41	certain levels.			
42	4. The Joint Subcommittee may seek support from the staff of the Senate Finance and House			
43	Appropriations Committees, the public institutions of higher education, or other higher			
44	education or state agency representatives, as requested by the Joint Subcommittee. At its

24	A. In the event the appropriation in this Item proves to be insufficient to fund all of its				
25	provisions, any amount remaining as of June 1, 2019, and June 1, 2020, may be reallocated				
26	among localities on a pro rata basis according to such deficiency.				
27	B. For the purposes of this Item, the following definitions shall be applicable:				
28	1. Effective sentence--a convicted offender's sentence as rendered by the court less any				
29	portion of the sentence suspended by the court.				
30	2. Local responsible inmate--(a) any person arrested on a state warrant and incarcerated in a				
31	local correctional facility, as defined by § 53.1-1, Code of Virginia, prior to trial; (b) any				
32	person convicted of a misdemeanor offense and sentenced to a term in a local correctional

36	sum of consecutive effective sentences for felonies, committed on or after January 1, 1995, is				
37	(i) more than 12 months or (ii) one year or more, or (b) the sum of consecutive effective				
38	sentences for felonies, committed before January 1, 1995, is more than two years.				
39	C. The individual or entity responsible for operating any facility which receives funds from				
40	this Item may, if requested by the Department of Corrections, enter into an agreement with the				
41	department to accept the transfer of convicted felons, from other local facilities or from				
42	facilities operated by the Department of Corrections. In entering into any such agreements, or				
43	in effecting the transfer of offenders, the Department of Corrections shall consider the				
44	security requirements of transferred offenders and the capability of the local facility to				
45	maintain such offenders. For purposes of calculating the amount due each locality, all funds				
46	earned by the locality as a result of an agreement with the Department of Corrections shall be				
47	included as receipts from these appropriations.				
48	D. Out of this appropriation, an amount not to exceed \$377,010 the first year and \$377,010				
49	the second year from the general fund, is designated to be held in reserve for unbudgeted

2	1. For local responsible inmates--\$4 per inmate day, or, if the inmate is housed and			
3	maintained in a jail farm not under the control of the sheriff, the rate shall be \$18 per			
4	inmate day.			
5	2. For state responsible inmates--\$12 per inmate day.			
6	F. For the payment specified in paragraph E 1 of this Item for prisoners in alternative			
7	punishment or alternative to incarceration programs:			
8	1. Such payment is intended to be made for prisoners that would otherwise be housed in a			
9	local correctional facility. It is not intended for prisoners that would otherwise be			
10	sentenced to community service or placed on probation.			
11	2. No such payment shall be made unless the program has been approved by the			
12	Department of Corrections or the Department of Criminal Justice Services. Alternative			
13	punishment or alternative to incarceration programs, however, may include supervised			
14	work experience, treatment, and electronic monitoring programs.			
15	G.1. Except as provided for in paragraph G 2, and notwithstanding any other provisions of			
16	this Item, the Compensation Board shall provide payment to any locality with an average			
17	daily jail population of under ten in FY 1995 an inmate per diem rate of \$18 per day for			
18	local responsible inmates and \$12 per day for state responsible inmates held in these jails			
19	in lieu of personal service costs for corrections' officers.			
20	2. Any locality covered by the provisions of this paragraph shall be exempt from the			
21	provisions thereof provided that the locally elected sheriff, with the assistance of the			
22	Compensation Board, enters into good faith negotiations to house his prisoners in an			
23	existing local or regional jail. In establishing the per diem rate and capital contribution, if			
24	any, to be charged to such locality by a local or regional jail, the Compensation Board and			
25	the local sheriff or regional jail authority shall consider the operating support and capital			
26	contribution made by the Commonwealth, as required by §§ 15.2-1613 , 15.2-1615.1 , 53.1-			
27	80 , and 53.1-81 , Code of Virginia. The Compensation Board shall report periodically to			
28	the Chairmen of the House Appropriations and Senate Finance Committees on the			
29	progress of these negotiations and may withhold the exemption granted by this paragraph			
30	if, in the board's opinion, the local sheriff fails to negotiate in good faith.			
31	H.1. The Compensation Board shall recover the state-funded costs associated with housing			
32	federal inmates, District of Columbia inmates or contract inmates from other states. The			
33	Compensation Board shall determine, by individual jail, the amount to be recovered by the			
34	Commonwealth by multiplying the jail's current inmate days for this population by the			
35	proportion of the jail's per inmate day salary funds provided by the Commonwealth, as			
36	identified in the most recent Jail Cost Report prepared by the Compensation Board.			
37	Beginning July 1, 2009, the Compensation Board shall determine, by individual jail, the			
38	amount to be recovered by the Commonwealth by multiplying the jail's current inmate			
39	days for this population by the proportion of the jail's per inmate day operating costs			
40	provided by the Commonwealth, excluding payments otherwise provided for in this Item,			
41	as identified in the most recent Jail Cost Report prepared by the Compensation Board. If a			
42	jail is not included in the most recent Jail Cost Report, the Compensation Board shall use			
43	the statewide average of per inmate day salary funds provided by the Commonwealth.			
44	2. The Compensation Board shall deduct the amount to be recovered by the			
45	Commonwealth from the facility's next quarterly per diem payment for state-responsible			
46	and local-responsible inmates. Should the next quarterly per diem payment owed the			
47	locality not be sufficient against which to net the total quarterly recovery amount, the			
48	locality shall remit the remaining amount not recovered to the Compensation Board.			
49	3. Any local or regional jail which receives funding from the Compensation Board shall			
50	give priority to the housing of local-responsible, state-responsible, and state contract			
51	inmates, in that order, as provided in paragraph H 1.			
52	4. The Compensation Board shall not provide any inmate per diem payments to any local			
53	or regional jail which holds federal inmates in excess of the number of beds contracted for			
54	with the Department of Corrections, unless the Director, Department of Corrections,

2	required; b) the facility has operational capacity built under contract with the federal			
3	government; c) the facility has received a grant from the federal government for a portion of			
4	the capital costs; or d) the facility has applied to the Department of Corrections for			
5	participation in the contract bed program with a sufficient number of beds to meet the			
6	Department of Corrections' need or ability to fund contract beds at that facility in any given			
7	fiscal year.			
8	5. The Compensation Board shall apply the cost recovery methodology set out in paragraph H			
9	1 of this Item to any jail which holds inmates from another state on a contractual basis.			
10	However, recovery in such circumstances shall not be made for inmates held pending			
11	extradition to other states or pending transfer to the Virginia Department of Corrections.			
12	6. The provisions of this paragraph shall not apply to any local or regional jail where the			
13	cumulative federal share of capital costs exceeds the Commonwealth's cumulative capital			
14	contribution.			
15	7. For a local or regional jail which operates bed space specifically built utilizing federal			
16	capital or grant funds for the housing of federal inmates and for which Compensation Board			
17	funding has never been authorized for staff for such bed space, the Compensation Board shall			
18	allow an exemption from the recovery provided in paragraph H.1. for a defined number of			
19	federal prisoners upon certification by the sheriff or superintendent that the federal			
20	government has paid for the construction of bed space in the facility or provided a grant for a			
21	portion of the capital cost. Such certification shall include specific funding amounts paid by			
22	the federal government, localities, and/or regional jail authorities, and the Commonwealth for			
23	the construction of bed space specifically built for the housing of federal inmates and for the			
24	construction of the jail facility in its entirety. The defined number of federal prisoners to be			
25	exempted from the recovery provided in paragraph H.1. shall be based upon the proportion of			
26	funding paid by the federal government and localities and/or regional jail authorities for the			
27	construction of bed space to house federal prisoners to the total funding paid by all sources,			
28	including the Commonwealth, for all construction costs for the jail facility in its entirety.			
29	8. Beginning March 1, 2013, federal inmates placed in the custody of a regional jail pursuant			
30	to a work release program operated by the federal Bureau of Prisons shall be exempt from the			
31	recovery of costs associated with housing federal inmates pursuant to paragraph H.1. of this			
32	item if such federal inmates have been assigned by the federal Bureau of Prisons to a home			
33	electronic monitoring program in place for such inmates by agreement with the jail on or			
34	before January 1, 2012 and are not housed in the jail facility. However, no such exemption			
35	shall apply to any federal inmate while they are housed in the regional jail facility.			
36	I. Any amounts in the program Financial Assistance for Confinement of Inmates in Local and			
37	Regional Facilities, may be transferred between Items 66 and 67, as needed, to cover any			
38	deficits incurred in the programs Financial Assistance for Sheriffs' Offices and Regional Jails			
39	and Financial Assistance for Confinement of Inmates in Local and Regional Facilities.			
40	J.1. The Compensation Board shall provide an annual report on the number and diagnoses of			
41	inmates with mental illnesses in local and regional jails, the treatment services provided, and			
42	expenditures on jail mental health programs. The report shall be prepared in cooperation with			
43	the Virginia Sheriffs Association, the Virginia Association of Regional Jails, the Virginia			
44	Association of Community Services Boards, and the Department of Behavioral Health and			
45	Developmental Services, and shall be coordinated with the data submissions required for the			
46	annual jail cost report. Copies of this report shall be provided by November 1 of each year to			
47	the Governor, Director, Department of Planning and Budget, and the Chairmen of the Senate			
48	Finance and House Appropriations Committees.			
49	2. Whenever a person is admitted to a local or regional correctional facility, the staff of the			
50	facility shall screen such person for mental illness using a scientifically validated instrument.			
51	The Commissioner of Behavioral Health and Developmental Services shall designate the			
52	instrument to be used for the screenings and such instrument shall be capable of being			
53	administered by an employee of the local or regional correctional facility, other than a health			
54	care provider, provided that such employee is trained in the administration of such instrument.

6	2. The attorneys for the Commonwealth and their successors who serve on a full-time basis			
7	pursuant to §§ 15.2-1627.1, 15.2-1628, 15.2-1629, 15.2-1630 or § 15.2-1631, Code of			
8	Virginia, shall receive salaries as if they served localities with populations between 35,000			
9	and 44,999.			
10	3. Whenever an attorney for the Commonwealth is such for a county and city together, or for			
11	two or more cities, the aggregate population of such political subdivisions shall be the			
12	population for the purpose of arriving at the salary of such attorney for the Commonwealth			
13	under the provisions of this paragraph and such attorney for the Commonwealth shall receive			
14	as additional compensation the sum of one thousand dollars.			
15	B. No expenditure shall be made out of this Item for the employment of investigators, clerk-			
16	investigators or other investigative personnel in the office of an attorney for the			
17	Commonwealth.			
18	C. Consistent with the provisions of § 19.2-349, Code of Virginia, attorneys for the			
19	Commonwealth may, in addition to the options otherwise provided by law, employ			
20	individuals to assist in collection of outstanding fines, costs, forfeitures, penalties, and			
21	restitution. Notwithstanding any other provision of law, beginning on the date upon which the			
22	order or judgment is entered, the costs associated with employing such individuals may be			
23	paid from the proceeds of the amounts collected provided that the cost is apportioned on a pro			
24	rata basis according to the amount collected which is due the state and that which is due the			
25	locality. The attorneys for the Commonwealth shall account for the amounts collected and			
26	apportion costs associated with the collections consistent with procedures issued by the			
27	Auditor of Public Accounts.			
28	D. The provisions of this act notwithstanding, no Commonwealth's attorney, public defender			
29	or employee of a public defender, shall be paid or receive reimbursement for the state portion			
30	of a salary in excess of the salary paid to judges of the circuit court. Nothing in this paragraph			
31	shall be construed to limit the ability of localities to supplement the salaries of locally elected			
32	constitutional officers or their employees.			
33	E. The Statewide Juvenile Justice project positions, as established under the provisions of			
34	Item 74 E, of Chapter 912, 1996 Acts of Assembly, and Chapter 924, 1997 Acts of Assembly,			
35	are continued under the provisions of this act. The Commonwealth's attorneys receiving such			
36	positions shall annually certify to the Compensation Board that the positions are used			
37	primarily, if not exclusively, for the prosecution of delinquency and domestic relations felony			
38	cases, as defined by Chapters 912 and 924. In the event the positions are not primarily or			
39	exclusively used for the prosecution of delinquency and domestic relations felony cases, the			
40	Compensation Board shall reallocate such positions by using the allocation provisions as			
41	provided for the board in Item 74 E of Chapters 912 and 924.			
42	F. The Compensation Board shall monitor the Department of Taxation program regarding the			
43	collection of unpaid fines and court costs by private debt collection firms contracted by			
44	Commonwealth's attorneys and shall include, in its annual report to the General Assembly on			
45	the collection of court-ordered fines and fees for clerks of the courts and Commonwealth's			
46	attorneys, the amount of unpaid fines and costs collected by this program.			
47	G. Out of this appropriation, \$389,165 the first year and \$389,165 the second year from the			
48	general fund is designated for the Compensation Board to fund five additional positions in			
49	Commonwealth's attorney's offices that shall be dedicated to prosecuting gang-related			
50	criminal activities. The board shall ensure that these positions work across jurisdictional lines,			
51	serving the Northern Virginia area (counties of Fairfax, Loudoun, Prince William, and			
52	Arlington and the cities of Falls Church, Alexandria, Manassas, Manassas Park and Fairfax).			
53	H. In accordance with the provisions of § 19.2-349, Code of Virginia, attorneys for the			
54	Commonwealth may employ individuals, or contract with private attorneys, private collection

1	agencies, or other state or local agencies, to assist in collection of delinquent fines, costs,			
2	forfeitures, penalties, and restitution. If the attorney for the Commonwealth employs			
3	individuals, the costs associated with employing such individuals may be paid from the			
4	proceeds of the amounts collected provided that the cost is apportioned on a pro rata basis			
5	according to the amount collected which is due the state and that which is due the locality.			
6	If the attorney for the Commonwealth does not undertake collection, the attorney for the			
7	Commonwealth shall, as soon as practicable, take steps to ensure that any agreement or			
8	contract with an individual, attorney or agency complies with the terms of the current			
9	Master Guidelines Governing Collection of Unpaid Delinquent Court-Ordered Fines and			
10	Costs Pursuant to Virginia Code § 19.2-349 promulgated by the Office of the Attorney			
11	General, the Executive Secretary of the Supreme Court, the Department of Taxation, and			
12	the Compensation Board ("the Master Guidelines"). Notwithstanding any other provision			
13	of law, the delinquent amounts owed shall be increased by seventeen (17) percent to help			
14	offset the costs associated with employing such individuals or contracting with such			
15	agencies or individuals. If such increase would exceed the contracted collection agent's			
16	fee, then the delinquent amount owed shall be increased by the percentage or amount of			
17	the collection agent's fee. Effective July 1, 2015, as provided in § 19.2-349, Code of			
18	Virginia, treasurers not being compensated on a contingency basis as of January 1, 2015			
19	shall be prohibited from being compensated on a contingency basis but shall instead be			
20	compensated for administrative costs pursuant to § 58.1-3958, Code of Virginia.			
21	Treasurers currently collecting a contingency fee shall be eligible to contract on a			
22	contingency fee basis. Effective July 1, 2015, any treasurer collecting a contingency fee			
23	shall retain only the expenses of collection, and the excess collection shall be divided			
24	between the state and the locality in the same manner as if the collection had been done by			
25	the attorney for the Commonwealth. The attorneys for the Commonwealth shall account			
26	for the amounts collected and the fees and costs associated with the collections consistent			
27	with procedures issued by the Auditor of Public Accounts.			
28	I. Notwithstanding the provisions of Article 7, Chapter 4, Title 38, Code of Virginia,			
29	beginning July 1, 2018, \$600,000 each year from the Insurance Fraud Fund is included in			
30	this appropriation to fund multi-jurisdictional Assistant Commonwealth's Attorney			
31	positions that shall be dedicated to prosecuting insurance fraud and related criminal			
32	activities. The Department of State Police shall identify those jurisdictions most affected			
33	by insurance fraud based upon data provided by the Virginia State Police Insurance Fraud			
34	Program. The Virginia State Police Insurance Fraud Program shall ensure that these			
35	positions work across jurisdictional lines, serving jurisdictions identified as most in need			
36	of these resources as supported by data. These funds shall remain unallocated until the			
37	Compensation Board and Virginia State Police notify the Director of the Department of			
38	Planning and Budget of the joint agreements reached with the Commonwealth's Attorneys			
39	of the jurisdictions receiving the additional Assistant Commonwealth's Attorney positions			
40	and the jurisdictions to be served by these positions. The Commonwealth's Attorneys			
41	receiving such positions shall annually certify to the Compensation Board that these			
42	positions are used primarily, if not exclusively, for the prosecution of insurance fraud and			
43	related criminal activities.			
44	<i>J. The appropriations in this item includes \$1,471,228 the second year from the general</i>			
45	<i>fund to fund approximately twenty percent of the unfunded positions needed based on the</i>			
46	<i>fiscal year 2019 staffing standards calculation.</i>			
47	<i>K. Any locality in the Commonwealth that employs the use of body worn cameras for its</i>			
48	<i>law enforcement officers shall be required to establish and fund one full-time equivalent</i>			
49	<i>entry-level Assistant Commonwealth's Attorney, at a salary no less than that established</i>			
50	<i>by the Compensation Board for an entry-level Commonwealth's Attorney, at a rate of one</i>			
51	<i>Assistant Commonwealth's Attorney for up to 75 body worn cameras employed for use by</i>			
52	<i>local law enforcement officers, and one Assistant Commonwealth's Attorney for every 75</i>			
53	<i>body worn cameras employed for use by local law enforcement officers, thereafter.</i>			
54	<i>However, with the consent of the Commonwealth's Attorney, a locality may provide their</i>			
55	<i>Commonwealth's Attorney's office with additional funding, using a different formula than</i>			
56	<i>stated above, as needed to accommodate the additional workload resulting from the</i>			
57	<i>requirement to review, redact and present footage from body worn cameras. If, as of July</i>			
58	<i>1, 2019, a locality is providing additional funding to the Commonwealth's Attorney's office</i>			
59	<i>specifically to address the staffing and workload impact of the implementation of body</i>

3	body to fix the compensation of the clerk on a salary basis, such clerk shall receive such			
4	salary as shall be allowed by the governing body. Such salary shall not be fixed at an			
5	amount less than the amount that would be allowed the clerk under paragraphs A 1			
6	through A 3 of this Item.			
7	5. All clerks shall deposit all clerks' fees and state revenue with the State Treasurer in a			
8	manner consistent with § 2.2-806, Code of Virginia, unless otherwise provided by the			
9	Compensation Board as set forth in § 17.1-284, Code of Virginia or otherwise provided by			
10	law.			
11	B. The reports filed by each circuit court clerk pursuant to § 17.1-283, Code of Virginia,			
12	for each calendar year shall include all income derived from the performance of any			
13	office, function or duty described or authorized by the Code of Virginia whether directly

20	paragraph.			
21	C. Each clerk of the circuit court shall submit to the Compensation Board a copy of the

33	delay timely construction and increase the cost.			
34	3. The department shall post electronic copies of all submitted applications to the department's			
35	website after the deadline for application submissions has passed but before project approval,

23	technologies to identify the most cost-effective plan; (ii) solutions that utilize speeds			
24	greater than the minimum technology standards as prescribed by the Virginia			
25	Telecommunications Initiative for unserved areas; (iii) maximize opportunities for private

32	new private sector job creation and investment in the Commonwealth.			
33	5. The Virginia Growth and Opportunity Board may approve grants for assessments of			
34	commercial economic development demand and current access, and to advance the			
35	planning and engineering of broadband infrastructure that are aligned with the framework			
36	recommended by the working group, and shall give priority consideration for broadband			
37	technology development and deployment to facilitate the connectivity or upgrade of			
38	services to current and proposed business-ready sites in areas of high unemployment in			
39	qualifying regions.			
40	6. For the purpose of awards in accordance with § 2.2-2487, Code of Virginia, related to			
41	site development, that site development will be deemed to meet requirements of clause (iii)

8	A. Definitions				
9	1. "March 31 Average Daily Membership," or "March 31 ADM" - The responsible school				
10	division's average daily membership for grades K-12 including (1) handicapped students ages				
11	5-21 and (2) students for whom English is a second language who entered school for the first				
12	time after reaching their twelfth birthday, and who have not reached twenty-two years of age				
13	on or before August 1 of the school year, for the first seven (7) months (or equivalent period)				
14	of the school year through March 31 in which state funds are distributed from this				
15	appropriation. Preschool and postgraduate students shall not be included in March 31 ADM.				
16	a. School divisions shall take a count of September 30 fall membership and report this				
17	information to the Department of Education no later than October 15 of each year.				
18	b. Except as otherwise provided herein, by statute, or by precedent, all appropriations to the				
19	Department of Education shall be calculated using March 31 ADM unadjusted for half-day				
20	kindergarten programs, estimated at 1,252,433.60 1,245,570.50 the first year and				
21	1,257,772.90 1,248,165.55 the second year. March 31 ADM for half-day kindergarten shall be				
22	adjusted at 85 percent.				
23	c. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction				
24	pursuant to § 22.1-254.1 and who are enrolled in a public school on less than a full-time basis				
25	in any mathematics, science, English, history, social science, vocational education, health				
26	education or physical education, fine arts or foreign language course, or receiving special				
27	education services required by a student's individualized education plan, shall be counted in				
28	the funded fall membership and March 31 ADM of the responsible school division. Each				
29	course shall be counted as 0.25, up to a cap of 0.5 of a student.				
30	d. Students enrolled in an Individualized Student Alternative Education Program (ISAEP)				
31	pursuant to § 22.1-254 E shall be counted in the March 31 Average Daily Membership of the				
32	responsible school division. School divisions shall report these students separately in their				
33	March 31 reports of Average Daily Membership.				
34	2. "Standards of Quality" - Operations standards for grades kindergarten through 12 as				
35	prescribed by the Board of Education subject to revision by the General Assembly.				
36	3.a. "Basic Operation Cost" - The cost per pupil, including provision for the number of				
37	instructional personnel required by the Standards of Quality for each school division with a				
38	minimum ratio of 51 professional personnel for each 1,000 pupils or proportionate number				
39	thereof, in March 31 ADM for the same fiscal year for which the costs are computed, and				
40	including provision for driver, gifted, occupational-vocational, and special education, library				
41	materials and other teaching materials, teacher sick leave, general administration, division				
42	superintendents' salaries, free textbooks (including those for free and reduced price lunch				
43	pupils), school nurses, operation and maintenance of school plant, transportation of pupils,				
44	instructional television, professional and staff improvement, remedial work, fixed charges and				
45	other costs in programs not funded by other state and/or federal aid.				
46	b. The state and local shares of funding resulting from the support cost calculation for school				
47	nurses shall be specifically identified as such and reported to school divisions annually.				
48	School divisions may spend these funds for licensed school nurse positions employed by the				
49	school division or for licensed nurses contracted by the local school division to provide school				
50	health services.				
51	4.a. "Composite Index of Local Ability-to-Pay" - An index figure computed for each locality.				

ITEM 136.	Item Details(\$)		Appropriations(\$)	
	First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020
1	The composite index is the sum of 2/3 of the index of wealth per pupil in unadjusted			
2	March 31 ADM reported for the first seven (7) months of the 2015-2016 school year and			
3	1/3 of the index of wealth per capita (population estimates for 2015 as determined by the			
4	Weldon Cooper Center for Public Service of the University of Virginia) multiplied by the			
5	local nominal share of the costs of the Standards of Quality of 0.45 in each year. The			
6	indices of wealth are determined by combining the following constituent index elements			
7	with the indicated weighting: (1) true values of real estate and public service corporations			
8	as reported by the State Department of Taxation for the calendar year 2015 - 50 percent;			
9	(2) adjusted gross income for the calendar year 2015 as reported by the State Department			
10	of Taxation - 40 percent; (3) the sales for the calendar year 2015 which are subject to the			
11	state general sales and use tax, as reported by the State Department of Taxation - 10			
12	percent. Each constituent index element for a locality is its sum per March 31 ADM, or			
13	per capita, expressed as a percentage of the state average per March 31 ADM, or per			
14	capita, for the same element. A locality whose composite index exceeds 0.8000 shall be			
15	considered as having an index of 0.8000 for purposes of distributing all payments based			
16	on the composite index of local ability-to-pay. Each constituent index element for a			
17	locality used to determine the composite index of local ability-to-pay for the current			
18	biennium shall be the latest available data for the specified official base year provided to			
19	the Department of Education by the responsible source agencies no later than November			
20	15, 2017.			
21	b. For any locality whose total calendar year 2015 Virginia Adjusted Gross Income is			
22	comprised of at least 3 percent or more by nonresidents of Virginia, such nonresident			
23	income shall be excluded in computing the composite index of ability-to-pay. The			
24	Department of Education shall compute the composite index for such localities by using			
25	adjusted gross income data which exclude nonresident income, but shall not adjust the			
26	composite index of any other localities. The Department of Taxation shall furnish to the			
27	Department of Education such data as are necessary to implement this provision.			
28	c.1) Notwithstanding the funding provisions in § 22.1-25 D, Code of Virginia, additional			
29	state funding for future consolidations shall be as set forth in future Appropriation Acts.			
30	2) In the case of the consolidation of Clifton Forge and Alleghany County school			
31	divisions, the fifteen year period for the application of a new composite index shall apply			
32	beginning with the fiscal year that starts on July 1, 2004. The composite index established			
33	by the Board of Education shall equal the lowest composite index that was in effect prior			
34	to July 1, 2004, of any individual localities involved in such consolidation, and this index			
35	shall remain in effect for a period of fifteen years, unless a lower composite index is			
36	calculated for the combined division through the process for computing an index as set			
37	forth above.			
38	3) If the composite index of a consolidated school division is reduced during the course of			
39	the fifteen year period to a level that would entitle the school division to a lower interest			
40	rate for a Literary Fund loan than it received when the loan was originally released, the			
41	Board of Education shall reduce the interest rate of such loan for the remainder of the			
42	period of the loan. Such reduction shall be based on the interest rate that would apply at			
43	the time of such adjustment. This rate shall remain in effect for the duration of the loan			
44	and shall apply only to those years remaining to be paid.			
45	4) In the case of the consolidation of Bedford County and Bedford City school divisions,			
46	the fifteen year period for the application of a new composite shall apply beginning with			
47	the fiscal year that starts on July 1, 2013. The composite index established by the Board of			
48	Education shall equal the lowest composite index that was in effect prior to July 1, 2013,			
49	of any individual localities involved in such consolidation, and this index shall remain in			
50	effect for a period of fifteen years, unless a lower composite index is calculated for the			
51	combined division through the process for computing an index as set forth above.			
52	d. When it is determined that a substantial error exists in a constituent index element, the			
53	Department of Education will make adjustments in funding for the current school year			
54	only in the division where the error occurred. The composite index of any other locality			
55	shall not be changed as a result of the adjustment. No adjustment during the biennium will			
56	be made as a result of updating of data used in a constituent index element.			
57	e. In the event that any school division consolidates two or more small schools, the

1	division shall continue to receive Standards of Quality funding and provide for the required			
2	local expenditure for a period of five years as if the schools had not been consolidated. Small			
3	schools are defined as any elementary, middle, or high school with enrollment below 200, 300			
4	and 400 students, respectively.			
5	5. "Required Local Expenditure for the Standards of Quality" - The locality's share based on			
6	the composite index of local ability-to-pay of the cost required by all the Standards of Quality			
7	minus its estimated revenues from the state sales and use tax dedicated to public education			
8	and those sales tax revenues transferred to the general fund from the Public Education			
9	Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated in this			
10	Item, both of which are returned on the basis of the latest yearly estimate of school age			
11	population provided by the Weldon Cooper Center for Public Service, as specified in this			
12	Item, collected by the Department of Education and distributed to school divisions in the			
13	fiscal year in which the school year begins.			
14	6. "Required Local Match" - The locality's required share of program cost based on the			
15	composite index of local ability-to-pay for all Lottery and Incentive programs, where			
16	required, in which the school division has elected to participate in a fiscal year.			
17	7. "Planning District Eight" - The nine localities which comprise Planning District Eight are			
18	Arlington County, Fairfax County, Loudoun County, Prince William County, Alexandria			
19	City, Fairfax City, Falls Church City, Manassas City, and Manassas Park City.			
20	8. "State Share of the Standards of Quality" - The state share of the Standards of Quality			
21	(SOQ) shall be equal to the total funded SOQ cost for a school division less the school			
22	division's estimated revenues from the state sales and use tax dedicated to public education			
23	based on the latest yearly estimate of school age population provided by the Weldon Cooper			
24	Center for Public Service, adjusted for the state's share of the composite index of local ability			
25	to pay.			
26	9. Entitlements under this Item that use school-level or division-level Free Lunch eligibility			
27	percentages to determine the entitlement amounts are based on the most recent data available			
28	as of the biennial rebenchmarking calculations made for the current biennium. For schools			
29	that participate in the Community Eligibility Provision program, such entitlements are based			
30	on the most recent Free Lunch eligibility data available prior to that school's enrollment in the			
31	Community Eligibility Provision program.			
32	10. In the event that the general fund appropriations in this Item are not sufficient to meet the			
33	entitlements payable to school divisions pursuant to the provisions of this Item, the			
34	Department of Education is authorized to transfer any available general fund funds between			
35	these Items to address such insufficiencies. If the total general fund appropriations after such			
36	transfers remain insufficient to meet the entitlements of any program funded with general			
37	fund dollars, the Department of Education is authorized to prorate such shortfall			
38	proportionately across all of the school divisions participating in any program where such			
39	shortfall occurred. In addition, the Department of Education is authorized each year to			
40	temporarily suspend textbook payments made to school divisions from Lottery funds to			
41	ensure that any shortfall in Lottery revenue can be accounted for in the remaining textbook			
42	payments to be made for the year.			
43	11. The Department of Education is directed to apply a cap on inflation rates in the same			
44	manner prescribed in § 51.1-166.B, Code of Virginia, when updating funding to school			
45	divisions during the biennial rebenchmarking process.			
46	12. Notwithstanding any other provision in statute or in this Item, the Department of			
47	Education is directed to combine the end-of-year Average Daily Membership (ADM) for			
48	those school divisions who have partnered together as a fiscal agent division and a contractual			
49	division for the purposes of calculating prevailing costs included in the Standards of Quality			
50	(SOQ).			
51	13. Notwithstanding any other provision in statute or in this Item, the Department of			
52	Education is directed to include zeroes in the linear weighted average calculation of support			
53	non-personal costs for the purpose of calculating prevailing costs included in the Standards of			
54	Quality (SOQ).			

ITEM 136.	Item Details(\$)		Appropriations(\$)	
	First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020
1	14. Notwithstanding any other provision in statute or in this Item, the Department of			
2	Education is directed to eliminate the corresponding and appropriate object code(s) related			
3	to reported travel expenditures included the linear weighted average non-personal cost			
4	calculations for the purpose of calculating prevailing costs included in the Standards of			
5	Quality (SOQ).			
6	15. Notwithstanding any other provision in statute or in this Item, the Department of			
7	Education is directed to eliminate the corresponding and appropriate object code(s) related			
8	to reported leases and rental and facility expenditures included the linear weighted average			
9	non-personal cost calculations for the purpose of calculating prevailing costs included in			
10	the Standards of Quality (SOQ).			
11	16. Notwithstanding any other provision in statute or in this Item, the Department of			
12	Education is directed to fund transportation costs using a 15 year replacement schedule,			
13	which is the national standard guideline, for school bus replacement schedule for the			
14	purpose of calculating funded transportation costs included in the Standards of Quality			
15	(SOQ).			
16	17. To provide temporary flexibility, notwithstanding any other provision in statute or in			
17	this Item, school divisions may elect to increase the teacher to pupil staffing ratios in			
18	kindergarten through grade 7 and English classes for grades 6 through twelve by one			
19	additional student; the teacher to pupil staffing ratio requirements for Elementary			
20	Resource teachers, Prevention, Intervention and Remediation, English as a Second			
21	Language, Gifted and Talented, Career and Technical funded programs (other than on			
22	Career and Technical courses where school divisions will have to maintain a maximum			
23	class size based on federal Occupational Safety & Health Administration safety			
24	requirements) are waived; and the instructional and support technology positions,			
25	librarians and guidance counselors staffing ratios for new hires are waived.			
26	18. To provide additional flexibility, notwithstanding the provisions of § 22.1-79.1, Code			
27	of Virginia, any school division that was granted a waiver regarding the opening date of			
28	the school year for the 2011-2012 school year under the good cause requirements shall			
29	continue to be granted a waiver for the 2018-2019 school year and the 2019-2020 school			
30	year.			
31	B. General Conditions			
32	1. The Standards of Quality cost in this Item related to fringe benefits shall be limited for			
33	instructional staff members to the employer's cost for a number not exceeding the number			
34	of instructional positions required by the Standards of Quality for each school division and			
35	for their salaries at the statewide prevailing salary levels as printed below.

44	a.1) Payment by the state to a local school division shall be based on the state share of			
45	fringe benefit costs of 55 percent of the employer's cost distributed on the basis of the			
46	composite index.			
47	2) A locality whose composite index exceeds 0.8000 shall be considered as having an			
48	index of 0.8000 for purposes of distributing fringe benefit funds under this provision.			
49	3) The state payment to each school division for retirement, social security, and group life			
50	insurance costs for non-instructional personnel is included in and distributed through

4	2. Each locality shall offer a school program for all its eligible pupils which is acceptable to			
5	the Department of Education as conforming to the Standards of Quality program			
6	requirements.			
7	3. In the event the statewide number of pupils in March 31 ADM results in a state share of			
8	cost exceeding the general fund appropriation in this Item, the locality's state share of Basic			
9	Aid shall be reduced proportionately so that this general fund appropriation will not be			
10	exceeded. In addition, the required local share of Basic Aid shall also be reduced			
11	proportionately to the reduction in the state's share.			
12	4. The Department of Education shall make equitable adjustments in the computation of			
13	indices of wealth and in other state-funded accounts for localities affected by annexation,			
14	unless a court of competent jurisdiction makes such adjustments. However, only the indices of			
15	wealth and other state-funded accounts of localities party to the annexation will be adjusted.			
16	5. In the event that the actual revenues from the state sales and use tax dedicated to public			
17	education and those sales tax revenues transferred to the general fund from the Public			
18	Education Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated			
19	in this Item (both of which are returned on the basis of the latest yearly estimate of school age			
20	population provided by the Weldon Cooper Center for Public Service) for sales in the fiscal			
21	year in which the school year begins are different from the number estimated as the basis for			
22	this appropriation, the estimated state sales and use tax revenues shall not be adjusted.			
23	6. This appropriation shall be apportioned to the public schools with guidelines established by			
24	the Department of Education consistent with legislative intent as expressed in this act.			
25	7.a. Appropriations of state funds in this Item include the number of positions required by the			
26	Standards of Quality. This Item includes a minimum of 51 professional instructional positions			
27	and aide positions (C 5); Education of the Gifted, 1.0 professional instructional position (C 6);			
28	Occupational-Vocational Education Payments and Special Education Payments; a minimum			
29	of 6.0 professional instructional positions and aide positions (C 7 and C 8) for each 1,000			
30	pupils in March 31 ADM each year in support of the current Standards of Quality. Funding in			
31	support of one hour of additional instruction per day based on the percent of students eligible			
32	for the federal free lunch program with a pupil-teacher ratio range of 18:1 to 10:1, depending			
33	upon a school division's combined failure rate on the English and Math Standards of			
34	Learning, is included in Remedial Education Payments (C 9).			
35	b. No actions provided in this section signify any intent of the General Assembly to mandate			
36	an increase in the number of instructional personnel per 1,000 students above the numbers			
37	explicitly stated in the preceding paragraph.			
38	c. Appropriations in this Item include programs supported in part by transfers to the general			
39	fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief			
40	Fund pursuant to Part 3 of this Act. These transfers combined together with other			
41	appropriations from the general fund in this Item funds the state's share of the following			
42	revisions to the Standards of Quality pursuant to Chapters 939 & 955 of the Acts of Assembly			
43	of 2004: five elementary resource teachers per 1,000 students; one support technology			
44	position per 1,000 students; one instructional technology position per 1,000 students; and a			
45	full daily planning period for teachers at the middle and high school levels in order to relieve			
46	the financial pressure these education programs place on local real estate taxes.			
47	d. To provide flexibility, school divisions may use the state and local funds for instructional			
48	technology resource teachers required by the Standards of Quality to employ a data			
49	coordinator position, an instructional technology resource teacher position, or a data			
50	coordinator/instructional resource teacher blended position. The data coordinator position is			
51	intended to serve as a resource to principals and classroom teachers in the area of data			
52	analysis and interpretation for instructional and school improvement purposes, as well as for			
53	overall data management and administration of state assessments. School divisions using			
54	these SOQ funds in this manner shall only employ instructional personnel licensed by the

2	e. To provide flexibility in the provision of reading intervention services, school divisions				
3	may use the state Early Reading Intervention initiative funding provided from the Lottery				
4	Proceeds Fund and the required local matching funds to employ reading specialists to				
5	provide the required reading intervention services. School divisions using the Early				
6	Reading Intervention Initiative funds in this manner shall only employ instructional				
7	personnel licensed by the Board of Education.				
8	f. To provide flexibility in the provision of mathematics intervention services, school				
9	divisions may use the state Standards of Learning Algebra Readiness initiative funding				
10	provided from the Lottery Proceeds Fund and the required local matching funds to employ				
11	mathematics teacher specialists to provide the required mathematics intervention services.				
12	School divisions using the Standards of Learning Algebra Readiness initiative funding in				
13	this manner shall only employ instructional personnel licensed by the Board of Education.				
14	<i>g. Notwithstanding the provisions of subsection H of § 22.1-253.13:2 of the Code of</i>				
15	<i>Virginia, as amended by the 2019 Session of the General Assembly, to the contrary, each</i>				
16	<i>school board shall employ the following full-time equivalent school counselor positions</i>				
17	<i>for any school that reports fall membership, according to the type of school and student</i>				
18	<i>enrollment: effective with the 2019-2020 school year, in elementary schools, one hour per</i>				
19	<i>day per 91 students, one full-time at 455 students, one hour per day additional time per 91</i>				
20	<i>students or major fraction thereof; school counselors in middle schools, one period per 74</i>				
21	<i>students, one full-time at 370 students, one additional period per 74 students or major</i>				
22	<i>fraction thereof; school counselors in high schools, one period per 65 students, one full-</i>				
23	<i>time at 325 students, one additional period per 65 students or major fraction thereof.</i>				
24	8.a.1) Pursuant to § 22.1-97, Code of Virginia, the Department of Education is required to				
25	make calculations at the start of the school year to ensure that school divisions have				
26	appropriated adequate funds to support their estimated required local expenditure for the				
27	corresponding state fiscal year. In an effort to reduce the administrative burden on school				
28	divisions resulting from state data collections, such as the one needed to make the				
29	aforementioned calculations, the requirements of § 22.1-97, Code of Virginia, pertaining				
30	to the adequacy of estimated required local expenditures, shall be satisfied by signed				
31	certification by each division superintendent at the beginning of each school year that				
32	sufficient local funds have been budgeted to meet all state required local effort and				
33	required local match amounts. This provision shall only apply to calculations required of				
34	the Department of Education related to estimated required local expenditures and shall not				
35	pertain to the calculations associated with actual required local expenditures after the close				
36	of the school year.				
37	2) The Department of Education shall also make calculations after the close of the school				
38	year to verify that the required local effort level, based on actual March 31 Average Daily				
39	Membership, was met. Pursuant to § 22.1-97, Code of Virginia, the Department of				
40	Education shall report annually, no later than the first day of the General Assembly				
41	session, to the House Committees on Education and Appropriations and the Senate				
42	Committees on Finance and Education and Health, the results of such calculations made				
43	after the close of the school year and the degree to which each school division has met,				
44	failed to meet, or surpassed its required local expenditure. The Department of Education				
45	shall specify the calculations to determine if a school division has expended its required				
46	local expenditure for the Standards of Quality. This calculation may include but is not				
47	limited to the following calculations:				
48	b. The total expenditures for operation, defined as total expenditures less all capital				
49	outlays, expenditures for debt service, facilities, non-regular day school programs (such as				
50	adult education, preschool, and non-local education programs), and any transfers to				
51	regional programs will be calculated.				
52	c. The following state funds will be deducted from the amount calculated in paragraph a.				
53	above: revenues from the state sales and use tax (returned on the basis of the latest yearly				
54	estimate of school age population provided by the Weldon Cooper Center for Public				
55	Service, as specified in this Item) for sales in the fiscal year in which the school year				
56	begins; total receipts from state funds (except state funds for non-regular day school				
57	programs and state funds used for capital or debt service purposes); and the state share of

1	any balances carried forward from the previous fiscal year. Any qualifying state funds that			
2	remain unspent at the end of the fiscal year will be added to the amount calculated in			
3	paragraph a. above.			
4	d. Federal funds, and any federal funds carried forward from the previous fiscal year, will also			
5	be deducted from the amount calculated in paragraph a. above. Any federal funds that remain			
6	unspent at the end of the fiscal year and any capital expenditures paid from federal funds will			
7	be added to the amount calculated in paragraph a. above.			
8	e. Tuition receipts, receipts from payments from other cities or counties, and fund transfers			
9	will also be deducted from the amount calculated in paragraph a, then			
10	f. The final amount calculated as described above must be equal to or greater than the required			
11	local expenditure defined in paragraph A. 5.			
12	g. The Department of Education shall collect the data necessary to perform the calculations of			
13	required local expenditure as required by this section.			
14	h. A locality whose expenditure in fact exceeds the required amount from local funds may not			
15	reduce its expenditures unless it first complies with all of the Standards of Quality.			
16	9.a. Any required local matching funds which a locality, as of the end of a school year, has			
17	not expended, pursuant to this Item, for the Standards of Quality shall be paid by the locality			
18	into the general fund of the state treasury. Such payments shall be made not later than the end			
19	of the school year following that in which the under expenditure occurs.			
20	b. Whenever the Department of Education has recovered funds as defined in the preceding			
21	paragraph a., the Secretary of Education is authorized to repay to the locality affected by that			
22	action, seventy-five percent (75%) of those funds upon his determination that:			
23	1) The local school board agrees to include the funds in its June 30 ending balance for the			
24	year following that in which the under expenditure occurs;			
25	2) The local governing body agrees to reappropriate the funds as a supplemental appropriation			
26	to the approved budget for the second year following that in which the under expenditure			
27	occurs, in an appropriate category as requested by the local school board, for the direct benefit			
28	of the students;			
29	3) The local school board agrees to expend these funds, over and above the funds required to			
30	meet the required local expenditure for the second year following that in which the under			
31	expenditure occurs, for a special project, the details of which must be furnished to the			
32	Department of Education for review and approval;			
33	4) The local school board agrees to submit quarterly reports to the Department of Education			
34	on the use of funds provided through this project award; and			
35	5) The local governing body and the local school board agree that the project award will be			
36	cancelled and the funds withdrawn if the above conditions have not been met as of June 30 of			
37	the second year following that in which the under expenditure occurs.			
38	c. There is hereby appropriated, for the purposes of the foregoing repayment, a sum sufficient,			
39	not to exceed 75 percent of the funds deposited in the general fund pursuant to the preceding			
40	paragraph a.			
41	10. The Department of Education shall specify the manner for collecting the required			
42	information and the method for determining if a school division has expended the local funds			
43	required to support the actual local match based on all Lottery and Incentive programs in			
44	which the school division has elected to participate. Unless specifically stated otherwise in			
45	this Item, school divisions electing to participate in any Lottery or Incentive program that			
46	requires a local funding match in order to receive state funding, shall certify to the			
47	Department of Education its intent to participate in each program by July 1 each fiscal year in			
48	a manner prescribed by the Department of Education. As part of this certification process,			
49	each division superintendent must also certify that adequate local funds have been			
50	appropriated, above the required local effort for the Standards of Quality, to support the			
51	projected required local match based on the Lottery and Incentive programs in which the

1	school division has elected to participate. State funding for such program(s) shall not be			
2	made until such time that the school division can certify that sufficient local funding has			
3	been appropriated to meet required local match. The Department of Education shall make			
4	calculations after the close of the fiscal year to verify that the required local match was			
5	met based on the state funds that were received.			
6	11. Any sum of local matching funds for Lottery and Incentive program which a locality			
7	has not expended as of the end of a fiscal year in support of the required local match			
8	pursuant to this Item shall be paid by the locality into the general fund of the state treasury			
9	unless the carryover of those unspent funds is specifically permitted by other provisions of			
10	this act. Such payments shall be made no later than the end of the school year following			
11	that in which the under expenditure occurred.			
12	12. The Superintendent of Public Instruction shall provide a report annually, no later than			
13	the first day of the General Assembly session, on the status of teacher salaries, by local			
14	school division, to the Governor and the Chairmen of the Senate Finance and House			
15	Appropriations Committees. In addition to information on average salaries by school			
16	division and statewide comparisons with other states, the report shall also include			
17	information on starting salaries by school division and average teacher salaries by school.			
18	13. All state and local matching funds required by the programs in this Item shall be			
19	appropriated to the budget of the local school board.			
20	14. By November 15 of each year, the Department of Planning and Budget, in cooperation			
21	with the Department of Education, shall prepare and submit a preliminary forecast of			
22	Standards of Quality expenditures, based upon the most current data available, to the			
23	Chairmen of the House Appropriations and Senate Finance Committees. In odd-numbered			
24	years, the forecast for the current and subsequent two fiscal years shall be provided. In			
25	even-numbered years, the forecast for the current and subsequent fiscal year shall be			
26	provided. The forecast shall detail the projected March 31 Average Daily Membership and			
27	the resulting impact on the education budget.			
28	15. School divisions may choose to use state payments provided for Standards of Quality			
29	Prevention, Intervention, and Remediation in both years as a block grant for remediation			
30	purposes, without restrictions or reporting requirements, other than reporting necessary as			
31	a basis for determining funding for the program.			
32	16. Except as otherwise provided in this act, the Superintendent of Public Instruction shall			
33	provide guidelines for the distribution and expenditure of general fund appropriations and			
34	such additional federal, private and other funds as may be made available to aid in the			
35	establishment and maintenance of the public schools.			
36	17. At the Department of Education's option, fees for audio-visual services may be			
37	deducted from state Basic Aid payments for individual local school divisions.			
38	18. For distributions not otherwise specified, the Department of Education, at its option,			
39	may use prior year data to calculate actual disbursements to individual localities.			
40	19. Payments for accounts related to the Standards of Quality made to localities for public			
41	education from the general fund, as provided herein, shall be payable in twenty-four semi-			
42	monthly installments at the middle and end of each month.			
43	20. Notwithstanding § 58.1-638 D., Code of Virginia, and other language in this Item, the			
44	Department of Education shall, for purposes of calculating the state and local shares of the			
45	Standards of Quality, apportion state sales and use tax dedicated to public education and			
46	those sales tax revenues transferred to the general fund from the Public Education			
47	Standards of Quality/ Local Real Estate Property Tax Relief Fund in the first year based			
48	on the July 1, 2016, estimate of school age population provided by the Weldon Cooper			
49	Center for Public Service and, in the second year, based on the July 1, 2017, estimate of			
50	school age population provided by the Weldon Cooper Center for Public Service.			
51	Notwithstanding § 58.1-638 D., Code of Virginia, and other language in this Item, the			
52	State Comptroller shall distribute the state sales and use tax revenues dedicated to public			
53	education and those sales tax revenues transferred to the general fund from the Public			
54	Education Standards of Quality/ Local Real Estate Property Tax Relief Fund in the first

4	21. The school divisions within the Tobacco Region, as defined by the Tobacco			
5	Indemnification and Community Revitalization Commission, shall jointly explore ways to			
6	maximize their collective expenditure reimbursement totals for all eligible E-Rate funding.			
7	22. This Item includes appropriations totaling an estimated \$592,533,186 \$632,398,647 the			
8	first year and \$598,393,186 \$628,830,501 the second year from the revenues deposited to the			
9	Lottery Proceeds Fund. These amounts are appropriated for distribution to counties, cities,			
10	and towns to support public education programs pursuant to Article X, Section 7-A			
11	Constitution of Virginia. Any county, city, or town which accepts a distribution from this fund			
12	shall provide its portion of the cost of maintaining an educational program meeting the			
13	Standards of Quality pursuant to Section 2 of Article VIII of the Constitution without the use			
14	of distributions from the fund.			
15	23. For reporting purposes, the Department of Education shall include Lottery Proceeds Funds			
16	as state funds.			
17	24.a. Any locality that has met its required local effort for the Standards of Quality accounts			
18	for FY 2019 and that has met its required local match for incentive or Lottery-funded			
19	programs in which the locality elected to participate in FY 2019 may carry over into FY 2020			
20	any remaining state Direct Aid to Public Education fund balances available to help minimize			
21	any FY 2020 revenue adjustments that may occur in state funding to that locality. Localities			
22	electing to carry forward such unspent state funds must appropriate the funds to the school			
23	division for expenditure in FY 2020.			
24	b. Any locality that has met its required local effort for the Standards of Quality accounts for			
25	FY 2020 and that has met its required local match for incentive or Lottery-funded programs in			
26	which the locality elected to participate in FY 2020 may carry over into FY 2021 any			
27	remaining state Direct Aid to Public Education fund balances available to help minimize any			
28	FY 2021 revenue adjustments that may occur in state funding to that locality. Localities			
29	electing to carry forward such unspent state funds must appropriate the funds to the school			
30	division for expenditure in FY 2021.			
31	25. Localities are encouraged to allow school boards to carry over any unspent local			
32	allocations into the next fiscal year. Localities are also encouraged to provide increased			
33	flexibility to school boards by appropriating state and local funds for public education in a			
34	lump sum.			
35	26. The Department of Education shall include in the annual School Performance Report Card			
36	for school divisions the percentage of each division's annual operating budget allocated to			
37	instructional costs. For this report, the Department of Education shall establish a methodology			
38	for allocating each school division's expenditures to instructional and non-instructional costs			
39	in a manner that is consistent with the funding of the Standards of Quality as approved by the			
40	General Assembly.			
41	27. It is the intent of the General Assembly that all school divisions annually provide their			
42	employees, upon request, with a user-friendly statement of total compensation, including			
43	contract duration if less than 12 months.			
44	28. The Department of Education, in collaboration with the Virginia Community College			
45	System, will ensure that the same policies regarding the cost for dual enrollment courses held			
46	at a community college, are consistently applied to public school students and home-schooled			
47	students alike. These policies will clearly address the school division contributions and any			
48	student charges for dual enrollment courses, and will ensure that public school students and			
49	home-school students are treated in the same manner.			
50	C. Apportionment			
51	1. Subject to the conditions stated in this paragraph and in paragraph B of this Item, each			
52	locality shall receive sums as listed above within this program for the basic operation cost and			
53	payments in addition to that cost. The apportionment herein directed shall be inclusive of, and			
54	without further payment by reason of, state funds for library and other teaching materials.

