| Federal Trust   | \$1,737,979         | \$1,737,979          |

---

Authority: Title 10.1, Chapters 11.1 and 13, and Title 62.1, Chapter 3.1, 3.2, and 24, Code of Virginia.

A. This item includes \$450,000 the first year and \$450,000 the second year from the general fund to monitor water quality in the Elizabeth River. These funds shall be used to establish toxins analysis capabilities with the purpose of analyzing ambient water conditions in the Elizabeth River, collecting biological samples, and monitoring the performance of proposed best management practices.

B.1. This item includes \$700,000 the first year and \$700,000 the second year from the general fund for additional statewide water quality monitoring. The funds shall be used to develop and implement consistent site and monitoring techniques to ensure reliability and to determine trends; increase frequency and amount of toxins analysis, biological monitoring, and fish tissue sampling; expand the number of river miles monitored; and ensure the monitoring of all four conventional pollutants at all stations.

2. If the Department determines it is more efficient and effective to contract for laboratory services, the Department is authorized to do so. However, the Department shall not enter into a contract with a private laboratory that has a conflict of interest because of contractual or other relationships with Virginia facilities regulated by the Department. In addition, any private laboratory that enters into a contract with the Department for water quality monitoring shall comply with the provisions of Chapter 652, 1997 Acts of Assembly.
