House Appropriations
Subcommittee*

on

General Government

House Bill 1600

February 8, 2009

REPORT OF THE SUBCOMMITTEE
on
GENERAL GOVERNMENT

Mr. Chairman and Members of the Committee:

This Subcommittee's work has focused on two objectives. First, was to identify additional savings that are appropriate and would not negatively impact service to the citizens of the Commonwealth. Second, we focused on mitigating cuts proposed in the Governor's budget, which we felt would substantially impair the ability of our local Constitutional Officers to perform their responsibilities. I am pleased to present to you today a series of recommendations supporting these two goals.

Mr. Chairman, our first effort was to ensure that both the legislative, as well as the judicial branch, were equal partners with the executive branch in our efforts to manage and balance the budget while providing our citizens with the high quality services they need and deserve. To that end, the Subcommittee is pleased to recommend savings strategies within the Legislature in excess of \$7.1 million. These savings have been identified after a thorough examination by the legislative agency heads at the direction of Speaker Howell.

In addition, the Subcommittee is recommending savings actions within the judicial branch in excess of \$13.4 million. We are confident these savings will not adversely

affect the judiciary's ability to perform its core responsibilities.

Mr. Chairman, our scrutiny did not end with the legislative and judicial branches. We continued to assess the budgets under the subcommittee's purview with an eye towards this single question, is it a core responsibility of state government? Consequently, we are recommending \$4.0 million in reduced funding for public television and radio grants. We want to emphasize that we do value the contribution public television and radio stations provide to the Commonwealth. However, faced with the extremely difficult reductions proposed throughout the entire budget, we feel compelled to make this recommendation.

While we have concentrated the majority of our efforts on identifying savings opportunities to help us balance the budget, we also recommend the restoration of funding for certain core services. Specifically, the Subcommittee, in cooperation with the public safety Subcommittee, is recommending \$11.7 million in funding to limit the across-the-board reductions to our local constitutional officers to five percent. We feel this recommendation is appropriate in order to mitigate workforce reductions in these offices at a time when our local governments are facing similar budget shortfalls.

Mr. Chairman and fellow Committee members, I will ask staff to take you through our detailed recommendations, and then I hope it will be your pleasure to adopt our Subcommittee report.

Respectfully Submitted by the House Appropriations Subcommittee
on General Government:

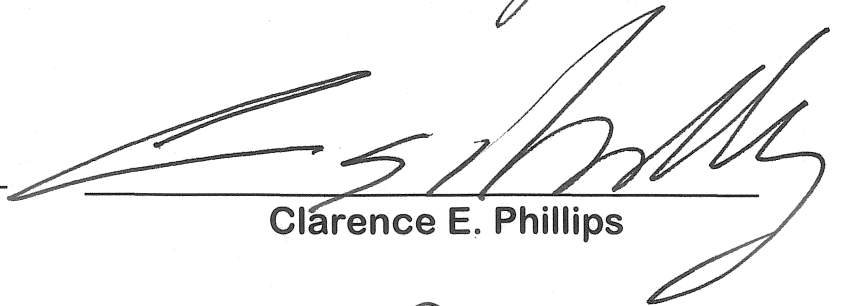

Watkins M. Abbitt, Jr., Chairman

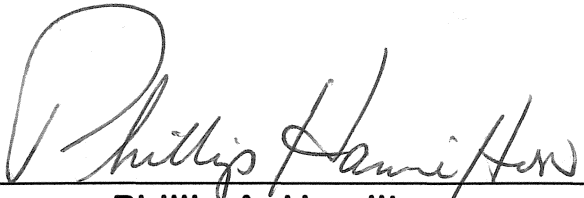

L. Scott Lingamfelter

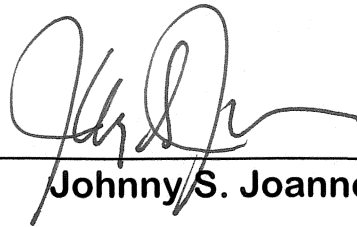

Robert Tata

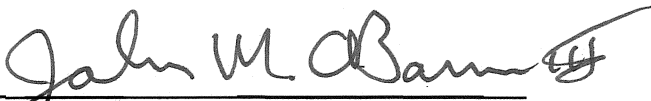

Clarence E. Phillips

Phillip A. Hamilton

Johnny S. Joannou
