# Resources

The adopted amendments to the 2018-20 budget, Chapter 1283 of the 2020 Acts of Assembly (HB 29), include \$713.3 million in general fund resources above those assumed in Chapter 854 of the 2019 Acts of Assembly (HB 1700). These resources include: (1) a \$147.8 million upward revision to the December general fund revenue forecast; (2) a mid-session upward revenue adjustment of \$287.0 million; (3) a \$19.5 million reduction resulting from tax conformity; (4) increases in general fund transfers totaling \$66.0 million; and, (5) positive net balance adjustments of \$232.0 million. With these adjustments general fund resources and transfers in FY 2020 total \$23.2 billion, when you include the assumed FY 2019 carryforward contained in Chapter 854 of the 2019 Acts of Assembly (HB 1700), this brings total resources to \$23.5 billion.

The net balance available for carry-forward into the next biennium totals \$1,185.3 million. This includes the \$7.6 million unappropriated balance contained in Chapter 854 of the 2019 Acts of Assembly (HB 1700), the change in general fund resources outlined above and net spending reductions contained in the enacted budget which total \$464.4 million.

## Changes in Revenue

FY 2019 general fund revenue collections exceeded the estimate by \$778.8 million (excluding transfers). The gain was driven primarily by better than expected individual nonwithholding payments and lower than expected individual tax refunds. Corporate income tax collections missed the forecast by 7.9 percentage points and sales tax collections fell short of the forecast by 0.3 percentage points. As a result, FY 2020 general fund revenues have to increase only 1.2 percent to meet the budget forecast in Chapter 854 of the 2019 Acts of Assembly (HB 1700), compared to the original assumption of 5 percent growth.

The fall revenue reforecasting process resulted in an estimated GF growth rate of 1.9 percent, an increase of \$147.8 million above the Chapter 854 of the 2019 Acts of Assembly (HB 1700) revenue base. This figure included adjustments made subsequent to the Governor's Advisory Council on Revenue Estimates (GACRE) based on the recommendations of the legislators and business leaders who make up that group.

A midsession reforecast announced on February 14, 2020, added an additional \$292.5 million in anticipated general fund resources for FY 2020, including additional GF revenues of \$287.0 million and additional GF transfers of \$5.5 million. The forecast was revised to account for better than expected revenue collections through January and was completed before the impacts of the COVID-19 pandemic were apparent. The reforecast increased the withholding estimate by \$66.2 million, reflecting "money in the bank" through January, and increased nonwithholding by \$154.0 million due to strong January estimate payments. The reforecast also increased the official estimate for corporate income tax collections by \$67.0 million; increased estimated sales and use tax collections by \$50.0 million; and, increased the estimate for recordation tax receipts by \$31.0 million. The reforecast lowered the estimate for insurance premiums license taxes by \$15.0 million to reflect higher than expected January refunds. The reforecast did not change the overall economic outlook.

In addition, two actions related to tax conformity reduced anticipated general fund revenues by \$19.5 million in FY 2020. First, the revenue forecast was adjusted to reflect the impact of federal legislation that was enacted after the December official forecast was published. These federal changes reduce state GF revenues by \$2.0 million. Second, Chapters 255 and 1 of the 2020 Acts of Assembly (HB 1413/SB 582) decreased expected GF revenues by \$17.5 million by conforming to provisions of federal law relating to disaster relief and the repeal of the unrelated business tax on certain fringe benefits.

Year-to-date revenue collections through March were up 6.6 percent, well ahead of the revised forecast. However, while March collections reflected continued growth in the economy, collections in April, May and June are expected to decline significantly as a result of actions taken to address the public health concerns related to the COVID-19 pandemic. On March 23, 2020, Governor Northam issued Executive Order 53 which placed temporary restrictions on non-essential businesses, and on March 30, 2020, the Governor issued Executive Order 55 instituting

a temporary stay-at-home order across Virginia. These and other actions taken within the Commonwealth and elsewhere are expected to reduce economic activity substantially and result in a GF revenue loss of approximately \$1.0 billion in the fourth quarter of FY 2020.

### Changes in Transfers

Net transfer adjustments in Chapter 1283 of the 2020 Acts of Assembly (HB 29) increase total GF transfers by \$66.0 million. Included is a proposed transfer of \$23.0 million which is the anticipated year-end balance of the Taxpayer Relief Fund. The Fund was established pursuant to Chapters 17 and 18 of the 2019 Acts of Assembly (HB 2529/SB 1372) to capture, and designate for future tax reform, incremental revenues generated by the individual reform provisions of the TCJA. Also included are reimbursement amounts for Hurricane Florence which total \$14.9 million and a \$12.7 million transfer of uncommitted balances in the Virginia Growth and Opportunity Fund (GO Virginia). There is an increase of \$12.3 million in the estimated sales tax transfer for K-12 education; \$6.8 million based on an overall increase in the sales tax forecast included in the Governor’s introduced budget; and, a \$5.5 million increase reflected in the midsession reforecast. Offsetting amendments include a reduction in transfers from the Trauma Center Fund of \$6.9 million and a \$0.6 million reduction in court debt collections.

## Changes in Net Balance

The unrestricted cash balance reported by the State Comptroller represents the cash after accounting for liabilities and setting aside balances for restricted funds. The balance reported by the State Comptroller at the close of FY 2019 was \$2.2 billion and includes revenues in excess of the of the forecast totaling \$778.8 million (including \$455.0 million transferred to the Taxpayer Relief Fund); the \$229.9 million carry-forward balance assumed in Chapter 854 of the 2019 Acts of Assembly (HB 1700); unexpended GF operating appropriations of \$131.8 million; unexpended GF capital appropriations of \$6.2 million; and, other nongeneral fund cash on deposit in the Treasury that is counted as general fund according to the Government Accounting Standards Board (GASB).

Mandatory restrictions against this amount total \$638.8 million. The majority relates to balances in the Revenue Stabilization Fund and Revenue Stabilization Fund Reserve totaling \$289.3 million and \$336.6 million, respectively. It also includes balances in the Lottery Proceeds Fund of \$10.8 million and \$2.2 million of Water Supply Assistance Grant Funds. After adjusting the balance for these liabilities, and for payments awaiting disbursement, the unrestricted general fund cash balance totaled \$2.2 billion, approximately \$1.9 billion more than assumed in Chapter 854 of the 2019 Acts of Assembly (HB 1700).

Adjustments to the unrestricted balances are committed under statutory requirements. Distributions include the reappropriation of \$6.7 million in FY 2019 GF capital and capital planning funds, and \$240.0 million in mandatory and discretionary GF agency balances. Also included is \$87.0 million from the Local Communications Sales and Use Tax and the Virginia Health Care Fund. Under language included in Chapter 854 of the 2019 Acts of Assembly (HB 1700), remaining unencumbered amounts totaling \$197.1 million are set aside for the Revenue Reserve Fund to provide additional liquidity to address potential revenue shortfalls.

Additionally, adjustments include additions to the balance adopted by the General Assembly including reverting various legislative balances; JLARC balances; WWI/WWII Commission balances; and, balances at the Department of Medical Assistance Services. Also included are adjustments necessary to reflect actions take in response to the COVID-19 outbreak. These include a \$55.5 million sum sufficient disaster declaration authorization and a \$2.5 million deficit authorization for the Department of Housing and Community Development.

A summary of balance adjustments and transfer amendments is provided below.

The funding will allow the agency to be reimbursed from Central Appropriations, consistent with the reimbursements made for localities for presidential primary expenses. A companion amendment in Central Appropriations reflects this transfer, as well as funding to reimburse localities for 2020 presidential primary costs.
- ***Appropriate Help America Vote Act Funding.*** Includes \$10.2 million NGF the second year in Federal Help America Vote Act of 2002 (HAVA) funds and language indicating that the funds shall be used toward the replacement of the Virginia Election and Registration Information System (VERIS) by July 1, 2022. Language further provides that the Department of Elections (ELECT) submit a plan outlining the use of funds to the Federal Elections Assistance Commission, the Department of Planning and Budget, and to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by May 1, 2020. Release of any general fund and nongeneral fund appropriations to ELECT by the Comptroller for this purpose is predicated on submission of such plan. A companion amendment to Chapter 1283 of the 2020 Acts of Assembly (HB 29) directs ELECT to release a Request for Information (RFI) in FY 2020 for the replacement of VERIS, and to provide an update to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by October 1, 2020 detailing options and potential costs for replacing VERIS. A companion amendment to Chapter 1289 of the 2020 Acts of Assembly (HB 30) provides \$2.0 million GF the first year, representing the state match for the Federal HAVA funds.
- ***Direct Request for Information (RFI) for VERIS Replacement.*** Includes a language amendment directing the Department of Elections (ELECT) to release a Request for Information (RFI) in FY 2020 related to the replacement of the Virginia Election and Registration Information System (VERIS). ELECT shall provide an update to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by October 1, 2020 on options and potential costs for the replacement of VERIS. A companion amendment to Chapter 1283 of the 2020 Acts of Assembly (HB 29) appropriates \$10.2 million NGF in Federal Help America Vote Act of 2002 (HAVA) funds and language requiring the funds be used for the replacement of VERIS. A companion amendment to Chapter 1289 of the 2020 Acts of Assembly (HB 30) provides \$2.0 million GF, representing the state match for Federal HAVA funds to be used toward the replacement of VERIS by July 1, 2022.

## Commerce and Trade

- **Economic Development Incentive Payments**
  - *Virginia Economic Development Incentive Grant Program.* Appropriates \$1.0 million NGF from funds previously appropriated from the general fund and deposited into the Virginia Economic Development Incentive Grant Fund. - **Virginia Employment Commission**
  - *Unemployment Insurance Flexibility.* Gives the Governor authority to override the provisions of The Virginia Unemployment Compensation Act in response to the COVID-19 pandemic, including allowing the Governor to waive the work search requirement for benefit recipients in order to lessen the spread of the virus.

The campaign will be launched during the summer of 2020 and extend through the end of the year to leverage the museum's brand, build brand equity and enhance promotional offerings to a regional and national audience.

## Public Education

The adopted budget for Direct Aid to Public Education increases the general fund amount by a net of \$39.9 million while decreasing nongeneral funds by \$15.4 million in FY 2020, primarily reflecting increases in projected enrollments and decreases in the Lottery Proceeds Fund.

- **Direct Aid to Public Education**

*GF Increases*

- Adds \$21.1 million GF for updated fall membership and average daily membership based on a projected increase of 3,502 students compared to the projected 1,248,166 Average Daily Membership reflected in Chapter 854 of the 2019 Acts of Assembly (HB 1700) due to the updates for the actual March 31, 2019 ADM and fall membership counts for September 30, 2019.
- Adjusts funding to reflect a decrease of \$15.4 million NGF in the revised forecast estimate of Lottery Proceeds for FY 2020. General fund revenue is increased by a like amount to offset the loss.
  - In total, the revised estimate of expected funds available to the Lottery Proceeds Funds is \$613.5 million in FY 2020. This reflects a revised proceeds forecast of \$586.6 million in FY 2020, a decrease of \$42.2 million from the anticipated (Chapter 854 of the 2019 Acts of Assembly (HB 1700)) FY 2020 transfer of \$628.8 million, offset by the transfer of residual FY 2019 profits of \$26.9 million to FY 2020. The decrease of \$15.4 million in Lottery Proceeds Fund over the Chapter 854 of the 2019 Acts of Assembly (HB 1700) appropriation requires an equal amount of general fund revenue in FY 2020 as noted above.
- Increases funding by a net \$12.6 million GF based on the latest sales tax revenue projection, which increased the estimated sales tax for public education by \$28.6 million, and the corresponding decrease of \$16.0 million in Basic Aid funding to offset the state's share of about 55 percent of the savings.
- Adds \$2.8 million GF for the actual English as Second Language student membership count.
- Adds \$1.2 million GF for updates to Lottery supported programs.
- Provides \$1.2 million GF to the Black History Museum and Cultural Center to support field trips and traveling exhibits, aligned to SOL content related to the African History.

- Provides \$1.0 million GF to the American Civil War Museum to support field trips, aligned to SOL content related to the American Civil War.

#### *GF Decreases*

- Captures \$10.7 million GF from updating Incentive Program accounts, primarily from Special Education Regional Tuition with a decrease of \$7.4 million and VPI Plus with a decrease of \$3.7 million based on participation rates.
- Captures \$2.8 million GF to reflect actual enrollment in Remedial Summer School.
- Captures \$1.3 million GF to reflect actual compensation supplement activities by divisions. This reflects the savings from nine divisions not utilizing the full 5 percent compensation supplement provided in FY 2020.
- Also captures a decrease of \$302,823 GF from Categorical accounts and decrease of \$358,514 based on the actual number of National Board Certified teachers.

#### *NGF Decreases*

- Reduces funding to the VPSA Technology Grants by \$26,000 as a program receiving the funding plans to disband.

- **COVID-19 Response Actions**

- Adds language waiving local school divisions' required local effort and required local match obligation in FY 2020 due to the state of emergency and school closures resulting from COVID-19.
- Add language authorizing the Department of Education to prorate Supplemental Lottery Per Pupil Allocation payments to divisions in the event of a Lottery Proceeds shortfall.
- Provides authority for the Superintendent of Public Instruction to grant temporary flexibility or issue waivers of certain deadlines or requirements in the Appropriation Act or in § 22.1, *Code of Virginia* that cannot be met due to the state of emergency or school closures resulting from COVID-19. Flexibility or waivers may include, but are not limited to: accreditation; testing and assessments; graduation; licensure, including temporary licensure; school calendars; and, program application and reports due to the Department of Education or Board of Education.

Prior to granting any flexibility or waiver, the Superintendent is required to report and substantiate to the Secretary of Education how COVID-19 impacted each deadline or requirement, the proposed alternative, and the affected fiscal and school

years. The Superintendent is also required to report to the Board of Education on any waivers or flexibility extended. The Superintendent's authority applies only to deadlines and requirements in FY 2020 and FY 2021.

## Higher Education

- **COVID-19 Policy Actions**

- Adds language allowing institutions of higher education flexibility from recovering 100 percent of calculated indirect cost recoveries to educational and general academic activities.
- Increases the percentage, from 3 to 6, of educational and general unexpended balances that institutions are authorized to carry forward as a reserve, to be available during times of revenue challenges.
- Adds language allowing higher education institutions to request an anticipation treasury loan to address cash flow needs resulting from the loss of auxiliary revenues associated with COVID-19 school closures. The Secretary of Finance shall develop any needed guidelines in evaluating requests received from the institutions of higher education.

## Finance

- **Department of Accounts Transfer Payments**

- *Removal of Voluntary Deposit to the Revenue Reserve.* Removes \$222.8 million GF the second year for a voluntary deposit to the Revenue Reserve in response to a potential revenue shortfall resulting from the COVID-19 pandemic. This removal results in a balance in the Revenue Reserve of approximately \$511.0 million for the end of FY 2020.
- *Removal of Prepayment to Revenue Stabilization Fund Deposit for FY 2022.* Removes \$97.5 million GF the second year for prepayment of an anticipated mandatory deposit to the Revenue Stabilization Fund in FY 2022. The prepayment included in FY 2020 in Chapter 854 of the 2019 Acts of Assembly (HB 1700) assumed

that revenue growth in FY 2020 would trigger a mandatory Revenue Stabilization Fund deposit. However, because general fund revenue growth in FY 2019 was so robust, it is now anticipated that revenue growth will not trigger a deposit based on current year growth.

- **Treasury Board**

- *Recognize Debt Service Savings.* Removes \$11.5 million GF and \$1.4 million NGF the second year, which reflects debt service savings on bonds issued by the Virginia Public Building Authority and the Virginia College Building authority compared to previous expectations. This brings total projected GF debt service to \$764.9 million in FY 2020.

<b>Debt Service Savings</b> (GF in \$ millions)			
<u>Debt Type</u>	<u>FY 2020</u> <u>Ch. 845</u>	<u>Caboose</u> <u>Ch. 1283</u>	<u>\$ Change</u> <u>(Amended)</u>
General Obligation Bonds	\$64.4	\$61.5	\$(2.9)
Public Building Authority Bonds	272.7	269.3	(3.4)
College Building Authority Bonds	433.9	428.6	<u>(5.3)</u>
<b>Total GF Debt Service Savings (projected)</b>			<b>(\$11.5)</b>

## Health and Human Resources

- **Children’s Services Act**

- *Mandatory Caseload and Cost Increases.* Adds \$6.6 million GF in FY 2020 to reflect the latest forecast of expenditures for the CSA program. Overall, the program continues to grow due to increasing caseload and costs for special education private day placements and a recent increase in treatment foster care spending. Factoring in these adjustment to program spending, expenditures are projected to increase by 7.4 percent in FY 2020. Expenditure growth in FY 2019 was 6.2 percent.

- **Department of Health**

- *Supplant GF with Agency Indirect Cost Recoveries.* Reduces GF appropriation and supplants \$1.8 million the second year with nongeneral funds from agency indirect cost recoveries.
- *Remove Temporary Detention Order Tracking Funds.* Reduces the appropriation by \$50,000 the second year from the general fund to remove funding provided in 2019 Session for modifying the Emergency Department Care Coordination System to track Temporary Detention Orders. After review, it was determined this system was not the solution to address the issue.
- *Modify Abortion Limitations on Expenditures.* Includes language in Part 4 of the introduced budget bill for FY 2020 that allows the expenditure of funds, from the state budget, for abortions as permitted by state statute. Beyond federal restrictions, Virginia law allows abortions in the case of gross fetal abnormality.

- **Department of Medical Assistance Services (DMAS)**

*Forecast Changes*

- *Medicaid Utilization and Inflation.* Reduces \$205.8 million GF and \$350.5 million in federal Medicaid matching funds in FY 2020 to reflect a lower forecast of expenditures for the base Medicaid program (excluding Medicaid expansion). Base Medicaid spending is expected to increase by 1 percent in FY 2020, well below the 2.6 percent growth projected in the November 2018 Official Medicaid Forecast. Spending growth in the program is lower due to higher than expected savings from the impact of Medicaid Expansion. More enrollees have shifted from base Medicaid (50 percent state share of costs) to the Medicaid expansion group (10 percent state share of costs), which results in larger state savings than previously projected. In addition, savings from pharmacy rebates are also higher than projected in the previous expenditure forecast.
- *Adjust Appropriation for the Virginia Health Care Fund.* Reduces the appropriation by \$44.4 million GF in FY 2020 and adds a like amount of nongeneral funds each year to reflect changes in revenues to the Virginia Health Care Fund. Revenues from the Fund are used as a portion of the state's match for the Medicaid program; therefore, higher revenues result in a reduction of the general fund appropriation needed to maintain currently-funded Medicaid services. Conversely, lower revenues require additional general fund support. Revenues in the fund are derived from tobacco taxes, Medicaid recoveries and revenue maximization initiatives, and a portion of the Master Tobacco Settlement Agreement (41.5 percent of tobacco settlement revenues). Changes to the fund include:

- A decrease of \$2.1 million in Tobacco Master Settlement Agreement payments,
  - A decrease of \$6.8 million in expected pharmacy rebates,
  - An increase of \$0.2 million projected tax collections from cigarettes and other tobacco products, and
  - An increase of \$53.1 million to reflect the cash balance carried over from FY 2019.
- ***Family Access to Medical Insurance Security (FAMIS) Utilization and Inflation.*** Increases spending by \$2.2 million GF and \$4.6 million NGF from federal matching funds in FY 2020 to reflect the forecast of expenditures for the FAMIS program. The higher forecast is mainly due to increasing caseload. FAMIS enrollment of children increased by 4.9 percent in FY 2019 and through November 1, 2019, average monthly enrollment for FY 2020 is up 3.1 percent for children. The federal match rate for FAMIS is 88 percent for the first quarter of FY 2020 and is at 76.5 percent for the remaining three quarters. The FAMIS program serves pregnant women and children under the age of 19 in families with income between 143 and 205 percent of poverty.
- ***Medicaid Children’s Health Insurance Program (CHIP) Utilization and Inflation.*** The adopted budget reduces \$1.0 million GF and \$4.2 million NGF in FY 2020 to reflect the forecast of expenditures in the Medicaid CHIP program. The federal match rate for the Medicaid CHIP program is 88 percent for the first quarter of FY 2020 and is at 76.5 percent for the remaining three quarters. ***Other Amendments***

- ***Capture Excess Administrative Balance.*** Reduces \$3.0 million GF from the Department of Medical Assistance Services' administrative budget in fiscal year 2020. Based on current spending projections and the agency's prepayment of rent and other July 2019 contractual payments out of fiscal year 2019 year end balances, which would have otherwise reverted to the general fund, this amendment captures the excess appropriation.

- ***Provide Authority to Offset Lost Federal Revenue for Children’s Hospital of the King’s Daughters.*** Adds language authorizing the department to make indirect medical education payments to offset the potential loss of Disproportionate Share Hospital (DSH) payments that may be reduced as a result of a federal court case. This language allows other federal funding sources to offset the loss of DSH payments and therefore has no state funding impact.

- **Department of Behavioral Health and Developmental Services**

- ***Funding for Provider Licensing, Compliance, Quality Improvements and Individual Assessments.*** Provides \$2.1 million GF and 28 positions in FY 2020 for quality improvement and risk management for individuals with developmental disabilities. - ***Fund Increasing Caseload for Part C Early Intervention Services.*** Adds \$1.2 million GF in FY 2020 to cover the costs of the increasing caseload for the program. The program has been growing on average by 5.4 percent a year over the past six years. This program is part of the federal Individuals with Disabilities Education Act.
- ***Capture Excess Funding for New Beds at the Virginia Center for Behavioral Rehabilitation (VCBR).*** Reduces by \$6.5 million GF and 119 positions in FY 2020 the funding provided for the operating costs of the expansion of VCBR. Due to delays in construction and lower census growth the funding for the additional beds will not be needed until FY 2021. In the 2019 Session, \$7.8 million GF and 147 positions were provided in FY 2020 for the expansion, which at that time was estimated to begin operation in August 2019.
- ***Reduce Funds to Reflect Downsizing and Closure of Training Centers.*** Captures reduced general fund spending of \$4.5 million GF in FY 2020 to reflect savings from the quicker downsizing of Central Virginia Training Center than anticipated. Central Virginia Training Center slated to close by June 30, 2020.
- ***Plan for Temporary Beds at Catawba Hospital.*** Includes language directing the Department of Behavioral Health and Developmental Services to develop and implement a plan to manage the census at Catawba Hospital and to reduce the number of staffed beds to 110 by no later than June 30, 2021.
- ***Sale of Southwestern Virginia Training Center.*** Adds language authorizing the Department of General Services to sell property on which the former Southwestern

Virginia Training Center was situated. Language requires the sale price to cover any debt or other financial obligations on the property. It also requires the purchaser to use the property for the provision of health care services for at least five years.

- *Modify Children’s Inpatient Psychiatric Services Workgroup.* Adds members to the workgroup created to examine and identify possible alternative treatment services and sites for minors that otherwise would be placed at the Commonwealth Center for Children and Adolescents (CCCA). The language adds the Virginia Association of Community Services Boards, VOICES, Virginia Coalition of Private Provider Associations, and the Virginia Network of Private Providers to the workgroup.
- *Capture Savings from Construction Delay at Western State Hospital.* Captures savings of \$2.9 million GF in fiscal year 2020 at Western State Hospital for reduced costs due to the delay in the construction of two 28-bed units. The new beds were supposed to be operational in the fall of 2019, but will not be operational until late spring of 2021.
- *Provide Nongeneral Funds for Electronic Health Records.* Provides \$14.5 million NGF in FY 2020 to fund the remaining costs of implementing electronic health records in state facilities. Funding is provided from existing nongeneral fund balances.

- **Department of Social Services**

- *Foster Care and Adoption Forecast.* Adds \$722,339 GF and \$4.1 million NGF in FY 2020 for forecast changes to the foster care and adoption subsidy programs. Adoption subsidies are projected to increase by \$6.0 million GF and \$6.0 million in federal Title IV-E funds, however the general fund increase is partially offset by a projected decline in state adoption subsidies \$3.4 million GF. Title IV-E foster care expenditures are expected to decrease by \$1.9 million GF and \$1.9 million NGF.
- *Capture Savings in TANF Unemployed Parents Program.* Provides to reduce \$3.5 million GF in FY 2020 to reflect a lower forecast of costs in the unemployed parents’ cash assistance program mainly due to declining caseloads.

# Overview of the 2020-22 Biennial Budget Chapter 1289, 2020 Session

The adopted budget for 2020-22 includes a net increase of \$2.7 billion GF operating expenditures above the current base budget. Approximately \$1.5 billion in additional resources in FY 2021 and FY 2022 are available for appropriation, including an assumed carryforward of \$1.2 billion from FY 2020. In addition, adjustments to the FY 2020 base budget provide additional spending capacity of \$650.0 - \$670.0 million each year, respectively, because FY 2020 appropriations in Chapter 854 of the 2019 Acts of Assembly (HB 1700) contained one-time expenditures. The adopted budget assumes an unappropriated balance of \$621.3 million at the close of the biennium.

## Revenues

The adopted 2020-22 budget includes \$48.9 billion in general fund resources available for appropriation. The budget, as adopted, includes \$1.2 billion as a projected unspent balance at the end of the 2018-20 biennium, resulting from balance adjustments totaling \$53.7 million, FY 2020 revenue forecast adjustments of \$267.5 million, transfer adjustments of \$22.3 million, and a net spending decrease of \$444.2 million.

The 2020-22 general fund revenue forecast assumes a growth rate of 3.3 percent in FY 2021 and 3.7 percent in FY 2022, after taking into account minor tax policy and interest earnings

assumptions totaling \$49.7 million over the biennium, resulting in projected collections of \$46.2 billion over the biennium. The forecast assumes that growth will remain steady, but Virginia will continue to underperform the nation based primarily on lower employment growth resulting from our historically low unemployment rate and low in-migration.

**Spending Increases**

Major general fund spending initiatives adopted in the 2020-22 biennial budget include:

- \$854.7 million GF for the cost of updating the state’s share of rebenchmarking the Standards of Quality for public schools;
- \$626.3 million GF to address the increased cost of Medicaid utilization and inflation;
- \$300.0 million GF for appropriation to the Revenue Cash Reserve in FY 2022;
- \$287.8 million GF for a 2 percent salary increase for SOQ teacher and support positions each year;
- \$264.8 million GF for state and state-supported salary and bonuses over the biennium;
- \$174.5 million GF to fund various increases in Medicaid provider rates; and
- \$171.7 million GF for additional debt service costs.

**Budget Savings**

Major general fund savings total \$588.1 million and generally result from supplanting nongeneral funds for activities previously financed in part with general fund appropriations

including \$61.0 million annually in recordation taxes previously dedicated to transportation debt service, an assumed increase in the cigarette tax which would offset GF costs in the Medicaid program, and savings associated with VITA's new service provider model.

**Unallotment of Adopted Spending Due to COVID-19 Pandemic**

Out of the new spending adopted in the 2020 Session, \$2.2 billion GF was unallotted at the April 22, 2020 Reconvened Session as a result of the COVID-19 pandemic and the economic impact that is expected to follow due to business and employment disruptions from the public health emergency. Any appropriation that is unallotted cannot be spent by state agencies until the General Assembly reenacts such appropriation in a future session. Such action will be dependent on an updated revenue forecast and any budget shortfall that will need to be addressed.

*Note: Of the adopted spending, the General Assembly approved in the Reconvened Session unallotting \$2.2 billion of that spending in response to the Coronavirus Pandemic. This spending cannot be expended by agencies until the General Assembly approves such action in a Special Session.*

**Legislative Department.** The adopted budget for the Legislative Department include increases of \$9.0 million GF the first year and \$9.1 million GF the second year.

Significant general fund spending increases include \$2.2 million each year for the general assembly to cover additional costs associated with meetings and legislative operations, and \$2.7 million over the biennium for the Division of Capitol Police to implement increased security measures at the Capitol and Pocahontas Buildings, increased rental costs for Capitol Square facilities, and a new K-9 facility.

**Judicial Department.** The adopted budget for the Judicial Department include increases of \$25.9 million GF the first year and \$28.2 million GF the second year. Of these amounts, \$11.4 million GF the first year and \$9.4 million GF the second year was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic.

The largest increases in funding include \$13.3 GF million over the biennium for up to 120 additional district court clerk positions, the cost for which is partially offset by a \$6 increase in civil filing fee revenues, reflected in a separate amendment in Part 4-14. In the Indigent Defense Commission, \$9.5 million GF over the biennium is provided to hire up to 59 additional public defender positions, with language authorizing a portion of the funding to adjust the salaries of

attorneys and staff to address turnover, as well as \$2.7 million GF each year and 35 positions to establish a new public defender office in Prince William County. The cost for the office is partially offset by a reduction of \$3.2 million GF in Criminal Fund appropriation in the courts due to an estimated decline in the need for certain court appointed counsel for cases assumed by the new office. In addition, \$4.6 million GF each year is provided in additional Criminal Fund appropriations to reflect increased general utilization in the both the General and Juvenile & Domestic Relations District Courts.

In the Virginia State Bar, \$1.5 million GF each year is provided to hire additional civil defense attorney positions focusing on housing cases, and to adjust the starting salaries of attorneys.

*Executive Offices.* The adopted budget for Executive Offices increased by a net \$10.0 million GF, and a net \$5.0 million NGF over the biennium.

Of the total general fund increases, \$599,000 each year and 3.00 FTE positions are provided to establish the Office of the Chief Diversity Officer, within the Office of the Governor, as well as \$599,000 to provide funding for administrative support for the Office of the Chief Workforce Advisor. In addition, \$386,420 is provided for increased staffing in the Office of the Secretary of the Commonwealth.

Funding of \$895,500 GF over the biennium and 4.50 FTE positions each year is provided to establish the Office of the Children's Ombudsman, within the Office of the Governor, pursuant to Chapter 1090 of the 2020 Acts of Assembly (HB 1301), and in the Office of the Attorney General, \$368,332 GF and 3.00 FTE positions each year is provided for the Division of Human Rights, pursuant to legislation that passed during the 2020 General Assembly Session.

Additional adopted nongeneral fund changes are comprised of technical adjustments, including the distribution of centrally appropriated agency funding, such as salary adjustments, and benefits and internal service fund rate changes included in Chapter 854 of the 2019 Acts of Assembly (HB 1700).

*Administration.* The adopted budget for Administration results in a net increase of \$96.3 million GF for the biennium compared to the base budget. Of these amounts, \$13.8 million the first year and \$15.0 million the second year was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic.

Significant general fund increases include \$5.6 million to fund salary increases for regional jail officers to equalize the pay grade for entry level correctional officers in local and regional jails, and \$5.0 million to fully fund the reimbursement to localities for general registrar and electoral board member salaries.

The nongeneral fund appropriations to the Administration agencies are adjusted by \$259.0 million over the biennium, the bulk of which is from increasing appropriations to support claims

and administrative costs benefits programs such as the State Health Benefits Plans and The Local Choice Plan. Increases in nongeneral fund appropriations were partially offset by reductions in projected expenditures in Virginia Information Technologies Agency vendor pass-through payments for state agencies based on utilization estimates and lower rates under the new multi-supplier platform.

***Agriculture and Forestry.*** The adopted budget for the Agriculture and Forestry secretariat include increases totaling \$7.0 million GF the first year and \$5.4 million GF the second year. Of these amounts, \$1.4 million each year was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic. After accounting for the distribution of Central Account actions, specific programmatic adjustments includes an increase of approximately \$1.25 million GF over the biennium for establishing the Virginia Food Access Investment program and \$0.6 million NGF from increases of license fees for growers, processors, and dealers participating in Virginia’s expanded Industrial Hemp Research Program.

Additional language requires monthly reporting on the revenues and operational expenses of the historical horse racing industry in Virginia and direct that all year-end balances of the Virginia Racing Commission, in excess of \$500,000, shall revert to the General Fund.

***Commerce and Trade.*** The adopted budget includes a net increase of \$107.6 million GF over the base budget. Major spending increases include \$46.0 million GF in additional deposits to the Housing Trust Fund and \$15.7 million GF each year in additional support for broadband deployment through the Virginia Telecommunication Initiative. In economic development, the adopted budget includes funding to meet the Commonwealth’s commitments to provide incentives to several projects, including \$20.0 million GF for grants through the Semiconductor Manufacturing Grant Fund, \$16.0 million GF for the Advanced Shipbuilding Production Facility Grant Fund, and \$18.9 million GF in new grant funding for projects recently endorsed by the MEI Commission.

The budget also includes \$12.5 million GF for site development and \$4.7 million GF to expand the custom workforce incentive program. The budget also includes \$25.7 million GF the first year and \$39.71 million GF the second year to create the Virginia Innovation Partnership Authority. This includes funding transferred from other entities (including reductions and increases in existing programs) and proposed funding for new initiatives.

***Public Education.*** The adopted budget for Direct Aid to Public Education totals \$14.4 billion. This is a net increase of \$533.5 million GF in FY 2021 and \$792.6 million GF in FY 2022 when compared to FY 2020 in Chapter 854 of the 2019 Acts of Assembly (HB 1700). Of these amounts, \$185.3 million GF in FY 2021 and \$305.0 million GF in FY 2022 was subsequently unallotted to address anticipated revenue shortfalls from COVID-19 pandemic.

The approved budget reflects biennial rebenchmarking of Direct Aid net costs of \$851.7 million GF. Rebenchmarking reflects updated salary and other cost data as of FY 2018. A

projected additional 14,461 students, above the projections in Chapter 854 of the 2019 Acts of Assembly (HB 1700), to 1,262,627 students by FY 2022, which represents an enrollment increase of 1.2 percent over two years and updated Composite Index of Local Ability-to-Pay calculations (Tax Year 2017). The adopted budget also reflects projected increase in Sales Tax revenue for a revised grand total of \$3.1 billion over the biennium. The adopted budget also reflects an increase in Lottery Proceeds by \$66.4 million over the biennium for a revised grand total of \$1.3 billion over the biennium. The adopted budget adds \$27.7 million GF over the biennium to backfill Literary Fund revenue that had previously been used to pay teacher retirement contribution costs. (In addition, Virginia Preschool Initiative non-participation savings of \$43.3 million is reflected, based on a 20 percent non-participation rate, down from the 25.69 percent rate used in Chapter 854 of the 2019 Acts of Assembly (HB 1700) for FY 2020.)

The adopted budget reflects several policy changes including: 1) \$287.8 million GF for the state's share of a 2 percent teacher and support staff salary increase in both fiscal years; 2) \$59.9 million GF to increase the At-Risk Add-On funding increment from 1 to 16 percent instead to 1 to 23 percent the first year and 1 to 26 percent the second year; 3) \$21.0 million GF to fund the state's share of English as Second Language instructors at one instructor per 54 students in FY 2021 and one instructor per 50 students in FY 2022; 4) \$19.6 million GF to increase the cost of competing adjustment rate for support positions from 10.6 to 16.0 percent; 5) \$10.6 million GF to support free school meals; 6) \$4.6 million GF for enrollment loss payments to small divisions losing more than 2 percent of enrollment; 7) \$3.8 million GF for hold harmless funding for school divisions that would have received less state funding than in FY 2020, even after rebenchmarking; and 8) \$1.8 million GF for the state's share of retiree health care credit for non-teachers.

The adopted budget additionally reflects several policy changes to the Virginia Preschool Initiative at a total of \$83.4 million GF over the biennium. The proposed changes include: 1) \$28.7 million GF to increase the VPI per pupil amount by 10 percent each year; 2) \$13.5 million GF to fund increased VPI class sizes and staffing ratios; 3) \$10.0 million GF to incentivize mixed delivery preschool providers with an add-on payment; 4) \$8.9 million GF to support piloted expansion of VPI to at-risk three year-olds; 5) \$8.0 million GF to supplement the Early Childhood Educator Incentive, 6) \$7.3 million GF to reallocate VPI slots to eliminate wait lists; and 7) \$7.0 million GF to expand the Virginia Early Childhood Foundation's Mixed Delivery Preschool Grant program.

Other approved initiatives in K-12 include: \$7.1 million GF to develop and implement the Virginia Learner Equitable Access Platform; \$3.3 million GF to increase the appropriation for Jobs for Virginia Graduates; \$1.6 million GF for increased support of Communities in Schools; \$1.3 million GF to support African American History at the Black History Museum and Cultural Center; \$1.0 million GF to support Civil War history education at the American Civil War Museum; \$1.0 million GF to support Blue Ridge PBS and other individual actions totaling fewer than \$1.0 million GF each.

**Higher Education.** The adopted budget includes a net \$284.4 million GF of new funding for the biennium for colleges and universities and other higher education entities and centers. Of

these amounts which are detailed below, nearly all was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic.

Over the biennium, \$69.0 million GF was provided for a new last-dollar community college initiative intended to cover the full cost of tuition, fees, and books for low and middle income students enrolled in select pathways in high demand fields; \$79.8 million GF for a Tuition Moderation Incentive Pool; \$60.6 million GF for undergraduate need-based aid reflecting recommended adjustments to the current methodology; \$22.0 million GF each for Old Dominion University and George Mason University to account for enrollment growth; \$10.0 million GF for Massey Cancer Center at Virginia Commonwealth University; \$10.8 million GF for student success initiatives at Virginia State University (VSU); and, \$9.8 million GF for student success initiatives at Norfolk State University (NSU).

In addition, the budget includes \$12.0 million GF for the tuition assistance grant program, \$5.5 million GF for information technology services at NSU and \$3.0 million GF for state match of VSU-Cooperative Extension.

The budget eliminates the Higher Education Research Initiative under the Secretary of Education and transfers certain amounts to the new entity under the Secretary of Commerce and Trade. Funding of \$4.0 million GF per year for a new Hampton Roads Biomedical Research Consortium is continued under Central Appropriations.

**Finance.** The adopted budget for the Finance Secretariat result in a net decrease of \$629.3 million GF over the biennium. These reductions were partially offset by a general fund increase of \$583.1 million over the biennium. Of the increases, \$100,003 GF the first year and \$300.0 million GF the second year was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic.

Of the general fund increases, a \$300.0 million GF deposit to the Revenue Reserve Fund is provided in the second year, as well as \$94.9 million GF in mandatory and voluntary deposits to the Revenue Stabilization Fund, and \$171.7 million GF in increased debt service costs over the biennium. These spending increases were offset by technical changes to remove the one-time appropriations in both the Revenue Reserve Fund and the Revenue Stabilization Fund, totaling \$1.2 billion GF that were included in Chapter 854 of the 2019 Acts of Assembly (HB 1700).

**Health and Human Resources.** The adopted budget includes a net increase of \$1.2 billion GF and \$2.6 billion NGF for the 2020-22 biennial budget. Spending of \$1.6 billion GF is offset by \$382.0 million GF in proposed reductions. However, \$441.9 million GF of new spending has been unallotted (which prevents agencies from expending the funds) as a result of the revenue impact from the COVID-19 pandemic and must be acted upon at a Special Session. Base adjustments make up \$128.2 million GF of the increase, which reflects the annualization of salary increases and other administrative funding adjustments. Similar to biennial budgets for HHR in previous years, the majority (52 percent) of the net general fund increase is driven by mandatory health

and long-term care spending on Medicaid. The unusually high increase in nongeneral funds is primarily due to adjustments to federal appropriation required to fund Medicaid growth along with the expansion of Medicaid coverage to individuals with incomes up to 138 percent of the federal poverty level pursuant to the Patient Protection and Affordable Care Act (ACA). This federal funding adjustment accounts for about \$1.8 billion, or 72 percent, of the net increase in nongeneral funds over the biennium.

Mandatory general fund spending of \$942.2 million GF (61.7 percent of new GF spending in HHR) is primarily related to spending for acute and long-term care services provided through Medicaid, the transition to the lower federal match rate for the Children's Health Insurance Programs, the increasing caseload of special education private day placements in the Children's Services Act, implementation costs of STEP-VA, and funding related to fulfill the U.S. Department of Justice (DOJ) Settlement Agreement. In total, spending on Medicaid requires the addition of \$626.3 million GF for the biennium to pay for health care services for low-income Virginians as well as long-term care costs for the elderly and disabled. The general fund share of the Medicaid forecast is partially offset by \$231.7 million in additional revenue to the Health Care Fund, which is mainly higher due to an increase in the cigarette tax from 30 to 60 cents per pack. Overall growth rates in Medicaid are expected to rise during the biennium at or above the 10-year average growth level for the program.

The adopted budget also includes \$462.9 million GF in discretionary spending in HHR (30 percent of new GF spending). Out of this spending the largest portion, \$187.3 million, is provided for Medicaid rate increases to various providers (personal care, developmental disability waiver, nursing facility, and a variety of other providers). Another major spending initiative of \$75.2 million GF is provided for a variety of initiatives to relieve the census pressure on state mental health hospitals. The next largest spending item is \$45.8 million GF to fund Family First foster care prevention programs. In addition, \$11.2 million GF is provided to increase the minimum salary of local social workers. Other expenditures include: \$34.0 million to add an adult dental benefit to Medicaid, \$13.3 million GF to fund the impact of the redesign of Medicaid behavioral health services, \$11.8 million GF to fund a home visiting benefit for pregnant women through Medicaid, and \$3.2 million GF to support vocational rehabilitation services for the blind and vision impaired.

New spending in HHR is offset by general fund budget reductions of \$382.0 million GF. Over 62 percent of the reductions (\$237.7 million GF) are related to savings due to the increase in cigarette tax revenue (due to the tax increase) to the Health Care Fund, which provides funding for the state match for Medicaid.

*Natural Resources.* The adopted budget for the Natural Resources secretariat includes general fund investments in new or expanded initiatives totaling \$90.0 million GF over the biennium, of which \$88.3 million GF is subsequently unallotted in order to address the unknown fiscal impact of the COVID-19 pandemic. Beyond the allocation of technical adjustments to cover internal service fund changes and salary actions approved by the 2019 General Assembly, the

largest retained general fund action is the appropriation of the statutorily required deposit to the Water Quality Improvement Fund of \$47.0 million GF in the first year for investments in agricultural best management practices in accordance with Virginia's Watershed Implementation Plan.

Capital outlay authorizations supporting investments in water quality programs, land acquisition, and state park operations total more than \$190.5 million in bond proceeds and NGF resources. Of these amounts, the largest authorizations are \$50.0 million in bond proceeds for deposit to the Stormwater Local Assistance Fund and \$50.0 million in bond proceeds provided for improvements to waste water treatment plants. Finally, \$25.0 million of VPBA bonds are authorized in support of the City of Alexandria Combined Sewer Overflow project. At the Department of Conservation and Recreation, approximately \$28.7 million is authorized for improvements across the State Park system and \$10.0 million is provided for installation of artificial oyster reefs managed by the Virginia Marine Resources Commission.

**Public Safety.** The adopted budget for the Public Safety and Homeland Security secretariat provide a total of \$163.8 million GF in increases the first year and \$168.4 million GF in increases the second year.

The budget includes substantial increases for medical care at the Department of Corrections. These include \$12.6 million GF the first year and \$14.9 million GF the second year for the increased Hepatitis C testing and treatment of inmates; \$3.9 million GF the first year and \$5.6 million GF the second year for inflation in the general cost of inmate medical care; a total of \$17.9 million over the biennium in new general fund and nongeneral fund support for the department to procure and implement an electronic health records system (total funding available is \$35.1 million including existing funds, NGF, and carryforwards); and, \$9.2 million GF over the biennium for pilot medical programs to be operated by VCU and UVA at two correctional institutions.

A number of increases are also related to various firearms bills passed during the 2020 Session. For State Police, \$2.1 million GF the first year and \$1.2 million GF the second year and 10 positions are provided to enforce the provisions of various bills, including universal background checks for firearm purchases. The bill also includes \$100,000 GF each year and one position at DCJS to train law enforcement officers on the removal of firearms from persons posing substantial risk, as well as one-time grant funding of \$500,000 GF for the department to make grants to localities for training on enforcement of the substantial risk law.

Other major actions include an increase of \$8.6 million GF per year in the "HB 599" funding that is distributed by DCJS to localities with qualifying police departments; and \$6.0 million GF over the biennium under the Department of State Police for the Community Policing Act, which prohibits bias-based profiling by law enforcement and establishes a collection and reporting protocol for data on law enforcement stops that will be analyzed to understand the occurrence of bias-based profiling in the Commonwealth.

Due to the impact of the COVID-19 pandemic in the Commonwealth, and potential general fund revenue losses, the adopted budget includes unallotment of a total of \$31.5 million GF in the first year and \$43.0 million GF in the second year, adopted during the Reconvened Session, which can be reallocated by future General Assembly action, pending a reforecast of general fund revenues that accounts for the financial impacts of the COVID-19 pandemic.

***Veterans and Defense Affairs.*** The adopted budget for the Veterans and Defense Affairs secretariat provide an additional \$6.3 million GF the first year and \$3.5 million the second year. Of these amounts, a total of \$4.4 million GF the first year and \$1.6 million GF the second year was unallotted during the Reconvened Session to address the impact of the COVID-19 pandemic in the Commonwealth and potential anticipated general fund revenue losses. The largest single increase in the secretariat is funding for a payment of \$3.0 million GF to the County of Fairfax in FY 2021 for the construction of the Virginia Veteran's Parade Field. Also included are \$719,000 GF in FY 2021 and \$1.1 million GF in FY 2022 and seven positions for the Department of Veterans Services to increase the level of service being provided to its clients. Finally, an additional \$250,000 GF each year is provided to the Department of Military Affairs to increase the total appropriation for the State Tuition Assistance Program to \$3.25 million GF annually.

***Transportation.*** The adopted budget for transportation includes a biennial increase of \$3,833.5 million NGF and 192.00 FTE positions reflecting the estimated revenue impact of multiple transportation revenue bills adopted during the 2020 General Assembly and the December 2019 Commonwealth Transportation Fund Forecast. While neither explicit downward adjustments to assumed transportation revenues or specific unallotment actions are included in response to the coronavirus pandemic, a substantial reduction in revenue is assumed and language is included to authorize the current Six Year Improvement Plan to remain in effect until an official revenue reforecast occurs.

In addition, \$40.0 million GF in annual debt service appropriations for the Route 58 corridor is removed from VDOT and replaced with a like amount of Commonwealth Transportation Fund revenues. Funding to support capital improvements for the Washington Metropolitan Area Transit Authority totaling approximately \$130.0 million in transportation revenues are shifted from the Department of Transportation to the Department of Rail and Public Transportation. At the Department of Motor Vehicles, an additional 140.00 FTEs are authorized for the issuance of federal REAL ID compliant credentials.

***Central Appropriations.*** The adopted budget in Central Accounts results in a net decrease of \$180.9 million GF over the biennium compared to the base appropriations in FY 2020. Of the increases, \$126.1 million the first year and \$154.7 million the second year was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic.

Significant spending items include \$264.9 million over the biennium for compensation actions for state employees and state-supported local employees; \$41.3 million for the state share of employee health insurance premiums; \$31.4 million for VRS retirement contribution increases

and \$30.4 million for the Tech Talent Investment Fund. These increases were offset by a reduction in Virginia Information Technologies Agency rates due to the full repayment of transition costs from the previous IT vendor, and lower rates under the new multi-supplier platform, as well as the distribution to line agencies for salary actions and benefit programs centrally appropriated in Chapter 854 of the 2019 Acts of Assembly (HB 1700).

***Independent Agencies.*** The adopted budget for the Independent Agencies reflects a general fund increase of \$13.2 million over the biennium, and nongeneral fund increase of \$82.4 million over the biennium. Of these amounts, \$4.7 million each year was subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic.

Adopted general fund increases reflect a \$3.8 million net-zero transfer of Physical Evidence Recovery Kit appropriations from judicial agencies to the Workers' Compensation Commission, which are derived from a portion of Criminal Fund appropriations in judicial agencies, and \$9.4 million for reimbursements to health care providers for forensic and medical exams through the Workers' Compensation Commission's Sexual Assault Forensic Exam (SAFE) Payment program.

Significant nongeneral fund spending includes \$21.7 million to establish a State Health Benefit Exchange (Exchange), within the State Corporation Commission (SCC), to provide a health insurance marketplace for the purchase and sale of qualified health and dental plans in the individual and small group markets. Language also allows the Secretary of Finance to authorize a treasury loan for the SCC to fund start-up costs associated with the implementation of the Exchange, as well as repayment of the treasury loan through a portion of the user fees collected from insurance carriers participating in the Exchange.

Also included are 96.00 FTE positions each year for to support the Virginia Lottery's regulation and oversight of casino gaming, the costs for which will be supported by gaming licensing and related fee revenues.

***Capital Outlay.*** The adopted budget for the capital outlay program totals \$3,300.3 million from all fund sources. Of this amount, \$21.0 million is general fund cash and \$2,005.6 million is from tax-supported bonds. Of these amounts, the general fund amounts have been subsequently unallotted to address anticipated revenue shortfalls from the COVID-19 pandemic. The budget also includes \$279.5 million in 9(c) revenue bonds and \$388.0 million in 9(d) revenue bonds. The balance of \$606.2 million is nongeneral fund cash from a variety of agency fund sources.

The general fund cash is allocated for the detailed or pre-planning planning of new projects, a Virginia Beach access project, and a regional airport project. The tax-supported bonds include an allocation of \$274.0 million over the biennium for Maintenance Reserve, \$108.6 million in equipment supplements for capital projects coming online within the next 18 months, and \$170.7 million in project supplements.

## Available Balance

The budget, as adopted, includes a projected beginning balance of \$1,185.3 million at the close of the 2018-20 biennium. This beginning balance results primarily from the FY 2019 revenue surplus, the FY 2020 December and mid-session revenue forecast revisions, positive net transfer adjustments and FY 2020 net spending reductions included in Chapter 1283 of the 2020 Acts of Assembly (HB 29).

The \$119.6 million adjustment to the balance reflects the appropriation of \$47.4 million from excess FY 2019 revenues set aside for the \$32.4 million “Part A” deposit to the Water Quality Improvement Fund (WQIF) generated by the FY 2019 revenue surplus, and \$14.6 million for the “Part B” deposit, generated by unexpended appropriations at the end of FY 2019. In addition, \$77.4 million is set aside for the mandatory Revenue Stabilization Fund deposit resulting from the FY 2019 revenue surplus. These amounts will be appropriated in FY 2021. The adjustments are offset by a reduction of \$500,000 each year pursuant to the Intergovernmental Cash Management Act.

## Pre-COVID-19 Economic Projections

The 2020-22 general fund revenue forecast assumes revenue growth rates of 3.3 percent for FY 2021 and 3.7 percent for FY 2022. Estimates are based on the consensus revenue forecast developed before the effects of the COVID-19 pandemic were apparent. Built into the forecast is

the assumption that economic growth will continue at both the national and state levels. Prior to the COVID-19 outbreak, Virginia was expected to have slightly softer growth than the nation with Virginia employment growing 0.6 percent in FY 2021 and 0.4 percent in FY 2022, compared to 0.8 percent and 0.7 percent for the U.S.

Also embedded in this forecast is the continuation of the “collar” on nonwithholding tax collections. The collar is an adjustment applied to the nonwithholding forecast which is intended to correct for large variations in nonwithholding tax revenues. The collar is calculated as the lesser of (i) the difference between the forecast model’s estimate of nonwithholding collections and 16.14 percent of general fund revenues (the long term average share of general fund revenues), or (ii) one percent of general fund revenues. Applying the collar lowers forecasted revenues by \$227.1 million in FY 2021 and \$235.3 million in FY 2022, equivalent to 1 percent of the general fund each year.

In addition, adopted policy changes that impact general fund revenues are expected to add \$42.1 million over the biennium. These proposals are outlined in more detail below. After accounting for policy changes, technical and forecast adjustments, projected general fund revenue collections total \$22,687.8 million in FY 2021 and \$23,538.3 million in FY 2022.

**NGF Tax Policy Changes**

The adopted budget includes significant additional new nongeneral fund revenues related to policy changes that were adopted during the 2020 General Assembly. Major policy changes include increasing the state tax on cigarettes and other tobacco products, imposing a tax on games of skill, and increasing revenues dedicated to transportation.

*Cigarette, Other Tobacco and Liquid Nicotine Taxes.* Chapter 1289 of the 2020 Acts of Assembly (HB 30) includes an increase in the state cigarette tax from \$0.30 per pack to \$0.60 per pack, and increase in the tax on other tobacco products imposed on distributors from 10 percent to 20 percent, and a new tax on liquid nicotine. Combined, these adjustments yield an additional \$258.2 million in revenue to the Health Care Fund over the biennium.

*Tax on Skill Games / COVID-19 Relief Fund.* Chapters 1217 and 1277 of the 2020 Acts of Assembly (HB 881/SB 971) impose a monthly tax on distributors of skill games equal to \$1,200 for each skill game provided for play in Virginia through July 1, 2021. The tax is anticipated to generate approximately \$150.0 million in FY 2021 for the COVID-19 Relief Fund. As introduced, HB 881 and SB 971 would have effectively banned added skill games by adding them to the definition of illegal gambling. As enacted, the bills delay the ban until July 1, 2021.

*Transportation Revenues.* Net new nongeneral fund revenues of \$185.2 million in FY 2021 and \$402.8 million in FY 2022 are also assumed from a package of transportation funding

adjustments that were adopted. Chapters 1230 and 1275 of the 2020 Acts of Assembly (HB 1414/SB 890) adopt numerous structural changes to the transportation funding system, including increasing the motor fuels tax by \$0.10 per gallon over two years, reducing the annual motor vehicle registrations by \$10, establishing a new road user fee based on vehicle fuel economy, and expanding regional motor fuels taxes.

**GF Tax Policy Changes**

The revenue forecast assumed in Chapter 1289 of the 2020 Acts of Assembly (HB 30) contains \$49.7 million in additional general fund revenues related to policy changes endorsed by the General Assembly.

***Audit and Enforcement.*** The first three adjustments are tax-related initiatives proposed by the Governor and supported by the General Assembly through legislation and related budget actions. The first is an effort at the Virginia Department of Taxation to expand field audits in Northern Virginia to keep pace with the broadening online taxpayer base and growing population. The Department anticipates this will produce \$3.1 million in additional revenue in FY 2021 and \$5.5 million in additional revenue in FY 2022. Second, Chapters 681 and 682 of the 2020 Acts of Assembly (HB 1407/SB 744) prohibit an employer from classifying an individual as an independent contractor if he is an employee. The legislation authorizes the Department of Taxation to enforce the prohibition. The Department will create a worker misclassification audit team comprised of six additional auditors and three support staff that is estimated to result in additional revenue of \$1.7 million in FY 2021 and \$2.6 million in FY 2022. Third, Chapters 248 and 63 of the 2020 Acts of Assembly (HB 730/SB 211) lower the threshold for 1099K reporting to

\$600, which is anticipated to generate additional revenue of \$10.3 million in FY 2021 and \$20.6 million in FY 2022.

**Conformity.** Chapters 255 and 1 of the 2020 Acts of Assembly (HB 1413/SB 582) advance the date by which Virginia conforms to the Internal Revenue Code from December 31, 2018, to December 31, 2019, resulting in a net GF reduction of \$4.7 million in FY 2021 and a net GF increase of \$2.4 million in FY 2022. The revenue impact of this bill is attributable to two provisions within the federal extenders bill: disaster relief provisions, and the repeal of the unrelated business tax (“UBTI”) on certain fringe benefits. In addition, the adopted budget incorporates revenue adjustments requested by the Governor in an executive amendment that reflects adjustments resulting from federal provisions enacted after the Governor’s budget was introduced. The adjustments result in a reduction in general fund revenue of \$1.3 million in FY 2021 and an increase of \$1.5 million in FY 2022.

**District Court Civil Filing Fees.** Language in Part 4-14 increases the fees for services of district court judges, clerks, and magistrates in civil cases by \$6, from \$30 to \$36. This includes fees associated with all general district court and magistrate services in each distress, detinue, interrogatory summons, unlawful detainer, civil warrant, notice of motion, garnishment, attachment issued, or other civil proceeding.

**Texas Hold'em Event Fees.** Chapter 982 of the 2020 Acts of Assembly (SB 936) allows certain qualified organizations to conduct Texas Hold'em poker events in conjunction with charitable gaming activities, subject to conditions to be prescribed by the Charitable Gaming Board. An additional 0.25 percent audit and administration fee is assessed on the gross receipts generated from charitable gaming activities which is projected to increase GF revenues by \$560,803 each year.

Partially offsetting the anticipated increase in general fund revenues is a general fund reduction of \$0.4 million in FY 2021 and \$0.4 million in FY 2022 related to bottomlands permit fees. Chapter 806 of the 2020 Acts of Assembly (SB 702) redirects oyster leasing revenues from the general fund to the Oyster Leasing Conservation and Replenishment Programs Fund.

**Transfers**

Transfers to the general fund total \$1.3 billion over the biennium. Of this amount, \$860.6 million represents the standard 0.375 percent sales tax transferred from the Local Real Estate/SOQ Fund for public education.

Other customary transfers include ABC profits of \$253.8 million for the biennium, with an additional \$130.8 million of ABC profits and \$18.3 million of spirit taxes offsetting GF costs at the Department of Behavioral Health and Developmental Services for substance abuse programs.

Chapter 1289 of the 2020 Acts of Assembly (HB 30) includes transfers of \$33.0 million over the biennium to the Game Protection Fund attributable to the watercraft sales and use tax and from the portion of the general sales tax dedicated to the Fund by *Code*, and \$28.1 million to the Virginia Family Access to Medical Insurance Security Plan Trust Fund.

The adopted budget also includes transfers of \$2.8 million each year to the Department of Motor Vehicles to replace the anticipated loss of driving privilege reinstatement fee revenue, and transfers totaling \$2.7 million to the Virginia Waterway Maintenance Grant Program and Fund, administered by the Virginia Port Authority.

Also reflected in Chapter 1289 of the 2020 Acts of Assembly (HB 30) is a reduction in the transfer from the court debt collections program at the Department of Taxation of \$0.6 million each year, lowering the biennial transfer to \$4.8 million. The remaining transfer actions are

customary transfers that have not been adjusted beyond technical updates compared to the amounts transferred in Chapter 854 of the 2019 Acts of Assembly (HB 1700).

The funding is sufficient to add 90 additional deputy district court clerk positions the first year and 30 the second year (total of 120 over the biennium). According to the workload standards developed by the Office of the Executive Secretary of the Supreme Court, current staffing levels in district courts are 276 positions lower than that suggested by the 2019 staffing model. This increases the total general district court clerk FTE positions to 1,702.00. Includes language authorizing the Executive Secretary of the Supreme Court, at its discretion, to use the funding for additional district court clerk positions, salary increases for district court clerks, or a combination of both. There is a corresponding amendment in Part 4-14 that increases general district court civil filing fees by \$6 (from \$30 to \$36), which is projected to generate \$3.9 million in additional general fund revenues each year.
- ***New Judge and Clerk in 19<sup>th</sup> Judicial District (Unallotted).*** Includes \$323,000 GF each year to fund a new general district court judgeship in the 19<sup>th</sup> Judicial District (Fairfax) and one corresponding deputy district court clerk position.   - ***Reduce Criminal Fund Appropriation Related to New Public Defender Office.*** Includes a general fund reduction of \$600,141 over the biennium to the Criminal Fund to account for a projected reduction in court-appointed counsel due to the opening of a new public defender office in Prince William County. There is a companion amendment to the Indigent Defense Commission that establishes the new office, as well as amendments to the Circuit Courts and General District Courts that similarly reduce Criminal Fund appropriations commensurate with the projected reduction in court-appointed counsel.

  - ***Establish Prince William Office.*** Provides \$2.7 million GF each year and 35 positions to establish a new public defender office in the County of Prince William. There are currently 25 public defender offices serving the Commonwealth, with Prince William County being the largest locality not currently served. This is the first new public defender’s office established in the Commonwealth since 2005. There are companion amendments in the Circuit Courts, General District Courts, and Juvenile and Domestic Relations District Courts that reduce Criminal Fund appropriation, collectively, by \$1.1 million GF the first year and \$2.1 million GF the second year to account for the reduction in court-appointed counsel for criminal indigent defense as some cases shift to the new public defender office.

- **Secretary of Administration**

- *Fund Chief Data Officer Operations.* Adds \$2.6 million NGF the first year and \$2.3 million NGF and two positions the second year for continuation of data sharing and analytics activities performed by the Chief Data Officer, including the development of a data inventory, dictionary, and catalog. The operations would be funded through a charge-back structure developed by the Virginia Information Technologies Agency (VITA), which is reflected in the rates charged to state agencies based on their volume of data storage. Language is also included requiring that any Invitation for Bid or Request for Proposal related to the development of a data inventory, dictionary, and catalog be subject to review and approval by the Virginia Information Technologies Agency, consistent with § 2.2-2020, *Code of Virginia*. One-time funding of \$752,541 GF was provided in Chapter 854 of the 2019 Acts of Assembly (HB 1700) for development of a data dictionary and catalog, and other initiatives, as was language directing VITA to establish a charge-back structure to allocate costs based on agencies' consumption of data storage. The revenues from the first charges, effective July 1, 2020, shall be used to support the Chief Data Officer's efforts to create a Commonwealth data inventory, and enterprise data dictionary and catalog.

- **Compensation Board**

- *Provide Salary Increase to Regional Jail Officers (Unallotted).* Provides \$2.7 million GF the first year and \$2.9 million GF the second year to provide an \$897 increase in starting pay to regional jail officers, consistent with salary increases provided for the entry level salaries of sworn local jail officers in Chapter 2 of the 2018 Acts of Assembly, Special Session I (HB 5002). The proposed funding would equalize the pay grade for all entry level correctional officers in local and regional jails.
- *Increase Salary for Circuit Court Clerks (Unallotted).* Adds \$1.8 million GF the first year and \$2.0 million GF the second year to increase the salaries of circuit court clerks to establish parity with the general district court clerk pay scales. In Chapter 836 of the 2017 Acts of Assembly (HB 1500), \$2.6 million GF was provided to increase the salaries of General District Court clerks and deputy clerks, effective September 10, 2017, which exacerbated the disparity between the district court and circuit court pay bands. In Chapter 2 of the 2018 Acts of Assembly, Special Session I (HB 5002), budget language directed the Compensation Board to conduct a study of circuit court clerk salaries in relation to district court clerk and deputy clerk salaries. The report detailing the Compensation Board's findings indicated that a salary disparity generally exists between circuit court clerks and district court clerks, though the disparity is mitigated by local supplemental pay at the higher position classification levels.

- ***Fund Minimum of Three Staff in Circuit Court Clerk Offices (Unallotted).*** Provides \$358,578 GF the first year and \$391,176 GF the second year to establish a minimum of three circuit court clerk staff in each Circuit Court Clerk’s office in the Commonwealth. The proposal would provide for 14 additional deputy clerk positions.

This includes Assistant Commonwealth’s Attorneys and support staff to address increased workload demands in various offices throughout the Commonwealth.
- ***Annualize Cost of Additional Commonwealth’s Attorney Positions.*** Adds \$122,617 GF each year to annualize the cost of additional Assistant Commonwealth’s Attorneys and staff positions. In Chapter 854 of the 2019 Acts of Assembly (HB 1700), 21 additional Assistant Commonwealth’s Attorneys and 11 additional administrative support positions were added in FY 2020, which reflected approximately 20 percent of the unfunded positions statewide, as determined by the FY 2019 staffing standards calculation. This is a technical adjustment that was overlooked during budget development.
- ***Increase Funding for SAVIN System Enhancements (Unallotted).*** Provides \$600,000 GF each year to increase the annual amount provided for the Statewide Automated Victim Information and Notification (SAVIN) System, to a total of \$1.8 million GF each year. The amount is intended to allow the Virginia Center for Policing Innovation to enhance the SAVIN system by providing automated protective order notifications. A separate language amendment expands the use of SAVIN to support additional public safety systems, contingent upon raw state data that is transmitted to the SAVIN system be shared with the Compensation Board and the Commonwealth of Virginia’s Chief Data Officer, in a manner that is mutually agreed upon by both the vendor managing the SAVIN system and the Chief Data Officer.
- ***Expand Use of SAVIN to Additional Public Safety Systems.*** Includes language authorizing the use of SAVIN to support additional public safety systems authorized by statute or the Appropriation Act, including to supplement risk factors, provide notifications, or data-driven information. - ***Increase Funding to Nottoway County for the Piedmont Regional Jail.*** Provides \$98,664 GF the first year and \$115,939 GF the second year to increase funding to Nottoway County for the costs of housing residents from the Virginia Center for Behavioral Rehabilitation (VCBR) arrested for new offenses and then transferred to the Piedmont Regional Jail. The projected cost increase is based upon projected growth in the population of residents at the VCBR. The amendment increases the first year funding to \$198,664 GF and the second year funding to \$215,939 GF.
- ***Provide Technology Funding to Circuit Court Clerk's Offices (Unallotted).*** Provides \$1.0 million GF each year for the Technology Trust Fund to support information technology improvement projects in Circuit Court Clerks offices. This proposal reduces the use of the Technology Trust Fund (TTF) to supplant previously general funded operations in Circuit Court Clerk offices. In 2009, \$2.98 million GF supporting circuit court clerks' office operations was eliminated due to budget reductions, and was supplanted with Technology Trust Funds. General Fund support for circuit court clerk operations has been added back incrementally the past several years. This amendment reduces the TTF supplant from \$1.9 million each year, to \$978,426 GF each year.
- ***Perform Review of Career Development Programs.*** Includes a language amendment directing the Compensation Board to perform a review of the career development programs within the constitutional offices regarding the demographic composition of the employees in the programs and make recommendations as needed to ensure equity and fairness within the programs, and to provide a report to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by November 1, 2020.

This proposed action reflects the annual operating costs associated with the state's share of jail expansion.
- ***Fund Positions for Henry County Jail Replacement Project.*** Provides \$2.2 million GF the second year for staffing costs for the Henry County jail replacement project.

In Chapter 2 of the 2018 Acts of Assembly, Special Session I (HB 5002), this project was added to the list of approved projects receiving a 25 percent share of approved capital costs.

- ***Provide Funding for 25 percent of Sheriffs' Offices Staffing Needs (Unallotted).*** Adds \$979,399 GF the first year and \$1.1 million GF the second year to meet 25 percent of the Compensation Board's assessment of staffing needs, or 29 additional deputy sheriffs, for various Sheriffs' offices throughout the Commonwealth based on staffing standards.

This action also transfers 1.00 FTE position to the Virginia Information Technologies Agency (VITA), as they will no longer utilize the HRSC. Of these amounts, \$10.0 million NGF the first year is allocated to the Commonwealth Commercialization Fund; \$5.0 million NGF the first year is allocated to scale the Commonwealth Cyber Initiative (CCI) for activities at the Hub; Virginia Polytechnic Institute and State University and Node sites; and, \$5.0 million NGF the first year is allocated for the leasing of space and establishment of the Hub by the anchoring institution. The remaining proceeds, estimated to total at least \$20.0 million NGF, is allocated to the Division of Investment and may be used to invest in one or more syndicated private investment funds; to make additional investments in partnership with Virginia accelerators and university technology commercialization programs; and, to establish a program to enhance

discovery of, and early investment in, technologies aligned with the Virginia Innovation Index.

<b>Grand Total for all Revenue Sources</b>	<b>\$8,351.6</b>	<b>\$8,939.9</b>	<b>\$9,127.5</b>

- **State's Share of Biennial Rebenchmarking.** Preliminary rebenchmarking calculations by the Department of Education as of September 2019 were \$289.6 million GF in FY 2021 and \$306.1 million GF in FY 2022, which totaled \$595.7 million GF for the biennium.

