REPORT OF THE SUBCOMMITTEE

on

ELEMENTARY & SECONDARY EDUCATION

Mr. Chairman and Members of the Committee:

The Elementary and Secondary Education Subcommittee is pleased to put before you a series of recommendations that provides a two-year total net increase of nearly \$531 million above the current adopted FY 2014 public education budget. This will bring the state's budget for public education up to a total of \$14.2 billion for the next biennium. As a result, since the Great Recession, per pupil funding will have increased 14.36%, from 2011 to 2016, to \$5,000 per pupil approaching its 2009 pre-recession high of \$5,242.

The additional revenues going to K-12 represent approximately 25 percent of the increased general fund revenues available in the state's proposed new two-year budget. This additional funding will help maintain, and hopefully improve, Virginia's ranking as the fourth best state in which to raise a child.

Virginia should be very proud of its public education system that supports and produces high caliber students that continuously outperform the majority of peer-group students, from other states, on a number of nationally recognized achievement tests. And does so at a very competitive cost to taxpayers: Virginia ranks 49th lowest, out of the 50 states, in State and Local Revenues (taxes) as a Percentage of the Average Virginians' Personal Income!

Now, Mr. Chairman, I'd like to turn to our specific recommendations.

As many of you know, this even-year Session coincides with the rebenchmarking cycle for funding our schools. Our two-year budget reflects a total increase of \$584.2 million in funding relative to updating the SOQ, incentive, categorical and all incentivized-based program accounts.

The largest increase in the rebenchmarking cost, \$168.7 million, is budgeted to pay for the previously agreed to VRS benefit rate increases tied to teacher retirement, group life and the retiree health care credit costs. As a part of the six-year phase-in schedule, the teacher retirement rate is 14.50 percent, up 284 basis points from the previous biennium. By FY 2019, the teacher retirement group, now at 79.7 percent of the VRS Board approved rate, is scheduled to reach 100 percent....or full funding!

In addition to the retirement benefit rate increases, the teacher health care benefit premium rate has increased by \$410, and now equals \$4,188 per position. The total increased biennial cost is estimated at \$53.8 million over the FY 2014-2016 biennium.

The other compensation related adjustment in rebenchmarking that I'll mention, updates the funded teacher salary amount. The funded salary amount included in the budget has increased by 1.8 percent, up to \$48,125 for secondary teachers.

Turning now to some of the major non-personnel related rebenchmarking expenditures over the biennium:

The local composite index, or the LCI as we know it, is made up of three components: real estate values, adjusted gross income and sales tax collections. The LCI calculation determines the cost sharing split between the state and the localities. For the FY 2014-2016 budget, there were 74 school divisions that had their index drop, which results in the state's share increasing by a net of \$36.8 million.

Likewise for sales tax distributions, the state has allocated an additional \$31.7 million to reflect the updated revenue forecast of the one and one-eighth cent that's dedicated to public education.

Lastly, and a good economic growth signal, the student membership estimates are projected to increase by about 1.5 percent over the next two years and the budget reflects an additional \$32.1 million in related costs.

The Subcommittee recommends continuing several policy decisions from the current biennium that generate savings in the budget: First, exclude non-personal inflation updates, and second, to recognize the Pre-K non-participation rate, which saves \$76.4 million and \$48.5 million respectively.

In addition to the funds allocated for rebenchmarking, the Subcommittee recommends providing for several other spending priorities in K-12.

First, we are recommending a total of \$25.0 million in Literary Fund revenues that will be used for new school construction loans. By using a literary loan, a school division can typically save money because of the lower interest rate offered than what otherwise would be available in the marketplace.

Second, the recommendations include adding \$5.4 million in the first year for cost of competing adjustments (COCA) for support positions to eligible school divisions.

Third, due to the late submission from several school divisions, we have included \$5.3 million to address several technical data corrections.

Lastly Mr. Chairman, I want to briefly mention that we have included over \$7.5 million for the following initiatives: new Math & Reading initiative, combined year-round school grants, Teach for America and National Board Certification Bonuses for teachers.

Mr. Chairman, I would like to thank the Committee staff, Susan Hogge, and ask her to explain each of the Subcommittee's recommendations in more detail.

Finally, I hope it will be the pleasure of the Full Committee to adopt our recommendations.

Thank you!

Respectfully Submitted by the House Appropriations Subcommittee
on Elementary & Secondary Education:

James P. Massie, III, Chairman

 "\$2,410,988" and "\$2,410,988".

Explanation:

(This amendment captures \$235,125 each year in general fund revenues by level funding the Plugged In Virginia initiative to the current fiscal year 2014 adopted amount.)

Elementary & Secondary Education Subcommittee Item 136 #5h

Education: Elementary & Secondary	FY 14-15	FY 15-16	
Direct Aid To Public Education	(\$20,000,000)	\$0	GF
	\$20,000,000	\$0	NGF

Language:

Page 118, line 33, strike "\$107,855,378" and insert "\$127,855,378".
 Page 118, line 35, strike the first "\$10,000,000" and insert "\$15,000,000".

Explanation:

(This amendment recognizes an additional \$25.0 million in fiscal year 2015 nongeneral fund revenues that will be deposited into the Literary Fund by the State Treasurer office as a result of selling unclaimed stock property. The additional Literary Fund revenue will be used to offset \$20.0 million general fund revenues that had been budgeted for retirement payments in the introduced budget - House Bill 30. The remaining \$5.0 million in Literary proceeds will fund additional school construction loans.)

Note: This analysis includes state funds for the Standards of Quality, Incentive, Categorical, and School Facilities service areas. Federal funds are not included in this analysis.

¹ The 2014-2016 Composite Index is been updated to reflect the revised Real Estate True Property Value data reported by Charlotte and Richmond Counties and Hampton City.

² Update K-3 Primary Class Size and Academic Year Governor's School funded per pupil amounts to reflect SOQ Model updates in HB 30 (VRS rates, non-personal inflation, support COCA)

³ Update pupil transportation cost to include revised data reported by Radford City Public Schools
