Appropriations(\$) First Year Second Year FY2025 FY2026

1 E. Consistent with the provisions of paragraph B of Item 67, the board shall allocate the 2 additional jail deputies provided in this appropriation using a ratio of one jail deputy for every 3 3.0 beds of operational capacity. Operational capacity shall be determined by the State Board 4 of Local and Regional Jails. No additional deputy sheriffs shall be provided from this 5 appropriation to a local jail in which the present staffing exceeds this ratio unless the jail is 6 overcrowded. Overcrowding for these purposes shall be defined as when the average annual 7 daily population exceeds the operational capacity. In those jails experiencing overcrowding, 8 the board may allocate one additional jail deputy for every five average annual daily prisoners 9 above operational capacity. Should overcrowding be reduced or eliminated in any jail, the 10 Compensation Board shall reallocate positions previously assigned due to overcrowding to 11 other jails in the Commonwealth that are experiencing overcrowding.

F. Two-thirds of the salaries set by the Compensation Board of medical, treatment, and inmate
 classification positions approved by the Compensation Board for local correctional facilities
 shall be paid out of this appropriation.

G.1. Subject to appropriations by the General Assembly for this purpose, the Compensation
Board shall provide for a master deputy pay grade to those sheriffs' offices which had
certified, on or before January 1, 1997, having a career development plan for deputy sheriffs
that meet the minimum criteria set forth by the Compensation Board for such plans. The
Compensation Board shall allow for additional grade 9 positions, at a level not to exceed one
grade 9 master deputy per every five Compensation Board grade 7 and 8 deputy positions in
each sheriff's office.

22 2. Each sheriff who desires to participate in the Master Deputy Program who had not certified
23 a career development plan on or before January 1, 1997, may elect to participate by certifying
24 to the Compensation Board that the career development plan in effect in his office meets the
25 minimum criteria for such plans as set by the Compensation Board. Such election shall be
26 made by February 1 for an effective date of participation the following July 1.

3. Subject to appropriations by the General Assembly for this purpose, funding shall be
provided by the Compensation Board for participation in the Master Deputy Program to
sheriffs' offices electing participation after January 1, 1997, according to the date of receipt by
the Compensation Board of the election by the sheriff.

31 H. The Compensation Board shall estimate biannually the number of additional law 32 enforcement deputies which will be needed in accordance with § 15.2-1609.1, Code of 33 Virginia. Such estimate of the number of positions and related costs shall be included in the 34 board's biennial budget request submission to the Governor and General Assembly. The 35 allocation of such positions, established by the Governor and General Assembly in Item 67 of 36 this act, shall be determined by the Compensation Board on an annual basis. The annual 37 allocation of these positions to local sheriffs' offices shall be based upon the most recent final 38 population estimate for the locality that is available to the Compensation Board at the time 39 when the agency's annual budget request is completed. The source of such population 40 estimates shall be the Weldon Cooper Center for Public Service of the University of Virginia 41 or the United States Bureau of the Census. For the first year of the biennium, the 42 Compensation Board shall allocate positions based upon the most recent provisional 43 population estimates available at the time the agency's annual budget is completed.

I. Any amount in the program Financial Assistance for Sheriffs' Offices and Regional Jails
 may be transferred between Items 60 and 61, as needed, to cover any deficits incurred in the

Alternative 13 punishment or alternative to incarceration programs, however, may include supervised 14 work experience, treatment, and electronic monitoring programs.
- 15 G.1. Except as provided for in paragraph G.2., and notwithstanding any other provisions 16 of this Item, the Compensation Board shall provide payment to any locality with an 17 average daily jail population of under ten in FY 1995 an inmate per diem rate of \$18 per 18 day for local responsible inmates and \$12 per day for state responsible inmates held in these jails in lieu of personal service costs for corrections' officers. 19
- 20 2. Any locality covered by the provisions of this paragraph shall be exempt from the 21 provisions thereof provided that the locally elected sheriff, with the assistance of the 22 Compensation Board, enters into good faith negotiations to house his prisoners in an 23 existing local or regional jail. In establishing the per diem rate and capital contribution, if 24 any, to be charged to such locality by a local or regional jail, the Compensation Board and 25 the local sheriff or regional jail authority shall consider the operating support and capital 26 contribution made by the Commonwealth, as required by §§ 15.2-1613, 15.2-1615.1, 53.1-27 80, and 53.1-81, Code of Virginia. The Compensation Board shall report periodically to 28 the Chairs of the House Appropriations and Senate Finance and Appropriations 29 Committees on the progress of these negotiations and may withhold the exemption 30 granted by this paragraph if, in the board's opinion, the local sheriff fails to negotiate in 31 good faith.
- 32 H.1. The Compensation Board shall recover the state-funded costs associated with housing 33 federal inmates, District of Columbia inmates or contract inmates from other states. The 34 Compensation Board shall determine, by individual jail, the amount to be recovered by the 35 Commonwealth by multiplying the jail's current inmate days for this population by the 36 proportion of the jail's per inmate day salary funds provided by the Commonwealth, as 37 identified in the most recent Jail Cost Report prepared by the Compensation Board. 38 Beginning July 1, 2009, the Compensation Board shall determine, by individual jail, the 39 amount to be recovered by the Commonwealth by multiplying the jail's current inmate 40 days for this population by the proportion of the jail's per inmate day operating costs 41 provided by the Commonwealth, excluding payments otherwise provided for in this Item, 42 as identified in the most recent Jail Cost Report prepared by the Compensation Board. If a 43 jail is not included in the most recent Jail Cost Report, the Compensation Board shall use 44 the statewide average of per inmate day salary funds provided by the Commonwealth.
- 45 2. The Compensation Board shall deduct the amount to be recovered by the 46 Commonwealth from the facility's next quarterly per diem payment for state-responsible 47 and local-responsible inmates. Should the next quarterly per diem payment owed the 48 locality not be sufficient against which to net the total quarterly recovery amount, the 49 locality shall remit the remaining amount not recovered to the Compensation Board.
- 50 3. Any local or regional jail which receives funding from the Compensation Board shall 51 give priority to the housing of local-responsible, state-responsible, and state contract 52 inmates, in that order, as provided in paragraph H.1.
- 53 4. The Compensation Board shall not provide any inmate per diem payments to any local 54 or regional jail which holds federal inmates in excess of the number of beds contracted for

with the Department of Corrections, unless the Director, Department of Corrections, certifies to the Chairman of the Compensation Board that a) such contract beds are not required; b) the facility has operational capacity built under contract with the federal government; c) the facility has received a grant from the federal government for a portion of the capital costs; or d) the facility has applied to the Department of Corrections for participation in the contract bed program with a sufficient number of beds to meet the Department of Corrections' need or ability to fund contract beds at that facility in any given fiscal year.

5. The Compensation Board shall apply the cost recovery methodology set out in paragraph
H.1. of this Item to any jail which holds inmates from another state on a contractual basis.
However, recovery in such circumstances shall not be made for inmates held pending
extradition to other states or pending transfer to the Virginia Department of Corrections.

- 12 6. The provisions of this paragraph shall not apply to any local or regional jail where the
  13 cumulative federal share of capital costs exceeds the Commonwealth's cumulative capital
  14 contribution.
- 15 7. For a local or regional jail which operates bed space specifically built utilizing federal 16 capital or grant funds for the housing of federal inmates and for which Compensation Board 17 funding has never been authorized for staff for such bed space, the Compensation Board shall 18 allow an exemption from the recovery provided in paragraph H.1. for a defined number of 19 federal prisoners upon certification by the sheriff or superintendent that the federal 20 government has paid for the construction of bed space in the facility or provided a grant for a 21 portion of the capital cost. Such certification shall include specific funding amounts paid by 22 the federal government, localities, and/or regional jail authorities, and the Commonwealth for 23 the construction of bed space specifically built for the housing of federal inmates and for the 24 construction of the jail facility in its entirety. The defined number of federal prisoners to be 25 exempted from the recovery provided in paragraph H.1. shall be based upon the proportion of 26 funding paid by the federal government and localities and/or regional jail authorities for the 27 construction of bed space to house federal prisoners to the total funding paid by all sources, 28 including the Commonwealth, for all construction costs for the jail facility in its entirety. For 29 Western Tidewater Regional Jail, exemption from the recovery provided in paragraph H.1. 30 shall apply to the first 76 federal inmates housed at the jail and for any inmate above 130 31 housed at the jail at any given time.
- 8. Beginning March 1, 2013, federal inmates placed in the custody of a regional jail pursuant
  to a work release program operated by the federal Bureau of Prisons shall be exempt from the
  recovery of costs associated with housing federal inmates pursuant to paragraph H.1. of this
  item if such federal inmates have been assigned by the federal Bureau of Prisons to a home
  electronic monitoring program in place for such inmates by agreement with the jail on or
  before January 1, 2012 and are not housed in the jail facility. However, no such exemption
  shall apply to any federal inmate while they are housed in the regional jail facility.
- I. Any amounts in the program Financial Assistance for Confinement of Inmates in Local and
   Regional Facilities, may be transferred between Items 60 and 61, as needed, to cover any
   deficits incurred in the programs Financial Assistance for Sheriffs' Offices and Regional Jails
   and Financial Assistance for Confinement of Inmates in Local and Regional Facilities.
- 43 J.1. The Compensation Board shall provide an annual report on the number and diagnoses of 44 inmates with mental illnesses in local and regional jails, the treatment services provided, and 45 expenditures on jail mental health programs. The report shall be prepared in cooperation with 46 the Virginia Sheriffs Association, the Virginia Association of Regional Jails, the Virginia 47 Association of Community Services Boards, and the Department of Behavioral Health and 48 Developmental Services, and shall be coordinated with the data submissions required for the 49 annual jail cost report. Copies of this report shall be provided by November 1 of each year to 50 the Governor, Director, Department of Planning and Budget, and the Chairs of the Senate 51 Finance and Appropriations and House Appropriations Committees.
- 52 2. Whenever a person is admitted to a local or regional correctional facility, the staff of the
  53 facility shall screen such person for mental illness using a scientifically validated instrument.
  54 The Commissioner of Behavioral Health and Developmental Services shall designate the
  55 instrument to be used for the screenings and such instrument shall be capable of being
  56 administered by an employee of the local or regional correctional facility, other than a health
  57 care provider, provided that such employee is trained in the administration of such instrument.

G. Out of this appropriation, \$685,705 the first year and \$685,705 the second year from the general fund is designated for the Compensation Board to fund five additional positions in Commonwealth's attorney's offices that shall be dedicated to prosecuting gang-related criminal activities. The board shall ensure that these positions work across jurisdictional lines, serving the Northern Virginia area (counties of Fairfax, Loudoun, Prince William, and Arlington and the cities of Falls Church, Alexandria, Manassas, Manassas Park and Fairfax).

- 11 H. In accordance with the provisions of § 19.2-349, Code of Virginia, attorneys for the 12 Commonwealth may employ individuals, or contract with private attorneys, private collection 13 agencies, or other state or local agencies, to assist in collection of delinquent fines, costs, 14 forfeitures, penalties, and restitution. If the attorney for the Commonwealth employs 15 individuals, the costs associated with employing such individuals may be paid from the proceeds of the amounts collected provided that the cost is apportioned on a pro rata basis 16 17 according to the amount collected which is due the state and that which is due the locality. Notwithstanding any other provision of law, 25 the delinquent amounts owed shall be increased by seventeen (17) percent to help offset the costs associated with employing such individuals or contracting with such agencies or 26 27 individuals. If such increase would exceed the contracted collection agent's fee, then the 28 delinquent amount owed shall be increased by the percentage or amount of the collection 29 agent's fee. Effective July 1, 2015, as provided in § 19.2-349, Code of Virginia, treasurers not 30 being compensated on a contingency basis as of January 1, 2015 shall be prohibited from 31 being compensated on a contingency basis but shall instead be compensated for administrative costs pursuant to § 58.1-3958, Code of Virginia. Treasurers currently 32 33 collecting a contingency fee shall be eligible to contract on a contingency fee basis. Effective 34 July 1, 2015, any treasurer collecting a contingency fee shall retain only the expenses of 35 collection, and the excess collection shall be divided between the state and the locality in the 36 same manner as if the collection had been done by the attorney for the Commonwealth. The 37 attorneys for the Commonwealth shall account for the amounts collected and the fees and 38 costs associated with the collections consistent with procedures issued by the Auditor of 39 Public Accounts.
- 40 I. Notwithstanding the provisions of Article 7, Chapter 4, Title 38, Code of Virginia, 41 beginning July 1, 2018, \$600,000 each year from the Insurance Fraud Fund is included in this 42 appropriation to fund multi-jurisdictional Assistant Commonwealth's Attorney positions that 43 shall be dedicated to prosecuting insurance fraud and related criminal activities. The 44 Department of State Police shall identify those jurisdictions most affected by insurance fraud 45 based upon data provided by the Virginia State Police Insurance Fraud Program. The Virginia 46 State Police Insurance Fraud Program shall ensure that these positions work across 47 jurisdictional lines, serving jurisdictions identified as most in need of these resources as 48 supported by data. These funds shall remain unallocated until the Compensation Board and 49 Virginia State Police notify the Director of the Department of Planning and Budget of the 50 joint agreements reached with the Commonwealth's Attorneys of the jurisdictions receiving 51 the additional Assistant Commonwealth's Attorney positions and the jurisdictions to be served 52 by these positions. The Commonwealth's Attorneys receiving such positions shall annually 53 certify to the Compensation Board that these positions are used primarily, if not exclusively, 54 for the prosecution of insurance fraud and related criminal activities.
- 55 J. Any locality in the Commonwealth that employs the use of body worn cameras for its law 56 enforcement officers shall be required to establish and fund one full-time equivalent entry-57 level Assistant Commonwealth's Attorney, at a salary no less than that established by the 58 Compensation Board for an entry-level Commonwealth's Attorney, at a rate of one Assistant 59 Commonwealth's Attorney for up to 75 body worn cameras employed for use by local law

### 1 paragraph I.1.

R. Localities shall not utilize Compensation Board funding to supplant local funds provided for the salaries of constitutional officers and their employees under the provisions of Chapter 822, 2012 Acts of Assembly, who were affected members in service on June 30, 2012.

5 S. Effective July 1, 2016, the Compensation Board is authorized to withhold reimbursements 6 due to the locality for sheriff's law enforcement expenses if the sheriff fails to certify to the 7 Board that the sheriff's office is compliant with the sex offender registration requirements of § 8 9.1-903, Code of Virginia. Upon subsequent certification by the sheriff that the sheriff's office 9 is compliant with the sex offender registration requirements of § 9.1-903, Code of Virginia, 10 the Compensation Board shall make reimbursement of withheld funding due to the locality 11 when such subsequent certification is made within the same fiscal year that funds have been 12 withheld.

13 T. Consistent with the provisions of Chapter 198 of the 2017 Session of the General 14 Assembly, the Executive Secretary of the State Compensation Board shall implement the 15 recommendations relating to the State Compensation Board made by the Department of 16 Medical Assistance Services in its November 30, 2017 report on streamlining the Medicaid 17 application and enrollment process for incarcerated individuals.

18 U. Out of the amounts appropriated in Items 60, 64, and 65 of this Act, a total of \$9,400,000 19 the first year from the general fund shall be deposited into a newly created special 20 Constitutional Officer Reserve Fund (The Fund). The Fund is to be held in reserve for the 21 reimbursement of budgeted amounts for salaries and expenses in constitutional offices, should such expenses incurred for reimbursement exceed the amounts appropriated in Items 60, 64, 22 23 and 65 of this Act. Amounts in The Fund shall be transferred among Items 60, 64, and 65 of 24 this Act as determined by the Compensation Board to meet reimbursement requirements. 25 Notwithstanding the provisions of § 15.2-1636.8, Code of Virginia, the Compensation Board 26 may establish fiscal year budgets for constitutional offices in accordance with the amounts 27 appropriated in their designated Items in this Act, along with funds appropriated and available 28 in The Fund for each fiscal year. If the balance of The Fund falls below the amounts required 29 to fully reimburse constitutional offices, the Compensation Board should request additional 30 general fund appropriation to be deposited into The Fund.

31 V.1. The Compensation Board shall work with the Virginia Circuit Court Clerks' Association 32 to examine the staffing standards used to determine and distribute funding and positions allocated to circuit court clerks' offices. The examination shall identify funding needs to 33 support staffing for statutorily prescribed duties, as well as any discretionary duties and 34 35 current local supplemental funds allocated. To assist in this goal, the Compensation Board 36 shall contract with the National Center for State Courts (the Center) to perform a time study 37 as to the comprehensive duties and responsibilities of circuit court clerks including, but not 38 limited to, expungement/rights restoration and sealing volume as well as other obligations 39 reflected in the Code of Virginia (e.g. duties prescribed under Title 17.1 et seq). The 40 Compensation Board shall develop a revised staffing standard for circuit court clerks' offices 41 based on the results of the study. Included within this appropriation is \$400,000 the first year 42 from the general fund for the purpose of contracting with the Center to perform the study. All 43 circuit court clerks shall participate in the study as needed and as identified by the 44 Compensation Board and the Center.

45 2. The Compensation Board shall provide a status report on the progress of the study and 46 participants to the Chairs of the House Appropriations and Senate Finance and Appropriations 47 Committees by November 1, 2024. The Compensation Board shall submit a report containing 48 the results of the study, anticipated costs, and staffing standards methodology revisions under 49 review or approved by the Compensation Board to the Chairs of the House Appropriations 50 and Senate Finance and Appropriations Committees by November 1, 2025.

4.a. "Composite Index of Local Ability-to-Pay" - An index figure computed for each locality. The composite index is the sum of 2/3 of the index of wealth per pupil in unadjusted March 31 ADM reported for the first seven (7) months of the 2021-2022 school year and 1/3 of the index of wealth per capita (population estimates for 2021 as determined by the Weldon Cooper Center for Public Service of the University of Virginia) multiplied by the local nominal share of the costs of the Standards of Quality of 0.45 in each year. A locality whose composite index exceeds 0.8000 shall be considered as having an index of 0.8000 for purposes of distributing all payments based on the composite index of local ability-to-pay. Each constituent index element for a locality used to determine the composite index of local ability-to-pay for the current biennium shall be the latest available data for the specified official base year provided to the Department of Education by the responsible source agencies no later than November 15, 2023.

- b. For any locality whose total calendar year 2021 Virginia Adjusted Gross Income is

  Department of Education shall compute the composite index for such localities by using
  adjusted gross income data which exclude nonresident income, but shall not adjust the
  composite index of any other localities. The Department of Taxation shall furnish to the
  Department of Education such data as are necessary to implement this provision.
- 32 c.1) Notwithstanding the funding provisions in § 22.1-25 D, Code of Virginia, additional
  33 state funding for future consolidations shall be as set forth in future Appropriation Acts.
- 2) In the case of the consolidation of Bedford County and Bedford City school divisions,
  the fifteen year period for the application of a new composite shall apply beginning with
  the fiscal year that starts on July 1, 2013. The composite index established by the Board of
  Education shall equal the lowest composite index that was in effect prior to July 1, 2013,
  of any individual localities involved in such consolidation, and this index shall remain in
  effect for a period of fifteen years, unless a lower composite index is calculated for the
  combined division through the process for computing an index as set forth above.
- 3) If the composite index of a consolidated school division is reduced during the course of
  the fifteen year period to a level that would entitle the school division to a lower interest
  rate for a Literary Fund loan than it received when the loan was originally released, the
  Board of Education shall reduce the interest rate of such loan for the remainder of the
  period of the loan. Such reduction shall be based on the interest rate that would apply at
  the time of such adjustment. This rate shall remain in effect for the duration of the loan
  and shall apply only to those years remaining to be paid.
- d. When it is determined that a substantial error exists in a constituent index element, the
  Department of Education will make adjustments in funding for the current school year
  only in the division where the error occurred. The composite index of any other locality
  shall not be changed as a result of the adjustment. No adjustment during the biennium will
  be made as a result of updating of data used in a constituent index element.
- e. In the event that any school division consolidates two or more small schools, the
  division shall continue to receive Standards of Quality funding and provide for the
  required local expenditure for a period of five years as if the schools had not been
  consolidated. Small schools are defined as any elementary, middle, or high school with

- b. No actions provided in this section signify any intent of the General Assembly to mandate
   an increase in the number of instructional personnel per 1,000 students above the numbers
   explicitly stated in the preceding paragraph.
  - c. Appropriations in this Item include programs supported in part by transfers to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund pursuant to Part 3 of this Act. - 33 d. To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers required by the Standards of Quality to employ a data 34 35 coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is 36 37 intended to serve as a resource to principals and classroom teachers in the area of data 38 analysis and interpretation for instructional and school improvement purposes, as well as for 39 overall data management and administration of state assessments. Notwithstanding the provisions of subsection G of § 22.1-253.13:2 of the Code of Virginia, school boards may employ other staff such as reading coaches or other instructional staff who are working towards obtaining the training and licensure requirements necessary to fulfill the reading specialist staffing standards.

8.a.1) Pursuant to § 22.1-97, Code of Virginia, the Department of Education is required to make calculations at the start of the school year to ensure that school divisions have appropriated adequate funds to support their estimated required local expenditure for the corresponding state fiscal year. In an effort to reduce the administrative burden on school divisions resulting from state data collections, such as the one needed to make the aforementioned calculations, the requirements of § 22.1-97, Code of Virginia, pertaining to the adequacy of estimated required local expenditures, shall be satisfied by signed certification by each division superintendent at the beginning of each school year that sufficient local funds have been budgeted to meet all state required local effort and required local match amounts. This provision shall only apply to calculations required of the Department of Education related to estimated required local expenditures and shall not pertain to the calculations associated with actual required local expenditures after the close of the school year.

19 2) The Department of Education shall also make calculations after the close of the school 20 year to verify that the required local effort level, based on actual March 31 Average Daily 21 Membership, was met. Pursuant to § 22.1-97, Code of Virginia, the Department of 22 Education shall report annually, no later than the first day of the General Assembly 23 session, to the House Committees on Education and Appropriations and the Senate 24 Committees on Finance and Appropriations and Education and Health, the results of such 25 calculations made after the close of the school year and the degree to which each school 26 division has met, failed to meet, or surpassed its required local expenditure. This calculation 29 may include but is not limited to the following calculations:

b. The total expenditures for operation, defined as total expenditures less all capital
outlays, expenditures for debt service, facilities, non-regular day school programs (such as

regional programs will be calculated.

34 c. The following state funds will be deducted from the amount calculated in paragraph a. 35 above: revenues from the state sales and use tax (returned on the basis of the latest yearly 36 estimate of school age population provided by the Weldon Cooper Center for Public 37 Service, as specified in this Item) for sales in the fiscal year in which the school year 38 begins; total receipts from state funds (except state funds for non-regular day school 39 programs and state funds used for capital or debt service purposes); and the state share of 40 any balances carried forward from the previous fiscal year. Any qualifying state funds that 41 remain unspent at the end of the fiscal year will be added to the amount calculated in 42 paragraph a. above.

d. Federal funds, and any federal funds carried forward from the previous fiscal year, will
also be deducted from the amount calculated in paragraph a. above. Any federal funds that
remain unspent at the end of the fiscal year and any capital expenditures paid from federal
funds will be added to the amount calculated in paragraph a. above.

- 47 e. Tuition receipts, receipts from payments from other cities or counties, and fund48 transfers will also be deducted from the amount calculated in paragraph a, then
- 49 f. The final amount calculated as described above must be equal to or greater than the50 required local expenditure defined in paragraph A. 5.
- 51 g. The Department of Education shall collect the data necessary to perform the 52 calculations of required local expenditure as required by this section.
- h. A locality whose expenditure in fact exceeds the required amount from local funds maynot reduce its expenditures unless it first complies with all of the Standards of Quality.

Unless specifically stated otherwise in 30 this Item, school divisions electing to participate in any Lottery or Incentive program that 31 requires a local funding match in order to receive state funding, shall certify to the 32 Department of Education its intent to participate in each program by July 1 each fiscal year in 33 a manner prescribed by the Department of Education. As part of this certification process, 34 each division superintendent must also certify that adequate local funds have been 35 appropriated, above the required local effort for the Standards of Quality, to support the 36 projected required local match based on the Lottery and Incentive programs in which the 37 school division has elected to participate. State funding for such program(s) shall not be made until such time that the school division can certify that sufficient local funding has been 38 39 appropriated to meet required local match. The Department of Education shall make 40 calculations after the close of the fiscal year to verify that the required local match was met 41 based on the state funds that were received.
- 11. Any sum of local matching funds for Lottery and Incentive program which a locality has
  not expended as of the end of a fiscal year in support of the required local match pursuant to
  this Item shall be paid by the locality into the general fund of the state treasury unless the

### 2 5. Basic Aid Payments

3 a.1) A state share of the Basic Operation Cost, which cost per pupil in March 31 ADM is 4 established individually for each local school division based on the number of instructional 5 personnel required by the Standards of Quality and the statewide prevailing salary levels 6 (adjusted in Planning District Eight for the cost of competing) as well as recognized support 7 costs calculated on a prevailing basis for an estimated March 31 ADM.

- 8 2) This appropriation includes funding to recognize the common labor market in the 9 Washington-Baltimore-Northern Virginia, DC-MD-VA-WV Combined Statistical Area. 10 Standards of Quality salary payments for instructional and support positions in school 11 divisions of the localities set out below have been adjusted for the equivalent portion of the 12 Cost of Competing Adjustment (COCA) rates that are paid to local school divisions in 13 Planning District Eight. For the counties of Stafford, Fauquier, Spotsylvania, Clarke, Warren, 14 Frederick, and Culpeper and the Cities of Fredericksburg and Winchester, the SOQ payments 15 for instructional and support positions have been increased by 25 percent each year of the 16 COCA rates paid to school divisions in Planning District Eight.
- 17 The support COCA rate is 18.0 percent.

18 b. The state share for a locality shall be equal to the Basic Operation Cost for that locality less 19 the locality's estimated revenues from the state sales and use tax and the Supplemental 20 General Fund Payment In Lieu of Sales Tax on Food and Personal Hygiene Products 21 (returned on the basis of the latest yearly estimate of school age population provided by the 22 Weldon Cooper Center for Public Service, as specified in this Item), in the fiscal year in 23 which the school year begins and less the required local expenditure.

The Department of Education shall establish 35 guidelines to implement these provisions and shall provide for the periodic transfer of sums 36 due from each local school division to the Department of Behavioral Health and 37 Developmental Services and for Special Education categorical payments. The amount of the actual transfers will be based on data accumulated during the prior school year. 38
- 39 e. 1) The apportionment to localities of all driver education revenues received during the 40 school year shall be made as an undesignated component of the state share of Basic Aid in 41 accordance with the provisions of this Item. Only school divisions complying with the standardized program established by the Board of Education shall be entitled to participate in 42 43 the distribution of state funds appropriated for driver education. The Department of Education 44 will deduct a designated amount per pupil from a school division's Basic Aid payment when 45 the school division is not in compliance with § 22.1-205 C, Code of Virginia. Such amount 46 will be computed by dividing the current appropriation for the Driver Education Fund by 47 actual March 31 ADM.
- 48 2) Local school boards may charge a per pupil fee for behind-the-wheel driver education 49 provided, however, that the fee charged plus the per pupil basic aid reimbursement for driver 50 education shall not exceed the actual average per pupil cost. Such fees shall not be cause for a 51 pro rata reduction in Basic Aid payments to school divisions.

7 2) School divisions shall provide free textbooks to all students.

8 3) School divisions may use a portion of this funding to purchase Standards of Learning
9 instructional materials. School divisions may also use these funds to purchase electronic

localities on the basis of the latest yearly estimate of school age population provided by
the Weldon Cooper Center for Public Service as specified in this Item shall be reflected in
each locality's annual budget for educational purposes as a separate revenue source for the
current fiscal year.

25 h. The appropriation for the Standards of Quality for Public Education (SOQ) includes 26 amounts estimated at \$571,700,000 the first year and \$595,100,000 the second year from 27 the amounts transferred to the general fund from the Public Education Standards of 28 Quality/Local Real Estate Property Tax Relief Fund pursuant to Part 3 of this act which 29 are derived from the 0.375 cent increase in the state sales and use tax levied pursuant to § 30 58.1-638, Code of Virginia. These additional funds are provided to local school divisions 31 and local governments in order to relieve the financial pressure education programs place 32 on local real estate taxes.

- 33 i. From the total amounts in paragraph h. above, an amount estimated at \$381,200,000 the 34 first year and \$396,700,000 the second year (approximately 1/4 cent of sales and use tax) 35 is appropriated to support a portion of the cost of the state's share of the following revisions to the Standards of Quality pursuant to Chapters 939 & 955 of the Acts of 36 37 Assembly of 2004: five elementary resource teachers per 1,000 students; one support and 38 one instructional technology position per 1,000 students; a full daily planning period for 39 teachers at the middle and high school levels in order to relieve the pressure on local real 40 estate taxes and shall be taken into account by the governing body of the county, city, or 41 town in setting real estate tax rates.

  Relief Fund on the basis of the latest yearly estimate of school age population provided by
  the Weldon Cooper Center for Public Service as specified in this Item.
- 48 k. For the purposes of funding certain support positions in Basic Aid, a funding ratio
  49 methodology is used based upon 24 support positions per 1,000 ADM to funded SOQ
  50 instructional positions in the first year and in the second year. Such methodology shall not
  51 apply to the following SOQ support positions: division superintendent, school board
  52 members, pupil transportation positions, or specialized student support positions

a. An additional state payment of \$10,680,318 the first year and \$11,247,727 the second
year from the Lottery Proceeds Fund shall be disbursed for Regional Alternative
Education programs. Such programs shall be for the purpose of educating certain expelled
students and, as appropriate, students who have received suspensions from public schools
and students returned to the community from the Department of Juvenile Justice.

- b. Each regional program shall have a small student/staff ratio. Such staff shall include,
  but not be limited to education, mental health, health, and law enforcement professionals,
  who will collaborate to provide for the academic, psychological, and social needs of the
  students. Each program shall be designed to ensure that students make the transition back
  into the "mainstream" within their local school division.
- c.(i) Regional alternative education programs are funded through this Item based on the 27 28 state's share of the incremental per pupil cost for providing such programs. This 29 incremental per pupil payment shall be adjusted for the composite index of local ability-30 to-pay of the school division that counts such students attending such program in its 31 March 31 Average Daily Membership. It is the intent of the General Assembly that this 32 incremental per pupil amount be in addition to the basic aid per pupil funding provided to 33 the affected school division for such students. Therefore, local school divisions are 34 encouraged to provide the appropriate portion of the basic aid per pupil funding to the 35 regional programs for students attending these programs, adjusted for costs incurred by the 36 school division for transportation, administration, and any portion of the school day or 37 school year that the student does not attend such program.
- (ii) In the event a school division does not use all of the student slots it is allocated underthis program, the unused slots may be reallocated or transferred to another school division.

40 (a) A school division must request from the Department of Education the availability and
41 possible use of any unused student slots. If any unused slots are available and if the
42 requesting school division chooses to utilize any of the unused slots, the requesting school
43 division shall only receive the state's share of tuition for the unused slot that was allocated
44 in this Item for the originally designated school division.

- (b) However, no requesting school division shall receive more tuition funding from the
  state for any requested unused slot than what would have been the calculated amount for
  the requesting school division had the unused slot been allocated to the requesting school
  division in the original budget. Furthermore, the requesting school division shall pay for
  any remaining tuition payment necessary for using a previously unused slot.
- 50 (c) The Department of Education shall provide assistance for the state share of the
   51 incremental cost of Regional Alternative Education program operations based on the
   52 composite index of local ability-to-pay.
- d. Out of the appropriation included in paragraph C.38. of this item, \$549,105 the first

7 a. The Department of Education and the Virginia Public School Authority (VPSA) shall 8 provide a program of funding for school construction and renovation through the Literary 9 Fund and through VPSA bond sales. Notwithstanding 8VAC-20-100, the program shall be 10 used to provide funds, through Literary Fund loans and subsidies, and through VPSA bond 11 sales, to fund a portion of the projects submitted by localities during the annual open 12 enrollment process, or other critical projects that may receive priority as identified by the 13 Board of Education. Interest rate subsidies will provide school divisions with the present 14 value difference in debt service between a Literary Fund loan and a borrowing through the 15 VPSA. To qualify for an interest rate subsidy, the school division's project must be 16 eligible for a Literary Fund loan and shall be subject to the same restrictions. The VPSA 17 shall work with the Department of Education in selecting those projects to be funded 18 through the interest rate subsidy/bond financing program, so as to ensure the maximum leverage of Literary Fund moneys and a minimum impact on the VPSA Bond Pool. 19

20 b. Notwithstanding §§ 22.1-146.1 through 22.1-153, Code of Virginia, and 8VAC-20-100, 21 the Board of Education shall: 1) issue loans from the designated and uncommitted 22 balances of the Literary Fund to the school boards of local school divisions that apply for 23 such loans, authorized by the governing body and the school board, for the purposes of a) 24 erecting, altering, or enlarging school buildings in local school divisions, or b) refinancing 25 or redemption of negotiable notes, bonds, and other evidences of indebtedness or 26 obligations incurred by a locality on behalf of a school division which has an application 27 for a Literary Fund loan for an approved school project pending before the Board of 28 Education; 2) establish a maximum Literary Fund loan amount per project of \$25.0 29 million; 3) in consultation with the Department of Treasury, establish loan interest rates 30 that are benchmarked to a market index on an annual basis for all tiers of localities and 31 provide interest rates that are reasonably below such market index; 4) replace the existing 32 First Priority and Second Priority waiting lists with an annual open enrollment process for 33 loans, with priority based on the local composite index of ability-to-pay; and 5) offer a 34 loan add-on not to exceed \$5.0 million per loan for projects that will result in school 35 consolidation and the net reduction of at least one existing school. The Department of 36 Education, in cooperation with the Department of the Treasury, shall provide an update on 37 Literary Fund loan issuance to the Governor and the Chairs of the House Appropriations 38 and Senate Finance and Appropriations Committees by October 1 each year. This report 39 shall include detail of: 1) loan applications received in the prior fiscal year by locality, 40 project, and amount; 2) loans issued in the prior fiscal year by locality, project, and 41 amount; 3) the schedule of loan interest rates and the basis for those rates; 4) loans issued 42 for school consolidation projects and the projected impact of those school consolidations; 43 and 5) the impact of loans issued to date on the Literary Fund cash balance, outstanding 44 loan balance, and projected asset base.

45 c. The Board of Education may offer up to \$200,000,000 the first year and up to 46 \$50,000,000 the second year from the Literary Fund in school construction loans, subject 47 to the availability of funds. Amounts designated for school construction loans that are not 48 obligated in the first year may be obligated in the second year. In addition, the Department 49 of Education may offer Literary Fund loans from the uncommitted balances of the Literary 50 Fund after meeting the obligations of the interest rate subsidy sales and the amounts set 51 aside from the Literary Fund for Debt Service Payments for Education Technology and 52 Security Equipment in this Item.

Identified spending should, at a minimum, be broken down by 24 subsidies (mandated and discretionary), administrative costs, and quality efforts. The plan 25 also shall include a certification from the Department that the maximum amount of federal funds were drawn down in the preceding fiscal year. Should the Department be unable to 26 27 certify that maximum federal funds were drawn down, the Department shall identify 28 strategies for Virginia to obtain the maximum amount of federal funds in the following 29 fiscal year(s) as part of this plan. In addition, this plan should report, by locality, the 30 number of subsidies (mandated and discretionary) provided, number of providers receiving CCDF dollars, the overall number of child care providers, and the waitlist for 31 32 services. This information should be provided the previous fiscal year, current fiscal year, 33 and two subsequent fiscal years. The plan shall also include an appendix with the most 34 recently completed CCDF annual report as required by the federal Office of Child Care. 35 The department shall submit the report by October 1 of each year to the Governor and the 36 Chairs of the House Appropriations and Senate Finance and Appropriations Committees. 37 In addition, the department shall post this report on its website along with any reports 38 from previous fiscal years.

- 39 3. Notwithstanding 8VAC-20-790, the Department of Education shall establish an annual
  40 target at the local level for the number of children that may be served by available funds
  41 and ensure that each locality has mechanisms in place for maintaining waitlists if family
  42 demand exceeds the targets.
- 43 4. Family copayment rates for the 2024-2026 biennium shall not exceed those that were in44 effect at the beginning of fiscal year 2024.

5 For slots filled as of September 30 each year, grants shall be based on the state share of 100 6 percent of the per pupil amount for a full-day or half-day program. For slots filled between 7 October 1 and December 31 each year, grants shall be based on the state share of the per pupil 8 amount for a full-day or half-day program prorated for the portion of the school year each 9 child is served. Following the Department of Education's fall student record collection each 10 year, the Department shall project the number of additional slots that may be filled between October 1 and December 31 each year. The Department of Education is authorized to prorate state funding for slots filled between October 1 and December 31 each year if demand 12 13 exceeds available appropriation.

(ii) VPI Expansion funds are provided to serve at-risk three-year-olds who are residents of Virginia and unserved by Head Start funding using criteria determined by the Department of Education and subject to available appropriation. Localities may apply to participate by May 15 each year and shall be selected on a competitive basis. Localities shall be required to: (i) demonstrate broad stakeholder support, (ii) track outcomes for participating children, (iii) demonstrate how they will maximize federal and state funds to preserve existing birth to five slots, including certifying that all local Head Start slots are filled, (iv) support inclusive practices of children with identified special needs, and (v) collaborate among the school division, local department of social services, programs accepting child care subsidy payments, and providers for Head Start, private child care, and early childhood special education and early intervention programs. (iii) Full-day programs shall operate for a minimum of five and one-half instructional hours. excluding breaks for meals, and half-day programs shall operate for a minimum of three hours of classroom instructional time per day, excluding breaks for lunch. Virginia Preschool Initiative programs may include unstructured recreational time that is intended to develop teamwork, social skills, and overall physical fitness in any calculation of total instructional time, provided that such unstructured recreational time does not exceed 15 percent of total instructional time or teaching hours. No additional state funding is provided for programs operating greater than three hours per day but less than five and one-half hours per day. In determining the state and local shares of funding, the composite index of local ability-to-pay is capped at 0.5000.

39 (iv) For new programs in the first year of implementation only, programs operating less than a 40 full school year shall receive state funds on a fractional basis determined by the pro-rata 41 portion of a school year program provided. 1at-risk three-year-old children. The plan shall also include a mechanism for annually2measuring and reporting unmet parental demand and preference, including establishing3waitlists.

b. The proposal must demonstrate coordination with all parties necessary for the successful delivery of comprehensive services, including the schools, child care providers, local social services agency, Head Start, local health department, and other groups identified by the lead agency. The proposal must identify which entities were consulted and how the locality will ensure that federal funds are preserved and maximized including demonstrating compliance with Title I of the federal Elementary and Secondary Education Act to ensure that a Local Educational Agency receiving Title I funding coordinates with Head Start programs and other early learning programs receiving federal funds by developing Memorandums of Understanding with such agencies to coordinate services. The proposal must also demonstrate a plan for supporting inclusive practices for children with identified special needs.

15 c. A local match, based on the composite index of local ability-to-pay, shall be required. For purposes of meeting the local match, localities may use local expenditures for existing 16 qualifying programs, however, at least fifty percent of the local match will be cash and no 17 18 more than fifty percent will be in-kind. In-kind contributions are defined as cash outlays 19 that are made by the locality that benefit the program but are not directly charged to the 20 program. The value of fixed assets cannot be considered as an in-kind contribution. 21 Philanthropic or other private funds may be contributed to the locality to be appropriated 22 in their local budget and then utilized as local match. Localities shall also continue to 23 pursue and coordinate other funding sources, including child care subsidies. Funds 24 received through this program must be used to supplement, not supplant, any funds 25 currently provided for programs within the locality. However, in the event a locality is 26 unable to continue the previous level of support to programs for at-risk four-year-olds 27 from Title I of the federal Elementary and Secondary Education Act (ESEA), the state and 28 local funds provided in this grants program may be used to continue services to these Title 29 I students. Such inability may occur due to adjustments to the allocation formula in the 30 reauthorization of ESEA as the Every Student Succeeds Act of 2015, or due to a 31 percentage reduction in a locality's Title I allocation in a particular year. Any locality so affected shall provide written evidence to the Superintendent of Public Instruction and 32 33 request his approval to continue the services to Title I students.

- 34 3. Local plans must provide clear methods of service coordination for the purpose of
   35 reducing the per child cost for the service, increasing the number of at-risk children served
   36 and/or extending services for the entire year.
- **37** Examples of these include:

- a. "Wraparound Services" methods for combining funds such as child care subsidy

- b. "Wrap-out Services" methods for using grant funds to purchase quality preschool
   services to at-risk four-year-old children through an existing child care setting by
   purchasing comprehensive services within a setting which currently provides quality

- 45 c. "Expansion of Service" methods for using grant funds to purchase slots within existing
   46 programs, such as Head Start, which provides comprehensive services to at-risk three- and
   47 four-year-old children.
- 48 4. Local plans must indicate the number of at-risk four-year-old children to be served, and 49 the eligibility criteria for participation in this program shall be consistent with the 50 economic and educational risk factors stated in the current program guidelines that are 51 specific to: (i) family income at or below 200 percent of federal poverty guidelines, (ii) 52 homelessness, (iii) student's parents or guardians are school dropouts, or (iv) children with 53 disabilities or delays who are eligible for special education services under the Individuals 54 with Disabilities Education Act, regardless of household income. Up to 15 percent of a 55 division's slots may be filled based on locally established eligibility criteria so as to meet 56 the unique needs of at-risk children in the community. indicate the number of at-risk three-year-old children to be served using the same eligibility criteria listed above. Localities that can demonstrate that more than 15 percent of slots are needed to meet the needs of at-risk children in their community may apply for a waiver from the Superintendent of Public Instruction to use a larger percentage of their slots. Localities must demonstrate that increasing eligibility will enable the maximization of federal funds and will not have a negative impact on access for other individuals currently being served.

7 5.a. The Department of Education shall provide technical assistance for the administration of 8 this grant program to provide assistance to localities in developing a comprehensive, 9 coordinated, quality preschool program that prepares all participants for kindergarten.

10 b. The Department shall provide interested localities with information on models for service 11 delivery, methods of coordinating funding streams, such as funds to match federal IV-A child 12 care dollars, to maximize funding without supplanting existing sources of funding for the 13 provision of services to at-risk three- and four-year-old children. A priority for technical 14 assistance in the design of programs shall be given to localities where the majority of the at-15 risk three- and four-year-old population is currently unserved.

6. VPI Expansion funds are provided to support Virginia Preschool Initiative slots to serve children on wait lists. In each year, unused grants distributed as provided in for four-year old slots shall be redistributed based on guidelines established by the Department of Education subject to the appropriation available for this purpose. Such guidelines shall provide the criteria used to redistribute grants and provide for the notification of grants redistribution to programs no later than July 1 of each year. The Department shall conduct this process annually, and the redistribution shall not affect the allocation formula for the subsequent year.

23 7.a. VPI Expansion funds are provided to support an add-on grant per child for approximately 2,000 children to incentivize mixed-delivery of services through private providers. These add-24 25 on grants are intended to provide funds to minimize the difference between the amount of the 26 per-pupil grant allocation and the per-pupil cost to serve a child in a community-based or 27 private provider setting. Recipients of the add-on grants will be encouraged to support 28 classrooms that support inclusive practices of children with special needs. Localities shall 29 indicate in their plans submitted pursuant to this Item how many of their Virginia Preschool 30 Initiative slots will be provided in community-based or private provider settings to receive the 31 add-on grant. Community-based providers that are recipients of Virginia Preschool Initiative 32 grants shall be exempted from all regulatory and statutory provisions related to teacher licensure requirements and qualifications when paid by public funds within the confines of the 33 34 Virginia Preschool Initiative community-add-on partnerships and provided that the provider 35 meets the expectations of the statewide measurement and improvement system.

36 b. The amount of these add-on grants for community-based providers shall be informed by the 37 Department of Education's methodology to estimate the actual cost of providing high-quality 38 early childhood education services in community-based settings. This is not intended as a 39 mandate to increase the individual amounts of these add-on grants or to increase the state 40 appropriation supporting these add-on grants. The amount of the add-on grant plus the Virginia Preschool Initiative per pupil amount shall not exceed prevailing child care market 42 rates in a particular region and shall align with Child Care Subsidy Program rates. The 43 Department of Education is authorized to prorate payments for these add-on grants so as not 44 to exceed the available appropriation.

45 8. VPI Expansion funds are provided to support increased Virginia Preschool Initiative 46 teacher to student ratios and class sizes, as follows:

47 a. Any classroom that exceeds benchmarks set by the Board of Education shall be staffed as 48 follows: (i) one teacher shall be provided for any class of ten students or less; (ii) if the 49 enrollment in any class exceeds ten students but does not exceed 20, a full-time teacher's aide 50 shall be assigned to the class; and (iii) the maximum class size shall be 20 students.

51 b. All other classrooms shall be staffed as follows: (i) one teacher shall be employed for any 52 class of nine students or less; (ii) if the enrollment in any class exceeds nine students but does 53 not exceed 18, a full-time teacher's aide shall be assigned to the class; and (iii) the maximum 54 class size shall be 18 students.

55 9.a. The Department of Education shall collect information from local Virginia Preschool

Child day centers that take 42 advantage of this flexibility must notify families in writing of the temporary increase in 43 ratios and group size. Such federal program grant funds are based on the latest 7 estimates available to the Department of Education and are provided here for informational purposes and are subject to change within each state fiscal year by the awarding federal 8 9 agency. The Department of Education is directed to update the estimated federal program grant fund amounts contained in the table in this item on a periodic basis throughout the 10 11 biennium.

12 b. The Department of Education will encourage localities to apply for Medicaid 13 reimbursements for eligible special education expenditures which will help to increase 14 available state and local funding for other educational activities and expenditures.

2. The private institutions which participate in this program shall, during the spring semester previous to the commencement of a new academic year or as soon as a student is admitted for that year, whichever is later, notify their enrolled and newly admitted Virginia students about the availability of tuition assistance awards under the program. The information provided to students and their parents must include information about the eligibility requirements, the application procedures, and the fact that the amount of the award is an estimate and is not guaranteed. The number of students applying for participation and the funds appropriated for the program determine the amount of the award. Conditions for reduction of award amount and award eligibility are described in this Item and in the regulations issued by the State Council of Higher Education. The institutions shall certify to the council that such notification has been completed and shall indicate the method by which it was carried out. Upon consultation with and approval from SCHEV, private institutions which participate in this program may develop and distribute the Tuition Assistance Grant application form for electronic administration.

Appropriations(\$) First Year Second Year FY2025 FY2026

C. The Department of Taxation is hereby appropriated revenues from the Communications
 Sales and Use Tax Trust Fund to recover the direct cost of administration incurred by the
 department in implementing and collecting this tax as provided by § 58.1-662, Code of
 Virginia.

D. The Tax Commissioner shall have the authority to waive penalties and grant extensions of
time to file a return or pay a tax, or both, to any class of taxpayers when the Tax
Commissioner in his discretion finds that the normal due date has, or would, cause undue
hardship to taxpayers who were, or would be, unable to use electronic means to file a return or
pay a tax because of a power or systems failure that causes the department's electronic filing
or payment systems to be nonfunctional for all or a portion of a day on or about the due date
for a return or payment.

E. The Department of Taxation is hereby appropriated Land Conservation Incentive Act fees
 imposed under § 58.1-513 C. 2., Code of Virginia, on the transferring of the value of the
 donated interest. The Code of Virginia specifies such fees will be used by the Departments of
 Taxation and Conservation and Recreation to recover the direct cost of administration
 incurred in implementing the Virginia Land Conservation Act.

F. In the event that the United States Congress adopts legislation allowing local governments,
with the assistance of the Commonwealth, to collect delinquent local taxes using offsets from
federal income taxes, the Department of Accounts shall provide a treasury loan to the
Department of Taxation to finance the costs of modifying the agency's computer systems to
implement this federal debt setoff program. This treasury loan shall be repaid from the
proceeds collected from the offsets of federal income taxes collected on behalf of localities by
the Department of Taxation.

G. 1. All revenue received by the Commonwealth pursuant to the provisions of § 58.1-645 et seq., Code of Virginia, shall be paid into the state treasury and deposited to the Virginia Communications Sales and Use Tax Fund and shall be distributed pursuant to § 58.1-662, Code of Virginia, and Items 251 and 270 of this act. For the purposes of the Comptroller's preliminary and final annual reports required by § 2.2-813, Code of Virginia, however, all deposits to and disbursements from the Fund shall be accounted for as part of the general fund of the state treasury.

2. It is the intent of the General Assembly that all such revenues be distributed to counties,
cities, and towns, the Department for the Deaf and Hard-of-Hearing, and for the costs of
administering the Virginia Communications Sales and Use Tax.

H. 4 HH.1. Effective July 1, 2021, the Department of Medical Assistance Services shall amend the 5 State Plan for Medical Assistance to revise per diem rates paid to psychiatric residential 6 treatment facilities (PRTF) using the provider's audited cost per day from the facility's cost 7 report for provider fiscal years ending in state fiscal year 2018. New Virginia-based 8 residential psychiatric facilities must submit proforma cost report data, which will be used to 9 set the initial per diem rate for up to two years. After this period, the department shall 10 establish a per diem rate based on an audited cost report for a 12-month period within the first 11 two years of operation. Providers that do not submit cost reports shall be paid at 75% of the 12 established rate ceiling. If necessary to enroll out-of-state providers for network adequacy, the 13 department shall negotiate rates. If there is sufficient utilization, the department may require 14 out-of-state providers to submit a cost report to establish a per diem rate. In-state and out-of-15 state provider per diem rates shall be subject to a ceiling based on the statewide weighted 16 average cost per day from fiscal year 2018 cost reports. The department shall have the authority to implement these changes effective July 1, 2021, and prior to the completion of 18 any regulatory process undertaken in order to effect such change.

19 2. The Department of Medical Assistance Services shall have the authority to establish 20 rebasing of PRTF rates every three years. The first rebasing of rates shall take effect July 1, 21 2023. All PRTF and Addiction and Rehabilitation Treatment Services (ARTS) providers who 22 offer qualifying services under 12VAC30-70-418(C) shall be required to submit cost reports 23 as a part of rebasing. Out of state providers with more than 1,500 paid days for Virginia 24 Medicaid members in the most recently completed state fiscal year shall also be required to 25 submit a cost report. A rate ceiling shall be established based on a statewide weighted average 26 cost per day. Rate ceilings shall be established independently for PRTFs and participating ARTS residential services. The department shall have the authority to implement these 28 changes effective July 1, 2022 and prior to the completion of any regulatory process to effect such change.

30 3. DMAS shall also establish inflation increases for each non-rebasing fiscal year for both PRTF and qualifying ARTS providers. Inflation rates shall be tied to the Nursing Facility 31 Moving Average as established by IHS Markit (or its successor). The most recent four 32 quarters will be averaged to create the PRTF inflation rate. The department shall have the 33 34 authority to implement these changes effective July 1, 2023, and prior to the completion of 35 any regulatory process to effect such change.

4. Effective July 1, 2022, the department shall adjust PRTF rates by 8.89% to account for inflation since the last audited cost report of fiscal year 2018. The rate ceiling shall increase to \$460.89 per day. The department shall have the authority to implement these changes effective July 1, 2022, and prior to the completion of any regulatory process to effect such change.

41 5. The department shall revise reimbursement methodologies for PRTF rates to implement 42 inflation increases for each fiscal year to be effective July 1, 2024. Inflation rates shall be tied 43 to the Nursing Facility Moving Average as established by IHS Markit (or its successor). The 44 most recent four quarters will be averaged to create the PRTF inflation rate. The department 45 shall have the authority to implement these changes prior to the completion of any regulatory 46 process to effect such change.

47 II. Effective July 1, 2013, the Department of Medical Assistance Services shall establish a 48 Medicaid Physician and Managed Care Liaison Committee including, but not limited to, 49 representatives from the following organizations: the Virginia Academy of Family 50 Physicians; the American Academy of Pediatricians - Virginia Chapter; the Virginia College 51 of Emergency Physicians; the American College of Obstetrics and Gynecology - Virginia 52 Section; Virginia Chapter, American College of Radiology; the Psychiatric Society of 53 Virginia; the Virginia Medical Group Management Association; and the Medical Society of 54 Virginia. The committee shall also include representatives from each of the department's 55 contracted managed care organizations and a representative from the Virginia Association of Health Plans. The committee will work with the department to investigate the implementation 56 57 of quality, cost-effective health care initiatives, to identify means to increase provider

participation in the Medicaid program, to remove administrative obstacles to quality, costeffective patient care, and to address other matters as raised by the department or members of the committee. The committee shall establish an Emergency Department Care Coordination work group comprised of representatives from the committee, including the Virginia College of Emergency Physicians, the Medical Society of Virginia, the Virginia Hospital and Healthcare Association, the Virginia Academy of Family Physicians and the Virginia Association of Health Plans to review the following issues: (i) how to improve coordination of care across provider types of Medicaid "super utilizers"; (ii) the impact of primary care provider incentive funding on improved interoperability between hospital and provider systems; and (iii) methods for formalizing a statewide emergency department collaboration to improve care and treatment of Medicaid recipients and increase cost efficiency in the Medicaid program, including recognized best practices for emergency departments. The committee shall meet semi-annually, or more frequently if requested by the department or members of the committee. The department, in cooperation with the committee, shall report on the committee's activities annually to the Board of Medical Assistance Services and to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees and the Department of Planning and Budget no later than October 1 each year.

This supplemental redistribution shall be budget neutral and 52 not use state funds in excess of those already appropriated for DSH payments. The 53 department shall have the authority to implement these changes prior to completion of any 54 regulatory process undertaken in order to effect such change.

Qualifying private 6 hospitals shall consist of any hospital currently enrolled as a Virginia Medicaid provider and 7 owned or operated by a private entity in which a Type One hospital has a non-majority 8 interest. The supplemental payments shall be based upon the reimbursement methodology 9 established for such payments in Attachments 4.19-A and 4.19-B of the State Plan for 10 Medical Assistance Services. DMAS shall enter into a transfer agreement with any Type One 11 hospital whose private hospital partner qualifies for such supplemental payments, under 12 which the Type One hospital shall provide the state share in order to match federal Medicaid 13 funds for the supplemental payments to the private hospital partner. The department shall 14 have the authority to implement these reimbursement changes consistent with the effective 15 date in the State Plan amendment approved by the Centers for Medicare and Medicaid 16 Services (CMS) and prior to completion of any regulatory process in order to effect such changes.

