Overcrowding for these purposes shall be defined as when the average annual daily population exceeds the operational capacity. In those jails experiencing overcrowding, the board may allocate one additional jail deputy for every five average annual daily prisoners above operational capacity. Should overcrowding be reduced or eliminated in any jail, the Compensation Board shall reallocate positions previously assigned due to overcrowding to other jails in the Commonwealth that are experiencing overcrowding.

The allocation of such positions, established by the Governor and General Assembly in Item 73 of this act, shall be determined by the Compensation Board on an annual basis. The annual allocation of these positions to local sheriffs' offices shall be based upon the most recent final population estimate for the locality that is available to the Compensation Board at the time when the agency's annual budget request is completed. The source of such population estimates shall be the Weldon Cooper Center for Public Service of the University of Virginia or the United States Bureau of the Census.
