House Bill 1400

February 8, 2015

REPORT OF THE SUBCOMMITTEE
on
AGRICULTURE, COMMERCE, TECHNOLOGY, AND
NATURAL RESOURCES

Mr. Chairman and Members of the Committee:

The scope of this Subcommittee is broad, but I will try to make my remarks brief. First, I am very pleased to report that the subcommittee has been provided the necessary resources to expand support for efforts to improve water quality and protect Virginia's open spaces.

The Subcommittee recommends supplementing the funding included in House Bill 1400 for the water quality improvement with an additional \$10.7 million of general fund support. This ensures that even without surplus funds to support WQIF deposits, we maintain our commitment to implementing agricultural best management practices and supporting other nonpoint source pollution control projects. The amendment will provide a total of \$16.5 million for the Natural Resources Commitment Fund for "Ag BMPs", and \$1.6 million for Soil and Water Conservation District technical assistance in fiscal year 2016, equal to the funding included in the current year.

We also recommend providing an additional \$6 million in fiscal year 2016 for land conservation efforts. This includes an additional \$1.0 million each for the Office of Farmland Preservation and the Civil War Historic Site Preservation Fund, and an increase of \$4.0 million for the Virginia Land Conservation Foundation.

Mr. Chairman, next I will touch briefly on the Subcommittee's efforts in the area of Agriculture and Forestry. Virginia's largest industry benefits from even modest increases in support. I am pleased to report that the subcommittee amendments would eliminate the proposed fee increases for the VDACS weights and measures and non-restaurant food establishment programs, restores state support for the coyote control program, and elim-

inate the practice of using self-generated Commodity Board revenues to support the general fund.

Moving next to Commerce and Trade – over the past five years we have worked hard to reinvest and make job creation the top priority of state government. To support the continued attraction of new and expanding businesses, we retained the Governor’s request for an additional \$20.7 million in funding for the Governor’s Development Opportunity Fund. This will provide the Governor with \$40.6 million to market our great Commonwealth, the largest biennial investment ever made for this Fund. It is our hope that we will all reap the benefits of increased employment in all corners of the state.

Finally, Mr. Chairman, our Commonwealth has a unique opportunity to benefit from growing our advanced manufacturing sector. To continue this progress, the Subcommittee recommends restoring \$1.5 million for the Commonwealth Center for Advanced Manufacturing to begin facility planning in parallel with the federal application for a \$25.0 million EDA grant which would support the development of an apprentice academy and four regional centers of excellence. This will help create the technical workforce needed to fill the demands of medium- and high-skilled jobs.

Mr. Chairman, I want to thank you and the members of this Committee for supporting our efforts. Now, I will ask staff to take you through our detailed recommendations, and then I hope it will be your pleasure to adopt our Subcommittee report.

Respectfully Submitted by the House Appropriations Subcommittee
on Economic Development, Agriculture & Natural Resources:
