Eliminate Cap on Rate Increases for Special Education Private Day School Services

Health and Human Resources

Children's Services Act

Language

Language:

Page 323, strike lines 1 through 5.

Explanation:

(This amendment eliminates the annual two percent rate cap on increases that localities may pay for private day special services under the Children's Services Act. The 2020 JLARC report "Review of the Children's Services Act and Private Special Education Day School Costs" found that this tuition increase limit did not appear to result in any downward pressure on private day school costs.)

Page 327, after line 54, insert:

"H. The Department of Planning and Budget shall transfer \$12,000,000 from the general fund in the second year to the Trauma Fund."

Explanation:

(This amendment adds \$12.0 million the second year from the general fund to the Trauma Center Fund. The Fund has been greatly reduced due to statutory changes related to the reinstatement of motor vehicle licenses. This additional funding will help in defraying the costs of providing emergency medical care to victims of trauma and to offset uncompensated care losses, including readiness costs. Trauma patients are those with severe, multisystem injuries that require complex critical care resulting in additional costs for coordinated care and trauma center readiness. These additional costs are not reimbursed by public or private payers.)

Explanation:

(This amendment adds \$1.8 million from the general fund and \$3.6 million from enhanced federal matching funds to continue funding for the Emergency Department Care Coordination (EDCC) Program and complete several enhancements which should result in cost savings to the Commonwealth and higher quality care for Medicaid and FAMIS beneficiaries. The 2017 General Assembly established the EDCC program to provide a single, statewide technology solution that connects all hospital emergency departments in the Commonwealth to facilitate real-time communication and collaboration among physicians, other healthcare providers and other clinical and care management personnel for patients receiving services in hospital emergency departments for the purpose of improving the quality of patient care services. The program also integrates the state's Prescription Monitoring Program and the Advance Healthcare Directive Registry. To date, 100 percent of hospital emergency departments and health plans participate in the EDCC Program, and 74 percent of physicians. The program has been successful in supporting a reduction in opioid overdoses since its implementation and has been critical in coordinating responses to the COVID-19 pandemic. The program has been funded through federal HITECH funding which provides a 90 percent federal match rate, but the federal funding will end on September 30, 2021. However, Medicaid Management Information Systems funding could be used to assist in leveraging additional federal dollars to complete the system enhancements at a 75 percent federal match rate.)

Explanation:

(This amendment modifies language related to the hospital provider payment rate assessment to change the methodology to enable the hospitals to obtain additional federal dollars with no additional cost to the Commonwealth. Current budget language limits supplemental payments by the upper payment limit gap for fee-for-service claims and extrapolates that gap to managed care claims. Because over 90 percent of Medicaid enrollees are in managed care, this gap can be highly variable on an annual basis and can limit total rate enhancement. The federal Centers for Medicare and Medicaid (CMS) has provided other states the flexibility to structure managed care directed payments as a percentage of Medicare. However, the current budget language is highly prescriptive and limits the department's ability to explore and apply an alternate methodology which could potentially stabilize or increase total supplemental payments.)

The program would increase the number of Virginia behavioral health practitioners through the establishment of an educational loan repayment incentive that complements and coordinates with existing efforts to recruit and retain Virginia behavioral health practitioners. The program would allow for a variety of behavioral health practitioners to receive a student loan repayment award from the Commonwealth in exchange for providing service to Virginia communities that are otherwise underserved. Practitioners would receive loan repayment for up to 25 percent of student loan debt for each year of health care service provided to the Commonwealth. Maximum loan repayment amounts per year are dependent upon the type of behavioral health professional applying and shall not exceed the total student loan debt. Participating practitioners will have an initial two-year minimum participation obligation and may renew for a third and fourth year. The department shall work with the Department of Medical Assistance Services, Medicaid managed care organizations, the Virginia Hospital and Healthcare Association (VHHA), the Medical Society of Virginia, the Department of Behavioral Health and Developmental Services, and the Virginia Association of Community Services Boards to develop the parameters for the program including how to identify appropriate candidates for the program, coordination of case management, interventions and community services to prevent avoidable emergency room visits and the use of multi-disciplinary teams to work with Medicaid patients with complex care needs."

Explanation:

(This amendment adds funding and language for the Virginia Department of Health to develop a program to prevent the inappropriate over utilization of hospital emergency departments (EDs) by Medicaid members. This program would identify Medicaid members who are high utilizers of ED services (more than 10 visits a year) with complex care needs. The upfront cost of \$3.0 million from the general fund would be used to set up and staff five teams across the Commonwealth, each responsible for managing a certain number of the estimated 1,500 enrollees per year, which could result in state savings of approximately \$36.0 million per year. A contractor could be used to coordinate efforts with payers and existing community resources, such as the new VDH/VHHA partnership with Unite US, a resource tool, with a focus on the following five areas of proven success with complex cases: (i) direct patient engagement, (ii) community resource coordination, partnering with Unite Us, (iii) customized care plan development using the existing program, (iv) community multi-disciplinary team development, and (v) community controlled substance monitoring. This amendment establishes a replacement program for the emergency room utilization program, that reduces provider fees, that was adopted by the 2020 General Assembly as a means of avoiding inappropriate emergency room costs in the Medicaid program. Page 372, line 32, strike "July 1, 2021" and insert "April 1, 2022".