3	retirement cost incurred by it, on behalf of instructional personnel, for subsequent transfer				
4	to the retirement allowance account as provided by Title 51.1, Chapter 1, Code of				
5	Virginia.				
6	b. Notwithstanding § 51.1-1401, Code of Virginia, the Commonwealth shall provide				
7	payments for only the state share of the Standards of Quality fringe benefit cost of the				
8	retiree health care credit. This Item includes payments in both years based on the state				
9	share of fringe benefit costs of 55 percent of the employer's cost on funded Standards of				
10	Quality instructional positions, distributed based on the composite index of the local				
11	ability-to-pay.				
12	3. School Employee Social Security Contributions				
13	a. This Item provides funds to each local school board for the state share of the employer's				
14	Social Security cost incurred by it, on behalf of the instructional personnel for subsequent				
15	transfer to the Contribution Fund pursuant to Title 51.1, Chapter 7, Code of Virginia.				
16	b. Appropriations for contributions in paragraphs 2 and 3 above include payments from				
17	funds derived from the principal of the Literary Fund in accordance with Article VIII,				
18	Section 8, of the Constitution of Virginia. The amounts set aside from the Literary Fund				
19	for these purposes shall not exceed \$146,349,570 \$111,349,570 the first year and				
20	\$136,349,570 the second year.				
21	4. School Employee Insurance Contributions

23	Group Life Insurance cost incurred by it on behalf of instructional personnel who				
24	participate in group insurance under the provisions of Title 51.1, Chapter 5, Code of				
25	Virginia.				
26	5. Basic Aid Payments				
27	a.1) A state share of the Basic Operation Cost, which cost per pupil in March 31 ADM is				
28	established individually for each local school division based on the number of				
29	instructional personnel required by the Standards of Quality and the statewide prevailing				
30	salary levels (adjusted in Planning District Eight for the cost of competing) as well as				
31	recognized support costs calculated on a prevailing basis for an estimated March 31 ADM.				
32	2) This appropriation includes funding to recognize the common labor market in the				
33	Washington-Baltimore-Northern Virginia, DC-MD-VA-WV Combined Statistical Area.				
34	Standards of Quality salary payments for instructional and support positions in school				
35	divisions of the localities set out below have been adjusted for the equivalent portion of				
36	the Cost of Competing Adjustment (COCA) rates that are paid to local school divisions in				
37	Planning District Eight. For the counties of Stafford, Fauquier, Spotsylvania, Clarke,				
38	Warren, Frederick, and Culpeper and the Cities of Fredericksburg and Winchester, the				
39	SOQ payments for instructional and support positions have been increased by 25 percent				
40	each year of the COCA rates paid to school divisions in Planning District Eight.				
41	The support COCA rate is 10.6 percent.				
42	b. The state share for a locality shall be equal to the Basic Operation Cost for that locality				
43	less the locality's estimated revenues from the state sales and use tax (returned on the basis				
44	of the latest yearly estimate of school age population provided by the Weldon Cooper				
45	Center for Public Service, as specified in this Item), in the fiscal year in which the school				
46	year begins and less the required local expenditure.				
47	c. For the purpose of this paragraph, the Department of Taxation's fiscal year sales and use				
48	tax estimates are as cited in this Item.				
49	d. 1) In accordance with the provisions of § 37.2-713, Code of Virginia, the Department of

2	2) The amounts deducted from Basic Aid for the education of intellectually disabled persons			
3	shall be transferred to the Department of Behavioral Health and Developmental Services in			
4	support of the cost of educating such persons; the amount deducted from Basic Aid for the			
5	education of emotionally disturbed persons shall be used to cover extraordinary expenses			
6	incurred in the education of such persons. The Department of Education shall establish			
7	guidelines to implement these provisions and shall provide for the periodic transfer of sums			
8	due from each local school division to the Department of Behavioral Health and			
9	Developmental Services and for Special Education categorical payments. The amount of the			
10	actual transfers will be based on data accumulated during the prior school year.			
11	e. 1) The apportionment to localities of all driver education revenues received during the			
12	school year shall be made as an undesignated component of the state share of Basic Aid in			
13	accordance with the provisions of this Item. Only school divisions complying with the			
14	standardized program established by the Board of Education shall be entitled to participate in			
15	the distribution of state funds appropriated for driver education. The Department of Education			
16	will deduct a designated amount per pupil from a school division's Basic Aid payment when			
17	the school division is not in compliance with § 22.1-205 C, Code of Virginia. Such amount			
18	will be computed by dividing the current appropriation for the Driver Education Fund by			
19	actual March 31 ADM.			
20	2) Local school boards may charge a per pupil fee for behind-the-wheel driver education			
21	provided, however, that the fee charged plus the per pupil basic aid reimbursement for driver			
22	education shall not exceed the actual average per pupil cost. Such fees shall not be cause for a			
23	pro rata reduction in Basic Aid payments to school divisions.			
24	f. Textbooks			
25	1) The appropriation in this Item includes \$70,307,670 \$70,008,927 the first year and			
26	\$70,478,652 \$70,023,715 the second year from the general fund as the state's share of the cost			
27	of textbooks based on a per pupil amount of \$100.69 the first year and \$100.69 the second			
28	year. A school division shall appropriate these funds for textbooks or any other public			
29	education instructional expenditure by the school division. The state's distributions for			
30	textbooks shall be based on adjusted March 31 ADM. These funds shall be matched by the			
31	local government, based on the composite index of local ability-to-pay.			
32	2) School divisions shall provide free textbooks to all students.			
33	3) School divisions may use a portion of this funding to purchase Standards of Learning			
34	instructional materials. School divisions may also use these funds to purchase electronic

16	remainder of the revenues collected and deposited into the Public Education Standards of			
17	Quality/Local Real Estate Property Tax Relief Fund on the basis of the latest yearly			
18	estimate of school age population provided by the Weldon Cooper Center for Public			
19	Service as specified in this Item.			
20	k. For the purposes of funding certain support positions in Basic Aid, a funding ratio			
21	methodology is used based upon the prevailing ratio of actual support positions, consistent			
22	with those recognized for SOQ funding, to actual instructional positions, consistent with			
23	those recognized for SOQ funding, as established in Chapter 781, 2009 Acts of Assembly.			
24	For the purposes of making the required spending adjustments, the appropriation and			
25	distribution of Basic Aid shall reflect this methodology. Local school divisions shall have

27	Quality funded in this Act.			
28	6. Education of the Gifted Payments

1	a. An additional payment estimated at \$113,078,853 \$112,645,717 the first year and				
2	\$112,984,901 \$112,320,130 the second year from the general fund shall be disbursed by the				
3	Department of Education to support the Board of Education's Standards of Quality				
4	Prevention, Intervention, and Remediation program adopted in June 2003.				
5	b. The payment shall be calculated based on one hour of additional instruction per day for				
6	identified students, using the three year average percent of students eligible for the federal				
7	Free Lunch program as a proxy for students needing such services. Fall membership shall be				
8	multiplied by the three year average division-level Free Lunch eligibility percentage to				
9	determine the estimated number of students eligible for services. Pupil-teacher ratios shall be				
10	applied to the estimated number of eligible students to determine the number of instructional				
11	positions needed for each school division. The pupil-teacher ratio applied for each school				
12	division shall range from 10:1 for those divisions with the most severe combined three year				
13	average failure rates for English and math Standards of Learning test scores to 18:1 for those				
14	divisions with the lowest combined three year average failure rates for English and math				
15	Standards of Learning test scores.				
16	c. Funding shall be matched by the local government based on the composite index of local				
17	ability-to-pay.				
18	d. To provide flexibility in the instruction of English Language Learners who have limited				
19	English proficiency and who are at risk of not meeting state accountability standards, school				
20	divisions may use state and local funds from the SOQ Prevention, Intervention, and				
21	Remediation account to employ additional English Language Learner teachers to provide				
22	instruction to identified limited English proficiency students. Using these funds in this manner				
23	is intended to supplement the instructional services provided through the SOQ staffing				
24	standard of 17 instructional positions per 1,000 limited English proficiency students. School				
25	divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall				
26	only employ instructional personnel licensed by the Board of Education.				
27	e. An additional state payment estimated at \$100,250,775 \$10,468,261 the first year and				
28	\$107,079,544 \$34,468,409 the second year from the general fund and \$100,114,539 the first				
29	year and \$86,482,069 the second year from the Lottery Proceeds Fund shall be disbursed				
30	based on the estimated number of federal Free Lunch participants, in support of programs for				
31	students who are educationally at risk. The additional payment shall be based on the state				
32	share of:				
33	1) A minimum 1.0 percent Add-On, as a percent of the per pupil basic aid cost, for each child				
34	who qualifies for the federal Free Lunch Program; and				
35	2) An addition to the Add-On, based on the concentration of children qualifying for the				
36	federal Free Lunch Program. Based on its percentage of Free Lunch participants, each school				
37	division will receive a total between 1.0 and 13.0 14.5 percent in the first year and between				
38	1.0 and 14.0 16.0 percent in the second year in additional basic aid per Free Lunch				
39	participant. These funds shall be matched by the local government, based on the composite				
40	index of local ability-to-pay.				
41	3a) Local school divisions are required to spend the established At-Risk Add-On payment				
42	(state and local share) on approved programs for students who are educationally at risk.				
43	b) To receive these funds, each school division shall certify to the Department of Education				
44	that the state and local share of the At-Risk Add-On payment will be used to support				
45	approved programs for students who are educationally at risk. These programs may include:				
46	teacher recruitment programs and incentives, Dropout Prevention, community and school-				
47	based truancy officer programs, Advancement Via Individual Determination (AVID), Project				
48	Discovery, Reading Recovery, programs for students who speak English as a Second				
49	Language, hiring additional school guidance counselors, <i>testing coordinators, and licensed</i>				
50	<i>behavior analysts</i> , or programs related to increasing the success of disadvantaged students in				
51	completing a high school degree and providing opportunities to encourage further education				
52	and training. Further, each school division shall report each year by August 1 to the				
53	Department the individual uses of these funds. The Department shall compile the responses				
54	and provide them to the Chairmen of House Appropriations and Senate Finance Committees				
55	no later than the first day of each Regular General Assembly Session.

1	4) If the Board of Education has required a local school board to submit a corrective			
2	action plan pursuant to § 22.1-253.13:3, Code of Virginia, either for the school division			
3	pursuant to a division level review, or for any schools within its division that have been			
4	designated as not meeting the standards as approved by the Board of Education, the			
5	Superintendent of Public Instruction shall determine and report to the Board of Education			
6	whether each such local school board has met its obligation to develop and submit such			
7	corrective action plan(s) and is making adequate and timely progress in implementing the			
8	plan(s). Additionally, if an academic <i>or other</i> review process undertaken pursuant to §			
9	22.1-253.13:3, Code of Virginia, has identified actions for a local school board to			
10	implement, the Superintendent of Public Instruction shall determine and report to the			
11	Board of Education whether the local school board has implemented required actions. If			
12	the Superintendent certifies that a local school board has failed or refused to meet any of			
13	those obligations <i>as referenced in a memorandum of understanding between the local</i>			
14	<i>school board and the Board of Education</i> , the Board of Education shall withhold payment			
15	of some or all At-Risk Add-On funds otherwise allocated to the affected division pursuant			
16	to this allocation for the pending fiscal year. In determining the amount of At-Risk Add-			
17	On funds to be withheld, the Board of Education shall take into consideration the extent to			
18	which such funds have already been expended or contractually obligated. The local school			
19	board shall be given an opportunity to correct its failure and, if successful in a timely			
20	manner, may have some or all of its At-Risk Add-On funds restored at the Board of			
21	Education's discretion.			
22	f. Regional Alternative Education Programs			
23	1) An additional state payment of \$8,779,013 \$8,767,652 the first year and \$9,211,142			
24	\$9,434,794 the second year from the Lottery Proceeds Fund shall be disbursed for			
25	Regional Alternative Education programs. Such programs shall be for the purpose of			
26	educating certain expelled students and, as appropriate, students who have received			
27	suspensions from public schools and students returned to the community from the			
28	Department of Juvenile Justice.			
29	2) Each regional program shall have a small student/staff ratio. Such staff shall include,			
30	but not be limited to education, mental health, health, and law enforcement professionals,			
31	who will collaborate to provide for the academic, psychological, and social needs of the			
32	students. Each program shall be designed to ensure that students make the transition back			
33	into the "mainstream" within their local school division.			
34	3) a) Regional alternative education programs are funded through this Item based on the			
35	state's share of the incremental per pupil cost for providing such programs. This			
36	incremental per pupil payment shall be adjusted for the composite index of local ability-			
37	to-pay of the school division that counts such students attending such program in its			
38	March 31 Average Daily Membership. It is the intent of the General Assembly that this			
39	incremental per pupil amount be in addition to the basic aid per pupil funding provided to			
40	the affected school division for such students. Therefore, local school divisions are			
41	encouraged to provide the appropriate portion of the basic aid per pupil funding to the			
42	regional programs for students attending these programs, adjusted for costs incurred by the			
43	school division for transportation, administration, and any portion of the school day or			
44	school year that the student does not attend such program.			
45	b) In the event a school division does not use all of the student slots it is allocated under			
46	this program, the unused slots may be reallocated or transferred to another school division.			
47	1. A school division must request from the Department of Education the availability and			
48	possible use of any unused student slots. If any unused slots are available and if the			
49	requesting school division chooses to utilize any of the unused slots, the requesting school			
50	division shall only receive the state's share of tuition for the unused slot that was allocated			
51	in this Item for the originally designated school division.			
52	2. However, no requesting school division shall receive more tuition funding from the			
53	state for any requested unused slot than what would have been the calculated amount for			
54	the requesting school division had the unused slot been allocated to the requesting school			
55	division in the original budget. Furthermore, the requesting school division shall pay for			
56	any remaining tuition payment necessary for using a previously unused slot.

1 3. The Department of Education shall provide assistance for the state share of the incremental
 2 cost of Regional Alternative Education program operations based on the composite index of
 3 local ability-to-pay.

4 4) Out of this appropriation, ~~\$432,317~~ *\$673,213* the second year from the Lottery Proceeds
 5 Fund is provided for a compensation supplement payment equal to 3.0 percent of base pay on
 6 July 1, 2019, *and for a compensation supplement payment of up to 2.0 percent of base pay on*
 7 *September 1, 2019*, for Regional Alternative Education Program instructional and support
 8 positions, as referenced in paragraph C. 39. of this Item.

9 g. Remedial Summer School

10 1) This appropriation includes ~~\$24,940,359~~ *\$24,658,157* the first year and ~~\$25,542,931~~
 11 *\$24,976,867* the second year from the general fund for the state's share of Remedial Summer
 12 School Programs. These funds are available to school divisions for the operation of programs
 13 designed to remediate students who are required to attend such programs during a summer
 14 school session or during an intersession in the case of year-round schools. These funds may
 15 be used in conjunction with other sources of state funding for remediation or intervention.
 16 School divisions shall have maximum flexibility with respect to the use of these funds and the
 17 types of remediation programs offered; however, in exercising this flexibility, students
 18 attending these programs shall not be charged tuition and no high school credit may be
 19 awarded to students who participate in this program.

20 2) For school divisions charging students tuition for summer high school credit courses,
 21 consideration shall be given to students from households with extenuating financial
 22 circumstances who are repeating a class in order to graduate.

23 3) From the amounts provided for Remedial Summer School, there is hereby appropriated
 24 \$550,000 the first year and \$550,000 the second year from the general fund to support pilot
 25 public-private partnerships between local school divisions and the Greater Richmond and
 26 Central Virginia affiliates of the Virginia Alliance of YMCAs to expand student participation
 27 opportunities in existing summer Power Scholars Academies in such partnered school
 28 divisions. The Virginia Alliance of YMCAs shall prepare and submit an evaluation report for
 29 such pilot partnerships between the school divisions and the Greater Richmond and Central
 30 Virginia YMCA affiliates to the Chairmen of House Appropriations and Senate Finance
 31 Committees no later than October 31, 2018.

32 10. K-3 Primary Class Size Reduction Payments

33 a. An additional payment estimated at ~~\$130,593,583~~ *\$125,175,585* the first year and
 34 ~~\$130,388,333~~ *\$128,005,970* the second year from the Lottery Proceeds Fund shall be
 35 disbursed by the Department of Education as an incentive for reducing class sizes in the
 36 primary grades.

37 b. The Department of Education shall calculate the payment based on the incremental cost of
 38 providing the lower class sizes based on the lower of the division average per pupil cost of all
 39 divisions or the actual division per pupil cost.

40 c. Localities are required to provide a match for these funds based on the composite index of
 41 local ability-to-pay.

42 d. By October 15 of each year school divisions must provide data to the Department of
 43 Education that each participating school has a September 30 pupil/teacher ratio in grades K
 44 through 3 that meet the following criteria:

45 Qualifying School Percentage of	46 Grades K-3	47 Maximum Individual

4	in a portion of grades kindergarten through three, with a commensurate reduction of state				
5	and required local funds, if local conditions do not permit participation at the established				
6	ratio and/or maximum individual class size. In the event that a school division requires				
7	additional actions to ensure participation at the established ratio and/or maximum				
8	individual class size, such actions must be completed by December 1 of the impacted				
9	school year. Special education teachers and instructional aides shall not be counted				
10	towards meeting these required pupil/teacher ratios in grades kindergarten through three.				
11	f. The Superintendent of Public Instruction may grant waivers to school divisions for the				
12	class size requirement in eligible schools that have only one class in an affected grade				
13	level in the school.				
14	11. Literary Fund Subsidy Program Payments				
15	a. The Department of Education and the Virginia Public School Authority (VPSA) shall				
16	provide a program of funding for school construction and renovation through the Literary				
17	Fund and through VPSA bond sales. The program shall be used to provide funds, through				
18	Literary Fund loans and subsidies, and through VPSA bond sales, to fund a portion of the				
19	projects on the First or Second Literary Fund Waiting List, or other critical projects which				
20	may receive priority placement on the First or Second Literary Fund Waiting List by the				
21	Department of Education. Interest rate subsidies will provide school divisions with the				
22	present value difference in debt service between a Literary Fund loan and a borrowing				
23	through the VPSA. To qualify for an interest rate subsidy, the school division's project				
24	must be eligible for a Literary Fund loan and shall be subject to the same restrictions. The				
25	VPSA shall work with the Department of Education in selecting those projects to be				
26	funded through the interest rate subsidy/bond financing program, so as to ensure the				
27	maximum leverage of Literary Fund moneys and a minimum impact on the VPSA Bond				
28	Pool.				
29	<i>b. The Virginia Public School Authority shall provide an interest rate subsidy program in</i>				
30	<i>fiscal year 2020 for projects that are on the Board of Education's First Priority Waiting</i>				
31	<i>List, and which shall only use the subsidy funding and associated VPSA borrowing as</i>				
32	<i>original financing for the project and not to refinance any prior debt on the project.</i>				
33	<i>Projects on the Literary Fund Second Priority Waiting List may participate in the Interest</i>				
34	<i>Rate Subsidy Program if unused subsidy appropriation remains once the participation of</i>				
35	<i>projects on the First Priority Waiting List is confirmed and subject to the same</i>				
36	<i>restrictions. However, the total cost of the subsidy program shall not exceed \$5.0 million</i>				
37	<i>in the second year including the subsidy payments and related issuance costs based on the</i>				
38	<i>parameters in Senate Bill 1093, as passed during 2019 Session. In addition, \$30.0 million</i>				
39	<i>in Literary Fund revenues shall be used to provide school construction loans for projects</i>				
40	<i>that are on the Board of Education's First Priority Waiting List.</i>				
41	b.c. The Department of Education may offer Literary Fund loans from the uncommitted				
42	balances of the Literary Fund after meeting the obligations of the interest rate subsidy				
43	sales and the amounts set aside from the Literary Fund for Debt Service Payments for				
44	Education Technology <i>and Security Equipment</i> in this Item.				
45	e.d. 1) In the event that on any scheduled payment date of bonds of the Virginia Public				
46	School Authority (VPSA) authorized under the provisions of a bond resolution adopted				
47	subsequent to June 30, 1997, issued subsequent to June 30, 1997, and not benefiting from				
48	the provisions of either § 22.1-168 (iii), (iv), and (v), Code of Virginia, or § 22.1-168.1,				
49	Code of Virginia, the sum of (i) the payments on general obligation school bonds of cities,				
50	counties, and towns (localities) paid to the VPSA and (ii) the proceeds derived from the				
51	application of the provisions of § 15.2-2659, Code of Virginia, to such bonds of localities,				
52	is less than the debt service due on such bonds of the VPSA on such date, there is hereby				
53	appropriated to the VPSA, first, from available moneys of the Literary Fund and, second,				
54	from the general fund a sum equal to such deficiency.

 2 respect to the defaulting locality and to full recovery of the amount of such deficiency,
 3 together with interest at the rate of the defaulting locality's bonds.

4 *d.e.* The chairman of the Board of Commissioners of the VPSA shall, on or before November
 5 1 of each year, make and deliver to the Governor and the Secretary of Finance a certificate
 6 setting forth his estimate of total debt service during each fiscal year of the biennium on
 7 bonds of the VPSA issued and projected to be issued during such biennium pursuant to the
 8 bond resolution referred to in paragraph a above. The Governor's budget submission each year
 9 shall include provisions for the payment of debt service pursuant to paragraph 1) above.

10 12. Educational Technology Payments

11 a. Any unobligated amounts transferred to the educational technology fund shall be disbursed
 12 on a pro rata basis to localities. The additional funds shall be used for technology needs
 13 identified in the division's technology plan approved by the Department of Education.

14 b. The Department of Education shall authorize estimated amounts as indicated in Table 1
 15 from the Literary Fund to provide debt service payments for the education technology grant
 16 program conducted through the Virginia Public School Authority in the referenced years.

31 c. It is the intent of the General Assembly to authorize sufficient Literary Fund revenues to
 32 pay debt service on the Virginia Public School Authority bonds or notes authorized for
 33 education technology grant programs. In developing the proposed 2020-2022, 2022-2024, and
 34 2024-2026 biennial budgets for public education, the Department of Education shall include a
 35 recommendation to the Governor to authorize sufficient Literary Fund revenues to make debt
 36 service payments for these programs in fiscal years 2021, 2022, 2023, 2024, 2025, and 2026.

37 d. 1) An education technology grant program shall be conducted through the Virginia Public

 41 testing system for the Standards of Learning (SOL) and to develop the capability for high
 42 speed Internet connectivity at high schools followed by middle schools followed by
 43 elementary schools. School divisions shall use these funds first to develop and maintain the
 44 capability to support the administration of online SOL testing for all students with the
 45 exception of students with a documented need for a paper SOL test.

2	for this grant.				
3	3. a.) Supplemental grants shall be allocated to eligible divisions to support schools that				
4	are not fully accredited in accordance with this paragraph. Schools that include a ninth				
5	grade that administer SOL tests in Spring 2018 and that are not fully accredited for the				
6	second consecutive year, based on school accreditation ratings in effect for fiscal year				
7	2018 and fiscal year 2019 will qualify to participate in the Virginia e-Learning Backpack				
8	Initiative in fiscal year 2019 and receive: (1) a supplemental grant of \$400 per student				
9	reported in ninth grade fall membership in a qualifying school for the purchase of a laptop				
10	or tablet for that student and (2) a supplemental grant of \$2,400 per qualifying school to				
11	purchase two content creation packages for teachers. Schools eligible to receive this				
12	supplemental grant in fiscal year 2019 shall continue to receive the grant for the number of				
13	subsequent years equaling the number of grades 9 through 12 in the qualifying school up				
14	to a maximum of four years. Schools that administer SOL tests in Spring 2019 and that are				
15	not fully accredited for the second consecutive year based on school accreditation ratings				
16	in effect for fiscal year 2019 and fiscal year 2020 will qualify to participate in the				
17	initiative in fiscal year 2020. Schools eligible for the supplemental grants in previous				
18	fiscal years shall continue to be eligible for the remaining years of their grant award.				
19	Schools eligible to receive this supplemental grant in fiscal year 2020 shall continue to				
20	receive the grant for the number of subsequent years equaling the number of grades 9				
21	through 12 in the qualifying school up to a maximum of four years. Grants awarded to				
22	qualifying schools that do not have grades 10, 11, or 12 may transition with the students to				
23	the primary receiving school for all years subsequent to grade 9. Schools are eligible to				
24	receive these grants for a period of up to four years beginning in fiscal year 2014 and shall				
25	not be eligible to receive a separate award in the future once the original award period has				
26	concluded. Schools that are fully accredited or that are new schools with conditional				
27	accreditation in their first year shall not be eligible to receive this supplemental grant.				
28	b.) Supplemental grants allocated to school divisions for participation in the Virginia e-				
29	Learning Backpack Initiative prior to fiscal year 2017 shall be used in eligible schools for				
30	(1) the purchase of a laptop or tablet for a student reported in ninth grade fall membership,				
31	and (2) the purchase of two content creation packages for teachers per grant. The amounts				
32	for such grants shall remain unchanged.				
33	4) Required local match:				
34	a) Localities are required to provide a match for these funds equal to 20 percent of the				
35	grant amount, including the supplemental grants provided pursuant to paragraph g. 5). At				
36	least 25 percent of the local match, including the match for supplemental grants, shall be				
37	used for teacher training in the use of instructional technology, with the remainder spent				
38	on other required uses. The Superintendent of Public Instruction is authorized to reduce				
39	the required local match for school divisions with a composite index of local ability-to-pay				
40	below 0.2000. The Virginia School for the Deaf and the Blind is exempt from the match				
41	requirement.				
42	b) School divisions that administer 100 percent of SOL tests online in all elementary,				
43	middle, and high schools may use up to 75 percent of their required local match to				
44	purchase targeted technology-based interventions. Such interventions may include the				
45	necessary technology and software to support online learning, technology-based content				
46	systems, content management systems, technology equipment systems, information and				
47	data management systems, and other appropriate technologies that support the individual				
48	needs of learners. School divisions that receive supplemental grants pursuant to paragraph				
49	g.5) above shall use the funds in qualifying schools to purchase laptops and tablets for				
50	ninth grade students reported in fall membership and content creation packages for				
51	teachers.				
52	5) The goal of the education technology grant program is to improve the instructional,				
53	remedial, and testing capabilities of the Standards of Learning for local school divisions				
54	and to increase the number of schools achieving full accreditation.				
55	6) Funds shall be used in the following manner:				
56	a) Each division shall use funds to reach a goal, in each high school, of: (1) a 5-to-1

2	high speed access to the Internet. School connectivity (computers, LANs and network access)		
3	shall include sufficient download/upload capability to ensure that each student will have		
4	adequate access to Internet-based instructional, remedial and assessment programs.		
5	b) When each high school in a division meets the goals established in paragraph a) above, the		
6	remaining funds shall be used to develop similar capability in first the middle schools and		
7	then the elementary schools.		
8	c) For purposes of establishing or enhancing a computer-based instructional program		
9	supporting the Standards of Learning pursuant to paragraph g. 1) above, these grant funds		
10	may be used to purchase handheld multifunctional computing devices that support a broad		
11	range of applications and that are controlled by operating systems providing full multimedia		
12	support and mobile Internet connectivity. School divisions that elect to use these grant funds		
13	to purchase such qualifying handheld devices must continue to meet the on-line testing		
14	requirements stated in paragraph g. 1) above.		
15	d) School divisions shall be eligible to receive supplemental grants pursuant to paragraph g.5)		
16	above. These supplemental grants shall be used in qualifying schools for the purchase of		
17	laptops and tablets for ninth grade students reported in fall membership and content creation		
18	packages for teachers. Participating school divisions will be required to select a core set of		
19	electronic textbooks, applications and online services for productivity, learning management,		
20	collaboration, practice, and assessment to be included on all devices. In addition, participating		
21	school divisions will assume recurring costs for electronic textbook purchases and		
22	maintenance.		
23	e) Pursuant to § 15.2-1302, Code of Virginia, and in the event that two or more school		
24	divisions became one school division, whether by consolidation of only the school divisions		
25	or by consolidation of the local governments, such resulting division shall be provided		
26	funding through this program on the basis of having the same number of school divisions as		
27	existed prior to September 30, 2000.		
28	7) Local school divisions shall maximize the use of available federal funds, including E-Rate		
29	Funds, and to the extent possible, use such funds to supplement the program and meet the		
30	goals of this program.		
31	e. The Department of Education shall maintain criteria to determine if high schools, middle		
32	schools, or elementary schools have the capacity to meet the goals of this initiative. The		
33	Department of Education shall be responsible for the project management of this program.		
34	f. 1) In the event that, on any scheduled payment date of bonds or notes of the Virginia Public		
35	School Authority (VPSA) issued for the purpose described in § 22.1-166.2, Code of Virginia,		
36	and not benefiting from the provisions of either § 22.1-168 (iii), (iv) and (v), Code of		
37	Virginia, or § 22.1-168.1, Code of Virginia, the available moneys in the Literary Fund are less		
38	than the amounts authorized for debt service due on such bonds or notes of the VPSA on such		
39	date, there is hereby appropriated to the VPSA from the general fund a sum equal to such		
40	deficiency.		
41	2) The Chairman of the Board of Commissioners of the VPSA shall, on or before November 1		
42	of each year, make and deliver to the Governor and the Secretary of Finance a certificate		
43	setting forth his estimate of total debt service during each fiscal year of the biennium on		
44	bonds and notes of the VPSA issued and projected to be issued during such biennium		
45	pursuant to the resolution referred to in paragraph 1) above. The Governor's budget		
46	submission each year shall include provisions for the payment of debt service pursuant to		
47	paragraph 1) above.		
48	g. Unobligated proceeds of the notes, including investment income derived from the proceeds		
49	of the notes may be used to pay interest on, or to decrease principal of the notes or to fund a		
50	portion of such other educational technology grants as authorized by the General Assembly.		
51	h. 1) For the purposes of § 56-232, Code of Virginia, "Contracts of Telephone Companies		
52	with State Government" and for the purposes of § 56-234 "Contracts for Service Rendered by		
53	a Telephone Company for the State Government" shall be deemed to include communications		
54	lines into public schools which are used for educational technology. The rate structure for

 2 Information Officer of the Virginia Information Technologies Agency. Further, the
 3 Superintendent and Director are authorized to encourage the development of "by-pass"
 4 infrastructure in localities where it fails to obtain competitive prices or prices consistent
 5 with the best rates obtained in other parts of the state.

6 2) The State Corporation Commission, in its consideration of the discount for services
 7 provided to elementary schools, secondary schools, and libraries and the universal service
 8 funding mechanisms as provided under § 254 of the Telecommunications Act of 1996, is
 9 hereby encouraged to make the discounts for intrastate services provided to elementary
 10 schools, secondary schools, and libraries for educational purposes as large as is prudently
 11 possible and to fund such discounts through the universal fund as provided in § 254 of the
 12 Telecommunications Act of 1996. The commission shall proceed as expeditiously as
 13 possible in implementing these discounts and the funding mechanism for intrastate
 14 services, consistent with the rules of the Federal Communications Commission aimed at
 15 the preservation and advancement of universal service.

16 13. Security Equipment Payments

17 1) A security equipment grant program shall be conducted through the Virginia Public
 18 School Authority, through the issuance of equipment notes in an amount estimated at up to
 19 \$6,000,000 in fiscal year 2019 and ~~\$6,000,000~~ \$12,000,000 in fiscal year 2020 in
 20 conjunction with the Virginia Public School Authority technology notes program
 21 authorized in C.12. of this Item. Proceeds of the notes will be used to help offset the
 22 related costs associated with the purchase of appropriate security equipment that will
 23 improve and help ensure the safety of students attending public schools in Virginia.

24 2) The Department of Education shall authorize estimated amounts as indicated in Table 1
 25 from the Literary Fund to provide debt service payments for the security equipment grant
 26 programs conducted through the Virginia Public School Authority in the referenced years.

41 3) It is the intent of the General Assembly to authorize sufficient Literary Fund revenues
 42 to pay debt service on the Virginia Public School Authority bonds or notes authorized for
 43 this program. In developing the proposed 2020-2022, 2022-2024, and 2024-2026 biennial
 44 budgets for public education, the Department of Education shall include a
 45 recommendation to the Governor to authorize sufficient Literary Fund revenues to make
 46 debt service payments for these programs in fiscal years 2021, 2022, 2023, 2024, 2025,
 47 and 2026.

