Furthermore, the Governor may include a recommendation for funding such project for consideration by the General Assembly at its 2008 Session. Included within the required submissions to the Department from Brunswick County shall be an analysis and report indicating the costs and benefits to the county and the state, including long-term operating costs, of joining a regional jail, and documentation that the county has determined whether or not there is interest among surrounding jurisdictions in developing a regional jail project or interest from adjacent regional authorities of allowing Brunswick County to join the regional jail authority or board.

Furthermore, the Governor may include a recommendation for funding such project for consideration by the General Assembly at its 2008 session. The City of Roanoke shall explore the feasibility of joining the Western Virginia Regional Jail Authority as part of the planning process or expanding its existing jail. The Board of Corrections shall not approve or commit additional funds for the state share of the cost of construction, enlargement, or renovation of a local or regional jail facility, except when such project is consistent with the projected number of local and state responsible offenders to be housed in such facility.
2. The Department of Corrections shall establish a working group to provide technical assistance, upon request of the department, in evaluating the population projections that are used to justify the need for additional regional and local jail construction. The department is authorized to request assistance from the State Compensation Board, Department of Corrections, Department of Juvenile Justice, Joint Legislative Audit and Review Commission, and the Virginia Criminal Sentencing Commission.
- C. The Board of Corrections shall not approve or commit additional funds for the state share of the cost of construction, enlargement, or renovation of a local or regional jail facility, except when such project is proposed to be built using Community Custody Facilities Standards, as adopted by the Board, unless the use of more expensive construction standards is justified, based on a documented projection of offender populations that would require a higher level of security.
- D.1. No city, county, town or regional jail shall authorize the construction, remodeling, renovation or rehabilitation of any facility to house any inmate in secure custody which results in increased jail capacity without the prior approval of the Board of Corrections.
2. Any facility operated by any local or regional jail in the Commonwealth which houses any inmate in secure custody shall be subject to the provisions of §§ 53.1-5 and 53.1-68, Code of Virginia, as well as all rules, regulations, and inspections established by the Board of Corrections.