Explanation:

(This amendment provides \$1.9 million from the general fund and \$5.7 million in federal Medicaid matching funds in the second year to implement a home visiting benefit for pregnant and post-partum women and children at risk of poor health outcomes effective April 1, 2022. The Department of Medical Assistance Services is directed to engage all relevant stakeholders in the development of the benefit and to pursue the necessary federal approvals. A Medicaid home visiting benefit was originally funded in the 2020 Session but subsequently eliminated due to the revenue impact from the Coronavirus pandemic.)

Nothing in this subparagraph precludes Type One hospitals from implementing charity care policies beyond what is reimbursed through Medicaid."

Explanation:

(This amendment adds \$2.9 million from the general fund the second year and a like amount of matching federal Medicaid funds to update the eligibility requirements for the state indigent care program as it pertains to the two state teaching hospitals. Language is added to eliminate the distinction between patients with incomes between 0-100 percent of the federal poverty level (indigent patients) and 100-200 percent of the federal poverty level (medically indigent patients). Historically, the Department of Medical Assistance Services (DMAS) has reimbursed the State University Teaching Hospitals for care provided to indigent patients but provided only partial reimbursement for the medically indigent, based on a sliding pay scale. Language also updates the asset test for indigent and medically indigent patients which have not been changed since 1985.)

Page 377, strike lines 1 through 6.

Explanation:

(This amendment adds \$14.5 million the second year from the general fund and \$26.8 million in federal matching funds to eliminate the emergency room utilization program that was adopted by the 2020 General Assembly as a means of avoiding inappropriate emergency room costs in the Medicaid program. The amendment eliminates language implementing the program. Instead, a companion amendment in the Virginia Department of Health provides language for an alternative method for reducing emergency room utilization by Medicaid patients by addressing the needs of the complex care patients who are "super utilizers" to get the appropriate care they need and reduce associated costs of care for the Commonwealth.)

"The department shall ensure that a portion of the funding is used for non-narcotic, non-addictive, prescription drug treatment regimens for individuals who are in need of medication assisted treatment and support services while incarcerated and upon their release to the community."

Explanation:

(This amendment modifies language in the introduced budget related to medication assisted treatment. The language narrows the provision of who should receive a portion of the funding (for injectable naltrexone) to incarcerated individuals and those seeking re-entry. The language has always required that jails, prisons and institutions receive a portion of the money, but with new mandates on sheriffs, this funding is most critical to them. Furthermore, the prisons (because of legal prohibitions) and institutions have never utilized the funding, so they will not experience a loss. The language also clarifies that the funding can be used for medication assisted related services and clarifies that allocation of the funding should be prioritized to those who are not otherwise insured.)

Page 533, line 20, strike "\$411,077,641" and insert "\$415,141,162".

Explanation:

(This amendment provides an additional \$4.1 million NGF in each year to restore critical state funding for Virginia's cities and towns that are responsible for maintaining their own road systems. The amounts are necessary, raising the appropriations to a level approved by the General Assembly during the 2020 Regular Session. State assistance covers roughly 84 percent of total maintenance expenditures. Local dollars supplement the state money. A 2013 VDOT study concluded that localities spend significantly more on their roads than VDOT provides for maintenance. The Department also determined that locally maintained roads are more complex than VDOT primary and secondary roads.)

"2. The Department of Behavioral Health and Developmental Services shall assess the state, local and regional administration of the LIPOS program and services. In doing so, it shall meet with stakeholders including CSBs, state hospitals and private hospitals that provide contract beds, and patient advocates. The department shall report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by November 1, 2021 on any recommendations to improve LIPOS administration, efficiency and services."

Explanation:

(This amendment transfers \$8.8 million general fund from the Central Office of the Department of Behavioral Health and Developmental Services in Item 321 to Grants to Localities which provides funding to Community Services Boards for local inpatient purchase of services (LIPOS). The introduced budget had transferred this funding from Grants to Localities to the DBHDS Central Office. Community Services Boards (CSBs) rely on LIPOS funding to purchase private behavioral health hospital bed days to divert individuals in their communities from state hospital admissions. In addition, budget language is added to assess the LIPOS program.)