The 21 department shall revise its contracts with managed care organizations to incorporate these 22 supplemental capitation payments and provider payment requirements. DMAS shall enter into 23 a transfer agreement with any Type One hospital whose private hospital partner qualifies for 24 such supplemental payments, under which the Type One hospital shall provide the state share 25 in order to match federal Medicaid funds for the supplemental payments to the private 26 hospital partner. The department shall have the authority to implement these reimbursement 27 changes consistent with the effective date approved by the Centers for Medicare and Medicaid Services (CMS). No payment shall be made without approval from CMS. 28

29 2.a. The Department of Medical Assistance Services shall promulgate regulations to make 30 supplemental payments to Medicaid physician providers with a medical school located in 31 Eastern Virginia that is a political subdivision of the Commonwealth. The amount of the supplemental payment shall be based on the difference between the average commercial rate 32 33 approved by CMS and the payments otherwise made to physicians. The department shall have 34 the authority to implement these reimbursement changes consistent with the effective date in 35 the State Plan amendment approved by CMS and prior to completion of any regulatory 36 process in order to effect such changes.

37 b. However, DMAS shall not submit such State 53 Plan amendment to CMS until it has entered into an intergovernmental agreement with 54 eligible local government-owned nursing homes or the local government itself which requires 55 them to transfer funds to DMAS for use as the state share for the supplemental Medicaid 56 payment each nursing home is entitled to and to represent that each has the authority to 57 transfer funds to DMAS and that the funds used will comply with federal law for use as the

The department shall adjust capitation 53 payments to Medicaid managed care organizations to fund this percentage increase. Both 54 the contract changes and capitation rate adjustments shall be compliant with 42 C.F.R. 55 438.6(c)(1)(iii) and subject to CMS approval.

authorized payments. Virginia community colleges, Virginia public institutions of higher education, local governments, and instrumentalities of local government are public entities that are authorized to transfer funds to the department for purposes of covering the nonfederal share of the authorized payments. Such public entities would enter into an Interagency Agreement with the department for this purpose. The department shall develop a plan, that could take effect July 1, 2023, for making managed care directed payments or supplemental payments as follows: Physician fee-for-service (FFS) supplemental payments through a state plan amendment and physician managed care directed payments through managed care contracts up to the Average Commercial Rate for practice plans that are a component of the participating hospitals or health system. The plan shall identify the public entity who will transfer funds to the department, the amount and duration of such transfers, the purpose and amount of any supplemental payment or managed care direct payments made to private hospitals and related health systems, and the impact, if any, on other supplemental payment programs currently in effect. The plan shall also include the appropriate references that provide authority for such payments.

b. The department shall have the authority to amend the State Plan for Medical Assistance and managed care contracts to make supplemental payments and managed care directed payments to private hospitals for physician services effective July 1, 2024. Reimbursement changes shall be effective prior to completion of any regulatory process in order to effect such changes. No payment shall be made without approval from CMS and an Interagency Agreement with a public entity capable of transferring the non-federal share of authorized payments to the department. The funds to be transferred must comply with 42 CFR 433.51 and 433.54. Such funds may not be paid from any private agreements with public entities that are in excess of fair market value or that alleviate pre-existing financial burdens of such public entities. Public entities are authorized to use general fund dollars to accomplish this transfer. As part of the Interagency Agreements the department shall require the public entities to attest to compliance with applicable CMS criteria. The department shall also require any private hospital and related health systems receiving payments under this Item to attest to compliance with applicable CMS criteria. Upon notification by the Department of any deferral or disallowance issued by CMS regarding the supplemental or managed care directed payment arrangement, the hospital provider will return the entire balance of the payment to the Department within 30 days of notification. If the hospital does not return the entire balance of the payment to the Department within the specified timeframe, a judgement rate of interest set forth in Title 6.2-302 will be applied to the entire balance, regardless of whatever portion has been repaid. In addition, the non-federal share of the agency's administrative costs directly related to administration of the programs authorized in this paragraph, including staff and contractors, shall be funded by participating public entities. These funds shall be deposited into a special fund created by the Comptroller and used to support the administrative costs associated with managing this program. Any funds received for this purpose but unexpended at the end of the fiscal year shall remain in the fund for use in accordance with this provision.

c. The purposes to which the additional payments authorized in paragraph OO.9.b. of this Item shall be applied include: (i) increasing and enhancing access to outpatient care for Medicaid recipients; (ii) stabilizing and supporting critical healthcare workforce needs; and (iii) advancing the department's health and quality improvement goals; these shall contain specific measurable outcomes that will be approved, and monitored by the Department quarterly. Payment shall be dependent on progress towards goal attainment on all three purposes. Participating organizations must submit quarterly updates and annual reports on programs no later than October 1. The department, with the assistance of the participating organizations, shall report to the Chairs of the House Appropriations and Senate Finance and Appropriations Committees by December 1 of each year on the impact of this initiative.

54 10. The Department of Medical Assistance Services shall have the authority to amend the 55 State Plan for Medical Assistance to make supplemental payments through an adjustment 56 to the formula for indirect medical education (IME) reimbursement, using managed care 57 discharge days, for an acute care hospital chain with a level one trauma center in the 58 Tidewater Metropolitan Statistical Area (MSA) in 2020, upon the execution of affiliation 59 agreements with public entities that are capable of transferring funds to the department for 60 purposes of covering the non-federal share of the authorized payments. entities would enter into an Interagency Agreement with the department for this purpose. Public entities are authorized to use general fund dollars to accomplish this transfer. The funds to be transferred must comply with 42 CFR 433.51 and 433.54. As part of the Interagency Agreements the department shall require the public entities to attest to compliance with applicable CMS criteria. The department shall also require any private hospital and related health systems receiving payments under this Item to attest to compliance with applicable CMS criteria. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

10 11. The Department of Medical Assistance Services shall periodically assess the quality
11 measures that are submitted to the Centers for Medicare and Medicaid Services for
12 supplemental payments to ensure that appropriate quality measures are being included for
13 supplemental payments such that the additional funding is improving the Medicaid program's
14 quality and delivery of health care services. The department shall report on quality measures
15 and outcomes for the programs to the Joint Subcommittee for Health and Human Resources
16 Oversight no later than November 15, 2024.

PP.1. Effective July 1, 2017, the Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to increase the formula for indirect medical education (IME) for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 as a substitute for disproportionate share hospital (DSH) payments. The formula for these hospitals for IME for inpatient hospital services provided to Medicaid patients but reimbursed by capitated managed care providers shall be identical to the formula for Type One hospitals. The IME payments shall continue to be limited such that total payments to freestanding children's hospitals with greater than 50 percent Medicaid utilization do not exceed the federal uncompensated care cost limit to which DSH payments are subject, excluding third party reimbursement for Medicaid eligible patients. The department shall have the authority to implement these changes effective July 1, 2017, and prior to completion of any regulatory action to effect such changes.

2. The Department of Medical Assistance Services (DMAS) shall have the authority to create additional hospital supplemental payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 to replace payments that have been reduced due to the federal regulation on the definition of uncompensated care costs effective June 2, 2017. Effective July 1, 2024, these new payments shall equal the greater of what would have been paid to the freestanding children's hospitals under the current disproportionate share hospital (DSH) formula or \$16,000,000 annually, the average DSH that CHKD was due by formula prior to Medicaid expansion without regard to the uncompensated care cost limit. These additional hospital supplemental payments shall take precedence over supplemental payments for private acute care hospitals. If the federal regulation is voided, DMAS shall continue DSH payments to the impacted hospitals and adjust the additional hospital supplemental payments authorized in this paragraph accordingly. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effectuate such change.

QQ. The Department of Medical Assistance Services shall have the authority to amend the State Plan for Medical Assistance to adjust the formula for indirect medical education (IME) reimbursement for managed care discharges for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 by increasing the case mix adjustment factor to the greater of 3.2962 or the most recent rebasing. Total payments for IME in combination with other payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 may not exceed the hospital's Medicaid costs. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

RR. The Department of Medical Assistance Services shall implement managed care directed
 payments for physician services for practice plans affiliated with a freestanding children's
 hospital with more than 50 percent Medicaid utilization in fiscal year 2009 for \$11,050,000
 annually but not to exceed the average commercial rate. The department shall have the
 authority to implement this reimbursement change effective July 1, 2023, and prior to the
 completion of any regulatory process undertaken in order to effect such changes. The agency
 shall implement this by determining at the beginning of each year the percent of Medicaid that

SS. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to implement a supplemental disproportionate share hospital (DSH) payment for Chesapeake Regional Hospital up to its hospital-specific disproportionate share hospital limit (OBRA '93 DSH limit) as determined pursuant to 42 U.S.C. Section 1396r-4. The payment shall be made annually based upon the hospital's disproportionate share limit for the most recent year for which the disproportionate share limit has been calculated subject to the availability of DSH funds under the federal allotment of such funds to the department. Prior to submitting the State Plan amendment, Chesapeake Regional Hospital shall enter into an agreement with the department to transfer the nonfederal share of the supplemental DSH payment. Payment of the supplemental DSH payment is contingent upon receipt of intergovernmental transfer of funds or certified public expenditures from Chesapeake Regional Hospital. In the event that Chesapeake Regional Hospital is ineligible to transfer or certify necessary funds pursuant to federal law, the department may amend the State Plan for Medical Assistance to terminate the supplemental DSH payment program. The department shall have the authority to implement these reimbursement changes consistent with effective date(s) approved by the Centers for Medicare and Medicaid Services (CMS). No payments shall be made without CMS approval. In the event that CMS recoups supplemental DSH hospital funds from the department, Chesapeake Regional Hospital shall reimburse such funds to the department.

21 TT. The Department of Medical Assistance Services (DMAS) is authorized to amend the 22 State Plan for Medical Assistance Services to implement a supplemental Medicaid 23 payment for Department of Veterans Services (DVS) state government-owned nursing 24 facilities. The total supplemental Medicaid payment for DVS state government owned 25 nursing homes shall be based on the difference between the Upper Payment Limit of 42 26 CFR 447.272, as approved by the Centers for Medicare and Medicaid Services (CMS), 27 and all other Medicaid payments subject to such limit made to such nursing homes. 28 DMAS shall not submit any State Plan amendment to CMS that implements this payment 29 until DMAS enters into an intergovernmental agreement with DVS. This agreement shall 30 include the following provisions: 1) DVS shall transfer funds to DMAS for use as the state 31 share of the full cost of the supplemental Medicaid payment for which each nursing home is entitled; 2) DVS must demonstrate that it has the authority and ability to transfer the 32 33 necessary funds to DMAS; and, 3) DVS shall attest that any funds provided for state 34 match will comply with federal law for use as the state share for the supplemental 35 Medicaid payment. If DVS is unable to enter into or comply with the provisions of such 36 an intergovernmental agreement, then DMAS shall immediately modify the Medicaid 37 State Plan and adjust any supplemental payments accordingly. DMAS shall have the 38 authority to implement the reimbursement changes consistent with the effective date in the 39 State Plan amendment approved by CMS and prior to the completion of any regulatory 40 process undertaken in order to effect such change.

41 UU.1.a. Out of this appropriation, \$5,850,000 the first year and \$5,850,000 the second 42 year from the general fund and \$5,850,000 the first year and \$5,850,000 the second year 43 from nongeneral funds shall be used for supplemental payments to fund graduate medical 44 education for 3 residents who began their residencies in July 2021; 19 residents who 45 began their residencies in July 2022; 30 residents who began their residencies in July 46 2024.

The Department of Medical Assistance Services shall pursue available 52 administrative processes to initiate these residencies in FY 2025.
- 53 c. Of the amounts appropriated in UU.1.a., \$500,000 the first year and \$500,000 the 54 second year from the general fund and \$500,000 the first year and \$500,000 the second 55 year from nongeneral funds shall be used for supplemental payments to fund graduate 56 medical residencies for 10 obstetric-gynecological residents. The Department of Medical 57 Assistance Services shall work with the Virginia Health Workforce Development 58 Authority to pursue available administrative processes to initiate these residencies in fiscal

 contingent on the hospital's intent to apply for and accept the residencies.

3 2. The supplemental payment for each qualifying residency slot shall be \$100,000 annually 4 minus any Medicare residency payment for which the sponsoring institution is eligible. For 5 any residency program at a facility whose number of residency slots are above the cap set by 6 the Centers for Medicare and Medicaid Services or have exceeded the Upper Payment Limit 7 (UPL) set by CMS, the supplemental payments for each qualifying residency slot shall be 8 \$50,000 from the general fund annually minus any Medicare residency payments for which 9 the residency program is eligible. Supplemental payments shall be made for up to four years 10 for each qualifying resident. Payments shall be made quarterly following the same schedule 11 used for other medical education payments.

- 3.a. By July 1 of each year, the Department of Medical Assistance Services shall determine
  the number of residency slots that could be funded in the next two fiscal years within the
  resources provided in this Item. In addition, DMAS shall issue a call for applications to all
  hospitals in the Commonwealth to determine the number of residency slots, by hospital, that
  could be filled in the following fiscal year.
- 17 b. The Department of Medical Assistance Service, in cooperation with the Virginia Health 18 Workforce Development Authority, shall determine which new residency slots to fund based on priorities developed by the authority. Preference shall be given for residency slots located 19 20 in underserved areas. Applications for slots that involve multiple medical care providers 21 collaborating in training residents and that involve providing residents the opportunity to train 22 in underserved areas are encouraged. A majority of the new residency slots funded each year 23 shall be for primary care. The department shall adopt criteria for primary care, high need 24 specialties and underserved areas as developed by the Virginia Health Workforce 25 Development Authority. The department shall also review and consider applications from 26 non-hospital sponsoring institutions, such as Federally Qualified Health Centers (FQHCs).
- c. By August 15 of each year, the Department of Medical Assistance Services shall develop a
  prioritized list of hospitals for which residencies are recommended. Using this list, DMAS
  shall request budget authorization for those residencies that can be supported with the funds
  as appropriated in this Item.
- 4. The sponsoring institution will be eligible for the supplemental payments as long as it
  maintains the number of residency slots in total and by category as a result of the increase.
  The sponsoring institutions must certify by June 1 each year that they continue to meet the
  criteria for the supplemental payments and report any changes during the year to the number
  of residents.

Effective July 1, 2022, the department shall amend the State Plan for Medical Assistance 6 to establish a new direct and indirect care peer group for nursing facilities operating with at 7 least 80% of the resident population having one or more of the following diagnoses: 8 quadriplegia, traumatic brain injury, multiple sclerosis, paraplegia, or cerebral palsy. The department shall have the authority to file all necessary regulatory authorities without delay, make any necessary contract changes, and implement these reimbursement changes without regard to existing regulations. 2.a. The Department of Medical Assistance Services (DMAS) shall work with appropriate 8 nursing facility (NF) stakeholders and the Cardinal Care managed care organizations (MCOs) 9 to develop a unified, value-based purchasing (VBP) program that includes enhanced funding 10 for facilities that meet or exceed performance and/or improvement thresholds as developed, reported, and consistently measured by DMAS in cooperation with participating facilities. 11 The methodology and timing for the Virginia nursing facility VBP program, including 12 13 structures for nursing facility performance accountability and disbursement of earned 14 financial incentives, shall be completed no later than December 31, 2021, with the program 15 targeted to begin no later than July 1, 2022. b. During the first year of this program, half of the available funding shall be distributed to participating nursing facilities to be invested in functions, staffing, and other efforts necessary to build their capacity to enhance the quality of care furnished to Medicaid members. This funding shall be administered as a Medicaid rate add-on in the same manner as in paragraph 1. above. The remaining funding shall be allocated based on performance criteria as designated under the nursing facility VBP program. The amount of funding devoted to nursing facility quality of care investments shall be 25 percent of available funding in the second year of the program before the program transitions to payments based solely on nursing facility performance criteria in the third year of the program. In the third year of this program, such funds as appropriated for this purpose shall be fully disbursed according to the aforementioned unified VBP arrangement to participating nursing facilities that qualify for the enhanced funding.

33 c. B.1. The Director, Department of Juvenile Justice, (the "Department") shall develop a transformation plan to provide more effective and efficient services for juveniles, using databased decision-making, that improves outcomes and safely reduces the number of juveniles housed in state-operated juvenile correctional centers, consistent with public safety. To accomplish these objectives, the Department will provide, when appropriate, alternative placements and services for juveniles committed to the Department that offer treatment, supervision and programs that meet the levels of risk and need, as identified by the Department's risk and needs assessment instruments, for each juvenile placed in such placements or programs. Prior to implementation, the plan shall be approved by the Secretary of Public Safety and Homeland Security.

2. The Department shall reallocate any savings from the reduced cost of operating state juvenile correctional centers to support the goals of the transformation plan including, but not limited to: (a) increasing the number of male and female local placement options, and postdispositional treatment programs and services; (b) ensuring that appropriate placements and treatment programs are available across all regions of the Commonwealth; and (c) providing appropriate levels of educational, career readiness, rehabilitative, and mental health services for these juveniles in state, regional, or local programs and facilities, including but not limited to, community placement programs, independent living programs, and group homes. The goals of such transformation services shall be to reduce the risks for reoffending for juveniles supervised or committed to the Department and to improve and promote the skills and resiliencies necessary for the juveniles to lead successful lives in their communities.

38 3. No later than November 1 of each year, the Department of Juvenile Justice shall provide a 39 report to the Governor, the Chairs of the House Appropriations and Senate Finance and 40 Appropriations Committees, the Secretary of Public Safety and Homeland Security and the 41 Director, Department of Planning and Budget, assessing the impact and results of the 42 transformation plan and its related actions. The report shall include, but is not limited to, 43 assessing juvenile offender recidivism rates, fiscal and operational impact on detention 44 homes; changes (if any) in commitment orders by the courts; and use of the savings redirected 45 as a result of transformation, including the amount expended for contracted programs and 46 treatment services, including the number of juveniles receiving each specific service. The 47 report should also include the average length of stay for juveniles in each placement option.

48 4. The Director, Department of Planning and Budget, is authorized to transfer appropriations
49 between items and programs within the Department of Juvenile Justice to reallocate any
50 savings achieved through transformation to accomplish the goals of transformation.

5. If the Department of Juvenile Justice deems it necessary, due to facility population decline,
efficient use of resources, and the need to further reduce recidivism, to close a state juvenile
correctional center, the Department shall (i) work cooperatively with the affected localities to
minimize the effect of the closure on those communities and their residents, and (ii)
implement a general closure plan, preferably not less than 12 months from announcement of
the closure, to create opportunities to place affected state employees in existing departmental

## PART 2: CAPITAL PROJECT EXPENSES

#### § 2-0. GENERAL CONDITIONS

A.1. The General Assembly hereby authorizes the capital projects listed in this act. The amounts hereinafter set forth are appropriated
 to the state agencies named for the indicated capital projects. Amounts so appropriated and amounts reappropriated pursuant to
 paragraph G. of this section shall be available for expenditure during the current biennium, subject to the conditions controlling the
 expenditures of capital project funds as provided by law. Reappropriated amounts, unless otherwise stated, are limited to the
 unexpended appropriation balances at the close of the previous biennium, as shown by the records of the Department of Accounts.