48 4) In the event that, on any scheduled payment date of bonds or notes of the Virginia
 49 Public School Authority issued for the purpose described in § 22.1-166.2, Code of
 50 Virginia, and not benefiting from the provisions of either § 22.1-168 (iii), (iv) and (v),
 51 Code of Virginia, or § 22.1-168.1, Code of Virginia, the available moneys in the Literary
 52 Fund are less than the amounts authorized for debt service due on such bonds or notes on

8	\$6,000,000 \$12,000,000 in fiscal year 2020 in equipment notes shall be distributed to eligible			
9	school divisions. The grant awards will be based on a competitive grant basis of up to			
10	\$100,000 \$250,000 per school division. School divisions will be permitted to apply annually			
11	for grant funding. For purposes of this program, eligible schools shall include schools that are			
12	subject to state accreditation and reporting membership in grades K through 12 as of			
13	September 30, 2018, for the fiscal year 2019 issuance, and September 30, 2019, for the fiscal			
14	year 2020 issuance, as well as regional vocational centers, special education centers,			
15	alternative education centers, regular school year Governor's Schools, and the Virginia School			
16	for the Deaf and the Blind.			
17	7) School divisions would submit their application to Department of Education by August 1			
18	of each year based on the criteria developed by the Department of Education in collaboration			
19	with the Department of Criminal Justice Services who will provide requested technical			
20	support. Furthermore, the Department of Education will have the authority to make such grant			
21	awards to such school divisions.			
22	8) It is also the intent of the General Assembly that, <i>beginning with fiscal year 2020</i> , the total			
23	amount of the grant awards shall not exceed \$30,000,000 \$60,000,000 over any ongoing			
24	revolving five year period.			
25	9) Required local match:			
26	a) Localities are required to provide a match for these funds equal to 25 percent of the grant			
27	amount. The Superintendent of Public Instruction is authorized to reduce the required local			
28	match for school divisions with a composite index of local ability-to-pay below 0.2000. The			
29	Virginia School for the Deaf and the Blind is exempt from the match requirement.			
30	b) Pursuant to § 15.2-1302, Code of Virginia, and in the event that two or more school			
31	divisions became one school division, whether by consolidation of only the school divisions			
32	or by consolidation of the local governments, such resulting division shall be provided			
33	funding through this program on the basis of having the same number of school divisions as			
34	existed prior to September 30, 2000.			
35	c) Local school divisions shall maximize the use of available federal funds, including E-Rate			
36	Funds, and to the extent possible, use such funds to supplement the program and meet the			
37	goals of this program.			
38	14. Virginia Preschool Initiative Payments			
39	a.1) It is the intent of the General Assembly that a payment estimated at			
40	\$72,286,230 \$70,049,572 the first year and \$72,297,411 \$72,351,058 the second year from the			
41	Lottery Proceeds Fund shall be disbursed by the Department of Education to schools and			
42	community-based organizations to provide quality preschool programs for at-risk four-year-			
43	olds who are residents of Virginia and unserved by Head Start program funding and for at-risk			
44	five-year-olds who are not eligible to attend kindergarten. In no event shall distributions from			
45	the Lottery Proceeds Fund be made directly to community-based or private providers.			
46	2) These state funds and required local matching funds shall be used to provide programs for			
47	at-risk four-year-old children, which include quality preschool education, health services,			
48	social services, parental involvement and transportation. It shall be the policy of the			
49	Commonwealth that state funds and required local matching funds for the Virginia Preschool			
50	Initiative not be used for capital outlay. Programs must provide full-day or half-day and, at			
51	least, school-year services.			
52	3) The Department of Education shall establish academic standards that are in accordance			
53	with appropriate preparation for students to be ready to successfully enter kindergarten. These			
54	standards shall be established in such a manner as to be measurable for student achievement

1	and success. Students shall be required to be evaluated in the fall and in the spring by each			
2	participating school division and the school divisions must certify that the Virginia			
3	Preschool Initiative program follows the established standards in order to receive the			
4	funding for quality preschool education and criteria for the service components. Such			
5	standards shall align with the Virginia Standards of Learning for Kindergarten.			
6	4) a) Grants shall be distributed based on an allocation formula providing the state share of			
7	a \$6,326 grant for 100 percent of the unserved at-risk four-year-olds in each locality for a			
8	full-day program. The number of unserved at-risk four-year-olds in each locality shall be			
9	based on the projected number of kindergarten students, updated once each biennium for			
10	the Governor's introduced biennial budget. Half-day programs shall operate for a			
11	minimum of three hours of classroom instructional time per day, excluding breaks for			
12	lunch or recess, and grants to half-day programs shall be funded based on the state share			
13	of \$3,163 per unserved at-risk four-year-old in each locality. Full-day programs shall			
14	operate for a minimum of five and one-half instructional hours, excluding breaks for			
15	meals and recess. <i>Virginia Preschool Initiative programs may include unstructured</i>			
16	<i>recreational time that is intended to develop teamwork, social skills, and overall physical</i>			
17	<i>fitness in any calculation of total instructional time, provided that such unstructured</i>			
18	<i>recreational time does not exceed 15 percent of total instructional time or teaching hours.</i>			
19	No additional state funding is provided for programs operating greater than three hours per			
20	day but less than five and one-half hours per day. In determining the state and local shares			
21	of funding, the composite index of local ability-to-pay is capped at 0.5000.			
22	b) For new programs in the first year of implementation only, programs operating less			
23	than a full school year shall receive state funds on a fractional basis determined by the			
24	pro-rata portion of a school year program provided. In determining the prorated state			
25	funds to be received, a school year shall be 180 days or 990 teaching hours.			
26	b.1) Any locality which desires to participate in this grant program must submit a proposal			
27	through its chief administrator (county administrator or city manager) by May 15 of each			
28	year. The chief administrator, in conjunction with the school superintendent, shall identify			
29	a lead agency for this program within the locality. The lead agency shall be responsible for			
30	developing a local plan for the delivery of quality preschool services to at-risk children			
31	which demonstrates the coordination of resources and the combination of funding streams			
32	in an effort to serve the greatest number of at-risk four-year-old children.			
33	2) The proposal must demonstrate coordination with all parties necessary for the			
34	successful delivery of comprehensive services, including the schools, child care providers,			
35	local social services agency, Head Start, local health department, and other groups			
36	identified by the lead agency.			
37	3) A local match, based on the composite index of local ability-to-pay, shall be required.			
38	For purposes of meeting the local match, localities may use local expenditures for existing			
39	qualifying programs, however, at least seventy-five percent of the local match will be cash			
40	and no more than twenty-five percent will be in-kind. In-kind contributions are defined as			
41	cash outlays that are made by the locality that benefit the program but are not directly			
42	charged to the program. The value of fixed assets cannot be considered as an in-kind			
43	contribution. Philanthropic or other private funds may be contributed to the locality to be			
44	appropriated in their local budget and then utilized as local match. Localities shall also			
45	continue to pursue and coordinate other funding sources, including child care subsidies.			
46	Funds received through this program must be used to supplement, not supplant, any funds			
47	currently provided for programs within the locality. However, in the event a locality is			
48	unable to continue the previous level of support to programs for at-risk four-year-olds			
49	from Title I of the federal Elementary and Secondary Education Act (ESEA), the state and			
50	local funds provided in this grants program may be used to continue services to these Title			
51	I students. Such inability may occur due to adjustments to the allocation formula in the			
52	reauthorization of ESEA as the Every Student Succeeds Act of 2015, or due to a			
53	percentage reduction in a locality's Title I allocation in a particular year. Any locality so			
54	affected shall provide written evidence to the Superintendent of Public Instruction and			
55	request his approval to continue the services to Title I students.			
56	c. Local plans must provide clear methods of service coordination for the purpose of			
57	reducing the per child cost for the service, increasing the number of at-risk children served

2	1) "Wraparound Services" -- methods for combining funds such as child care subsidy dollars			
3	administered by local social service agencies with dollars for quality preschool education			
4	programs.			
5	2) "Wrap-out Services" - methods for using grant funds to purchase quality preschool services			
6	to at-risk four-year-old children through an existing child care setting by purchasing			
7	comprehensive services within a setting which currently provides quality preschool education.			
8	3) "Expansion of Service" - methods for using grant funds to purchase slots within existing			
9	programs, such as Head Start, which provide comprehensive services to at-risk four-year-old			
10	children.			
11	d.1) Local plans must indicate the number of at-risk four-year-old children to be served, and			
12	the eligibility criteria for participation in this program shall be consistent with the economic			
13	and educational risk factors stated in the 2015-2016 programs guidelines that are specific to:			
14	(i) family income at or below 200 percent of federal poverty guidelines, (ii) homelessness,			
15	(iii) student's parents or guardians are school dropouts, or (iv) family income is above 200			
16	percent but at or below 350 percent of federal poverty guidelines in the case of students with			
17	special needs or disabilities. Up to 15 percent of a division's slots may be filled based on			
18	locally established eligibility criteria so as to meet the unique needs of at-risk children in the			
19	community.			
20	2) The Department of Education is directed to compile from each school division the			
21	aggregated information as to the number of enrolled students whose families are (i) at or			
22	below 130 percent of poverty, (ii) above 130 percent but at or below 200 percent of poverty,			
23	(iii) above 200 percent but at or below 350 percent of poverty, and (iv) above 350 percent of			
24	poverty. The Department shall report this information annually, after the application and fall			
25	participation reports are submitted to the Department from the school divisions, to the			
26	Chairmen of House Appropriations and Senate Finance Committees. In addition, the			
27	Department will post and maintain the summary information by division on the Department's			
28	website in keeping with current student privacy policies.			
29	e.1) The Department of Education shall provide technical assistance for the administration of			
30	this grant program to provide assistance to localities in developing a comprehensive,			
31	coordinated, quality preschool program for serving at-risk four-year-old children.			
32	2) The Department shall provide interested localities with information on models for service			
33	delivery, methods of coordinating funding streams, such as funds to match federal IV-A child			
34	care dollars, to maximize funding without supplanting existing sources of funding for the			
35	provision of services to at-risk four-year-old children. A priority for technical assistance in the			
36	design of programs shall be given to localities where the majority of the at-risk four-year-old			
37	population is currently unserved.			
38	f. The Department of Education shall include in the program's application package specific			
39	information regarding the potential availability of funding for supplemental grants that may			
40	be used for one-time expenses, other than capital, related to start-up or expansion of

2	j. Out of the appropriation in this Item, \$75,000 the first year from the general fund is			
3	provided such that, beginning July 1, 2018, the Department of Education shall develop a plan			
4	to ensure that high quality instruction is provided in the Virginia Preschool Initiative			
5	program's individual preschool classrooms. The plan shall detail how the Department will (i)			
6	monitor and assess the quality of teacher-child interactions within each preschool classroom			
7	at least once every two years, (ii) ensure the use of evidence-based curricula is implemented			
8	in each preschool classroom and take necessary corrective action if evidence-based			
9	curriculum is not used or effective by the following school year, and, (iii) facilitate and			
10	provide individualized professional development for Virginia Preschool Initiative classroom			
11	teachers to ensure the necessary teaching skills are aligned for the pedagogy of high quality			
12	preschool classroom experiences and (iv) provide informative and complete information			
13	about how Virginia Preschool Initiative funding, from all sources, supports quality preschool			
14	experiences for children enrolled in the local public school divisions in Virginia. The plan			
15	shall also include details on the number of staff, tasks and duties, and possible funding needed			
16	to carry out these responsibilities. The Department shall submit its complete detailed plan to			
17	the Chairmen of House Appropriations and Senate Finance Committees by November 1,			
18	2018.			
19	k. Out of the appropriation in this Item, \$350,000 the first year and \$350,000 the second year			
20	from the general fund is provided through the Department of Education to the University of			
21	Virginia to ensure that all Virginia Preschool Initiative classroom programs have the quality			
22	of their teacher-child interactions assessed through a rigorous and research-based classroom			
23	observational instrument at least once every two years using the CLASS observational			
24	instrument for such assessment. All classrooms shall be observed no later than June 30, 2020.			
25	The University of Virginia, with input from the Department of Education and the use of its			
26	detailed plan for such assessments, shall establish a statewide minimum acceptable threshold			
27	for the quality of teacher-child interactions for Virginia Preschool Initiative classroom			
28	programs, and classrooms that are assessed below the threshold will receive additional			
29	technical assistance from the Department of Education and the University of Virginia. The			
30	threshold should be established with the assistance of University of Virginia's Center for			
31	Advanced Study of Teaching and Learning, using a rigorous and research-based classroom			
32	observational instrument. The threshold shall be established no later than the beginning of the			
33	2018-2019 school year and the classroom assessments shall begin no later than spring 2019.			
34	The University of Virginia's Center for Advanced Study of Teaching and Learning shall			
35	submit a progress report on such classroom observations to the Chairmen of House			
36	Appropriations and Senate Finance Committees no later than June 30, 2019, and annually			
37	thereafter.			
38	15. Early Reading Intervention Payments			
39	a. An additional payment of \$22,599,681 \$23,578,891 the first year and \$22,651,560			
40	\$23,571,284 the second year from the Lottery Proceeds Fund shall be disbursed by the			
41	Department of Education to local school divisions for the purposes of providing early reading			
42	intervention services to students in grades kindergarten through 3 who demonstrate			
43	deficiencies based on their individual performance on diagnostic tests which have been			
44	approved by the Department of Education. The Department of Education shall review the			
45	tests of any local school board which requests authority to use a test other than the state-			
46	provided test to ensure that such local test uses criteria for the early diagnosis of reading			
47	deficiencies which are similar to those criteria used in the state-provided test. The Department			
48	of Education shall make the state-provided diagnostic test used in this program available to			
49	local school divisions. School divisions shall report the results of the diagnostic tests to the			
50	Department of Education on an annual basis at a time to be determined by the Superintendent			
51	of Public Instruction.			
52	b. These payments shall be based on the state's share of the cost of providing two and one-half			
53	hours of additional instruction each week for an estimated number of students in each school			
54	division at a student to teacher ratio of five to one. The estimated number of students in each			
55	school division in each year shall be determined by multiplying the projected number of			
56	students reported in each school division's fall membership in grades kindergarten, 1, 2, and 3			
57	by the percent of students who are determined to need services based on diagnostic tests			
58	administered in the previous year in that school division and adjusted in the following

8	Education that an intervention program will be offered to such students and that each			
9	student who receives an intervention will be assessed again at the end of that school year.			
10	At the beginning of the school year, local school divisions shall partner with the parents of			
11	those third grade students in the division who demonstrate reading deficiencies, discussing			
12	with them a developed plan for remediation and retesting. Such intervention programs, at			
13	the discretion of the local school division, may include, but not be limited to, the use of:			
14	special reading teachers; trained aides; full-time early literacy tutors; volunteer tutors			
15	under the supervision of a certified teacher; computer-based reading tutorial programs;			
16	aides to instruct in-class groups while the teacher provides direct instruction to the			
17	students who need extra assistance; or extended instructional time in the school day or			
18	year for these students. Localities receiving these payments are required to match these			
19	funds based on the composite index of local ability-to-pay.			
20	d. In the event that a school division does not use the diagnostic test provided by the			
21	Department of Education in the year that serves as the basis for updating the funding			
22	formula for this program but has used it in past years, the Department of Education shall			
23	use the most recent data available for the division for the state-provided diagnostic test.			
24	e. The results of all reading diagnostic tests and reading remediation shall be discussed			
25	with the student and the student's parent prior to the student being promoted to grade four.			
26	f. Funds appropriated for Standards of Quality Prevention, Intervention, and Remediation,			
27	Remedial Summer School, or At-Risk Add-On may also be used to meet the requirements			
28	of this program.			
29	16. Standards of Learning Algebra Readiness Payments			
30	a. An additional payment of \$13,003,937 \$13,099,389 the first year and \$13,020,964			
31	\$13,061,697 the second year from the Lottery Proceeds Fund shall be disbursed by the			
32	Department of Education to local school divisions for the purposes of providing math			
33	intervention services to students in grades 6, 7, 8 and 9 who are at-risk of failing the			
34	Algebra I end-of-course test, as demonstrated by their individual performance on			
35	diagnostic tests which have been approved by the Department of Education. These			
36	amounts reflect \$200,000 the first year and \$200,000 the second year apportioned to each			
37	school division to account for the cost of the diagnostic test. The Department of Education			
38	shall review the tests to ensure that such local test uses state-provided criteria for			
39	diagnosis of math deficiencies which are similar to those criteria used in the state-provided			
40	test. The Department of Education shall make the state-provided diagnostic test used in			
41	this program available to local school divisions. School divisions shall report the results of			
42	the diagnostic tests to the Department of Education on an annual basis at a time to be			
43	determined by the Superintendent of Public Instruction.			
44	b. These payments shall be based on the state's share of the cost of providing two and one-			
45	half hours of additional instruction each week for an estimated number of students in each			
46	school division at a student to teacher ratio of ten to one. The estimate number of students			
47	in each school division shall be determined by multiplying the projected number of			
48	students reported in each school division's fall membership by the percent of students that			
49	qualify for the federal Free Lunch Program.			
50	c. These payments are available to any school division that certifies to the Department of			
51	Education that an intervention program will be offered to such students and that each			
52	student who receives an intervention will be assessed again at the end of that school year.			
53	Localities receiving these payments are required to match these funds based on the

38	a. Out of the amounts for Governor's School Payments, the Department of Education shall				
39	provide assistance for the state share of the incremental cost of regular school year Governor's				
40	Schools based on each participating locality's composite index of local ability-to-pay.				
41	Participating school divisions must certify that no tuition is assessed to students for				
42	participation in this program.				
43	b.1) Out of the amounts for Governor's School Payments, the Department of Education shall				
44	provide assistance for the state share of the incremental cost of summer residential Governor's				
45	Schools and Foreign Language Academies to be based on the greater of the state's share of the				
46	composite index of local ability-to-pay or 50 percent. Participating school divisions must				
47	certify that no tuition is assessed to students for participation in this program if they are				
48	enrolled in a public school.				
49	2) Out of the amounts for Governor's School Payments, \$41,000 the first year and \$41,000 the

1	Acts of Assembly, and Chapter 665, 2015 Acts of Assembly.				
2	c. For the Summer Governor's Schools and Foreign Language Academies programs, the				
3	Superintendent of Public Instruction is authorized to adjust the tuition rates, types of				
4	programs offered, length of programs, and the number of students enrolled in order to				
5	maintain costs within the available state and local funds for these programs.				
6	d. It shall be the policy of the Commonwealth that state general fund appropriations not be				
7	used for capital outlay, structural improvements, renovations, or fixed equipment costs				
8	associated with initiation of existing or proposed Governor's schools. State general fund				
9	appropriations may be used for the purchase of instructional equipment for such schools,				
10	subject to certification by the Superintendent of Public Instruction that at least an equal				
11	amount of funds has been committed by participating school divisions to such purchases.				
12	e. The Board of Education shall not take any action that would increase the state's share of				
13	costs associated with the Governor's Schools as set forth in this Item. This provision shall				
14	not prohibit the Department of Education from submitting requests for the increased costs				
15	of existing programs resulting from updates to student enrollment for school divisions				
16	currently participating in existing programs or for school divisions that begin participation				
17	in existing programs.				
18	f.1) Regular school year Governor's Schools are funded through this Item based on the				
19	state's share of the incremental per pupil cost for providing such programs for each student				
20	attending a Governor's School up to a cap of 1,800 students per Governor's School in the				
21	first year and a cap of 1,800 students per Governor's School in the second year. This				
22	incremental per pupil payment shall be adjusted for the composite index of the school				
23	division that counts such students attending an academic year Governor's School in their				
24	March 31 Average Daily Membership. It is the intent of the General Assembly that this				
25	incremental per pupil amount be in addition to the basic aid per pupil funding provided to				
26	the affected school division for such students. Therefore, local school divisions are				
27	encouraged to provide the appropriate portion of the basic aid per pupil funding to the				
28	Governor's Schools for students attending these programs, adjusted for costs incurred by				
29	the school division for transportation, administration, and any portion of the day that the				
30	student does not attend a Governor's School.				
31	2) Students attending a revolving Academic Year Governor's School program for only one				
32	semester shall be counted as 0.50 of a full-time equivalent student and will be funded for				
33	only fifty percent of the full-year funded per pupil amount. Funding for students attending				
34	a revolving Academic Year program will be adjusted based upon actual September 30th				
35	and January 30th enrollment each fiscal year. For purposes of this Item, revolving				
36	programs shall mean Academic Year Governor's School programs that admit students on a				
37	semester basis.				
38	3) Students attending a continuous, non-revolving Academic Year Governor's School				
39	program shall be counted as a full-time equivalent student and will be funded for the full-				
40	year funded per pupil amount. Funding for students attending a continuous, non-revolving				
41	Academic Year Governor's School program will be adjusted based upon actual September				
42	30th student enrollment each fiscal year. For purposes of this Item, continuous, non-				
43	revolving programs shall mean Academic Year Governor's School programs that only				
44	admit students at the beginning of the school year. Fairfax County Public Schools shall not				
45	reduce local per pupil funding for the Thomas Jefferson Governor's School below the				
46	amounts appropriated for the 2003-2004 school year.				
47	g. All regional Governor's Schools are encouraged to provide full-day grades 9 through 12				
48	programs.				
49	h. Out of the appropriation included in paragraph C. 39. of this Item, \$568,499				
50	\$866,870 the second year from the general fund is provided in the Academic Year				
51	Governor's School funding allocation to increase the per pupil amount the second year as				
52	an add-on for a compensation supplement payment equal to 3.0 percent of base pay on				
53	July 1, 2019, <i>and for a compensation supplement payment of up to 2.0 percent of base pay</i>				
54	<i>on September 1, 2019,</i> for Academic Year Governor's School instructional and support

1	29. School Nutrition Payments				
2	It is provided that, subject to implementation by the Superintendent of Public Instruction, no				
3	disbursement shall be made out of the appropriation for school nutrition to any locality in				
4	which the schools permit the sale of competitive foods in food service facilities or areas				
5	during the time of service of food funded pursuant to this Item.				
6	30. School Breakfast Payments				
7	a. Out of this appropriation, \$6,731,774 \$6,287,789 the first year and \$7,997,053 \$7,439,888				
8	the second year from the Lottery Proceeds Fund is included to continue a state funded				
9	incentive program to maximize federal school nutrition revenues and increase student				
10	participation in the school breakfast program. These funds are available to any school division				
11	as a reimbursement for breakfast meals served that are in excess of the baseline established by				
12	the Department of Education. The per meal reimbursement shall be \$0.22; however, the				
13	department is authorized, but not required to reduce this amount proportionately in the event				
14	that the actual number of meals to be reimbursed exceeds the number on which this				
15	appropriation is based so that this appropriation is not exceeded.				
16	b. In order to receive these funds, school divisions must certify that these funds will be used to				
17	supplement existing funds provided by the local governing body and that local funds derived				
18	from sources that are not generated by the school nutrition programs have not been reduced or				
19	eliminated. The funds shall be used to improve student participation in the school breakfast				
20	program. These efforts may include, but are not limited to, reducing the per meal price paid				
21	by students, reducing competitive food sales in order to improve the quality of nutritional				
22	offerings in schools, increasing access to the school breakfast program, or providing programs				
23	to increase parent and student knowledge of good nutritional practices. In no event shall these				
24	funds be used to reduce local tax revenues below the level appropriated to school nutrition				
25	programs in the prior year. Further, these funds must be provided to the school nutrition				
26	programs and may not be used for any other school purpose.				
27	c.1) Out of this appropriation, \$1,074,000 the first year and \$1,074,000 the second year from				
28	the general fund is provided to fund an After-the-Bell Model breakfast program available on a				
29	voluntary basis to elementary, middle, and high schools where student eligibility for free or				
30	reduced lunch exceeds 45.0 percent for the participating eligible school, and to provide				
31	additional reimbursement for eligible meals served in the current traditional school breakfast				
32	program at all grade levels in any participating school. The Department of Education is				
33	directed to ensure that only eligible schools receive reimbursement funding for participating				
34	in the After-the-Bell school breakfast model. The schools participating in the program shall				
35	evaluate the educational impact of the models implemented that provide school breakfasts to				
36	students after the first bell of the school day, based on the guidelines developed by the				
37	Department of Education and submit the required report to the Department of Education no				
38	later than August 31, 2019 for the 2018-2019 school year and no later than August 31, 2020				
39	for the 2019-2020 school year.				
40	2) The Department of Education shall communicate, through Superintendent's Memo, to				
41	school divisions the types of breakfast serving models and the criteria that will meet the				
42	requirements for this State reimbursement, which may include, but are not limited to,				
43	breakfast in the classroom, grab and go breakfast, or a breakfast after first period. School				
44	divisions may determine the breakfast serving model that best applies to its students, so long				
45	as it occurs after the instructional day has begun. For the 2018-2019 and 2019-2020 school				
46	years, the Department of Education shall monthly transfer to each school division a				
47	reimbursement rate of \$0.05 per breakfast meal that meets either of the established criteria in				
48	elementary schools and a reimbursement rate of \$0.10 per breakfast meal that meets either of				
49	the established criteria in middle or high schools.				
50	3) No later than July 1, 2018 for the 2018-2019 school year and no later than July 1, 2019 for				
51	the 2019-2020 school year, the Department of Education shall provide for a breakfast				
52	program application process for school divisions with eligible schools, including guidelines				
53	regarding specified required data to be compiled from the prior school year or years and for				
54	the upcoming school year program. The number of approved applications shall be based on				
55	the estimated number of sites that can be accommodated within the approved funding level.				
56	The Department of Education shall set criteria for establishing priority should the number of				
57	applications from eligible schools exceed the approved funding level. The reporting

15	successful transition into full-time teaching. This appropriation also includes \$318,750 the			
16	first year and \$318,750 the second year from the general fund for Clinical Faculty

18	transition into full-time teaching. Such programs shall include elements which are			
19	consistent with the following:			
20	a. An application process for localities and school/higher education partnerships that wish			
21	to participate in the programs;			
22	b. For Clinical Faculty programs only, provisions for a local funding or institutional			
23	commitment of 50 percent, to match state grants of 50 percent;			
24	c. Program plans which include a description of the criteria for selection of clinical faculty			
25	and mentor teachers, training, support, and compensation for clinical faculty and mentor			
26	teachers, collaboration between the school division and institutions of higher education,			
27	the clinical faculty and mentor teacher assignment process, and a process for evaluation of			
28	the programs;			
29	d. The Department of Education shall allow flexibility to local school divisions and higher			
30	education institutions regarding compensation for clinical faculty and mentor teachers			
31	consistent with these elements of the programs; and			
32	e. It is the intent of the General Assembly that no preference between pre-service or			
33	beginning teacher programs be construed by the language in this Item. School divisions			
34	operating beginning teacher mentor programs shall receive equal consideration for			
35	funding.			
36	32. Career Switcher/Alternative Licensure Payments			
37	Appropriations in this Item include \$279,983 the first year and \$279,983 the second year

48	the general fund shall be disbursed by the Department of Education to qualifying local			
49	school divisions for the purpose of providing a reading specialist for schools with a third

2	c. These payments are available to any school division with a qualifying school that (1)				
3	certifies to the Department of Education that the division has hired a reading specialist to				
4	provide direct services to children reading below grade level in the school to improve reading				
5	achievement and (2) applies and receives a waiver for up to two years from the Board of				
6	Education for the administration of third grade SOL assessments in science or history and				
7	social science or both for the purpose of creating additional instructional time for reading				
8	specialists to work with students reading below grade level to improve reading achievement.				
9	d. These payments also are available to any school division with a qualifying school that				
10	certifies to the Department of Education that the division is supporting tuition for collegiate				
11	programs and instruction for currently employed instructional school personnel to earn the

19	from the general fund in additional payments for reading or math instructional specialists at				
20	underperforming schools. From this amount, the state share of one reading or math specialist				
21	shall be provided to local school divisions with schools which rank lowest statewide on the				
22	Spring Standards of Learning (SOL) math or reading assessment. Funding for one math or				
23	reading specialist during the 2018-2020 biennium shall be based on the results of the Spring				
24	2017 SOL assessments. Such schools shall be eligible to receive the state share of funding for				
25	both years of the biennium. If, following certification from a school division that it will not				
26	participate in the program, the Department is authorized to identify additional eligible schools				
27	based upon the list of schools that rank lowest on the Spring SOL math or reading assessment.

33	these payments are required to match these funds based on the composite index of local				
34	ability-to-pay.				
35	c. The Department of Education is authorized to utilize available funding appropriated to the				
36	Early Reading Specialist Initiative contained in this Item to pay for instructional specialists at				
37	additional eligible schools, or to support tuition for collegiate programs and instruction for				
38	currently employed instructional school personnel at additional eligible schools to earn the

48	sufficient for delivery of school-wide digital resources and instruction, degree of internet				
49	connectivity via Wi-Fi, cost information related to Internet connectivity, data security, and				
50	such other pertinent information as determined by the Department of Education. The				
51	Department shall provide a summary of the division responses in a report to be made

6	project in addition to a share of direct costs of issuance as determined by the State		
7	Treasurer. Revenue collected from this administrative fee shall be deposited to a special		
8	fund in the Department of the Treasury to compensate the department for direct and		
9	indirect staff time and expenses involved with this program.		
10	E. The State Treasurer is authorized to sell any securities remitted as unclaimed		
11	demutualization proceeds of insurance companies at any time after delivery, pursuant to

47	state exceed the interest calculated to be transferred from the state to the federal		
48	government, reduced by the federally approved direct cost reimbursement to the state, the

10	Department of Corrections and approaching release who meet the criteria set forth in			
11	Chapter 863 and Chapter 914 of the 2006 Acts of Assembly, and who may be eligible for

30	3. The Office of the Attorney General shall also provide to the commissioner of DBHDS,

32	forecasting the SVP population.			
33	B. The Secretary of Health and Human Resources shall create a trauma-informed care

35	within the Health and Human Resources Secretariat. The workgroup shall include			
36	representatives from the Departments of Social Services, Behavioral Health and			
37	Developmental Services, Medical Assistance Services, and Health, as well as

9	local agencies and public and private health care entities. The workgroup shall evaluate the				
10	DBHDS statement of work developed for its EHR system and the DBHDS platform for

31	D. The Secretary of Health and Human Resources shall convene a work group to examine				
32	recent trends in the individual insurance market and state options for stabilizing that market.				
33	The examination shall include, but not be limited to, a review of association and catastrophic				
34	health plans as well as innovative solutions that reduce individual insurance premiums and				
35	out-of-pocket costs while preserving access to comprehensive health insurance. The				
36	examination shall also consider the resources necessary to fund any proposed options. The				
37	work group shall include the Commissioner of Insurance or his designee, the Virginia

43	state innovation waiver under Section 1332 of the federal Patient Protection and Affordable				
44	Care Act (42 U.S.C. 18052) to implement innovative solutions to help stabilize the individual				
45	insurance market by reducing individual insurance premiums and out-of-pocket costs while				
46	preserving access to health insurance. Such solutions may include the implementation of a				
47	state reinsurance program or high risk pool, or market stabilization program payments, among				
48	others.				
49	2. The State Corporation Commission Bureau of Insurance shall provide technical assistance				
50	to the Secretary of Health and Human Resources as requested.				
51	3. The Secretary shall report on the waiver plan to the House and Senate Committees on				
52	Labor and Commerce and the House Appropriations and Senate Finance Committees prior to				
53	the submission of the waiver application. Such report shall include an analysis of the costs				
54	and assumptions used to implement the waiver and any mechanism proposed to fund the non-

9	follows:				
10	1. Allocations. The allocations for the Medicaid and non-Medicaid pools shall be the				
11	amounts specified in paragraphs B.1.b. and B.1.c. in this Item. These funds shall be				
12	distributed to each locality in each year of the biennium based on the greater of that

31	an update to the Governor and the Chairmen of the House Appropriations and Senate				
32	Finance Committees on the outcomes of this initiative.				
33	d. At the direction of the State Executive Council, local Community Policy and

39	together to determine the most appropriate and cost-effective provider of ICC services for				
40	children in their community who are placed in, or at-risk of being placed in, residential				
41	care through the Children's Services Act, in accordance with guidelines developed by the				
42	State Executive Council. The State Executive Council and Office of Children's Services

17	of Child Support Enforcement of the Department of Social Services, upon the request of the				
18	community policy management team, the Office of Children's Services shall make a claim				
19	against the parent or legal guardian for such payment through the Department of Law's

26	Department of Medical Assistance Services to assist Community Policy and Management				
27	Teams in appropriately accessing a full array of Medicaid-funded services for Medicaid-

37	general fund shall be used to purchase and maintain an information system to provide quality				
38	and timely child demographic, service, expenditure, and outcome data.				
39	J. The State Executive Council shall work with the Department of Education to ensure that				
40	funding in this Item is sufficient to pay for the educational services of students that have been				
41	placed in or admitted to state or privately operated psychiatric or residential treatment

43	Educational Plan (IEP).

35	the Virginia Medicaid/FAMIS programs.			
36	2. The department is authorized to contract with qualified health plans to offer recipients a			
37	Medicaid benefit package adhering to these principles. Any coordination of non-			
38	traditional behavioral health services covered under contract with qualified health plans or			
39	through other means shall adhere to the principles outlined in paragraph EE.a. This			
40	reformed service delivery model shall be mandatory, to the extent allowed under the			
41	relevant authority granted by the federal government and shall, at a minimum, include (i)			
42	limited high-performing provider networks and medical/health homes; (ii) financial

45	administrative and other processes for providers; and (v) support of the health information			
46	exchange.			
47	3. The Department of Medical Assistance Services shall seek reforms to include all			
48	remaining Medicaid populations and services, including long-term care and home- and			
49	community-based waiver services into cost-effective, managed and coordinated delivery			
50	systems. The department shall begin designing the process and obtaining federal authority			
51	to transition all remaining Medicaid beneficiaries into a coordinated delivery system.			
52	DMAS shall promulgate regulations to implement these provisions to be effective within			
53	280 days of its enactment. The department may implement any changes necessary to			
54	implement these provisions prior to the promulgation of regulations undertaken in order to			
55	effect such changes.			
56	4.a. Notwithstanding § 30-347, Code of Virginia, or any other provision of law, no later			
57	than 45 days upon the passage of House Bill 5001, the Department of Medical Assistance

10	effective without affirmative action by CMS, coverage may begin upon submission of the			
11	completed § 1115 demonstration waiver application, per CMS notification, but no later than			
12	January 1, 2019. If the demonstration waiver cannot be completed by 150 days, despite a

23	application. If the department receives an official letter from either Chairman raising an			
24	objection about the waiver during the 10-day period, the department shall make all reasonable			
25	attempts to address the objection and modify the waiver(s). If the department receives no			
26	objection, then the application may be submitted. Any waiver specifically authorized			
27	elsewhere in this item is not subject to this provision. Waiver renewals are not subject to the			
28	provisions of this paragraph.

45	purchase of employer-sponsored health insurance coverage if cost effective. The plans will			
46	provide a comprehensive benefit package consistent with private market plans, compliant			
47	with all mandated essential health benefits, and inclusive of current Medicaid covered mental			
48	health and addiction recovery and treatment services. The demonstration shall include (1) the			
49	development of a health and wellness account for eligible individuals, comprised of			
50	participant contributions and state funds to be used to fund the health insurance premiums and			
51	to ensure funds are available for the enrollee to cover out-of-pocket expenses for the			
52	deductible, with the ability to roll over the funds from the account into succeeding years if not			
53	fully used. The monthly premium amount for the enrollee shall be set on a sliding scale based			
54	on monthly income, not to exceed two percent of monthly income, nor be less than \$1 per

52	statewide average; however, requirements related to training, education and other			
53	community engagement opportunities shall not be waived in any area of the			
54	Commonwealth.

1	The TEEOP shall work with Virginia Workforce Centers or One-Stops to provide services to				
2	Medicaid enrollees. Such services shall include career services for program enrollees, services				
3	to link enrollees with industry certification and credentialing programs, including the New				
4	Economy Workforce Credential Grant Program, and individualized case management				
5	services.				
6	The TEEOP shall, to the extent allowed under federal law, utilize federal and state funding

10	to support program enrollees.				
11	Unless exempt, enrollees shall be ineligible to receive Medicaid benefits if, during any three				
12	months of the 12-month period beginning on the first day of enrollment, they fail to meet the				
13	TEEOP requirements and they will not be permitted to re-enroll until the end of such 12-				
14	month period, unless the failure to comply or report compliance was the result of a				
15	catastrophic event or circumstances beyond the beneficiary's control. However, enrollees shall				
16	be eligible to re-enroll in the program within such 12-month period upon demonstration of				
17	compliance with the TEEOP requirements.

19	utilization;				
20	(vi) The Department of Medical Assistance Services shall develop a supportive employment				
21	and housing benefit targeted to high risk Medicaid beneficiaries with mental illness, substance				
22	use disorder, or other complex, chronic conditions who need intensive, ongoing support to				
23	obtain and maintain employment and stable housing.				
24	e. The State Plan amendment and the demonstration waiver program shall include (i) systems				
25	for determining eligibility for participation in the program, (ii) provisions for disenrollment if				
26	federal funding is reduced or terminated, and (iii) provisions for monitoring, evaluating, and				
27	assessing the effectiveness of the waiver program in improving the health and wellness of				
28	program participants and furthering the objectives of the Medicaid program.				
29	f. The department shall have the authority to promulgate emergency regulations to implement				
30	these changes within 280 days or less from the enactment date of House Bill 5001. The

32	regulatory process undertake in order to effect such changes.				
33	5. In the event that the increased federal medical assistance percentages for newly eligible				
34	individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA are modified through				
35	federal law or regulation from the methodology in effect on January 1, 2014, resulting in a				
36	reduction in federal medical assistance as determined by the department in consultation with				
37	the Department of Planning and Budget, the Department of Medical Assistance Services shall				
38	disenroll and eliminate coverage for individuals who obtained coverage through 42 U.S.C. §				
39	1396d(y)(1) [2010] of the PPACA. The disenrollment process shall include written

47	weights by blending in 50 percent of the full APR-DRG weights with 50 percent of FY 2014				
48	AP-DRG weights in the first year and 75 percent of the full APR-DRG weights with 25				
49	percent of the FY 2014 AP-DRG weights in the second year for each APR-DRG group and				
50	severity. FY 2014 AP-DRG weights shall be calculated as a weighted average FY 2014 AP-				
51	DRG weight for all claims in the base year that group to each APR-DRG group and severity.				
52	Full APR-DRG weights shall be used in the third year and succeeding years for each APR-				
53	DRG group and severity. The department shall have the authority to implement these				
54	reimbursement changes effective July 1, 2014, and prior to completion of any regulatory				
55	process in order to effect such changes.				

ITEM 303.		Item Details(\$)		Appropriations(\$)	
		First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020
1	UU.1. Effective July 1, 2014, the Department of Medical Assistance Services shall replace				
2	the current Disproportionate Share Hospital (DSH) methodology with the following				
3	methodology:				
4	a) DSH eligible hospitals must have a total Medicaid Inpatient Utilization Rate equal to 14				
5	percent or higher in the base year using Medicaid days eligible for Medicare DSH or a				
6	Low Income Utilization Rate in excess of 25 percent and meet other federal requirements.				
7	Eligibility for out of state cost reporting hospitals shall be based on total Medicaid				
8	utilization or on total Medicaid NICU utilization equal to 14 percent or higher.				
9	b) Each hospital's DSH payment shall be equal to the DSH per diem multiplied by each				
10	hospital's eligible DSH days in a base year. Days reported in provider fiscal years in state				
11	FY 2011 will be the base year for FY 2015 prospective DSH payments. DSH will be				
12	recalculated annually with an updated base year. DSH payments are subject to applicable				
13	federal limits.				
14	c) Eligible DSH days are the sum of all Medicaid inpatient acute, psychiatric and				
15	rehabilitation days above 14 percent for each DSH hospital subject to special rules for out				
16	of state cost reporting hospitals. Eligible DSH days for out of state cost reporting hospitals				
17	shall be the higher of the number of eligible days based on the calculation in the first				
18	sentence times Virginia Medicaid utilization (Virginia Medicaid days as a percent of total				
19	Medicaid days) or the Medicaid NICU days above 14 percent times Virginia NICU				
20	Medicaid utilization (Virginia NICU Medicaid days as a percent of total NICU Medicaid				
21	days). Eligible DSH days for out of state cost reporting hospitals who qualify for DSH but				
22	who have less than 12 percent Virginia Medicaid utilization shall be 50 percent of the days				
23	that would have otherwise been eligible DSH days.				
24	d) Additional eligible DSH days are days that exceed 28 percent Medicaid utilization for				
25	Virginia Type Two hospitals (excluding Children's Hospital of the Kings Daughters).				
26	e) The DSH per diem shall be calculated in the following manner:				
27	a. The DSH per diem for Type Two hospitals is calculated by dividing the total Type Two				
28	DSH allocation by the sum of eligible DSH days for all Type Two DSH hospitals. For				
29	purposes of DSH, Type Two hospitals do not include Children's Hospital of the Kings				
30	Daughters (CHKD) or any hospital whose reimbursement exceeds its federal				
31	uncompensated care cost limit. The Type Two Hospital DSH allocation shall equal the				
32	amount of DSH paid to Type Two hospitals in state FY 2014 increased annually by the				
33	percent change in the federal allotment, including any reductions as a result of the				
34	Affordable Care Act, adjusted for the state fiscal year.				
35	b. The DSH per diem for State Inpatient Psychiatric Hospitals is calculated by dividing the				
36	total State Inpatient Psychiatric Hospital DSH allocation by the sum of eligible DSH days.				
37	The State Inpatient Psychiatric Hospital DSH allocation shall equal the amount of DSH				
38	paid in state FY 2013 increased annually by the percent change in the federal allotment,				
39	including any reductions as a result of the Affordable Care Act, adjusted for the state				
40	fiscal year.				
41	c. The DSH per diem for CHKD shall be three times the DSH per diem for Type Two				
42	hospitals.				
43	d. The DSH per diem for Type One hospitals shall be 17 times the DSH per diem for Type				
44	Two hospitals.				
45	2. Each year, the department shall determine how much Type Two DSH has been reduced				
46	as a result of the Affordable Care Act and adjust the percent of cost reimbursed for				
47	outpatient hospital reimbursement.				
48	3. The department shall convene the Hospital Payment Policy Advisory Council at least				
49	once a year to consider additional changes to the DSH methodology.				
50	4. The department shall have the authority to implement these reimbursement changes				
51	effective July 1, 2014, and prior to completion of any regulatory process in order to effect				
52	such changes.				

ITEM 303.	Item Details(\$)		Appropriations(\$)	
	First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020
1	VV. The Department of Medical Assistance Services shall have authority to amend the State			
2	Plans for Medical Assistance under Titles XIX and XXI of the Social Security Act, and any			
3	waivers thereof, to implement requirements of the federal Patient Protection and Affordable			
4	Care Act (PPACA), P.L. 111-148, as it pertains to implementation of Medicaid and CHIP			
5	eligibility determination and case management standards and practices, including the			
6	Modified Adjusted Gross Income (MAGI) methodology and, notwithstanding the			
7	requirements of Code of Virginia §2.2-4000, et seq., the process for administrative appeals of			
8	MAGI-related eligibility determinations. The department shall have authority to implement			
9	such standards and practices upon federal approval and prior to the completion of any			
10	regulatory process undertaken in order to effect such changes.			
11	WW.1. Notwithstanding § 32.1-330 of the Code of Virginia, the Department of Medical			
12	Assistance Services shall improve the preadmission screening process for individuals who			
13	will be eligible for long-term care services, as defined in the state plan for medical assistance.			
14	The community-based screening team shall consist of a licensed health care professional and			
15	a social worker who are employees or contractors of the Department of Health or the local			
16	department of social services, or other assessors contracted by the department. The			
17	department shall not contract with any entity for whom there exists a conflict of interest. For			
18	community-based screening for children, the screening shall be performed by an individual or			
19	entity with whom the department has entered into a contract for the performance of such			
20	screenings.			
21	2. The department shall track and monitor all requests for screenings and report on those			
22	screenings that have not been completed within 30 days of an individual's request for			
23	screening. The screening teams and contracted entities shall use the reimbursement and			
24	tracking mechanisms established by the department.			
25	3. The Department of Medical Assistance Services shall promulgate regulations to implement			
26	these provisions to be effective within 280 days of its enactment. The department may			
27	implement any changes necessary to implement these provisions prior to the promulgation of			
28	regulations undertaken in order to effect such changes.			
29	XX.1.a. There is hereby appropriated sum-sufficient nongeneral funds for the Department of			
30	Medical Assistance Services (DMAS) to pay the state share of supplemental payments for			
31	qualifying private hospital partners of Type One hospitals (consisting of state-owned teaching			
32	hospitals) as provided in the State Plan for Medical Assistance Services. Qualifying private			
33	hospitals shall consist of any hospital currently enrolled as a Virginia Medicaid provider and			
34	owned or operated by a private entity in which a Type One hospital has a non-majority			
35	interest. The supplemental payments shall be based upon the reimbursement methodology			
36	established for such payments in Attachments 4.19-A and 4.19-B of the State Plan for			
37	Medical Assistance Services. DMAS shall enter into a transfer agreement with any Type One			
38	hospital whose private hospital partner qualifies for such supplemental payments, under			
39	which the Type One hospital shall provide the state share in order to match federal Medicaid			
40	funds for the supplemental payments to the private hospital partner. The department shall			
41	have the authority to implement these reimbursement changes consistent with the effective			
42	date in the State Plan amendment approved by the Centers for Medicare and Medicaid			
43	Services (CMS) and prior to completion of any regulatory process in order to effect such			
44	changes.			
45	b. The department shall adjust capitation payments to Medicaid managed care organizations			
46	for the purpose of securing access to Medicaid hospital services for the qualifying private			
47	hospital partners of Type One hospitals (consisting of state-owned teaching hospitals). The			
48	department shall revise its contracts with managed care organizations to incorporate these			
49	supplemental capitation payments and provider payment requirements. DMAS shall enter into			
50	a transfer agreement with any Type One hospital whose private hospital partner qualifies for			
51	such supplemental payments, under which the Type One hospital shall provide the state share			
52	in order to match federal Medicaid funds for the supplemental payments to the private			
53	hospital partner. The department shall have the authority to implement these reimbursement			
54	changes consistent with the effective date approved by the Centers for Medicare and Medicaid			
55	Services (CMS). No payment shall be made without approval from CMS.			
56	2.a. The Department of Medical Assistance Services shall promulgate regulations to make			
57	supplemental payments to Medicaid physician providers with a medical school located in			

ITEM 303.	Item Details(\$)		Appropriations(\$)	
	First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020
1	Eastern Virginia that is a political subdivision of the Commonwealth. The amount of the			
2	supplemental payment shall be based on the difference between the average commercial			
3	rate approved by CMS and the payments otherwise made to physicians. The department			
4	shall have the authority to implement these reimbursement changes consistent with the			
5	effective date in the State Plan amendment approved by CMS and prior to completion of			
6	any regulatory process in order to effect such changes.			
7	b. The department shall increase payments to Medicaid managed care organizations for			
8	the purpose of securing access to Medicaid physician services in Eastern Virginia, through			
9	higher rates to physicians affiliated with a medical school located in Eastern Virginia that			
10	is a political subdivision of the Commonwealth subject to applicable limits. The			
11	department shall revise its contracts with managed care organizations to incorporate these			
12	supplemental capitation payments, and provider payment requirements, subject to			
13	approval by CMS. No payment shall be made without approval from CMS.			
14	c. Funding for the state share for these Medicaid payments is authorized in Item 244.			
15	3.a. The Department of Medical Assistance Services (DMAS) shall have the authority to			
16	amend the State Plan for Medical Assistance Services (State Plan) to implement a			
17	supplemental Medicaid payment for local government-owned nursing homes. The total			
18	supplemental Medicaid payment for local government-owned nursing homes shall be			
19	based on the difference between the Upper Payment Limit of 42 CFR §447.272 as			
20	approved by CMS and all other Medicaid payments subject to such limit made to such			
21	nursing homes. There is hereby appropriated sum-sufficient funds for DMAS to pay the			
22	state share of the supplemental Medicaid payment hereunder. However, DMAS shall not			
23	submit such State Plan amendment to CMS until it has entered into an intergovernmental			
24	agreement with eligible local government-owned nursing homes or the local government			
25	itself which requires them to transfer funds to DMAS for use as the state share for the			
26	supplemental Medicaid payment each nursing home is entitled to and to represent that			
27	each has the authority to transfer funds to DMAS and that the funds used will comply with			
28	federal law for use as the state share for the supplemental Medicaid payment. If a local			
29	government-owned nursing home or the local government itself is unable to comply with			
30	the intergovernmental agreement, DMAS shall have the authority to modify the State			
31	Plan. The department shall have the authority to implement the reimbursement change			
32	consistent with the effective date in the State Plan amendment approved by CMS and prior			
33	to the completion of any regulatory process undertaken in order to effect such change.			
34	b. If by June 30, 2017, the Department of Medical Assistance Services has not secured			
35	approval from the Centers for Medicare and Medicaid Services to use a minimum fee

5	C.1. Out of this appropriation, \$473,844 the first year and \$473,844 the second year from				
6	the general fund and \$781,791 the first year and \$781,791 the second year from				
7	nongeneral funds shall be provided to support the statewide 2-1-1 Information and				
8	Referral System which provides resource and referral information on many of the

10	child day care availability and providers in localities throughout the state, and publish				
11	consumer-oriented materials for those interested in learning the location of child day care				
12	providers.				
13	2. The Department of Social Services shall request that all state and local child-serving				
14	agencies within the Commonwealth be included in the Virginia Statewide Information and				
15	Referral System as well as any agency or entity that receives state general fund dollars and				
16	provides services to families and youth. The Secretary of Health and Human Resources,				
17	the Secretary of Education and Workforce, and the Secretary of Public Safety and				
18	Homeland Security shall assist in this effort by requesting all affected agencies within				
19	their secretariats to submit information to the statewide Information and Referral System				
20	and ensure that such information is accurate and updated annually. Agencies shall also				
21	notify the Virginia Information and Referral System of any changes in services that may				
22	occur throughout the year.				
23	3. The Department of Social Services shall communicate with child-serving agencies				
24	within the Commonwealth about the availability of the statewide Information and Referral				
25	System. This information shall also be communicated via the Department of Social				
26	Services' broadcast system on their agency-wide Intranet so that all local and regional				
27	offices can be better informed about the Statewide Information and Referral System.				
28	Information on the Statewide Information and Referral System shall also be included				
29	within the department's electronic mailings to all local and regional offices at least				
30	biannually.				
31	D.1. Within 30 days of awarding or amending any contract related to the Virginia Case				
32	Management System (VaCMS), the Department of Social Services (DSS) shall provide				
33	the Chairmen of the House Appropriations and Senate Finance Committees, and Director,				
34	Department of Planning and Budget with a copy of the contract, including any fiscal				
35	implications.				
36	2. Prior to the award of any contract that will potentially obligate the Commonwealth to				
37	future unappropriated spending, the department shall receive prior written concurrence				
38	from Director, Department of Planning and Budget. Any approved increases in funding				
39	requests shall be reported by DSS to the Chairmen of House Appropriations and Senate

1	the locality.				
2	B. However, no such repayments may be required of the locality if the department determines				
3	that such overpayment or payments to ineligibles resulted from the promulgation of vague or				
4	conflicting regulations by the department or from the failure of the department to make timely				
5	distribution to the localities of the statutes, rules, regulations, and policy decisions, causing				
6	the overpayment or payment to ineligible(s) to be made by the locality or from situations				
7	where a locality exercised due diligence, yet received incomplete or incorrect information				
8	from the client which caused the overpayment or payment to ineligibles. If a locality fails to				
9	effect the return, the Department of Social Services shall withhold an equal amount from the				
10	next disbursement made by the department to the locality for the same program.				
11	C. The Department of Social Services shall implement the guidance issued by the U.S.

