Authority: § [58.1-202.2](#), Code of Virginia.

1.a. Pursuant to § [58.1-202.2](#), Code of Virginia, the Tax Commissioner is hereby authorized, through the Department of General Services in accordance with the Virginia Public Procurement Act, to enter into public/private partnership contracts to finance technology needs and related goods and services. Compensation for all goods and services to be provided under a contract shall be paid exclusively from increased revenue, including, without limitation, denied refunds and reduced interest on refunds attributable to the revenue generating portion of the goods and services provided by the contractor, and need not otherwise be computed with reference to such increased revenue.

b. Provided however, that any enlargement of the scope and cost of any public/private partnership contract authorized by § [58.1-202.2](#), Code of Virginia, shall be reported to the Chairmen of the Senate Finance and House Appropriations Committees prior to execution of said contract revision.

2.a. The Tax Commissioner shall annually or more frequently determine the total amount of increased revenue attributable to such technology. Annually, the Tax Commissioner shall report to the Governor and the General Assembly on all such agreements and revenue impact. The State Comptroller is hereby authorized to deposit annually or more frequently such increased revenues attributable to such technology into a nonreverting Technology Partnership Fund, from which the private partner shall be paid. The Tax Commissioner may draw from such Fund as often as necessary to make contractually required payments to private partners. In order to avoid the payment of interest to the private partner, a treasury loan shall be advanced to the Partnership Fund in the amount of any invoice submitted by the private partner that is deemed payable, if sufficient funds are not available in the Partnership Fund to pay the invoice. Any such treasury loan advanced shall be repaid immediately from the next deposit to the Partnership Fund. However, the interest payable on any funds that the Department holds back as a guarantee against operational defects can be paid from interest earned on the hold-back, combined with any other funds that are available to the Department. At the end of the contracts any balance in the Fund in excess of potential payment obligations under such contracts shall be deposited to the appropriate general, nongeneral, or local fund. Notwithstanding the provisions of § [58.1-202.2](#), Code of Virginia, the Tax Commissioner in the first year is authorized to expend up to ten percent, an amount estimated at \$3,510,000, and in the second year up to thirty percent, an amount estimated at \$10,530,000, of the moneys deposited into the Fund to support expenses incurred by the Department attributable to the public-private partnership.

b. The Tax Commissioner shall submit to the Department of Planning and Budget annually by August 1, a spending plan for the Department's share of the Fund. A copy of the spending plan shall be submitted to the Chairmen of the Senate Finance and House Appropriations Committees by August 1 of each year. The Department of Planning and Budget shall allot the Department's share of the Fund quarterly, subject to the prior approval of the Department's spending plan. The Department of Planning and Budget shall monitor compliance with the Department's approved spending plan.

3. Periodic progress reviews will be conducted by an independent contractor on the Public/Private Partnership Project authorized by § [58.1-202.2](#), Code of Virginia.