8 2. The Director, Department of Planning and Budget, may transfer appropriations listed in Part 2 of this act from the second year to the
 9 first year in accordance with § 4-1.03 c.5. of this act.

10 B. The five-digit number following the title of a project is the code identification number assigned for the life of the project.

11 C. Except as herein otherwise expressly provided, appropriations or reappropriations for structures may be used for the purchase of 12 equipment to be used in the structures for which the funds are provided, subject to guidelines prescribed by the Governor.

13 D. Notwithstanding any other provisions of law, appropriations for capital projects shall be subject to the following:

 Appropriations or reappropriations of funds made pursuant to this act for planning of capital projects shall not constitute implied approval of construction funds in a future biennium. Funds, other than the reappropriations referred to above, for the preparation of capital project proposals must come from the affected agency's existing resources.

17 2. No capital project for which appropriations for planning are contained in this act, nor any project for which appropriations for planning have been previously approved, shall be considered for construction funds until preliminary plans and cost estimates are

reviewed by the Department of General Services. The purpose of this review is to avoid unnecessary expenditures for each project, in

20 the interest of assuring the overall cost of the project is reasonable in relation to the purpose intended, regardless of discrete design

E.1. Expenditures from Items in this act identified as "Maintenance Reserve" are to be made only for the maintenance of property,
 plant, and equipment as defined in § 4-4.01 c. of this act to the extent that funds included in the appropriation to the agency for this
 purpose in Part 1 of this act are insufficient.

2. Agencies and institutions of higher education can expend up to \$2,000,000 for a single repair or project, and up to \$4,000,000 for a roof replacement project, through the maintenance reserve appropriation. Such expenditures shall be subject to rules and regulations prescribed by the Governor. To the extent an agency or institution of higher education has identified a potential project that exceeds this threshold, the Director, Department of Planning and Budget, can provide exemptions to the threshold as long as the project still meets the definition of a maintenance reserve project as defined by the Department of Planning and Budget.

30 3. Only facilities supported wholly or in part by the general fund shall utilize general fund maintenance reserve appropriations.
 31 Facilities supported entirely by nongeneral funds shall accomplish maintenance through the use of nongeneral funds.

32 F. Conditions Applicable to Bond Projects

1. The capital projects listed in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in Part 2 of this act for the indicated agencies and institutions of higher education are hereby authorized and sums from the sources and in the amount indicated are hereby appropriated and reappropriated. The issuance of bonds in a principal amount plus amounts needed to fund issuance costs, reserve funds, and other financing expenses, including capitalized interest for any project listed in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in Part 2 of this act is hereby authorized.

2. The issuance of bonds for any project listed in the 9(C) Revenue Bonds section in Part 2 of this act is to be separately authorized
 pursuant to Article X, Section 9 (c), Constitution of Virginia.

3. The issuance of bonds for any project listed in the 9(C) Revenue Bonds or 9(D) Revenue Bonds sections in Part 2 of this act shall be
 authorized pursuant to § 23.1-1106, Code of Virginia.

42 4. In the event that the cost of any capital project listed in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in Part 2 of this 43 act shall exceed the amount appropriated therefore, the Director, Department of Planning and Budget, is hereby authorized, upon 44 request of the affected institution, to approve an increase in appropriation authority of not more than ten percent of the amount 45 designated in the 9(C) Revenue Bonds and 9(D) Revenue Bonds sections in part 2 of this act for such project, from any available 46 nongeneral fund revenues, provided that such increase shall not constitute an increase in debt issuance authorization for such capital 47

47 project. Furthermore, the Director, Department of Planning and Budget, is hereby authorized to approve the expenditure of all interest

- 2 Revenue Bonds sections in part 2 of this act for such capital project.
- 3 5. The interest on bonds to be issued for these projects may be subject to inclusion in gross income for federal income tax purposes.

6. Inclusion of a project in this act does not imply a commitment of state funds for temporary construction financing. In the absence of
 such commitment, the institution may be responsible for securing short-term financing and covering the costs from other sources of
 funds.

7 7. In the event that the Treasury Board determines not to finance all or any portion of any project listed in the 9(C) Revenue Bonds section in Part 2 of this act with the issuance of bonds pursuant to Article X, Section 9 (c), Constitution of Virginia, and notwithstanding any provision of law to the contrary, this act shall constitute the approval of the General Assembly to finance all or such portion of such project under the authorization of the 9(D) Revenue Bonds section in Part 2 of this act.

8. The General Assembly further declares and directs that, notwithstanding any other provision of law to the contrary, 50 percent of the proceeds from the sale of surplus real property pursuant to § 2.2-1147 et seq., Code of Virginia, which pertain to the general fund, and which were under the control of an institution of higher education prior to the sale, shall be deposited in a special fund set up on the books of the State Comptroller, which shall be known as the Higher Education Capital Projects Fund. Such sums shall be held in reserve, and may be used, upon appropriation, to pay debt service on bonds for the 21st Century College Program as authorized in Item C-7.10 of Chapter 924 of the Acts of Assembly of 1997.

9. Notwithstanding any other provision of law, a public institution of higher education may participate in the United States Department
of Education Historically Black College and University Capital Financing Program (HBCU Program), and use federal grant and
contract funds as permitted by the Program.

G. Upon certification by the Director, Department of Planning and Budget, there is hereby reappropriated the appropriations

Hospitals shall be given no less than 15 days prior notice of the new assessment amount and be provided with calculations. Prior to any change to the payment rate assessment amount,
 DMAS shall perform and incorporate a reconciliation of the Health Care Provider Payment Rate Assessment Fund. Any estimated
 excess or shortfall of revenue since the previous reconciliation shall be deducted from or added to the calculation of the private acute
 care hospital enhanced payments.

5 E.1. The "upper payment limit" means the limit on payment for inpatient services for recipients of medical assistance established in 6 accordance with 42 C.F.R. § 447.272 and outpatient services for recipients of medical assistance pursuant to 42 C.F.R. § 447.321 for 7 private hospitals. DMAS shall complete a calculation of the "upper payment limit" for each state fiscal year with a detailed analysis 8 of how it was determined. The "upper payment limit payment gap" means the difference between the amount of the private hospital 9 upper payment limit and the amount otherwise paid pursuant to the state plan for inpatient and outpatient services. The "managed 10 care organization hospital payment gap" means the difference between the amount included in the capitation rates for inpatient and 11 outpatient services based on historical paid claims and the amount that would be included when the projected hospital services furnished by private acute care hospitals operating in Virginia are priced for the contract year equivalent to the maximum managed 12 care directed payment amount as allowed by CMS subject to CMS approval under 42 C.F.R. section 438.6(c). As part of the 13 development of the managed care capitation rates, the DMAS shall calculate a "Medicaid managed care organization (MCO) 14 15 supplemental hospital capitation payment adjustment". This is a distinct additional amount that shall be added to Medicaid MCO capitation rates to fund supplemental payments under this section to private acute care hospitals operating in Virginia for services to 16 17 Medicaid recipients.

2. DMAS shall contractually direct Medicaid MCOs to disburse supplemental hospital capitation payment funds consistent with this
 section and 42 C.F.R. § 438.6(c), to ensure that all such funds are disbursed to private acute care hospitals operating in Virginia. In
 addition, DMAS shall contractually prohibit MCOs from making reductions to or supplanting hospital payments otherwise paid by
 MCOs.

3. DMAS shall make available quarterly a report of the additional capitation payments that are made to each MCO pursuant to this
 item. Further, DMAS shall consider recommendations of the Medicaid Hospital Payment Policy and Advisory Council in designing
 and implementing the specific elements of the payment rate assessment and private acute care hospital supplemental payment
 program authorized by this item.

F.1. DMAS shall be responsible for collecting the payment rate assessment amount. Hospitals subject to the payment rate assessment
 shall make quarterly payments due no later than August 15, November 15, February 15 and May 15 of each state fiscal year.

28 2. Hospitals that fail to make the payment rate assessment payments on or before the due date in subsection F.1. shall incur a five
29 percent penalty that shall be deposited in the Virginia Health Care Fund. Any unpaid payment assessment or penalty will be
30 considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

G. DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairs of the
 House Appropriations and Senate Finance and Appropriations Committees. The report shall include, for the most recently completed
 fiscal year, the revenue collected from the payment rate assessment, expenditures for purposes authorized by this item, and the year end assessment balance in the Health Care Provider Payment Rate Assessment Fund.

H. All revenue from the payment rate assessment shall be deposited into the Health Care Provider Payment Rate Assessment Fund, a
special non-reverting fund in the state treasury. Proceeds from the payment rate assessment, excluding penalties, shall not be used
for any other purpose than to fund (i) an increase in inpatient and outpatient payment rates paid to private acute care hospitals
operating in Virginia up to the private hospital "upper payment limit" and "managed care organization hospital payment gap" for
care provided to recipients of medical assistance services, and (ii) the administrative costs of collecting the assessment and of
implementing and operating the associated payment rate actions.

41 I. Any provision of this Section is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary.

### § 4-1.00 APPROPRIATIONS

## 6 § 4-1.01 PREREQUISITES FOR PAYMENT

a. The State Comptroller shall not pay any money out of the state treasury except pursuant to appropriations in this act or in anyother act of the General Assembly making an appropriation during the current biennium.

9 b. Moneys shall be spent solely for the purposes for which they were appropriated by the General Assembly, except as 10 specifically provided otherwise by § 4-1.03 Appropriation Transfers, § 4-4.01 Capital Projects, or § 4-5.01 a. Settlement of Claims with Individuals. Should the Governor find that moneys are not being spent in accordance with provisions of the act 11 appropriating them, he shall restrain the State Comptroller from making further disbursements, in whole or in part, from said 12 13 appropriations. Further, should the Auditor of Public Accounts determine that a state or other agency is not spending moneys in 14 accordance with provisions of the act appropriating them, he shall so advise the Governor or other governing authority, the 15 State Comptroller, the Chairman of the Joint Legislative Audit and Review Commission, and Chairmen of the Senate Finance and Appropriations and House Appropriations Committees. 16

c. Exclusive of revenues paid into the general fund of the state treasury, all revenues earned or collected by an agency, and
 contained in an appropriation item to the agency shall be expended first during the fiscal year, prior to the expenditure of any
 general fund appropriation within that appropriation item, unless prohibited by statute or by the terms and conditions of any
 gift, grant or donation.

#### 21 § 4-1.02 WITHHOLDING OF SPENDING AUTHORITY

a. For purposes of this subsection, withholding of spending authority is defined as any action pursuant to a budget reduction
 plan approved by the Governor to address a declared shortfall in budgeted revenue that impedes or limits the ability to spend
 appropriated moneys, regardless of the mechanism used to effect such withholding.

b.1. Changed Expenditure Factors: The Governor is authorized to reduce spending authority, by withholding allotments of
appropriations, when expenditure factors, such as enrollments or population in institutions, are smaller than the estimates upon
which the appropriation was based. Moneys generated from the withholding action shall not be reallocated for any other
purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days
after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House
Appropriations and Senate Finance and Appropriations Committees.

31 2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations
 32 have been specifically presented in writing to the General Assembly at its next regularly scheduled session.

33 c. Increased Nongeneral Fund Revenue:

34 1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues 35 collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the 36 operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments 37 of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for 38 educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations 39 to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any 40 state agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or intellectually 41 disabled payable from the Behavioral Health and Developmental Services Revenue Fund; and (e) general fund appropriations 42 for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other 43 purpose.

2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program,
following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by
withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is
prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations,
which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

49 d. Reduced General Fund Resources:

50 1. The term "general fund resources" as applied in this subsection includes revenues collected and paid into the general fund of

51 the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium, 52 and all unexpended balances brought forward from the previous biennium.  In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the estimated general fund resources available.

3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of general fund revenues shall be communicated to the Chairmen of the Senate Finance and Appropriations, House Appropriations and House Finance Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year's estimate, the Governor
 shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to the Chairmen of
 the House Appropriations, House Finance, and Senate Finance and Appropriations Committees.

13 b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller shall 14 provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes for the justcompleted fiscal year, with a comparison of such actual totals with the total of such taxes in the official budget estimate for that 15 fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes, 16 17 as shown on the preliminary close, was one percent or more below the amount of such taxes in the official budget estimate for the 18 just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund revenues for the current biennium and the 19 next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the Chairmen of the Senate Finance and 20 Appropriations, House Finance and House Appropriations Committees, not later than September 1 following the close of the fiscal 21 year.

5.a) The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved by
 the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House Appropriations and
 Senate Finance and Appropriations Committees. Subsequent modifications to the approved reduction plan also must be submitted to
 the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees, prior to withholding allotments of
 appropriations.

b) In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state agencies to
the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's Cabinet
secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be made available via electronic means to the
Chairmen of the House Appropriations and Senate Finance and Appropriations Committees concurrently with that budget reduction
plan.

32 6. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

33 a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency 34 35 or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and Appropriations and House Appropriations Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to 36 37 the grantee than the proportional cut apportioned to the agency. Without regard to § 4-5.05 b.4. of this act, the remaining 38 appropriation to the grantee which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by 39 July 31, or in two equal installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation 40 is less than or equal to \$500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its authorities, or for payment of a legally authorized deficit.

43 c) The payments for care of graves of Confederate and historical African American dead.

44 d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement 45 System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional 46 Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan 47 for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia 48 49 Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the 50 appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the 51 current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for 52 health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be 53 increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed 54 in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the governing board. 55

1 e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.

2 f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.

3 g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source

for payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the
 Executive Department.

h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting
 revenues for such appropriation are estimated to be insufficient to pay the appropriation.

8 7. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction
9 or on an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to
10 the maximum of 15 percent, as prescribed in subdivision 6a of this subsection.

11 8. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the 12 appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such 13 appropriations; however, the Governor shall take no action to reduce allotments of appropriations for major nongeneral fund 14 sources on account of reduced revenues until such time as a formal written re-estimate of revenues for the current and next 15 biennium, prepared in accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the 16 17 Chairmen of the Senate Finance and Appropriations, House Finance, and House Appropriations Committees. For purposes of 18 this subsection, major nongeneral fund sources are defined as Highway Maintenance and Operating Fund and Transportation 19 Trust Fund.

9. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to the following:

a) The Governor shall declare in writing to the Chairmen of the Senate Finance and Appropriations and House Appropriations
 Committees that a fiscal emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the
 exact amount of such transfer within five calendar days of the transfer;

- b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913,
  Code of Virginia, debt service funds, or federal funds; and
- c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the
   amount transferred from each account or fund and recommendations for restoring such amounts.
- 10. The Director, Department of Planning and Budget, shall make available via electronic means a report of spending authority
   withheld under the provisions of this subsection to the Chairmen of the Senate Finance and Appropriations and House
   Appropriations Committees within five calendar days of the action to withhold. Said report shall include the amount withheld
   by agency and appropriation item.
- 34 11. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between
- projected general fund resources and appropriations, the Speaker of the House of Delegates and the President pro tempore of
   the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the General
   Assembly.
- 38 § 4-1.03 APPROPRIATION TRANSFERS

- b) provide for unbudgeted cost increases for statutorily required services or federally mandated services, in order to continue thoseservices at the present level, or
- c) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a
   situation deemed threatening to life, safety, health, or property, or

  from state agencies to the county in which the town is situated or to the consolidated city, and the Director, Department of Planning
  and Budget, is authorized to transfer appropriations or portions thereof within a state agency, or from one such agency to another, if

 this act or is required to:

- 32 b) The above conditions shall not apply to donations and gifts to the endowment funds of institutions of higher education.

 verify their accuracy, as part of the budget planning and review process.

d) No obligation or expenditure shall be made from such funds until a revised operating budget request is approved by the
 Director, Department of Planning and Budget. Expenditures from any gift, grant or donation shall be in accordance with the
 purpose for which it was made; however, expenditures for property, plant or equipment, irrespective of fund source, are subject
 to the provisions of §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects General, and 4-5.03 b Services and Clients-New Services,
 of this act.

e) Nothing in this section shall exempt agencies from complying with § 4-2.01 a Solicitation and Acceptance of Donations,
 Gifts, Grants, and Contracts of this act.

of agribusiness equipment or the repair or construction of agribusiness facilities by an amount equal to fifty percent of any annual
amounts in excess of fiscal year 1992 deposits to the general fund from agribusiness operations. It is the intent of the General
Assembly that appropriation increases for the purposes specified shall not be used to reduce the general fund appropriations for the

**11** Department of Corrections.

### 12 § 4-1.05 REVERSION OF APPROPRIATIONS AND REAPPROPRIATIONS

### 13 a. GENERAL FUND OPERATING EXPENSE:

14 1.a) General fund appropriations which remain unexpended on (i) the last day of the previous biennium or (ii) the last day of the first 15 year of the current biennium, shall be reappropriated and allotted for expenditure where required by the Code of Virginia, where 16 necessary for the payment of preexisting obligations for the purchase of goods or services, or where desirable, in the determination of the Governor, to address any of the six conditions listed in § 4-1.03 c.5 of this act or to provide financial incentives to reduce 17 18 spending to effect current or future cost savings. With the exception of the unexpended general fund appropriations of agencies in 19 the Legislative Department, the Judicial Department, the Independent Agencies, or institutions of higher education, all other such unexpended general fund appropriations unexpended on the last day of the previous biennium or the last day of the first year of the 20 21 current biennium shall revert to the general fund.

b) General fund appropriations for agencies in the Legislative Department, the Judicial Department, and the Independent Agencies
 shall be reappropriated, except as may be specifically provided otherwise by the General Assembly. General fund appropriations
 shall also be reappropriated for institutions of higher education, subject to § 23.1-1002, Code of Virginia.

25 c) To improve the stability in institutional planning and predictability for students and families to prepare for the cost of higher 26 education, public higher education institutions are encouraged to employ the financial management strategy of establishing an 27 institutional reserve fund supported by any unexpended education and general appropriations of the institution at the end of the fiscal 28 year. The establishment of such a fund is designed to foster more long-term planning, promote efficient resource utilization and 29 reduce the need for substantial year-to-year increases in tuition, thereby increasing affordability for Virginians. Independent of the 30 provisions of § 23.1-1001, institutions are authorized to carry over education and general unexpended balances to establish and 31 maintain a reserve fund in an amount not to exceed six percent of their general fund appropriation for educational and general 32 programs in the most recently-completed fiscal year. Any use of the reserve fund shall be approved by the Board of Visitors of the 33 affected institution, and the institution shall immediately report the details of the approved plan for use of the reserve fund to the 34 Governor, the Secretary of Education, the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance 35 and Appropriations Committees. Any reserve fund shall be subject to the provisions of § 23.1-1303.B.11.

