

Report of the Subcommittee on  
Special Projects

(Senate Bill 800, As Introduced)

Senate Finance Committee  
Virginia General Assembly

February 7, 1999

Members of the Committee:

Serving as your subcommittee on Special Projects, we have reviewed over \$66.8 million in requests for state grants to support historic landmarks and non-state agencies throughout the Commonwealth.

While we all agree that these organizations are of great value to our communities and the Commonwealth as a whole, we found the level of expenditure embodied in these requests to be more than could be accommodated. State programs must have first call on the limited state resources that are available to us.

With this thought in mind, we reviewed all of these requests for state assistance -- including those in the budget as introduced -- with a critical eye. We are pleased to recommend to you a package of amendments totaling just over \$10.2 million for the biennium. These amendments will bring the total appropriated for our cultural heritage to just over \$61.8 million for the biennium

We hope it will be your pleasure to adopt them.

Respectfully Submitted,

---

The Honorable John H. Chichester

---

The Honorable Stanley C. Walker