"AAAAAA. The Department of Medical Assistance Services shall defer the next scheduled nursing facility rate rebasing for one year in order to utilize the calendar year 2021 cost reports as the base year. The deferred year's rates would reflect the prior year rates inflated according to the existing reimbursement regulations. The department shall have the authority to implement these changes effective July 1, 2021, and prior to the completion of any regulatory process undertaken in order to effect such change."

Explanation:

(This amendment adds language directing the Department of Medical Assistance Services to defer nursing home rebasing until it is able to use 2021 cost reports in the rebasing process. Under the current rebasing schedule, cost reports ending in calendar year (CY) 2020 will be the basis of the next nursing facility rate rebasing. Due to the COVID-19 pandemic, the 2020 base year cost reports will contain significant variable data that reflects a mixture of increased costs (some permanent, others temporary) and reduced occupancy. It is possible that the department would determine a "need" to make artificial adjustments to that data, though there is little certainty and potential disagreement over what those adjustments might be. Given the COVID-19 vaccination program, it is expected that the 2021 cost reports would not be as affected by the increased costs associated with the COVID-19 pandemic, and would better reflect ongoing Medicaid costs as a basis for the next rebasing.)

Explanation:

(This amendment provides funding for Phase 1 of improvements and upgrades to the East Campus Steam Plant project at James Madison University. Both boilers and one chiller are at risk for catastrophic failure. The original East Campus Steam Plant, purchased from the City of Harrisonburg in 2017, housed two trash-burning boilers and a steam turbine; it now houses two 35,000 pph boilers, three steam-turbine driven chillers, one electric chiller, and two cooling towers. The existing boiler equipment and the #2 chiller is rundown and a serious risk for catastrophic failure which would cause the university to shutter buildings. It is critical to remove and replace the existing 35,000 pph boilers, #2 chiller immediately and associated equipment to continue to heat and cool 582,128 sq ft of academic and E&G space. Total project cost for this phase of work is \$6,579,237 and includes \$4,605,466 in general funds and \$1,973,771 in auxiliary nongeneral funds. Future phases of this project will include the new boilers relocating to the future boiler building and an additional 80,000 pph boiler to increase current boiler capacity from 180,000 pph to 250,000 pph to cover existing and proposed future loads.)

Explanation:

(This amendment provides bond funding for the project to replace the 65,000 SF replacement of the French Slaughter Building at the Locust Grove Campus of Germanna Community College and three modular buildings of 1,333 SF each. Detailed planning for the project was authorized in Chapter 759, 2016 reconvened session and is now complete. Working drawings are next in the process in order for the project to move to the construction phase. This amendment increases the VCBA Capital Construction Pool in Central Appropriations by \$36.3 million, the total estimated budget for the project. The French Slaughter Building is the original 1970s era main academic and administrative building, rapidly constructed to provide academic and operational space for the then new community college. The new building will include Administrative, General Classroom, Biology Labs, Bookstore, Student Lounge and Library functions. Major instructional programs supported by the new building are Allied Health Nursing, Dental, Physical Therapy and EMS programs leading directly to employment. The new Health Sciences Building will create a new public face for Germanna Community College along Route 3 and on the interior of campus for perspective students and parents. The front entry is conceived to be an appropriately configured interior-exterior use of student space and will reinforce Master Plan initiatives for future growth. Donations of support for the project from localities in GCC's service region and private donations have totaled \$3.6 million to date. Explanation:

(This amendment modifies the coverage assessment amount collected from hospitals to cover the state share of Medicaid expansion costs. Current law, requires the collection of 108 percent of the state share of the full costs of expanded Medicaid coverage. The original intent was to ensure that collections were sufficient to cover the full cost of expansion and not rely on any general fund dollars to expand Medicaid. Rate assessment language has since been amended to allow the Department of Medical Assistance Services (DMAS) to adjust assessments with each quarter to account for differences between estimates and actual spending, however, the 108 percent collection requirement is applied to the estimate for the entire year and not just the remaining quarters. In addition, DMAS now has more experience with expansion and hospital overpayments in the first two years of the program have far exceeded the additional eight percent add-on. Reducing the add-on from eight to two percent would reduce the amount of overpayment made each year by the hospitals into the Health Care Coverage Assessment Fund.)

Page 382, after line 17, insert:

"AAAAAA. Effective, July 1, 2021, the Department of Medical Assistance Services shall have the authority to amend the State Plan for Medical Assistance to adjust the formula for indirect medical education (IME) reimbursement for HMO discharges for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 by increasing the case mix adjustment factor for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 to the greater of 3.2962 or the most recent rebasing. Total payments for IME in combination with other payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 may not exceed the federal uncompensated care cost limit that disproportionate share hospital payments are subject to. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change."