16	47,323 (August 8, 2003). At a minimum, the department shall (i) identify the need for				
17	language assistance by analyzing the following factors: (1) the number or proportion of LEP				
18	persons in the eligible service population, (2) the frequency of contact with such persons, (3)				
19	the nature and importance of the program, activity or service, and (4) the costs of providing				
20	language assistance and resources available; (ii) translate vital documents into the language of				
21	each frequently encountered LEP group eligible to be served; (iii) provide accurate and timely				
22	oral interpreter services; and (iv) develop an effective implementation plan to address the

24	350. A. The amount for the Supplemental Nutrition Assistance Program (SNAP) shall be expended				
25	under regulations of the Board of Social Services to reimburse county and city welfare/social				
26	services boards pursuant to § 63.2-401, Code of Virginia, and subject to the same percentage				
27	limitations for other administrative services performed by county and city public				
28	welfare/social services boards and superintendents of public welfare/social services pursuant				
29	to other provisions of the Code of Virginia, as amended.				
30	B. Pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996,				
31	Public Law 104-193, the Department of Social Services shall, in cooperation with local				
32	departments of social services, maintain a waiver of the work requirement for Supplemental				
33	Nutrition Assistance Program (SNAP) recipients residing in areas that do not have a sufficient				
34	number of jobs to provide employment for such individuals, including those areas designated				
35	as labor surplus areas by the U.S. Department of Labor.				
36	C. To the extent permitted by federal law, Supplemental Nutrition Assistance Program				
37	(SNAP) recipients subject to a work requirement pursuant to § 824 of the Personal				
38	Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, as				
39	amended, shall be permitted to satisfy such work requirement by providing volunteer services				
40	to a public or private, nonprofit agency for the number of hours per month determined by				
41	dividing the household's monthly SNAP allotment by the federal minimum wage.				
42	D. The Department of Social Services shall, to the extent permitted by federal law, disregard				
43	the value of at least one motor vehicle per household in determining eligibility for the				
44	Supplemental Nutrition Assistance Program (SNAP).				
45	E. The Department of Social Services shall develop a multi-lingual outreach campaign to				
46	inform qualified aliens and their children, who are United States citizens, of their eligibility				
47	for the federal Supplemental Nutrition Assistance Program (SNAP) and ensure that they have				
48	access to benefits under SNAP. To the extent permitted by federal law, the department shall

32	completed vocational training as food service managers through programs operated by the					
33	Department be considered for food service management position openings within the					
34	Commonwealth as they arise.					
35	B. 1. The annual federal vocational rehabilitation grant award that will be received by the					
36	Department for the Blind and Vision Impaired (DBVI) is estimated at \$11,442,719 for federal					
37	fiscal year 2018; \$11,442,719 for federal fiscal year 2019; and \$11,442,719 for federal fiscal					
38	year 2020. In addition to the base annual award amount, DBVI may request up to \$1,500,000					
39	of additional federal reallocation dollars in each of these years. Assuming these amounts, the					
40	annual 21.3 percent state matching requirement would equate to \$3,632,832 for federal fiscal					
41	year 2018; \$3,632,832 for federal fiscal year 2019; and \$3,632,832 for federal fiscal year					
42	2020.					
43	2. Based on the projection of federal award funding in paragraph A.2., DBVI shall not request					
44	federal vocational rehabilitation grant dollars in excess of \$12,942,719 for federal fiscal year					
45	2018; \$12,942,719 for federal fiscal year 2019; and \$12,942,719 for federal fiscal year 2020,					
46	without prior written concurrence from the Director, Department of Planning and Budget.					
47	Any approved increases in grant award requests shall be reported by DARS to the Chairmen

6		Authority: Title 9.1, Chapter 1, Article 8, Code of Virginia.				
7		A. The funds appropriated in this Item shall be distributed to localities with qualifying police				
8		departments, as defined in §§ 9.1-165 through 9.1-172, Code of Virginia (HB 599), except				
9		that, in accordance with the requirements of § 15.2-1302, Code of Virginia, such funds shall				
10		also be distributed to a city without a qualifying police force that was created by the				
11		consolidation of a city and a county subsequent to July 1, 2011, pursuant to the provisions of

26		C.1. It is the intent of the General Assembly that state funding provided to localities operating				
27		police departments be used to fund local public safety services. Funds provided in this item				
28		shall not be used to supplant the funding provided by localities for public safety services.				
29		2. To ensure that state funding provided to localities operating police departments does not				
30		supplant local funding for public safety services, all localities shall annually certify to the				
31		Department of Criminal Justice Services the amount of funding provided by the locality to				
32		support public safety services and that the funding provided in this item was used to				
33		supplement that local funding. This certification shall be provided in such manner and on such

7	October 1 of the fiscal year following the fiscal year in which they were received, or a			
8	similar amount may be withheld from the current fiscal year's periodic payments			
9	designated by the department for that locality. The Director, Department of Planning and			
10	Budget, may increase the general fund appropriation for this Item up to the amount of			
11	unobligated VJCCCA funds returned to the Department of Juvenile Justice.			
12	b. All such unobligated and reappropriated balances shall be used by the department for

32	juvenile offender demographics. The consolidated annual report shall address the progress			
33	of Virginia Juvenile Community Crime Control Act programs including the requirements			
34	in Article 12.1 of Chapter 11 of Title 16.1 (§ 16.1-309.2 et seq.) relating to the number of			
35	juveniles served, the average cost for residential and nonresidential services, the number			
36	of employees, and descriptions of the contracts entered into by localities. Notwithstanding			
37	any other provisions of the Code of Virginia, the consolidated report shall be submitted to

	First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020	
1	Authority: §§ 16.1-278.8, 16.1-285.1, 66-13, 66-16, 66-18, 66-19, 66-22 and 66-25.1, Code of				
2	Virginia.				
3	A. The Department of Juvenile Justice shall retain all funds paid for the support of children				
4	committed to the department to be used for the security, care, and treatment of said children.				
5	B.1. The Director, Department of Juvenile Justice, (the “Department”) shall develop a				
6	transformation plan to provide more effective and efficient services for juveniles, using data-				
7	based decision-making, that improves outcomes and safely reduces the number of juveniles				
8	housed in state-operated juvenile correctional centers, consistent with public safety. To				
9	accomplish these objectives, the Department will provide, when appropriate, alternative				
10	placements and services for juveniles committed to the Department that offer treatment,				
11	supervision and programs that meet the levels of risk and need, as identified by the				
12	Department's risk and needs assessment instruments, for each juvenile placed in such				
13	placements or programs. Prior to implementation, the plan shall be approved by the Secretary				
14	of Public Safety and Homeland Security.				
15	2. The Department shall reallocate any savings from the reduced cost of operating state				
16	juvenile correctional centers to support the goals of the transformation plan including, but not				
17	limited to: (a) increasing the number of male and female local placement options, and post-				
18	dispositional treatment programs and services; (b) ensuring that appropriate placements and				
19	treatment programs are available across all regions of the Commonwealth; and (c) providing				
20	appropriate levels of educational, career readiness, rehabilitative, and mental health services				
21	for these juveniles in state, regional, or local programs and facilities, including but not limited				
22	to, community placement programs, independent living programs, and group homes. The				
23	goals of such transformation services shall be to reduce the risks for reoffending for juveniles				
24	supervised or committed to the Department and to improve and promote the skills and				
25	resiliencies necessary for the juveniles to lead successful lives in their communities.				
26	3. No later than November 1 of each year, the Department of Juvenile Justice shall provide a				
27	report to the Governor, the Chairmen of the House Appropriations and Senate Finance				
28	Committees, the Secretary of Public Safety and Homeland Security and the Director,				
29	Department of Planning and Budget, assessing the impact and results of the transformation				
30	plan and its related actions. The report shall include, but is not limited to, assessing juvenile				
31	offender recidivism rates, fiscal and operational impact on detention homes; changes (if any)				
32	in commitment orders by the courts; and use of the savings redirected as a result of				
33	transformation, including the amount expended for contracted programs and treatment				
34	services, including the number of juveniles receiving each specific service. The report should				
35	also include the average length of stay for juveniles in each placement option.				
36	4. The Director, Department of Planning and Budget, is authorized to transfer appropriations				
37	between items and programs within the Department of Juvenile Justice to reallocate any				
38	savings achieved through transformation to accomplish the goals of transformation.				
39	5. If the Department of Juvenile Justice deems it necessary, due to facility population decline,				
40	efficient use of resources, and the need to further reduce recidivism, to close a state juvenile				
41	correctional center, the Department shall (i) work cooperatively with the affected localities to				
42	minimize the effect of the closure on those communities and their residents, and (ii)				
43	implement a general closure plan, preferably not less than 12 months from announcement of

6	Authority: Title 2.2, Chapter 2, Article 10, § 2.2-201, and Titles 33, 46, and 58, Code of			
7	Virginia.			
8	A. The transportation policy goals enumerated in this act shall be implemented by the			
9	Secretary of Transportation, including the Secretary acting as Chairman of the			
10	Commonwealth Transportation Board.			
11	1. The maintenance of existing transportation assets to ensure the safety of the public shall			
12	be the first priority in budgeting, allocation, and spending. The highway share of the			
13	Transportation Trust Fund shall be used for highway maintenance and operation purposes			
14	prior to its availability for new development, acquisition, and construction.			
15	2. It is in the interest of the Commonwealth to have an efficient and cost-effective			
16	transportation system that promotes economic development and all modes of			
17	transportation, intermodal connectivity, environmental quality, accessibility for people and			
18	freight, and transportation safety. The planning, development, construction, and operations			
19	of Virginia's transportation facilities will reflect this goal.			
20	3. To the greatest extent possible, the appropriation of transportation revenues shall reflect			
21	planned spending of such revenues by agency and by program.			
22	B. The maximization of all federal transportation funds available to the Commonwealth			
23	shall be paramount in the budgetary, spending, and allocation processes.			
24	1. Notwithstanding any provision of law to the contrary, the secretary and all agencies			
25	within the transportation secretariat are hereby authorized to take all actions necessary to			
26	ensure that federal transportation funds are allocated and utilized for the maximum benefit			
27	of the Commonwealth, whether such actions or funds or both are authorized under P.L.			
28	114-94 of the 114th Congress, or any successor or related federal transportation			
29	legislation, or regulation, rule, or guidance issued by the U.S. Department of			
30	Transportation or any federal agency. The secretary and agencies within the transportation			
31	secretariat shall utilize, to the maximum extent practicable, the flexibility provided in			
32	federal law, regulation, rule, or guidance to use federal funds in a manner consistent with			
33	the Code of Virginia. However, neither the Secretary <i>nor</i> an agency in the transportation			
34	secretariat may materially delay a project selected pursuant to § 33.2-214.1, Code of			
35	Virginia, under the authority in this paragraph.			
36	2. The secretary shall ensure that the allocation of transportation funds apportioned and for			
37	which obligation authority is expected to be available under federal law shall be in			
38	accordance with such laws and in support of the transportation policy goals enumerated in			
39	section A. of this Item. Furthermore, the secretary is authorized to take all actions			
40	necessary to allocate the required match for federal highway funds to ensure their			
41	appropriate and timely obligation and expenditure within the fiscal constraints of state			
42	transportation revenues and in support of the efforts addressed in B.1. By June 1 of each			
43	year, the secretary, as Chairman of the Board, shall report to the Governor and General			
44	Assembly on the allocation of such federal transportation funds and the actions taken to			
45	provide the required match.			
46	3. The board shall only make allocations providing the required match for federal			
47	Regional Surface Transportation Block Grant Program funds to those Metropolitan			
48	Planning Organizations in urbanized areas greater than 200,000 that, in consultation with			
49	the Office of Intermodal Planning and Investment, have developed regional transportation			
50	and land use performance measures pursuant to Chapters 670 and 690 of the 2009 Acts of			
51	Assembly and have been approved by the board.

4	months of such obligation. If the requirements included in this paragraph are not met by such			
5	agency or recipient, then the board shall use such federal funds for any other project eligible			
6	under 23 USC 149.			
7	5. Funds apportioned under federal law for the Surface Transportation Block Grant Program			
8	shall be distributed and administered in accordance with federal requirements, including the

13	6. Funds made available to the Metropolitan Planning Organizations known as the Regional			
14	Surface Transportation Block Grant Program for urbanized areas greater than 200,000 shall be			
15	federally obligated within 12 months of their allocation by the board and expended within 36

17	recipient, then the board may rescind the required match for such federal funds.			
18	7. Notwithstanding paragraph B.2. of this Item, the required matching funds for			
19	Transportation Alternatives projects are to be provided by the project sponsor of the federal-			
20	aid funding.			
21	8. Federal transportation funds as well as the required state matching funds may be allocated			
22	by the Commonwealth Transportation Board for transit purposes under the same rules and			
23	conditions authorized by federal law in a manner consistent with the Code of Virginia. The			
24	Commonwealth Transportation Board, in consultation with the appropriate local and regional			
25	entities, may allocate state revenues to local and regional public transit operators, for			
26	operating and/or capital purposes.			
27	9. If a regional area (or areas) of the Commonwealth is determined to be not in compliance			
28	with Clean Air Act rules regarding conformity and as a result federal and/or state allocations,

30	programs in that area, such funds may be used to finance demand management, conformity,			
31	and congestion mitigation projects to the extent allowed by federal law. Any remaining			
32	amount of such allocations, apportionments, or obligations shall be set aside to the extent			
33	possible under law for use in that regional area.			
34	10. Appropriations in this act related to federal revenues outlined in this section may be			
35	adjusted by the Director, Department of Planning and Budget, upon request from the			
36	Secretary of Transportation, as needed to utilize and allocate additional federal funds that may			
37	become available.			
38	11. The secretary shall ensure that any bonds issued pursuant to Article 4, Chapter 15 of Title			
39	33.2 shall be programmed to eligible projects selected and funded through the High Priority			
40	Projects Program pursuant § 33.2-370 or the Construction District Grant Program pursuant to			
41	§33.2-371. In any year such bond proceeds are allocated to one or both of the programs, the			
42	secretary shall take all necessary action to ensure that each program is provided with the same			
43	overall amount of monies though the mix of bond proceeds, state revenues, and federal			
44	revenues provided to each program may vary as deemed appropriate by the secretary.			
45	C. The secretary may ensure that appropriate action is taken to maintain a minimum cash			
46	balance and/or cash reserve in the Highway Maintenance and Operating Fund.			
47	D.1. The Office of Intermodal Planning and Investment shall recommend to the			
48	Commonwealth Transportation Board all allocations of funds made available in subsections			
49	A. and B. of Item 449. The planning and evaluation may be conducted or managed by the			
50	Department of Transportation, Department of Rail and Public Transportation, or another			
51	qualified entity selected and/or approved by the Commonwealth Transportation Board.			
52	2. The office shall be responsible for implementing the statewide prioritization process			
53	pursuant to § 33.2-214.1 for the Commonwealth Transportation Board.

11	transit agencies and other appropriate entities to develop plans for transit oriented			
12	development and the expansion of transit service. Such analyses, plans, and ordinances

27	programs within the localities authorized to impose the fees under the provisions of §			
28	58.1-3221.3, Code of Virginia.			
29	G. The Director, Department of Planning and Budget, is authorized to adjust the

31	Commonwealth of Virginia Transportation Capital Projects Revenue Bonds which were			
32	authorized in the prior fiscal year but not issued, pursuant to Section 2 of Enactment			
33	Clause 2 of Chapter 896 of the 2007 General Assembly Session.			
34	H. The Director, Department of Planning and Budget, is authorized to adjust the			
35	appropriation of transportation agencies in order to utilize proceeds from the sale of			
36	Commonwealth of Virginia Federal Transportation Grant Anticipation Revenue Notes.			
37	I. In programming funds for the reconstruction and rehabilitation of structurally deficient			
38	bridges pursuant to § 33.2-358 C.(i), Code of Virginia, the Commonwealth Transportation			
39	Board shall consider both state and locally-owned bridges.

ITEM 445.	Item Details(\$)		Appropriations(\$)	
	First Year FY2019	Second Year FY2020	First Year FY2019	Second Year FY2020
1	Transportation Board may allocate funding from the Commonwealth Mass Transit Fund to			
2	implement the transit and transportation demand management improvements identified for			
3	the I-95 corridor. Such costs shall include only direct transit capital and operating costs as			
4	well as transportation demand management activities. Costs associated with additional			
5	park and ride lots required to be funded by the Commonwealth under the provisions of the			
6	Comprehensive Agreement for the Interstate 95 High Occupancy Toll Lanes project shall			
7	be borne by the Department of Transportation as set out in Item 450 of this act.			
8	2. Included in this item is \$1,500,000 the first year and \$1,500,000 the second year from			
9	the Commonwealth Mass Transit Trust Fund. These allocations are designated for			
10	"paratransit" capital projects and enhanced transportation services for the elderly and			
11	disabled.			
12	3. Included in this item is an amount estimated at \$1,200,000 the first year and \$1,200,000			
13	the second year from the Commonwealth Mass Transit Trust Fund. These allocations are			
14	designated for federally mandated state safety oversight of fixed rail guideway transit			
15	agencies located in the Commonwealth.			
16	4. a. From the amounts appropriated in this item from the Commonwealth Mass Transit			
17	Fund, \$8,800,000 the first year and \$8,801,000 the second year is the estimated allocation			
18	to statewide Special Programs as provided in § 33.2-1526.1, Code of Virginia.			
19	b. From the amounts provided for Special Programs, the Commonwealth Transportation			
20	Board shall operate a program entitled the Transportation Efficiency Improvement Fund			
21	(TEIF). The purpose of the TEIF program is to reduce traffic congestion by supporting			
22	transportation demand management programs and projects designed to reduce the			
23	movement of passengers and freight on Virginia's highway system.			
24	5. The amount allocated for public transportation purposes according to Item 433 B. 5. is			
25	an amount estimated at \$25,583,000 the first year and \$25,583,000 the second year from			
26	federal sources for the Surface Transportation Block Grant (STBG) program.			
27	B. Funds from a stable and reliable source, as required in Public Law 96-184, as amended,			
28	are to be provided to Metro from payments authorized and allocated in this program and			
29	pursuant to §§ 58.1-1720 and 58.1-2295, Code of Virginia. Notwithstanding any other			
30	provision of law, funds allocated to Metro under this program may be disbursed by the			
31	Department of Rail and Public Transportation directly to Metro or to any other			
32	transportation entity that has an agreement to provide funding to Metro as deemed			
33	appropriate by the Department. In appointing the Virginia members of the board of			
34	directors of the Washington Metropolitan Area Transit Authority (WMATA), the			
35	Northern Virginia Transportation Commission shall include the Secretary of			
36	Transportation or his designee as a principal member on the WMATA board of directors.			
37	C. All Commonwealth Mass Transit Funds appropriated for Financial Assistance for			
38	Public Transportation shall be used only for public transportation purposes as defined by			
39	the Federal Transit Administration or outlined in § 58.1-638 A.4. or in § 33.2-156.1, Code			
40	of Virginia.			
41	D. It is the intent of the General Assembly that no transit operating assistance funding, as			
42	provided in A.1.a. of this item, be used to support any new transit system or route at a			
43	level higher than such project would be eligible for under the allocation formula set out in			
44	§ 33.2-1526.1 C. 1., Code of Virginia, beyond the first two years of its operation.			
45	E. The Director, Department of Planning and Budget, is hereby authorized, upon request			
46	by the Secretary of Transportation, to transfer an amount not to exceed \$6,214,575 in the			
47	first year and \$6,214,575 in the second year from the amounts appropriated in Item 450 of			
48	this act to the Department of Rail and Public Transportation. Such transfers shall be			
49	considered loans, and are intended to hold harmless transit agencies that operate in the			
50	Commonwealth that receive urbanized transit funds pursuant to 49 U.S.C 5307 whose			
51	funds have been withheld by the Federal Transit Administration until the certification of			
52	the Metro Safety Commission by the Federal Transit Administration. The Department			
53	may disburse, subject to appropriate repayment terms, such funds to affected transit			
54	agencies in an amount not to exceed the funds withheld by the Federal Transit			
55	Administration. To the extent repayment is not made as required by the agreement

2	withhold the payment amount due from funds provided to such transit agency pursuant to				
3	§58.1-638 A. 4. b. 1. of the Code of Virginia in order to return such amounts to the				
4	Department of Transportation. However, no funds from such loan shall be disbursed to any				
5	transit agency until such agency has expended all funds available for their use from federal				
6	fiscal year 2016. The specific terms and structure of any loan shall be approved by the				
7	Secretary of Transportation, upon consultation with the Chairmen of the House				
8	Appropriations and Senate Finance Committees, or their designees.				
9	F.1. The Department of Rail and Public Transportation, in conjunction with the Department of				
10	Treasury and the Department of General Services shall investigate options to develop a				
11	program for the financing of statewide transit capital needs using the Master Equipment				
12	Leasing Program currently operated through the Department of the Treasury as a model to				
13	facilitate group purchases of mass transit equipment. The goal of the program would be				
14	twofold: (i) to achieve cost savings through bulk purchases and (ii) to establish a revolving				
15	fund to meet transit capital replacement needs that does not rely on the use of longer-term				
16	debt for items with a limited life cycle.				
17	2. As part of this effort, the department shall convene a work group that includes				
18	representatives from the Northern Virginia, Rappahannock and Potomac, and Hampton Roads				
19	Transportation District Commissions, at least one transit property that is not a member of a				
20	Transportation District Commission, the Virginia Municipal League and the Virginia				
21	Association of Counties. The work group shall utilize the Report of the Transit Capital				
22	Revenue Advisory Board findings relating to state of good repair needs to develop and				
23	estimate of the amount of transit capital funding needed annually and shall also identify				
24	potential sources within the Transportation Trust Fund that could be used to provide lease				
25	payments for the program.				
26	3. The Director of the Department of Rail and Public Transportation shall submit a report on				
27	the proposed program, including legal requirements, terms, rates and operational structure to				
28	the Governor, the Chairman of the House Appropriations Committee and the Senate Finance				
29	Committee by November 1, 2018.				
30	<i>G. The Commonwealth Transportation Board may allocate supplemental operating funds in</i>				
31	<i>fiscal year 2020 to any transit provider that receives funds to support operating costs</i>				
32	<i>pursuant to § 33.2-1526.1 C. 1., and that is negatively impacted by a loss of operating funds</i>				
33	<i>as a direct result of the performance-based allocation process set forth in Chapter 854 of the</i>				
34	<i>Acts of Assembly of 2018. The maximum amount of supplemental operating funds available</i>				
35	<i>pursuant to this authorization shall not exceed \$3,000,000 from the nongeneral fund amounts</i>

14	D. Because of the overwhelming need for the delivery of services provided by the				
15	investment in a balanced transportation system in the Commonwealth, and in an effort to				
16	deliver intercity passenger trains utilizing the Commonwealth's investments and to				
17	increase passenger train frequencies to Norfolk and Roanoke, notwithstanding the				
18	provisions of § 33.2-1601 and § 33.2-1603, Code of Virginia, the Commonwealth				
19	Transportation Board may only make further investments in intercity passenger rail

21	Plan adopted pursuant to § 33.2-214, Code of Virginia includes sufficient funding to				
22	complete projects underway to deliver train capacity improvements and provides the				
23	funding for service for additional passenger rail frequency to Norfolk and an extension of

9	A. 1. Out of this appropriation, up to \$500,000 in the first year and up to \$500,000 in the				
10	second year from the general fund shall be provided to address the costs associated with				
11	support of a grant program to create employment opportunities for veterans by assisting				
12	Virginia employers in hiring and retaining veterans. The Department of Veterans Services				
13	shall develop program guidelines to ensure that the funding mechanism effectively attracts				
14	maximum participation of firms to increase the number of veterans hired.				
15	2. Such funds shall be used to provide grants beginning July 1, 2015, to any business located				
16	in Virginia with 300 or fewer employees which has hired a veteran on or after July 1, 2014,				
17	with the following additional requirements: (a) each such veteran shall have been hired within				
18	five years of the date of his or her discharge from active military service and (b) each such				
19	veteran shall have been continuously employed by the business in a full-time job for at least				
20	one year. The grant shall equal \$1,000 per qualifying business for each veteran who has been				
21	hired, and who qualifies under the provisions of this item, up to a maximum grant of \$10,000				
22	per business in the fiscal year.				
23	3. Grants shall be issued in the order that each completed eligible application is received. In				
24	the event that the amount of eligible grants requested in a fiscal year exceeds the funds				
25	available in the Fund, such grants shall be paid in the next fiscal year in which funds are				
26	available.				
27	4. The Department shall report no later than October 1 of each fiscal year after the program is				
28	implemented on the demand for the program, and any shortage of funding resulting from				
29	requests in excess of the available appropriation.				
30	B. Any general fund appropriation for the Virginia Veteran and Family Support Services				
31	service area which remains unexpended at the end of the first year shall be reappropriated and				
32	allotted for expenditure for the second year.				
33	C.1. Notwithstanding § 23.1-608, Code of Virginia, the department shall provide the State				
34	Council of Higher Education in Virginia the information these schools need to administer the				
35	Virginia Military Survivors and Dependent Education Program. The department shall retain				
36	the responsibility to certify the eligibility of those who apply for financial aid under this				
37	program.				
38	2. No surviving spouse or child may receive the education benefits provided by § 23.1-608,				
39	Code of Virginia, and funded by this or similar state appropriations, for more than four years

41	D. For the Virginia Values Veterans Program, the Department is hereby directed to measure				
42	(i) the program's specific effect on employers' knowledge of how to appropriately recruit and				
43	retain veterans as civilian sector employees, (ii) the program's specific effect on employers'				
44	decisions to hire more veterans than if employers did not participate in the program, and (iii)				
45	the time and effort required by employers to participate in the program. The Department shall				
46	also develop a plan to improve the effect of the Virginia Values Veterans Program on				
47	employer knowledge and hiring decisions, and reduce the time and effort required of				
48	participating employers. The plan should evaluate whether improvements should be made to				
49	the program, or whether program resources could be more effectively used by other programs				
50	to help veterans. If it is determined that program improvements should be made, the plan shall				
51	define those specific changes to the program, as well as the roles, responsibilities, and costs to				
52	both Department staff and contractors in implementing any such recommended changes. The				
53	Department shall provide its assessment and recommended plan to the Chairmen of the House

43	Assembly's intent that any savings associated with this employee health care initiative be			
44	retained and used towards funding state employee salary or fringe benefit cost increases.			
45	4. Notwithstanding any other provision of law, it shall be the sole responsibility and authority			
46	of the Department of Human Resource Management to establish and enforce employer			
47	contribution rates for any health insurance plan established pursuant to §2.2-2818, Code of

3	last transitional severance benefit payment is made.			
4	d. For twelve months after the employee's date of involuntary separation, the employee			
5	shall continue to be covered under the (i) health insurance plan administered by the			
6	employer for its employees, if he participated in such plan prior to his date of involuntary

15	by the employer during the time he is receiving such payments.			
16	f. All transitional severance benefits payable pursuant to this section shall be subject to			
17	applicable federal laws and regulations.			
18	4.a. In lieu of the transitional severance benefit provided in subparagraph 3 of this			
19	paragraph, any otherwise eligible employee who, on the date of involuntary separation, is			
20	also (i) a vested member of a defined benefit plan within the Virginia Retirement System,			
21	including the hybrid retirement program described in § 51.1-169, and including a member			
22	eligible for the benefits described in subsection B of § 51.1-138, and (ii) at least fifty years			
23	of age, may elect to have the employer purchase on his behalf years to be credited to either			
24	his age or creditable service or a combination of age and creditable service, except that

29	equal to fifteen percent of the employee's present annual compensation. The number of			
30	years of age or creditable service to be purchased by the employer shall be equal to the			
31	quotient obtained by dividing (i) the cash value of the benefits to which the employee			
32	would be entitled under subparagraphs 3.a. and 3.d. of this paragraph by (ii) the cost of			
33	each year of age or creditable service. Partial years shall be rounded up to the next highest			
34	year. Deferred retirement under the provisions of subsection C of §§ 51.1-153 and			
35	disability retirement under the provisions of § 51.1-156 et seq., shall not be available			
36	under this paragraph.			
37	b. In lieu of the (i) transitional severance benefit provided in subparagraph 3 of this			
38	paragraph and (ii) the retirement program provided in this subsection, any employee who			
39	is otherwise eligible may take immediate retirement pursuant to §§ 51.1-155.1 or 51.1-			
40	155.2.			
41	c. The retirement allowance for any employee electing to retire under this paragraph who,			
42	by adding years to his age, is between ages fifty-five and sixty-five, shall be reduced on			
43	the actuarial basis provided in subdivision A. 2. of § 51.1-155.			
44	d. The retirement program provided in this subparagraph shall be otherwise governed by			
45	policies and procedures developed by the Virginia Retirement System.			
46	e. Costs associated with the provisions of this subparagraph shall be factored into the			
47	employer contribution rates paid to the Virginia Retirement System.			
48	f. Notwithstanding the foregoing, the provisions of this paragraph N shall apply to an			
49	otherwise eligible employee who is a person who becomes a member on or after July 1,

1 PART 2: CAPITAL PROJECT EXPENSES

2 § 2-0. GENERAL CONDITIONS

- 3** A.1. The General Assembly hereby authorizes the capital projects listed in this act. The amounts hereinafter set forth are appropriated
4 to the state agencies named for the indicated capital projects. Amounts so appropriated and amounts reappropriated pursuant to
5 paragraph G of this section shall be available for expenditure during the current biennium, subject to the conditions controlling the
6 expenditures of capital project funds as provided by law. Reappropriated amounts, unless otherwise stated, are limited to the
7 unexpended appropriation balances at the close of the previous biennium, as shown by the records of the Department of Accounts.
- 8** 2. The Director, Department of Planning and Budget, may transfer appropriations listed in Part 2 of this act from the second year to the
9 first year in accordance with § 4-1.03 a 5 of this act.
- 10** B. The five-digit number following the title of a project is the code identification number assigned for the life of the project.
- 11** C. Except as herein otherwise expressly provided, appropriations or reappropriations for structures may be used for the purchase of
12 equipment to be used in the structures for which the funds are provided, subject to guidelines prescribed by the Governor.
- 13** D. Notwithstanding any other provisions of law, appropriations for capital projects shall be subject to the following:
- 14** 1. Appropriations or reappropriations of funds made pursuant to this act for planning of capital projects shall not constitute implied
15 approval of construction funds in a future biennium. Funds, other than the reappropriations referred to above, for the preparation of
16 capital project proposals must come from the affected agency's existing resources.
- 17** 2. No capital project for which appropriations for planning are contained in this act, nor any project for which appropriations for
18 planning have been previously approved, shall be considered for construction funds until preliminary plans and cost estimates are
19 reviewed by the Department of General Services. The purpose of this review is to avoid unnecessary expenditures for each project, in
20 the interest of assuring the overall cost of the project is reasonable in relation to the purpose intended, regardless of discrete design
21 choices.
- 22** E.1. Expenditures from Items in this act identified as "Maintenance Reserve" are to be made only for the maintenance of property,
23 plant, and equipment as defined in § 4-4.01c of this act to the extent that funds included in the appropriation to the agency for this
24 purpose in Part 1 of this act are insufficient.
- 25** 2. Agencies and institutions of higher education can expend up to \$2,000,000 for a single repair or project, and up to \$4,000,000 for a
26 roof replacement project, through the maintenance reserve appropriation. Such expenditures shall be subject to rules and regulations
27 prescribed by the Governor. To the extent an agency or institution of higher education has identified a potential project that exceeds
28 this threshold, the Director, Department of Planning and Budget, can provide exemptions to the threshold as long as the project still
29 meets the definition of a maintenance reserve project as defined by the Department of Planning and Budget.
- 30** 3. Only facilities supported wholly or in part by the general fund shall utilize general fund maintenance reserve appropriations.
31 Facilities supported entirely by nongeneral funds shall accomplish maintenance through the use of nongeneral funds.
- 32** F. Conditions Applicable to Bond Projects
- 33** 1. The capital projects listed in §§ 2-52 and 2-53 for the indicated agencies and institutions of higher education are hereby authorized
34 and sums from the sources and in the amount indicated are hereby appropriated and reappropriated. The issuance of bonds in a
35 principal amount plus amounts needed to fund issuance costs, reserve funds, and other financing expenses, including capitalized
36 interest for any project listed in §§ ~~2-53~~ 2-52 and ~~2-54~~ 2-53 is hereby authorized.
- 37** 2. The issuance of bonds for any project listed in § 2-52 is to be separately authorized pursuant to Article X, Section 9 (c), Constitution
38 of Virginia.
- 39** 3. The issuance of bonds for any project listed in §§ 2-52 or 2-53 shall be authorized pursuant to § [23.1-1106](#), Code of Virginia.
- 40** 4. In the event that the cost of any capital project listed in §§ 2-52 and 2-53 shall exceed the amount appropriated therefore, the
41 Director, Department of Planning and Budget, is hereby authorized, upon request of the affected institution, to approve an increase in
42 appropriation authority of not more than ten percent of the amount designated in §§ 2-52 and 2-53 for such project, from any available
43 nongeneral fund revenues, provided that such increase shall not constitute an increase in debt issuance authorization for such capital
44 project. Furthermore, the Director, Department of Planning and Budget, is hereby authorized to approve the expenditure of all interest
45 earnings derived from the investment of bond proceeds in addition to the amount designated in §§ 2-52 and 2-53 for such capital

- 1 5. The interest on bonds to be issued for these projects may be subject to inclusion in gross income for federal income tax purposes.
- 2 6. Inclusion of a project in this act does not imply a commitment of state funds for temporary construction financing. In the absence of
3 such commitment, the institution may be responsible for securing short-term financing and covering the costs from other sources of
4 funds.
- 5 7. In the event that the Treasury Board determines not to finance all or any portion of any project listed in § 2-52 of this act with the
6 issuance of bonds pursuant to Article X, Section 9 (c), Constitution of Virginia, and notwithstanding any provision of law to the
7 contrary, this act shall constitute the approval of the General Assembly to finance all or such portion of such project under the
8 authorization of § 2-53 of this act.
- 9 8. The General Assembly further declares and directs that, notwithstanding any other provision of law to the contrary, 50 percent of the
10 proceeds from the sale of surplus real property pursuant to § 2.2-1147 et seq., Code of Virginia, which pertain to the general fund, and
11 which were under the control of an institution of higher education prior to the sale, shall be deposited in a special fund set up on the
12 books of the State Comptroller, which shall be known as the Higher Education Capital Projects Fund. Such sums shall be held in
13 reserve, and may be used, upon appropriation, to pay debt service on bonds for the 21st Century College Program as authorized in Item
14 C-7.10 of Chapter 924 of the Acts of Assembly of 1997.
- 15 G. Upon certification by the Director, Department of Planning and Budget, there is hereby reappropriated the appropriations

- 17 1. Construction is in progress.
- 18 2. Equipment purchases have been authorized by the Governor but not received.
- 19 3. Plans and specifications have been authorized by the Governor but not completed.
- 20 4. Obligations were outstanding at the end of the previous biennium.

32	following streets 9th to the west, 10th to the east, Bank to the north, and Main to the south			
33	in the City of Richmond. This temporary move has resulted in the Commonwealth's			
34	legislative activities to be concentrated in an area requiring traffic and pedestrian			
35	operational safety and security enhancements. As such, and pursuant to the responsibilities			
36	of the Department of General Services (DGS) (§ 2.2-1129) and the Division of Capitol			
37	Police (DCP) (§ 30-34.2:1), Bank Street from 9th to 12th Street in the City of Richmond

39	operations are located, and conducted, in the Pocahontas Building. Vehicular travel			
40	limitations and pedestrian management needs on and along Bank Street shall be			
41	determined jointly by the DGS and the DCP during that time. These determinations will			
42	be based on the recommendations outlined in the Bank Street Safety and Security			
43	Assessment prepared by Commonwealth Architects dated February 15, 2017 (the			
44	Assessment). Funding for materials and contract services needed to address pedestrian and			
45	vehicle management activities are available to DGS from the Chapter referenced in this			
46	item.			
47	2. At no time, will DGS or DCP make permanent changes to Bank Street right-of-way			
48	(e.g. traffic control devices, security fixtures, street lighting, surface treatments) without			
49	the approval of the City of Richmond's Chief Administrative Officer. Additionally, at no			
50	time will the City prevent DGS and DCP from implementing and maintaining the			
51	recommendations outlined in the Assessment. Bank Street operations, as described in			
52	paragraph A, will remain under the control of DGS and DCP year-round until control of			
53	Bank Street I reverts to the City of Richmond upon the General Assembly, and its

47 ~~private acute care hospitals shall exclude public hospitals; freestanding psychiatric and rehabilitation hospitals; children's~~
48 ~~hospitals; long stay hospitals; long-term acute care hospitals and critical access hospitals.~~

51 ~~including the administrative costs of collecting the coverage assessment; and implementing and operating the coverage for~~
52 ~~newly eligible adults.~~

- 2: The Department of Medical Assistance Services (DMAS) shall calculate each hospital's "coverage assessment" annually by multiplying the "coverage assessment percentage" times "net patient service revenue" as defined below.
- 3: The "coverage assessment percentage" shall be calculated as (i) 1.08 times the non-federal share of the "full cost of expanded Medicaid coverage" for newly eligible individuals under the Patient Protection and Affordable Care Act (42 U.S.C. § 1396d(y)(1)[2010]) divided by (ii) the total "net patient service revenue" for hospitals subject to the assessment. By May 1 of each year, DMAS shall report the estimated assessment payments by hospital and all assessment percentage calculations for the upcoming fiscal year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees.
- 4: The "full cost of expanded Medicaid coverage" shall equal the amount estimated in the official Medicaid forecast due by November 1 of each year as required by paragraph A.1. of Item 307 of this Act. This Act estimates the non-federal share of the cost of coverage for FY 2019 as \$80,823,953 and FY 2020 as \$226,123,826.
- 5: Each hospital's "net patient service revenue" equals the amount reported in the most recent Virginia Health Information (VHI) "Hospital Detail Report" as of December 15 of each year. In the first year, net patient service revenue shall be prorated by the portion of the year subject to the tax.
- 6: Any estimated excess or shortfall of revenue from the previous year shall be deducted from or added to the "full cost of expanded Medicaid coverage" for the next year prior to the calculation of the "coverage assessment percentage."
- 7: DMAS shall be responsible for collecting the coverage assessment. Hospitals subject to the coverage assessment shall make quarterly payments to the department equal to 25 percent of the annual "coverage assessment" amount. In the first year, quarterly amounts for the remainder of the state fiscal year shall equal one-third of the coverage assessment. The payments are due not later than the first day of each quarter. In the first year, the first coverage assessment payment shall be due on or after October 1, 2018. Hospitals that fail to make the coverage assessment payments within 30 days of the due date shall incur a five percent penalty. Any unpaid coverage assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such.
- 8: DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees. The report shall include, for the most recently completed fiscal year, the revenue collected from the coverage assessment; expenditures for purposes authorized by this Item; and the year-end coverage assessment balance in the Health Care Coverage Assessment Fund.
- 9: All revenue from the coverage assessment including penalties shall be deposited into the Health Care Coverage Assessment Fund. Proceeds from the coverage assessment, including penalties, shall not be used for any other purpose than to cover the non-federal share of the full cost of enhanced Medicaid coverage for newly eligible individuals, pursuant to 42 U.S.S. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including the administrative costs of collecting the assessment, and implementing and operating the coverage for newly eligible adults.
- 10: Any provision of this Item is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary.
- A. The Department of Medical Assistance Services (DMAS) is authorized to levy an assessment upon private acute care hospitals operating in Virginia in accordance with this Item. Private acute care hospitals operating in Virginia shall pay a coverage assessment beginning on or after October 1, 2018. For the purposes of this coverage assessment, the definition of private acute care hospitals shall exclude public hospitals, freestanding psychiatric and rehabilitation hospitals, children's hospitals, long stay hospitals, long-term acute care hospitals and critical access hospitals.*
- B.1. The coverage assessment shall be used only to cover the non-federal share of the "full cost of expanded Medicaid coverage" for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including the administrative costs of collecting the coverage assessment and implementing and operating the coverage for newly eligible adults which includes the costs of administering the provisions of the Section 1115 waiver.*
- 2.a. The "full cost of expanded Medicaid coverage" shall include: 1) any and all Medicaid expenditures related to individuals eligible for Medicaid pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including any federal actions or repayments; and, 2) all administrative costs associated with providing coverage, which includes the costs of administering the provisions of the Section 1115 waiver, and collecting the coverage assessment.*
- b. The "full cost of expanded Medicaid coverage" shall be updated: 1) on November 1 of each year based on the official Medicaid forecast and latest administrative cost estimates developed by DMAS; 2) no more than 30 days after the enactment of this Act to reflect policy changes adopted by the latest session of the General Assembly; and 3) on March 1 of any year in which DMAS estimates that the most recent non-federal share of the "full cost of expanded Medicaid coverage" times 1.08 will be insufficient to pay all expenses in 2.a. for that year.*
- c. This Act estimates the non-federal share of the cost of Medicaid expansion to be \$86,103,345 the first year and \$293,192,716 the second year. However, these amounts shall not be construed as a limitation on collections or override the provisions of this item that*

1 allow for periodic updates of the full cost of coverage.

2 C. 1. The Department of Medical Assistance Services (DMAS) shall calculate each hospital's "coverage assessment amount" by
3 multiplying the "coverage assessment percentage" times "net patient service revenue" as defined below.

4 2. The "coverage assessment percentage" shall be calculated as (i) 1.08 times the non-federal share of the "full cost of
5 expanded Medicaid coverage" divided by (ii) the total "net patient service revenue" for hospitals subject to the assessment.

6 3. Each hospital's "net patient service revenue" equals the amount reported in the most recent Virginia Health Information
7 (VHI) "Hospital Detail Report." In FY 2019, net patient service revenue shall be prorated by the portion of the year subject to
8 the tax. Hospitals shall certify that the net patient service revenue is hospital revenue and this amount shall be the assessment
9 basis for the following fiscal year.

10 D.1. DMAS shall, at a minimum, update the "coverage assessment amount" to be effective on January 1, of each year. DMAS
11 is further authorized to update the "coverage assessment amount" on a quarterly basis to ensure amounts are sufficient to
12 cover the full cost of expanded Medicaid coverage based on the latest estimate. Hospitals shall be given no less than 30 days'
13 notice prior to a change in its coverage assessment amount and be provided with associated calculations. Prior to any change
14 to the coverage assessment amount, DMAS shall perform and incorporate a reconciliation of the Health Care Coverage
15 Assessment Fund. Any estimated excess or shortfall of revenue since the previous reconciliation shall be deducted from or
16 added to the "full cost of expanded Medicaid coverage" for the updated coverage assessment amount.

17 2. DMAS shall be responsible for collecting the coverage assessment amount. Hospitals subject to the coverage assessment
18 shall make quarterly payments due no later than July 1, October 1, January 1 and April 1 of each state fiscal year. In FY 2019,
19 quarterly amounts for the remainder of the state fiscal year shall equal one-third of the coverage assessment. In the first year,
20 the first coverage assessment payment shall be due on or after October 1, 2018.

21 3. Hospitals that fail to make the coverage assessment payments within 30 days of the due date shall incur a five percent
22 penalty that shall be deposited in the Virginia Health Care Fund. Any unpaid coverage assessment or penalty will be
23 considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

24 E. DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and
25 Chairmen of the House Appropriations and Senate Finance Committees, and the Virginia Hospital and Healthcare Association.
26 The report shall include, for the most recently completed fiscal year, the revenue collected from the coverage assessment,
27 expenditures for purposes authorized by this Item, and the year-end coverage assessment balance in the Health Care Coverage
28 Assessment Fund. The report shall also include a complete and itemized listing of all administrative costs included in the
29 coverage assessment.

30 F. All revenue from the coverage assessment excluding penalties, shall be deposited into the Health Care Coverage Assessment
31 Fund. Proceeds from the coverage assessment, excluding penalties, shall not be used for any other purpose than to cover the
32 non-federal share of the full cost of expanded Medicaid coverage.

33 G. Any provision of this Item is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary.

34 H. The Hospital Payment Policy Advisory Council shall meet to consider the implementation and provisions of the Provider
35 Coverage and Payment Rate Assessments in order to consider and make recommendations to ensure the collection and use of
36 such funds are appropriate and consistent with the intent of the General Assembly. Specifically, the Council shall consider the
37 level of detail and format necessary to develop the report pursuant to paragraph E. The Council shall recommend a format and
38 associated level of detail, to be included in the report to the Joint Subcommittee for Health and Human Resources Oversight.
39 The Joint Subcommittee shall approve the final format and associated level of detail of the report to be submitted by the
40 Department of Medical Assistance Services.

