Page 7, lines 42 and 43, strike "prior to the 1999 Session of the General Assembly".

Page 7, after line 60, insert:

"2. The joint subcommittee studying higher education funding policies shall conduct an assessment of the adequacy of the current educational and general funding levels for Virginia's public institutions of higher education. The assessment shall be used to develop guidelines against which to measure funding requests for higher education.

a. The assessment shall include, but not be limited too, the following components:

- 1) Updated student to faculty ratios based on current practice or industry norms.
- 2) Consideration of support staff needs, and the changing requirements of support staff due to technology and privatization of services previously performed by the institutions.
- 3) Costs of instruction, such as equipment, utilities, facilities maintenance, and other nonpersonal services expenses.
- 4) Recognition of the individual mission of the institution, student characteristics, location, or other factors that may influence the costs of instruction.

5) Benchmarking of the funding guidelines against a group of peer institutions, or other appropriate comparator group, to assess the validity of the guidelines.

3. The joint subcommittee studying higher education funding policies shall develop a more precise methodology for determining funding needs at Virginia's public institutions of higher education related to enrollment growth. The methodology should take into consideration that support staff and operations may need to be expanded when enrollment growth reaches certain levels. Cost differentials between programs and level of students should be taken into consideration. The subcommittee shall makes its recommendations to the General Assembly by December 15, 1999.

4. The subcommittee may include the staff of the Senate Finance and House Appropriations Committees, the public institutions of higher education, or other

higher education or state agency representatives, as requested by the Joint Subcommittee. At its discretion, the Joint Subcommittee may contract for consulting services. Out of this appropriation, \$250,000 is provided from the general fund in the second year to support the activities of the Joint Subcommittee.

5. The work of the subcommittee shall be completed prior to the 2001 Session of the General Assembly. The subcommittee shall provide an interim report prior to the 2000 Session of the General Assembly. “

Explanation:

(This amendment continues the Joint Subcommittee on Higher Education Funding Policies, and calls for an assessment of the adequacy of instructional funding at Virginia’s public institutions of higher education. The assessment would be used to develop guidelines for prospective funding. Currently, the Commonwealth lacks comprehensive funding guidelines for higher education. The amendment also calls for a new methodology for funding enrollment growth at Virginia’s public institutions of higher education. Currently, the Commonwealth lacks an accepted methodology for funding new enrollments. This amendment is a recommendation of the Joint Subcommittee on Higher Education Funding Policies, comprised of four members of the Senate Finance Committee and four members of the House Appropriations Committee.)

Page 150, line 36, after "education" insert "and one representative of the private institutions"

Page 150, line 38, after "Visitors" insert "and private non-profit colleges"

Page 150, strike lines 43 through 57 and insert:

"b. The Electronic Campus of Virginia shall serve as project manager of the pilot program outlined in L.1. above and the implementation of the grant program in L.2. above. The Electronic Campus of Virginia shall submit an interim assessment report of completed projects to the Steering committee on June 30, 2000, and a final report of projects after one year of operation by June 30, 2001.

"c. The purposes of the Steering Committee are: (1) to establish a peer review committee of Electronic Campus member institutions to evaluate proposals for the pilot program outline in L.1. above and the grant program in L.2. above, (2) to receive and review recommendations of the peer review committee pursuant to L.1. and L.2. above and to award support for initiatives, and (3) to assess the benefits of the electronic Campus of Virginia in making quality educational degree programs widely available to the people of Virginia at affordable costs. It is the intent of the General Assembly that by October 1, 2001, the Steering Committee shall report its findings to the Governor and to the Co-Chairmen of the House Appropriations and Senate Finance Committees."

Explanation:

(This amendment provides an additional \$500,000 from the general fund in the second year and makes several changes to language relating to pilot distance learning projects. Generally, management of the pilot projects is shifted from a steering committee to the "Electronic Campus of Virginia," which is composed of Virginia Tech, Virginia's community colleges, and other institutions that offer courses via the Internet. The steering committee becomes an advisory committee composed of the Secretary of Education, the Secretary of Technology, the Director of the Department of Planning and Budget, the Director of the State Council of Higher Education, four representatives from the public institutions of higher education, staff from the House Appropriations and Senate Finance Committees, and two representatives of the Governor's Blue Ribbon Commission on Higher Education. The amendment would add a representative of independent institutions and the chairman of the Electronic Campus of Virginia to the steering committee.)

