A. There is hereby reappropriated the unexpended balances remaining on June 30, 2002 and June 30, 2003.

B. The process established by Executive Order 76(01) for review and approval of matters related to the development and implementation of a statewide-shared land mobile radio system shall be continued. The Department of State Police shall, based upon the review and approval of the Management Team established by the Executive Order, report to the General Assembly the funding requirements for the implementation of a statewide-shared land mobile radio system.

C.1. It is the intent of the General Assembly that wireless 911 calls be delivered directly by the Commercial Mobile Radio Service (CMRS) provider to the local Public Safety Answering Point (PSAP), in order that such calls be answered by the local jurisdiction within which the call originates, thereby minimizing the need for call transfers whenever possible.

2. Notwithstanding the provisions of Article 7, Chapter 15, Title 56, Code of Virginia, \$2,700,000 from the Wireless E-911 Fund each year is included in this appropriation for telecommunications to offset dispatch center operations and related costs incurred for answering wireless 911 telephone calls.

D. Out of the Motor Carrier Special Fund, \$900,000 the first year and \$900,000 the second year shall be provided to the Department of State Police.