41 § 3-5.16 PROVIDER PAYMENT RATE ASSESSMENT

42 A. The Department of Medical Assistance Services (DMAS) is hereby authorized to levy a payment rate assessment upon
43 private acute care hospitals operating in Virginia in accordance with this item. Private acute care hospitals operating in Virginia
44 shall pay a payment rate assessment beginning on or after October 1, 2018 when all necessary state plan amendments are
45 approved by the Centers for Medicare and Medicaid Services (CMS). For purposes of this assessment, the definition of private
46 acute care hospitals shall exclude public hospitals; freestanding psychiatric and rehabilitation hospitals; children's hospitals;
47 long stay hospitals; long-term acute care hospitals and critical access hospitals.

48 B.1. Proceeds from the payment rate assessment shall be disbursed to fund an increase in inpatient and outpatient payment rates
49 paid to private acute care hospitals operating in Virginia up to the "upper payment limit" and to fill the "managed care
50 organization hospital payment gap" for care provided to recipients of medical assistance services:

51 2. DMAS shall calculate each hospital's payment rate assessment annually by multiplying the "payment rate assessment
52 percentage" times "net patient service revenue". Each hospital's "net patient service revenue" equals the amount reported in the
53 most recent Virginia Health Information (VHI) "Hospital Detail Report" as of December 15 of each year. The "payment rate

assessment percentage" for hospitals shall be calculated as (i) 1.00 times the non-federal share of funding the "upper payment limit gap" and the "managed care organization hospital payment gap" divided by (ii) the total "net patient service revenue" for hospitals subject to the assessment. Prior to calculating the payment rate assessment percentage, DMAS shall estimate the cost of the upper payment limit gap and the managed care organization hospital payment gap. Any estimated excess or shortfall of revenue from the previous year shall be deducted from or added to the calculation of the provider rate costs. By 14 days after the Appropriation Act for the upcoming fiscal year is signed, DMAS shall report the estimated payment rate assessment by hospital and all assessment percentage calculations for the upcoming fiscal year to the Director, Department of Planning and Budget, and Chairmen of the House Appropriations and Senate Finance Committees.

3: The "upper payment limit" means the limit on payment for inpatient services for recipients of medical assistance established in accordance with 42 C.F.R. § 447.272 and outpatient services for recipients of medical assistance pursuant to 42 C.F.R. § 447.321 for private hospitals. DMAS shall complete a calculation of the "upper payment limit" for each state fiscal year with a detailed analysis of how it was determined. The "upper payment limit payment gap" means the difference between the amount of the private hospital upper payment limit and the amount otherwise paid pursuant to the state plan for inpatient and outpatient services. The "managed care organization hospital payment gap" means the difference between the amount included in the capitation rates for inpatient and outpatient services based on historical paid claims and the amount that would be included when the projected hospital services furnished by private acute care hospitals operating in Virginia are priced according to the existing State Plan methodology but using 100% for the adjustment factors (including the capital reimbursement percentage) and full inflation subject to CMS approval under 42 C.F.R. section 438.6(c). As part of the development of the managed care capitation rates, the Department shall calculate a "Medicaid managed care organization (MCO) supplemental hospital capitation payment adjustment". This is a distinct additional amount added to Medicaid MCO capitation rates to fund supplemental payments under this section to private acute care hospitals operating in Virginia for services to Medicaid recipients.

4: DMAS shall contractually direct Medicaid MCOs to disburse supplemental hospital capitation payment funds consistent with this section and 42 C.F.R. § 438.6(c); that ensure that all such funds are disbursed to private acute care hospitals operating in Virginia. In addition, DMAS shall contractually prohibit MCOs from making reductions to or supplanting hospital payments otherwise paid by MCOs.

5: DMAS shall make available monthly a report of the additional capitation payments that are made to each MCO pursuant to this subsection. Further, DMAS shall consider recommendations of the Medicaid Hospital Payment Policy and Advisory Council in designing and implementing the specific elements of the payment rate assessment and private acute care hospital supplemental payment program authorized by this item.

C: DMAS shall be responsible for collecting the payment rate assessment. Hospitals subject to the assessment shall make quarterly payments to the department equal to 25 percent of the annual "assessment" amount. In the first year, quarterly amounts for the remainder of the state fiscal year shall equal the hospital's total payment rate assessment for the fiscal year divided by the number of quarters in the remainder of the fiscal year after the effective date of the payment rates. The assessment are due not later than the first day of each quarter. In the first year, the first assessment payment shall be due on or after October 1, 2018. Hospitals that fail to make the assessment payments within 30 days of the due date shall incur a five percent penalty. Any unpaid assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

D: DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees. The report shall include, for the most recently completed fiscal year, the revenue collected from the payment rate assessment; expenditures for purposes authorized by this item; and the year-end assessment balance in the Health Care Provider Payment Rate Assessment Fund.

E: All revenue from the payment rate assessment shall be deposited into the Health Care Provider Payment Rate Assessment Fund; a special non-reverting fund in the state treasury. Proceeds from the payment rate assessment, including penalties, shall not be used for any other purpose than to fund (i) an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the private hospital "upper payment limit" and "managed care organization hospital payment gap" for care provided to recipients of medical assistance services; and (ii) the administrative costs of collecting the assessment and of implementing and operating the associated payment rate actions.

F: Any provision of this Section is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary.

A. The Department of Medical Assistance Services (DMAS) is hereby authorized to levy a payment rate assessment upon private acute care hospitals operating in Virginia in accordance with this item. Private acute care hospitals operating in Virginia shall pay a payment rate assessment beginning on or after October 1, 2018 when all necessary state plan amendments are approved by the Centers for Medicare and Medicaid Services (CMS). For purposes of this assessment, the definition of private acute care hospitals shall exclude public hospitals, freestanding psychiatric and rehabilitation hospitals, children's hospitals, long stay hospitals, long-term acute care hospitals and critical access hospitals.

B. Proceeds from the payment rate assessment shall be used to i) fund an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the "upper payment limit gap" and ii) fill the "managed care organization hospital payment gap" for care provided to recipients of medical assistance services. Payments made under the provisions of this item shall be referred to as "private acute care hospital enhanced payments".

PART 4: GENERAL PROVISIONS

§ 4-0.00 OPERATING POLICIES

§ 4-0.01 OPERATING POLICIES

a. Each appropriating act of the General Assembly shall be subject to the following provisions and conditions, unless specifically exempt elsewhere in this act.

b. All appropriations contained in this act, or in any other appropriating act of the General Assembly, are declared to be maximum appropriations and conditional on receipt of revenue.

c. The Governor, as chief budget officer of the state, shall ensure that the provisions and conditions as set forth in this section are strictly observed.

d. Public higher education institutions are not subject to the provisions of § 2.2-4800, Code of Virginia, or the provisions of the Department of Accounts' Commonwealth Accounting Policies and Procedures manual (CAPP) topic 20505 with regard to students who are veterans of the United States armed services and National Guard and are in receipt of federal educational benefits under the G.I. Bill. Public higher education shall establish internal procedures for the continued enrollment of such students to include resolution of outstanding accounts receivable.

e. The provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq. of the Code of Virginia) shall not apply to grants made in support of the 2019 Commemoration to non-profit entities organized under § 501 (c)(3) of the Internal Revenue Code.

f. 1. The State Council of Higher Education for Virginia shall establish a policy for granting undergraduate course credit to entering freshman students who have taken one or more Advanced Placement, Cambridge Advanced (A/AS), College-Level Examination Program (CLEP), or International Baccalaureate examinations by August 1, 2017. The policy shall:

a) Outline the conditions necessary for each public institution of higher education to grant course credit, including the minimum required scores on such examinations;

b) Identify the course credit or other academic requirements of each public institution of higher education that the student satisfies by achieving the minimum required scores on such examinations; and

c) Ensure, to the extent possible, that the grant of course credit is consistent across each public institution of higher education and each such examination.

2. The Council and each public institution of higher education shall make the policy available to the public on its website.

§ 4-1.00 APPROPRIATIONS

§ 4-1.01 PREREQUISITES FOR PAYMENT

a. The State Comptroller shall not pay any money out of the state treasury except pursuant to appropriations in this act or in any other act of the General Assembly making an appropriation during the current biennium.

b. Moneys shall be spent solely for the purposes for which they were appropriated by the General Assembly, except as specifically provided otherwise by § 4-1.03 Appropriation Transfers, § 4-4.01 Capital Projects, or § 4-5.01 a. Settlement of Claims with Individuals. Should the Governor find that moneys are not being spent in accordance with provisions of the act appropriating them, he shall restrain the State Comptroller from making further disbursements, in whole or in part, from said appropriations. Further, should the Auditor of Public Accounts determine that a state or other agency is not spending moneys in accordance with provisions of the act appropriating them, he shall so advise the Governor or other governing authority, the State Comptroller, the Chairman of the Joint Legislative Audit and Review Commission, and Chairmen of the Senate Finance and House Appropriations Committees.

c. Exclusive of revenues paid into the general fund of the state treasury, all revenues earned or collected by an agency, and contained in an appropriation item to the agency shall be expended first during the fiscal year, prior to the expenditure of any general fund appropriation within that appropriation item, unless prohibited by statute or by the terms and conditions of any gift, grant or donation.

§ 4-1.02 WITHHOLDING OF SPENDING AUTHORITY

a. For purposes of this subsection, withholding of spending authority is defined as any action pursuant to a budget reduction plan approved by the Governor to address a declared shortfall in budgeted revenue that impedes or limits the ability to spend appropriated moneys, regardless of the mechanism used to effect such withholding.

b.1. Changed Expenditure Factors: The Governor is authorized to reduce spending authority, by withholding allotments of

1 appropriations, when expenditure factors, such as enrollments or population in institutions, are smaller than the estimates upon
 2 which the appropriation was based. Moneys generated from the withholding action shall not be reallocated for any other
 3 purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days
 4 after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House
 5 Appropriations and Senate Finance Committees.

6 2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations
 7 have been specifically presented in writing to the General Assembly at its next regularly scheduled session.

8 c. Increased Nongeneral Fund Revenue:

9 1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues
 10 collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the
 11 operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments
 12 of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for
 13 educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations
 14 to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any
 15 state agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or intellectually
 16 disabled payable from the Behavioral Health and Developmental Services Revenue Fund; and (e) general fund appropriations
 17 for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other
 18 purpose.

19 2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program,
 20 following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by
 21 withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is
 22 prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations,
 23 which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

24 d. Reduced General Fund Resources:

25 1. The term "general fund resources" as applied in this subsection includes revenues collected and paid into the general fund of
 26 the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium,
 27 and all unexpended balances brought forward from the previous biennium.

28 2. In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund
 29 appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold
 30 general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the
 31 estimated general fund resources available.

32 3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current
 33 fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared
 34 within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of
 35 general fund revenues shall be communicated to the Chairmen of the Senate Finance, House Appropriations and House Finance
 36 Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

37 4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year's estimate, the
 38 Governor shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to
 39 the Chairmen of the House Appropriations, House Finance, and Senate Finance Committees.

40 b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller
 41 shall provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes
 42 for the just-completed fiscal year, with a comparison of such actual totals with the total of such taxes in the official budget
 43 estimate for that fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income
 44 taxes, and (3) sales taxes, as shown on the preliminary close, was one percent or more below the amount of such taxes in the
 45 official budget estimate for the just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund
 46 revenues for the current biennium and the next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the
 47 Chairmen of the Senate Finance, House Finance and House Appropriations Committees, not later than September 1 following
 48 the close of the fiscal year.

49 5.a) The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved
 50 by the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House
 51 Appropriations and Senate Finance Committees. Subsequent modifications to the approved reduction plan also must be
 52 submitted to the Chairmen of the House Appropriations and Senate Finance Committees, prior to withholding allotments of
 53 appropriations.

54 b) In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state

1 agencies to the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's
2 Cabinet secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be made available via electronic means
3 to the Chairmen of the House Appropriations and Senate Finance Committees concurrently with that budget reduction plan.

4 6. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

5 a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any
6 one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency
7 or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and House Appropriations
8 Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to the grantee than
9 the proportional cut apportioned to the agency. Without regard to § 4-5.05 b.4. of this act, the remaining appropriation to the grantee
10 which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by July 31, or in two equal
11 installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation is less than or equal to
12 \$500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

13 b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its
14 authorities, or for payment of a legally authorized deficit.

15 c) The payments for care of graves of Confederate and historical African American dead.

16 d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement
17 System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional
18 Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan
19 for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and
20 disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia
21 Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the
22 appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the
23 current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for
24 health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be
25 increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed
26 in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the
27 governing board.

28 e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.

29 f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.

30 g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source for
31 payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the
32 Executive Department.

33 h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting
34 revenues for such appropriation are estimated to be insufficient to pay the appropriation.

35 7. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction or on
36 an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to the
37 maximum of 15 percent, as prescribed in subdivision 6a of this subsection.

38 8. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the
39 appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund
40 appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such appropriations;
41 however, the Governor shall take no action to reduce allotments of appropriations for major nongeneral fund sources on account of
42 reduced revenues until such time as a formal written re-estimate of revenues for the current and next biennium, prepared in
43 accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the Chairmen of the Senate Finance,
44 House Finance, and House Appropriations Committees. For purposes of this subsection, major nongeneral fund sources are defined
45 as Highway Maintenance and Operating Fund and Transportation Trust Fund.

46 9. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year
47 of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to
48 the following:

49 a) The Governor shall declare in writing to the Chairmen of the Senate Finance and House Appropriations Committees that a fiscal
50 emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the exact amount of such transfer
51 within five calendar days of the transfer;

52 b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913, Code of
53 Virginia, debt service funds, or federal funds; and

1 c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the
2 amount transferred from each account or fund and recommendations for restoring such amounts.

3 10. The Director, Department of Planning and Budget, shall make available via electronic means a report of spending authority
4 withheld under the provisions of this subsection to the Chairmen of the Senate Finance and House Appropriations Committees
5 within five calendar days of the action to withhold. Said report shall include the amount withheld by agency and appropriation
6 item.

7 11. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between
8 projected general fund resources and appropriations, the Speaker of the House of Delegates and the President pro tempore of
9 the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the General
10 Assembly.

11 § 4-1.03 APPROPRIATION TRANSFERS

12 GENERAL

13 a. During any fiscal year, the Director, Department of Planning and Budget, may transfer appropriation authority from one state
14 or other agency to another, to effect the following:

15 1) distribution of amounts budgeted in the central appropriation to agencies, or withdrawal of budgeted amounts from agencies
16 in accordance with specific language in the central appropriation establishing reversion clearing accounts;

17 2) distribution of pass-through grants or other funds held by an agency as fiscal agent;

18 3) correction of errors within this act, where such errors have been identified in writing by the Chairmen of the House

21 5) transfers specifically authorized elsewhere in this act or as specified in the Code of Virginia;

22 6) to supplement capital projects in order to realize efficiencies or provide for cost overruns unrelated to changes in size or
23 scope; or

24 7) to administer a program for another agency or to effect budgeted program purposes approved by the General Assembly,
25 pursuant to a signed agreement between the respective agencies.

26 b. During any fiscal year, the Director, Department of Planning and Budget, may transfer appropriation authority within an
27 agency to effect proper accounting between fund sources and to effect program purposes approved by the General Assembly,
28 unless specifically provided otherwise in this act or as specified in the Code of Virginia. However, appropriation authority for
29 local aid programs and aid to individuals, with the exception of student financial aid, shall not be transferred elsewhere without
30 advance notice to the Chairmen of the House Appropriations and Senate Finance Committees. Further, any transfers between
31 capital projects shall be made only to realize efficiencies or provide for cost overruns unrelated to changes in size or scope.

32 c.1. In addition to authority granted elsewhere in this act, the Director, Department of Planning and Budget, may transfer
33 operating appropriations authority among sub-agencies within the Judicial System, the Department of Corrections, and the
34 Department of Behavioral Health and Developmental Services to effect changes in operating expense requirements which may
35 occur during the biennium.

36 2. The Director, Department of Planning and Budget, may transfer appropriations from the Department of Behavioral Health
37 and Developmental Services to the Department of Medical Assistance Services, consisting of the general fund amounts
38 required to match federal funds for reimbursement of services provided by its institutions and Community Services Boards.

39 3. The Director, Department of Planning and Budget, may transfer appropriations from the Office of Comprehensive Services
40 to the Department of Medical Assistance Services, consisting of the general fund amounts required to match federal funds for

42 4. The Director, Department of Planning and Budget, may transfer an appropriation or portion thereof within a state or other
43 agency, or from one such agency to another, to support changes in agency organization, program or responsibility enacted by
44 the General Assembly to be effective during the current biennium.

45 5. The Director, Department of Planning and Budget, may transfer appropriations from the second year to the first year, with
46 said transfer to be reported in writing to the Chairmen of the Senate Finance and House Appropriations Committees within five
47 calendar days of the transfer, when the expenditure of such funds is required to:

48 a) address a threat to life, safety, health or property, or

- 1 b) provide for unbudgeted cost increases for statutorily required services or federally mandated services, in order to continue those
2 services at the present level, or
- 3 c) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a
4 situation deemed threatening to life, safety, health, or property, or
- 5 d) provide for payments to the beneficiaries of certain public safety officers killed in the line of duty, as authorized in Title 2.2,
6 Chapter 4, Code of Virginia and for payments to the beneficiaries of certain members of the National Guard and United States
7 military reserves killed in action in any armed conflict on or after October 7, 2001, as authorized in § 44-93.1 B., Code of Virginia,
8 or
- 9 e) continue a program at the present level of service or at an increased level of service when required to address unanticipated
10 increases in workload such as enrollment, caseload or like factors, or unanticipated costs, or
- 11 f) to address unanticipated business or industrial development opportunities which will benefit the state's economy, provided that
12 any such appropriations be used in a manner consistent with the purposes of the program as originally appropriated.
- 13 6. An appropriation transfer shall not occur except through properly executed appropriation transfer documents designed specifically
14 for that purpose, and all transactions effecting appropriation transfers shall be entered in the state's computerized budgeting and
15 accounting systems.
- 16 7. The Director, Department of Planning and Budget, may transfer from any other agency, appropriations to supplement any project
17 of the Virginia Public Building Authority authorized by the General Assembly and approved by the Governor. Such capital project
18 shall be transferred to the state agency designated as the managing agency for the Virginia Public Building Authority.
- 19 8. In the event of the transition of a city to town status pursuant to the provisions of Chapter 41 of Title 15.2 of the Code of Virginia
20 (§ 15.2-4100 et seq.) or the consolidation of a city and a county into a single city pursuant to the provisions of Chapter 35 of Title
21 15.2, Code of Virginia (§ 15.2-3500 et seq.) subsequent to July 1, 1999, the provisions of § 15.2-1302 shall govern distributions
22 from state agencies to the county in which the town is situated or to the consolidated city, and the Director, Department of Planning
23 and Budget, is authorized to transfer appropriations or portions thereof within a state agency, or from one such agency to another, if
24 necessary to fulfill the requirements of § 15.2-1302.

25 § 4-1.04 APPROPRIATION INCREASES

26 a. UNAPPROPRIATED NONGENERAL FUNDS:

27 1. Sale of Surplus Materials:

28 The Director, Department of Planning and Budget, is hereby authorized to increase the appropriations to any state agency by the
29 amount of credit resulting from the sale of surplus materials under the provisions of § 2.2-1125, Code of Virginia.

30 2. Insurance Recovery:

31 The Director, Department of Planning and Budget, shall increase the appropriation authority for any state agency by the amount of
32 the proceeds of an insurance policy or from the State Insurance Reserve Trust Fund, for expenditures as far as may be necessary, to
33 pay for the repair or replacement of lost, damaged or destroyed property, plant or equipment.

34 3. Gifts, Grants and Other Nongeneral Funds:

35 a) Subject to § 4-1.02 c, Increased Nongeneral Fund Revenue, and the conditions stated in this section, the Director, Department of
36 Planning and Budget, is hereby authorized to increase the appropriations to any state agency by the amount of the proceeds of
37 donations, gifts, grants or other nongeneral funds paid into the state treasury in excess of such appropriations during a fiscal year.
38 Such appropriations shall be increased only when the expenditure of moneys is authorized elsewhere in this act or is required to:

39 1) address a threat to life, safety, health or property or

40 2) provide for unbudgeted increases in costs for services required by statute or services mandated by the federal government, in
41 order to continue those services at the present level or implement compensation adjustments approved by the General Assembly, or

42 3) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a
43 situation deemed threatening to life, safety, health, or property, or

44 4) continue a program at the present level of service or at an increased level of service when required to address unanticipated
45 increases in noncredit instruction at institutions of higher education or business and industrial development opportunities which will
46 benefit the state's economy, or

47 5) participate in a federal or sponsored program provided that the provisions of § 4-5.03 shall also apply to increases in
48 appropriations for additional gifts, grants, and other nongeneral fund revenue which require a general fund match as a condition of

- 1 their acceptance; or
- 2 6) realize cost savings in excess of the additional funds provided, or
- 3 7) permit a state agency or institution to use a donation, gift or grant for the purpose intended by the donor, or
- 4 8) provide for cost overruns on capital projects and for capital projects authorized under § 4-4.01 m of this act, or
- 5 9) address caseload or workload changes in programs approved by the General Assembly.
- 6 b) The above conditions shall not apply to donations and gifts to the endowment funds of institutions of higher education.
- 7 c) Each state agency and institution shall ensure that its budget estimates include a reasonable estimate of receipts from
- 8 donations, gifts or other nongeneral fund revenue. The Department of Planning and Budget shall review such estimates and
- 9 verify their accuracy, as part of the budget planning and review process.
- 10 d) No obligation or expenditure shall be made from such funds until a revised operating budget request is approved by the
- 11 Director, Department of Planning and Budget. Expenditures from any gift, grant or donation shall be in accordance with the
- 12 purpose for which it was made; however, expenditures for property, plant or equipment, irrespective of fund source, are subject
- 13 to the provisions of §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects General, and 4-5.03 b Services and Clients-New Services,
- 14 of this act.
- 15 e) Nothing in this section shall exempt agencies from complying with § 4-2.01 a Solicitation and Acceptance of Donations,
- 16 Gifts, Grants, and Contracts of this act.
- 17 4. Any nongeneral fund cash balance recorded on the books of the Department of Accounts as unexpended on the last day of
- 18 the fiscal year may be appropriated for use in the succeeding fiscal year with the prior written approval of the Director,
- 19 Department of Planning and Budget, unless the General Assembly shall have specifically provided otherwise. Revenues
- 20 deposited to the Virginia Health Care Fund shall be used only as the state share of Medicaid, unless the General Assembly
- 21 specifically authorizes an alternate use. With regard to the appropriation of other nongeneral fund cash balances, the Director
- 22 shall make a listing of such transactions available to the public via electronic means no less than ten business days following
- 23 the approval of the appropriation of any such balance.
- 24 5. Reporting:
- 25 The Director, Department of Planning and Budget, shall make available via electronic means a report on increases in
- 26 unappropriated nongeneral funds in accordance with § 4-8.00, Reporting Requirements, or as modified by specific provisions in
- 27 this subsection.
- 28 b. AGRIBUSINESS EQUIPMENT FOR THE DEPARTMENT OF CORRECTIONS
- 29 The Director of the Department of Planning and Budget may increase the Department of Corrections appropriation for the
- 30 purchase of agribusiness equipment or the repair or construction of agribusiness facilities by an amount equal to fifty percent of
- 31 any annual amounts in excess of fiscal year 1992 deposits to the general fund from agribusiness operations. It is the intent of
- 32 the General Assembly that appropriation increases for the purposes specified shall not be used to reduce the general fund
- 33 appropriations for the Department of Corrections.
- 34 § 4-1.05 REVERSION OF APPROPRIATIONS AND REAPPROPRIATIONS
- 35 a. GENERAL FUND OPERATING EXPENSE:
- 36 1.a) General fund appropriations which remain unexpended on (i) the last day of the previous biennium or (ii) the last day of
- 37 the first year of the current biennium, shall be reappropriated and allotted for expenditure where required by the Code of
- 38 Virginia, where necessary for the payment of preexisting obligations for the purchase of goods or services, or where desirable,
- 39 in the determination of the Governor, to address any of the six conditions listed in § 4-1.03 c.5 of this act or to provide financial
- 40 incentives to reduce spending to effect current or future cost savings. With the exception of the unexpended general fund
- 41 appropriations of agencies in the Legislative Department, the Judicial Department, the Independent Agencies, or institutions of
- 42 higher education, all other such unexpended general fund appropriations unexpended on the last day of the previous biennium
- 43 or the last day of the first year of the current biennium shall revert to the general fund.
- 44 b) General fund appropriations for agencies in the Legislative Department, the Judicial Department, and the Independent
- 45 Agencies shall be reappropriated, except as may be specifically provided otherwise by the General Assembly. General fund
- 46 appropriations shall also be reappropriated for institutions of higher education, subject to § 23.1-1002, Code of Virginia.
- 47 c) To improve the stability in institutional planning and predictability for students and families to prepare for the cost of higher
- 48 education, public higher education institutions are encouraged to employ the financial management strategy of establishing an
- 49 institutional reserve fund supported by any unexpended education and general appropriations of the institution at the end of the
- 50 fiscal year. The establishment of such a fund is designed to foster more long-term planning, promote efficient resource

1 utilization and reduce the need for substantial year-to-year increases in tuition, thereby increasing affordability for Virginians.
 2 Independent of the provisions of § 23.1-1001, institutions are authorized to carry over education and general unexpended balances to
 3 establish and maintain a reserve fund in an amount not to exceed three percent of their general fund appropriation for educational
 4 and general programs in the most recently-completed fiscal year. Any use of the reserve fund shall be approved by the Board of
 5 Visitors of the affected institution, and the institution shall immediately report the details of the approved plan for use of the reserve
 6 fund to the Governor, the Secretary of Education, the Secretary of Finance and the Chairmen of the House Appropriations and
 7 Senate Finance Committees. Any reserve fund shall be subject to the provisions of § 23.1-1303.B.11.

8 2. a. The Governor shall report within five calendar days after completing the reappropriation process to the Chairmen of the Senate
 9 Finance and House Appropriations Committees on the reappropriated amounts for each state agency in the Executive Department.
 10 He shall provide a preliminary report of reappropriation actions on or before November 1 and a final report on or before December
 11 20 to the Chairmen of the House Appropriations and Senate Finance Committees.

12 b. The Director, Department of Planning and Budget, may transfer reappropriated amounts within an agency to cover nonrecurring
 13 costs.

14 3. Pursuant to subsection E of § 2.2-1125, Code of Virginia, the determination of compliance by an agency or institution with
 15 management standards prescribed by the Governor shall be made by the Secretary of Finance and the Secretary having jurisdiction
 16 over the agency or institution, acting jointly.

17 4. The general fund resources available for appropriation in the first enactment of this act include the reversion of certain
 18 unexpended balances in operating appropriations as of June 30 of the prior fiscal year, which were otherwise required to be
 19 reappropriated by language in the Appropriation Act.

20 5. Upon request, the Director, Department of Planning and Budget, shall provide a report to the Chairmen of the House
 21 Appropriations and Senate Finance Committees showing the amount reverted for each agency and the total amount of such
 22 reversions.

23 b. NONGENERAL FUND OPERATING EXPENSE:

24 Based on analysis by the State Comptroller, when any nongeneral fund has had no increases or decreases in fund balances for a
 25 period of 24 months, the State Comptroller shall promptly transfer and pay the balance into the fund balance of the general fund. If it
 26 is subsequently determined that an appropriate need warrants repayment of all or a portion of the amount transferred, the Director,
 27 Department of Planning and Budget shall include repayment in the next budget bill submitted to the General Assembly. This
 28 provision does not apply to funds held in trust by the Commonwealth.

29 c. CAPITAL PROJECTS:

30 1. Upon certification by the Director, Department of Planning and Budget, the State Comptroller is hereby authorized to revert to the
 31 fund balance of the general fund any portion of the unexpended general fund cash balance and corresponding appropriation or
 32 reappropriation for a capital project when the Director determines that such portion is not needed for completion of the project. The
 33 State Comptroller may similarly return to the appropriate fund source any part of the unexpended nongeneral fund cash balance and
 34 reduce any appropriation or reappropriation which the Director determines is not needed to complete the project.

35 2. The unexpended general fund cash balance and corresponding appropriation or reappropriation for capital projects shall revert to
 36 and become part of the fund balance of the general fund during the current biennium as of the date the Director, Department of
 37 Planning and Budget, certifies to the State Comptroller that the project has been completed in accordance with the intent of the
 38 appropriation or reappropriation and there are no known unpaid obligations related to the project. The State Comptroller shall return
 39 the unexpended nongeneral fund cash balance, if there be any, for such completed project to the source from which said nongeneral
 40 funds were obtained. Likewise, he shall revert an equivalent portion of the appropriation or reappropriation of said nongeneral funds.

41 3. The Director, Department of Planning and Budget, may direct the restoration of any portion of the reverted amount if he shall
 42 subsequently verify an unpaid obligation or requirement for completion of the project. In the case of a capital project for which an
 43 unexpended cash balance was returned and appropriation or reappropriation was reverted in the prior biennium, he may likewise
 44 restore any portion of such amount under the same conditions.

45 § 4-1.06 LIMITED ADJUSTMENTS OF APPROPRIATIONS

46 a. LIMITED CONTINUATION OF APPROPRIATIONS.

47 Notwithstanding any contrary provision of law, any unexpended balances on the books of the State Comptroller as of the last day of
 48 the previous biennium shall be continued in force for such period, not exceeding 10 days from such date, as may be necessary in
 49 order to permit payment of any claims, demands or liabilities incurred prior to such date and unpaid at the close of business on such
 50 date, and shown by audit in the Department of Accounts to be a just and legal charge, for values received as of the last day of the
 51 previous biennium, against such unexpended balances.

52 b. LIMITATIONS ON CASH DISBURSEMENTS.

1 Notwithstanding any contrary provision of law, the State Comptroller may begin preparing the accounts of the Commonwealth
 2 for each subsequent fiscal year on or about 10 days before the start of such fiscal year. The books will be open only to enter
 3 budgetary transactions and transactions that will not require the receipt or disbursement of funds until after June 30. Should an
 4 emergency arise, or in years in which July 1 falls on a weekend requiring the processing of transactions on or before June 30,
 5 the State Comptroller may, with notification to the Auditor of Public Accounts, authorize the disbursement of funds drawn
 6 against appropriations of the subsequent fiscal year, not to exceed the sum of three million dollars (\$3,000,000) from the
 7 general fund. This provision does not apply to debt service payments on bonds of the Commonwealth which shall be made in
 8 accordance with bond documents, trust indentures, and/or escrow agreements.

9 § 4-1.07 ALLOTMENTS

10 Except when otherwise directed by the Governor within the limits prescribed in §§ 4-1.02 Withholding of Spending Authority,
 11 4-1.03 Appropriation Transfers, and 4-1.04 Appropriation Increases of this act, the Director, Department of Planning and
 12 Budget, shall prepare and act upon the allotment of appropriations required by this act, and by § 2.2-1819, Code of Virginia,
 13 and the authorizations for rates of pay required by this act. Such allotments and authorizations shall have the same effect as if
 14 the personal signature of the Governor were subscribed thereto. This section shall not be construed to prohibit an appeal by the
 15 head of any state agency to the Governor for reconsideration of any action taken by the Director, Department of Planning and
 16 Budget, under this section.

17 § 4-2.00 REVENUES

18 § 4-2.01 NONGENERAL FUND REVENUES

19 a. SOLICITATION AND ACCEPTANCE OF DONATIONS, GIFTS, GRANTS, AND CONTRACTS:

20 1. No state agency shall solicit or accept any donation, gift, grant, or contract without the written approval of the Governor
 21 except under written guidelines issued by the Governor which provide for the solicitation and acceptance of nongeneral funds,
 22 except that donations or gifts to the Virginia War Memorial Foundation that are small in size and number and valued at less
 23 than \$5,000, such as library items or small display items, may be approved by the Executive Director of the Virginia War
 24 Memorial in consultation with the Secretary of Veterans Affairs and Homeland Security. All other gifts and donations to the
 25 Virginia War Memorial Foundation must receive written approval from the Secretary of Veterans Affairs and Homeland
 26 Security.

27 2. The Governor may issue policies in writing for procedures which allow state agencies to solicit and accept nonmonetary
 28 donations, gifts, grants, or contracts except that donations, gifts and grants of real property shall be subject to § 4-4.00 of this
 29 act and § 2.2-1149, Code of Virginia. This provision shall apply to donations, gifts and grants of real property to endowment
 30 funds of institutions of higher education, when such endowment funds are held by the institution in its own name and not by a
 31 separately incorporated foundation or corporation.

32 3. The preceding subdivisions shall not apply to property and equipment acquired and used by a state agency or institution
 33 through a lease purchase agreement and subsequently donated to the state agency or institution during or at the expiration of the
 34 lease purchase agreement, provided that the lessor is the Virginia College Building Authority.

35 4. The use of endowment funds for property, plant or equipment for state-owned facilities is subject to §§ 4-2.03 Indirect Costs,
 36 4-4.01 Capital Projects-General and 4-5.03 Services and Clients of this act.

37 b. HIGHER EDUCATION TUITION AND FEES

38 1. Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of
 39 Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, all nongeneral fund collections by public institutions of
 40 higher education, including collections from the sale of dairy and farm products, shall be deposited in the state treasury in
 41 accordance with § 2.2-1802, Code of Virginia, and expended by the institutions of higher education in accordance with the
 42 appropriations and provisions of this act, provided, however, that this requirement shall not apply to private gifts, endowment
 43 funds, or income derived from endowments and gifts.

44 2. a) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at
 45 levels they deem to be appropriate for all resident student groups based on, but not limited to, competitive market rates,
 46 provided that the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund
 47 appropriation for educational and general programs provided in this act.

48 b) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels
 49 they deem to be appropriate for all nonresident student groups based on, but not limited to, competitive market rates, provided
 50 that: i) the tuition and mandatory educational and general fee rates for nonresident undergraduate and graduate students cover at
 51 least 100 percent of the average cost of their education, as calculated through base adequacy guidelines adopted, and
 52 periodically amended, by the Joint Subcommittee Studying Higher Education Funding Policies, and ii) the total revenue
 53 generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and

- 1 general programs provided in this act.
- 2 c) For institutions charging nonresident students less than 100 percent of the cost of education, the State Council of Higher
3 Education for Virginia may authorize a phased approach to meeting this requirement, when in its judgment, it would result in annual
4 tuition and fee increases for nonresident students that would discourage their enrollment.
- 5 d) The Boards of Visitors or other governing bodies of institutions of higher education shall not increase the current proportion of
6 nonresident undergraduate students if the institution's nonresident undergraduate enrollment exceeds 25 percent. Norfolk State
7 University, Virginia Military Institute, Virginia State University, and two-year public institutions are exempt from this restriction.
- 8 3. a) In setting the nongeneral fund appropriation for educational and general programs at the institutions of higher education, the
9 General Assembly shall take into consideration the appropriate student share of costs associated with providing full funding of the
10 base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th
11 percentile of peer institutions, and other priorities set forth in this act.
- 12 b) In determining the appropriate state share of educational costs for resident students, the General Assembly shall seek to cover at
13 least 67 percent of educational costs associated with providing full funding of the base adequacy guidelines referenced in
14 subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other
15 priorities set forth in this act.
- 16 4. a) Each institution and the State Council of Higher Education for Virginia shall monitor tuition, fees, and other charges, as well as
17 the mix of resident and nonresident students, to ensure that the primary mission of providing educational opportunities to citizens of
18 Virginia is served, while recognizing the material contributions provided by the presence of nonresident students. The State Council
19 of Higher Education for Virginia shall also develop and enforce uniform guidelines for reporting student enrollments and the
20 domiciliary status of students.
- 21 b) The State Council of Higher Education for Virginia shall report to the Governor and the Chairmen of the House Appropriations
22 and Senate Finance Committees no later than August 1 of each year the annual change in total charges for tuition and all required
23 fees approved and allotted by the Board of Visitors. As it deems appropriate, the State Council of Higher Education for Virginia
24 shall provide comparative national, peer, and market data with respect to charges assessed students for tuition and required fees at
25 institutions outside of the Commonwealth.
- 26 c) Institutions of higher education are hereby authorized to make the technology service fee authorized in Chapter 1042, 2003 Acts
27 of Assembly, part of ongoing tuition revenue. Such revenues shall continue to be used to supplement technology resources at the
28 institutions of higher education.
- 29 d) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly,
30 and Chapters 675 and 685 of the 2009 Acts of Assembly, each institution shall work with the State Council of Higher Education for
31 Virginia and the Virginia College Savings Plan to determine appropriate tuition and fee estimates for tuition savings plans.
- 32 5. It is the intent of the General Assembly that each institution's combined general and nongeneral fund appropriation within its
33 educational and general program closely approximate the anticipated annual budget each fiscal year.
- 34 6. Nonresident graduate students employed by an institution as teaching assistants, research assistants, or graduate assistants and
35 paid at an annual contract rate of \$4,000 or more may be considered resident students for the purposes of charging tuition and fees.
- 36 7. The fund source "Higher Education Operating" within educational and general programs for institutions of higher education
37 includes tuition and fee revenues from nonresident students to pay their proportionate share of the amortized cost of the construction
38 of buildings approved by the Commonwealth of Virginia Educational Institutions Bond Act of 1992 and the Commonwealth of
39 Virginia Educational Facilities Bond Act of 2002.
- 40 8. a) 1) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of
41 Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, mandatory fees for purposes other than educational and general
42 programs shall not be increased for Virginia undergraduates beyond three percent annually, excluding requirements for wage, salary,
43 and fringe benefit increases, authorized by the General Assembly. Fee increases required to carry out actions that respond to
44 mandates of federal agencies are also exempt from this provision, provided that a report on the purposes of the amount of the fee
45 increase is submitted to the Chairmen of the House Appropriations and Senate Finance Committees by the institution of higher
46 education at least 30 days prior to the effective date of the fee increase.
- 47 2) *The University of Mary Washington is hereby authorized to undertake a review of its tuition and fee structure for the purpose of*
48 *more closely aligning auxiliary fees, including room, board, and the comprehensive fee, with auxiliary expenditure budgets.*
49 *Adjustments to mandatory fees in auxiliary programs may exceed three percent subject to annual approval by the University's Board*
50 *of Visitors to the extent required to effect budgetary alignment of revenues and expenditures. This exemption will be limited to the*
51 *period beginning in fiscal year 2019-20 and extending through the end of fiscal year 2023-24.*
- 52 b) This restriction shall not apply in the following instances: fee increases directly related to capital projects authorized by the
53 General Assembly; fee increases to support student health services; and other fee increases specifically authorized by the General

- 1 Assembly.
- 2 c) Due to the small mandatory non-educational and general program fees currently assessed students in the Virginia
3 Community College System, increases in any one year of no more than \$15 shall be allowed on a cost-justified case-by-case
4 basis, subject to approval by the State Board for Community Colleges.
- 5 9. Any institution of higher education granting new tuition waivers to resident or nonresident students not authorized by the
6 Code of Virginia must absorb the cost of any discretionary waivers.
- 7 10. Tuition and fee revenues from nonresident students taking courses through Virginia institutions from the Southern Regional
8 Education Board's Southern Regional Electronic Campus must exceed all direct and indirect costs of providing instruction to
9 those students. Tuition and fee rates to meet this requirement shall be established by the Board of Visitors of the institution.
- 10 c. HIGHER EDUCATION PLANNED EXCESS REVENUES:
- 11 An institution of higher education, except for those public institutions governed by Chapters 933 and 943 of the 2006 Acts of
12 Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, may
13 generate and retain tuition and fee revenues in excess of those provided in § 4-2.01 b Higher Education Tuition and Fees,
14 subject to the following:
- 15 1. Such revenues are identified by language in the appropriations in this act to any such institution.
- 16 2. The use of such moneys is fully documented by the institution to the Governor prior to each fiscal year and prior to
17 allotment.
- 18 3. The moneys are supplemental to, and not a part of, ongoing expenditure levels for educational and general programs used as
19 the basis for funding in subsequent biennia.
- 20 4. The receipt and expenditure of these moneys shall be recorded as restricted funds on the books of the Department of
21 Accounts and shall not revert to the surplus of the general fund at the end of the biennium.
- 22 5. Tuition and fee revenues generated by the institution other than as provided herein shall be subject to the provisions of § 4-
23 1.04 a.3 Gifts, Grants, and Other Nongeneral Funds of this act.
- 24 § 4-2.02 GENERAL FUND REVENUE
- 25 a. STATE AGENCY PAYMENTS INTO GENERAL FUND:

27 agencies from the sources indicated shall be paid immediately into the general fund of the state treasury:

3 § 4-3.01 DEFICITS

4 a. GENERAL:

5 1. Except as provided in this section no state agency shall incur a deficit. No state agency receiving general fund appropriations

7 expend moneys in excess of nongeneral fund revenues that are collected and appropriated.

8 2. The Governor is authorized to approve deficit funding for a state agency under the following conditions:

9 a) an unanticipated federal or judicial mandate has been imposed,

10 b) insufficient moneys are available in the first year of the biennium for start-up of General Assembly-approved action, or

11 c) delay pending action by the General Assembly at its next legislative session will result in the curtailment of services required by
12 statute or those required by federal mandate or will produce a threat to life, safety, health or property.

13 d) Such approval by the Governor shall be in writing under the conditions described in § 4-3.02 a Authorized Deficit Loans of this
14 act and shall be promptly communicated to the Chairmen of the House Appropriations and Senate Finance Committees within five
15 calendar days of deficit approval.

16 3. Deficits shall not be authorized for capital projects.

17 4. The Department of Transportation may obligate funds in excess of the current biennium appropriation for projects of a capital
18 nature not covered by § 4-4.00 Capital Projects, of this act provided such projects a) are delineated in the Virginia Transportation
19 Six-Year Improvement Program, as approved by the Commonwealth Transportation Board; and b) have sufficient cash allocated to
20 each such project to cover projected costs in each year of the Program; and provided that c) sufficient revenues are projected to meet
21 all cash obligations for such projects as well as all other commitments and appropriations approved by the General Assembly in the

23 b. UNAUTHORIZED DEFICITS: If any agency contravenes any of the prohibitions stated above, thereby incurring an unauthorized
24 deficit, the Governor is hereby directed to withhold approval of such excess obligation or expenditure. Further, there shall be no
25 reimbursement of said excess, nor shall there be any liability or obligation upon the state to make any appropriation hereafter to meet
26 such unauthorized deficit. Further, those members of the governing board of any such agency who shall have voted therefor, or its
27 head if there be no governing board, making any such excess obligation or expenditure shall be personally liable for the full amount
28 of such unauthorized deficit and, at the discretion of the Governor, shall be deemed guilty of neglect of official duty and be subject
29 to removal therefor. Further, the State Comptroller is hereby directed to make public any such unauthorized deficit, and the Director,
30 Department of Planning and Budget, is hereby directed to set out such unauthorized deficits in the next biennium budget. In addition,
31 the Governor is directed to bring this provision of this act to the attention of the members of the governing board of each state
32 agency, or its head if there be no governing board, within two weeks of the date that this act becomes effective. The governing board
33 or the agency head shall execute and return to the Governor a signed acknowledgment of such notification.

34 c. TOTAL AUTHORIZED DEFICITS: The amount which the Governor may authorize, under the provisions of this section during
35 the current biennium, to be expended from loans repayable out of the general fund of the state treasury, for all state agencies, or
36 other agencies combined, in excess of general fund appropriations for the current biennium, shall not exceed one and one-half
37 percent (1 1/2%) of the revenues collected and paid into the general fund of the state treasury as defined in § 4-2.02 b. of this act
38 during the last year of the previous biennium and the first year of the current biennium.

