues and shall be repaid only from such revenues when collected.

b) When the payment of obligations for capital expenses for projects authorized under § 4-4.01 n is required prior to the collection of nongeneral fund revenues, any state agency or body corporate and politic, constituting a public corporation and government instrumentality, may borrow from the state treasury the required sums with the prior written approval of the Secretary of Finance or his designee as to the amount, terms and

sources of such funds. Such loans shall be repaid only from nongeneral fund revenues associated with the project.

3. Anticipation loans for operating expenses shall be in amounts not greater than the sum identified by the agency as the minimum amount required to meet the projected expenditures. The term of any anticipation loans granted for operating expenses shall not exceed twelve months.

4. Before an anticipation loan is provided for a capital project authorized under § 4-4.01 n, the agency shall develop a plan for financing such capital project and approval of the State Treasurer shall be obtained for all such plans and reported to the Chairman of the House Appropriations and Senate Finance Committees.

5. Anticipation loans for capital projects authorized under § 4-4.01 n shall be in amounts not greater than the sum identified by the agency as required to meet the projected expenditures for the project within the current biennium. Such loans shall be repaid only from nongeneral fund revenues associated with the project.

6. The State Treasurer shall charge current market interest rates on anticipation loans made for capital projects authorized under § 4-4.01 n. Interest payments on anticipation loans for nongeneral fund capital projects authorized under § 4-4.01 n shall be made from appropriated nongeneral fund revenues. Such interest shall not be paid with the funds from the anticipation loan without the approval of the State Treasurer.

"Consistent with § [23-9.6:1.01](#)., *Code of Virginia* , the following education-related and financial and administrative management measures shall be the basis on which the State Council of Higher Education shall annually assess and certify institutional performance. Institutional performance on measures set forth in paragraph K of this section shall be evaluated year-to-date by the Secretaries of Finance and Administration, as appropriate, and communicated to the State Council of Higher Education before June 1 of each year. By July 15, 2006, the State Council shall publish institutional performance benchmarks and targets for each objective measure, which shall be established in cooperation with the respective institution.

Financial benefits provided to each institution in accordance with § 2.2-5009 will be evaluated in light of that institution's performance. The first certification will be completed and forwarded in writing to the General Assembly and Governor no later than June 1, 2007.

In general, institutions are expected to achieve their agreed upon targets and standards on all performance measures in order to be certified by SCHEV. However, the State Council, in working with each institution, shall establish a prescribed range of permitted variance from annual targets for each measure, as appropriate.

Further, the State Council shall have broad authority to certify institutions as having met the standards on measures where they have already achieved high levels of performance in order that they may focus resources toward achieving similar levels of performance on other measures. The State Council shall likewise have the authority to exempt institutions from certification on measures that the State Council deems unrelated to an institution's overall performance.

The State Council shall develop, adopt, and publish standards for granting exemptions and ongoing modifications to the certification process.

A. Access

1. Institution meets its State Council-approved biennial projection of total in-state student enrollment within the prescribed range of permitted variance.
2. Institution increases the percentage of in-state undergraduate enrollment of from under-represented populations. (Such populations should include low income, first-generation college status, geographic origin within Virginia, race, and ethnicity, or other populations as may be identified by the State Council.)
3. Institution annually meets at least 95 percent of its State Council-approved estimates

of degrees awarded.

B. Affordability

4. With the intent of developing a clearly understandable measure of affordability no later than July 1, 2008, SCHEV shall report annually an institution's in-state undergraduate tuition and fees, both gross and net of need-based gift aid, as a percentage of the institution's median student family income. By October 1, 2008, each institution shall identify a "maintenance of effort" target for ensuring that the institution's financial commitment to need-based student aid shall increase commensurately with planned increases in in-state, undergraduate tuition and fees. The financial plan for these goals should be incorporated into the institution's 2009-2014 six-year plan as required under § 23-9.2:3.02., Code of Virginia.

5. Institution establishes mutually acceptable annual targets for need-based borrowing that reflect institutional commitment to limit the average borrowing of in-state students with established financial need, and the percentage of those students who borrow, to a level that maintains or increases access while not compromising affordability.

6. Institution conducts a biennial assessment of the impact of tuition and fee levels net of financial aid on applications, enrollment, and student indebtedness incurred for the payment of tuition and fees and provides the State Council with a copy of this study upon its completion and makes appropriate reference to its use within the required six-year plans. The institution shall also make a parent- and student-friendly version of this assessment widely available on the institution's website.

C. Breadth of Academics

7. Institution maintains acceptable progress towards an agreed upon target for the total number and percentage of graduates in high-need areas, as identified by the State Council of Higher Education.

D. Academic Standards

8. Institution reports on total programs reviewed under Southern Association of Colleges and Schools assessment of student learning outcomes criteria within the institution's established assessment cycle in which continuous improvement plans addressing recommended policy and program changes were implemented.