Explanation:

(This amendment stabilizes Children's Hospital of the King's Daughter's (CHKD) future IME funding levels so the hospital would not be subject to dramatic fluctuations that occur with rebasing and changes in federal policy. CHKD's case mix index (CMI) was reduced from a fiscal year 2019 CMI of 3.2962 to 2.4174 in fiscal year 2020 unexpectedly and without regard to other critical factors. To ensure that CHKD will retain customary levels of Medicaid support as a disproportionate share hospital, this amendment increases the case mix adjustment factor for indirect medical education reimbursement for HMO discharges to the greater of fiscal year 2019 levels (3.2962) or the most recent rebasing should it be higher. This amendment increases the case mix adjustment factor for indirect medical education reimbursement for HMO discharges to the greater of fiscal year 2019 levels (3.2962) or the most recent rebasing should it be higher. This change is consistent with historic levels of state support prior to rebasing with comparable general fund impact. IME payments are a 50/50 state and federally matched program. Using fiscal year 2019 as a more typical year for CHKD as it was pre-COVID, the general fund impact would be an estimated \$4.5 million and the nongeneral fund impact of \$4.5 million in the second year.)

D. To provide additional operational relief to institutions of higher education, the following reporting and procurement policies shall be modified accordingly:

1. Pursuant to § 4-2.01.b.11 of this act, required reporting on intercollegiate athletic revenues and expenses, specifically related to the share of athletic revenues from school funds and student fees, as set out in § 23.1-1309, Code of Virginia, shall be suspended for fiscal years 2020, 2021, and 2022. For future reporting on fiscal year 2023 and beyond, fiscal years 2020, 2021, and 2022 shall be excluded from the calculated five-year rolling average of the change in generated revenue and student fees also outlined in § 23.1-1309, Code of Virginia.

2. Pursuant to Item 128 of this act, the Department of Small Business and Supplier Diversity shall create and streamline pathways for Virginia businesses to become and continue to be certified as Small, Women-owned, or Minority-owned Businesses, including but not limited to including vendors that meet federal or other states' designations, modifying income tax return disclosure requirements for sole proprietors, and streamlining and/or automating the recertification process.

3. Consistent with the 2019 updates to the Virginia Public Procurement Act, institutions of higher education that have entered into memoranda of understanding or management agreements with the state are permitted to conform their Request for Proposal advertising rules to that of § 2.2-4302.2.A.2.”

Explanation:

(This unified amendment addresses the funding needs of Virginia’s public colleges and universities to meet the challenges of the COVID-19 pandemic, support operations, and address access and affordability. Specifically, the amendment provides the following: 1) Continues first-year one-time support of \$60.0 million GF provided in Chapter 56, 2020 Special Session I, into the second year of the biennium, and includes funding for George Mason University and Old Dominion University, for operational support, to enhance financial aid, and to address the impacts of the COVID-19 pandemic; 2) Adds \$34.5 million GF in the first year to address the costs of testing for COVID-19; 3) Adds \$65.3 million GF in the second year as a base budget adjustment to allow institutions of higher education to address affordability and unfunded operational requirements; and 4) Provides relief from certain procurement and reporting requirements to provide institutions with additional flexibility and to generate cost savings.)

2. The Department is hereby authorized to enter into a contractual agreement with an eligible CDFI or similar private entity to make grants and lending to small businesses adversely impacted by the COVID pandemic. An eligible qualifying CDFI shall be a community development bank, community development credit union, or other similar private entity that the Secretary of Commerce and Trade finds is (i) established to conduct business legally within the Commonwealth; (ii) subject to oversight by federal or state financial institution or insurance regulatory agencies, as appropriate; and (iii) eligible for certification by the U.S. Department of Treasury as a community development financial institution or other similar charter or principles which require support of small businesses.

3. The community development bank, community development credit union, or other similar organization is intended to be a source of targeted lending and investment with the capacity to provide a high degree of leveraging for economic development and business support activities within communities throughout the Commonwealth. These activities may include loans and investments to start or expand small businesses, operating and working capital, property renovation or development, and financial services needed by adversely impacted small businesses. The entity may also provide services that help ensure that credit is used effectively, such as technical assistance to small businesses and credit counseling to consumers.

(This amendment provides funding to provide scientific data for the management of saltwater fisheries in the Commonwealth. This initiative was funded in the 2020 General Assembly Session but subsequently. Long-standing VIMS fisheries surveys have provided scientific data for the management of saltwater fisheries in the Commonwealth of Virginia. Recent reductions in state and federal funds resulted in dramatic cuts in five of the most crucial surveys. Failure to restore the necessary funding will require elimination of one or more of these surveys and an ensuing lack of key data to support fisheries management. Explanation:

(This amendment provides \$500,000 from the general fund the second year related to legislation (Senate Bill 1328) to establish a state-funded Kinship Guardianship Assistance Program (KinGAP) in Virginia. The maintenance and service costs for both the Department of Social Services and the Office of Children's Services would remain the same for the youth who would qualify for the new program since they currently receive these payments until the age of 18 and who would have otherwise "aged-out" without achieving permanency. However, additional youths who would have exited foster care to the custody of a relative without an assistance payment were it not for state KinGAP, would require new funding for maintenance and service payments. For the state KinGAP program maintenance and service payments will be paid by the Office of Children's Services. This is a recommendation of the Commission on Youth.)