39 d. The Governor shall report any such authorized and unauthorized deficits to the Chairmen of the House Appropriations and Senate
40 Finance Committees within five calendar days of deficit approval. By August 15 of each year, the Governor shall provide a

43 a. AUTHORIZED DEFICIT LOANS: A state agency requesting authorization for deficit spending shall prepare a plan for the
44 Governor's review and approval, specifying appropriate financial, administrative and management actions necessary to eliminate the
45 deficit and to prevent future deficits. If the Governor approves the plan and authorizes a state agency to incur a deficit under the
46 provisions of this section, the amount authorized shall be obtained by the agency by borrowing the authorized amount on such terms
47 and from such sources as may be approved by the Governor. At the close of business on the last day of the current biennium, any
48 unexpended balance of such loan shall be applied toward repayment of the loan, unless such action is contrary to the conditions of
49 the loan approval. The Director, Department of Planning and Budget, shall set forth in the next biennial budget all such loans which
50 require an appropriation for repayment. A copy of the approved plan to eliminate the deficit shall be transmitted to the Chairmen of

39 central appropriations for capital project expenses in this act.
- 40 g. Preliminary Requirements: In regard to each capital project for which appropriation or reappropriation is made pursuant to
41 this act, or which is hereafter considered by the Governor for inclusion in the Executive Budget, or which is offered as a gift or
42 is considered for purchase, the Governor is hereby required: (1) to determine the urgency of its need, as compared with the need
43 for other capital projects as herein authorized, or hereafter considered; (2) to determine whether the proposed plans and
44 specifications for each capital project are suitable and adequate, and whether they involve expenditures which are excessive for
45 the purposes intended; (3) to determine whether labor, materials, and other requirements, if any, needed for the acquisition or
46 construction of such project can and will be obtained at reasonable cost; and (4) to determine whether or not the project
47 conforms to a site or master plan approved by the agency head or board of visitors of an institution of higher education for a
48 program approved by the General Assembly.
- 49 h. Initiation Generally:

- 5 3. The Governor, at his discretion, or his designee may release from any capital project appropriation or reappropriation made
 6 pursuant to this act such sum (or sums) as may be necessary to pay for the preparation of plans and specifications by architects and
 7 engineers, provided that the estimated cost of the construction covered by such drawings and specifications does not exceed the
 8 appropriation therefor; provided, further, however, that the architectural and engineering fees paid on completion of the preliminary
 9 design for any such project may be based on such estimated costs as may be approved by the Governor in writing, where it is shown
 10 to the satisfaction of the Governor that higher costs of labor or material, or both, or other unforeseen conditions, have made the
 11 appropriation inadequate for the completion of the project for which the appropriation was made, and where in the judgment of the
 12 Governor such changed conditions justify the payment of architectural or engineering fees based on costs exceeding the
 13 appropriation.
- 14 4. Architectural or engineering contracts shall not be awarded in perpetuity for capital projects at any state institution, agency or
 15 activity.
- 16 i. Capital Projects Financed with Bonds: Capital projects proposed to be financed with (i) 9 (c) general obligation bonds or (ii) 9(d)

 28 of higher education, and as described in § 4-4.01 j.1. of this act, on the current and projected cost to students in institutions of higher
 29 education and the impact of the project on the institution's need for student financial assistance. The State Council of Higher
 30 Education for Virginia shall report such information to the Secretary of Finance and the Chairmen of the House Appropriations and
 31 Senate Finance Committees no later than October 1 of each year.
- 32 3. Prior to the issuance of debt for 9(c) general obligation projects, when more than one year has elapsed since the review of
 33 financial feasibility specified in § 4-4.01 j 1 above, an updated feasibility study shall be prepared by the agency and reviewed by the
 34 State Treasurer prior to requesting the Governor's Opinion of Financial Feasibility required under Article X, Section 9 (c), of the
 35 Constitution of Virginia.
- 36 j. Transfers to supplement capital projects from nongeneral funds may be made under the conditions set forth in §§ 4-1.03 a, 4-1.04
 37 a.3, and 4-4.01 m of this act.
- 38 k.1. Change in Size and Scope: Unless otherwise provided by law, the scope, which is the function or intended use, of any capital
 39 project may not be substantively changed, nor its size increased or decreased by more than five percent in size beyond the plans and
 40 justification which were the basis for the appropriation or reappropriation in this act or for the Governor's authorization pursuant to §
 41 4-4.01 m of this act. However, this prohibition is not applicable to changes in size and scope required because of circumstances
 42 determined by the Governor to be an emergency, or requirements imposed by the federal government when such capital project is
 43 for armories or other defense-related installations and is funded in whole or in part by federal funds. Furthermore, this prohibition
 44 shall not apply to minor increases, beyond five percent, in square footage determined by the Director, Department of General
 45 Services, to be reasonable and appropriate based on a written justification submitted by the agency stating the reason for the
 46 increase, with the provision that such increase will not increase the cost of the project beyond the amount appropriated; nor to
 47 decreases in size beyond five percent to offset unbudgeted costs when such costs are determined by the Director, Department of
 48 Planning and Budget, to be reasonable based on a written justification submitted by the agency specifying the amount and nature of
 49 the unbudgeted costs and the types of actions that will be taken to decrease the size of the project. The written justification shall also
 50 include a certification, signed by the agency head, that the resulting project will be consistent with the original programmatic intent
 51 of the appropriations.
- 52 2. If space planning, energy conservation, and environmental standards guides for any type of construction have been approved by
 53 the Governor or the General Assembly, the Governor shall require capital projects to conform to such planning guides.
- 54 l. Projects Not Included In This Act:
- 55 1. Authorization by Governor:

1 a) The Governor may authorize initiation of, planning for, construction of or acquisition of a nongeneral fund capital project not
 2 specifically included in this act or provided for a program approved by the General Assembly through appropriations, under
 3 one or more of the following conditions:

- 4 1) The project is required to meet an emergency situation.
- 5 2) The project is to be operated as an auxiliary enterprise or sponsored program in an institution of higher education and will be
 6 fully funded by revenues of auxiliary enterprises or sponsored programs.
- 7 3) The project is to be operated as an educational and general program in an institution of higher education and will be fully
 8 funded by nongeneral fund revenues of educational and general programs or from private gifts and indirect cost recoveries.
- 9 4) The project consists of plant or property which has become available or has been received as a gift.
- 10 5) The project has been recommended for funding by the Tobacco Indemnification and Community Revitalization Commission
 11 or the Virginia Tobacco Settlement Foundation.

12 b) The foregoing conditions are subject to the following criteria:

- 13 1) Funds are available within the appropriations made by this act (including those subject to §§ 4-1.03 a, 4-1.04 a.3, and 4-2.03)
 14 without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances.
- 15 2) In the Governor's opinion such action may avoid an increase in cost or otherwise result in a measurable benefit to the state.
- 16 3) The authorization includes a detailed description of the project, the project need, the total project cost, the estimated
 17 operating costs, and the fund sources for the project and its operating costs.
- 18 4) The Chairmen of the House Appropriations and Senate Finance Committees shall be notified by the Governor prior to the
 19 authorization of any capital project under the provisions of this subsection.
- 20 5) Permanent funding for any project initiated under this section shall only be from nongeneral fund sources.

21 2. Authorization by Director, Department of Planning and Budget:

22 a) The Director, Department of Planning and Budget, may authorize initiation of a capital project not included in this act, if the
 23 General Assembly has enacted legislation to fund the project from bonds of the Virginia Public Building Authority, Virginia
 24 College Building Authority, or from reserves created by refunding of bonds issued by those Authorities.

25 3. Delegated authorization by Boards of Visitors, Public Institutions of Higher Education:

26 a) In accordance with § 4-5.06 of this act, the board of visitors of any public institution of higher education that: i) has met the
 27 eligibility criteria set forth in Chapters 933 and 945 of the 2005 Acts of Assembly for additional operational and administrative
 28 autonomy, including having entered into a memorandum of understanding with the Secretary of Administration for delegated
 29 authority of nongeneral fund capital outlay projects, and ii) has received a sum sufficient nongeneral fund appropriation for
 30 emergency projects as set out in Part 2: Capital Project Expenses of this act, may authorize the initiation of any capital project
 31 that is not specifically set forth in this act provided that the project meets at least one of the conditions and criteria identified in
 32 § 4-4.01 m 1 of this act.

33 b) At least 30 days prior to the initiation of a project under this provision, the board of visitors must notify the Governor and
 34 Chairmen of the House Appropriations and Senate Finance Committees and must provide a life-cycle budget analysis of the
 35 project. Such analysis shall be in a form to be prescribed by the Auditor of Public Accounts.

36 c) The Commonwealth of Virginia shall have no general fund obligation for the construction, operation, insurance, routine
 37 maintenance, or long-term maintenance of any project authorized by the board of visitors of a public institution of higher
 38 education in accordance with this provision.

39 m. Acquisition, maintenance, and operation of buildings and nonbuilding facilities in colleges and universities shall be subject
 40 to the following policies:

41 1. The anticipated program use of the building or nonbuilding facility should determine the funding source for expenditures for
 42 acquisition, construction, maintenance, operation, and repairs.

43 2. Expenditures for land acquisition, site preparation beyond five feet from a building, and the construction of additional
 44 outdoor lighting, sidewalks, outdoor athletic and recreational facilities, and parking lots in the Virginia Community College
 45 System shall be made only from appropriated federal funds, Trust and Agency funds, including local government allocations or
 46 appropriations, or the proceeds of indebtedness authorized by the General Assembly.

47 3. The general policy of the Commonwealth shall be that parking services are to be operated as an auxiliary enterprise by all

- 1 colleges and universities. Institutions should develop sufficient reserves for ongoing maintenance and replacement of parking
2 facilities.
- 3 4. Except as provided in paragraph 2 above, expenditures for maintenance, replacement, and repair of outdoor lighting, sidewalks,
4 and other infrastructure facilities may be made from any appropriated funds.
- 5 5. Expenditures for operations, maintenance, and repair of athletic, recreational, and public service facilities, both indoor and
6 outdoor, should be from nongeneral funds. However, this condition shall not apply to any indoor recreational facility existing on a
7 community college campus as of July 1, 1988.
- 8 6.a.1. At institutions of higher education that have met the eligibility criteria for additional operational and administrative authority
9 as set forth in Chapters 933 and 945 of the 2005 Acts of Assembly or Chapters 824 and 829 of the 2008 Acts of Assembly, any
10 repair, renovation, or new construction project costing up to \$3,000,000 shall be exempt from the capital outlay review and approval
11 process. For purposes of this paragraph, projects shall not include any subset of a series of projects, which in combination would
12 exceed the \$3,000,000 maximum.
- 13 2. All state agencies and institutions of higher education shall be exempt from the capital review and approval process for repair,
14 renovation, or new construction projects costing up to \$3,000,000.
- 15 b. Blanket authorizations funded entirely by nongeneral funds may be used for 1) renovation and infrastructure projects costing up to
16 \$3,000,000 and 2) the planning of nongeneral fund new construction and renovation projects through bidding, with bid award made
17 after receipt of a construction authorization. The Director, Department of Planning and Budget, may provide exemptions to the
18 threshold.
- 19 7. It is the policy of the Commonwealth that the institutions of higher education shall treat the maintenance of their facilities as a
20 priority for the allocation of resources. No appropriations shall be transferred from the "Operation and Maintenance of Plant"
21 subprogram except for closely and definitely related purposes, as approved by the Director, Department of Planning and Budget, or
22 his designee. A report providing the rationale for each approved transfer shall be made to the Chairmen of the House Appropriations
23 and Senate Finance Committees.
- 24 n. Legislative Intent and Reporting: Appropriations for capital projects shall be deemed to have been made for purposes which
25 require their expenditure, or being placed under contract for expenditure, during the current biennium. Agencies to which such
26 appropriations are made in this act or any other act are required to report progress as specified by the Governor. If, in the opinion of
27 the Governor, these reports do not indicate satisfactory progress, he is authorized to take such actions as in his judgment may be
28 necessary to meet legislative intent as herein defined. Reporting on the progress of capital projects shall be in accordance with § 4-
29 8.00, Reporting Requirements.
- 30 o. No expenditure from a general fund appropriation in this act shall be made to expand or enhance a capital outlay project beyond
31 that anticipated when the project was initially approved by the General Assembly except to comply with requirements imposed by
32 the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in
33 part by federal funds. General fund appropriations in excess of those necessary to complete the project shall not be reallocated to
34 expand or enhance the project, or be reallocated to a different project. The prohibitions in this subsection shall not apply to transfers
35 from projects for which reappropriations have been authorized.
- 36 p. Local or private funds to be used for the acquisition, construction or improvement of capital projects for state agency use as owner
37 or lessee shall be deposited into the state treasury for appropriation prior to their expenditure for such projects.
- 38 q. State-owned Registered Historic Landmarks: To guarantee that the historical and/or architectural integrity of any state-owned
39 properties listed on the Virginia Landmarks Register and the knowledge to be gained from archaeological sites will not be adversely
40 affected because of inappropriate changes, the heads of those agencies in charge of such properties are directed to submit all plans
41 for significant alterations, remodeling, redecoration, restoration or repairs that may basically alter the appearance of the structure,
42 landscaping, or demolition to the Department of Historic Resources. Such plans shall be reviewed within thirty days and the
43 comments of that department shall be submitted to the Governor through the Department of General Services for use in making a
44 final determination.
- 45 r.1. The Governor may authorize the conveyance of any interest in property or improvements thereon held by the Commonwealth to
46 the educational or real estate foundation of any institution of higher education where he finds that such property was acquired with
47 local or private funds or by gift or grant to or for the use of the institution, and not with funds appropriated to the institution by the
48 General Assembly. Any approved conveyance shall be exempt from § 2.2-1156, Code of Virginia, and any other statute concerning
49 conveyance, transfer or sale of state property. If the foundation conveys any interest in the property or any improvements thereon,
50 such conveyance shall likewise be exempt from compliance with any statute concerning disposition of state property. Any income or
51 proceeds from the conveyance of any interest in the property shall be deemed to be local or private funds and may be used by the
52 foundation for any foundation purpose.
- 53 2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of
54 Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters

- 1 675 and 685 of the 2009 Acts of Assembly.
- 2 s.1. Facility Lease Agreements Involving Institutions of Higher Education: In the case of any lease agreement involving state-
 3 owned property controlled by an institution of higher education, where the lease has been entered into consistent with the
 4 provisions of § 2.2-1155, Code of Virginia, the Governor may amend, adjust or waive any project review and reporting
 5 procedures of Executive agencies as may reasonably be required to promote the property improvement goals for which the
 6 lease agreement was developed.
- 7 2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of
 8 Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and
 9 Chapters 675 and 685 of the 2009 Acts of Assembly.
- 10 t. Energy-efficiency Projects: Improvements to state-owned properties for the purpose of energy-efficiency shall be treated as
 11 follows:
- 12 1. Such improvements shall be considered an operating expense, provided that:
- 13 a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of
 14 Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-
 15 1989 and is limited to measures listed in guidelines issued by the Department of General Services;
- 16 b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board
 17 approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General
 18 Services;
- 19 c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;
- 20 d) the total cost does not exceed \$3,000,000; and
- 21 e) if the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, the energy savings from the project offset the total cost
 22 of the project, including debt service and interest payments.
- 23 2. If (a) the total cost of the improvement exceeds \$7,000,000 or (b) the total cost exceeds \$3,000,000, but does not exceed
 24 \$7,000,000, and the energy savings from the project do not fully offset the total cost of the project, including debt services and
 25 interest payments, the improvement shall be considered a capital expense regardless of the type of improvement and the
 26 following conditions must be met:
- 27 a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of
 28 Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-
 29 1989 and is limited to measures listed in guidelines issued by the Department of General Services;
- 30 b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board
 31 approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General
 32 Services;
- 33 c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;
- 34 d) the project has been reviewed by the Department of Planning and Budget; and
- 35 e) the project has been approved by the Governor.
- 36 3. If the total project exceeds \$250,000, the agency director will submit written notification to the Director, Department of
 37 Planning and Budget, verifying that the project meets all of the conditions in subparagraph 1 above.
- 38 The provisions of §§ 2.0 and 4-4.01 of this act and the provisions of § 2.2-1132, Code of Virginia, shall not apply to energy
 39 conservation projects that qualify as capital expenses.
- 40 4. As used in this paragraph, “improvement” does not include (a) constructing, enlarging, altering, repairing or demolishing a
 41 building or structure, (b) changing the use of a building either within the same use group or to a different use group when the
 42 new use requires greater degrees of structural strength, fire protection, exit facilities or sanitary provisions, or (c) removing or
 43 disturbing any asbestos-containing materials during demolition, alteration, renovation of or additions to building or structures.
 44 If the projected scope of an energy-efficiency project includes any of these elements, it shall be subject to the capital outlay
 45 process as set out in this section.
- 46 5. The Director, Department of Planning and Budget, shall notify the Chairmen of the House Appropriations and Senate
 47 Finance Committees upon the initiation of any energy-efficiency projects under the provisions of this paragraph.
- 48 u. No expenditures shall be authorized for the purchase of fee simple title to any real property to be used for a correctional

1 facility or for the actual construction of a correctional facility provided for in this act, or by reference hereto, that involves
 2 acquisition or new construction of youth or adult correctional facilities on real property which was not owned by the Commonwealth
 3 on January 1, 1995, until the governing body of the county, city or town wherein the project is to be located has adopted a resolution
 4 supporting the location of such project within the boundaries of the affected jurisdiction. The foregoing does not prohibit
 5 expenditures for site studies, real estate options, correctional facility design and related expenditures.

6 v. Except for institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and
 7 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, any alternative financing agreement
 8 entered into between a state agency or institution of higher education and a private entity or affiliated foundation must be reviewed
 9 and approved by the Treasury Board.

10 w. Prior to requesting authorization for new dormitory capital projects, institutions of higher education shall conduct a cost study to
 11 determine whether an alternative financing arrangement or public-private transaction would provide a more effective option for the
 12 construction of the proposed facility. This study shall be submitted to the Department of Planning and Budget as part of the budget
 13 development process and shall be evaluated by the Governor prior to submitting his proposed budget.

14 x. Construction or improvement projects of the Department of Military Affairs are not exempt from the capital outlay review process
 15 when the state procurement process is utilized, except for those projects with both an estimated cost of \$3,000,000 or less and are
 16 100 percent federally reimbursed. The Department of Military Affairs shall submit by July 30 of each year to the Department of
 17 Planning and Budget a list of such projects that were funded pursuant to this exemption in the previous fiscal year and any projects
 18 that would be eligible for such funding in future fiscal years.

19 § 4-4.02 PLANNING AND BUDGETING

20 a. It shall be the intent of the General Assembly to make biennial appropriations for a capital improvements program sufficient to
 21 address the program needs of the Commonwealth. The capital improvements program shall include maintenance and deferred
 22 maintenance of the Commonwealth's existing facilities, and of the facility requirements necessary to deliver the programs of state
 23 agencies and institutions.

24 b. In effecting these policies, the Governor shall establish a capital budget plan to address the renewal and replacement of the
 25 Commonwealth's physical plant, using such guidelines as recommended by industry or government to maintain the Commonwealth's
 26 investment in its property and plant.

27 § 4-5.00 SPECIAL CONDITIONS AND RESTRICTIONS ON EXPENDITURES

28 § 4-5.01 TRANSACTIONS WITH INDIVIDUALS

29 a. SETTLEMENT OF CLAIMS: Whenever a dispute, claim or controversy involving the interest of the Commonwealth is settled
 30 pursuant to § 2.2-514, Code of Virginia, payment may be made out of any appropriations, designated by the Governor, to the state
 31 agency(ies) which is (are) party to the settlement.

32 b. STUDENT FINANCIAL ASSISTANCE FOR HIGHER EDUCATION:

33 1. General:

34 a) The appropriations made in this act to state institutions of higher education within the Items for student financial assistance may
 35 be expended for any one, all, or any combination of the following purposes: grants to undergraduate students enrolled at least one-
 36 half time in a degree, certificate, industry-based certification and related programs that do not qualify for other sources of student
 37 financial assistance or diploma program; grants to full-time graduate students; graduate assistantships: grants to students enrolled
 38 full-time in a dual or concurrent undergraduate and graduate program. The institutions may also use these appropriations for the
 39 purpose of supporting work study programs. The institution is required to transfer to educational and general appropriations all funds
 40 used for work study or to pay graduate assistantships. Institutions may also contribute to federal or private student grant aid
 41 programs requiring matching funds by the institution, except for programs requiring work. The State Council of Higher Education
 42 for Virginia shall annually review each institution's plan for the expenditures of its general fund appropriation for undergraduate
 43 student financial assistance prior to the start of the fall term to determine program compliance. The institution's plan shall include the
 44 institution's assumptions and calculations for determining the cost of attendance, student financial need, and student remaining need
 45 as well as an award schedule or description of how funds are awarded. For the purposes of the proposed plan, each community
 46 college shall be considered independently. No limitations shall be placed on the awarding of nongeneral fund appropriations made in
 47 this act to state institutions of higher education within the Items for student financial assistance other than those found previously in
 48 this paragraph and as follows: (i) funds derived from in-state student tuition will not subsidize out-of-state students, (ii) students
 49 receiving these funds must be making satisfactory academic progress, (iii) awards made to students should be based primarily on
 50 financial need, and (iv) institutions should make larger grant and scholarship awards to students taking the number of credit hours
 51 necessary to complete a degree in a timely manner.

52 b) All awards made to undergraduate students from such Items shall be for Virginia students only and such awards shall offset all, or
 53 portions of, the costs of tuition and required fees, and, in the case of students qualifying under subdivision b 2 c)1) hereof, the cost of

- 1 books. All undergraduate financial aid award amounts funded by this appropriation shall be proportionate to the remaining need
 2 of individual students, with students with higher levels of remaining need receiving grants before other students. No criteria
 3 other than the need of the student shall be used to determine the award amount. Because of the low cost of attendance and
 4 recognizing that federal grants provide a much higher portion of cost than at other institutions, a modified approach and
 5 minimum award amount for the neediest VGAP student should be implemented for community college and Richard Bland
 6 College students based on remaining need and the combination of federal and grant state aid. Student financial need shall be
 7 determined by a need-analysis system approved by the Council.
- 8 c)1) All need-based awards made to graduate students shall be determined by the use of a need-analysis system approved by the
 9 Council.
- 10 2) As part of the six-year financial plans required in the provisions of Chapters 933 and 945 of the 2005 Acts of Assembly,
 11 each institution of higher education shall report the extent to which tuition and fee revenues are used to support graduate
 12 student aid and graduate compensation and how the use of these funds impacts planned increases in student tuition and fees.
- 13 d) A student who receives a grant under such Items and who, during a semester, withdraws from the institution which made the
 14 award must surrender the unearned portion. The institution shall calculate the unearned portion of the award based on the
 15 percentage used for federal Return to Title IV program purposes.
- 16 e) An award made under such Items to assist a student in attending an institution's summer session shall be prorated according
 17 to the size of comparable awards made in that institution's regular session.
- 18 f) The provisions of this act under the heading "Student Financial Assistance for Higher Education" shall not apply to (1) the
 19 soil scientist scholarships authorized under § 23.1-615, Code of Virginia and (2) need-based financial aid programs for
 20 industry-based certification and related programs that do not qualify for other sources of student financial assistance, which will
 21 be subject to guidelines developed by the State Council of Higher Education for Virginia.
- 22 g) Unless noted elsewhere in this act, general fund awards shall be named "Commonwealth" grants.
- 23 h) Unless otherwise provided by statute, undergraduate awards shall not be made to students seeking a second or additional
 24 baccalaureate degree until the financial aid needs of first-degree seeking students are fully met.
- 25 2. Grants To Undergraduate Students:
- 26 a) Each institution which makes undergraduate grants paid from its appropriation for student financial assistance shall expend
 27 such sums as approved for that purpose by the Council.
- 28 b) A student receiving an award must be duly admitted and enrolled in a degree, certificate or diploma program at the
 29 institution making the award, and shall be making satisfactory academic progress as defined by the institution for the purposes
 30 of eligibility under Title IV of the federal Higher Education Act, as amended.
- 31 c)1) It is the intent of the General Assembly that students eligible under the Virginia Guaranteed Assistance Program (VGAP)
 32 authorized in Title 23.1, Chapter 4.4:2, Code of Virginia, shall receive grants before all other students at the same institution
 33 with equivalent remaining need from the appropriations for undergraduate student financial assistance found in Part 1 of this
 34 act (service area 1081000 - Scholarships). In each instance, VGAP eligible students shall receive awards greater than other
 35 students with equivalent remaining need.
- 36 2) The amount of each VGAP grant shall vary according to each student's remaining need and the total of tuition, all required
 37 fees and the cost of books at the institution the student will attend upon acceptance for admission. The actual amount of the
 38 VGAP award will be determined by the proportionate award schedule adopted by each institution; however, those students with
 39 the greatest financial need shall be guaranteed an award at least equal to tuition.
- 40 3) It is the intent of the General Assembly that the Virginia Guaranteed Assistance Program serve as an incentive to financially
 41 needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic
 42 performance and to consider higher education an achievable objective in their futures.
- 43 4) Students may not receive a VGAP and a Commonwealth grant in the same semester.
- 44 3. Grants To Graduate Students:
- 45 a) An individual award may be based on financial need but may, in addition to or instead of, be based on other criteria
 46 determined by the institution making the award. The amount of an award shall be determined by the institution making the
 47 award; however, the Council shall annually be notified as to the maximum size of a graduate award that is paid from funds in
 48 the appropriation.
- 49 b) A student receiving a graduate award paid from the appropriation must be duly admitted into a graduate degree program at
 50 the institution making the award.

1 c) Not more than 50 percent of the funds designated by an institution as graduate grants from the appropriation, and approved as
 2 such by the Council, shall be awarded to persons not eligible to be classified as Virginia domiciliary resident students except in cases
 3 where the persons meet the criteria outlined in § 4-2.01b.6.

4 4. Matching Funds: Any institution of higher education may, with the approval of the Council, use funds from its appropriation for
 5 fellowships and scholarships to provide the institutional contribution to any student financial aid program established by the federal
 6 government or private sources which requires the matching of the contribution by institutional funds, except for programs requiring
 7 work.

8 5. Discontinued Loan Program:

9 a) If any federal student loan program for which the institutional contribution was appropriated by the General Assembly is
 10 discontinued, the institutional share of the discontinued loan program shall be repaid to the fund from which the institutional share
 11 was derived unless other arrangements for the use of the funds are recommended by the Council and approved by the Department of
 12 Planning and Budget. Should the institution be permitted to retain the federal contributions to the program, the funds shall be used
 13 according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

14 b)1) An institution of higher education may discontinue its student loan fund established pursuant to Title 23.1, Chapter 4.01, Code
 15 of Virginia. The full amount of cash in such discontinued loan fund shall be paid into the state treasury into a nonrevertible
 16 nongeneral fund account. Prior to such payment, the State Comptroller shall verify its accuracy, including the fact that the cash held
 17 by the institution in the loan fund will be fully depleted by such payment. The loan fund shall not be reestablished thereafter for that
 18 institution.

19 2) The cash so paid into the state treasury shall be used only for grants to undergraduate and graduate students in the Higher
 20 Education Student Financial Assistance program according to arrangements authorized by the Council and approved by the
 21 Department of Planning and Budget.

22 3) Payments on principal and interest of any promissory notes held by the discontinued loan fund shall continue to be received by
 23 the institution, which shall deposit such payments in the state treasury to the nonrevertible nongeneral fund account specified in
 24 subdivision (1) preceding, to be used for grants as specified in subdivision (2) preceding.

25 6. Reporting: The Council shall collect student-specific information for undergraduate students as is necessary for the operation of
 26 the Student Financial Assistance Program. The Council shall maintain regulations governing the operation of the Student Financial
 27 Assistance Program based on the provisions outlined in this section, the Code of Virginia, and State Council policy.

28 C. PAYMENTS TO CITIZEN MEMBERS OF NONLEGISLATIVE BODIES:

29 Notwithstanding any other provision of law, executive branch agencies shall not pay compensation to citizen members of boards,
 30 commissions, authorities, councils, or other bodies from any fund for the performance of such members' duties in the work of the
 31 board, commission, authority, council, or other body.

32 d. VIRGINIA BIRTH-RELATED NEUROLOGICAL INJURY COMPENSATION PROGRAM

33 1. Notwithstanding any other provision of law, the Virginia Birth-Related Neurological Injury Compensation Program is authorized
 34 to require each admitted claimant's parent or legal guardian to purchase private health insurance (the "primary payer") to provide
 35 coverage for the actual medically necessary and reasonable expenses as described in Virginia Code § 38.2-5009(A)(1) that were, or are,
 36 incurred as a result of the admitted claimant's birth-related neurological injury and for the admitted claimant's benefit. Provided,
 37 however, that the Program shall reimburse, upon receipt of proof of payment, solely the portion of the premiums that is attributable to
 38 the admitted claimant's post-admission coverage from the effective date of this provision forward and paid for by the admitted
 39 claimant's parent or legal guardian.

40 2. The State Corporation Commission shall develop a report containing options and recommendations for improving the actuarial
 41 soundness of financing for the Virginia Birth-Related Neurological Injury Compensation Program. The report shall be presented to the
 42 Governor and Chairmen of the House Appropriations and Senate Finance Committees no later than November 1, 2017.

43 § 4-5.02 THIRD PARTY TRANSACTIONS

44 a. EMPLOYMENT OF ATTORNEYS:

45 1.a) All attorneys authorized by this act to be employed by any state agency and all attorneys compensated out of any moneys
 46 appropriated in this session of the General Assembly shall be appointed by the Attorney General and be in all respects subject to the
 47 provisions of Title 2.2, Chapter 5, Code of Virginia, to the extent not to conflict with Title 12.1, Chapter 4, Code of Virginia;
 48 provided, however, that if the Governor certifies the need for independent legal counsel for any Executive Department agency, such
 49 agency shall be free to act independently of the Office of the Attorney General in regard to selection, and provided, further, that
 50 compensation of such independent legal counsel shall be paid from the moneys appropriated to such Executive Department agency
 51 or from the moneys appropriated to the Office of the Attorney General.

1 b) For purposes of this act, "attorney" shall be defined as an employee or contractor who represents an agency before a court,
 2 board or agency of the Commonwealth of Virginia or political subdivision thereof. This term shall not include members of the
 3 bar employed by an agency who perform in a capacity that does not require a license to practice law, including but not limited
 4 to, instructing, managing, supervising or performing normal or customary duties of that agency.

5 2. This section does not apply to attorneys employed by state agencies in the Legislative Department, Judicial Department or
 6 Independent Agencies.

7 3. Reporting on employment of attorneys shall be in accordance with § 4-8.00, Reporting Requirements.

8 4. Notwithstanding § 2.2-510.1 of the Code of Virginia and any other conflicting provision of law, the Virginia Retirement
 9 System may enter into agreements to seek i) recovery of investment losses in foreign jurisdictions, and ii) legal advice related
 10 to its investments. Any such agreements shall be reported to the Office of the Attorney General as soon as practicable.

11 b. STUDIES AND CONSULTATIVE SERVICES REQUIRED BY GENERAL ASSEMBLY: No expenditure for payments
 12 on third party nongovernmental contracts for studies or consultative services shall be made out of any appropriation to the
 13 General Assembly or to any study group created by the General Assembly, nor shall any such expenditure for third party
 14 nongovernmental contracts be made by any Executive Department agency in response to a legislative request for a study,
 15 without the prior approval of two of the following persons: the Chairman of the House Appropriations Committee; the
 16 Chairman of the Senate Finance Committee; the Speaker of the House of Delegates; the President pro tempore of the Senate.
 17 All such expenditures shall be made only in accordance with the terms of a written contract approved as to form by the
 18 Attorney General.

19 c. USE OF CONSULTING SERVICES: All state agencies and institutions of higher education shall make a determination of
 20 "return on investment" as part of the criteria for awarding contracts for consulting services.

21 d. DEBT COLLECTION SERVICES:

22 1. Notwithstanding any provision of the Code of Virginia or this act to the contrary, the Virginia Commonwealth University
 23 Health System Authority shall have the option to participate in the Office of the Attorney General's debt collection process.
 24 Should the Authority choose not to participate, the Authority shall have the authority to collect its accounts receivable by
 25 engaging private collection agents and attorneys to pursue collection actions, and to independently compromise, settle, and
 26 discharge accounts receivable claims.

27 2. Notwithstanding any provision of the Code of Virginia or this act to the contrary, the University of Virginia Medical Center
 28 shall have the authority to collect its accounts receivable by engaging private collection agents and attorneys to pursue
 29 collection actions, and to independently compromise, settle, and discharge accounts receivable claims, provided that the
 30 University of Virginia demonstrates to the Secretary of Finance that debt collection by an agent other than the Office of the
 31 Attorney General is anticipated to be more cost effective. Nothing in this paragraph is intended to limit the ability of the
 32 University of Virginia Medical Center from voluntarily contracting with the Office of the Attorney General's Division of Debt
 33 Collection in cases where the Center would benefit from the expertise of legal counsel and collection services offered by the
 34 Office of the Attorney General.

35 3. Notwithstanding any provision of the Code of Virginia or this act to the contrary, the Department of Taxation shall be
 36 exempt from participating in the debt collection process of the Office of the Attorney General.

37 § 4-5.03 SERVICES AND CLIENTS

38 a. CHANGED COST FACTORS:

39 1. No state agency, or its governing body, shall alter factors (e.g., qualification level for receipt of payment or service) which
 40 may increase the number of eligible recipients for its authorized services or payments, or alter factors which may increase the
 41 unit cost of benefit payments within its authorized services, unless the General Assembly has made an appropriation for the
 42 cost of such change.

43 2. Notwithstanding any other provision of law, the Department of Planning and Budget, with assistance from agencies that
 44 operate internal service funds as requested, shall establish policies and procedures for annually reviewing and approving
 45 internal service fund overhead surcharge rates and working capital reserves.

46 3. By September 1 each year, state agencies that operate an internal service fund, pursuant to §§ 2.2-803, 2.2-1101, and 2.2-
 47 2013, Code of Virginia, that have an impact on agency expenditures, shall submit a report to the Department of Planning and
 48 Budget and the Joint Legislative Audit and Review Commission to include all information as required by the Department of
 49 Planning and Budget to conduct a thorough review of overhead surcharge rates, revenues, expenditures, full-time positions, and
 50 working capital reserves for each internal service fund. The report shall include any proposed modifications in rates to be
 51 charged by internal service funds for review and approval by the Department of Planning and Budget. In its review, the
 52 Department of Planning and Budget shall determine whether the requested rate modifications are consistent with budget
 53 assumptions. The format by which agencies submit the operating plan for each internal service fund shall be determined by the

- 1 Department of Planning and Budget with assistance from agencies that operate internal service funds as requested.
- 2 4. State agencies that operate internal service funds may not change a billable overhead surcharge rate to another state agency unless
3 the resulting change is provided in the final General Assembly enacted budget.
- 4 5. State agencies that operate more than one internal service fund shall comply with the review and approval requirements detailed in
5 this Item for each internal service fund.
- 6 6. As determined by the Director, Department of Planning and Budget, state agencies that operate select programs where an agency
7 provides a service to and bills other agencies shall be subject to the annual review of the agency's internal service funds consistent
8 with the provisions of this Item, unless such payment for services is pursuant to a memorandum of understanding authorized by § 4-
9 1.03 a. 7 of this act.
- 10 7. The Governor is authorized to change internal service fund overhead surcharge rates, including the creation of new rates, beyond
11 the rates enacted in the budget in the event of an emergency or to implement actions approved by the General Assembly, upon prior
12 notice to the Chairmen of the House Appropriations and Senate Finance Committees. Such prior notice shall be no less than five
13 days prior to enactment of a revised or new rate and shall include the basis of the rate change and the impact on state agencies.
- 14 8. Notwithstanding any other provision of law, the Commonwealth's statewide electronic procurement system and program known
15 as eVA shall have all rates and working capital reserves reviewed and approved by the Department of Planning and Budget
16 consistent with the provisions of this Item.
- 17 9. State agencies that are partially or fully funded with nongeneral funds and are billed for services provided by another state agency
18 shall pay the nongeneral fund cost for the service from the agency's applicable nongeneral fund revenue source consistent with an
19 appropriation proration of such expenses.
- 20 b. NEW SERVICES:
- 21 1. No state agency shall begin any new service that will call for future additional property, plant or equipment or that will require an
22 increase in subsequent general or nongeneral fund operating expenses without first obtaining the authorization of the General
23 Assembly.
- 24 2. Pursuant to the policies and procedures of the State Council of Higher Education regarding approval of academic programs and
25 the concomitant enrollment, no state institution of higher education shall operate any academic program with funds in this act unless
26 approved by the Council and included in the Executive Budget, or approved by the General Assembly. The Council may grant
27 exemptions to this policy in exceptional circumstances.
- 28 3. a) The General Assembly is supportive of the increasing commitment by both Virginia Tech and the Carilion Clinic to the
29 success of the programs at the Virginia Tech/Carilion School of Medicine and the Virginia Tech/Carilion Research Institute, and
30 encourages these two institutions to pursue further developments in their partnership. Therefore, notwithstanding § 4-5.03 c. of the
31 Appropriation Act, if through the efforts of these institutions to further strengthen the partnership, Virginia Tech acquires the
32 Virginia Tech Carilion School of Medicine during the current biennium, the General Assembly approves the creation and
33 establishment of the Virginia Tech/Carilion School of Medicine within the institution notwithstanding § 23.1-203 Code of Virginia.
34 No additional funds are required to implement establishment of the Virginia Tech/Carilion School of Medicine within the institution.
- 35 b) Virginia Tech Carilion School of Medicine is hereby authorized to transfer funds to the Department of Medical Assistance
36 Services to fully fund the state share for Medicaid supplemental payments to the teaching hospital affiliated with the Virginia Tech
37 Carilion School of Medicine. These Medicaid supplemental fee-for-service and/or capitation payments to managed care
38 organizations are for the purpose of securing access to Medicaid hospital services in Western Virginia. The funds to be transferred
39 must comply with 42 CFR 433.51.
- 40 4. Reporting on all new services shall be in accordance with § 4-8.00, Reporting Requirements.
- 41 c. OFF-CAMPUS SITES OF INSTITUTIONS OF HIGHER EDUCATION:
- 42 No moneys appropriated by this act shall be used for off-campus sites unless as provided for in this section.
- 43 1. A public college or university seeking to create, establish, or operate an off-campus instructional site, funded directly or indirectly
44 from the general fund or with revenue from tuition and mandatory educational and general fees generated from credit course
45 offerings, shall first refer the matter to the State Council of Higher Education for Virginia for its consideration and approval. The
46 State Council of Higher Education for Virginia may provide institutions with conditional approval to operate the site for up to one
47 year, after which time the college or university must receive approval from the Governor and General Assembly, through legislation
48 or appropriation, to continue operating the site.
- 49 2. For the colleges of the Virginia Community College System, the State Board for Community Colleges shall be responsible for
50 approving off-campus locations. Sites governed by this requirement are those at any locations not contiguous to the main campus of
51 the institution, including locations outside Virginia.

1 3. a) The provisions herein shall not apply to credit offerings on the site of a public or private entity if the offerings are
 2 supported entirely with private, local, or federal funds or revenue from tuition and mandatory educational and general fees
 3 generated entirely by course offerings at the site.

4 b) Offerings at previously approved off-campus locations shall also not be subject to these provisions.

5 c) Further, the provisions herein do not govern the establishment and operations of campus sites with a primary function of
 6 carrying out grant and contract research where direct and indirect costs from such research are covered through external
 7 funding sources. Such locations may offer limited graduate education as appropriate to support the research mission of the site.

8 d) Nothing herein shall prohibit an institution from offering non-credit continuing education programs at sites away from the
 9 main campus of a college or university.

10 4. The State Council of Higher Education shall establish guidelines to implement this provision.

11 d. PERFORMANCE MEASUREMENT

12 1. In accordance with § 2.2-1501, Code of Virginia, the Department of Planning and Budget shall develop a programmatic
 13 budget and accounting structure for all new programs and activities to ensure that it provides the appropriate financial and
 14 performance measures to determine if programs achieve desired results and outcomes. The Department of Accounts shall
 15 provide assistance as requested by the Department of Planning and Budget. The Department of Planning and Budget shall
 16 provide this information each year when the Governor submits the budget in accordance with § 2.2-1509, Code of Virginia, to
 17 the Chairmen of the House Appropriations, House Finance, and Senate Finance Committees.

18 2.a) Within thirty days of the enactment of this act, the Director, Department of Planning and Budget, shall make available via
 19 electronic means to the Chairmen of the House Appropriations and Senate Finance Committees and the public a list of the new
 20 initiatives for which appropriations are provided in this act.

21 b) Not later than ninety days after the end of the first year of the biennium, the Director, Department of Planning and Budget,
 22 shall make available via electronic means a report on the performance of each new initiative contained in the list, to be
 23 submitted to the Chairmen of the House Appropriations and Senate Finance Committees and the public. The report shall
 24 compare the actual results, including expenditures, of the initiative with the anticipated results and the appropriation for the
 25 initiative. This information shall be used to determine whether the initiative should be extended beyond the beginning period.
 26 In the preparation of this report, all state agencies shall provide assistance as requested by the Department of Planning and
 27 Budget.

28 § 4-5.04 GOODS AND SERVICES

29 a. STUDENT ATTENDANCE AT INSTITUTIONS OF HIGHER EDUCATION:

30 1. Public Information Encouraged: Each public institution of higher education is expected and encouraged to provide
 31 prospective students with accurate and objective information about its programs and services. The institution may use public
 32 funds under the control of the institution's Board of Visitors for the development, preparation and dissemination of factual
 33 information about the following subjects: academic programs; special programs for minorities; dates, times and procedures for
 34 registration; dates and times of course offerings; admission requirements; financial aid; tuition and fee schedules; and other
 35 information normally distributed through the college catalog. This information may be presented in any and all media, such as
 36 newspapers, magazines, television or radio where the information may be in the form of news, public service announcements or
 37 advertisements. Other forms of acceptable presentation would include brochures, pamphlets, posters, notices, bulletins, official
 38 catalogs, flyers available at public places and formal or informal meetings with prospective students.

39 2. Excessive Promotion Prohibited: Each public institution of higher education is prohibited from using public funds under the
 40 control of the institution's Board of Visitors for the development, preparation, dissemination or presentation of any material
 41 intended or designed to induce students to attend by exaggerating or extolling the institution's virtues, faculty, students,
 42 facilities or programs through the use of hyperbole. Artwork and photographs which exaggerate or extol rather than supplement
 43 or complement permissible information are prohibited. Mass mailings are generally prohibited; however, either mass mailings
 44 or newspaper inserts, but not both, may be used if other methods of distributing permissible information are not economically
 45 feasible in the institution's local service area.

46 3. Remedial Education: Senior institutions of higher education shall make arrangements with community colleges for the
 47 remediation of students accepted for admission by the senior institutions.

48 4. Compliance: The president or chancellor of each institution of higher education is responsible for the institution's compliance
 49 with this subsection.

50 b. INFORMATION TECHNOLOGY FACILITIES AND SERVICES:

51 1.a) The Virginia Information Technologies Agency shall procure information technology and telecommunications goods and

- 1 services of every description for its own benefit or on behalf of other state agencies and institutions, or authorize other state agencies
2 or institutions to undertake such procurements on their own.
- 3 b) Except for research projects, research initiatives, or instructional programs at public institutions of higher education, or any non-
4 major information technology project request from the Virginia Community College System, Longwood University, or from an
5 institution of higher education which is a member of the Virginia Association of State Colleges and University Purchasing
6 Professionals (VASCUPP) as of July 1, 2003, or any procurement of information technology and telecommunications goods and
7 services by public institutions of higher education governed by some combination of Chapters 933 and 945 of the 2005 Acts of
8 Assembly, Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824
9 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, requests for authorization from
10 state agencies and institutions to procure information technology and telecommunications goods and services on their own behalf
11 shall be made in writing to the Chief Information Officer or his designee. Members of VASCUPP as of July 1, 2003, are hereby
12 recognized as: The College of William and Mary, George Mason University, James Madison University, Old Dominion University,
13 Radford University, Virginia Commonwealth University, Virginia Military Institute, Virginia Polytechnic Institute and State
14 University, and the University of Virginia.
- 15 c) The Chief Information Officer or his designee may grant the authorization upon a written determination that the request conforms
16 to the statewide information technology plan and the individual information technology plan of the requesting agency or institution.
- 17 d) Any procurement authorized by the Chief Information Officer or his designee for information technology and telecommunications
18 goods and services, including geographic information systems, shall be issued by the requesting state agency or institution in
19 accordance with the regulations, policies, procedures, standards, and guidelines of the Virginia Information Technologies Agency.
- 20 e) Nothing in this subsection shall prevent public institutions of higher education or the Virginia Community College System from
21 using the services of Network Virginia.
- 22 f) To ensure that the Commonwealth's research universities maintain a competitive position with access to the national optical
23 research network infrastructure including the National LambdaRail and Internet2, the Network Virginia Contract Administrator is
24 hereby authorized to renegotiate the term of the existing contracts. Additionally, the contract administrator is authorized to
25 competitively negotiate additional agreements in accordance with the Code of Virginia and all applicable regulations, as required, to
26 establish and maintain research network infrastructure.
- 27 2. If the billing rates and associated systems for computer, telecommunications and systems development services to state agencies
28 are altered, the Director, Department of Planning and Budget, may transfer appropriations from the general fund between programs
29 affected. These transfers are limited to actions needed to adjust for overfunding or underfunding the program appropriations affected
30 by the altered billing systems.
- 31 3. The provisions of this subsection shall not in any way affect the duties and responsibilities of the State Comptroller under the
32 provisions of § 2.2-803, Code of Virginia.
- 33 4. It is the intent of the General Assembly that information technology (IT) systems, products, data, and service costs, including
34 geographic information systems (GIS), be contained through the shared use of existing or planned equipment, data, or services
35 which may be available or soon made available for use by state agencies, institutions, authorities, and other public bodies. State
36 agencies, institutions, and authorities shall cooperate with the Virginia Information Technologies Agency in identifying the
37 development and operational requirements for proposed IT and GIS systems, products, data, and services, including the proposed
38 use, functionality, capacity and the total cost of acquisition, operation and maintenance.
- 39 5. This section shall not apply to public institutions of higher education governed by some combination of Chapters 933 and 945 of
40 the 2005 Acts of Assembly, Chapters 933 and 943 of the 2006 Acts of Assembly or Chapters 594 and 616 of the 2008 Acts of
41 Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly and Chapters 675 and 685 of the 2009 Acts of Assembly, or to the
42 Virginia Alcoholic Beverage Control Authority.
- 43 6. Notwithstanding any other provision of law, state agencies that do not receive computer services from the Virginia Information
44 Technologies Agency may develop their own policies and procedures governing the sale of surplus computers and laptops to their
45 employees or officials. Any proceeds from the sale of surplus computers or laptops shall be deposited into the appropriate fund or
46 funds used to purchase the equipment.
- 47 c. MOTOR VEHICLES AND AIRCRAFT:
- 48 1. No motor vehicles shall be purchased or leased with public funds by the state or any officer or employee on behalf of the state
49 without the prior written approval of the Director, Department of General Services.
- 50 2. The institutions of higher education and the Alcoholic Beverage Control Authority shall be exempt from this provision but shall
51 be required to report their entire inventory of purchased and leased vehicles including the cost of such to the Director of the
52 Department of General Services by June 30 of each year. The Director of the Department of General Services shall compare the cost
53 of vehicles acquired by institutions of higher education and the Authority to like vehicles under the state contract. If the comparison

1 demonstrates for a given institution or the Authority that the cost to the Commonwealth is greater for like vehicles than would
 2 be the case based on a contract of statewide applicability, the Governor or his designee may suspend the exemption granted to
 3 the institution or the Authority pursuant to this subparagraph c.