E. Student Retention and Timely Graduation

9. Institution demonstrates a commitment to ensuring that lower division undergraduates have access to required courses at the 100- and 200-level sufficient to ensure timely graduation by reporting annually to the State Council of Higher Education on the number of students denied enrollment in such courses for each fall and spring semesters. No later than July 1, 2008, to the extent the institution does not currently track student access and registration attempts at the course level, the institution shall, in consultation with the State Council of Higher Education, establish an appropriate quantitative method to identify the extent to which limited access to 100- and 200-level courses reduce

progression, retention, and graduation rates. After July 1, 2008, each institution shall include in its annual report to the State Council its plan of action to increase such access and remediate the identified problems.

10. Institution maintains or increases the ratio of degrees conferred per full-time equivalent instructional faculty member, within the prescribed range of permitted variance.

11. Institution maintains or improves the average annual retention and progression rates of degree-seeking undergraduate students.

12. Within the prescribed range of permitted variance, the institution increases the ratio of total undergraduate degree awards to the number of annual full-time equivalent, degree-seeking undergraduate students except in those years when the institution is pursuing planned enrollment growth as demonstrated by their SCHEV-approved enrollment projections.

F. Articulation Agreements and Dual Enrollment

13. Institution increases the number of undergraduate programs or schools for which it has established a uniform articulation agreement by program or school for associate degree graduates transferring from all colleges of the Virginia Community College System and Richard Bland College consistent with a target agreed to by the institution, the Virginia Community College System, and the State Council of Higher Education for Virginia.

14. Institution increases the total number of associate degree graduates enrolled as transfer students from Virginia's public two-year colleges with the expectation that the general education credits from those institutions apply toward general education baccalaureate degree requirements, as a percent of all undergraduate students enrolled, within the prescribed range of permitted variance.

15. Institution increases the number of students involved in dual enrollment programs consistent with a target agreed upon by the institution, the Department of Education and the State Council of Higher Education for Virginia.

G. Economic Development

16. In cooperation with the State Council, institution develops a specific set of actions to help address local and/or regional economic development needs consisting of specific partners, activities, fiscal support, and desired outcomes. Institution will receive positive feedback on an annual standardized survey developed by the State Council, in consultation with the institutions, of local and regional leaders, and the economic development partners identified in its plans, regarding the success of its local and regional economic development plans.

H. Research, Patents, and Licenses

17. Institution maintains or increases the total expenditures in grants and contracts for research, within the prescribed range of permitted variance, according to targets

mutually agreed upon with SCHEV and/or consistent with the institution's management agreement.

18. Institution maintains or increases the annual number of new patent awards and licenses, within the prescribed range of permitted variance, according to targets mutually agreed upon with SCHEV and/or consistent with the institution's management agreement.

I. Elementary and Secondary Education

19. In cooperation with the State Council, institution develops a specific set of actions with schools or school district administrations with specific goals to improve student achievement, upgrade the knowledge and skills of teachers, or strengthen the leadership skills of school administrators. Institution will receive positive feedback on an annual standardized survey developed by the State Council, in consultation with the institutions, of the superintendents, principals, and appropriate other parties.

J. Six-Year Plan

20. Institution prepares six-year financial plan consistent with § 23-9.2:3.02.

K. Financial and Administrative Standards

21. As specified in § 2.2-5004, Code of Virginia, institution takes all appropriate actions to meet the following financial and administrative standards:

a. An unqualified opinion from the Auditor of Public Accounts upon the audit of the public institution's financial statements;

b. No significant audit deficiencies attested to by the Auditor of Public Accounts;

c. Substantial compliance with all financial reporting standards approved by the State Comptroller;

d. Substantial attainment of accounts receivable standards approved by the State Comptroller, including but not limited to, any standards for outstanding receivables and bad debts; and

e. Substantial attainment of accounts payable standards approved by the State Comptroller including, but not limited to, any standards for accounts payable past due.

22. Institution complies with a debt management policy approved by its governing board that defines the maximum percent of institutional resources that can be used to pay debt service in a fiscal year, and the maximum amount of debt that can be prudently issued within a specified period.

23. The Governor or his designees, in consultation with the institutions of higher education, the Auditor of Public Accounts and staff of the House Appropriations and Senate Finance Committees shall develop additional standards to assess the extent to which an institution is well-managed in the areas of personnel, capital outlay, and procurement. The Governor shall report those standards to the chairmen of the House Appropriations and Senate Finance Committees no later than October 1, 2006 for consideration by the 2007 General Assembly."

Explanation:

(This amendment strikes language which alters the performance standards endorsed by the State Council of Higher of Higher Education (SCHEV). The section now reflects the principles adopted by SCHEV in its October 1, 2005 recommendations to the General Assembly. In addition, the section requires the executive to develop meaningful administrative and financial measures for evaluating higher education performance under restructuring.)