The Governor's introduced budget for FY 2020-22 included updating the remaining rebenchmarking data steps, which resulted in a total rebenchmarking cost of \$851.7 million GF for the biennium.

- **Projected Enrollments.** Reflects student enrollment projections estimated to total 1,257,189 in the unadjusted ADM in FY 2021, and 1,262,627 students in FY 2022, up from 1,248,166 for FY 2020 in Chapter 854 of the 2019 Acts of Assembly (HB 1700). The updated projection for FY 2020 in the caboose bill, Chapter 1283 of the 2020 Acts of Assembly (HB 29), is now 1,251,668.
- **Funded Instructional Salaries.** Reflects updated funded salary levels from 2018-20 to 2020-22 due to base year (FY 2018) prevailing salary adjustments and reflects the statewide prevailing average salaries and the state's 5 percent compensation supplement for FY 2020.

<b>Instructional Positions</b>	<b>2018-20</b>	<b>2020-22</b>	<b>Percent Change</b>
<b>Elementary Level:</b>			
Teachers	\$48,298	\$51,371	6.4%
Assistant Principals	68,545	71,532	4.4%
Principals	85,115	89,378	5.0%
<b>Secondary Level:</b>

Assistant Principals	74,535	77,181	3.6%
Principals	93,695	99,215	5.9%
Instructional Aides	17,738	18,995	7.1%

- **Health Care Premiums.** Reflects prevailing costs associated with the health care premium rate of \$5,502 per funded position (adjusted for actual participation and inflation), up from \$5,086 per funded position in FY 2020.
- **Funded VRS Fringe Benefit Rates.** The employer rates changed for teacher retirement from 15.68 percent to 16.62 percent, retiree health care credit from 1.20 percent to 1.21 percent, and group life insurance from 0.52 percent to 0.54 percent. The rate adjustment also reflects an increase in the funded employer rate for retirement contributions paid on behalf of non-professional support positions from 6.28 percent to 6.52 percent (actual rates vary by school division). The change in contribution rates reflects the VRS Board decision to reduce the assumed rate of return, which requires increased employer contribution rates.
- **Base Year Expenditures.** Reflects various adjustments including base year (FY 2018) expenditure data; updating of school-level enrollment configurations; and, updated data for the federal revenue deduction.
- **Transportation Costs.** Reflects updated base year transportation cost data.
- **Textbook Per Pupil Amount.** Reflects per pupil prevailing textbook costs, reported by localities, calculated at \$107.47 compared with the funded amount of \$100.69 for FY 2020 in Chapter 854 of the 2019 Acts of Assembly (HB 1700).
- **Incentive, Categorical, and Lottery Accounts.** Reflects various adjustments to incentive, categorical, and Lottery-funded accounts that are linked to SOQ

funding factors, such as ADM enrollment or Basic Aid per pupil cost and student program participation totals.

In addition, reflects a projected increase in Lottery Proceeds of \$41.8 million NGF the first year and \$43.8 million NGF the second year for total proceeds of \$658.0 million NGF the first year and \$666.1 million NGF the second year. The projected increases reflect the General Assembly's action banning grey machines and removing the prohibition on online lottery sales. The introduced budget projected reduced lottery revenues of \$12.7 million NGF the first year and \$6.5 million NGF the second year, requiring a like amount of general fund expenditures to maintain current funding policy. The final budget maintained these additional general fund expenditures.

In response to the financial difficulties anticipated to result from the COVID-19 pandemic, during the Reconvened Session, the General Assembly adopted the Governor's recommendation to Chapters 1217 and 1277 of the 2020 Acts of Assembly (HB 881/SB 971), which allows grey machines to operate from July 1, 2020 to June 30, 2021 with the proceeds from a \$1,200 monthly device tax deposited to the COVID-19 Relief Fund. There were no adjustments to recognize any negative impact to Lottery Proceeds from authorizing grey machines in FY 2021.

- **Update Composite Index of Local Ability to Pay (LCI).** The elements used to calculate each school division's composite index of local ability-to-pay are updated from 2015 to 2017, which are the most current available at the time the LCI updates are calculated. The composite index measures local wealth through true value of real property (50 percent), adjusted gross income (40 percent) and retail sales tax collections (10 percent). The index is weighted two-thirds by ADM and one-third by population.
- **Projected Sales Tax Revenue.** The sales tax revenues from the one cent portion along with the additional one-eighth cent sales tax from the Public Education SOQ/Real Estate Property Tax Relief Fund that are dedicated for public education and distributed based on school-aged population are projected to increase from \$1,486.3 million GF in Chapter 854 of the 2019 Acts of Assembly (HB 1700) for FY 2020 to \$1,541.7 million GF in FY 2021 and \$1,566.2 million in FY 2022. The sales tax revenue increases generate offsetting savings in the state's share of SOQ Basic Aid funding of \$30.9 million GF in FY 2021 and \$44.6 million GF in FY 2022. When combined, the net impact of the updated sales tax revenue estimates and the SOQ Basic Aid offsets, total funding to school divisions increase by \$24.5 million in FY 2022 and \$35.3 million in FY 2022.

- **Update Sales Tax Distribution Based on Changes to Estimates of School Age Population.** Adds \$1.3 million GF in both years to reflect the updates to the sales tax distribution to local school divisions that are now based on the July 1, 2018, estimate of school age population.
- **Literary Fund Support for School Employee Retirement Contributions.** Adds \$53.4 million GF in FY 2022 to backfill Literary Fund revenues that previously had been used to pay for teacher retirement costs. According to the Department of Treasury, total Literary Fund receipts are forecasted to decline primarily due to a reduction in transfers from Unclaimed Property, diminishing revenue streams from school construction loan repayments, and a decline in fines, fees, and forfeitures.
- **Backfill Driver's Education Funding.** Adds \$630,000 GF the second year to backfill the same amount of revenue decline projected in driver's license renewal fees from the Department of Motor Vehicles, which a portion of the fee supports the cost of driver's education in high schools that offer a driver education course.

– *Technical Updates*

- **Update Composite Index for Montgomery County.** Provides \$197,155 GF the first year and \$198,755 GF the second year to Montgomery County due to a substantial error in the composite index of the locality for the FY 2020-22 biennium. The composite index of other localities will not be changed as a result of the adjustment for Montgomery County.
- **Special Education-State Operated Programs.** Adds \$925,954 GF the first year and \$972,443 GF the second year to recognize program growth in FY 2021 to the Special Education–State Operated Programs. During rebenchmarking, funding was only included for the growth rate in FY 2022.
- **VPSA Technology Grants.** Reduces the VPSA Educational Technology Grant program by \$26,000 NGF each year as a program currently receiving a grant plans to disband in FY 2021.

– *Policy Changes*

- **Funding for State's Share of a 2 Percent Salary Increase Each Fiscal Year (Unallotted).** Provides \$95.1 million GF in FY 2021 and \$192.7 million GF in FY 2022 for the state's share of a 2 percent salary increase effective July 1, 2020 and another 2 percent salary increase effective July 1, 2021 for instructional and support positions recognized and funded by the Standards of Quality (SOQ) funding model. To receive the state's share of the

compensation supplements—localities are required to provide a local match, as calculated by the local composite index.

In FY 2021, school divisions must provide a minimum average 2 percent salary increase to SOQ funded instructional and support positions in the first year to be eligible to receive the state’s share of funding for the 2 percent increase in FY 2021. School divisions providing an increase in excess of 2 percent in the first year may credit the amount in excess of 2 percent toward eligibility for the 2 percent Compensation Supplement in the second year.

In FY 2022, school divisions must provide a minimum average 2 percent salary increase to SOQ funded instructional and support positions during the FY 2020-22 biennium to be eligible to receive the state’s share of funding for the 2 percent increase in FY 2022. Increases provided in excess of 2 percent in the second year will not credit toward the 2 percent Compensation Supplement for the first year.

- **Infrastructure & Operations Per Pupil Fund.** Provides \$0.5 million GF in FY 2021 and \$19.8 million GF in FY 2022 to pay for several programs' cost that were moved out of Lottery-funded program account and funded with general fund dollars to free-up Lottery revenues that are now allocated to the Infrastructure & Operations Allocation initiative, formerly the Supplemental Lottery Per Pupil Amount. In addition, adjustments reflect an increase of \$41.8 million NGF in FY 2021 and \$43.8 million NGF in FY 2022 from projected increases in the Lottery Proceeds Fund revenue collections. The net total amounts of \$42.3 million NGF the first year and \$63.6 million NGF the second year in available Lottery revenues are added into the Infrastructure & Operations Per Pupil Allocation (PPA). The revised total amount of the Infrastructure & Operations PPA account equals \$263.0 million NGF the first year and \$266.2 million NGF the second year. The per pupil amount increased from \$366.01 in FY 2020, per Chapter 854 of the 2019 Acts of Assembly (HB 1700), to \$375.27 in FY 2021 and \$378.52 in FY 2022.

School divisions are required to use 30 percent the first year and 40 percent the second year of the per pupil funding for nonrecurring costs. Nonrecurring costs include school construction, additions, infrastructure, site acquisition, renovations, school buses, technology along with other expenditures related to modernizing classroom equipment, and debt service payments on school projects completed during the last 10 years. In total, \$78.9 million the first year and \$106.5 million the second year of the Infrastructure & Operations Allocation will be provided to support divisions’ non-recurring expenditures.

Localities are required to match the state funds based on the local composite index beginning in FY 2022. The minimum state payment to divisions for this initiative is \$200,000 per year. Divisions receiving the minimum \$200,000 payments are only required to provide a local match on the per pupil amount beginning in FY 2022. Beginning in FY 2022, eligibility for state funding is contingent upon meeting a maintenance of effort requirement.

- **Virginia Preschool Initiative Policy Changes (*Unallotted*).** Provides \$34.0 million GF the first year and \$49.4 million the second year to support additional funding for the Virginia Preschool Initiative (VPI) and early childhood education.
  - Increase VPI Per Pupil Amount. Provides \$9.3 million GF the first year and \$19.4 million GF the second year to increase the VPI per pupil amount. This funding increases the per pupil amount from \$6,326 in FY 2020 to \$6,959 in FY 2021 and \$7,655 in FY 2022, representing a 10 percent increase each year. Additionally, removes language-prohibiting distribution of these funds directly to community-based or private providers.
  - Increase VPI Class Sizes and Staffing Ratios. Provides \$6.4 million GF the first year and \$7.1 million GF the second year to support increased VPI teacher to student ratios and class sizes. This funding allows any VPI classroom exceeding benchmarks set by the Board of Education to increase class sizes to one teacher to 10 students or 2 teachers to 20 students from the current ratio of one teacher to 9 students or 2 teachers to 18 students. The increased class sizes support an additional 1,451 slots each year.
  - Expand VPI to Pilot At-Risk Three Year-Olds. Provides \$2.8 million GF the first year and \$6.1 million GF the second year to provide funding for localities to pilot expansion of VPI to at-risk three year olds. Pilot providers are required to track outcomes for participating children, demonstrate how they will maximize federal and state funds to preserve existing birth to five slots, support inclusive practices of children with identified special needs, and collaborate among the school division, local department of social services, programs accepting child care subsidy payments, and providers for Head Start, private child care, and early childhood special education and early intervention programs. Localities may apply to participate in the pilot by May 15 each year and will be selected on a competitive basis with grant awards equivalent to the funded VPI per pupil amount.

- Same-Year Reallocation of VPI Slots to Eliminate Wait Lists. Provides \$4.0 million GF the first year and \$3.3 million GF the second year to support additional VPI slots for children on wait lists. In Chapter 854 of the 2019 Acts of Assembly (HB 1700), language allows allocation of additional VPI slots, subject to available funds each year, to school divisions that have utilized 100 percent of their calculated slots from the previous year and have a waiting list of unserved children as certified on the Department of Education’s October 1st Fall Verification Report in the previous year. Only school divisions that report using 100 percent of the upcoming school year slot allocation in the May 15th grant proposal are eligible for slot reallocation funding. The language allows the Department of Education to develop guidelines for the redistribution of slots and annually notify programs of grant redistribution by July 1st of each year. This funding provides an additional 900 slots the first year and 675 slots the second year.
- Mixed-Delivery Providers Incentive Add-On. Provides \$5.0 million GF each year to provide an add-on grant to incentivize mixed-delivery through private providers. These add-on grants are intended to provide funds to minimize the difference between the amount of the per-pupil grant allocation and the per-pupil cost to serve a child in a community-based or private provider setting, and the grants will vary by region.

In FY 2021, the add-on grants provide (i) \$3,500 per child for divisions in Planning District 8 (Northern Virginia), (ii) \$2,500 per child for divisions in Planning District 15 (Richmond Regional), Planning District 23 (Hampton Roads), and for the counties of Stafford, Fauquier, Spotsylvania, Clarke, Warren, Frederick, and Culpeper and the Cities of Fredericksburg and Winchester, and (iii) \$1,500 per child in any other division. In FY 2022, the Department of Education will establish a schedule designating the amount of the add-on grants for each school division based on prevailing child care market rates.

- Expand Mixed Delivery Preschool Grant and Include At-Risk Three Year-Olds. Increases by \$3.5 million GF each year support for the mixed delivery preschool grant, bringing the amount to \$5.0 million GF each year. The funding expands the pilot initiative to support public-private delivery of pre-kindergarten services for at least 1,000 at-risk three- and four-year-old children each year.

Localities participating in this grant will submit a proposal each year to the Virginia Early Childhood Foundation and detail a local plan for the delivery of quality preschool services in private settings that demonstrates the coordination of resources and the combination of funding streams to serve the greatest number of at-risk children. The proposals will also address how each pilot will transition to a level of state support similar to the state support for VPI slots. The Department of Education (DOE) will establish academic standards to ensure appropriate preparation for kindergarten and require participating providers to evaluate students in the fall and spring, and DOE will assign student identification numbers to evaluate and compare outcomes. The Department of Education will also require participating classrooms have the quality of their teacher-child interactions assessed through the Classroom Assessment Scoring System observations at least once every two years.

- Early Childhood Educator Incentive. Provides \$3.0 million in FY 2021 and \$5.0 million in FY 2022 to supplement the Early Childhood Educator Incentive through the Preschool Development Grant Birth to Five. The incentive payments support attracting and retaining early childhood educators in hard-to-serve preschool classrooms. The Department of Education will establish guidelines for the program and funds.
- VPI Local Match Language. Adds language modifying the local match for the VPI program, based on the composite index of local ability-to-pay. Currently, Chapter 854 of the 2019 Acts of Assembly (HB 1700) requires that at least 75 percent of the local match will be cash and no more than 25 percent of the local match will be in-kind. The language reduces the cash local match to at least 50 percent and the in-kind local match to no greater than 50 percent. In-kind contributions are defined as cash outlays that are made by the locality that benefit the program but are not directly charged to the program (e.g. locality providing a building for use).
- VPI Per Pupil Amount Rebenchmarking Language. Adds language requiring the Department of Education to develop a plan for biennially rebenchmarking the funded VPI per pupil amount and implement this plan with the introduced 2022-24 biennial budget.
- VPI Maximize Use of Head Start. Adds language requiring localities to maximize Head Start slots before accessing additional state funding through VPI.

- Early Childhood Report on Utilization of Funding and Outcomes. Requires VDOE to collect information from local programs and pilot providers that participate in the VECF Mixed-Delivery pilot program to compile a comprehensive report on the usage of state funds. The report is required to aggregate students by income thresholds. The language also requires VDOE to develop a plan to replace this reporting requirement with its own comprehensive public report on early childhood expenditures, outcomes, and program quality to be submitted to the House Appropriations and the Senate Finance & Appropriations Committees by December 1, 2020.
- Consolidate VPI Plus into VPI. Consolidates the VPI Plus program into the regular VPI program in both years of the biennium. The 609 VPI Plus slots used by divisions in FY 2020 would be merged into the existing VPI program and held harmless. Funding previously allocated for the remaining VPI Plus slots that were unused in FY 2020, totaling \$4.4 million in FY 2021 and \$4.9 million in FY 2022 would be transferred to the Virginia Preschool Initiative as flexible funding to supplement any new VPI initiatives.
- **Maintains School Counselors Ratios at FY 2020 Levels.** Adds language maintaining the staffing ratios for counselors at the level funded in FY 2020. This provides the state's share of funding for the state's share of counselors at the following ratios: 1:455 in elementary school, 1:370 in middle school, and 1:325 in high school.

Chapters 953 and 952 of the 2020 Acts of Assembly (HB 1508/SB 880) lowers the statutory ratio of school counselors. The Conference Report provided \$21.2 million GF the first year and \$24.9 million GF the second year to provide the state's share for the additional school counselors in all public elementary, middle, and high schools pursuant to the ratios in Chapters 953 and 952 of the 2020 Acts of Assembly (HB 1508/SB 880). In FY 2021, this funds the state's share of costs to fund the current statutory ratio of school counselors (§ 22.1-253.13:2, H.4., of the *Code of Virginia*) in elementary school from 1:455 to 1:375; in middle school from 1:370 to 1:325; and, in high school from 1:325 to 1:300. In FY 2022, this funding represents the state's share of costs to lower the ratio of school counselors in the second year to 1:325 in all public elementary, middle, and high schools.