Page 415, after line 33, insert:

"3. Notwithstanding the provisions of §46.2-205 and where feasible and cost efficient to the Department, the Commissioner, Department of Motor Vehicles, may compensate agencies appointed pursuant to §46.2-205 that use electronic processing of agency transactions directly to the Department at a rate of three and one-half percent of the first \$1,000,000 of gross collections made by the agency and one percent of all gross collections in excess of \$1,000,000 made by the agency during each fiscal year."

Explanation:

(This amendment authorizes DMV to compensate license agencies established pursuant to §46.2-205 at a fixed rate of three and one-half percent on the first \$1,000,000 of gross collections made by the agency and one percent of all gross collections in excess of \$1,000,000 for those agencies that are equipped with automated computer systems that electronically process transactions to DMV. Only about ten agents process transactions electronically to the department, and this amendment would serve as an incentive for license agents to use electronic processing. Other license agencies without automated equipment would be compensated at the rate of three and one-half percent of the first \$500,000 of gross collections, two percent of the next \$500,000 of gross collections, and one percent for gross collections in excess of \$1,000,000 made during the fiscal year. Currently, license agents are compensated on a sliding scale of three and one-half for the first \$250,000 of gross collections, and three percent for the next \$250,000. Manual processing requires duplicate handling of the transaction; first by the license agency, then by DMV staff who actually enter the agency work into the DMV computer files. Electronic processing on the other hand, results in the license agency actually processing the transaction to DMV computer files. This amendment would provide additional compensation for electronic processing as an incentive to encourage this more efficient means of processing agency transactions.)

Page 235, line 6, strike "39,483,717" and insert "39,563,457".

Explanation:

(This amendment provides \$79,740 and 1 FTE to implement the provisions of SB 829, which if adopted, will require all nonprofit organizations with a sales and use tax exemption, except churches, to submit a questionnaire concerning relevant financial and administrative policies. The Tax Department estimates that it will require the addition of one Grade 13 position in the Office of Tax Policy, plus up-front nonpersonal service costs to manage the paperwork associated with the provisions of the bill.)

Department For The Aging

Language

Co-Patron(s):

Language:

Page 250, after line 28, insert:

"F. A sum not to exceed \$1,000,000 from the unappropriated balance in this act is hereby authorized for long-term care, in-home support, and housing services for aging mentally retarded persons. Payment of this sum shall be made to a duly incorporated entity established for this purpose upon: (i) approval by the Department for the Aging or an organizational plan for such entity to provide such services, including a statement of any proposed financial commitment on the part of the Commonwealth; and (ii) documentation by the above entity of matching funds of at least and equal amount from private sources."

Explanation:

(This amendment restores budget language from the 1996-98 Appropriations Act. A private donor was proposing to make a \$1,000,000 grant to the Commonwealth for services to disabled persons living at home who face losing their aging caregivers. The estate was not settled by June 30, 1998, so the donation was not available and the budget language was deleted. The donor now claims the funds would be available in the current biennium.)

Page 106, after line 21, insert:

"4. Out of the amounts for Financial Assistance for Vocational Education Instruction, \$2,455,000 in the second year from the general fund is provided for a one-time transition payment to maintain Virginia's Education for Independence Programs. In future years, the program will be funded from federal Workforce Investment Act funds."

Explanation:

(This amendment allows a one-time transition payment for Virginia's Education for Independence programs. Historically, under the Carl D. Perkins Vocational and Technical Education Act the federal law provided a 10.5 percent set-aside for Virginia's Education for Independence programs. These vocational education programs provide job skills and support services for single parents, displaced homemakers, young women needing to support themselves and their families, and other targeted groups. The current law, going into effect July 1, 1999, no longer provides the set-aside funding, but anticipates that the programs can be funded from the Workforce Investment Act. There is a one-year lag between the two federal funding sources. Therefore, this amendment would provide one-year transition funding from the state. There are currently forty programs supported by these funds across the Commonwealth, 27 at community colleges and 13 in secondary schools. These programs serve 6,500 students.)

(This amendment requires local and regional jails to use the Virginia Crime Codes in identifying the offenses for which offenders are incarcerated in jails in Virginia. This is intended to facilitate the analysis of cases in which there is a misdemeanor offense. This type of analysis is required in order for the Commonwealth to assess the correctional bed space impact of proposed legislation in which a misdemeanor offense is involved.)

Page 363, line 19, after "1998 Acts of Assembly" strike the remainder of the line and insert ".".

