--	---------------------	------------

Fund Sources:

Special	\$30,000,000	\$0
---------	--------------	-----

---

There is hereby appropriated \$30,000,000 the first year from nongeneral funds to the Department of Military Affairs to mitigate physical impacts to buildings and the grounds at the State Military Reservation (SMR) in Virginia Beach, Virginia, as a result of the Coastal Virginia Offshore Wind (CVOW) project. The Department shall use the funds to plan, design, and construct an indoor firing range and a parking facility for military vehicles and equipment at the SMR, including project management and associated costs. The source of the nongeneral funds is derived from the Deed of Easement and Cable Landing Agreement between the Commonwealth of Virginia and the Virginia Electric and Power Company (Dominion) related to the CVOW project. The Department shall only use these nongeneral funds for the two projects delineated in this language and not proceed with any other SMR-related capital or non-capital projects that would require state funds for completion without specific authorization from the General Assembly. The Department shall submit a report on the use of these funds including the total amount spent for each project and a description of each project's status, to the Director of the Department of Planning and Budget and the Chairs of the House Appropriations Committee and the Senate Finance and Appropriations Committee by October 15 of each year.