In response to the financial difficulties anticipated to result from the COVID-19 pandemic, during the Reconvened Session, the General Assembly adopted the Governor's recommendation to supersede the ratios in Chapters

953 and 952 of the 2020 Acts of Assembly (HB 1508/SB 880), holding the ratios at the same levels required during FY 2020.

- **Expand At-Risk Add-On Funding (*Unallotted*).** Provides an additional \$25.9 million GF in FY 2021 and \$34.0 million GF in FY 2022 for the At-Risk program, which provides funding as a percentage add-on to the SOQ Basic Aid amount to support any additional costs of educating at-risk students. The range of the add-on as a percentage of Basic Aid increases from 1-16 percent to 1-23 percent in FY 2021 and to 1-26 percent in FY 2022. The add-on percentage is based on the percentage of students eligible for free lunch in the school division. The revised amounts budgeted for this initiative increases from \$121.7 million GF in FY 2020 to \$208.9 million GF in FY 2021 and \$235.3 million GF in FY 2022.

The unallotment of the general fund portion reduces the upper range of the add-on to 19.9 percent in FY 2021 and 21.9 percent in FY 2022.

- **Increase Cost of Competing Adjustment for Support Positions (*Unallotted*).** Adds \$9.6 million GF the first year and \$10.0 million GF the second year to increase the Cost of Competing Adjustment (COCA) for support positions. The adjustment recognizes the higher labor costs for divisions in Planning District 8 and surrounding divisions. This increases the COCA rate for support positions from 10.6 percent to 16 percent in both years of the biennium for divisions in Planning District 8. For surrounding divisions, the partial COCA is funded at one-fourth of the full COCA rate, increasing the rate from 2.65 percent to 4 percent.
- **Increase English as Second Language Instructional Positions.** Provides \$6.7 million GF the first year and \$14.3 million GF the second year to increase the number of funded instructional positions supporting English language learners. This increase in instructional positions reduces the staffing to student ratio from 1:59 to 1:54 in the first year and to 1:50 in the second year from passage of Chapters 1034 and 1035 of the 2020 Acts of Assembly (HB 975/SB 910).
- **Access to School Meals (*Unallotted*).** Provides \$5.3 million GF each year for local school divisions to reduce or eliminate the cost of school breakfast and lunch for students eligible for reduced price meals. Language permits the Department of Education to reduce payments proportionately as not to exceed the appropriation.
- **Enrollment Loss (*Unallotted*).** Provides \$2.5 million GF in FY 2021 and \$2.1 million GF in FY 2022 for school divisions experiencing a decrease in actual

fall membership compared to the previous year. To be eligible for these funds, school divisions must experience a minimum 2 percent decrease in fall membership compared to the previous year and enroll fewer than 10,000 students. The percentage of enrollment loss funded by the initiative is dependent on the local composite index and ranges from 30 percent to 85 percent. Funding is based on the state's share of a school division's Basic Aid per pupil amount.

- **Funding for a Hold Harmless Allocation (*Unallotted*).** Provides \$1.8 million GF in FY 2021 and \$2.0 million in FY 2022 to ensure no locality receives less funding as compared to the FY 2020 budgeted amounts reflected in Chapter 1283 of the 2020 Acts of Assembly (HB 29). This funding provides support to seven affected school divisions.
- **Retiree Health Care Credit for Non-Teachers.** Provide \$837,291 GF the first year and \$993,932 GF the second year for the state's share of funding for a retiree health care credit of \$1.50 per year for services to retired non-teacher school division employees having at least 15 years of total creditable service. School divisions are required to participate in this program from passage of Chapter 1091 of the 2020 Acts of Assembly (HB 1513).
- **Expand Jobs for Virginia Graduates (*Unallotted*).** Increases funding for the Jobs for Virginia Graduates program by \$1.7 million GF each year, from \$573,776 GF to \$2.3 million GF . This funding helps at-risk youth graduate from high school and transition from school to work.
- **New: Civil War History Education—American Civil War Museum (*Unallotted*).** Provides \$1.0 million GF the first year to support American Civil War history education. The funding supports field trips to the American Civil War Museum aligned with Virginia's Standards of Learning.
- **New: African American History Education—Black History Museum and Cultural Center (*Unallotted*).** Provides \$1.3 million GF the first year to support African American history education. The funding supports field trips to the Black History Museum and Cultural Center of Virginia and traveling exhibits that support Virginia's Standards of Learning.
- **Expand Communities in Schools (*Unallotted*).** Increases funding for Communities in Schools by \$760,000 GF each year, from \$1.2 million GF to \$2.0 million GF.
- **New: Alleghany County - Covington School Division Consolidation (*Unallotted*).** Provides \$582,000 GF the second year as an incentive payment

for the consolidation of the Allegheny County and Covington City school divisions. Funding is contingent upon a successful consolidation. This incentive payment will be made for five years with no adjustments. These payments are based upon the methodology recommended in the Study on School Division Joint Contracting Incentives (Report Document 548, 2016).

The Department of Education will establish criteria for awarding grants and report on the intended use of the funds to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by December 1, 2020.
- **New: Literacy Lab-VPI Minority Fellowship (*Unallotted*).** Provides \$300,000 GF the first year for Literacy Lab to administer a fellowship program to place recent high-school graduates of a minority background in VPI or Head Start classrooms. Literacy Lab will report by August 1, 2021 to the Chairs of the House Education and Senate Education and Health Committees, Secretary of Education, and the Superintendent of Public Instruction on its activities to provide training, coaching, and professional development to the fellowship participants and provide metrics on the success of participants entering the educator pipeline either through employment or in a teacher preparation program.

– *Adopted Language Changes*

- **Utilization of Remedial Education Payments.** New language requires school divisions to report on the uses of Prevention, Intervention and Remediation, At-Risk Add-On, and Early Reading Intervention Payments in the prior year. The reporting would begin in FY 2022 for use of funds in FY 2021 and reported to the General Assembly by the first day of each General Assembly Session.
- **Regional Alternative Education.** New language directs the Department of Education to develop a mechanism to biennially rebenchmark regional alternative education program slots to participating school divisions based upon the number of students in a division requiring regional alternative education. The Department will report the planned implementation to the Secretary of Education and the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by August 1, 2021.
- **Flexible Staffing Language.** Restores flexibility staffing language, in FY 2021 only, which waives certain Standards of Quality instructional and support positions staffing ratios. Divisions are required to report to the Department of Education the number and type of positions not filled in FY 2020 and FY 2021 upon exercising the flexibility provisions.
- **Early Reading Specialists Initiative.** Adds language allowing the state share of funding for the Early Reading Specialists Initiative to be based on spring 2019 reading SOL assessments for both years of the biennium, allowing schools' eligibility to be locked for the biennium. Language also allows DOE to award any unallocated funds to additional eligible schools based upon the list of schools that rank lowest on the spring 2019 SOL reading assessment.
- **Virginia Teacher Scholarship Loan Program.** Expands eligibility for the Virginia Teacher Scholarship Loan Program intended to incentivize students in teacher education programs to fill vacancies in high-need schools. The language expands the designated critical shortage areas established by the

- ***Virginia Community College System – New “Get Skilled, Get a Job, Give Back” Initiative (Unallotted)***. Provides \$34.5 million GF per year for a new “Get Skilled, Get a Job, Give Back” (G3) initiative, covering the full cost of tuition, fees, and books for students with a family income less than 400 percent of the federal poverty limit enrolled in select pathways at community colleges, in high-demand fields. Students must submit the Federal and State Student Financial Aid forms, and maintain a required grade point average and satisfactory academic progress (federal Higher

Education Act of 1963 Title IV requirements), and make reasonable progress towards completion within three years.

Payments include (i) grants up to the last-dollar cost of tuition, mandatory fees, and textbook costs (for up to 150 percent of required credits of certificate or degree), (ii) a student incentive grant up to \$900 per semester (or \$450 for summer term) for full-time students who are eligible for full Pell grant awards.

SCHEV and VCCS must work collaboratively to compile annual data on program participation and completion.

- *Virginia Community College System – Hospitality Apprenticeship (Unallotted).* Provides \$250,000 GF to develop workforce apprenticeship programs in hospitality and culinary arts.
- *Financial Aid (Unallotted).* Provides \$30.2 million GF the first year and \$30.3 million GF the second year for additional need-based financial assistance for in-state undergraduates. The distribution of funding for undergraduate aid is based on methodology as proposed in SCHEV’s November 2019 Review of Financial Aid Funding Formulas and Awarding Practices. The adjustments to the current “Partnership Model” include: using the individual student’s Expected Family Contribution amount rather than assuming an alternative minimum (currently \$700 for dependent freshmen; \$900 for sophomore, juniors, and seniors; and \$1200 for independent students); using the sector average Cost of Attendance; using average unmet need rather than percent of need; and, a funding bonus that emphasizes low-income enrollments.

The \$2.0 million increase in aggregate premiums results in a 70 percent average agency premium increase over the FY 2020 base. A companion action in Central Appropriations reflects the general fund share of agency costs associated with the increased premiums.
- ***Initiate Cyber Coverage for State Agencies.*** Includes a language amendment authorizing the Division of Risk Management to initiate cyber coverage for state agencies after July 1, 2020, with a report due to the Secretary of Finance, on or before July 1, 2021, summarizing the program, loss experiences, and future recommendations, including program structure and funding.
- ***Procure New Risk Management Information System.*** Adds \$375,000 NGF the second year to procure and implement a new Risk Management Information System.
- ***Replace Unclaimed Property System.*** Provides \$1.2 million NGF over the biennium to fund the procurement of a new unclaimed property system to improve customer experience and internal efficiency.

- **Treasury Board**
  - *Increase Funding for Debt Service.* Includes \$171.7 million GF over the biennium and a reduction of \$13.4 million NGF over the biennium for debt service on bonds issued by the Virginia Public Building Authority and the Virginia College Building Authority. The increased funding reflects debt service costs on issuances from previously authorized bond projects. Brings the total annual general fund portion of debt service to \$834.2 million the first year and \$890.3 million the second year.
  
- **Board of Accountancy**
  - *Move Licensing Database Cloud Environment.* Adds \$147,900 NGF each year to cover the cost of moving the agency’s licensing database to a hosted cloud environment, pursuant to Executive Order 19 (2018).

*Note: Unallotting an appropriation is an executive function that prevents an agency from expending such appropriation. Budget language was included to authorize any particular spending items will no longer apply until such time as the General Assembly re-enacts such appropriation after acceptance of a revenue forecast that supports the underlying appropriation.*

- **Secretary of Health and Human Resources**

- *Establish Workgroup on Medicaid Doula Coverage.* Establishes a stakeholder workgroup to consider adding Medicaid coverage of doulas. The workgroup will review and make recommendations regarding the state regulation of doulas and establishing a community doula benefit for pregnant women covered by Medicaid. The workgroup will report its findings and recommendations to the Governor and to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by December 1, 2020.
- *Develop a Reinsurance Program for the Individual Market.* Directs the Secretary of Health and Human Resources to develop a state innovation waiver under Section 1332 of the federal Patient Protection and Affordable Care Act (42 U.S.C. 18052) to implement a state reinsurance program to help stabilize the individual insurance market by reducing individual insurance premiums and out-of-pocket costs while

preserving access to health insurance. The Secretary will report on the reinsurance program to the Chairs of House Labor and Commerce and Senate Commerce and Labor Committees and the House Appropriations and Senate Finance & Appropriations Committees by October 1, 2020.

- **Children's Services Act (CSA)**

- ***Mandatory Caseload and Cost Increases.*** Adds \$18.1 million GF in FY 2021 and \$25.8 million GF in FY 2022 to fund the anticipated growth in the CSA program. Caseload dropped slightly in FY 2019 to 15,645 from 15,744 in FY 2018. While total census growth is flat, expenditures in FY 2019 were up 2.7 percent over FY 2018. Most of this growth was due to an increasing number of children placed in private day treatment through federally mandated Individualized Education Program (IEP) plans and an increase in treatment foster care. In FY 2019, 126 additional children were provided private day treatment, a 3.1 percent increase over FY 2018. Expenditures for private day increased by \$12.3 million, which is a 7.1 percent increase over FY 2018. The annual cost of a private day treatment placement was \$43,780 in FY 2019 compared with the average annual cost of \$27,298 for all CSA services.
- ***Complete the Rate Study for Private Day Placement Services (Unallotted).*** Provides \$250,000 GF in FY 2021 for the Office of Children's Services to continue a contract for a study to determine the adequacy of the current rates paid by localities to special education private day programs. Prior funding was provided for this study, however an insufficient number of providers participated in order to develop appropriate rates. Budget language requires all providers to participate in the study and includes protections for public disclosure of provider information. A preliminary report is due September 1, 2020 to assist in the Joint Legislative Audit Review Commission's study of the Children's Services Act. The final report is due to the Governor and the Chairs of the House Appropriations and Senate Finance & Appropriations Committees by June 1, 2021 on the study's findings.
- ***Fund Training (Unallotted).*** Includes \$50,000 GF each year to improve training by the Office of Children's Services provided to community partners. Funding would be used to support the annual conference, an instructional designer to develop on-line courses, and training costs for individuals using the uniform assessment tool. The last increase in the office's training funds was in 1998.
- ***Fictive Kin Eligible for Kinship Guardianship Assistance Program.*** Transfers \$3,838 GF the first year and \$7,676 GF the second year from the Department of Social Services to fund the fiscal impact of Chapters 366 and 224 of the 2020 Acts of Assembly (HB 933/SB 178), which expand eligibility for the Kinship Guardianship Assistance program by allowing payments to be made to fictive kin who receive custody of a child of whom they had been the foster parent.

- ***Continue Limit on Private Day Placement Rate Increases and Impose Statewide Rates.*** Includes budget language that maintains the 2 percent limit for any increase in the first year on the rates paid to providers of special education private day placement services. The current appropriation act includes this limit for FY 2020. This action continues the limit for FY 2021, until the rate study can be completed. Beginning in FY 2022, the language requires statewide rate setting for special education private day placement services.

- **Department for the Deaf and Hard-of-Hearing**

- ***Fund Shared Services Contract Costs.*** Provides \$9,731 GF each year to reflect higher costs for shared services provided by the Department for Aging and Rehabilitative Services (DARS). DARS provides certain administrative services (fiscal, budget, procurement, human resources, etc.) to smaller disability agencies. The agencies contract with DARS for those services and this funding recognizes the typical increases in costs for DARS to provide those shared services.
- ***Adjust NGF Appropriation for the Relay Services Contract.*** Reduces by \$728,453 each year the special fund appropriation to reflect a reduction in the cost of the telecommunications relay services contract, which has been reduced to \$1.7 million a year, as more individuals use services made available through the Internet. The source of the special fund for these programs is the Communications Sales and Use Tax.

- **Department of Health**

- ***Establish Behavioral Health Loan Repayment Program (Unallotted).*** Provides \$1.6 million GF each year to establish the Behavioral Health Loan Repayment Program in order to increase the number of Virginia behavioral health practitioners by way of an educational loan repayment incentive that complements and coordinates with existing efforts to recruit and retain Virginia behavioral health practitioners. The program will allow for a variety of behavioral health practitioners to receive a student loan repayment award from the Commonwealth in exchange for providing service to Virginia communities that are otherwise underserved. Practitioners will receive loan repayment for up to 25 percent of student loan debt for each year of health care service provided to the Commonwealth. Maximum loan repayment amounts per year are dependent upon the type of behavioral health professional applying and shall not exceed the total student loan debt. Participating practitioners will have an initial two-year minimum participation obligation and may renew for a third and fourth year.
- ***Support for the Hampton University Proton Therapy Foundation (Unallotted).*** Provides \$1.5 million GF each year to support cancer and proton therapy research and therapy activities at the Hampton University Proton Beam Therapy Institute.

