The Secretary is directed to report annually not later than August 31 to the Chairmen of the Senate Finance and House Appropriations Committees regarding any guidelines implemented and any allocations made pursuant to this paragraph.

C. Out of this appropriation, \$600,000 the first year from the general fund is designated to plan for the development and implementation of innovative education programs and to promote greater cooperation and coordination among institutions of higher education in developing programs for students in preschool to grade 12 through the establishment of College Partnership Laboratory Schools pursuant to Chapter 871 of the 2010 Acts of Assembly. E. The Secretary of Education, in consultation with the Virginia Community College System and the Board of

Education, is authorized to coordinate with other stakeholders from school divisions, higher education institutions, and the private business sector to consider and review potential planning steps necessary to develop and implement a conceptual model for an Integrated School of the Future. Elements of the new blended model for a school campus would include, but not be limited to, a cohesive approach to learning that infuses engineering and mathematical principles across all curriculum areas and a focus on providing state-of-the-art technology learning opportunities that ensure both secondary and post-secondary students will be equipped for the demands of the current and future workplace.

F. The Secretary of Education, with the support of the Department of Education, shall conduct a study of the formula used to determine governor's school payments. The study shall include, but not be limited to, consideration of the length of the program, appropriate state and local shares, and the academic model used by governor's schools in the configuration of the funding formula.
