2018 REPORT OF THE EDUCATION SUBCOMMITTEE

**THE HONORABLE STEPHEN D. NEWMAN,
CO-CHAIRMAN FOR K-12 EDUCATION**

**THE HONORABLE THOMAS K. NORMENT, JR.,
CO-CHAIRMAN FOR HIGHER EDUCATION**

Members of the Committee:

I would like to thank each of the members of the Education Subcommittee for their contributions in this important area of the budget. Before handing off to the Chairman for Higher Education, I present to you, first, the highlights of this year's budget recommendations related to Elementary and Secondary Education.

Elementary and Secondary Education

We are pleased to present a report that fully funds Standards of Quality (SOQ) rebenchmarking. Overall, our recommendations provide an increase in Direct Aid to localities for Education of \$259 million in FY 2019 and \$307 million in FY 2020, above the FY 2018 levels – this totals to \$566 million over the biennium.

As you will recall, a large portion of the rebenchmarking costs are attributable to the costs to annualize the salary increase we provided in the 2017 Session, for the 2016-18 biennium. Despite the need to redirect the proposed 2018-20 biennium 2.0 percent salary increase, in order to backfill the overall savings assumed in the budget as introduced, our recommendations make relatively modest net adjustments to the budget as introduced and make some targeted investments. We also reduced and deferred several proposed new spending items.

The Subcommittee recommends maintaining the additional \$7.1 million for At-Risk Add-On funding in the second year and would also allow it to be used for teacher recruitment programs and initiatives, an

issue that seems to have risen to the top of concerns in the area of K-12 education this year.

We also recommend \$5.0 million in Extended Enrollment Loss funding in FY 2019, and are serious about encouraging if possible, or ultimately requiring if necessary, small and declining localities to operate as efficiently as possible.

There are a series of recommendations by the Subcommittee related to improving the quality of early childhood programs, many in response to issues raised in a December 2017 JLARC report on *Improving Virginia's Early Childhood Development Programs*.

Other recommendations include almost \$2.0 million additional related to career and technical education; \$1.5 million additional for teacher residency models; \$600,000 to maintain social studies assessments; \$580,000 for research-based teacher training related to dyslexia; \$250,000 for a high school apprenticeship pilot; and several other items.

The Subcommittee continues its commitment to supporting and improving education, and to enhancing our tools for sound decision-making in this area, related to assessments, student growth models, and school personnel feedback.

Again, I thank the Subcommittee members and I look forward to continuing to be part of this important on-going work regarding the future of elementary and secondary education in the Commonwealth.

Higher Education

Turning to higher education, the Subcommittee continues to focus on the future sustainability of our system of higher education. And – although our funding for higher education may not be as high as we would like it to be – we chose to focus our actions on maintaining affordability for Virginia's families, preserving recent investments related

to workforce credentialing, and preparing students for the jobs of the future.

From the introduced budget, the Subcommittee retains \$24.1 million in the second year and allocates an additional \$4.0 million for base operations in order to support access and completion. Every dollar spent in this area helps keep tuition lower for our students.

Also toward moderating the cost of higher education, the Subcommittee provides \$22.8 million over the biennium for need-based undergraduate financial aid.

The Subcommittee also supports the New Economy Workforce Credential Grant Program with \$4.0 million in new funding for the coming biennium and an additional \$1.0 million for the current fiscal year. This program is truly an investment that will help Virginia diversify our economy and provide students with a better future.

In addition, the Subcommittee worked over the interim during this year to recommend several options related to access and affordability. The first is an internship pilot program that will partner with the private sector to place students in pre-work experiences that will grant them skills related to job-readiness and allow them to have training in areas of regional significance; all while giving them the potential to reduce further reliance on debt. The Subcommittee recommends \$400,000 over the biennium for this new program and we look forward to hearing the partnership proposals from our institutions of higher education.

We also recommend the further standardization of coursework related to transfer credits and dual enrollment. The Subcommittee allocates almost \$1.0 million for the further creation and maintenance of a transfer portal which will allow students to determine whether a course will transfer to another institution of their choice. The hope is that the tool will lead to better planning and a reduction in the total cost of a degree over time.

Two additional recommendations of the Subcommittee are related to further helping to reduce student reliance on debt. These options include the creation of a student loan ombudsman under the State Council of Higher Education for Virginia and the licensing of student loan servicers by the State Corporation Commission.