Historically, Virginia has funded SCD care for children but not for adults, until last year when \$305,000 per year was included in Chapter 1289, 2020 Acts of Assembly, was targeted to providing services for transitioning youth to adult services. This amendment would establish a comprehensive adult program for sickle cell disease within the Office of Family Health Services and would create a model of care based on the structure of existing pediatric care models. Two-thirds of SCD patients are adults and the disease disproportionately impacts African-Americans.)

The Department of Medical Assistance Services shall transfer such funds as needed to the Department of Social Services for the implementation of the pilot program.

2. The department, in cooperation with the Virginia Department of Social Services, shall identify additional sources of federal funding that may be available to assist with the implementation of the Produce Rx pilot program and its sustainability. The department shall report on the availability of federal funds and any necessary changes to the design and implementation of the program needed to access such funds to the Department of Social Services. Such information shall be included in the required report on the pilot program to the Governor and the General Assembly by December 1 annually."

Explanation:

(The amendment adds \$2.0 million the second year from the general fund and language to support the Produce Rx pilot program pursuant to legislation proposed in the 2021 Session, which can be used as matching funds for any federal funding that may be available. The Department of Medical Assistance Services (DMAS) is directed to transfer such funds to DSS as needed to support the pilot program. This amendment also adds language requiring the DMAS to identify additional sources of federal funding for the Produce Rx pilot program. Language requires DMAS to work with the Department of Social Services (DSS), which has responsibility for establishing the pilot program, advise DSS on any necessary design and implementation changes in order to access additional federal funds. and to include such information to DSS for reporting purposes. Title IV of the federal Agriculture Improvement Act of 2018 included authorization for the Produce Prescription Program (PPP), which provides limited funding for pilot projects for nonprofit organizations or State/local agencies to partner with healthcare providers to: (i) provide fresh fruits and vegetables to low-income individuals suffering from or at risk of developing diet-related health conditions; and (ii) evaluate the impact of these types of projects on dietary health, food security, and health care use and costs.)

For children not enrolled with a Medicaid MCO, the department shall directly reimburse the clinic for services provided at the fee-for-service rate.

2. Mobile vision services shall be reimbursed in full for necessary comprehensive vision services including, at a minimum, an eye exam, lenses, frames, and fitting. In order to be eligible for reimbursement for mobile vision clinic services, a clinic shall have a written agreement with the school or school division where such services are provided. The agreement shall establish (i) how children will be referred for school-located vision services, (ii) a mechanism for ensuring parental or legal guardian notification, and (iii) a referral process for children needing follow up care. Such services shall be provided by a Virginia-licensed optometrist employed by or under contract with the mobile vision clinic.

3. To demonstrate the impact that school-based mobile vision clinic services have on Medicaid and FAMIS-enrolled children, such mobile vision clinics shall report annually by September 1 to the Board of Medical Assistance Services and the Medicaid Managed Care Organization Workgroup on the number of children it has served through the mobile vision clinic model, the rate of children obtaining vision care after being identified as needing vision care through an in-school vision screening or other school-based referral, and the number of children served through the mobile vision clinic model who are referred for further care.

The workgroup shall: i) identify the number of children who would qualify and their geographic location; ii) demonstrate the impact a lack of health care coverage has on these children; iii) determine the financial burden carried by hospital systems and other healthcare facilities that currently provide care for these children; iv) identify the existing barriers these children face when trying to access essential medical services in a timely manner; v) identify the long-term health impacts to children who do not have health care coverage and the future cost the Commonwealth will incur as a result; and vi) recommend options for providing health care coverage to these children and the approximate cost to the Commonwealth."

Explanation:

(This amendment directs the Department of Medical Assistance Services to convene a workgroup to research and recommend strategies for the financing of health care services for undocumented immigrant children. Approximately 13,000 immigrant children in Virginia lack health insurance and approximately 9,000 of those children live under 200 percent of the federal poverty level. They do not qualify for CHIP-funded (Children's Health Insurance Program) health insurance due to their immigration status. Inequitable access to health coverage leads to increased morbidity and mortality, along with an increased financial burden to the healthcare system.)