Page 363, strike lines 20-35 and insert:

"2. From the appropriation in this Item, \$273,975 the second year is provided to address the future capital costs of the Department of Corrections for the estimated increase in the number of beds required as a result of enactment, in the 1999 Session of the General Assembly, of the Senate Bill 759 (\$10,950); Senate Bill 762 (\$25,000); Senate Bill 850 (\$6,250); and Senate Bill 771 (\$231,775).

A. These funds shall be paid into the Corrections Special Reserve Fund, established in accordance with § 30-19.1:4 of the Code of Virginia, with the intent that these funds be reserved to meet the ten percent state match requirements for the Violent Offender Incarceration/Truth-in-Sentencing Incentive (VOI/TIS) Grant Funds, pursuant to Title II, Subtitle A of the Violent Crime Control and Law Enforcement Act of 1994, as amended (P.L. 103-322). These funds shall be held in the Corrections Special Reserve Fund for the purpose of matching \$8,789,400 in federal funds which have been awarded to the Department of Corrections for prison construction under the federal VOI/TIS program. The state and federal matching funds will provide a total of \$9,766,000 in construction funding. This amount is equal to the required deposit into the Corrections Special Reserve Fund for the increased operating cost in fiscal year 2005 resulting from enactment of legislation as specified in this Item.

Notwithstanding § 30-19.1:4 of the Code of Virginia, it is the intention of the General Assembly that this deposit shall satisfy the requirement for a one-year appropriation equal to the estimated increase in operating costs of such legislation, in current dollars, of the highest of the next ten fiscal years following the effective date of the law.

B. A joint subcommittee comprised of two members each from the Senate Finance Committee, the House Appropriations Committee, and the Courts of Justice Committees of the Senate and the House of Delegates, appointed by their respective Chairmen, shall examine § 30-19.1:4 of the Code of Virginia and make recommendations for modifications, as appropriate, to the 2000 Session of the General Assembly.

Explanation:

(This amendment provides \$273,975 in general funds the second year to satisfy the requirement for recognizing the corrections population impact of legislation enacted by the 1999 Session of the General Assembly. The language in this amendment expresses legislative intent that the requirement is met through a reservation of state and federal funds which will be used for capital construction rather than for operating expenses. The language further provides for appointment of a joint subcommittee to examine the requirements of § 30-19.1:4 of the Code of Virginia, to determine whether modifications are needed in the procedures for addressing the fiscal impact of sentencing legislation.)

(This amendment reduces the appropriation for Hanover Learning Center by \$1,000,000 the second year from the general fund, to reflect the temporary closure of two cottages. The current juvenile offenders housed in these cottages are intended to be transferred to other facilities and to private provider beds, with the eventual purpose of transferring the most serious juvenile offenders to the new Culpeper Juvenile Correctional Center. The units at Hanover are intended be closed temporarily for renovations.)

Language:

Page 411, line 26, strike "113,751,800" and insert "124,373,275".

Page 413, after line 38 insert:

'K. 1. Out of this appropriation, up to \$10,621,475 in the second year from the general fund shall be provided to the Greater Richmond Transit Company for the development and operation of six extensions of existing transit routes, and three new express transit routes. Each new or extended transit route shall be approved by the locality that would receive the new or extended service prior to the

payment of any funds for capital or operating purposes. The actual amount of the appropriation depends on which new transit routes are approved by the affected localities. The Governor and General Assembly shall also give priority consideration for 1) an additional appropriation of up to \$6.7 million general fund in the first year of the 2000-02 budget for the continued operation of the approved new transit routes; and 2) any available state or federal funds eligible for future mass transit appropriations."

Explanation:

(This amendment provides a contingent appropriation of \$10,621,475 from the general fund to meet the capital and operating costs of extending bus service for nine transit routes in the greater Richmond region. Four of the new routes are located in Chesterfield County, requiring \$5,065,363 of the appropriation; three routes are in Henrico County, \$3,008,112; and one new route each is in Hanover County (\$798,000) and in Colonial Heights (\$1,750,000). The funding is intended to provide start-up capital funding, primarily for bus and para-transit van purchases, and to provide operating support beyond that provided through farebox revenue. Each component of the appropriation is contingent upon local acceptance of the new or extended bus routes; i.e., any new or extended route not agreed to by the locality will reduce the appropriation by the amount equivalent to the cost of that route. In addition, the amendment asks that priority consideration be given by the Governor and General Assembly for future funding support of the new or extended transit lines.)