2. a. The Governor shall report within five calendar days after completing the reappropriation process to the Chairmen of the Senate
 Finance and Appropriations and House Appropriations Committees on the reappropriated amounts for each state agency in the
 Executive Department. He shall provide a preliminary report of reappropriation actions on or before November 1 and a final report
 on or before December 20 to the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees.

b. The Director, Department of Planning and Budget, may transfer reappropriated amounts within an agency to cover nonrecurring
 costs.

42 3. Pursuant to subsection E of § 2.2-1125, Code of Virginia, the determination of compliance by an agency or institution with
43 management standards prescribed by the Governor shall be made by the Secretary of Finance and the Secretary having jurisdiction
44 over the agency or institution, acting jointly.

45 4. The general fund resources available for appropriation in the first enactment of this act include the reversion of certain
46 unexpended balances in operating appropriations as of June 30 of the prior fiscal year, which were otherwise required to be
47 reappropriated by language in the Appropriation Act.

48 5. Upon request, the Director, Department of Planning and Budget, shall provide a report to the Chairmen of the House
 49 Appropriations and Senate Finance and Appropriations Committees showing the amount reverted for each agency and the total
 50 amount of such reversions.

51 b. NONGENERAL FUND OPERATING EXPENSE:

Based on analysis by the State Comptroller, when any nongeneral fund has had no increases or decreases in fund balances for a
 period of 24 months, the State Comptroller shall promptly transfer and pay the balance into the fund balance of the general
 fund. If it is subsequently determined that an appropriate need warrants repayment of all or a portion of the amount transferred,
 the Director, Department of Planning and Budget shall include repayment in the next budget bill submitted to the General

5 Assembly. This provision does not apply to funds held in trust by the Commonwealth.

#### 6 c. CAPITAL PROJECTS:

1. Upon certification by the Director, Department of Planning and Budget, the State Comptroller is hereby authorized to revert to the fund balance of the general fund any portion of the unexpended general fund cash balance and corresponding appropriation or reappropriation for a capital project when the Director determines that such portion is not needed for completion of the project. The State Comptroller may similarly return to the appropriate fund source any part of the unexpended nongeneral fund cash balance and reduce any appropriation or reappropriation which the Director determines is not needed to complete the project.

2. The unexpended general fund cash balance and corresponding appropriation or reappropriation for capital projects shall
revert to and become part of the fund balance of the general fund during the current biennium as of the date the Director,
Department of Planning and Budget, certifies to the State Comptroller that the project has been completed in accordance with
the intent of the appropriation or reappropriation and there are no known unpaid obligations related to the project. The State
Comptroller shall return the unexpended nongeneral fund cash balance, if there be any, for such completed project to the source
from which said nongeneral funds were obtained. Likewise, he shall revert an equivalent portion of the appropriation or
reappropriation of said nongeneral funds.

3. The Director, Department of Planning and Budget, may direct the restoration of any portion of the reverted amount if he
 shall subsequently verify an unpaid obligation or requirement for completion of the project. In the case of a capital project for
 which an unexpended cash balance was returned and appropriation or reappropriation was reverted in the prior biennium, he
 may likewise restore any portion of such amount under the same conditions.

## 24 § 4-1.06 LIMITED ADJUSTMENTS OF APPROPRIATIONS

#### **25** a. LIMITED CONTINUATION OF APPROPRIATIONS.

Notwithstanding any contrary provision of law, any unexpended balances on the books of the State Comptroller as of the last
 day of the previous biennium shall be continued in force for such period, not exceeding 10 days from such date, as may be
 necessary in order to permit payment of any claims, demands or liabilities incurred prior to such date and unpaid at the close of
 business on such date, and shown by audit in the Department of Accounts to be a just and legal charge, for values received as of
 the last day of the previous biennium, against such unexpended balances.

#### 31 b. LIMITATIONS ON CASH DISBURSEMENTS.

32 Notwithstanding any contrary provision of law, the State Comptroller may begin preparing the accounts of the Commonwealth 33 for each subsequent fiscal year on or about 10 days before the start of such fiscal year. The books will be open only to enter 34 budgetary transactions and transactions that will not require the receipt or disbursement of funds until after June 30. Should an 35 emergency arise, or in years in which July 1 falls on a weekend requiring the processing of transactions on or before June 30, 36 the State Comptroller may, with notification to the Auditor of Public Accounts, authorize the disbursement of funds drawn 37 against appropriations of the subsequent fiscal year, not to exceed the sum of three million dollars (\$3,000,000) from the 38 general fund. This provision does not apply to debt service payments on bonds of the Commonwealth which shall be made in accordance with bond documents, trust indentures, and/or escrow agreements. 39

#### 40 § 4-1.07 ALLOTMENTS

Except when otherwise directed by the Governor within the limits prescribed in §§ 4-1.02 Withholding of Spending Authority, 42 4-1.03 Appropriation Transfers, and 4-1.04 Appropriation Increases of this act, the Director, Department of Planning and 43 Budget, shall prepare and act upon the allotment of appropriations required by this act, and by § 2.2-1819, Code of Virginia, 44 and the authorizations for rates of pay required by this act. Such allotments and authorizations shall have the same effect as if 45 the personal signature of the Governor were subscribed thereto. This section shall not be construed to prohibit an appeal by the 46 head of any state agency to the Governor for reconsideration of any action taken by the Director, Department of Planning and 47 Budget, under this section.

#### 48

#### § 4-2.00 REVENUES

49 § 4-2.01 NONGENERAL FUND REVENUES

#### 50 a. SOLICITATION AND ACCEPTANCE OF DONATIONS, GIFTS, GRANTS, AND CONTRACTS:

51 1. a) No state agency shall solicit or accept any donation, gift, grant, or contract without the written approval of the Governor
 52 except under written guidelines issued by the Governor which provide for the solicitation and acceptance of nongeneral funds,

except that donations or gifts to the Virginia War Memorial Foundation that are small in size and number and valued at less than
 \$5,000, such as library items or small display items, may be approved by the Executive Director of the Virginia War Memorial in
 consultation with the Secretary of Veterans Affairs and Homeland Security. All other gifts and donations to the Virginia War
 Memorial Foundation must receive written approval from the Secretary of Veterans Affairs and Homeland Security.

b) The limits on solicitation and acceptance of donations, gifts, grants, and contracts stated in paragraph 1.a) above shall not apply to
donations, gifts, grants, and contracts associated with support and/or response to the needs and impacts of the COVID-19 pandemic
provided that acceptance of such does not create any ongoing commitments against general or nongeneral fund resources of the
Commonwealth.

2. The Governor may issue policies in writing for procedures which allow state agencies to solicit and accept nonmonetary donations, gifts, grants, or contracts except that donations, gifts and grants of real property shall be subject to § 4-4.00 of this act and § 2.2-1149, Code of Virginia. This provision shall apply to donations, gifts and grants of real property to endowment funds of institutions of higher education, when such endowment funds are held by the institution in its own name and not by a separately incorporated foundation or corporation.

3. The preceding subdivisions shall not apply to property and equipment acquired and used by a state agency or institution through a
 lease purchase agreement and subsequently donated to the state agency or institution during or at the expiration of the lease purchase
 agreement, provided that the lessor is the Virginia College Building Authority.

- 4.The use of endowment funds for property, plant or equipment for state-owned facilities is subject to §§ 4-2.03 Indirect Costs, 44.01 Capital Projects-General and 4-5.03 Services and Clients of this act.
- 5. Notwithstanding any other provision of law, public institutions of higher education may enter into agreements or contracts with
   nonprofit organizations that provide funding for research or other mission related activities and require use of binding arbitration or
   application of the laws of another jurisdiction, upon approval of the Office of the Attorney General.

### 22 b. HIGHER EDUCATION TUITION AND FEES

1. Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly,
 and Chapters 675 and 685 of the 2009 Acts of Assembly, all nongeneral fund collections by public institutions of higher education,
 including collections from the sale of dairy and farm products, shall be deposited in the state treasury in accordance with § 2.2-1802,
 Code of Virginia, and expended by the institutions of higher education in accordance with the appropriations and provisions of this
 act, provided, however, that this requirement shall not apply to private gifts, endowment funds, or income derived from endowments
 and gifts.

2. a) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels
they deem to be appropriate for all resident student groups based on, but not limited to, competitive market rates, provided that the
total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for
educational and general programs provided in this act.

b) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they
deem to be appropriate for all nonresident student groups based on, but not limited to, competitive market rates, provided that: i) the
tuition and mandatory educational and general fee rates for nonresident undergraduate and graduate students cover at least 100
percent of the average cost of their education, as calculated through base adequacy guidelines adopted, and periodically amended, by
the Joint Subcommittee Studying Higher Education Funding Policies, and ii) the total revenue generated by the collection of tuition
and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

c) For institutions charging nonresident students less than 100 percent of the cost of education, the State Council of Higher
 Education for Virginia may authorize a phased approach to meeting this requirement, when in its judgment, it would result in annual
 tuition and fee increases for nonresident students that would discourage their enrollment.

d) The Boards of Visitors or other governing bodies of institutions of higher education shall not increase the current proportion of
nonresident undergraduate students if the institution's nonresident undergraduate enrollment exceeds 25 percent, unless: i) such
enrollment is intended to support workforce development needs within the Commonwealth of Virginia as identified in consultation
with the Virginia Economic Development Partnership, and ii) the number of in-state undergraduate students does not drop below fall
2018 full-time equivalent census levels as certified by the State Council of Higher Education for Virginia. Norfolk State University,
Virginia Military Institute, Virginia State University, and two-year public institutions are exempt from this restriction. Any such
increases shall be limited to no more than a one percentage point increase over the prior year.

3. a) In setting the nongeneral fund appropriation for educational and general programs at the institutions of higher education, the
General Assembly shall take into consideration the appropriate student share of costs associated with providing full funding of the
base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th
percentile of peer institutions, and other priorities set forth in this act.

b) In determining the appropriate state share of educational costs for resident students, the General Assembly shall seek to cover at

least 67 percent of educational costs associated with providing full funding of the base adequacy guidelines referenced in
 subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and
 other priorities set forth in this act.

4. a) Each institution and the State Council of Higher Education for Virginia shall monitor tuition, fees, and other charges, as
5 well as the mix of resident and nonresident students, to ensure that the primary mission of providing educational opportunities
6 to citizens of Virginia is served, while recognizing the material contributions provided by the presence of nonresident students.
7 The State Council of Higher Education for Virginia shall also develop and enforce uniform guidelines for reporting student
8 enrollments and the domiciliary status of students.

b) The State Council of Higher Education for Virginia shall report to the Governor and the Chairmen of the House
Appropriations and Senate Finance and Appropriations Committees no later than August 1 of each year the annual change in
total charges for tuition and all required fees approved and allotted by the Board of Visitors. As it deems appropriate, the State
Council of Higher Education for Virginia shall provide comparative national, peer, and market data with respect to charges
assessed students for tuition and required fees at institutions outside of the Commonwealth.

c) Institutions of higher education are hereby authorized to make the technology service fee authorized in Chapter 1042, 2003
 Acts of Assembly, part of ongoing tuition revenue. Such revenues shall continue to be used to supplement technology resources at the institutions of higher education.

d) Except for those public institutions of higher education that have a Management Agreement with the Commonwealth of
 Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act, each institution shall
 work with the State Council of Higher Education for Virginia and the Virginia College Savings Plan to determine appropriate
 tuition and fee estimates for tuition savings plans.

5. It is the intent of the General Assembly that each institution's combined general and nongeneral fund appropriation within its
 educational and general program closely approximate the anticipated annual budget each fiscal year.

6. Nonresident graduate students employed by an institution as teaching assistants, research assistants, or graduate assistants
and paid at an annual contract rate of \$4,000 or more may be considered resident students for the purposes of charging tuition
and fees.

7. The fund source "Higher Education Operating" within educational and general programs for institutions of higher education
 includes tuition and fee revenues from nonresident students to pay their proportionate share of the amortized cost of the construction of buildings approved by the Commonwealth of Virginia Educational Institutions Bond Act of 1992 and the Commonwealth of Virginia Educational Facilities Bond Act of 2002.

3. This paragraph does not prohibit the initiation of projects authorized by § 4-4.01 l hereof, or projects included under the central appropriations for capital project expenses in this act.

24 g. Preliminary Requirements: In regard to each capital project for which appropriation or reappropriation is made pursuant to this 25 act, or which is hereafter considered by the Governor for inclusion in the Executive Budget, or which is offered as a gift or is 26 considered for purchase, the Governor is hereby required: (1) to determine the urgency of its need, as compared with the need for 27 other capital projects as herein authorized, or hereafter considered; (2) to determine whether the proposed plans and specifications 28 for each capital project are suitable and adequate, and whether they involve expenditures which are excessive for the purposes 29 intended; (3) to determine whether labor, materials, and other requirements, if any, needed for the acquisition or construction of such 30 project can and will be obtained at reasonable cost; and (4) to determine whether or not the project conforms to a site or master plan 31 approved by the agency head or board of visitors of an institution of higher education for a program approved by the General 32 Assembly.

**33** h. Initiation Generally:

No architectural or engineering planning for, or construction of, or purchase of any capital project shall be commenced or revised
 without the prior written approval of the Governor or his designee.

36 2. The requirements of § 10.1-1190, Code of Virginia, shall be met prior to the release of funds for a major state project, provided,
37 however, that the Governor or his designee is authorized to release from any appropriation for a major state project made pursuant to
38 this act such sum or sums as may be necessary to pay for the preparation of the environmental impact report required by § 10.1-1188, Code of Virginia.

40 3. The Governor, at his discretion, or his designee may release from any capital project appropriation or reappropriation made 41 pursuant to this act such sum (or sums) as may be necessary to pay for the preparation of plans and specifications by architects and 42 engineers, provided that the estimated cost of the construction covered by such drawings and specifications does not exceed the 43 appropriation therefor; provided, further, however, that the architectural and engineering fees paid on completion of the preliminary 44 design for any such project may be based on such estimated costs as may be approved by the Governor in writing, where it is shown 45 to the satisfaction of the Governor that higher costs of labor or material, or both, or other unforeseen conditions, have made the 46 appropriation inadequate for the completion of the project for which the appropriation was made, and where in the judgment of the 47 Governor such changed conditions justify the payment of architectural or engineering fees based on costs exceeding the 48 appropriation.

49 4. Architectural or engineering contracts shall not be awarded in perpetuity for capital projects at any state institution, agency or50 activity.

i. Capital Projects Financed with Bonds: Capital projects proposed to be financed with (i) 9 (c) general obligation bonds or (ii) 9(d)
 obligations where debt service is expected to be paid from project revenues or revenues of the agency or institution, shall be

53 reviewed as follows:

By August 15 of each year, requests for inclusion in the Executive Budget of capital projects to be financed with 9(c) general obligation bonds shall be submitted to the State Treasurer for evaluation of financial feasibility. Submission shall be in accordance with the instructions prescribed by the State Treasurer. The State Treasurer shall distribute copies of financial feasibility studies to the Director, Department of Planning and Budget, the Secretary for the submitting agency or institution, the Chairmen of the House Appropriations and Senate Finance and Appropriations Committees, and the Director, State Council of Higher Education for Virginia, if the project is requested by an institution of higher education.

7 2. By August 15 of each year, institutions shall also prepare and submit copies of financial feasibility studies to the State 8 Council of Higher Education for Virginia for 9(d) obligations where debt service is expected to be paid from project revenues 9 or revenues of the institution. The State Council of Higher Education for Virginia shall identify the impact of all projects requested by the institutions of higher education, and as described in § 4-4.01 j.1. of this act, on the current and projected cost 10 to students in institutions of higher education and the impact of the project on the institution's need for student financial 11 assistance. The State Council of Higher Education for Virginia shall report such information to the Secretary of Finance and the 12 13 Chairmen of the House Appropriations and Senate Finance and Appropriations Committees no later than October 1 of each 14 vear.

3. Prior to the issuance of debt for 9(c) general obligation projects, when more than one year has elapsed since the review of
financial feasibility specified in § 4-4.01 j 1 above, an updated feasibility study shall be prepared by the agency and reviewed
by the State Treasurer prior to requesting the Governor's Opinion of Financial Feasibility required under Article X, Section 9
(c), of the Constitution of Virginia.

j. Transfers to supplement capital projects from nongeneral funds may be made under the conditions set forth in §§ 4-1.03 a, 4-1.04 a.3, and 4-4.01 l of this act.

21 k.1. Change in Size and Scope: Unless otherwise provided by law, the scope, which is the function or intended use, of any 22 capital project may not be substantively changed, nor its size increased or decreased by more than five percent in size beyond 23 the plans and justification which were the basis for the appropriation or reappropriation in this act or for the Governor's 24 authorization pursuant to § 4-4.01 l of this act. However, this prohibition is not applicable to changes in size and scope required 25 because of circumstances determined by the Governor to be an emergency, or requirements imposed by the federal government 26 when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal 27 funds. Furthermore, this prohibition shall not apply to minor increases, beyond five percent, in square footage determined by 28 the Director, Department of General Services, to be reasonable and appropriate based on a written justification submitted by the 29 agency stating the reason for the increase, with the provision that such increase will not increase the cost of the project beyond 30 the amount appropriated; nor to decreases in size beyond five percent to offset unbudgeted costs when such costs are 31 determined by the Director, Department of Planning and Budget, to be reasonable based on a written justification submitted by 32 the agency specifying the amount and nature of the unbudgeted costs and the types of actions that will be taken to decrease the 33 size of the project. The written justification shall also include a certification, signed by the agency head, that the resulting 34 project will be consistent with the original programmatic intent of the appropriations.

2. If space planning, energy conservation, and environmental standards guides for any type of construction have been approvedby the Governor or the General Assembly, the Governor shall require capital projects to conform to such planning guides.

- 37 1. Projects Not Included In This Act:
- **38** 1. Authorization by Governor:

a) The Governor may authorize initiation of, planning for, construction of or acquisition of a nongeneral fund capital project not
 specifically included in this act or provided for a program approved by the General Assembly through appropriations, under
 one or more of the following conditions:

- 42 1) The project is required to meet an emergency situation.
- 43 2) The project is to be operated as an auxiliary enterprise or sponsored program in an institution of higher education and will be44 fully funded by revenues of auxiliary enterprises or sponsored programs.
- 45 3) The project is to be operated as an educational and general program in an institution of higher education and will be fully46 funded by nongeneral fund revenues of educational and general programs or from private gifts and indirect cost recoveries.
- 47 4) The project consists of plant or property which has become available or has been received as a gift.

