In selecting projects, priority shall be given to crops for which a commercial processor(s) or packer(s), operates within Virginia, and due to the specialty crop not currently being commercially grown in Virginia, this crop is currently imported into Virginia. If the department finds any such impediments exist, it shall encourage local farmer's markets to revise their guidelines to ensure that Virginia products are given first preference, regardless of the distance from the particular market. In instances where a local Virginia grown product already is selling at a particular market, competitors from across the state should be allowed to sell their Virginia grown products provided there are no objections submitted by competing Virginia sellers.