Page 112, line 10, strike "2,253,054,721" and insert "2,275,429,386".

Page 127, after line 6, insert "f. An additional state payment estimated at \$21,831,848 the first year and \$22,374,665 the second year from the general fund shall be disbursed by the Department of Education to local school divisions to support the state share of continuing the education of suspended and expelled students. These funds shall be matched by the local government, based on the composite index of local ability-to-pay."

Explanation:

(This amendment provides funds for the continuing education of students who have been suspended or expelled from public school attendance. Due to data limitations regarding the total number of days suspended or expelled by each student and the outdated information which is available, the funding provided is an estimate of the cost necessary to provide these services. Data used in calculating this estimate is from 1993-94, with 112 of 133 school divisions reporting. Using projections forward to the 1998-00 biennium, it is estimated that approximately 95,000 students in 1999 and 96,500 students in 2000 will be suspended or expelled from Virginia public schools. Such figures include suspensions of one or more days.)

Page 106, after line 21, insert "4. Out of the federal Perkins funds provided to the Department of Education, no less than the funding level provided in the first year (\$2,280,000 for program grants and \$175,000 for the program Coordinator and administrative costs of the program) or 10.5 percent of the total Perkins grant, whichever is smaller, shall be set aside to coordinate and fund Virginia's Education for Independence Programs on an annual basis."

Explanation:

(This amendment ensures an on-going commitment of federal funding provided under the Carl D. Perkins Vocational and Technical Education Act for Virginia's Education for Independence programs. Historically, the federal law provided a 10.5 percent set-aside for Virginia's Education for Independence programs. These vocational education programs provide job skills and support services for single parents, displaced homemakers, young women needing to support themselves and their families, and other targeted groups. The current law, going into effect July 1, 1999, no longer provides the set-aside funding, but provides flexibility to the states. There are currently forty programs supported by these funds across the Commonwealth, 27 at community colleges and 13 in secondary schools. These programs serve 6,500 students. This amendment would establish the intent of the General Assembly that these programs continue to receive support from the Perkins funds.)

Financial Assistance for Public Broadcasting (14303) 5,007,116
4,178,366

Fund Sources: General 5,007,116 4,178,366

Authority: Title 2.1, Chapter 35.2, Article 6.1, Code of Virginia.

A. Out of this program shall be expended \$3,499,602 the first year and \$3,499,602 the second year for community service grants to public television stations and

\$678,764 the first year and \$678,764 the second year for community service grants to public radio stations. Of the amounts for community service grants to public

radio, \$10,000 the first year and \$10,000 the second year shall be allocated to

Allegheny Mountain Radio. Grants to public television stations shall be used to develop, acquire, produce and deliver programs and services which support pre-school and adult education, disseminate information on governmental and public

affairs issues, promote tourism and economic development within the Commonwealth, and inform, educate, and entertain families with program content which

offers alternatives to commercialized television programming.

B. The funds herein appropriated are to be administered by the Virginia Public Broadcasting Board in accordance with such rules and regulations as it may prescribe provided that: (1) the Virginia Public Broadcasting Board shall certify that recipients of the community service grants provided for in paragraph A of this

item are noncommercial radio and television stations that are owned and operated by entities which qualified to receive community service grants from the Corporation for Public Broadcasting, and whose offices, studios and transmitters are located in the Commonwealth and (2) it shall carry out its purposes and functions and engage in its activities in ways that will most effectively assure the maximum freedom of the aforesaid noncommercial radio and television entities and systems from interference with, or control of, program content or other activities.

C. Community service grants to public television and public radio stations shall be paid in equal quarterly installments.

D. Out of the amounts for this program shall be paid \$233,750 the first year to Central Virginia Educational Telecommunications Corporation, as the state share of

funding, to be matched in cash or in-kind in an amount at least equal to the State share, for the relocation of WNVT-TV to the new Stafford County satellite campus of Mary Washington College.

E. Out of the amounts for this program shall be paid \$245,000 the first year to WVPT-TV, in Harrisonburg, as the state share of funding, to be matched in cash or

in-kind in an amount at least equal to the State share, for facility and equipment improvements.

F. Out of the amounts for this program shall be paid \$75,000 the first year to WBRA-TV in Roanoke, as the state share of funding, to be matched in cash or in-kind in an amount at least equal to the State share, for facility and equipment improvements.