4 3. The Director, Department of General Services, is hereby authorized to transfer surplus motor vehicles among the state
 5 agencies, and determine the value of such surplus equipment for the purpose of maintaining the financial accounts of the state
 6 agencies affected by such transfers.

7 d. MOTION PICTURE, TELEVISION AND RADIO SERVICES PRODUCTION: Except for public institutions of higher
 8 education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, no state Executive Department agency or the
 9 Virginia Lottery Department shall expend any public funds for the production of motion picture films or of programs for
 10 television transmission, or for the operation of television or radio transmission facilities, without the prior written approval of
 11 the Governor or as otherwise provided in this act, except for educational television programs produced for elementary-
 12 secondary education by authority of the Virginia Information Technologies Agency. The Joint Subcommittee on Rules is
 13 authorized to provide the approval of such expenditures for legislative agencies. For judicial agencies and independent
 14 agencies, other than the Virginia Lottery Department, prior approval action rests with the supervisory bodies of these entities.
 15 With respect to television programs which are so approved and other programs which are otherwise authorized or are not
 16 produced for television transmission, state agencies may enter into contracts without competitive sealed bidding, or competitive
 17 negotiation, for program production and transmission services which are performed by public telecommunications entities, as
 18 defined in § 2.2-2006, Code of Virginia.

19 e. TRAVEL: Reimbursement for the cost of travel on official business of the state government is authorized to be paid pursuant
 20 to law and regulations issued by the State Comptroller to implement such law. Notwithstanding any contrary provisions of law:

21 1. For the use of personal automobiles in the discharge of official duties outside the continental limits of the United States, the
 22 State Comptroller may authorize an allowance not exceeding the actual cost of operation of such automobiles;

23 2. The first 15,000 miles of use during each fiscal year of personal automobiles in the discharge of official duties within the
 24 continental limits of the United States shall be reimbursed at an amount equal to the most recent business standard mileage rate
 25 as established by the Internal Revenue Service for employees or self-employed individuals to use in computing their income tax
 26 deductible costs for operating passenger vehicles owned or leased by them for business purposes, or in the instance of a state
 27 employee, at the lesser of (a) the IRS rate or (b) the lowest combined capital and operational trip pool rate charged by the
 28 Department of General Services, Office of Fleet Management Services (OFMS), posted on the OFMS website at time of travel,
 29 for the use of a compact state-owned vehicle. If the head of the state agency concerned certifies that a state-owned vehicle was
 30 not available, or if, according to regulations issued by the State Comptroller, the use of a personal automobile in lieu of a state-
 31 owned automobile is considered to be an advantage to the state, the reimbursement shall be at the rate of the IRS rate. For such
 32 use in excess of 15,000 miles in each fiscal year, the reimbursement shall be at a rate of 13.0 cents per mile, unless a state-
 33 owned vehicle is not available; then the rate shall be the IRS rate;

34 3. The State Comptroller may authorize exemptions to restrictions upon use of common carrier accommodations;

35 4. The State Comptroller may authorize reimbursement by per diem in lieu of actual costs of meals and any other expense
 36 category deemed necessary for the efficient and effective operation of state government;

37 5. State employees traveling on official business of state government shall be reimbursed for their travel costs using the same
 38 bank account authorized by the employee in which their net pay is direct deposited; and

39 6. This section shall not apply to members and employees of public school boards.

40 f. SMALL PURCHASE CHARGE CARD, ELECTRONIC DATA INTERCHANGE, DIRECT DEPOSIT, AND PAYLINE
 41 OPT OUT: The State Comptroller is hereby authorized to charge state agencies a fee of \$5 per check or earnings notice when,
 42 in his judgment, agencies have failed to comply with the Commonwealth's electronic commerce initiatives to reduce
 43 unnecessary administrative costs for the printing and mailing of state checks and earning notices. The fee shall be collected by
 44 the Department of Accounts through accounting entries.

45 g. PURCHASES OF APPLIANCES AND EQUIPMENT: State agencies and institutions shall purchase Energy Star rated
 46 appliances and equipment in all cases where such appliances and equipment are available.

47 h. ELECTRONIC PAYMENTS: Any recipient of payments from the State Treasury who receives six or more payments per
 48 year issued by the State Treasurer shall receive such payments electronically. The State Treasurer shall decide the appropriate
 49 method of electronic payment and, through his warrant issuance authority, the State Comptroller shall enforce the provisions of
 50 this section. The State Comptroller is authorized to grant administrative relief to this requirement when circumstances justify
 51 non-electronic payment.

52 i. LOCAL AND NON-STATE SAVINGS AND EFFICIENCIES: It is the intent of the General Assembly that State agencies
 53 shall encourage and assist local governments, school divisions, and other non-state governmental entities in their efforts to

1 achieve cost savings and efficiencies in the provision of mandated functions and services including but not limited to finance,
2 procurement, social services programs, and facilities management.

3 j. TELECOMMUNICATION SERVICES AND DEVICES:

4 1. The Chief Information Officer and the State Comptroller shall develop statewide requirements for the use of cellular telephones
5 and other telecommunication devices by in-scope Executive Department agencies, addressing the assignment, evaluation of need,
6 safeguarding, monitoring, and usage of these telecommunication devices. The requirements shall include an acceptable use
7 agreement template clearly defining an employee's responsibility when they receive and use a telecommunication device. Statewide
8 requirements shall require some form of identification on a device in case it is lost or stolen and procedures to wipe the device clean
9 of all sensitive information when it is no longer in use.

10 2. In-scope Executive Department agencies providing employees with telecommunication devices shall develop agency-specific
11 policies, incorporating the guidance provided in § 4-5.04 k. 1. of this act and shall maintain a cost justification for the assignment or
12 a public health, welfare and safety need.

13 3. The Chief Information Officer shall determine the optimal number of telecommunication vendors and plans necessary to meet the
14 needs of in-scope Executive Department agency personnel. The Chief Information Officer shall regularly procure these services and
15 provide statewide contracts for use by all such agencies. These contracts shall require the vendors to provide detailed usage
16 information in a useable electronic format to enable the in-scope agencies to properly monitor usage to make informed purchasing
17 decisions and minimize costs.

18 4. The Chief Information Officer shall examine the feasibility of providing tools for in-scope Executive Department agencies to
19 analyze usage and cost data to assist in determining the most cost effective plan combinations for the entity as a whole and
20 individual users.

21 k. ALTERNATIVE PROCUREMENT: If any payment is declared unconstitutional for any reason or if the Attorney General finds
22 in a formal, written, legal opinion that a payment is unconstitutional, in circumstances where a good or service can constitutionally
23 be the subject of a purchase, the administering agency of such payment is authorized to use the affected appropriation to procure, by
24 means of the Commonwealth's Procurement Act, goods and services, which are similar to those sought by such payment in order to
25 accomplish the original legislative intent.

26 l. MEDICAL SERVICES: No expenditures from general or nongeneral fund sources may be made out of any appropriation by the
27 General Assembly for providing abortion services, except otherwise as required by federal law or state statute.

28 m. BODY-WORN CAMERAS: *No expenditures from general or nongeneral fund sources may be made by any state agency or*
29 *authority for the purchase or implementation of body-worn cameras or body-worn camera systems.*

30 § 4-5.05 NONSTATE AGENCIES, INTERSTATE COMPACTS AND ORGANIZATIONAL MEMBERSHIPS

31 a. The accounts of any agency, however titled, which receives funds from this or any other appropriating act, and is not owned or
32 controlled by the Commonwealth of Virginia, shall be subject to audit or shall present an audit acceptable to the Auditor of Public
33 Accounts when so directed by the Governor or the Joint Legislative Audit and Review Commission.

34 b.1. For purposes of this subsection, the definition of "nonstate agency" is that contained in § 2.2-1505, Code of Virginia.

35 2. Allotment of appropriations to nonstate agencies shall be subject to the following criteria:

36 a) Such agency is located in and operates in Virginia.

37 b) The agency must be open to the public or otherwise engaged in activity of public interest, with expenditures having actually been
38 incurred for its operation.

39 3. No allotment of appropriations shall be made to a nonstate agency until such agency has certified to the Secretary of Finance that
40 cash or in-kind contributions are on hand and available to match equally all or any part of an appropriation which may be provided
41 by the General Assembly, unless the organization is specifically exempted from this requirement by language in this act. Such
42 matching funds shall not have been previously used to meet the match requirement in any prior appropriation act.

43 4. Operating appropriations for nonstate agencies equal to or in excess of \$150,000 shall be disbursed to nonstate agencies in twelve
44 or fewer equal monthly installments depending on when the first payment is made within the fiscal year. Operating appropriations
45 for nonstate agencies of less than \$150,000 shall be disbursed in one payment once the nonstate agency has successfully met
46 applicable match and application requirements.

47 5. The provisions of § 2.2-4343 A 14, Code of Virginia shall apply to any expenditure of state appropriations by a nonstate agency.

48 c.1. Each interstate compact commission and each organization in which the Commonwealth of Virginia or a state agency thereof
49 holds membership, and the dues for which are provided in this act or any other appropriating act, shall submit its biennial budget
50 request to the state agency under which such commission or organization is listed in this act. The state agency shall include the

1 request of such commission or organization within its own request, but identified separately. Requests by the commission or
2 organization for disbursements from appropriations shall be submitted to the designated state agency.

3 2. Each state agency shall submit by November 1 each year, a report to the Director, Department of Planning and Budget,
4 listing the name and purpose for organizational memberships held by that agency with annual dues of \$5,000 or more. The
5 institutions of higher education shall be exempt from this reporting requirement.

6 § 4-5.06 DELEGATION OF AUTHORITY

7 a. The designation in this act of an officer or agency head to perform a specified duty shall not be deemed to supersede the
8 authority of the Governor to delegate powers under the provisions of § 2.2-104 , Code of Virginia.

3 e. 1. Salaries for newly employed or promoted employees shall be established consistent with the compensation and classification
4 plans established by the Governor.

5 2. The State Comptroller is hereby authorized to require payment of wages or salaries to state employees by direct deposit or by
6 credit to a prepaid debit card or card account from which the employee is able to withdraw or transfer funds.

7 f. The provisions of this section, requiring prior written approval of the Governor relative to compensation, shall apply also to any
8 system of incentive award payments which may be adopted and implemented by the Governor. The cost of implementing any such
9 system shall be paid from any funds appropriated to the affected agencies.

10 g. No lump sum appropriation for personal service shall be regarded as advisory or suggestive of individual salary rates or of salary
11 schedules to be fixed under law by the Governor payable from the lump sum appropriation.

12 h. Subject to approval by the Governor of a plan for a statewide employee meritorious service awards program, as provided for in §
13 [2.2-1201](#), Code of Virginia, the costs for such awards shall be paid from any operating funds appropriated to the affected agencies.

14 i. The General Assembly hereby affirms and ratifies the Governor's existing authority and the established practice of this body to
15 provide for pay differentials or to supplement base rates of pay for employees in specific job classifications in particular geographic
16 and/or functional areas where, in the Governor's discretion, they are needed for the purpose of maintaining salaries which enable the
17 Commonwealth to maintain a competitive position in the relevant labor market.

18 j.1. If at any time the Administrator of the Commonwealth's Attorneys' Services Council serves on the faculty of a state-supported
19 institution of higher education, the faculty appointment must be approved by the Council. Such institution shall pay one-half of the
20 salary listed in § 4-6.01 c 6 of this act. Further, such institution may provide compensation in addition to that listed in § 4-6.01 c 6;
21 provided, however, that such additional compensation must be approved by the Council.

22 2. If the Administrator ceases to be a member of the faculty of a state-supported institution of higher education, the total salary listed
23 in § 4-6.01 c 6 shall be paid from the Council's appropriation.

24 k.1.a. Except as otherwise provided for in this subdivision, any increases in the salary band assignment of any job role contained in
25 the compensation and classification plans approved by the Governor shall be effective beginning with the first pay period, defined as
26 the pay period from June 25 through July 9, of the fiscal year if: (1) the agency certifies to the Secretary of Finance that funds are
27 available within the agency's appropriation to cover the cost of the increase for the remainder of the current biennium and presents a
28 plan for covering the costs next biennium and the Secretary concurs, or (2) such funds are appropriated by the General Assembly. If
29 at any time the Secretary of Administration shall certify that such change in the salary band assignment for a job role is of an
30 emergency nature and the Secretary of Finance shall certify that funds are available to cover the cost of the increase for the
31 remainder of the biennium within the agency's appropriation, such change in compensation may be effective on a date agreed upon
32 by these two Secretaries. The Secretary of Administration shall provide a monthly report of all such emergency changes in
33 accordance with § 4-8.00, Reporting Requirements.

34 b. Notwithstanding any other provision of law, state employees will be paid on the first workday of July for the work period June 10
35 to June 24 in any calendar year in which July 1 falls on a weekend.

36 2. Salary adjustments for any employee through a promotion, role change, exceptional recruitment and retention incentive options,
37 or in-range adjustment shall occur only if: a) the agency has sufficient funds within its appropriation to cover the cost of the salary
38 adjustment for the remainder of the current biennium or b) such funds are appropriated by the General Assembly.

39 3. No changes in salary band assignments affecting classified employees of more than one agency shall become effective unless the
40 Secretary of Finance certifies that sufficient funds are available to provide such increase or plan to all affected employees supported
41 from the general fund.

42 l. Full-time employees of the Commonwealth, including faculty members of state institutions of higher education, who are appointed
43 to a state-level board, council, commission or similar collegial body shall not receive any such compensation for their services as
44 members or chairmen except for reimbursement of reasonable and necessary expenses. The foregoing provision shall likewise apply
45 to the Compensation Board, pursuant to § [15.2-1636.5](#), Code of Virginia.

46 m.1. Notwithstanding any other provision of law, the board of visitors or other governing body of any public institution of higher
47 education is authorized to establish age and service eligibility criteria for faculty participating in voluntary early retirement incentive
48 plans for their respective institutions pursuant to § [23.1-1302 B](#) and the cash payment offered under such compensation plans
49 pursuant to § [23.1-1302 D](#), Code of Virginia. Notwithstanding the limitations in § [23.1-1302 D](#), the total cost in any fiscal year for
50 any such compensation plan, shall be set forth by the governing body in the compensation plan for approval by the Governor and
51 review for legal sufficiency by the Office of the Attorney General.

52 2. Notwithstanding any other provision of law, employees holding full-time, academic-year classified positions at public institutions

1 of higher education shall be considered "state employees" as defined in § 51.1-124.3, Code of Virginia, and shall be considered
 2 for medical/hospitalization, retirement service credit, and other benefits on the same basis as those individuals appointed to full-
 3 time, 12-month classified positions.

4 n. Notwithstanding the Department of Human Resource Management Policies and Procedures, payment to employees with five
 5 or more years of continuous service who either terminate or retire from service shall be paid in one sum for twenty-five percent
 6 of their sick leave balance, provided, however, that the total amount paid for sick leave shall not exceed \$5,000 and the
 7 remaining seventy-five percent of their sick leave shall lapse. This provision shall not apply to employees who are covered by
 8 the Virginia Sickness and Disability Program as defined in § 51.1-1100, Code of Virginia. Such employees shall not be paid for
 9 their sick leave balances. However, they will be paid, if eligible as described above, for any disability leave credits they have at
 10 separation or retirement or may convert disability credits to service credit under the Virginia Retirement System pursuant to §
 11 51.1-1103 (F), Code of Virginia.

12 o. It is the intent of the General Assembly that calculation of the faculty salary benchmark goal for the Virginia Community
 13 College System shall be done in a manner consistent with that used for four-year institutions, taking into consideration the
 14 number of faculty at each of the community colleges. In addition, calculation of the salary target shall reflect an eight percent
 15 salary differential in a manner consistent with other public four-year institutions and for faculty at Northern Virginia
 16 Community College.

17 p. Any public institution of higher education that has met the eligibility criteria set out in Chapters 933 and 945 of the 2005
 18 Acts of Assembly may supplement annual salaries for classified employees from private gifts, endowment funds, or income
 19 from endowments and gifts, subject to policies approved by the board of visitors. The Commonwealth shall have no general

 39 workforce of the Commonwealth covered under the Virginia Retirement System. Any cost for benefits exceeding such general
 40 rate shall be borne by the employee or, in the case of a political subdivision, by the employer.

41 c. Each agency may, within the funds appropriated by this act, implement a transit and ridesharing incentive program for its
 42 employees. With such programs, agencies may reimburse employees for all or a portion of the costs incurred from using public

 52 by the hospital to (1) its largest purchaser of care, (2) any state or federal public program, or (3) any special rate developed by
 53 the hospital for the state employee health benefits program which is lower than either of the rates above. If the department and
 54 the hospital cannot come to an agreement, the department shall reimburse the hospital at the rates contained in its final offer to

1 the hospital until the dispute is resolved. Any dispute shall be resolved through arbitration or through the procedures established by
2 the Administrative Process Act, as the hospital may decide, without impairment of any residual right to judicial review.

3 e. Any classified employee of the Commonwealth and any person similarly employed in the legislative, judicial and independent
4 agencies who (i) is compensated on a salaried basis and (ii) works at least twenty hours per week shall be considered a full-time

14 service and compensation received during the period of reemployment, or

15 b) Retire under the provisions of Title 51.1 in effect at the termination of his or her period of reemployment, including any purchase
16 of service that may be eligible for purchase under the provisions of § 51.1-142.2, Code of Virginia.

21 paragraph are effective on July 1, 2002, and shall not apply to the Chief of the Capitol Police.

22 h. Full-time employees appointed by the Governor who, except for meeting the minimum service requirements, would be eligible for
23 the provisions of § 51.1-155.1, Code of Virginia, may, upon termination of service, use any severance allowance payment to
24 purchase service to meet, but not exceed, the minimum service requirements of § 51.1-155.1, Code of Virginia. Such service
25 purchase shall be at the rate of 15 percent of the employee's final creditable compensation or average final compensation, whichever
26 is greater, and shall be completed within 90 days of separation of service.

27 i. When calculating the retirement benefits payable under the Virginia Retirement System (VRS), the State Police Officers'
28 Retirement System (SPORS), the Virginia Law-enforcement Officers' Retirement System (VaLORS), or the Judicial Retirement
29 System (JRS) to any employee of the Commonwealth or its political subdivisions who is called to active duty with the armed forces
30 of the United States, including the United States Coast Guard, the Virginia Retirement System shall:

31 1) utilize the pre-deployment salary, or the actual salary paid by the Commonwealth or the political subdivision, whichever is higher,
32 when calculating average compensation, and

33 2) include those months after September 1, 2001 during which the employee was serving on active duty with the armed forces of the
34 United States in the calculation of creditable service.

35 j. The provisions in § 51.1-144, Code of Virginia, that require a member to contribute five percent of his creditable compensation for
36 each pay period for which he receives compensation on a salary reduction basis, shall not apply to any (i) "state employee," as
37 defined in § 51.1-124.3, Code of Virginia, who is an elected official, or (ii) member of the Judicial Retirement System under Chapter
38 3 of Title 51.1 (§ 51.1-300 et seq.), who is not a "person who becomes a member on or after July 1, 2010," as defined in § 51.1-
39 124.3, Code of Virginia.

40 k. Notwithstanding the provisions of subsection G of § 51.1-156, any employee of a school division who completed a period of 24
41 months of leave of absence without pay during October 2013 and who had previously submitted an application for disability
42 retirement to VRS in 2011 may submit an application for disability retirement under the provisions of § 51.1-156. Such application
43 shall be received by the Virginia Retirement System no later than October 1, 2014. This provision shall not be construed to grant
44 relief in any case for which a court of competent jurisdiction has already rendered a decision, as contemplated by Article II, Section
45 14 of the Constitution of Virginia.

46 § 4-6.04 CHARGES

47 a. FOOD SERVICES: Except as exempted by the prior written approval of the Director, Department of Human Resource
48 Management, and the provisions of § 2.2-3605, Code of Virginia, state employees shall be charged for meals served in state
49 facilities. Charges for meals will be determined by the agency. Such charges shall be not less than the value of raw food and the cost
50 of direct labor and utilities incidental to preparation and service. Each agency shall maintain records as to the calculation of meal
51 charges and revenues collected. Except where appropriations for operation of the food service are from nongeneral funds, all
52 revenues received from such charges shall be paid directly and promptly into the general fund. The provisions of this paragraph shall
53 not apply to on-duty employees assigned to correctional facilities operated by the Departments of Corrections and Juvenile Justice.

1 b. HOUSING SERVICES:

2 1. Each agency will collect a fee from state employees who occupy state-owned or leased housing, subject to guidelines
3 provided by the Director, Department of General Services. Each agency head is responsible for establishing a fee for state-
4 owned or leased housing and for documenting in writing why the rate established was selected. In exceptional circumstances,
5 which shall be documented as being in the best interest of the Commonwealth by the agency requesting an exception, the
6 Director, Department of General Services may waive the requirement for collection of fees.

7 2. All revenues received from housing fees shall be promptly deposited in the state treasury. For housing for which operating
8 expenses or rent are financed by general fund appropriations, such revenues shall be deposited to the credit of the general fund.
9 For housing for which operating expenses or rent are financed by nongeneral fund appropriations, such revenues shall be
10 deposited to the credit of the nongeneral fund. Agencies which provide housing for which operating expenses or rent are
11 financed from both general fund and nongeneral fund appropriations shall allocate such revenues, when deposited in the state
12 treasury, to the appropriate fund sources in the same proportion as the appropriations. However, without exception, any portion
13 of a housing fee attributable to depreciation for housing which was constructed with general fund appropriations shall be paid
14 into the general fund.

15 c. PARKING SERVICES:

16 1. State-owned parking facilities

17 Agencies with parking space for employees in state-owned facilities shall, when required by the Director, Department of
18 General Services, charge employees for such space on a basis approved by the Governor. All revenues received from such
19 charges shall be paid directly and promptly into a special fund in the state treasury to be used, as determined by the Governor,
20 for payment of costs for the provision of vehicle parking spaces. Interest shall be added to the fund as earned. -

21 2. Leased parking facilities in metropolitan Richmond area

22 Agencies occupying private sector leased or rental space in the metropolitan Richmond area, not including institutions of higher
23 education, shall be required to charge a fee to employees for vehicle parking spaces that are assigned to them or are otherwise
24 available either incidental to the lease or rental agreement or pursuant to a separate lease agreement for private parking space.
25 In such cases, the individual employee parking fee shall not be less than that paid by employees parking in Department of
26 General Services parking facilities at the Seat of Government. The Director, Department of General Services may amend or
27 waive the fee requirement for good cause. Revenues derived from employees paying for parking spaces in leased facilities will
28 be retained by the leasing agency to be used to offset the cost of the lease to which it pertains. Any lease for private parking
29 space must be approved by the Director, Department of General Services.

30 3. The assignment of Lot P1A of the Department of General Services, Capitol Area Site Plan, to include parking spaces 1
31 through 37, but excluding spaces 34 and 36, which shall be reserved for the Department of General Services, and the

33 Clerk of the House and the Clerk of the Senate. Any employee permanently assigned to any of these spaces shall be subject to
34 the provisions of paragraph 1 of this item.

35 4. The assignment of 300 parking spaces in the Department of General Services parking facility to be built at the corner of 9th
36 and Broad Streets in the City of Richmond, shall be under the control of the Committee on Joint Rules and administered by the
37 Clerk of the House and the Clerk of the Senate. Such parking spaces shall be subject to the provisions of paragraph 1 of this
38 item.

39 § 4-6.05 SELECTION OF APPLICANTS FOR CLASSIFIED POSITIONS

40 It is the responsibility of state agency heads to ensure that all provisions outlined in Title 2.2, Chapter 29, Code of Virginia (the
41 Virginia Personnel Act), and executive orders that govern the practice of selecting applicants for classified positions are strictly
42 observed. The Governor's Secretaries shall ensure this provision is faithfully enforced.

43 § 4-6.06 POSITIONS GOVERNED BY CHAPTERS 933 AND 943 OF THE 2006 ACTS OF ASSEMBLY

44 Except as provided in subsection A of § 23.1-1020 of the Code of Virginia, § 4-6.00 shall not apply to public institutions of
45 higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of
46 Assembly and Chapters 675 and 685 of the 2009 Acts of Assembly, with regard to their participating covered employees, as
47 that term is defined in those two chapters, except to the extent a specific appropriation or language in this act addresses such an
48 employee.

49 **§ 4-7.00 STATEWIDE PLANS**

50 § 4-7.01 MANPOWER CONTROL PROGRAM

51 a.1. The term Position Level is defined as the number of full-time equivalent (FTE) salaried employees assigned to an agency

- 1 in this act. Except as provided in § 4-7.01 b, the Position Level number stipulated in an agency's appropriation is the upper limit for
 2 agency employment which cannot be exceeded during the fiscal year without approval from the Director, Department of Planning
 3 and Budget for Executive Department agencies, approval from the Joint Committee on Rules for Legislative Department agencies or
 4 approval from the appropriate governing authority for the independent agencies.
- 5 2. Any approval granted under this subsection shall be reported in writing to the Chairmen of the House Appropriations Committee
 6 and the Senate Finance Committee, the Governor and the Directors of the Department of Planning and Budget and Department of
 7 Human Resource Management within ten days of such approval. Approvals for executive department agencies shall be based on
 8 threats to life, safety, health, or property, or compliance with judicial orders or federal mandates, to support federal grants or private
 9 donations, to administer a program for another agency or to address an immediate increase in workload or responsibility or when to
 10 delay approval of increased positions would result in a curtailment of services prior to the next legislative session. Any such
 11 position level increases pursuant to this provision may not be approved for more than one year.
- 12 b. The Position Levels stipulated for the individual agencies within the Department of Behavioral Health and Developmental
 13 Services and the Department of Corrections are for reference only and are subject to changes by the applicable Department, provided
 14 that such changes do not result in exceeding the Position Level for that department.
- 15 c.1. The Governor shall implement such policies and procedures as are necessary to ensure that the number of employees in the
 16 Executive Department, excluding institutions of higher education and the State Council of Higher Education, may be further
 17 restricted to the number required for efficient operation of those programs approved by the General Assembly. Such policies and
 18 procedures shall include periodic review and analysis of the staffing requirements of all Executive Department agencies by the
 19 Department of Planning and Budget with the object of eliminating through attrition positions not necessary for the efficient
 20 operation of programs.
- 21 2. The institutions of higher education and the State Council of Higher Education are hereby authorized to fill all positions
 22 authorized in this act. This provision shall be waived only upon the Governor's official declaration that a fiscal emergency exists
 23 requiring a change in the official estimate of general fund revenues available for appropriation.
- 24 d.1. Position Levels are for reference only and are not binding on agencies in the legislative department, independent agencies, the
 25 Executive Offices other than the offices of the Governor's Secretaries, and the judicial department.
- 26 2. Positions assigned to programs supported by internal service funds are for reference only and may fluctuate depending upon
 27 workload and funding availability.
- 28 3. Positions assigned to sponsored programs, auxiliary enterprises, continuing education, and teaching hospitals in the institutions of
 29 higher education are for reference only and may fluctuate depending upon workload and funding availability. Positions assigned to
 30 Item Detail 43012, State Health Services Technical Support and Administration, at Virginia Commonwealth University are for
 31 reference only and may fluctuate depending upon workload and funding availability.
- 32 4. Positions assigned to educational and general programs in the institutions of higher education are for reference only and may
 33 fluctuate depending upon workload and funding availability. However, total general fund positions filled by an institution of higher
 34 education may not exceed 105 percent of the general fund positions appropriated without prior approval from the Director,
 35 Department of Planning and Budget.
- 36 5. Positions assigned to Item Details 47001, Job Placement Services; 47002, Unemployment Insurance Services; 47003, Workforce
 37 Development Services; and 53402, Economic Information Services, at the Virginia Employment Commission are for reference only
 38 and may fluctuate depending upon workload and funding availability. Unless otherwise required by the funding source, after
 39 enactment of this act, any new positions hired using this provision shall not be subject to transitional severance benefit provisions of
 40 the Workforce Transition Act of 1995, Title 2.2, Chapter 32, Code of Virginia.
- 41 e. Prior to implementing any Executive Department hiring freeze, the Governor shall consider the needs of the Commonwealth in
 42 regards to the safe and efficient operation of state facilities and performance of essential services to include the exemption of certain
 43 positions assigned to agencies and institutions that provide services pertaining to public safety and public health from such hiring
 44 freezes.
- 45 f.1. Full-time, part-time, wage or contractual state employees assigned to the Governor's Cabinet Secretaries from agencies and
 46 institutions under their control for the purpose of carrying out temporary assignments or projects may not be so assigned for a period
 47 exceeding 180 days in any calendar year. The permanent transfer of positions from an agency or institution to the Offices of the
 48 Secretaries, or the temporary assignment of agency or institutional employees to the Offices of the Secretaries for periods exceeding
 49 180 days in any calendar year regardless of the separate or discrete nature of the projects, is prohibited without the prior approval of
 50 the General Assembly.
- 51 2. Not more than three positions in total, as described in subsection 1 hereof, may be assigned at any time to the Office of any
 52 Cabinet Secretary, unless specifically approved in writing by the Governor. The Governor shall notify the Chairmen of the House
 53 Appropriations and Senate Finance Committees in the case of any such approvals.

1 g. All state employees, including those in the legislative, judicial, and executive branches and the independent agencies of the
 2 Commonwealth, who are not eligible for benefits under a health care plan established and administered by the Department of
 3 Human Resource Management (DHRM) pursuant to Va. Code § 2.2-2818, or by an agency administering its own health care
 4 plan, may not work more than 29 hours per week on average over a twelve month period. Adjunct faculty at institutions of
 5 higher education may not work more than 29 hours per week on average over a twelve month period, including classroom or
 6 other instructional time plus additional hours determined by the institution as necessary to perform the adjunct faculty's duties.
 7 DHRM shall provide relevant program requirements to agencies and employees, including, but not limited to, information on
 8 wage, variable and seasonal employees. All state agencies/employers in all branches of government shall provide information
 9 requested by DHRM concerning hours worked by employees as needed to comply with the Affordable Care Act (the "Act")
 10 and this provision. State agencies/employers are accountable for compliance with this provision, and are responsible for any
 11 costs associated with maintaining compliance with it and for any costs or penalties associated with any violations of the Act or
 12 regulations thereunder and any such costs shall be borne by the agency from existing appropriations. The provisions of this
 13 paragraph shall not apply to employees of state teaching hospitals that have their own health insurance plan; however, the state
 14 teaching hospitals are accountable for compliance with, and are responsible for any costs associated with maintaining
 15 compliance with the Act and for any costs or penalties associated with any violations of the Act or regulations thereunder and
 16 any such costs shall be borne by the agency from existing appropriations. Subject to approval of the Governor, DHRM shall
 17 modify this provision consistent with any updates or changes to federal law and regulations.

27 The Secretary of Finance and Secretary of Education, in collaboration with the Director, Department of Planning and Budget,
28 shall report in December and June of each year to the Chairmen of the House Appropriations and Senate Finance Committees
29 on adjustments made to higher education operating funds in the Educational and General Programs (10000) items for each
30 public college and university contained in this budget. The report shall include actual or projected adjustments which increase
31 nongeneral funds or actual or projected adjustments that transfer nongeneral funds to other items within the institution. The
32 report shall provide the justification for the increase or transfer and the relative impact on student groups.

33 § 4-8.02 STATE AGENCIES

34 a. As received, all state agencies shall forward copies of each federal audit performed on agency or institution programs or
35 activities to the Auditor of Public Accounts and to the State Comptroller. Upon request, all state agencies shall provide copies
36 of all internal audit reports and access to all working papers prepared by such auditors to the Auditor of Public Accounts and to
37 the State Comptroller.

38 b. Annually: Within five calendar days after state agencies submit their budget requests, amendment briefs, or requests for
39 amendments to the Department of Planning and Budget, the Director, Department of Planning and Budget shall submit,
40 electronically if available, copies to the Chairmen of the Senate Finance and House Appropriations Committees.

41 c. By September 1 of each year, state agencies receiving any asset as the result of a law-enforcement seizure and subsequent
42 forfeiture by either a state or federal court, shall submit a report identifying all such assets received during the prior fiscal year
43 and their estimated net worth, to the Chairmen of the House Appropriations and Senate Finance Committees.

44 d. Any state agency that is required to return federal grant funding as a result of not fulfilling the specifications of a grant, shall,
45 as soon as practicable but no later than November 1st, report to the Chairmen of the Senate Finance and House Appropriations
46 Committees of such forfeiting of federal grant funding.

47 § 4-8.03 LOCAL GOVERNMENTS

48 a.1. The Auditor of Public Accounts shall establish a workgroup to develop criteria for a preliminary determination that a local
49 government may be in fiscal distress. Such criteria shall be based upon information regularly collected by the Commonwealth
50 or otherwise regularly made public by the local government. This information includes expenditure reports submitted to the
51 Auditor, budget information posted on local government websites, and reports prepared by the Commission on Local

- 1 Government on revenue fiscal stress. Information provided by the Virginia Retirement System, the Virginia Resources Authority,
 2 the Virginia Public Building Authority, and other state and regional authorities concerning late or missed debt service payments shall
 3 be shared with the Auditor. Fiscal distress as used in this context shall mean a situation whereby the provision and sustainability of
 4 public services is threatened by various administrative and financial shortcomings including but not limited to cash flow issues;
 5 inability to pay expenses; revenue shortfalls; deficit spending; structurally imbalanced budgets; billing and revenue collection
 6 inadequacies and discrepancies; debt overload; failure to meet obligations to authorities, school divisions, or political subdivisions of
 7 the Commonwealth; and/or lack of trained and qualified staff to process administrative and financial transactions. Fiscal distress
 8 may be caused by factors internal to the unit of government or external to the unit of government and in various degrees such
 9 conditions may or may not be controllable by management, or the local governing body, or its constitutional officers.
- 10 2. Based upon the criteria established by the workgroup and using information identified above, the Auditor of Public Accounts shall
 11 establish a prioritized early warning system. Under the prioritized early warning system, the Auditor of Public Accounts shall
 12 establish a regular process whereby it reviews data on at least an annual basis to make a preliminary determination that a local
 13 government is in fiscal distress.
- 14 3. For local governments where the Auditor of Public Accounts has made a preliminary determination of fiscal distress based upon
 15 the early warning system criteria, the Auditor of Public Accounts shall notify the local governing body of its preliminary
 16 determination that it may meet the criteria for fiscal distress. Based upon the request of the local governing body or chief executive
 17 officer, the Auditor of Public Accounts may conduct a review and request documents and data from the local government. Such
 18 review shall consider factors including, but not limited to, budget processes, debt, borrowing, expenses and payables, revenues and
 19 receivables, and other areas including staffing, and the identification of external variables contributing to a locality's financial
 20 position, and if so, the scope of the issues involved. Any local governing body that receives requests for information from the
 21 Auditor of Public Accounts pursuant to such preliminary determination based on the above described threshold levels shall
 22 acknowledge receipt of such a request and shall ensure that a response is provided within the time frames specified by the Auditor of
 23 Public Accounts. After such review, if the Auditor of Public Accounts is of the opinion that state assistance, oversight, or targeted
 24 intervention is needed, either to further assess, help stabilize, or remediate the situation, the Auditor shall notify the Governor and
 25 the Chairmen of the House Appropriations and Senate Finance Committees, and the governing body of the local government in
 26 writing outlining specific issues or actions that need to be addressed by state intervention.
- 27 4. The notification issued by the Auditor of Public Accounts pursuant to paragraph 3 above shall satisfy the notification requirement
 28 necessary to effectuate the provisions of this act in paragraph b.3 below.
- 29 b.1. The Director of the Department of Planning and Budget shall identify any amounts remaining unexpended from general fund
 30 appropriations in this Act as of June 30 of each year, which constitute state aid to local governments. The Director shall provide a
 31 listing of such amounts designated by item number and by program on or before August 15 of each year, to the Governor and the
 32 Chairmen of the House Appropriations Committee and the Senate Finance Committee.
- 33 2. From such unexpended balances identified by the Director of the Department of Planning and Budget, the Governor may
 34 reappropriate up to \$750,000 from amounts which would otherwise revert to the balance of the general fund and transfer such
 35 amounts as necessary to establish a component of fund balance which may be used for the purpose of providing technical assistance
 36 and intervention actions for local governments deemed to be fiscally distressed and in need of intervention to address such distress.
 37 Any such reappropriation approved by the Governor, shall be separately identified in the commitments specified on the balance
 38 sheet and financial statements of the State Comptroller for the close of each fiscal year, to the extent that such reserve is not used or
 39 added to by future appropriation actions.
- 40 3. Prior to any expenditure of the reappropriated reserve, the Governor and the Chairmen of the House Appropriations Committee
 41 and the Senate Finance Committee must receive a notification from the Auditor of Public Accounts that a specific locality is in need
 42 of intervention because of a worsening financial situation. The Auditor of Public Accounts may issue such a notification upon
 43 receipt of audited financial statement or other information that indicates the existence of fiscal distress. But, no such notification
 44 shall be made until appropriate follow up and correspondence ascertains that, in the opinion of the Auditor of Public Accounts, such
 45 fiscal distress indeed exists. Such notification may also be issued by the Auditor of Public Accounts if written concerns raised about
 46 fiscal distress are not adequately addressed by the locality in question.
- 47 4. Once the Governor has received a notification from the Auditor of Public Accounts indicating fiscal distress in a specific local
 48 government, the Governor shall consult with the Chairmen of the House Appropriations Committee and the Senate Finance
 49 Committee about a plan for state intervention prior to any expenditure of funds from the cash reserve. Any plan approved by the
 50 Governor for intervention should, at a minimum, specify the purpose of such intervention, the estimated duration of the intervention,
 51 and the anticipated resources (dollars and personnel) directed toward such effort. The staffing necessary to carry out the intervention
 52 plan may be assembled from either public agencies or private entities or both and, notwithstanding any other provisions of law, the
 53 Governor may use an expedited method of procurement to secure such staffing when, in his judgment, the need for intervention is of
 54 an emergency nature such that action must be taken in a timely manner to avoid or address unacceptable financial risks to the
 55 Commonwealth.
- 56 5. The governing body and the elected constitutional officers of a locality subject to an intervention plan approved by the Governor
 57 shall assist all state appointed staff conducting the intervention regardless of whether such staff are from public agencies or private

1 entities. Intervention staff shall provide periodic reports in writing to the Governor and the Chairmen of the House
 2 Appropriations Committee and the Senate Finance Committee outlining the scope of issues discovered and any
 3 recommendations made to remediate such issues, and the progress that is made on such recommendations or other remediation
 4 efforts. These periodic reports shall specifically address the degree of cooperation the intervention team is receiving from
 5 locally elected officials, including constitutional officers, city, county, or town managers and other local personnel in regards to
 6 their intervention work.

7 6. The Department of General Services is hereby encouraged to develop a master contract of qualified private sector turnaround
 8 specialists with expertise in local government intervention that the Governor can use to procure intervention services in an
 9 expeditious manner when he determines that state intervention is warranted in situations of local fiscal distress.

10 § 4-9.00 HIGHER EDUCATION RESTRUCTURING

11 § 4-9.01 ASSESSMENT OF INSTITUTIONAL PERFORMANCE

12 Consistent with § 23.1-206, Code of Virginia, the following education-related and financial and administrative management
 13 measures shall be the basis on which the State Council of Higher Education shall annually assess and certify institutional
 14 performance. Such certification shall be completed and forwarded in writing to the Governor and the General Assembly no
 15 later than October 1 of each even-numbered year. Institutional performance on measures set forth in paragraph D of this section
 16 shall be evaluated year-to-date by the Secretaries of Finance, Administration, and Technology as appropriate, and
 17 communicated to the State Council of Higher Education before October 1 of each even-numbered year. Financial benefits
 18 provided to each institution in accordance with § 23.1-1002 will be evaluated in light of that institution's performance.

19 In general, institutions are expected to achieve all performance measures in order to be certified by SCHEV, but it is
 20 understood that there can be circumstances beyond an institution's control that may prevent achieving one or more performance
 21 measures. The Council shall consider, in consultation with each institution, such factors in its review: (1) institutions meeting
 22 all performance measures will be certified by the Council and recommended to receive the financial benefits, (2) institutions
 23 that do not meet all performance measures will be evaluated by the Council and the Council may take one or more of the
 24 following actions: (a) request the institution provide a remediation plan and recommend that the Governor withhold release of
 25 financial benefits until Council review of the remediation plan or (b) recommend that the Governor withhold all or part of
 26 financial benefits.

27 Further, the State Council shall have broad authority to certify institutions as having met the standards on education-related
 28 measures. The State Council shall likewise have the authority to exempt institutions from certification on education-related
 29 measures that the State Council deems unrelated to an institution's mission or unnecessary given the institution's level of
 30 performance.

31 The State Council may develop, adopt, and publish standards for granting exemptions and ongoing modifications to the
 32 certification process.

50 2. a) The Virginia Department of Education and the State Council of Higher Education for Virginia shall share personally

1 identifiable information from education records in order to evaluate and study student preparation for and enrollment and
 2 performance at state institutions of higher education in order to improve educational policy and instruction in the Commonwealth.
 3 However, such study shall be conducted in such a manner as to not permit the personal identification of students by persons other
 4 than representatives of the Department of Education or the State Council for Higher Education for Virginia, and such shared
 5 information shall be destroyed when no longer needed for purposes of the study.

6 b) Notwithstanding § 2.2-3800 of the Code of Virginia, the Virginia Department of Education, State Council of Higher Education
 7 for Virginia, Virginia Community College System, and the Virginia Employment Commission may collect, use, share, and maintain
 8 de-identified student data to improve student and program performance including those for career readiness.

9 3. Institutions of higher education shall disclose information from a pupil's scholastic record to the Superintendent of Public
 10 Instruction or his designee for the purpose of studying student preparation as it relates to the content and rigor of the Standards of
 11 Learning. Furthermore, the superintendent of each school division shall disclose information from a pupil's scholastic record to the
 12 Superintendent of Public Instruction or his designee for the same purpose. All information provided to the Superintendent or his
 13 designee for this purpose shall be used solely for the purpose of evaluating the Standards of Learning and shall not be redisclosed,
 14 except as provided under federal law. All information shall be destroyed when no longer needed for the purposes of studying the

 5 However, the Governor may supplement or replace those administrative performance measures with the administrative
 6 performance measures listed in this paragraph. Effective July 1, 2009, the following administrative and financial measures shall
 7 be used for the assessment of institutional performance for institutions governed under Chapters 933 and 943 of the 2006 Acts

 7 institution will have no significant audit deficiencies unresolved beyond one year.