Explanation:

(This amendment adds \$1.7 million from the general fund and \$19.1 million from the Temporary Assistance to Needy Families (TANF) block grant the second year to increase the standards of assistance by 18 percent beginning in fiscal year 2022. Language requires the Department of Social Services to develop a plan to increase the standards of assistance by 18 percent annually until the standards equal 50 percent of the federal poverty level, which is estimated to take four years. TANF eligibility is tied to the monthly cash assistance value. In 1985, a three person family in the City of Richmond could be eligible with net income below 48 percent of the federal poverty level. To qualify now, the family's net income must be less than 30 percent of the federal poverty level.)

Explanation:

(This amendment modifies restrictions on state university debt payments to authorize the use of federal grant and contract funds due to a state university to pay debt service on revenue bonds only as required through the United States Department of Education Historically Black College and University Capital Financing Program (HBCU Program). The HBCU Program provides HBCUs with low-cost capital to finance infrastructure improvements, facilitating the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation. In order to participate in the HBCU Program, the institution must permit the use of revenue from federal grants and contracts via administrative offset if the pledged revenues are insufficient to pay debt service. By modifying restrictions to permit the use of federal grant and contract funds to cover debt payments, this would allow Virginia State University and Norfolk State University to participate in the federal HBCU Program, thereby providing new opportunities for the institution to fund needed capital improvements. "AAAAAA. Notwithstanding any other provision of law, any nursing facility that increases rates or adds special charges for residents, regardless of payer and including private pay, since the beginning of the Public Health Emergency as declared by the U.S. Secretary of Health and Human Services and during such emergency, that are significantly higher than typical inflationary increase in charges is hereby ineligible for the additional per diem rates authorized in Item 380 Paragraph LLLLL in this Act and for financial assistance provided in Item 479.10 in this Act from federal Coronavirus Relief Funds. Upon a complaint by a resident or family member that a nursing facility has imposed higher rates or special charges that are atypical, the Department of Medical Assistance Services shall verify such action. If the department determines the nursing facility has increased rates or imposed new charges that are atypical since the beginning of the Public Health Emergency, the department shall no longer make additional payments pursuant to the previously mentioned provisions of this act. Furthermore, the department shall adjust future payments to such nursing facility to recapture prior payments made under those same provisions."

Explanation:

(This amendment provides that any nursing facility in the Commonwealth that has increased their rates or added additional charges during the public health emergency for COVID-19, that are higher than normal are not eligible for the \$20 per day per diem or any financial assistance from the Coronavirus Relief Fund as authorized in the current budget. These additional funding streams were provided by the Commonwealth to assist nursing facilities during the public health emergency to help offset losses of revenue or higher costs related to the pandemic. This amendment ensures that nursing facilities that dramatically increase their charges or add special fees to recover costs during the public health emergency are not eligible for the additional state assistance and would also be required to repay any prior payments from that assistance.)

Page 620, after line 14, insert:

"C-23.5 - - Amherst and Campbell Halls	\$500,000	\$0
Fund Sources: General	\$500,000	\$0 "

Explanation:

(This amendment provides planning funding for renovations of Amherst and Campbell Halls on CVCC's campus. These two buildings are the oldest on their campus. Amherst (54,042 Square Feet) and Campbell (19,550 square feet) Halls comprise the core classroom space for Central Virginia Community College. Amherst Hall was built in 1968 and has not undergone any major renovation in the 46 years since it was constructed. Campbell Hall was completed in 1974 and likewise has never had a major renovation on the upper level. Amherst and Campbell Halls are not equipped or designed to meet new and emerging industrial and technology needs. Learning environments and instructional technology have changed in so many ways that existing facilities must be modernized to allow faculty to take advantage of the new technologies, and to provide skills training to meet the needs of both existing industry and emerging industries/technologies. Amherst and Campbell halls house the college's physical science, information technology, health technology, welding, and engineering programs. The renovation of these buildings will therefore enable CVCC to add and modernize critical lab space in each of these areas—all of which are absolutely vital to STEM-H employers in the Lynchburg region. By providing facilities that are crucial to the credentialing of tomorrow's workforce, these renovations will help the college meet the needs of business and industry and fuel the post-pandemic economy in the region. Campbell Hall, in particular, represents a vital element of CVCC's regional CTE academy, which has been endorsed by all local school divisions and has now received a \$400,000 GO Virginia Grant. Life Safety issues in these two buildings are in critical need of improvement. Amherst has no Fire Extinguishment System or Construction features such as smoke barriers, fire walls or necessary interior finishes. The proposed renovation would address these critical issues. Campbell hall is a two story facility that has no elevator, door systems that do not meet ADA requirements and other Life Safety Code requirements. The electrical systems are inadequate for 21st Century educational technology. HVAC is in need of upgrade to include new air handlers. Floor coverings are in desperate need of replacing. This includes tile that will require asbestos removal. Safety and security issues extend to control of access and doors and emergency response capabilities.)