G. Out of the amounts for this program shall be paid \$275,000 the first year to

WHRO-TV in Norfolk, as the state share of funding, to be matched in cash or in kind in an amount at least equal to the State share, for equipment improvements."

Language:

Page 411, line 26, strike "113,751,800" and insert "124,373,275".

Page 413, after line 38 insert:

'K. 1. Out of this appropriation, up to \$10,621,475 in the second year from the general fund shall be provided to the Greater Richmond Transit Company for the development and operation of six extensions of existing transit routes, and three

new express transit routes. Each new or extended transit route shall be approved by the locality that would receive the new or extended service prior to the payment of any funds for capital or operating purposes. The actual amount of the appropriation depends on which new transit routes are approved by the affected localities. The Governor and General Assembly shall also give priority consideration for 1) an additional appropriation of up to \$6.7 million general fund in the first year of the 2000-02 budget for the continued operation of the approved new transit routes; and 2) any available state or federal funds eligible for future mass transit appropriations."

Explanation:

(This amendment provides a contingent appropriation of \$10,621,475 from the general fund to meet the capital and operating costs of extending bus service for nine transit routes in the greater Richmond region. Four of the new routes are located in Chesterfield County, requiring \$5,065,363 of the appropriation; three routes are in Henrico County, \$3,008,112; and one new route each is in Hanover County (\$798,000) and in Colonial Heights (\$1,750,000). The funding is intended to provide start-up capital funding, primarily for bus and para-transit van purchases, and to provide operating support beyond that provided through farebox revenue. Each component of the appropriation is contingent upon local acceptance of the new or extended bus routes; i.e., any new or extended route not agreed to by the locality will reduce the appropriation by the amount equivalent to the cost of that route. In addition, the amendment asks that priority consideration be given by the Governor and General Assembly for future funding support of the new or extended transit lines.)

Page 400 line 37, insert:

"E. The Secretary of Transportation is authorized to negotiate a lawful memorandum of understanding agreement with proponents of magnetic levitation technology and other parties including a local government or a local transportation authority that could result in a financing agreement for a magnetic levitation research demonstration project which will be placed into passenger/revenue service. Any allocation or loan of state transportation funds by the Commonwealth Transportation Board for a demonstration project shall not

exceed \$7,000,000, and shall require an equal amount of private matching funds. Any memorandum of understanding would require approval by the Board, and require that funds advanced for the demonstration project

"a Major Transit Capital Fund. The Commonwealth Transportation Board is hereby authorized to allocate these funds as grants or matching funds, including funds used for debt service payments, for major transit capital projects in the Commonwealth. In addition, out of this amount, up to \$1,000,000 is to be apportioned for any locally-approved expansion of the Greater Richmond Transit Company. The Secretary of Transportation shall report all allocations from this fund to the Chairman of the Senate Finance and House Appropriations Committees.

Explanation:

(This amendment deletes the Transit Performance Incentive Program and replaces the \$5,000,000 in funding with a Major Transit Capital Fund. Up to \$1,000,000 from this fund is designated for the expansion of Greater Richmond Transit Company transit routes, upon approval of these routes by affected local governments.)

Page 436, after line 42 insert:

"E. Each of the Educational and General appropriations of the following public institutions of higher education shall be reduced by amounts from the general fund the second year as follows: University of Virginia, \$944,111; Clinch Valley College, \$63,250; James Madison University, \$211,187; and, Radford University, \$60,200. The nongeneral fund appropriations of these institutions shall be increased by like amounts to reflect estimated increases in tuition and fee revenues."

Explanation:

(This amendment reduces amounts proposed in the budget, as introduced, as general fund offsets to compensate the University of Virginia, Clinch Valley College, James Madison University and Radford University for uncollectible tuition and fee revenues in the second year. The budget adopted in the 1998 Session of the General Assembly assumed that tuition and fee revenues from enrollment growth and from graduate and nonresident students would finance part of the costs of such initiatives as faculty salary increases. In their budget requests for the 1999 session, several institutions indicated that for a variety of reasons they could not collect the required tuition and fee revenues. The budget, as introduced, provided general funds to some institutions to replace the uncollectible tuition and fee revenues. The reduction of \$1,278,748 in this amendment reflects recalculations using most recent data, and the recalculations show that Clinch Valley, James Madison and Radford will be able to collect the tuition and fee revenue required in the 1998 session, and that the University of Virginia will be able to collect all but \$1,171,430. The recalculations follow the same methodology used to determine the general fund offsets in the budget, as introduced.)
