Special	\$3,092,484	\$3,092,484
Federal Trust	\$24,631,665	\$24,739,152

Authority: Title 63.1, Chapter 1, Code of Virginia; P.L. 104-193, Federal Code, as amended.

A. The Commissioner of the Department of Social Services (DSS) and the Secretaries of Administration and Health and Human Resources shall develop an automated system for eligibility and service programs that include Aid to Families with Dependent Children, Food Stamps, and Medicaid. The maximum use of federal funds for this purpose shall be explored.

B.1. To provide adequate oversight of the implementation of automated systems, and to ensure coordination with local social services agencies, the Department of Social Services shall maintain a Local Information Technology Planning Committee. The Committee shall include one representative each from the Council on Information Management, the Department of Information Technology, the Department of Social Services, the Department of Medical Assistance Services, and the Joint Legislative Audit and Review Commission, and at least five local social services personnel to be selected by the Virginia League of Social Service Executives. The Committee shall provide advice to the Commissioner on all computer and telecommunications systems operated by the Department in support of programs administered by local social services agencies.

2. The Department shall retain the services of a qualified independent contractor with appropriate experience in information technology project management and systems integration to perform periodic audits of the performance of the ADAPT project. Such audits shall be conducted under the direction of the DSS Local Information Planning Committee and shall include, but not be limited to, the progress of the project in terms of:

(a) planned versus actual work plan activities; (b) milestones and deliverables, (c) critical path activities, (d) execution of risk reduction activities, and (e) application of any contingency plans. The audit contractor shall report audit exceptions in a timely manner, note any areas of concern, and recommend remedial actions. At least semi-annually, the audit contractor shall issue a written report including audit findings, recommendations, and the results to date of any follow-up actions by the Department. The contractor shall distribute such reports to the Commissioner of Social Services, the DSS Local Information Technology Planning Committee, the Governor, the Department of Planning and Budget, the Council on Information Management, and the Chairmen of the Senate Finance and House Appropriations Committees.

3. The Department of Social Services shall own hardware and database management software purchased with funds appropriated to it. The Department of Information Technology may charge the Department of Social Services for operations and maintenance of such equipment and products but may not include any portion of the purchase price in the calculation of such charges. The Department of Information Technology may not use or sell the excess capacity resulting from these purchases.

C. As a condition of the appropriation for this item, pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law No. 104-193, the Department shall, in cooperation with local departments of social services, develop a request for a waiver of the work requirement for Food Stamp recipients residing in areas that do not have a sufficient number of jobs to provide employment for such individuals, including those areas designated as labor surplus areas by the U.S. Department of Labor.

D. The Department, in consultation with welfare recipients and welfare advocates, shall prepare and distribute brochures, videos, and other community education materials to explain fully, concisely, and simply the rights and responsibilities of welfare applicants and recipients under the Virginia Independence Program and the Virginia Initiative for Employment not Welfare.

E. The Department of Social Services, in cooperation with local departments of social services, shall study methods for improving incentives for participants in the Virginia Initiative for Employment not Welfare (VIEW) and other recipients of benefits through the Temporary Assistance to Needy Families (TANF) block grant to continue to work and save after their two-year benefit period has expired. The study shall include, but not be limited to, assessing (1) the feasibility of requiring direct deposit of welfare benefits, (2) the feasibility and benefits of creating economic literacy programs through local social services offices, (3) the creation of programs to encourage banks in the Commonwealth to offer special accounts without service charges for TANF recipients and to cash state benefit checks, and (4) other incentives.

F. The Commissioner, in conjunction with the Virginia League of Social Service Executives, shall study a system of workload measures for use as the basis for reimbursement to local departments, and provide a report to the Governor and Chairmen of the House Appropriations and Senate Finance Committees by November 1, 1998.