Lastly, I do want to note that the Subcommittee retains \$13.1 million to restore the higher education interest earnings and credit card rebate funding that the institutions should receive if they meet certain performance standards.

In conclusion, the Education Subcommittee's recommendations this year focus on funding for students to have a quality education and funding for a few initiatives that will help diversify the economy and reduce the costs of post-secondary education.

For details on these and other recommendations of the Subcommittee, summary tables and selected language amendments are attached. We offer them to the Committee for its consideration.

Respectfully Submitted,

"The Departments of Education, in cooperation with the Departments of Health, Social Services, and Planning & Budget, shall convene a workgroup facilitated by the Virginia Early Childhood Foundation, to examine opportunities including but not limited to leveraging existing funds targeted to early childhood development with the goal of identifying strategies and mechanisms for developing an integrated early childhood fund. The findings of the workgroup shall be provided by September 15, 2018 to the Joint Subcommittee on the Virginia Preschool Initiative, and shall articulate the

potential for existing but underutilized appropriations including (but not limited to) NGF (unused Virginia Preschool Initiative funds and TANF) and SGF (for example, to support administrative costs that would assist with more fully drawing down federal CACFP funds). The purpose of the integrated early childhood fund shall be to more feasibly implement the cohesive and efficient administration of early childhood resources, increasing access to quality early childhood services for at-risk children with little additional fiscal impact on the Commonwealth's budget.".

"I. Out of the amounts in this item, the department shall develop and administer biennially to individuals holding a license from the Department in each public elementary and secondary school in the Commonwealth a voluntary and anonymous school personnel survey to evaluate school-level teaching conditions and the impact such conditions have on teacher retention and student achievement. Such survey may include questions regarding school leadership, teacher leadership, teacher autonomy, demands on teachers' time, student conduct management, professional development, instructional practices and support, new teacher support, community engagement and support, and facilities and other resources. The Superintendent of Public Instruction shall report the results of any school personnel survey to the House Committees on Appropriations and Education and to the Senate Committees on Finance and Education and Health. The appropriation in this item meets the requirements of the second enactment of Senate Bill 456."

Explanation:

(This amendment directs the department to, within existing resources, develop and administer a school personnel survey to evaluate school-level teaching conditions and the impact such conditions have on teacher retention and student achievement.)

"GG. 1. Out of this appropriation, \$125,000 the first year and \$125,000 the second year from the general fund is provided for a pilot program for Richmond City Public Schools for a maximum of 25 high school juniors or seniors, in a high school, technical center, or specialty school, as apprentices in certain fields. A business shall apply to the Superintendent of Richmond City Schools to host an apprentice and be eligible to receive a grant of up to \$2,500 per student, based upon procedures and forms developed by the Superintendent. The Superintendent shall receive nominations of students to serve as apprentices during their junior

or senior year of high school from principals and guidance counselors at qualified schools. The Superintendent shall select a maximum of 25 students to participate in the program, the selection of whom shall be based on the needs of the businesses that have applied to participate in the program. Each student shall be eligible to participate in the program for two academic semesters. If more than 25 businesses apply to participate in the program, the Superintendent shall select the businesses that most closely align with the interests and fields of study of the nominated students. If fewer than 25 businesses apply to participate in the program, a business may elect to host more than one apprentice under the program. In order to be eligible to receive a grant, a business shall provide the apprentice with a stipend that is no less than the amount of the grant received by the business.

2. The Superintendent shall report annually, no later than January 1, to the Governor and the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance. The report shall, at a minimum, identify the businesses that participated in the apprenticeship program, the number of students who participated in the apprenticeship program, the qualified fields in which the apprenticeships were focused, the general experience of the businesses and students who participated, and whether any student who participated in the program pursued a workforce credential or gained employment in the field of the apprenticeship after the apprenticeship concluded.

3. Grant funding in this item is provided in lieu of tax credits included in Senate Bill 937, which shall not become effective."

Explanation:

(This amendment provides \$125,000 GF each year for a pilot grant program in lieu of tax credits, as proposed in Senate Bill 937.)

Each university partner shall report annually to the department on available outcome measures, including student performance indicators, as well as additional data needs. The department shall provide directly to the university partners relevant longitudinal data that may be shared."

Explanation:

(This amendment increases the grants for teacher residency partnerships between university teacher preparation programs to not only the Petersburg, Norfolk, and Richmond City school divisions, but expansion to other school divisions and Virginia colleges and universities that credential teachers.)