- ***Support for Poison Control Centers (Unallotted).*** Increases funding by \$1.5 million GF the first year and decreases by \$1.0 million GF the second year support for three poison control centers in Virginia. This funding increases support for poison control centers to a total of \$2.5 million GF in fiscal year 2021. The reduction in the second year reflects funding provided through a companion amendment in the Department of Medical Assistance Services to provide \$2.5 million in fiscal year 2022 as part of a Health Services Initiative, which allows the state to use federal Children's Health Insurance Program administrative funding for such initiative.
- ***Fund Policy Change for Immunizations for School Children.*** Provides \$934,921 GF the first year, \$949,241 GF the second year and \$134,442 in federal funds each year to reflect the fiscal impact of Chapter 1223 of the 2020 Acts of Assembly (HB 1090). The legislation directs the Board of Health to modify vaccine requirements for school children to maintain conformity with evidence-based, routinely recommended vaccinations for children. Current law requires vaccines be provided pursuant to statute. The legislation adds the rotavirus, Hepatitis A and meningococcal conjugate vaccines to the existing schedule, as well as the human papillomavirus vaccine for all children.
- ***Create a Nursing Preceptor Incentive Program (Unallotted).*** The adopted budget provides \$500,000 GF each year to establish a Nursing Preceptor Incentive Program. The program will offer a \$1,000 incentive for any Virginia licensed physician, physician's assistant, or advanced practice registered nurse (APRN) who, in conjunction with a licensed and accredited Virginia public or private not-for-profit school of nursing, provides a clinical education rotation of 250 hours which is certified as having been completed by the school. The program will help to reduce the shortage of APRN clinical education opportunities and establish new preceptor rotations for advanced practice nursing students, especially in high demand fields such as psychiatry.
- ***Increase the Transfer to the General Fund from the Emergency Medical Services Fund.*** Part 3 of the adopted budget bill increases the annual transfer from the Emergency Medical Services Fund to the general fund from \$10.5 million to \$12.5 million each year, a \$2.0 million increase. The fund generates revenue from an existing \$2.00 add-on to the vehicle registration fee. Revenue from the fee is higher than expenditures from the fund.
- ***Support Local Efforts to Reduce Opioid Overdoses.*** Provides \$1.6 million NGF each year from federal funding to purchase and provide NARCAN (an opioid reversal drug) and personal protection equipment through local health departments and community services boards to support citizen rescue efforts for those who deal with vulnerable populations. This funding level will support over 20,000 doses of NARCAN each year.

- ***Fund the Virginia Sexual and Domestic Violence Prevention Fund (Unallotted).*** Provides \$750,000 GF each year to fund the fiscal impact of Chapters 912 and 913 of the 2020 Acts of Assembly (HB 1015/SB 297), which creates the Virginia Sexual and Domestic Violence Prevention Fund. The fund will be used to develop and support programs that prevent sexual and domestic violence through strategies that (i) promote healthy practices related to relationships, sexuality, and social-emotional development and (ii) counteract the factors associated with the initial perpetration of sexual and domestic violence.
- ***Fund the Drinking Water State Revolving Fund (Unallotted).*** Funds \$482,400 GF and \$3.0 million NGF each year to increase the state match and federal appropriation for increases in federal funding for waterworks construction projects. The state is required to match 20 percent of the federal grant. The fund is supported by a grant from the U.S. Environmental Protection Agency.
- ***Fund Improvements in Data Management for the Drinking Water Program (Unallotted).*** The adopted budget includes \$150,000 GF the first year and \$250,000 GF the second year to fund the costs for updating water quality and monitoring databases to meet state security and federal reporting requirements under the federal Safe Drinking Water Act.
- ***Provide Support for Revisions to Certificate of Public Need Program.*** Provides \$233,234 GF and two positions each year to fund the costs related to Chapter 1271 of the 2020 Acts of Assembly (SB 764) which makes various revisions to the Certificate of Public Need Program.
- ***Fund Adult Sickle Cell Services (Unallotted).*** Provides \$305,000 GF each year to create a comprehensive adult program for sickle cell disease. This program is intended to supplement the existing pediatric program to assist individuals in transitioning into adulthood to ensure appropriate care continues.
- ***Fund a Pilot Program for Community Health Workers (Unallotted).*** Provides \$289,168 GF and four positions the second year to place eight community health workers in four local health districts to increase local health department capacity. Community health workers can provide social support, advocacy and serve as a resource in navigating the system for high-need individuals. The pilot program will run for two years.
- ***Create the Sickle Cell Patient Assistance Program (Unallotted).*** Adds \$250,000 GF each year to create the Virginia Sickle Cell Patient Assistance Program. This program will provide health insurance premium assistance and cost sharing assistance to patients diagnosed with Sickle Cell Disease and who do not qualify for Medicaid.

- ***Fund Positions for the Shellfish Safety Program (Unallotted).*** Provides \$168,270 GF and two positions each year to handle the increasing workload of the program, especially as the Commonwealth’s oyster industry has grown in recent years. The program currently has 27 positions and certifies over 300 seafood facilities of various types.
- ***Fund Support for the Office of Health Equity (Unallotted).*** Provides \$150,000 GF and one position each year to support the office’s work in advancing the “Health in All Policies” initiative. This position will require travel throughout the state for community meetings to promote the initiative.
- ***Fund a Wastewater Infrastructure Manager (Unallotted).*** Adds \$131,880 GF and one position each year to fund a wastewater infrastructure manager to oversee a comprehensive assessment of onsite sewage system needs throughout the Commonwealth. The position will also serve as a liaison to promote opportunities for septic system repairs and improvements.
- ***Add Support for Lead and Mold Testing in Schools and Child Day Care Programs.*** Adds \$195,950 GF the first year and \$213,548 GF the second year to fund the fiscal impact to implement legislation during the 2020 Regular Session which requires (i) each local school board, licensed child day programs and certain other programs that serve preschool-age children to develop and implement a plan to test potable water from sources identified by the U.S. Environmental Protection Agency as high priority; and (ii) each local school board to develop and implement a plan to test and, if necessary, a plan to remediate mold in public school buildings in accordance with guidance issued by the U.S. Environmental Protection Agency.
- ***Fund Reporting Requirements on Sexual Assault Nurse Examiners’ Place of Practice.*** Provides \$129,165 GF the first year and \$89,625 GF the second year to support the fiscal impact of Chapter 1088 of the 2020 Acts of Assembly (HB 1176) which requires hospitals to report on the number of certified sexual assault nurse examiners employed by the hospital, including the location, street address, and contact information for the location at which each certified sexual assault nurse examiner provides services. The bill also requires the Department of Health to make information on its website regarding the availability of certified sexual assault nurse examiners in the Commonwealth.
- ***Add One Position to Support New Loan Repayment Programs (Unallotted).*** Provides \$88,914 GF each year and one position for administering the Behavioral Health Loan Repayment program and the Nursing Preceptor Incentive program funded in companion amendments.
- ***Fund Increased Rents at Local Health Departments (Unallotted).*** Provides \$75,889 GF and \$49,195 NGF each year to address higher lease costs for 20 local health

departments that have moved into new facilities or experienced higher costs in current leased space. While lease arrangements are negotiated by the Department of General Services, the cost of new leases is the responsibility of local health departments, which are funded jointly by the state and local governments.

- ***Support for the Mel Leaman Free Clinic (Unallotted).*** Adds \$30,000 GF each year to support a part-time Physician Assistant-Certified or Family Nurse Practitioner (24 hours weekly) to provide medical care and serve as a clinical coordinator at the Mel Leaman Free Clinic.
- ***Increase Support for Special Olympics Virginia (Unallotted).*** Adds an additional \$10,000 GF each year for the Special Olympics "Healthy Athlete" Program bringing total support to \$20,000 GF a year.
- ***Fund Education and Access for Women's Reproductive Health.*** The adopted budget reduces by \$2.0 million NGF each year the appropriation for the Long Acting Reversible Contraceptive (LARC) program. The introduced budget inadvertently added \$2.0 million NGF for this purpose, bringing the total appropriation to \$5.0 million per year, which was unnecessary. The reduction of \$2.0 million NGF per year leaves a total of \$3.0 million per year to continue to provide \$2.0 million NGF each year in additional federal Temporary Assistance to Needy Families (TANF) block grant funding to continue the program to increase education and expand access to contraceptives, particularly LARCs. In addition, \$1.0 million NGF each year is provided to supplement the LARC funding and expand access to all FDA-approved contraceptives. The program is also modified to provide coverage for all LARCs and not just hormonal ones.
- ***Reduce Office of Information Technology's Federal Appropriation.*** Reduces \$263,056 GF and \$2.4 million NGF in FY 2021 and \$343,264 GF and \$3.1 million NGF in FY 2022 for the development of the Emergency Department Care Coordination program. This program connects all emergency departments in hospitals throughout the Commonwealth to improve care coordination. The program was primarily funded from a federal grant. This action reflects the appropriation reduction for the developmental costs of the program, which has been implemented.
- ***Enhance the Emergency Department Care Coordination Program.*** Adds an additional \$193,056 GF, through existing appropriation, and \$1.7 million NGF the first year to support the Emergency Department Care Coordination program. The added general fund dollars can be absorbed in the Department of Health's administrative budget, which has sufficient funding from indirect cost recoveries to ensure other essential activities will be funded. The nongeneral funds may be provided through a number of federal funds, in coordination with the Department of Medical Assistance Services.

- ***Clarify Emergency Medical Services Background Checks Policy.*** Provides \$100,000 NGF each year from the Rescue Squad Assistance Fund to assist in covering the costs of Emergency Medical Services (EMS) background checks. In addition, budget language clarifies policy that the cost of all criminal background checks for volunteers applying with local EMS agencies is to be paid by the state Office of Emergency Services and that local EMS agencies may continue to submit fingerprint cards for processing as appropriate to reduce travel times for volunteers who otherwise may have to travel long distances to use the state's electronic scan vendor.
- ***Modify Funding Source for the Trauma Center Fund.*** Eliminates the \$1.9 million annual transfer to the general fund from the Emergency Medical Services Trauma Center Fund in Part 3 of the adopted budget. This change is intended to leave enough revenue in the fund to continue to provide funding to hospital trauma centers to offset the higher costs necessary for maintaining around the clock availability of trauma care. Revenue for the fund is derived from a \$100 fee for driver's license reinstatements related to convictions for driving under the influence. In the 2019 Session, action was taken to end the policy of suspending driver's licenses due to failure to pay fines and fees, and eliminating the revenue to the Trauma Center Fund through an inadvertent error. The language is corrected to allow revenue from the suspension of driver's licenses, unrelated to failure to pay fines and fees, to continue to be deposited to the fund.
- ***Remove Temporary Detention Tracking Funding for the Emergency Department Care Coordination Program.*** Eliminates \$50,000 from the general fund each year provided in the 2019 Session for modifying the Emergency Department Care Coordination System to track Temporary Detention Orders. After further analysis, the Department of Health determined this system was not the best solution to address the issue.

### ***Language***

- ***Mandate Hospital Reporting of Temporary Detention Orders.*** Includes language requiring all hospitals in the Commonwealth to report to the Board of Health all involuntary and voluntary admissions of individuals meeting the criteria under state law for psychiatric commitment. The board is provided authority to share that information with the Department of Behavioral Health and Developmental Services.
- ***Modify Abortion Limitations and Reporting.*** Modifies language in Part 4 of the adopted budget that allows the expenditure of funds for abortions as permitted by state statute. Beyond federal restrictions, Virginia law allows abortions in the case of gross fetal abnormality. Budget language requiring the department to report on the number of abortions paid for each month pursuant to state law is also removed.

- **Continues the PANDAS Advisory Council.** Includes budget language to continue the advisory council on Pediatric Autoimmune Neuropsychiatric Disorders Associated with Streptococcal Infections (PANDAS) and Pediatric Acute-onset Neuropsychiatric Syndrome (PANS), which is set to sunset on July 1, 2020. Legislation was not introduced during the 2020 Regular Session to continue the Council, so this budget language continues the Council until legislation can be adopted.
- **Require Reporting on Agency Organization.** Requires the Department of Health to annually report on the agency's organization and operations and any changes that occurred during the year. The agency will make this report available on its website by August 15 of each year. This information will assist in providing public information regarding changes in the agency's organization and operations.

**Technical Adjustments**

- **NGF Technical Adjustments.** Increases \$16.9 million NGF each year in various programs throughout the department to reflect higher federal grant awards, fee increases, and other NGF revenues. The following table illustrates the changes.

Technical Adjustment	Each Year
Office of Epidemiology - Federal Ryan White Funds	\$12,500,000
Federal Grant Indirect Cost Recoveries	2,500,000
Central Pharmacy Costs (Fees Recoup the Costs)	500,000
Office of Radiological Health (License Fee Increase)	500,000
Office of Chief Medical Examiner (Federal Funding Increase)	250,000
Office of Radiological Health (Dominion Energy Fee Increase)	221,817
Office of Chief Medical Examiner (Cadaver Revenue)	200,000
Office of Chief Medical Examiner (Other NGF Revenue)	150,000
State Loan Repayment Grant (Federal Grant Increase)	<u>111,000</u>
<b>Total Technical Adjustments</b>	<b>\$16,932,817</b>

- **Create New Service Areas and Transfer the Appropriate Funding.** The adopted budget creates two new service areas related to Population Health and administration of the Cooperative Agreement (for the merger of health systems in Southwest Virginia). This technical adjustment nets to zero as it moves funding from existing services areas to the new ones in order to better account for agency activities.

- **Department of Health Professions**

- **Increase Position Level and NGF Appropriation to Reflect Increasing Workload and Convert Wage and Temporary Positions to Full-time.** Adds \$605,825 NGF and

11 positions the first year and \$727,685 NGF and 14 positions the second year to support increases in workload and to convert 12 wage and temporary positions to full-time positions. The source of the nongeneral funds is generated from fees charged to regulated health professionals. This action will not require any increase in fees.

- ***Fund the Fiscal Impact of Cannabis Processors Legislation.*** Provides \$204,828 each year from nongeneral funds and two positions for the Board of Pharmacy to administer the operations of five cannabis processors pursuant to Chapter 1278 of the 2020 Acts of Assembly (SB 976). Language is added to provide emergency regulatory authority for the Board of Pharmacy to increase fees to fund the additional positions.

- **Department of Medical Assistance Services**

***Forecast Changes***

- ***Medicaid Utilization and Inflation.*** Increases \$165.7 million GF and \$735.6 million NGF in FY 2021 and \$460.5 million GF and \$1.3 billion NGF in FY 2022 to fund expected increases in enrollment and medical costs for the Medicaid program. Base Medicaid spending (excluding Medicaid Expansion) is expected to increase by 7.2 percent and 5.9 percent, respectively, in FY 2021 and FY 2022, near the average annual growth rate of 6 percent over the past 10 years. Spending growth in the program is largely due to enrollment growth, inflation for providers, and increased supplemental payments to hospitals.

Spending growth is mainly impacted by managed care rate increases. The November 2019 Medicaid Forecast assumes that managed care rates for CCC Plus will increase by 4.2 percent the first year and 4.5 percent the second year. For the Medallion 4.0 program, managed care rates are assumed to increase 5.4 percent each year. Enrollment is expected to grow less than 3 percent a year (mainly children), excluding the impact of Medicaid Expansion.

The Medicaid forecast also contains additional funding for inflation adjustments of certain provider rates required by law or regulation. Funding is included for inflation adjustments for hospitals (\$52.0 million GF over the biennium) and nursing homes (\$49.5 million GF over the biennium). The costs of Medicare premiums adds \$53.2 million GF over the biennium in costs. This action reflects the approximately \$30.0 million GF in costs the first year due to the restoration of the Affordable Care Act's health insurance tax, however there are no costs reflected in the second year due to Congress eliminating the tax.

- ***Adjust GF Appropriation for Medicaid Due to Virginia Health Care Fund Increases.*** Reduces the appropriation by \$107.1 million GF in FY 2021 and \$121.2 million GF

in FY 2022 and adds a like amount of nongeneral funds each year to reflect changes in revenues to the Virginia Health Care Fund. The largest change in revenue is due to an increase in the cigarette tax from 30 to 60 cents a pack, doubling of the wholesale tax on other tobacco products, and imposing a tax on liquid nicotine. Revenues from the Fund are used as a portion of the state's match for the Medicaid program; therefore, higher revenues result in a reduction of the general fund appropriation needed to maintain currently-funded Medicaid services. Conversely, lower revenues require additional general fund support. Revenues in the fund are derived from tobacco taxes, Medicaid recoveries and revenue maximization initiatives, and a portion of the Master Tobacco Settlement Agreement (41.5 percent of tobacco settlement revenues). Changes to the fund include:

- An increase of \$119.1 million in FY 2021 and \$130.8 million in FY 2022 for the increases in the cigarette tax and other tobacco products tax,
  - An increase of \$4.1 million in FY 2021 and \$4.3 million in FY 2022 for a new tax on liquid nicotine,
  - An increase of \$700,000 in FY 2021 and \$1.4 million in FY 2022 to reflect projected increases in current tax collections from other tobacco products,
  - A decrease in Master Tobacco Settlement Agreement payments of \$10.1 million in FY 2021 and \$10.6 million in FY 2022 to reflect special payments that are no longer required,
  - A decrease of \$1.5 million in FY 2021 and increase of \$4.1 million in FY 2022 in expected pharmacy rebates, and
  - A decrease of \$3.5 million in FY 2021 and \$7.1 million in FY 2022 from projected reductions in the current tax collections from cigarettes.
- ***Family Access to Medical Insurance Security (FAMIS) Utilization and Inflation.*** Adds \$34.0 million GF and reduces \$9.4 million NGF in FY 2021, and adds \$46.2 million GF and reduces \$6.8 million NGF in FY 2022 to reflect the forecast of expenditures in the FAMIS program. The main reason for the increase in state costs is due to the match rate change for the Children's Health Insurance Program (CHIP). The Affordable Care Act reduced the state match rate from 35 to 12 percent from October 1, 2015 through September 30, 2019. Congress continued half the match rate differential (resulting in a 23.5 percent state match) as a one-year bridge for states. The first quarter of FY 2021, the state match rate is 23.5 percent with a state match rate of 35 percent for the remaining quarters of the biennium. The change in the match rate accounts for about 73 percent of the total GF biennial need. The remaining increase in program costs is due to higher growth in the number of

children served by the program and managed care rate increases assumed at 5.4 percent each year.

