REPORT OF THE SUBCOMMITTEE
on
GENERAL GOVERNMENT AND TECHNOLOGY

Mr. Chairman and Members of the Committee:

This Subcommittee's work has focused on three objectives. First, making investments in critical programs for which the Commonwealth is primarily responsible; second, identifying savings in the legislature that could be redirected to the Committee's priorities and, third the establishment of a reserve fund. I am pleased to present to you today a series of amendments supporting these goals.

Mr. Chairman, as you know the Commonwealth has made significant strides in recent years in making the concept of "justice for all" a reality in the Commonwealth of Virginia. During recent years we have approved significant funding increases for our indigent defense systems. Our recommended budget builds on these investments by providing resources to increase the staff and salaries for public defenders offices and by providing an additional \$7.5 million to the criminal fund in order to increase reimbursements to court appointed attorneys consistent with House Bill 2361.

As we begin our celebration of the 400th anniversary of the Jamestown Settlement the subcommittee is also recommending funding in order to begin planning for the commemoration of the 150th anniversary of the Civil War. Specifically we are recommending \$2.2 million for event planning and matching funds for the construction of a visitor center and museum.

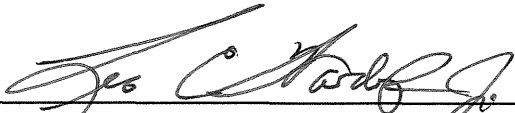

While we have strived to provide funding where needed, the Subcommittee has diligently worked to identify opportunities for savings and efficiencies when available. To that end, the Subcommittee has identified several saving recommendations in the legislative branch, specifically, the Subcommittee recommends

reverting \$6.7 million in unexpended balances from legislative agencies, including \$2.5 million from the Clerk of the House of Delegates' office. Other legislative savings include transferring the Crime Commission staff to the Division of Legislative Services, which will save \$300,000 annually.

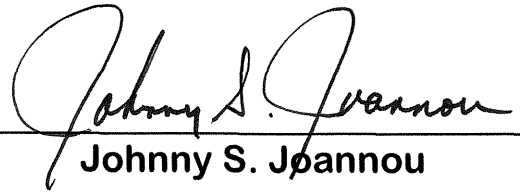

Finally Mr. Chairman, through your leadership we are recommending the establishment of a reserve fund. This \$50 million appropriation will be held in reserve until such time as the Governor certifies that the general fund revenue estimates initially included in HB 1650 have been met. This is consistent with the fiscal prudence that is the hallmark of this Committee.

Mr. Chairman and fellow Committee members, I will ask staff to take you through our detailed recommendations, and then I hope it will be your pleasure to adopt our Subcommittee report.

Respectfully Submitted by the House Appropriations Subcommittee