Explanation:

(This amendment provides authorization and funding to construct Phase 4 of the Integrated Science Center (ISC). This facility completes the ISC complex and will house several academic departments focused on scientific and technology-related disciplines, including computer science and data science. STEM and other computational programs are in high demand at the university. Completion of the ISC will foster collaboration across key academic areas and provide essential space for these growing departments. The 2016 General Assembly authorized detailed planning for the project with use of university funds and preliminary design is complete. Additionally, the university's Tech Talent Investment Program (TTIP) agreement with the Commonwealth provided \$1.565M in supplemental funding for Phase 4 of the ISC but General Assembly authorization and funding is required before the supplemental funds can be deployed. Further delaying construction will result in added cost due to escalation. This project is critical to the university's commitment to meeting the targets set forth in its TTIP agreement and to supporting the Commonwealth's broader workforce needs for high demand fields.)

§ 58.1-321. Exemptions and exclusions.

A. No tax levied pursuant to § 58.1-320 is imposed, nor any return required to be filed, by:

1. A single individual where the Virginia adjusted gross income plus the modification specified in subdivision 5 of § 58.1-322.03 for such taxable year is less than \$11,650 for taxable years beginning on and after January 1, 2010, but before January 1, 2012.

A single individual where the Virginia adjusted gross income plus the modification specified in subdivision 5 of § 58.1-322.03 for such taxable year is less than \$11,950 for taxable years beginning on and after January 1, 2012.

2. An individual and spouse if their combined Virginia adjusted gross income plus the modification specified in subdivision 5 of § 58.1-322.03 is less than \$23,300 for taxable years beginning on and after January 1, 2010 (or one-half of such amount in the case of a married individual filing a separate return) but before January 1, 2012, and less than \$23,900 for taxable years beginning on and after January 1, 2012 (or one-half of such amount in the case of a married individual filing a separate return).

For the purposes of this section, "Virginia adjusted gross income" means federal adjusted gross income for the taxable years with the modifications specified in §§ 58.1-322.01 and 58.1-322.02.

B. Persons in the Armed Forces of the United States stationed on military or naval reservations within Virginia who are not domiciled in Virginia shall not be held liable to income taxation for compensation received from military or naval service.

C. For taxable years beginning on and after January 1, 2020, but before January 1, 2026, any amount that is includible in the federal adjusted gross income of an eligible veteran by reason of the whole or partial discharge of any loan described in § 108(f)(5)(B) of the Internal Revenue Code shall be excluded from Virginia adjusted gross income. This exclusion shall apply only to those discharges that (i) are described in clauses (i), (ii), and (iii) of § 108(f)(5)(A) of the Internal Revenue Code and (ii) occur after December 31, 2017. For the purposes of this subsection, "eligible veteran" means a veteran who has been rated by the U.S. Department of Veterans Affairs, or its successor agency pursuant to federal law, to have a 100 percent service-connected, permanent, and total disability.

D. For taxable years beginning on and after January 1, 2020, any amount that would otherwise be includible in the federal adjusted gross income of an eligible recipient by reason of forgiveness of indebtedness described in § 1106(b) of P.L. 116-136 (the Coronavirus Aid, Relief, and Economic Security Act) shall be excluded from Virginia adjusted gross income. For the purposes of this subsection, "eligible recipient" has the same meaning as that term is defined in § 1106(a) of P.L. 116-136. No taxpayer shall be denied an otherwise allowable deduction by reason of the exclusion from Virginia adjusted gross income provided by this subsection."

"Q. Out of this appropriation, \$250,000 the second year from the general fund is designated for the Guidance to Postsecondary Success program. The program coordinates statewide efforts to increase college access and student success."

Explanation:

(This amendment restores \$250,000 GF the second year provided during the 2020 regular session for SCHEV to implement the Guidance to Postsecondary Success (GPS) program. These funds were later unallotted. The purpose of this new initiative is to increase student transitions from high school to postsecondary education and also help students find the right fit for their future and in terms of costs. Each year, 25,000 high school graduates do not enroll in postsecondary education within 16 months, including significantly higher percentages for African-American, Hispanic and economically disadvantaged students. The pandemic and virtual learning environments in high schools are expected to exacerbate these inequitable outcomes in the coming year. Working closely with the Virginia Department of Education, SCHEV will seek to increase these enrollment rates through the development of materials and informational resources and the coordination of awareness events, professional development opportunities for secondary staff and partnerships with institutions, schools, school divisions and non-profit organizations. In addition, these funds will be used as a match for an upcoming SCHEV application for a federally-funded Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) grant that also will focus on school division-specific and statewide outreach programs, as well as, required scholarships for eligible students.)