VA Preschool Initiative - Teacher Qualifications Language

Education

Direct Aid to Public Education

Language

Language:

Page 137, after line 11, insert:

"To alleviate issues with teacher shortages, divisions may request, and the Department of Education shall grant, waivers on a provisional basis from the requirement that lead teachers in Virginia Preschool Initiative classrooms hold a baccalaureate degree and teacher license. Divisions allowed such waivers will ensure that the teachers with provisional certification are actively engaged in coursework and professional development, toward achieving the degree and license and/or commensurate alternative within 5 years."

Explanation:

(This amendment allows for a limited provisional waiver of current teacher qualifications for the Virginia Preschool Initiative, which require a bachelor's degree. This change may enable eligible private providers to more fully participate in the provision of VPI services. The School Readiness Committee recommended an exception for individuals who hold a relevant early childhood AA/AAS degree and for programs in which at least one lead teacher or administrative

leader has an EC-related baccalaureate credential.)

Item 136 #13s

VA Preschool Initiative - Local Match Language

Education

Language:

Page 137, line 46, after "contribution", insert:

"Philanthropic or other private funds may be contributed to the locality to be appropriated in their local budget and then utilized as local match."

Explanation:

(This amendment clarifies that local philanthropy, non-profit, or corporate support can satisfy the required local match.)

"4. 1. To advance the strategic objectives of the Commonwealth of Virginia, the Joint Subcommittee may establish a process for the development, review and implementation of potential outcome agreements between the Commonwealth and participating institutions. The Joint Subcommittee may offer guidance related to the six-year plan process required under § 23.1-306 to provide a potential option for institutions to negotiate and reach agreement on institution-specific goals, initiatives, and mutual expectations for the advancement of the Commonwealth's strategic objectives.

2. The Joint Subcommittee may consider process recommendations provided by the six ex officio members of the six-year plan review committee. The ex officio members of the review committee shall develop their recommendations following consultation with higher education, research, and economic development stakeholders. The Joint Subcommittee may request modifications to the six-year plan process to be timed to permit implementation during the next scheduled six-year planning process in 2019; provided, however, that the Joint Subcommittee may authorize the ex officio members of the six-year plan review committee to expedite development of some potential agreements during 2018 as pilots to provide a template or templates for subsequent use by the institutions and the review committee. The implementation of a pilot agreement may proceed after formal approval is granted by a majority of the members of the Joint Subcommittee.".

Explanation:

(This language amendment allows the Joint Subcommittee on the Future Competitiveness of Virginia Higher Education to establish a process for the development of potential outcome agreements between the Commonwealth and participating public institutions of higher education by offering guidance concerning the current six-year plan process to provide an option for institutions to negotiate and reach agreement on institution-specific goals, initiatives, and mutual expectations for the advancement of the Commonwealth's strategic objectives. The amendment also states that the Joint Subcommittee may request modifications to the current six-year plan process from the six-year plan review committee and could then opt to formally approve pilots on this proposal during 2018.)

"O. 1. Out of this appropriation, \$200,000 the first year and \$200,000 the second year from the general fund is designated for an internship pilot program. The funding is designed to stimulate public colleges and universities to develop partnerships to provide innovative internship programs for their students. Grants will be awarded on a competitive basis to Virginia public colleges and universities, with eligibility criteria determined by the State Council of Higher Education for Virginia. To be eligible for a grant a Virginia public college or university must have at least one private sector partner and the state grant shall be matched equally by the partner with non-state funding.

2. Applications by institutions of higher education shall describe how the proposed internship grants will be used to accomplish one or more of the following goals: (i) support the strategic objectives of the Commonwealth of Virginia regarding designated workforce needs; (ii) support the strategic objectives of the Commonwealth of Virginia regarding research and research commercialization in sectors and clusters targeted for development; (iii) support regional economic growth and diversification plans; (iv) enhance the job readiness and access of students by providing valuable workplace experience as a member of a team addressing real problems and building skills that employers seek; and (v) reduce the amount of educational loan debt that students will incur without lengthening the course of study leading to a degree or industry-recognized credential.".

Explanation:

(This amendment provides \$200,000 GF per year for an internship pilot program to be administered by SCHEV. The internship program would require public institutions of higher education to apply for a grant to demonstrate the pilot and would also require 1-1 matching funds from a non-state source.)