8 f. REPORTING

 10 governed under Management Agreements, shall develop uniform reporting requirements and formats for revenue and expenditure

 14 Assembly of 2011.

15 § 4-9.02 LEVEL II AUTHORITY

16 a. Notwithstanding the provisions of § 5 of Chapter 824 and 829 of the 2008 Acts of Assembly, institutions of higher education that
 17 have met the eligibility criteria for additional operational and administrative authority set forth in Chapters 824 and 829 of the 2008
 18 Acts of Assembly shall be allowed to enter into separate negotiations for additional operational authority for a third and separate
 19 functional area listed in Chapter 824 and 829 of the 2008 Acts of Assembly, provided they have:

20 1. successfully completed at least three years of effectiveness and efficiencies operating under such additional authority granted by
 21 an original memorandum of understanding;

22 2. successfully renewed an additional memoranda of understanding for a five year term for each of the original two areas.

23 The institutions shall meet all criteria and follow policies for negotiating and establishing a memorandum of understanding with the
 24 Commonwealth of Virginia as provided in § 2.0 (Information Technology), § 3.0 (Procurement), and § 4.0 (Capital Outlay) of
 25 Chapter 824 and 829 of the 2008 Acts of Assembly.

26 b. As part of the memorandum of understanding, each institution shall be required to adopt at least one new education-related
 27 measure for the new area of operational authority. Each education-related measure and its respective target shall be developed in
 28 consultation with the Secretary of Finance, Secretary of Education, the appropriate Cabinet Secretary, and the State Council of
 29 Higher Education for Virginia. Each education-related measure and its respective target must be approved by the State Council of
 30 Higher Education for Virginia.

31 c. 1. As part of a five-year pilot program, George Mason University and James Madison University are authorized, for a period of
 32 five years, to exercise additional financial and administrative authority as set out in each of the three functional areas of information
 33 technology, procurement and capital projects as set forth and subject to all the conditions in §§ 2.0, 3.0 and 4.0 of the second
 34 enactment of Chapter 824 and 829 of the Acts of Assembly of 2008 except that (i) any effective dates contained in Chapter 824 and
 35 829 of the Acts of Assembly of 2008 are superseded by the provisions of this item, and (ii) the institution is not required to have a
 36 signed memorandum of understanding with the Secretary of Administration regarding participation in the nongeneral fund
 37 decentralization program as provided in subsection C of § 2.2-1132 in order to be eligible for the additional capital project authority.

38 2. In addition, each institution shall exercise additional financial and administrative authority over financial operations as follows:

39 a). BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.

40 The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties
 41 and responsibilities set forth in, and for the appropriate implementation of, this Policy. Consistent with this full and ultimate
 42 accountability, however, the Board may, pursuant to its legally permissible procedures, specifically delegate either herein or by
 43 separate Board resolution the duties and responsibilities set forth in this Policy to a person or persons within the University, who,
 44 while continuing to be fully accountable for such duties and responsibilities, may further delegate the implementation of those duties
 45 and responsibilities pursuant to the University's usual delegation policies and procedures.

46 b) FINANCIAL MANAGEMENT AND REPORTING SYSTEM.

47 The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to be
 48 authorized by the Board to maintain existing and implement new policies governing the management of University financial
 49 resources. These policies shall continue to (i) ensure compliance with Generally Accepted Accounting Principles, (ii) ensure
 50 consistency with the current accounting principles employed by the Commonwealth, including the use of fund accounting principles,

1 with regard to the establishment of the underlying accounting records of the University and the allocation and utilization of
 2 resources within the accounting system, including the relevant guidance provided by the State Council of Higher Education for
 3 Virginia chart of accounts with regard to the allocation and proper use of funds from specific types of fund sources, (iii)
 4 provide adequate risk management and internal controls to protect and safeguard all financial resources, including moneys
 5 transferred to the University pursuant to a general fund appropriation, and ensure compliance with the requirements of the
 6 Appropriation Act.

7 The financial management system shall continue to include a financial reporting system to satisfy both the requirements for
 8 inclusion into the Commonwealth's Comprehensive Annual Financial Report, as specified in the related State Comptroller's
 9 Directives, and the University's separately audited financial statements. To ensure observance of limitations and restrictions
 10 placed on the use of the resources available to the University, the accounting and bookkeeping system of the University shall
 11 continue to be maintained in accordance with the principles prescribed for governmental organizations by the Governmental
 12 Accounting Standards Board.

13 In addition, the financial management system shall continue to provide financial reporting for the President, acting through the
 14 Executive Vice President, Chief Operating Officer, or Chief Financial Officer, and the Board of Visitors to enable them to
 15 provide adequate oversight of the financial operations of the University.

16 c) FINANCIAL MANAGEMENT POLICIES.

17 The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall create
 18 and implement any and all financial management policies necessary to establish a financial management system with adequate
 19 risk management and internal control processes and procedures for the effective protection and management of all University
 20 financial resources. Such policies will not address the underlying accounting principles and policies employed by the
 21 Commonwealth and the University, but rather will focus on the internal operations of the University's financial management.
 22 These policies shall include, but need not be limited to, the development of a tailored set of finance and accounting practices
 23 that seek to support the University's specific business and administrative operating environment in order to improve the
 24 efficiency and effectiveness of its business and administrative functions. In general, the system of independent financial
 25 management policies shall be guided by the general principles contained in the Commonwealth's Accounting Policies and
 26 Procedures such as establishing strong risk management and internal accounting controls to ensure University financial
 27 resources are properly safeguarded and that appropriate stewardship of public funds is obtained through management's
 28 oversight of the effective and efficient use of such funds in the performance of University programs.

29 The University shall continue to follow the Commonwealth's accounting policies until such time as specific alternate policies
 30 can be developed, approved and implemented. Such alternate policies shall include applicable accountability measures and
 31 shall be submitted to the State Comptroller for review and comment before they are implemented by the University.

32 d) FINANCIAL RESOURCE RETENTION AND MANAGEMENT.

33 The Board of Visitors shall retain the authority to establish tuition, fee, room, board, and other charges, with appropriate
 34 commitment provided to need-based grant aid for middle- and lower-income undergraduate Virginians. Except as provided
 35 otherwise in the Appropriation Act, it is the intent of the Commonwealth and the University that the University shall be exempt
 36 from the revenue restrictions in the general provisions of the Appropriation Act related to non-general funds. In addition, unless
 37 prohibited by the Appropriation Act, it is the intent of the Commonwealth and the University that the University shall be
 38 entitled to retain non-general fund savings generated from changes in Commonwealth rates and charges, including but not
 39 limited to health, life, and disability insurance rates, retirement contribution rates, telecommunications charges, and utility rates,
 40 rather than reverting such savings back to the Commonwealth. This financial resource policy assists the University by
 41 providing the framework for retaining and managing non-general funds, for the receipt of general funds, and for the use and
 42 stewardship of all these funds.

43 The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue
 44 to provide oversight of the University's cash management system which is the framework for the retention of non-general
 45 funds. The Internal Audit Department of the University shall periodically audit the University's cash management system in
 46 accordance with appropriate risk assessment models and make reports to the Audit and Compliance Committee of the Board of
 47 Visitors. Additional oversight shall continue to be provided through the annual audit and assessment of internal controls
 48 performed by the Auditor of Public Accounts. For the receipt of general and non-general funds, the University shall conform to
 49 the Security for Public Deposits Act, Chapter 44 (§ 2.2-4400 et seq.) of Title 2.2 of the Code of Virginia as it currently exists
 50 and from time to time may be amended.

51 e) ACCOUNTS RECEIVABLE MANAGEMENT AND COLLECTION.

52 The President, through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to be
 53 authorized to create and implement any and all Accounts Receivable Management and Collection policies as part of a system
 54 for the management of University financial resources. The policies shall be guided by the requirements of the Virginia Debt
 55 Collection Act, Chapter 48 (§ 2.2-4800 et seq.) of the Code of Virginia, such that the University shall take all appropriate and
 56 cost effective actions to aggressively collect accounts receivable in a timely manner.

1 These shall include, but not be limited to, establishing the criteria for granting credit to University customers; establishing the nature
 2 and timing of collection procedures within the above general principles; and the independent authority to select and contract with
 3 collection agencies and, after consultation with the Office of the Attorney General, private attorneys as needed to perform any and

11 The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to be
 12 authorized to create and implement any and all disbursement policies as part of a system for the management of University financial
 13 resources. The disbursement management policies shall continue to define the appropriate and reasonable uses of all funds, from
 14 whatever source derived, in the execution of the University's operations. These policies also shall continue to address the timing of
 15 appropriate and reasonable disbursements consistent with the Prompt Payment Act, and the appropriateness of certain goods or
 16 services relative to the University's mission, including travel-related disbursements. Further, the University's disbursement policy

 21 other such providers of expert advice and consultation, and, after consultation with the Office of the Attorney General, private
 22 attorneys, as may be necessary or desirable in his or her discretion. The policies also shall continue to include the ability to locally
 23 manage and administer the Commonwealth's credit card and cost recovery programs related to disbursements, subject to any
 24 restrictions contained in the Commonwealth's contracts governing those programs, provided that the University shall submit the
 25 credit card and cost recovery aspects of its financial and operations policies to the State Comptroller for review and comment prior
 26 to implementing those aspects of those policies. The disbursement policies shall ensure that adequate risk management and internal
 27 control procedures shall be maintained over previously decentralized processes for public records, payroll, and non-payroll
 28 disbursements. The University shall continue to provide summary quarterly prompt payment reports to the Department of Accounts
 29 in accordance with the reporting procedures established pursuant to the Prompt Payment Act.

30 The University's disbursement policies shall be guided by the principles of the Commonwealth's policies as included in the
 31 Commonwealth's Accounting Policy and Procedures Manual. The University shall continue to follow the Commonwealth's
 32 disbursement policies until such time as specific alternative policies can be developed, approved and implemented. Such alternate

 39 Title 30 except for those provisions in such chapter that relate to requirements for financial recordkeeping and bookkeeping. Each
 40 such institution shall be subject to periodic external review by the Joint Legislative and Audit Review Commission and such other
 41 reviews and audits as shall be required by law.

42 d. Subject to review of its Shared Services Center by the Department of General Services, and approval to proceed with
 43 decentralized procurement of authority by the Department of General Services, the Virginia Community College System (VCCS) is
 44 authorized, for a period of five years, to exercise additional financial and administrative authority as set out in each of the three
 45 functional areas of information technology, procurement and capital projects as set forth and subject to all the conditions in §§ 2.0,
 46 3.0 and 4.0 of the second enactment of Chapter 824 and 829 of the Acts of Assembly of 2008 except that (i) any effective dates
 47 contained in Chapter 824 and 829 of the Acts of Assembly of 2008 are superseded by the provisions of this item. The State Board
 48 for Community Colleges may request any subsequent delegation of procurement authority after consultation with and positive
 49 recommendation by the Department of General Services.

50 e. *Notwithstanding the small purchase thresholds set forth in the Rules Governing Procurement for institutions of higher education*
 51 *that have operational authority in the area of procurement, the small purchases thresholds shall be the same thresholds set forth in*
 52 *the Virginia Public Procurement Act (§ 2.2- 4300 et seq). Where small purchase thresholds in the Rules Governing Procurement for*

54 § 4-9.03 LEVEL III AUTHORITY

55 a. The Management Agreements negotiated by the institutions contained in Chapters 675 and 685 of the 2009 Acts of Assembly
 56 shall continue in effect unless the Governor, the General Assembly, or the institutions determine that the Management Agreements

1 need to be renegotiated or revised.

8 § 4-9.04 IMPLEMENT JLARC RECOMMENDATIONS

9 a. The Boards of Visitors at each Virginia public four-year higher education institution, to the extent practicable, shall:

10 1. require their institutions to clearly list the amount of the athletic fee on their website's tuition and fees information page. The
 11 page should include a link to the State Council of Higher Education for Virginia's tuition and fee information. The boards
 12 should consider requiring institutions to list the major components of all mandatory fees, including the portion attributable to
 13 athletics, on a separate page attached to student invoices;

14 2. assess the feasibility and impact of raising additional revenue through campus recreation and fitness enterprises to reduce
 15 reliance on mandatory student fees. The assessments should address the feasibility and impact of raising additional revenue
 16 through charging for specialized programs and services, expanding membership, and/or charging all users of recreation
 17 facilities;

18 3. direct staff to perform a comprehensive review of the institution's organizational structure, including an analysis of spans of
 19 control and a review of staff activities and workload, and identify opportunities to streamline the organizational structure.
 20 Boards should further direct staff to implement the recommendations of the review to streamline their organizational structures
 21 where possible;

22 4. require periodic reports on average and median spans of control and the number of supervisors with six or fewer direct
 23 reports;

24 5. direct staff to revise human resource policies to eliminate unnecessary supervisory positions by developing standards that
 25 establish and promote broader spans of control. The new policies and standards should (i) set an overall target span of control
 26 for the institution, (ii) set a minimum number of direct reports per supervisor, with guidelines for exceptions, (iii) define the
 27 circumstances that necessitate the use of a supervisory position, (iv) prohibit the establishment of supervisory positions for the
 28 purpose of recruiting or retaining employees, and (v) establish a periodic review of departments where spans of control are
 29 unusually narrow; and,

30 6. direct institution staff to set and enforce policies to maximize standardization of purchases of commonly procured goods,
 31 including use of institution-wide contracts;

32 7. consider directing institution staff to provide an annual report on all institutional purchases, including small purchases, that
 33 are exceptions to the institutional policies for standardizing purchases;

34 8. participate in national faculty teaching load assessments by discipline and faculty type.

35 b. The State Council on Higher Education for Virginia, to the extent practicable, shall:

36 1. convene a working group of institution financial officers, with input from the Department of Accounts, the Department of
 37 Planning and Budget, and the Auditor of Public Accounts, to create a standard way of calculating and publishing mandatory
 38 non-E&G fees, including for intercollegiate athletics;

39 2. update the state's Chart of Accounts for higher education in order to improve comparability and transparency of mandatory
 40 non-E&G fees, with input from the Department of Accounts, the Department of Planning and Budget, the Auditor of Public
 41 Accounts, and institutional staff. This process should be coordinated with the standardization of tuition and fee reporting;

42 3. convene a working group of institutional staff to develop instructional and research space guidelines that adequately measure
 43 current use of space and plans for future use of space at Virginia's public higher education institutions;

44 4. coordinate a committee of institutional representatives, such as the previously authorized Learning Technology Advisory
 45 Committee. In addition to the objectives set out in the Appropriation Act for the Learning Technology Advisory Committee,
 46 the committee should identify instructional technology initiatives and best practices for directly or indirectly lowering
 47 institutions' instructional expenditures per student while maintaining or enhancing student learning;

48 5. include factors such as discipline, faculty rank, cost of living, and regional comparisons in developing faculty salary goals;

49 6. identify instructional technology best practices that directly or indirectly lower student cost while maintaining or enhancing

1 learning.

2 c. Notwithstanding the provisions of § 23.1-1304, the State Council of Higher Education for Virginia shall annually train boards of
3 visitors members on the types of information members should request from institutions to inform decision making, such as
4 performance measures, benchmarking data, the impact of financial decisions on student costs, and past and projected cost trends.
5 Boards of Visitors members serving on finance and facilities subcommittees should, at a minimum, participate in the training within
6 their first year of membership on the subcommittee. SCHEV should obtain assistance in developing or delivering the training from
7 relevant agencies such as the Department of General Services and past or present finance officers at Virginia's public four-year
8 institutions, as appropriate.

9 d. The Department of Planning and Budget shall revise the formula used to make allocation recommendations for the state's
10 maintenance reserve funding to account for higher maintenance needs resulting from poor facility condition, aging of facilities, and
11 differences in facility use. Beginning with fiscal year 2016, the Department of Planning and Budget shall submit these
12 recommendations to the Governor and General Assembly no later than November 1 of each year.

13 e. The Six-Year Capital Outlay Plan Advisory Committee, the Department of Planning and Budget, and others as appropriate shall
14 use the results of the prioritization process established by the State Council of Higher Education for Virginia in determining which
15 capital projects should receive funding.

16 f. Beginning with fiscal year 2016, the Auditor of Public Accounts shall include in its audit plan for each public institution of higher
17 education a review of progress in implementing the JLARC recommendations contained in paragraph § 4-9.04 a.

18 § 4-11.00 STATEMENT OF FINANCIAL CONDITION

19 Each agency head handling any state funds shall, at least once each year, upon request of the Auditor of Public Accounts, make a
20 detailed statement, under oath, of the financial condition of his office as of the date of such call, to the Auditor of Public Accounts,
21 and upon such forms as shall be prescribed by the Auditor of Public Accounts.

22 § 4-12.00 SEVERABILITY

23 If any part, section, subsection, paragraph, sentence, clause, phrase, or item of this act or the application thereof to any person or
24 circumstance is for any reason declared unconstitutional, such decisions shall not affect the validity of the remaining portions of this
25 act which shall remain in force as if such act had been passed with the unconstitutional part, section, subsection, paragraph, sentence,
26 clause, phrase, item or such application thereof eliminated; and the General Assembly hereby declares that it would have passed this
27 act if such unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, or item had not been included herein, or if
28 such application had not been made.

29 § 4-13.00 CONFLICT WITH OTHER LAWS

30 Notwithstanding any other provision of law, and until June 30, 2020, the provisions of this act shall prevail over any conflicting
31 provision of any other law, without regard to whether such other law is enacted before or after this act; however, a conflicting
32 provision of another law enacted after this act shall prevail over a conflicting provision of this act if the General Assembly has
33 clearly evidenced its intent that the conflicting provision of such other law shall prevail, which intent shall be evident only if such
34 other law (i) identifies the specific provision(s) of this act over which the conflicting provision of such other law is intended to
35 prevail and (ii) specifically states that the terms of this section are not applicable with respect to the conflict between the provision(s)
36 of this act and the provision of such other law.

37 § 4-14.00 EFFECTIVE DATE

38 This act is effective ~~on July 1, 2018~~ on its passage as provided in § 1-214, Code of Virginia..

9 **§ 33.2-1907. Members of Transportation Commissions.**

10 A. Any transportation district commission created pursuant to this chapter shall consist of the number of members the component
 11 governments shall agree upon, or as may otherwise be provided by law. The governing body of each participating county and city
 12 shall appoint from among its members the number of commissioners to which the county or city is entitled; however, for those
 13 commissions with powers as set forth in subsection A of § 33.2-1915, the governing body of each participating county or city is
 14 not limited to appointing commissioners from among its members. In addition, the governing body may appoint, from its number

25 The Potomac and Rappahannock Transportation Commission shall also include two members *who reside within the boundaries of*
 26 *the transportation district of the House of Delegates and one member of the Senate from legislative districts located wholly or in*

 35 Governor from each county and city embraced by the transportation district. However, for the gubernatorial appointments that will
 36 become effective July 1, 2016, three of the appointments shall be for initial terms of two years and three appointments shall be for
 37 terms of four years. Thereafter, all gubernatorial appointments shall be for terms of four years so as to stagger the terms of the
 38 gubernatorial appointees. The governing body of each such county or city may appoint either a member of its governing body or
 39 its county or city manager to serve as an ex officio member with voting privileges. Every such ex officio member shall be allowed
 40 to attend all meetings of the commission that other members may be required to attend. Vacancies shall be filled in the same
 41 manner as the original appointments.

42 B. The Secretary or his designee and any appointed member of the Northern Virginia Transportation Commission are authorized
 43 to serve as members of the board of directors of the Washington Metropolitan Area Transit Authority (§ 33.2-3100 et seq.) and
 44 while so serving the provisions of § 2.2-2800 shall not apply to such member. In appointing Virginia members of the board of
 45 directors of the Washington Metropolitan Area Transit Authority (WMATA), the Northern Virginia Transportation Commission
 46 shall include the Secretary or his designee as a principal member on the board of directors of WMATA. Any designee serving as
 47 the principal member must reside in a locality served by WMATA.

48 In selecting from its membership those members to serve on the board of directors of WMATA, the Northern Virginia
 49 Transportation Commission shall comply with the following requirements:

50 1. A board member shall not have been an employee of WMATA within one year of appointment to serve on the board of
 51 directors.

 55 transportation issue resolution.

56 3. A board member shall be a regular patron of the services provided by WMATA.

1 4. Board members shall serve a term of four years with a maximum of two consecutive terms. A board member's term or terms must
 2 coincide with his term on the body that appointed him to the Northern Virginia Transportation Commission. Any vacancy created if a
 3 board member cannot fulfill his term because his term on the appointing body has ended shall be filled for the unexpired term in the
 4 same manner as the member being replaced was appointed within 60 days of the vacancy. The initial appointments to a four-year term
 5 will be as follows: the Secretary, or his designee, for a term of four years; the second principal member for a term of three years; one
 6 alternate for a term of two years; and the remaining alternate for a term of one year. Thereafter, board members shall be appointed for

 8 service. Any person appointed to an initial one-year or two-year term, or appointed to an unexpired term in which two years or less is
 9 remaining, shall be eligible to serve two consecutive four-year terms after serving the initial or unexpired term.

10 5. Members may be removed from the board of directors of WMATA if they attend fewer than three-fourths of the meetings in a
 11 calendar year; if they are conflicted due to employment at WMATA; or if they are found to be in violation of the State and Local
 12 Government Conflict of Interests Act (§ 2.2-3100 et seq.). If a board member is removed during a term, the vacancy shall be filled
 13 pursuant to the provisions of subdivision 4.

14 6. Each member of the Northern Virginia Transportation Commission appointed to the board of directors of WMATA shall file
 15 semiannual reports with the Secretary's office beginning July 1, 2012. The reports shall include (i) the dates of attendance at WMATA
 16 board meetings, (ii) any reasons for not attending a specific meeting, and (iii) dates and attendance at other WMATA-related public
 17 events.

18 7. Each nonelected member of the Northern Virginia Transportation Commission appointed to the board of directors of WMATA shall
 19 be eligible to receive reasonable and necessary expenses and compensation pursuant to §§ 2.2-2813 and 2.2-2825 from the Northern
 20 Virginia Transportation Commission for attending meetings and for the performance of his official duties as a board member on that
 21 day.

22 Any entity that provides compensation to a WMATA board member for his service on the WMATA board shall be required to submit
 23 on July 1 of each year to the Secretary the amount of that compensation. Such letter will remain on file with the Secretary's office and
 24 be available for public review.

25 C. When the Northern Virginia Transportation Commission and the Potomac and Rappahannock Transportation Commission enter into
 26 an agreement to operate a commuter railway, the agreement governing the creation of the railway shall provide that the Chairman of
 27 the Commonwealth Transportation Board or his designee shall have one vote on the oversight board for the railway. For each year in
 28 which the state contribution to the railway is greater than or equal to the highest contribution from an individual locality, the total
 29 annual subsidy as provided by the member localities used to determine vote weights shall be recalculated to include the Commonwealth
 30 contributing an amount equal to the highest contributing locality. The vote weights shall be recalculated to provide the Chairman of the
 31 Commonwealth Transportation Board or his designee the same weight as the highest contributing locality. The revised vote weights
 32 shall be used in determining the passage of motions before the oversight board.

33 **§ 33.2-2502. Composition of Authority; membership; terms.**

34 The Authority shall consist of 17 members as follows:

35 1. The chief elected officer of the governing body of each county and city embraced by the Authority or, in the discretion of the chief

- 46 A. No county, city or town shall impose any local general sales or use tax or any local general retail sales or use tax except as
47 authorized by this section.
- 48 B. The council of any city and the governing body of any county may levy a general retail sales tax at the rate of one percent to
49 provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state sales tax imposed by §§
50 58.1-603 and 58.1-604 and shall be subject to all the provisions of this chapter and the rules and regulations published with respect

1 thereto. No discount under § 58.1-622 shall be allowed on a local sales tax.

2 C. 1. The council of any city and the governing body of any county desiring to impose a local sales tax under this section may do so by
3 the adoption of an ordinance stating its purpose and referring to this section, and providing that such ordinance shall be effective on the
4 first day of a month at least 60 days after its adoption. A certified copy of such ordinance shall be forwarded to the Tax Commissioner
5 so that it will be received within five days after its adoption.

6 2. *Prior to any change in the rate of any local sales and use tax, the Tax Commissioner shall provide remote sellers with at least 30*
7 *days' notice. Any change in the rate of any local sales and use tax shall only become effective on the first day of a calendar quarter.*
8 *Failure to provide notice pursuant to this section shall require the Commonwealth and the locality to apply the preceding effective rate*
9 *until 30 days after notification is provided.*

10 D. Any local sales tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and
11 subject to the same penalties as provided for the state sales tax.

12 E. All local sales tax moneys collected by the Tax Commissioner under this section shall be paid into the state treasury to the credit of a
13 special fund which is hereby created on the Comptroller's books under the name "Collections of Local Sales Taxes." Such local sales
14 tax moneys shall be credited to the account of each particular city or county levying a local sales tax under this section. The basis of
15 such credit shall be the city or county in which the sales were made as shown by the records of the Department and certified by it
16 monthly to the Comptroller, namely, the city or county of location of each place of business of every dealer paying the tax to the
17 Commonwealth without regard to the city or county of possible use by the purchasers. If a dealer has any place of business located in
18 more than one political subdivision by reason of the boundary line or lines passing through such place of business, the amount of sales
19 tax paid by such a dealer with respect to such place of business shall be treated for the purposes of this section as follows: one-half shall
20 be assignable to each political subdivision where two are involved, one-third where three are involved, and one-fourth where four are
21 involved.

22 F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month,
23 the Comptroller shall draw his warrant on the Treasurer of Virginia in the proper amount in favor of each city or county entitled to the
24 monthly return of its local sales tax moneys, and such payments shall be charged to the account of each such city or county under the
25 special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether
26 attributable to refunds to taxpayers, or to some other fact, the errors shall be corrected and adjustments made in the payments for the
27 next two months as follows: one-half of the total adjustment shall be included in the payments for the next two months. In addition, the
28 payment shall include a refund of amounts erroneously not paid to the city or county and not previously refunded during the three years
29 preceding the discovery of the error. A correction and adjustment in payments described in this subsection due to the misallocation of
30 funds by the dealer shall be made within three years of the date of the payment error.

31 G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a
32 special school district and operated as a separate school district under a town school board of three members appointed by the town
33 council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount
34 received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the
35 school age population of any town constituting a separate school district is increased by the annexation of territory since the last
36 estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of
37 this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the
38 school age population of the county or counties from which the annexed territory was acquired.

39 H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G ~~above~~, that in any
40 county wherein is situated any incorporated town not constituting a separate special school district which has complied with its charter
41 provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the
42 sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the
43 proper proportionate amount received by him in the ratio that the school age population of each such town bears to the school age
44 population of the entire county, based on the latest estimate provided by the Weldon Cooper Center for Public Service. The preceding
45 requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall
46 not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by
47 the annexation of territory or otherwise since the last estimate of school age population provided by the Weldon Cooper Center for
48 Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the
49 last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory
50 was acquired.

51 I. Notwithstanding the provisions of subsection H, the board of supervisors of a county may, in its discretion, appropriate funds to any
52 incorporated town not constituting a separate school district within such county which has not complied with the provisions of its
53 charter relating to the elections of its council and mayor, an amount not to exceed the amount it would have received from the tax
54 imposed by this chapter if such election had been held.

55 J. It is further provided that if any incorporated town which would otherwise be eligible to receive funds from the county treasurer
56 under subsection G or H of this section be located in a county which does not levy a general retail sales tax under the provisions of this
57 law, such town may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of the town, subject

1 to all the provisions of this section generally applicable to cities and counties. Any tax levied under the authority of this subsection
 2 shall in no case continue to be levied on or after the effective date of a county ordinance imposing a general retail sales tax in the
 3 county within which such town is located.

4 § 58.1-612. Tax collectible from dealers; "dealer" defined; jurisdiction.

 7 (ii) subsections B and D.

 25 to hold, a certificate of registration under § 58.1-613.

26 C. A dealer shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if ~~he~~ it:

 5 presumption is rebutted as provided herein) if any commonly controlled person maintains a distribution center, warehouse, fulfillment
 6 center, office, or similar location within the Commonwealth that facilitates the delivery of tangible personal property sold by the dealer
 7 to its customers. The presumption in this subsection may be rebutted by demonstrating that the activities conducted by the commonly
 8 controlled person in the Commonwealth are not significantly associated with the dealer's ability to establish or maintain a market in the
 9 Commonwealth for the dealer's sales. For purposes of this subsection, a "commonly controlled person" means any person that is a
 10 member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or
 11 renumbered, as the dealer or any other entity that, notwithstanding its form of organization, bears the same ownership relationship to
 12 the dealer as a corporation that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal
 13 Revenue Code of 1954, as amended or renumbered.

14 E. Notwithstanding any other provision of this section, the following shall not be considered to determine whether a
 15 person ~~who~~ *that* has contracted with a commercial printer for printing in the Commonwealth is a "dealer" and whether such person has
 16 sufficient contact with the Commonwealth to be required to register under § 58.1-613:

 20 printer;

21 3. Activities in connection with the printing contract with the person performed by or on behalf of that person at the Virginia premises
 22 of the commercial printer; and

23 4. Activities in connection with the printing contract with the person performed by the commercial printer within Virginia for or on
 24 behalf of that person.

25 F. In addition to the jurisdictional standards contained in subsections C and D, nothing contained ~~herein~~ *(in this chapter* other
 26 *than in subsection E)* shall limit any authority ~~which~~ *that* this Commonwealth may enjoy under the provisions of federal law or an
 27 opinion of the United States Supreme Court to require the collection of sales and use taxes by any dealer ~~who~~ *that* regularly or
 28 systematically solicits sales within this Commonwealth. Furthermore, nothing contained in subsection C shall require any broadcaster,
 29 printer, outdoor advertising firm, advertising distributor, or publisher which broadcasts, publishes, or displays or distributes paid
 30 commercial advertising in this Commonwealth which is intended to be disseminated primarily to consumers located in this
 31 Commonwealth to report or impose any liability to pay any tax imposed under this chapter solely because such broadcaster, printer,
 32 outdoor advertising firm, advertising distributor, or publisher accepted such advertising contracts from out-of-state advertisers or
 33 sellers.

34 ~~G. (Contingent effective date) Pursuant to any federal legislation that grants states the authority to require remote sellers to collect sales~~
 35 ~~and use tax, the Commonwealth is authorized, as permitted by such federal legislation, to require collection of sales and use tax by any~~
 36 ~~remote seller, or a single or consolidated provider acting on behalf of a remote seller. If the federal legislation has an exemption for~~
 37 ~~sellers whose sales are less than a minimum amount, then in determining such amount, the sales made by all persons related within the~~
 38 ~~meanings of subsections (b) and (c) of § 267 or § 707(b)(1) of the Internal Revenue Code of 1986 shall be aggregated.~~

49 "Marketplace seller" means a person that is not a commonly controlled person, as defined in subsection D of § 58.1-612, to a

- 1 with Virginia to require registration under subsection C.
- 2 C. A marketplace facilitator shall be deemed to have sufficient activity within the Commonwealth to require registration under §
3 58.1-613 if it meets at least one requirement in each of subdivisions 1, 2, and 3:
- 4 1. It engages, either directly or indirectly, through a commonly controlled person as defined in subsection D of § 58.1-612 in any
5 of the following activities:
- 6 a. Transmitting or communicating an offer or acceptance between a purchaser and a marketplace seller;
- 7 b. Owning or operating the infrastructure, whether electronic or physical, or technology that brings purchasers and marketplace
8 sellers together; or
- 9 c. Providing a virtual currency that purchasers are allowed or required to use to purchase products from the marketplace seller;
- 10 2. It engages in any of the following activities with respect to a marketplace seller's products:
- 11 a. Payment processing;
- 12 b. Fulfillment or storage;
- 13 c. Listing products for sale;
- 14 d. Setting prices;
- 15 e. Branding sales as those of the marketplace facilitator; or
- 16 f. Providing customer service or accepting or assisting with returns or exchanges; and
- 17 3. It establishes economic nexus through either of the following activities:
- 18 a. Facilitating sales in Virginia that, in the aggregate, generate more than \$100,000 in gross revenue, or other minimum amount
19 as may be required by federal law, for such marketplace facilitator. A marketplace facilitator may exceed this threshold based on
20 sales for either the previous or current calendar year. In determining the amount of a marketplace facilitator's gross revenues, the
21 sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated; or
- 22 b. Facilitating 200 or more separate retail sale transactions, or other minimum amount as may be required by federal law, in the
23 Commonwealth in the previous or current calendar year. In determining the total number of retail sales transactions attributable
24 to a marketplace facilitator, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be
25 aggregated.
- 26 D. 1. A marketplace facilitator shall be considered a dealer for purposes of this chapter and shall collect the tax imposed by this
27 chapter on all transactions that it facilitates through its marketplace.
- 28 2. No marketplace seller shall collect sales and use tax on a transaction made through a marketplace facilitator's marketplace.
- 29 3. Notwithstanding the provisions of subdivisions 1 and 2, the Department shall allow for a waiver from the requirements of
30 subdivisions 1 and 2 if a marketplace facilitator demonstrates, to the satisfaction of the Commissioner, that either (i) all of its
31 marketplace sellers already are registered dealers under § 58.1-613 or (ii) the marketplace seller has sufficient nexus to require
32 registration under § 58.1-613 and that collection of the tax by the marketplace facilitator for such marketplace seller would create
33 an undue burden or hardship for either party. If such waiver is granted, the tax levied under this chapter shall be collectible from
34 the marketplace seller. The Department shall develop guidelines that establish (a) the criteria for obtaining a waiver pursuant to
35 this section, (b) the process and procedure for a marketplace facilitator to apply for a waiver, and (c) the process for providing
36 notice to an affected marketplace facilitator and marketplace seller of a waiver obtained pursuant to this subdivision.
- 37 E. A marketplace facilitator shall be relieved from liability, including penalties and interest, for the incorrect collection or
38 remittance of sales and use tax on transactions it facilitates or for which it is the seller if the error is due to reasonable reliance
39 on (i) an invalid exemption certificate provided by the marketplace seller or the purchaser; (ii) incorrect or insufficient
40 information provided by the Commonwealth; or (iii) incorrect or insufficient information provided by the marketplace seller or
41 purchaser regarding the tax classification or proper sourcing of an item or transaction, provided that the marketplace facilitator
42 can demonstrate it made a reasonable effort to obtain accurate information from the marketplace seller or purchaser. The relief
43 from liability afforded to the marketplace facilitator pursuant to this subsection shall not exceed the total amount of tax due from
44 the marketplace facilitator on the incorrect transaction independent of any penalties or interest that would have otherwise
45 applied. Any deficiency resulting from incorrect information provided by the marketplace seller or as the result of an audit shall
46 be the liability of the marketplace seller.
- 47 F. A marketplace facilitator is the sole entity subject to audit by the Department for sales and use tax collection for all
48 transactions facilitated by the marketplace facilitator unless (i) the marketplace facilitator can demonstrate that its failure to

1 collect the proper tax was due to incorrect information provided by the marketplace seller or (ii) the marketplace seller is subject to a
2 waiver granted pursuant to subdivision D 3.

3 G. If a marketplace facilitator lacks physical presence in the Commonwealth and has both facilitated and made direct sales into the
4 Commonwealth, both types of sales shall be considered in determining whether it has established economic nexus.

5 H. When a marketplace seller that is not otherwise required to register for the collection of the tax under any of the provisions
6 contained in subdivisions C 1 through 9 of § 58.1-612 makes both direct sales and sales on a marketplace facilitator's marketplace,
7 only the marketplace seller's direct sales shall be considered in determining whether the marketplace seller is required to register for
8 the collection of the tax under subdivision C 10 or 11 of § 58.1-612.

9 I. No class action shall be brought against a marketplace facilitator in any court of the Commonwealth on behalf of customers arising
10 from or in any way related to an overpayment of sales and use tax collected on sales facilitated by the marketplace facilitator,
11 regardless of whether such claim is characterized as a tax refund claim. Nothing in this subsection shall affect a customer's right to
12 seek a refund on an individual basis.

13 § 58.1-615. (Contingent expiration date) Returns by dealers.

14 A. Every dealer required to collect or pay the sales or use tax shall, on or before the twentieth day of the month following the month in
15 which the tax shall become effective, transmit to the Tax Commissioner a return showing the gross sales, gross proceeds, or cost price,
16 as the case may be, arising from all transactions taxable under this chapter during the preceding calendar month, and thereafter a like
17 return shall be prepared and transmitted to the Tax Commissioner by every dealer on or before the twentieth day of each month, for the
18 preceding calendar month. In the case of dealers regularly keeping books and accounts on the basis of an annual period which varies 52
19 to 53 weeks, the Tax Commissioner may make rules and regulations for reporting consistent with such accounting period.

20 Notwithstanding any other provision of this chapter, a dealer may be required by the Tax Commissioner to file sales or use tax returns
21 on an accounting period less frequent than monthly when, in the opinion of the Tax Commissioner, the administration of the taxes
22 imposed by this chapter would be enhanced. If a dealer is required to file other than monthly, each such return shall be due on or before
23 the twentieth day of the month following the close of the period. Each such return shall contain all information required for monthly
24 returns.

25 A sales or use tax return shall be filed by each registered dealer even though the dealer is not liable to remit to the Tax Commissioner
26 any tax for the period covered by the return.

27 The Tax Commissioner shall not require that more than one sales and use tax return per month be filed with the Department by any
28 remote seller or any software provider on behalf of such remote seller.

29 B. [Expired.]

30 C. Any return required to be filed with the Tax Commissioner under this section shall be deemed to have been filed with the Tax
31 Commissioner on the date that such return is delivered by the dealer to the commissioner of the revenue or the treasurer for the locality
32 in which the dealer is located and receipt is acknowledged by the commissioner of the revenue or treasurer. The commissioner of the
33 revenue or the treasurer shall stamp such date on the return, and shall mail the return to the Tax Commissioner no later than the
34 following business day. The commissioner of the revenue or the treasurer may collect from the dealer the cost of postage for such
35 mailing.

36 D. Every dealer ~~who~~ that elects to file a consolidated sales tax return for any taxable period and ~~who~~ that is required to remit payment
37 by electronic funds transfer pursuant to subsection B of § 58.1-202.1 beginning on and after July 1, 2010, shall file ~~his~~ its monthly
38 return using an electronic medium prescribed by the Tax Commissioner. A waiver of this requirement may be granted if the Tax
39 Commissioner determines that it creates an unreasonable burden on the dealer.

40 § 58.1-625. (Effective until July 1, 2022) Collection of tax.

41 A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax
42 to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall
43 be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this
44 Commonwealth by any dealer ~~who~~ that is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under
45 this chapter.

46 B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or
47 any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the
48 same over to the Tax Commissioner as herein provided.

49 C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax
50 Commissioner such erroneously or illegally collected tax unless or until ~~he~~ it can affirmatively show that the tax has since been
51 refunded to the purchaser or credited to ~~his~~ its account.

- 1 D. 1. Any dealer ~~who that~~ neglects, fails, or refuses to collect such tax upon every taxable sale, distribution, lease, or storage of
2 tangible personal property made by ~~him it, his its~~ agents, or employees shall be liable for and pay the tax ~~himself itself~~, and such
3 dealer shall not thereafter be entitled to sue for or recover in this Commonwealth any part of the purchase price or rental from the
4 purchaser until such tax is paid. Moreover, any dealer ~~who that~~ neglects, fails, or refuses to pay or collect the tax herein provided,
5 either by ~~himself itself~~ or through ~~his its~~ agents or employees, ~~shall be is~~ guilty of a Class 1 misdemeanor.
- 6 2. *Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and
7 use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote
8 seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth.*
- 9 E. (Contingent effective date) ~~Notwithstanding subsection D; any remote seller, single provider, or consolidated provider who has
10 collected an incorrect amount of sales or use tax shall be relieved from liability for such additional amount, including any penalty
11 or interest, if collection of the improper amount is a result of the remote seller, single provider, or consolidated provider's
12 reasonable reliance upon information provided by the Commonwealth, including, but not limited to, any information obtained
13 from software provided by the Department of Taxation pursuant to subsection B of § 58.1-601.~~
- 14 F. All sums collected by a dealer as required by this chapter shall be deemed to be held in trust for the Commonwealth.
- 15 F. Notwithstanding the foregoing provisions of this section, any dealer is authorized during the period of time set forth in §§ 58.1-
16 611.2 and 58.1-611.3 or subdivision 18 of § 58.1-609.1 not to collect the tax levied by this chapter or levied under the authority
17 granted in §§ 58.1-605 and 58.1-606 from the purchaser, and to absorb such tax ~~himself itself~~. A dealer electing to absorb such
18 taxes shall be liable for payment of such taxes to the Tax Commissioner in the same manner as ~~he it~~ is for tax collected from a
19 purchaser pursuant to this section.
- 20 §58.1-625. (Effective July 1, 2022) Collection of tax.
- 21 A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add
22 such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until
23 paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be
24 maintained in this Commonwealth by any dealer ~~who that~~ is not registered under § 58.1-613 or is delinquent in the payment of the
25 taxes imposed under this chapter.
- 26 B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this
27 or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay
28 the same over to the Tax Commissioner as herein provided.
- 29 C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax
30 Commissioner such erroneously or illegally collected tax unless or until ~~he it~~ can affirmatively show that the tax has since been
31 refunded to the purchaser or credited to ~~his its~~ account.
- 32 D. 1. Any dealer ~~who that~~ neglects, fails, or refuses to collect such tax upon every taxable sale, distribution, lease, or storage of
33 tangible personal property made by ~~him it, his its~~ agents, or employees shall be liable for and pay the tax ~~himself itself~~, and such
34 dealer shall not thereafter be entitled to sue for or recover in this Commonwealth any part of the purchase price or rental from the
35 purchaser until such tax is paid. Moreover, any dealer ~~who that~~ neglects, fails, or refuses to pay or collect the tax herein provided,
36 either by ~~himself itself~~ or through ~~his its~~ agents or employees, ~~shall be is~~ guilty of a Class 1 misdemeanor.
- 37 2. *Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and
38 use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote
39 seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth.*
- 40 E. (Contingent effective date = see Editor's note) ~~Notwithstanding subsection D; any remote seller, single provider, or
41 consolidated provider who has collected an incorrect amount of sales or use tax shall be relieved from liability for such additional
42 amount, including any penalty or interest, if collection of the improper amount is a result of the remote seller, single provider, or
43 consolidated provider's reasonable reliance upon information provided by the Commonwealth, including, but not limited to, any
44 information obtained from software provided by the Department of Taxation pursuant to subsection B of § 58.1-601.~~
- 45 F. All sums collected by a dealer as required by this chapter shall be deemed to be held in trust for the Commonwealth.
- 46 F. Notwithstanding the foregoing provisions of this section, any dealer is authorized during the period of time set forth in § 58.1-
47 611.2 not to collect the tax levied by this chapter or levied under the authority granted in §§ 58.1-605 and 58.1-606 from the
48 purchaser, and to absorb such tax ~~himself itself~~. A dealer electing to absorb such taxes shall be liable for payment of such taxes to
49 the Tax Commissioner in the same manner as ~~he it~~ is for tax collected from a purchaser pursuant to this section.
- 50 § 58.1-635. (Contingent expiration date) Failure to file return; fraudulent return; civil penalties.
- 51 A. When any dealer fails to make any return and pay the full amount of the tax required by this chapter, there shall be imposed, in
52 addition to other penalties provided herein, a specific penalty to be added to the tax in the amount of six percent if the failure is for

- 1 not more than one month, with an additional six percent for each additional month, or fraction thereof, during which the failure
 2 continues, not to exceed ~~thirty~~ 30 percent in the aggregate. In no case, however, shall the penalty be less than ~~ten dollars~~ \$10 and such
 3 minimum penalty shall apply whether or not any tax is due for the period for which such return was required. If such failure is due to
 4 providential or other good cause shown to the satisfaction of the Tax Commissioner, such return with or without remittance may be
 5 accepted exclusive of penalties. In the case of a false or fraudulent return where willful intent exists to defraud the Commonwealth of
 6 any tax due under this chapter, or in the case of a willful failure to file a return with the intent to defraud the Commonwealth of any
 7 such tax, a specific penalty of ~~fifty~~ 50 percent of the amount of the proper tax shall be assessed. All penalties and interest imposed by
 8 this chapter shall be payable by the dealer and collectible by the Tax Commissioner in the same manner as if they were a part of the tax
 9 imposed.
- 10 B. It shall be prima facie evidence of intent to defraud the Commonwealth of any tax due under this chapter when any dealer
 11 reports ~~his~~ its gross sales, gross proceeds or cost price, as the case may be, at ~~fifty~~ 50 percent or less of the actual amount.
- 12 C. Interest at a rate determined in accordance with § 58.1-15, shall accrue on the tax until the same is paid, or until an assessment is
 13 made, pursuant to § 58.1-15, after which interest shall accrue as provided therein.
- 14 D. *Notwithstanding any other provision of this section, any remote seller or marketplace facilitator that has collected an incorrect*
 15 *amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of*
 16 *the remote seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth.*
