procurement for a Software as a Service (SaaS) based Human Capital Management (HCM) system. Such procurement shall not mandate or suggest any requirement for use of a specific vendor or product.

2.The HCM shall replace the existing Commonwealth Integrated Payroll/Personnel System (CIPPS) and the Personnel Management Information System and the Benefits Eligibility System (PMIS & BES).

3. In developing the Request for Proposals, the Department of Human Resource Management and the Department of Accounts shall identify in detail, the specific information needs, work process needs and business rules which the selected SaaS must address. The request for proposals shall require that the selected SaaS: (i) possess the technology and integration capabilities needed to interface with legacy financial systems, including the Commonwealth Enterprise Resource Planning system (Cardinal), or new systems as such legacy systems are phased-out; (ii) meet all Commonwealth security standards for cloud-based services to ensure the security of sensitive personally identifiable information; and (iii) be fully implemented in all user agencies not later than 18 months after contract execution. The request for proposals shall include a requirement for subscription-based pricing to ensure that the Commonwealth is not encumbered by a long-term commitment to a specific provider, technology or service that would prevent a migration to newer technologies as they become available. The cost of such subscriptions shall be borne by the user agencies as an operating expense that is included as part of the biennial budget.

4. Prior to execution of a contract with a SaaS provider, the Department of Human Resource Management and the Department of Accounts shall recommend to the Governor a permanent system of governance for oversight of the HCM system and the associated SaaS contract."

(This amendment provides \$772,251 the second year from the general fund to Allegheny County school division in support of the efforts of the Allegheny County School Board, Allegheny County Board of Supervisors, Covington City School Board and the Covington City Council toward investigating and determining benefits of operating a joint school division. The Covington School Board, Allegheny County School Board, the Allegheny County Board of Supervisors, and the Covington City Council have all recently appointed two members from each of the respective governing bodies to form a Committee to explore the necessary steps and actions needed for the creation of a joint school board in the Allegheny Highlands. The additional "incentive" funds would be used for legal fees, studies, and any other expenses associated with the planning of a joint school system between Allegheny County and Covington City public schools. Allegheny County Public Schools is currently operating in the final year of the fifteen year adjusted LCI that has been in place since Clifton Forge reverted to a town. Since the 2004 reversion, Allegheny County has lost 34% of its enrollment and has gone from 2,993 students to 1,968 students in the Fall of 2018. A joint school system in the Allegheny Highlands would offer area students more diverse opportunities and would be a more efficient use of tax payer funds at both the local and state level. In the event that the Committee does not come up with a consolidation plan for Allegheny County Public Schools and Covington City Schools, the remainder of the incentive money would be allocated and used to support their jointly operated

Explanation:

Floor Approved Requests to House Bill 1700, as Introduced

(This amendment adjusts the funding for salary incentives such that school divisions will have a number of percent options to offer pay increases to employees. The base budget includes \$131 million in the second year for a 3.0 percent salary incentive pay increase with an effective date of July 1, 2019. The state share of the 3.0 percent salary increase would be given to school divisions that certify that they will provide at least 3.0 percent in either the first or second year or through a combination over both years. This amendment adds an additional 2.0 percent increase with an effective date of January 1, 2020. The state share of the 2.0 percent salary increase would be given to school divisions that certify that they will provide at least a 2.0 percent salary increase by January 1, 2020. Any local school division pay increase provided in the first year that is above the 3.0 percent , will not count toward the 2.0 percent salary increase in the second year.)

Explanation:

(This amendment removes funding proposed in House Bill 1700 as introduced for increased financial aid. The Committee budget funding levels were limited to the additional dollars available pursuant to the economic reforecast presented in December, identified programmatic savings, and revenues generated by legislation expanding the collection of sales tax attributable to internet sales. All revenues attributable to the Tax Cuts and Jobs Act (TCJA) are captured in the Taxpayer Relief Fund and the Revenue Reserve Fund in Item 475.10. This required removing approximately \$1.2 billion in spending compared to House Bill 1700 as introduced. State financial aid was increased in fiscal year 2020 by \$18.9 million as part of the 2018 Session budget actions.)

This required removing approximately \$1.2 billion in spending compared to House Bill 1700 as introduced. Chapter 2, as adopted by the General Assembly in the 2018 Special Session 1 provided no general fund support for the VLCF in fiscal year 2019 in reflection of the fact that the Foundation is receiving \$71.7 million for land purchases from a series of environmental and historic resources settlements. These amounts were deemed sufficient for land and easement purchases in the short term. Second year funding was maintained at the 2018 level of \$4.5 million.)

Floor Approved Requests to House Bill 1700, as Introduced

(This amendment provides \$350,000 the first year and \$70,000 the second year to fabricate and install Supplemental Guide Signs for Virginia State Parks. The fiscal year 2016-2018 budget included language allowing the use of VDOT Recreational Access Funds to be used to install replacement signage for state parks. Approximately \$750,000 was spent upgrading signs for Virginia State Parks and some Natural Area Preserves. The project replaced nearly 200 signs so that now they meet current safety regulations and provide easy to read guidance to Virginia State Parks. Remaining unfunded is a 50 mile long New River Trail State park which alone will cost \$70,000. There are additional signs needed with an estimated total cost of \$350,000.)

The Mendota Trail is a 12.5 mile recreational trail linking Bristol Virginia to Mendota Virginia on a former railroad bed. The City of Bristol acquired the property and has transferred it to Mountain Heritage, Inc. The first mile of the trail opened to the public in October, 2017 and the first of 17 trestles was rehabilitated. In order to open a five mile section of the trail, repairs are needed on a 193 foot long trestle, which is proposed to be uniquely repaired through the construction of a bridge made from aluminum shipping containers. The requested funds would cover less than half the cost, with local contributions filling the remaining need.)

Such report shall be submitted no later than November 1, 2019 to the Chairmen of the House and Senate Committees on Agriculture, Conservation and Natural Resources, the House Appropriations Committee and the Senate Finance Committees."

Explanation:

(This amendment extends the deadline for a report from DEQ required by Chapter 510, 2018 Acts of Assembly 2. That enactment directed DEQ to report to the General Assembly on procedures and practices for ammonia criteria implementation to minimize their impact on Virginia sewerage systems. While DEQ is reasonably implementing other aspects of the legislation, the report required by the second enactment clause was substantially incomplete and fell short of meeting the original requirements, perhaps because DEQ simply needed more time. The report was supposed to address relief allowable under the Clean Water Act to minimize unnecessary impacts on permittees. The most important such procedures and practices relate to

Floor Approved Requests to House Bill 1700, as Introduced

how DEQ sets permit limits; however, on this subject DEQ only states that "DEQ has formed an implementation workgroup that is currently evaluating these and other factors." Clearly the work is incomplete, ongoing and therefore not addressed in the report. To allow DEQ the time it needs to finish this important work and comply with the original directive of that legislation, a one-year extension is requested.)