Explanation:

(This amendment provides authorization for 9(c) revenue bonds for construction of a new dining facility at Norfolk State University (NSU). NSU's 44,404 square foot Scott-Dozier Dining Hall was built in 1982 and the 18,603 square foot West Campus Café was built in 1974 to accommodate the existing dining needs of the campus. Over the intervening years, the campus has seen substantial growth in students, faculty, and staff. There have been modest renovations through the years in order to adjust for new needs; however the fundamental issue of growth and functional use have not been addressed in these renovations due to the constraints of the buildings. As such, per the requirements of the Campus Master Plan, the campus needs a new dining facility to accommodate the needs of a growing campus. This new construction will consist of 70,000 square foot dining facility that will serve 600-700 students. It will include a small formal dining hall, banquet room, staff offices, full kitchen, and temporary table and chair storage. In 2019, the university brought online an additional 740 bed housing facility. To accommodate the increased campus beds, the University Master Plan calls for the construction of a new dining facility. While the faculty dining hall and banquet spaces have been converted for student use to increase capacity, this arrangement does not represent a viable long-term solution.)

Explanation:

(This amendment provides \$1.2 million GF to purchase and renovate property, playground equipment, security, phones and supplies for the Preschool Academy. For more than 40 years, NSU's Preschool Academy, has helped thousands of families and children throughout Hampton Roads by providing a safe and nurturing environment to learn and to grow. Affiliated with NSU's School of Education, the Preschool Academy is a full and part-time early childhood and care program for children ages 2.5 through 4.5 years old. The Academy is accredited by the National Association for the Education of Young Children (NAEYC) — the nation's leading organization for early childhood professionals, and licensed by the Virginia Department of Social Services. The Academy is currently located in one of the University's oldest facilities, which is not conducive to the program's continued evolution and future expansion. Accordingly, NSU requests funding to identify a new standalone facility for the Academy and to support program upgrades, including funds to purchase and renovate a property contiguous to the NSU campus; new playground equipment; doorbell camera, door entry lock and security cameras; telephones; four portable handwashing sinks; three stackable washing machine/dryer combinations; and various supplies.)

“F. Notwithstanding the provisions of §§ 58.1-816.A, 58.1-816.B, and 33.2-2600.1.B, Code of Virginia, \$20,000,000 in the second year in state recordation tax revenues not deposited into the Hampton Roads Regional Trust Fund, not collected from localities in Planning District 8, and not set aside under the provisions of § 58.1-816.1., Code of Virginia, shall be apportioned and distributed quarterly to each county or city except for those counties or cities located in Planning District 8 or counties and cities in a transportation district in Hampton Roads created pursuant to § 33.2-1903, Code of Virginia, by the Comptroller by multiplying the amount to be distributed by a fraction in which the numerator is the amount of the taxes imposed under §§ 58.1-801 through 58.1-809, Code of Virginia, and actually paid into the state treasury which are attributable to deeds and other instruments recorded in the county or city and the denominator is the amount of taxes imposed under §§ 58.1-801 through 58.1-809, Code of Virginia, actually paid into the state treasury. All distributions pursuant to clause (ii) shall be made on a quarterly basis within 30 days of the end of the quarter. Such quarterly distribution shall equal one quarter of the annual distribution amount set forth in subsection A available after the distribution required by clause (i). Each clerk of the court shall certify to the Comptroller, within 15 days after the end of the quarter, all amounts collected under §§ 58.1-801 through 58.1-809, Code of Virginia, and actually paid into the state treasury which are attributable to deeds and other instruments recorded in such county or city.”

Explanation:

(This amendment offsets the \$20 million distribution that was redirected to Hampton Roads Transit (HRT) with a use of General Funds generated from state recordation tax revenues to hold harmless localities not served by HRT previously receiving this distribution. This does not impact distribution to the Hampton Roads Regional Trust Fund.)

"M. The Department of Environmental Quality, in consultation with the Department of Agriculture and Consumer Services and the Department of Forestry, shall establish a work group to review the practice of retiring agricultural land for the generation of nutrient credits and determine its impact on agricultural sustainability, farmland retention, farmland preservation, and functions of the nutrient credit exchange in the Virginia portion of the Chesapeake Bay watershed and its subwatersheds. If it is determined that there is impact on farmland retention/availability, the report should include recommendations regarding how the nutrient credit trading regulations and/or underlying statutory authority should be changed to help reduce the loss of prime farmland. If the land for nutrient credits is converted to forestland, the workgroup should identify what protections are in the nutrient credit trading regulations to ensure the forestland is managed under a forestry management plan and/or noxious weed or invasive species are controlled. The review shall be completed and provided to the Chairs of the House Committee on Agriculture, Chesapeake and Natural Resources, the Senate Committee on Agriculture, Conservation, and Natural Resources and the Virginia delegation of the Chesapeake Bay Commission by December 1, 2021.
