Item 4-5.05

§ 4-5.05 SERVICES AND CLIENTS

a. b. NEW SERVICES:

1. No state agency shall begin any new service that will call for future additional property, plant or equipment or that will require an increase in subsequent general or nongeneral fund operating expenses without first obtaining the authorization of the General Assembly. However, the Governor may in writing authorize new services within the amounts and general purposes of the appropriations authorized by this act.

2. Pursuant to the policies and procedures of the State Council of Higher Education regarding approval of academic programs and the concomitant enrollment, no state institution of higher education shall operate any academic program with funds in this act unless approved by the Council and included in the Executive Budget, or approved by the General Assembly. The Council may grant exemptions to this policy in exceptional circumstances.

3. Reporting on all new services shall be in accordance with § 4-8.00, Reporting Requirements.

c. OFF-CAMPUS SITES OF INSTITUTIONS OF HIGHER EDUCATION:

No state institution of higher education shall establish any off-campus site without the prior approval of the State Council of Higher Education for Virginia. For the colleges of the Virginia Community College System, the State Board for Community Colleges shall be responsible for approving off-campus site offerings. Activities governed by this requirement are those at locations not contiguous to the main campus of the institution where credit or noncredit offerings are provided and for which full-time, part-time, or resident staff are employed unless specific appropriations identifying the additional activities have been made. Planning shall not be initiated for any new campus nor any operations begin at a new campus without first referring the matter to the State Council of Higher Education for Virginia for information, consideration, and recommendation to the Governor and General Assembly and without subsequent prior approval of the General Assembly.