48 5) The project has been recommended for funding by the Tobacco Indemnification and Community Revitalization Commission49 or the Virginia Tobacco Settlement Foundation.

- 50 b) The foregoing conditions are subject to the following criteria:
- 51 1) Funds are available within the appropriations made by this act (including those subject to §§ 4-1.03 a, 4-1.04 a.3, and 4-2.03)

- 1 without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances.
- 2 2) In the Governor's opinion such action may avoid an increase in cost or otherwise result in a measurable benefit to the state.
- 3) The authorization includes a detailed description of the project, the project need, the total project cost, the estimated operating costs, and the fund sources for the project and its operating costs.
- 4) The Chairmen of the House Appropriations and Senate Finance and Appropriations Committees shall be notified by the Governorprior to the authorization of any capital project under the provisions of this subsection.
- 5) Permanent funding for any project initiated under this section shall only be from nongeneral fund sources.
- 8 2. Authorization by Director, Department of Planning and Budget:

a) The Director, Department of Planning and Budget, may authorize initiation of a capital project not included in this act, if the
General Assembly has enacted legislation to fund the project from bonds of the Virginia Public Building Authority, Virginia College
Building Authority, or from reserves created by refunding of bonds issued by those Authorities.

12 3. Delegated authorization by Boards of Visitors, Public Institutions of Higher Education:

a) In accordance with § 4-5.06 of this act, the board of visitors of any public institution of higher education that: i) has met the eligibility criteria set forth in Chapters 933 and 945 of the 2005 Acts of Assembly for additional operational and administrative autonomy, including having entered into a memorandum of understanding with the Secretary of Administration for delegated authority of nongeneral fund capital outlay projects, and ii) has received a sum sufficient nongeneral fund appropriation for emergency projects as set out in Part 2: Capital Project Expenses of this act, may authorize the initiation of any capital project that is not specifically set forth in this act provided that the project meets at least one of the conditions and criteria identified in § 4-4.01 1 1 of this act.

b) At least 30 days prior to the initiation of a project under this provision, the board of visitors must notify the Governor and
Chairmen of the House Appropriations and Senate Finance and Appropriations Committees and must provide a life-cycle budget
analysis of the project. Such analysis shall be in a form to be prescribed by the Auditor of Public Accounts.

c) The Commonwealth of Virginia shall have no general fund obligation for the construction, operation, insurance, routine
 maintenance, or long-term maintenance of any project authorized by the board of visitors of a public institution of higher education
 in accordance with this provision.

- m. Acquisition, maintenance, and operation of buildings and nonbuilding facilities in colleges and universities shall be subject to the
   following policies:
- 1. The anticipated program use of the building or nonbuilding facility should determine the funding source for expenditures for acquisition, construction, maintenance, operation, and repairs.
- 2. For new campuses to be established within the Virginia Community College System, expenditures for land acquisition, site
   preparation beyond five feet from a building, and the construction of additional outdoor lighting, sidewalks, outdoor athletic and
   recreational facilities, and parking lots in the Virginia Community College System shall be made only from appropriated federal
   funds, Trust and Agency funds, including local government allocations or appropriations, or the proceeds of indebtedness authorized
   by the General Assembly.
- 35 3. The general policy of the Commonwealth shall be that parking services are to be operated as an auxiliary enterprise by all colleges36 and universities. Institutions should develop sufficient reserves for ongoing maintenance and replacement of parking facilities.
- 4. Except as provided in paragraph 2 above, expenditures for maintenance, replacement, and repair of outdoor lighting, sidewalks,and other infrastructure facilities may be made from any appropriated funds.
- 5. Expenditures for operations, maintenance, and repair of athletic, recreational, and public service facilities, both indoor and
  outdoor, should be from nongeneral funds. However, this condition shall not apply to any indoor recreational facility existing on a
  community college campus as of July 1, 1988.
- 6.a.1. At institutions of higher education that have met the eligibility criteria for additional operational and administrative authority
  as set forth in Chapters 933 and 945 of the 2005 Acts of Assembly or Chapters 824 and 829 of the 2008 Acts of Assembly, any
  repair, renovation, or new construction project costing up to \$3,000,000 shall be exempt from the capital outlay review and approval
  process. For purposes of this paragraph, projects shall not include any subset of a series of projects, which in combination would
  exceed the \$3,000,000 maximum.
- 47 2. All state agencies and institutions of higher education shall be exempt from the capital review and approval process for repair,48 renovation, or new construction projects costing up to \$3,000,000.
- b. Blanket authorizations funded entirely by nongeneral funds may be used for 1) renovation and infrastructure projects costing up to

 \$3,000,000 and 2) the planning of nongeneral fund new construction and renovation projects through bidding, with bid award made after receipt of a construction authorization. The Director, Department of Planning and Budget, may provide exemptions to the threshold.

7. It is the policy of the Commonwealth that the institutions of higher education shall treat the maintenance of their facilities as
a priority for the allocation of resources. No appropriations shall be transferred from the "Operation and Maintenance of Plant"
subprogram except for closely and definitely related purposes, as approved by the Director, Department of Planning and
Budget, or his designee. A report providing the rationale for each approved transfer shall be made to the Chairmen of the House
Appropriations and Senate Finance and Appropriations Committees.

n. Legislative Intent and Reporting: Appropriations for capital projects shall be deemed to have been made for purposes which
 require their expenditure, or being placed under contract for expenditure, during the current biennium. Agencies to which such
 appropriations are made in this act or any other act are required to report progress as specified by the Governor. If, in the
 opinion of the Governor, these reports do not indicate satisfactory progress, he is authorized to take such actions as in his
 judgment may be necessary to meet legislative intent as herein defined. Reporting on the progress of capital projects shall be in
 accordance with § 4-8.00, Reporting Requirements.

o. No expenditure from a general fund appropriation in this act shall be made to expand or enhance a capital outlay project
 beyond that anticipated when the project was initially approved by the General Assembly except to comply with requirements
 imposed by the federal government when such capital project is for armories or other defense-related installations and is funded
 in whole or in part by federal funds. General fund appropriations in excess of those necessary to complete the project shall not
 be reallocated to expand or enhance the project, or be reallocated to a different project. The prohibitions in this subsection shall
 not apply to transfers from projects for which reappropriations have been authorized.

p. Local or private funds to be used for the acquisition, construction or improvement of capital projects for state agency use as
 owner or lessee shall be deposited into the state treasury for appropriation prior to their expenditure for such projects.

q. State-owned Registered Historic Landmarks: To guarantee that the historical and/or architectural integrity of any state-owned properties listed on the Virginia Landmarks Register and the knowledge to be gained from archaeological sites will not be adversely affected because of inappropriate changes, the heads of those agencies in charge of such properties are directed to submit all plans for significant alterations, remodeling, redecoration, restoration or repairs that may basically alter the appearance of the structure, landscaping, or demolition to the Department of Historic Resources. Such plans shall be reviewed within thirty days and the comments of that department shall be submitted to the Governor through the Department of General Services for use in making a final determination.

30 r.1. The Governor may authorize the conveyance of any interest in property or improvements thereon held by the 31 Commonwealth to the educational or real estate foundation of any institution of higher education where he finds that such 32 property was acquired with local or private funds or by gift or grant to or for the use of the institution, and not with funds 33 appropriated to the institution by the General Assembly. Any approved conveyance shall be exempt from § 2.2-1156, Code of 34 Virginia, and any other statute concerning conveyance, transfer or sale of state property. If the foundation conveys any interest 35 in the property or any improvements thereon, such conveyance shall likewise be exempt from compliance with any statute 36 concerning disposition of state property. Any income or proceeds from the conveyance of any interest in the property shall be 37 deemed to be local or private funds and may be used by the foundation for any foundation purpose.

2. This section shall not apply to public institutions of higher education that have a Management Agreement with theCommonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act.

s.1. Facility Lease Agreements Involving Institutions of Higher Education: In the case of any lease agreement involving state owned property controlled by an institution of higher education, where the lease has been entered into consistent with the
 provisions of § 2.2-1155, Code of Virginia, the Governor may amend, adjust or waive any project review and reporting
 procedures of Executive agencies as may reasonably be required to promote the property improvement goals for which the
 lease agreement was developed.

- 45 2. This section shall not apply to public institutions of higher education that have a Management Agreement with the46 Commonwealth of Virginia pursuant to the Restructured Higher Education Financial and Administrative Operations Act.
- 47 t. Energy-efficiency Projects: Improvements to state-owned properties for the purpose of energy-efficiency shall be treated as48 follows:
- 49 1. Such improvements shall be considered an operating expense, provided that:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of
 Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1 1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board

- approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General
   Services;
- 3 c) the scope of work has been reviewed and recommended by the Department of Energy;
- 4 d) the total cost does not exceed \$3,000,000; and

e) if the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, the energy savings from the project offset the total cost ofthe project, including debt service and interest payments.

2. If (a) the total cost of the improvement exceeds \$7,000,000 or (b) the total cost exceeds \$3,000,000, but does not exceed
\$7,000,000, and the energy savings from the project do not fully offset the total cost of the project, including debt services and
interest payments, the improvement shall be considered a capital expense regardless of the type of improvement and the following
conditions must be met:

- a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating,
   Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is
   limited to measures listed in guidelines issued by the Department of General Services;
- b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval
   and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;
- 16 c) the scope of work has been reviewed and recommended by the Department of Energy;
- d) the project has been reviewed by the Department of Planning and Budget; and
- 18 e) the project has been approved by the Governor.

19 3. If the total project exceeds \$250,000, the agency director will submit written notification to the Director, Department of Planning20 and Budget, verifying that the project meets all of the conditions in subparagraph 1 above.

The provisions of §§ 2.0 and 4-4.01 of this act and the provisions of § 2.2-1132, Code of Virginia, shall not apply to energy conservation projects that qualify as capital expenses.

4. As used in this paragraph, "improvement" does not include (a) constructing, enlarging, altering, repairing or demolishing a
building or structure, (b) changing the use of a building either within the same use group or to a different use group when the new
use requires greater degrees of structural strength, fire protection, exit facilities or sanitary provisions, or (c) removing or disturbing
any asbestos-containing materials during demolition, alteration, renovation of or additions to building or structures. If the projected
scope of an energy-efficiency project includes any of these elements, it shall be subject to the capital outlay process as set out in this
section.

5. The Director, Department of Planning and Budget, shall notify the Chairmen of the House Appropriations and Senate Finance and
 Appropriations Committees upon the initiation of any energy-efficiency projects under the provisions of this paragraph.

u. No expenditures shall be authorized for the purchase of fee simple title to any real property to be used for a correctional facility or
 for the actual construction of a correctional facility provided for in this act, or by reference hereto, that involves acquisition or new
 construction of youth or adult correctional facilities on real property which was not owned by the Commonwealth on January 1,
 1995, until the governing body of the county, city or town wherein the project is to be located has adopted a resolution supporting
 the location of such project within the boundaries of the affected jurisdiction. The foregoing does not prohibit expenditures for site
 studies, real estate options, correctional facility design and related expenditures.

- v. Except for institutions of higher education that have a Management Agreement with the Commonwealth of Virginia pursuant to
   the Restructured Higher Education Financial and Administrative Operations Act, any alternative financing agreement entered into
   between a state agency or institution of higher education and a private entity or affiliated foundation must be reviewed and approved
   by the Treasury Board.
- w. Prior to requesting authorization for new dormitory capital projects, institutions of higher education shall conduct a cost study to
   determine whether an alternative financing arrangement or public-private transaction would provide a more effective option for the
   construction of the proposed facility. This study shall be submitted to the Department of Planning and Budget as part of the budget
   development process and shall be evaluated by the Governor prior to submitting his proposed budget.
- 45 x. Construction or improvement projects of the Department of Military Affairs are not exempt from the capital outlay review process
  46 when the state procurement process is utilized, except for those projects with both an estimated cost of \$3,000,000 or less and are
  47 100 percent federally reimbursed. The Department of Military Affairs shall submit by July 30 of each year to the Department of
  48 Planning and Budget a list of such projects that were funded pursuant to this exemption in the previous fiscal year and any projects
  49 that would be eligible for such funding in future fiscal years.

a. It shall be the intent of the General Assembly to make biennial appropriations for a capital improvements program sufficient
 to address the program needs of the Commonwealth. The capital improvements program shall include maintenance and
 deferred maintenance of the Commonwealth's existing facilities, and of the facility requirements necessary to deliver the
 programs of state agencies and institutions.

b. In effecting these policies, the Governor shall establish a capital budget plan to address the renewal and replacement of the
Commonwealth's physical plant, using such guidelines as recommended by industry or government to maintain the
Commonwealth's investment in its property and plant.

#### § 4-5.00 SPECIAL CONDITIONS AND RESTRICTIONS ON EXPENDITURES

#### 9 § 4-5.01 TRANSACTIONS WITH INDIVIDUALS

a. SETTLEMENT OF CLAIMS: Whenever a dispute, claim or controversy involving the interest of the Commonwealth is
 settled pursuant to § 2.2-514, Code of Virginia, payment may be made out of any appropriations, designated by the Governor,
 to the state agency(ies) which is (are) party to the settlement.

- 13 b. STUDENT FINANCIAL ASSISTANCE FOR HIGHER EDUCATION:
- **14** 1. General:

8

15 a) The appropriations made in this act to state institutions of higher education within the Items for student financial assistance may be expended for any one, all, or any combination of the following purposes: grants to undergraduate students enrolled at 16 17 least one-half time in a degree, certificate, industry-based certification and related programs that do not qualify for other 18 sources of student financial assistance or diploma program; grants to full-time graduate students; graduate assistantships: grants to students enrolled full-time in a dual or concurrent undergraduate and graduate program. The institutions may also use these 19 appropriations for the purpose of supporting work study programs. The institution is required to transfer to educational and 20 general appropriations all funds used for work study or to pay graduate assistantships. Institutions may also contribute to 21 22 federal or private student grant aid programs requiring matching funds by the institution, except for programs requiring work. 23 The State Council of Higher Education for Virginia shall annually review each institution's plan for the expenditures of its 24 general fund appropriation for undergraduate student financial assistance prior to the start of the fall term to determine program 25 compliance. The institution's plan shall include the institution's assumptions and calculations for determining the cost of 26 attendance, student financial need, and student remaining need as well as an award schedule or description of how funds are 27 awarded. For the purposes of the proposed plan, each community college shall be considered independently. No limitations 28 shall be placed on the awarding of nongeneral fund appropriations made in this act to state institutions of higher education 29 within the Items for student financial assistance other than those found previously in this paragraph and as follows: (i) funds 30 derived from in-state student tuition will not subsidize out-of-state students, (ii) students receiving these funds must be making satisfactory academic progress, (iii) awards made to students should be based primarily on financial need, and (iv) institutions 31 32 should make larger grant and scholarship awards to students taking the number of credit hours necessary to complete a degree 33 in a timely manner.

34 b) All awards made to undergraduate students from such Items shall be for Virginia students only and such awards shall offset 35 all, or portions of, the costs of tuition and required fees, and, in the case of students qualifying under subdivision b 2 c)1) 36 hereof, the cost of books. All undergraduate financial aid award amounts funded by this appropriation shall be proportionate to 37 the remaining need of individual students, with students with higher levels of remaining need receiving grants before other 38 students. No criteria other than the need of the student shall be used to determine the award amount. Because of the low cost of 39 attendance and recognizing that federal grants provide a much higher portion of cost than at other institutions, a modified 40 approach and minimum award amount for the neediest VGAP student should be implemented for community college and 41 Richard Bland College students based on remaining need and the combination of federal and grant state aid. Student financial 42 need shall be determined by a need-analysis system approved by the Council.

43 c)1) All need-based awards made to graduate students shall be determined by the use of a need-analysis system approved by the44 Council.

45 2) As part of the six-year financial plans required in the provisions of Chapters 933 and 945 of the 2005 Acts of Assembly,

46 each institution of higher education shall report the extent to which tuition and fee revenues are used to support graduate
 47 student aid and graduate compensation and how the use of these funds impacts planned increases in student tuition and fees.

