A.1. It is the intent of the General Assembly that wireless 911 calls be delivered directly by the Commercial Mobile Radio Service (CMRS) provider to the local Public Safety Answering Point (PSAP), in order that such calls be answered by the local jurisdiction within which the call originates, thereby minimizing the need for call transfers whenever possible.

B. Out of the Motor Carrier Special Fund, \$900,000 the first year and \$900,000 the second year shall be disbursed on a quarterly basis to the Department of State Police.

C.1. This appropriation includes \$9,175,535 the first year and \$9,175,535 the second year from the general fund for maintaining the Statewide Agencies Radio System (STARS).

2. E. Notwithstanding the provisions of §§ 19.2-386.14, 38.2-415, 46.2-1167 and 52-4.3, Code of Virginia, the Department of State Police may use revenue from the State Asset Forfeiture Fund, the Insurance Fraud Fund, the Drug Investigation Trust Account – State, and the Safety Fund to modify, enhance or procure automated systems that focus on the Commonwealth's law enforcement activities and information gathering processes.

F. The Superintendent of State Police is authorized to and shall establish a policy and reasonable fee to contract for the bulk transmission of public information from the Virginia Sex Offender Registry. Any fees collected shall be deposited in a special account to be used to offset the costs of administering the registry. J.1. The Department of State Police separation from information technology services currently provided by Northrop Grumman is estimated to increase rates paid by all remaining executive branch agencies. To offset a rate increase, the Department of State Police shall continue to be responsible for certain enterprise and contractual costs.

The costs described in this paragraph shall include, but not exceed, the Department of State Police's share of enterprise-wide fixed contractual fees and related costs billed to the Commonwealth as part of the information technology services currently provided by Northrop Grumman; the Department of State Police's share of enterprise costs borne by the Virginia Information Technologies Agency for oversight, governance, and operations of the enterprise; and any contractual fees incurred by the Department of State Police as a result of their separation from information technology services currently provided by Northrop Grumman.

5. The Virginia Information Technologies Agency shall cease billing the Department of State Police for the charges described in this paragraph for a given enterprise service tower on a rolling basis as each respective enterprise service tower or portion thereof is disentangled by the Commonwealth from Northrop Grumman and related separation activities are complete.

K. Out of this appropriation, \$5,935,000 the second year from the general fund is provided to support the Department of State Police to assume full responsibility for developing, operating, and managing all information technology services if the Department is exempted from consolidating its information technology services within the Virginia Information Technologies Agency.