- d) A student who receives a grant under such Items and who, during a semester, withdraws from the institution which made the award must surrender the unearned portion. The institution shall calculate the unearned portion of the award based on the percentage used for federal Return to Title IV program purposes.
- e) An award made under such Items to assist a student in attending an institution's summer session shall be prorated according
   to the size of comparable awards made in that institution's regular session.
- 53 f) The provisions of this act under the heading "Student Financial Assistance for Higher Education" shall not apply to (1) the

- soil scientist scholarships authorized under § 23.1-615, Code of Virginia and (2) need-based financial aid programs for industry based certification and related programs that do not qualify for other sources of student financial assistance, which will be subject to
   guidelines developed by the State Council of Higher Education for Virginia.
- 4 g) Unless noted elsewhere in this act, general fund awards shall be named "Commonwealth" grants.
- h) Unless otherwise provided by statute, undergraduate awards shall not be made to students seeking a second or additional
   baccalaureate degree until the financial aid needs of first-degree seeking students are fully met.
- i) In determining financial need for student financial assistance, the institution shall recognize the federal Student Aid Index at noless than zero.
- j) Students receiving student financial assistance in 2023-2024 may be considered for Virginia Student Financial Assistance Program awards based on the Expected Family Contribution demonstrated in 2023-2024, or appropriately adjusted need as determined by the institution, for as long as the student maintains continuous enrollment, unless granted an exception for cause by the State Council of Higher Education for Virginia, until current degree completion or current degree program eligibility limits have otherwise expired, whichever comes first.
- k) Notwithstanding any other provision of law to the contrary, the Student Aid Index as calculated according to federal Title IV
   financial aid methodology shall be deemed an approved replacement of any mention or use of the precedent federal Expected Family
   Contribution for purposes of administrating state higher education financial aid programs.
- 17 l) Notwithstanding any other provision of law to the contrary, private institutions admitted on or after January 1, 2024 in any state
  18 program of higher education financial assistance shall (i) be a nonprofit private institution of higher education whose primary
  19 purpose is to provide collegiate, graduate, or professional education and not to provide religious training or theological education;
  20 (ii) be formed, chartered, established, or incorporated within the Commonwealth; (iii) have their principal place of business within
  21 the Commonwealth; (iv) conduct their primary educational activity within the Commonwealth; and (v) be accredited by a nationally
  22 recognized regional institutional accrediting agency.
- 23 2. Grants To Undergraduate Students:
- a) Each institution which makes undergraduate grants paid from its appropriation for student financial assistance shall expend such sums as approved for that purpose by the Council.
- b) A student receiving an award must be duly admitted and enrolled in a degree, certificate or diploma program at the institution
  making the award, and shall be making satisfactory academic progress as defined by the institution for the purposes of eligibility
  under Title IV of the federal Higher Education Act, as amended.
- c)1) It is the intent of the General Assembly that students eligible under the Virginia Guaranteed Assistance Program (VGAP)
   authorized in Title 23.1, Chapter 4.4:2, Code of Virginia, shall receive grants before all other students at the same institution with
   equivalent remaining need from the appropriations for undergraduate student financial assistance found in Part 1 of this act (service
   area 1081000 Scholarships). In each instance, VGAP eligible students shall receive awards greater than other students with
   equivalent remaining need.
- 2) The amount of each VGAP grant shall vary according to each student's remaining need and the total of tuition, all required fees
  and the cost of books at the institution the student will attend upon acceptance for admission. The actual amount of the VGAP award
  will be determined by the proportionate award schedule adopted by each institution; however, those students with the greatest
  financial need shall be guaranteed an award at least equal to tuition.
- 38 3) It is the intent of the General Assembly that the Virginia Guaranteed Assistance Program serve as an incentive to financially
   39 needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic
   40 performance and to consider higher education an achievable objective in their futures.
- 4) Students may not receive a VGAP and a Commonwealth grant in the same semester.
- d) Of the amount allocated for undergraduate need-based financial aid, up to one percent may be used for emergency assistance
   programs for students facing a financial emergency that puts them at risk of dropping out. The Council shall establish reporting
   guidelines and approve criteria for making student awards.
- 45 3. Grants To Graduate Students:
- a) An individual award may be based on financial need but may, in addition to or instead of, be based on other criteria determined by
  the institution making the award. The amount of an award shall be determined by the institution making the award; however, the
  Council shall annually be notified as to the maximum size of a graduate award that is paid from funds in the appropriation.
- b) A student receiving a graduate award paid from the appropriation must be duly admitted into a graduate degree program at the institution making the award.

c) Not more than 50 percent of the funds designated by an institution as graduate grants from the appropriation, and approved
 as such by the Council, shall be awarded to persons not eligible to be classified as Virginia domiciliary resident students except
 in cases where the persons meet the criteria outlined in § 4-2.01b.6.

4. Matching Funds: Any institution of higher education may, with the approval of the Council, use funds from its appropriation
for fellowships and scholarships to provide the institutional contribution to any student financial aid program established by the
federal government or private sources which requires the matching of the contribution by institutional funds, except for
programs requiring work.

**8** 5. Discontinued Loan Program:

a) If any federal student loan program for which the institutional contribution was appropriated by the General Assembly is
discontinued, the institutional share of the discontinued loan program shall be repaid to the fund from which the institutional
share was derived unless other arrangements for the use of the funds are recommended by the Council and approved by the
Department of Planning and Budget. Should the institution be permitted to retain the federal contributions to the program, the

#### 40 § 4-8.03 LOCAL GOVERNMENTS

41 a.1. The Auditor of Public Accounts shall establish a workgroup to develop criteria for a preliminary determination that a local government may be in fiscal distress. Such criteria shall be based upon information regularly collected by the Commonwealth or 42 otherwise regularly made public by the local government. This information includes expenditure reports submitted to the Auditor, 43 44 budget information posted on local government websites, and reports prepared by the Commission on Local Government on revenue 45 fiscal stress. Information provided by the Virginia Retirement System, the Virginia Resources Authority, the Virginia Public 46 Building Authority, and other state and regional authorities concerning late or missed debt service payments shall be shared with the 47 Auditor. Fiscal distress as used in this context shall mean a situation whereby the provision and sustainability of public services is 48 threatened by various administrative and financial shortcomings including but not limited to cash flow issues; inability to pay 49 expenses; revenue shortfalls; deficit spending; structurally imbalanced budgets; billing and revenue collection inadequacies and 50 discrepancies; debt overload; failure to meet obligations to authorities, school divisions, or political subdivisions of the 51 Commonwealth; and/or lack of trained and qualified staff to process administrative and financial transactions. Fiscal distress may be 52 caused by factors internal to the unit of government or external to the unit of government and in various degrees such conditions

53 may or may not be controllable by management, or the local governing body, or its constitutional officers.

2. Based upon the criteria established by the workgroup and using information identified above, the Auditor of Public Accounts
 shall establish a prioritized early warning system. Under the prioritized early warning system, the Auditor of Public Accounts
 shall establish a regular process whereby it reviews data on at least an annual basis to make a preliminary determination that a
 local government is in fiscal distress.

5 3. For local governments where the Auditor of Public Accounts has made a preliminary determination of fiscal distress based upon the early warning system criteria, the Auditor of Public Accounts shall notify the local governing body of its preliminary 6 7 determination that it may meet the criteria for fiscal distress. Based upon the request of the local governing body or chief executive officer, the Auditor of Public Accounts may conduct a review and request documents and data from the local 8 9 government. Such review shall consider factors including, but not limited to, budget processes, debt, borrowing, expenses and payables, revenues and receivables, and other areas including staffing, and the identification of external variables contributing 10 to a locality's financial position, and if so, the scope of the issues involved. Any local governing body that receives requests for 11 information from the Auditor of Public Accounts pursuant to such preliminary determination based on the above described 12 13 threshold levels shall acknowledge receipt of such a request and shall ensure that a response is provided within the time frames 14 specified by the Auditor of Public Accounts. After such review, if the Auditor of Public Accounts is of the opinion that state 15 assistance, oversight, or targeted intervention is needed, either to further assess, help stabilize, or remediate the situation, the 16 Auditor shall notify the Governor and the Chairmen of the House Appropriations and Senate Finance and Appropriations 17 Committees, and the governing body of the local government in writing outlining specific issues or actions that need to be 18 addressed by state intervention.

4. The notification issued by the Auditor of Public Accounts pursuant to paragraph 3 above shall satisfy the notificationrequirement necessary to effectuate the provisions of this act in paragraph b.3 below.

b.1. The Director of the Department of Planning and Budget shall identify any amounts remaining unexpended from general
 fund appropriations in this Act as of June 30 of each year, which constitute state aid to local governments. The Director shall
 provide a listing of such amounts designated by item number and by program on or before August 15 of each year, to the
 Governor and the Chairmen of the House Appropriations Committee and the Senate Finance and Appropriations Committee.

25 2. From such unexpended balances identified by the Director of the Department of Planning and Budget, the Governor may
26 reappropriate up to \$750,000 from amounts which would otherwise revert to the balance of the general fund and transfer such
27 amounts as necessary to establish a component of fund balance which may be used for the purpose of providing technical
28 assistance and intervention actions for local governments deemed to be fiscally distressed and in need of intervention to address
29 such distress. Any such reappropriation approved by the Governor, shall be separately identified in the commitments specified
30 on the balance sheet and financial statements of the State Comptroller for the close of each fiscal year, to the extent that such
31 reserve is not used or added to by future appropriation actions.

32 3. Prior to any expenditure of the reappropriated reserve, the Governor and the Chairmen of the House Appropriations 33 Committee and the Senate Finance and Appropriations Committee must receive a notification from the Auditor of Public 34 Accounts that a specific locality is in need of intervention because of a worsening financial situation. The Auditor of Public 35 Accounts may issue such a notification upon receipt of audited financial statement or other information that indicates the existence of fiscal distress. But, no such notification shall be made until appropriate follow up and correspondence ascertains 36 37 that, in the opinion of the Auditor of Public Accounts, such fiscal distress indeed exists. Such notification may also be issued by the Auditor of Public Accounts if written concerns raised about fiscal distress are not adequately addressed by the locality in 38 39 question.

40 4. Once the Governor has received a notification from the Auditor of Public Accounts indicating fiscal distress in a specific 41 local government, the Governor shall consult with the Chairmen of the House Appropriations Committee and the Senate 42 Finance and Appropriations Committee about a plan for state intervention prior to any expenditure of funds from the cash 43 reserve. Any plan approved by the Governor for intervention should, at a minimum, specify the purpose of such intervention, the estimated duration of the intervention, and the anticipated resources (dollars and personnel) directed toward such effort. The 44 45 staffing necessary to carry out the intervention plan may be assembled from either public agencies or private entities or both 46 and, notwithstanding any other provisions of law, the Governor may use an expedited method of procurement to secure such 47 staffing when, in his judgment, the need for intervention is of an emergency nature such that action must be taken in a timely 48 manner to avoid or address unacceptable financial risks to the Commonwealth.

49 5. The governing body and the elected constitutional officers of a locality subject to an intervention plan approved by the 50 Governor shall assist all state appointed staff conducting the intervention regardless of whether such staff are from public 51 agencies or private entities. Intervention staff shall provide periodic reports in writing to the Governor and the Chairmen of the 52 House Appropriations Committee and the Senate Finance and Appropriations Committee outlining the scope of issues 53 discovered and any recommendations made to remediate such issues, and the progress that is made on such recommendations 54 or other remediation efforts. These periodic reports shall specifically address the degree of cooperation the intervention team is 55 receiving from locally elected officials, including constitutional officers, city, county, or town managers and other local 56 personnel in regards to their intervention work.

57 6. The Department of General Services is hereby encouraged to develop a master contract of qualified private sector turnaround

specialists with expertise in local government intervention that the Governor can use to procure intervention services in an
 expeditious manner when he determines that state intervention is warranted in situations of local fiscal distress.

#### 8 § 4-9.04 IMPLEMENT JLARC RECOMMENDATIONS

9 a. The Boards of Visitors at each Virginia public four-year higher education institution, to the extent practicable, shall:

10 1. require their institutions to clearly list the amount of the athletic fee on their website's tuition and fees information page. The page
 11 should include a link to the State Council of Higher Education for Virginia's tuition and fee information. The boards should consider
 12 requiring institutions to list the major components of all mandatory fees, including the portion attributable to athletics, on a separate
 13 page attached to student invoices;

2. assess the feasibility and impact of raising additional revenue through campus recreation and fitness enterprises to reduce reliance
 on mandatory student fees. The assessments should address the feasibility and impact of raising additional revenue through charging
 for specialized programs and services, expanding membership, and/or charging all users of recreation facilities;

3. direct staff to perform a comprehensive review of the institution's organizational structure, including an analysis of spans of
 control and a review of staff activities and workload, and identify opportunities to streamline the organizational structure. Boards
 should further direct staff to implement the recommendations of the review to streamline their organizational structures where
 possible;

21 4. require periodic reports on average and median spans of control and the number of supervisors with six or fewer direct reports;

5. direct staff to revise human resource policies to eliminate unnecessary supervisory positions by developing standards that
establish and promote broader spans of control. The new policies and standards should (i) set an overall target span of control for the
institution, (ii) set a minimum number of direct reports per supervisor, with guidelines for exceptions, (iii) define the circumstances
that necessitate the use of a supervisory position, (iv) prohibit the establishment of supervisory positions for the purpose of recruiting
or retaining employees, and (v) establish a periodic review of departments where spans of control are unusually narrow; and,

- 6. direct institution staff to set and enforce policies to maximize standardization of purchases of commonly procured goods, including use of institution-wide contracts;
- 29 7. consider directing institution staff to provide an annual report on all institutional purchases, including small purchases, that are
   30 exceptions to the institutional policies for standardizing purchases;
- **31** 8. participate in national faculty teaching load assessments by discipline and faculty type.
- 32 b. The State Council on Higher Education for Virginia, to the extent practicable, shall:

33 1. convene a working group of institution financial officers, with input from the Department of Accounts, the Department of

34 Planning and Budget, and the Auditor of Public Accounts, to create a standard way of calculating and publishing mandatory non-

**35** E&G fees, including for intercollegiate athletics;

2. update the state's Chart of Accounts for higher education in order to improve comparability and transparency of mandatory non E&G fees, with input from the Department of Accounts, the Department of Planning and Budget, the Auditor of Public Accounts, and institutional staff. This process should be coordinated with the standardization of tuition and fee reporting;

39 3. convene a working group of institutional staff to develop instructional and research space guidelines that adequately measure
 40 current use of space and plans for future use of space at Virginia's public higher education institutions;

41 4. coordinate a committee of institutional representatives, such as the previously authorized Learning Technology Advisory
42 Committee. In addition to the objectives set out in the Appropriation Act for the Learning Technology Advisory Committee, the
43 committee should identify instructional technology initiatives and best practices for directly or indirectly lowering institutions'
44 instructional expenditures per student while maintaining or enhancing student learning;

45 5. include factors such as discipline, faculty rank, cost of living, and regional comparisons in developing faculty salary goals;

46 6. identify instructional technology best practices that directly or indirectly lower student cost while maintaining or enhancing47 learning.

48 c. Notwithstanding the provisions of § 23.1-1304, the State Council of Higher Education for Virginia shall annually train boards of

visitors members on the types of information members should request from institutions to inform decision making, such as
 performance measures, benchmarking data, the impact of financial decisions on student costs, and past and projected cost
 trends. Boards of Visitors members serving on finance and facilities subcommittees should, at a minimum, participate in the
 training within their first year of membership on the subcommittee. SCHEV should obtain assistance in developing or
 delivering the training from relevant agencies such as the Department of General Services and past or present finance officers at
 Virginia's public four-year institutions, as appropriate.

d. The Department of Planning and Budget shall revise the formula used to make allocation recommendations for the state's
 maintenance reserve funding to account for higher maintenance needs resulting from poor facility condition, aging of facilities,
 and differences in facility use.

e. The Six-Year Capital Outlay Plan Advisory Committee, the Department of Planning and Budget, and others as appropriate
shall use the results of the prioritization process established by the State Council of Higher Education for Virginia in
determining which capital projects should receive funding.

- f. Beginning with fiscal year 2016, the Auditor of Public Accounts shall include in its audit plan for each public institution of
   higher education a review of progress in implementing the JLARC recommendations contained in paragraph § 4-9.04 a.
- 15

#### § 4-11.00 STATEMENT OF FINANCIAL CONDITION

§ 4-12.00 SEVERABILITY

Each agency head handling any state funds shall, at least once each year, upon request of the Auditor of Public Accounts, make
 a detailed statement, under oath, of the financial condition of his office as of the date of such call, to the Auditor of Public
 Accounts, and upon such forms as shall be prescribed by the Auditor of Public Accounts.

#### 19

# If any part, section, subsection, paragraph, sentence, clause, phrase, or item of this act or the application thereof to any person or circumstance is for any reason declared unconstitutional, such decisions shall not affect the validity of the remaining portions of this act which shall remain in force as if such act had been passed with the unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, item or such application thereof eliminated; and the General Assembly hereby declares that it would have passed this act if such unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, or item had not been included herein, or if such application had not been made.

#### 26

#### § 4-13.00 CONFLICT WITH OTHER LAWS

Notwithstanding any other provision of law, and until June 30, 2026, the provisions of this act shall prevail over any conflicting provision of any other law, without regard to whether such other law is enacted before or after this act; however, a conflicting provision of another law enacted after this act shall prevail over a conflicting provision of this act if the General Assembly has clearly evidenced its intent that the conflicting provision of such other law shall prevail, which intent shall be evident only if such other law (i) identifies the specific provision(s) of this act over which the conflicting provision of such other law is intended to prevail and (ii) specifically states that the terms of this section are not applicable with respect to the conflict between the provision(s) of this act and the provision of such other law.

34

#### § 4-14.00 EFFECTIVE DATE

**35** This act is effective on July 1, 2024.

36

## ADDITIONAL ENACTMENTS

2. That the provisions of the first enactment of 2019 Acts of Assembly, Chapter 808, shall apply to taxable years beginning
on and after January 1, 2019, but before January 1, 2028, notwithstanding the second enactment of such act or any
provision of law or regulation to the contrary.

#### 40 3. That § 58.1-1802.1 of the Code of Virginia is amended and reenacted as follows:

41 § 58.1-1802.1. Period of limitations on collection; accrual of interest and penalty.

42 A. Where the assessment of any tax imposed by this subtitle has been made within the period of limitation properly applicable 43 thereto, such tax may be collected by levy, by a proceeding in court, or by any other means available to the Tax Commissioner 44 under the laws of the Commonwealth, but only if such collection effort is made or instituted within seven years from the date of 45 the assessment of such tax. Except as otherwise provided in this section, effective for assessments made on and after July 1, 2016, 46 all collection efforts shall cease after such seven-year period even if initiated during the seven-year period. Prior to the expiration 47 of any period for collection, the period may be extended by a written agreement between the Tax Commissioner and the taxpayer, 48 and subsequent written agreements may likewise extend the period previously agreed upon. The period of limitations provided in 49 this subsection during which a tax may be collected shall not apply to executions, levy or other actions to enforce a lien created 50 before the expiration of the period of limitations by the docketing of a judgment or the filing of a memorandum of lien pursuant to

**51** § 58.1-1805; nor shall the period of limitations apply to the provisions of §§ 8.01-251 and 8.01-458.

B. The running of the period of limitations on collection shall be suspended for (i) the period the assessment is the subject of a
 proceeding pursuant to § 58.1-1807, 58.1-1821, 58.1-1825, or 58.1-1828; (ii) the period the assets of the taxpayer are in the control or
 custody of any state or federal court, including the United States Bankruptcy Court; or (iii) the period that an installment agreement
 entered into by the taxpayer pursuant to § 58.1-1817 is in effect.

C. If the Department of Taxation has no contact with the delinquent taxpayer for a period of six years and no memorandum of lien has
been appropriately filed in a jurisdiction in which such taxpayer owns real estate, interest and penalty shall no longer be added to the
delinquent tax liability. The mailing of notices by the Department to the taxpayer's last known address shall constitute contact with the
taxpayer.

D. For purposes of this section, the "last known address" of the taxpayer means the address shown on the most recent return filed by or
 on behalf of the taxpayer or the address provided in correspondence by or on behalf of the taxpayer indicating that it is a change of the
 taxpayer's address.

E. In any pending or future administrative or judicial proceeding in which the validity of a tax assessment is an issue, the participation
 of the Department of Taxation in any capacity shall be considered a collection effort for purposes of this section.

- 14 4. That the provisions of the first enactment of this act shall expire at midnight on June 30, 2026.
- 15 5. That the provisions of the second enactment of this act shall have no expiration date.
- 16 6. That the provisions of the third enactment of this act are declarative of existing law and shall have no expiration date.