FAMIS enrollment of children increased by 1.7 percent in FY 2019. Through November 1, 2019, average monthly enrollment for FY 2020 is up 2 percent for children. The FAMIS program serves pregnant women and children under the age of 19 in families with income between 143 and 205 percent of poverty.

- ***Medicaid Children’s Health Insurance Program (CHIP) Utilization and Inflation.*** The adopted budget adds \$27.6 million GF and reduces \$13.5 million NGF the first year, and adds \$40.8 million GF and reduces \$7.4 million NGF the second year to reflect the forecast of expenditures in the Medicaid CHIP program. As with the FAMIS program, the main reason for the increase in state costs is due to the match rate change for the Children’s Health Insurance Program (CHIP). The Affordable Care Act reduced the state match rate from 35 to 12 percent from October 1, 2015 through September 30, 2019. Congress continued half the match rate differential (resulting in a 23.5 percent state match) as a one-year bridge for states. The first quarter of FY 2021, the state match rate is 23.5 percent with a state match rate of 35 percent for the remaining quarters of the biennium. The change in the match rate accounts for about 82 percent of the total GF biennial need. The remaining increase in program costs is due to higher growth in the number of children served by the program and managed care rate increases assumed at 5.4 percent each year.

Enrollment in the Medicaid CHIP program increased by 1.3 percent in FY 2019. Through November 1, 2019, average monthly enrollment for FY 2020 is up 3.4 percent. The Medicaid CHIP program provides services for Medicaid-eligible low-income children, ages 6 – 18, living in families with incomes between 109 and 143 percent of the federal poverty level.

### ***Policy Changes***

- ***Add Adult Dental Benefit in Medicaid (Unallotted).*** The adopted budget includes \$8.7 million GF and \$23.4 million NGF the first year and \$25.3 million GF and \$67.7 million NGF the second year to provide a comprehensive dental benefit, beginning on January 1, 2021, to adults enrolled in the Virginia Medicaid program. The adult dental benefit will not include any cosmetic, aesthetic or orthodontic services.
- ***Fund Implementation of the Redesign of Medicaid Behavioral Health Services (Unallotted).*** Includes \$3.0 million GF and \$4.1 million in federal Medicaid matching funds in FY 2021 and \$10.3 million GF and \$14.1 million in federal Medicaid matching funds in FY 2022 to implement the behavioral health redesign of the Medicaid community rehabilitation behavioral health services. The redesign improves Medicaid rates or adds new services as follows:

- Effective January 1, 2021, increases Medicaid rates for programs for assertive community treatment (PACT), and adds multi-systemic therapy and family functional therapy as new services; and
  - Effective July 1, 2021, increases Medicaid rates for mobile crisis intervention; crisis stabilization; partial hospitalization; and, adds residential crisis stabilization services, intensive outpatient, and 23-hour observation as new services.
- ***Implement a New Home Visiting Program in Medicaid (Unallotted).*** Provides \$11.8 million GF and \$34.2 million in federal Medicaid matching funds in FY 2022 to fund new home visiting benefits for pregnant and postpartum women in Medicaid. The new program will provide supports to women to improve birth outcomes and maternal health.
  - ***Remove the 40 Quarter Work Requirement for Legal Permanent Residents (Unallotted).*** Adds \$1.2 million GF and \$6.5 million NGF in FY 2021 and \$3.3 million GF and \$9.5 million NGF in FY 2022 to eliminate the requirement that legal permanent residents have 40 quarters (10 years) of work experience to qualify for Medicaid. Federal law requires five years of legal residence to qualify for Medicaid, but Virginia requires 10 years of work experience, one of six states with such a requirement.
  - ***Extend Coverage of Pregnant Women in FAMIS (Unallotted).*** The adopted budget includes \$1.1 million general fund and \$2.1 million in federal funds in FY 2021 and \$2.1 million GF and \$3.9 million in federal funds in FY 2022 to extend postpartum coverage for women in the FAMIS program from two months to 12 months. Women with income from 143 to 205 percent of the federal poverty level are currently eligible for coverage in the FAMIS program during pregnancy through 60 days postpartum. FAMIS is funded through the federal Children’s Health Insurance Program with a 35 percent state match.
  - ***Expand Opioid Treatment Services (Unallotted).*** Provides \$421,476 GF and \$620,156 from federal Medicaid matching funds in FY 2021 and \$1.3 million GF and \$1.9 million in federal Medicaid matching funds in FY 2022 to allow individuals with a mental health diagnosis to access preferred office-based opioid treatment services. This service is currently limited to only those individuals with a primary diagnosis of substance use disorder.
  - ***Fund Coverage for Care Coordination Services for Inmates Prior to Release (Unallotted).*** Includes \$347,803 GF and \$11.4 million NGF in FY 2021 and \$465,440 GF and \$16.4 million NGF in FY 2022 to provide care coordination services through Medicaid to inmates 30 days prior to release. The proposal is intended to improve

an inmate's reentry from incarceration to ensure their health care needs are addressed.

- ***Add Inpatient Substance Use Disorder Treatment as a Benefit in FAMIS MOMS (Unallotted).*** The adopted budget adds \$307,500 GF and \$626,900 NGF in FY 2021 and \$356,775 GF and \$662,550 NGF in FY 2022 to provide access to inpatient substance use disorder (SUD) services to pregnant women in the FAMIS MOMS program. FAMIS MOMS provides coverage to pregnant women with incomes from 143 to 205 percent of the federal poverty level and the federal funding is paid from the Children's Health Insurance Program. This change aligns FAMIS MOMS with Medicaid, which already allows pregnant women to access inpatient SUD services through the Addiction and Recovery, Treatment Services program.
- ***Exempt Live-in Caretakers from Electronic Visit Verification (Unallotted).*** The adopted budget includes \$507,500 GF and \$776,500 NGF the first year and \$373,000 GF and \$373,000 NGF the second year for administrative costs related to budget language to exempt live-in personal care providers from requirements to participate in the Electronic Visit Verification system beginning January 1, 2021. The Centers for Medicare and Medicaid Services have made this exemption an option for states to choose to implement.
- ***Fund Poison Control Centers.*** Provides \$875,000 GF and \$1.6 million NGF the second year to fund three Poison Control centers serving Virginia as part of a Health Services Initiative, which allows the state to use federal Children's Health Insurance Program administrative funding for such activities. Funding from the general fund of \$875,000 is provided for the 35 percent state share. A companion amendment in eliminates the second year appropriation of \$1.0 million from the general fund in the budget for the Virginia Department of Health related to Poison Control centers.
- ***Increase Income Eligibility in Medicaid Works for Individuals with Disabilities (Unallotted).*** Adds \$114,419 GF the first year and \$228,838 GF the second year and a like amount of matching federal Medicaid funds to increase the eligibility requirement for Virginians with disabilities to participate in the Medicaid Works program to 138 percent of the federal poverty level (FPL). The current program eligibility remains at 80 percent of FPL (\$833/month) and was not adjusted when the eligibility for Medicaid was increased with Medicaid Expansion (\$1,436/month). The current eligibility rules at 80 percent of FPL discourages individuals with disabilities from moving into employment for fear of losing their Medicaid coverage. As a result, only 52 individuals with disabilities currently participate in the program.
- ***Expand Tobacco Cessation Coverage in Medicaid (Unallotted).*** Provides \$34,718 GF each year and a like amount of federal Medicaid matching funds to add tobacco cessation services to the Medicaid program for adults otherwise not covered

currently. The federal Patient Protection and Affordable Care Act (ACA) requires that Medicaid provide coverage for prevention services, including tobacco cessation, for individuals enrolled pursuant to the ACA. This action allows all adults in Medicaid to have access to tobacco cessation services.

- **Modify COMPASS Wavier.** Reduces \$22.8 million NGF each year and six positions related to the implementation of the 1115 waiver by eliminating the Training, Education, Employment, and Opportunity program along with cost sharing and other personal responsibility provisions. The only part of the waiver remaining is related to implementing employment supports and housing supports. The 1115 waiver was part of the agreement in the 2018 Session related to expanding the Medicaid program. This reduction leaves \$1.7 million NGF each year for waiver implementation, of which a portion is hospital provider assessment revenue and the remainder is federal Medicaid funds.

***Adopted Spending for Department of Justice (DOJ) Related Items***

- **DOJ: Add Funding for Community Living (CL) and Family and Individual Supports (FIS) Waiver Slots (Only 250 Slots in FY 2022 with a cost of \$4.1 million GF is Unallotted).** Provides \$17.0 million GF in FY 2021 and \$28.9 million GF in FY 2022 and an equal amount of federal Medicaid matching funds to add 1,385 new CL and FIS waiver slots over the biennium. The authorized slots in FY 2021 are created as required under the DOJ settlement agreement for FY 2021, which is the last year of the agreement. Funding will be used to create 25 (20 CL and 5 FIS) slots each year for individuals transitioning from state training centers into the community. In addition, the funding will be used to add 125 new CL waiver slots the first year and 75 the second year along with 635 new FIS waiver slots the first year and 450 the second year for individuals on the waiting list that are residing in the community. A total of 25 emergency slots (15 CL and 10 FIS) are funded each year to handle situations in which an individual’s situation requires a slot immediately.

<b><u>Summary of Slots By Year</u></b>	<b><u>FY 2021</u></b>	<b><u>FY 2022</u></b>
Community Living Slots	160	110
Family and Individual Supports Slots	<u>650</u>	<u>465</u>
<b>Total</b>	<b>810</b>	<b>575</b>

- **DOJ: Reduce Funding for State Intellectual Disability (ID) Training Centers.** Captures general fund savings of \$4.8 million in FY 2021 and \$13.9 million in FY 2022 and \$3.0 million in FY 2021 and \$12.1 million in FY 2022 in federal Medicaid matching funds reflecting the ongoing closure of operations at state ID training

centers. The DOJ settlement agreement requires that individuals be transitioned into more integrated settings in the community. Savings this biennium reflect the planned closure of Central Virginia Training Center in June of 2020.

- ***DOJ: Increase Developmental Disability Waiver Rates (Unallotted).*** Provides \$25.0 million GF in FY 2021 and \$25.7 million GF in FY 2022 and a like amount of federal Medicaid matching dollars to fund an average increase of 6.4 percent for waiver services to fund them at 100 percent of the rate model benchmark. These increases will assist providers to recruit and retain qualified staff to meet standards mandated by the requirements of the U.S. Department of Justice Settlement Agreement.

### ***COVID-19 Response***

- ***Fund Initial Cost of COVID-19 Response.*** Provides \$1.0 million GF and \$2.7 million NGF in the first year to fund the emergency policy changes in Medicaid in response to the COVID-19 pandemic. These actions include expanding the use of telemedicine, waiving service authorizations, extending prescriptions from 30 to 90 days, and eliminating cost sharing.
- ***Increase Nursing Facility Rates by \$20 Per Day.*** Adds budget language to increase nursing home and specialized care per diem rates by \$20 per day per patient effective for the period of the Governor's Declaration of a State of Emergency due to COVID-19. In addition, authorization for a treasury loan is provided should appropriated state funding be insufficient to cover costs.
- ***Authority to Make Changes to Medicaid.*** Provides temporary authority to make immediate changes to the Medicaid program in response to COVID-19. Suspends the normal notification and review requirements. Any change is subject to the Governor's approval and must be reported within 15 days to the Chairs of the House Appropriations and Senate Finance & Appropriations Committees. Any changes made under this authority will expire with the Governor's emergency declaration.
- ***Provide Flexibility in Payment Due Dates to Maximize Federal Reimbursement.*** Includes language that allows the department to advance any appropriate and allowable payment in an effort to take advantage of enhanced federal matching funds.
- ***Unallot State Savings from Enhanced Federal Match.*** Requires that the department identify all state savings associated with the federal government increasing the Federal Medical Assistance Percentage rate (from 50 to 56.2 percent) for Medicaid due to the COVID-19 pandemic. Further, DPB is authorized to unallot (prevents

the funding from being spent) an amount of state funds equal to the general fund savings identified by the department.

### ***Other Spending***

- ***Increase Rates for Personal, Respite and Companion Care.*** Provides \$24.9 million GF the first year and \$39.9 million GF the second year and a like amount of federal Medicaid matching funds to increase provider rates for personal care, respite care, and companionship services provided in Medicaid waiver programs by 5 percent the first year and 2 percent the second year. These rate increases will help to address the impact of a change in the state minimum wage related to the labor costs for providing these services.
- ***Modify Medicaid Nursing Facility Reimbursement (Unallotted).*** Provides \$6.8 million GF the first year and \$7.0 million GF the second year and a like amount of matching federal Medicaid funding each year to increase the peer group adjustment factors (such that the direct peer group price percentage is increased to 109.3 percent and the indirect peer group price percentage is increased to 103.3 percent) used in nursing facility reimbursement in order to account for lower cost facilities inappropriately suppressing Medicaid rates for facilities with higher costs. The second year amount assumes inflation at 2.7 percent.
- ***Allow Overtime for Personal Care Attendants (Unallotted).*** The adopted budget provides \$9.6 million GF and a like amount of federal Medicaid matching funds each year, beginning July 1, 2020, to pay overtime compensation to personal care attendants who are providing care under the consumer-directed service option in Medicaid waivers. This action allows Medicaid to pay time and a half for up to 16 hours for a single attendant who works more than 40 hours per week.
- ***Increase Residential Psychiatric Facility Rates (Unallotted).*** Provides \$7.6 million GF each year and a like amount of federal Medicaid matching funds to increase reimbursement to residential psychiatric facilities. The rates paid to these facilities, not unlike other institutional providers (hospitals, nursing facilities, etc.), have not increased since 2008 and have not been adjusted for inflation. This action also strikes language that prohibits annual inflation adjustments.
- ***Increase Rates for Skilled and Private Duty Nursing Services (Unallotted).*** Increases \$6.2 million GF and alike amount of federal Medicaid matching funds each year to increase the rates for skilled and private duty nursing services to 80 percent of the benchmark rate effective July 1, 2020. This applies to skilled nursing services provided through the Developmental Disability Waiver programs and private duty nursing services including congregate nursing services provided in the Commonwealth Coordinated Care Plus Waiver, the Developmental Disability Waiver programs and the Early and Periodic Screening, Diagnostic and Treatment

program. This action increases the skilled nursing rates by 16.1 percent and private duty nursing rates by an average of 11.6 percent.

- ***Fund Managed Care Contract Changes (Unallotted)***. Provides \$0.8 million GF in FY 2021 and \$1.0 million GF in FY 2022 and a like amount of federal Medicaid matching funds to fund changes to the Commonwealth Coordinated Care Plus and Medallion 4.0 managed care contracts. These changes include:
  - Expand care coordination for adoption assistance members;
  - Require that all foster care children receive a physician and dental visit within the first 30 days of plan enrollment;
  - Provide cultural competency training and case management initiatives specific to the LGBTQI community;
  - Require Patient Utilization Management and Safety (PUMS) Program “lock-in” re-evaluations for members changing plans;
  - Require additional care coordinators for the early intervention population;
  - Develop advisory groups for member feedback and engagement surrounding maternal, child, and women's health;
  - Develop strategies to keep mom and baby together during residential SUD treatment;
  - Require plans to identify and address racial disparities in maternal, reproductive and child health;
  - Improve care coordination for the high-risk maternity program;
  - Require maternal screenings for substance abuse (SBIRT);
  - Require maternal screenings for mental health;
  - Waive the signature requirement for non-emergency transportation providers;
  - Establish payment targets for the total portion of medical spending covered under a value based payment arrangement; and,
  - Require CCC Plus plans to upgrade Medicare Dual Special Needs Plans (D-SNPs) to Medicare Fully Integrated Dual Eligible Special Needs Plans (FIDE-SNPS).

- ***Increase Mental Health Provider Rates (Unallotted).*** Adds \$2.4 million GF and \$4.4 million in federal Medicaid matching funds in FY 2021 and \$2.5 million GF and \$4.5 million in federal Medicaid matching funds in FY 2022 to increase mental health provider rates to 110 percent of Medicare rates. In the 2019 Session, these rates were increased to 100 percent of Medicaid.
- ***Fully Fund Medicaid Graduate Medical Education Residency Slots (Unallotted).*** Provides \$1.3 million the first year and \$2.5 million the second year from the general fund to correct an oversight in the Official Medicaid Forecast that removed funding for new residency slots for this program. Included in this funding is \$100,000 GF and \$100,000 NGF for the Graduate Medical Education residency program each year of the biennium, to provide funding for 27 slots, rather than 25, for the residents who start in July 2021.
- ***Fund Costs of STEP-VA Services (Unallotted).*** The adopted budget includes \$486,951 GF in FY 2021 and \$2.3 million GF in FY 2022 and a like amount of federal Medicaid matching funds to fund the Medicaid related costs of STEP-VA. STEP-VA is the behavioral health initiative that when fully implemented will establish a base continuum of services across all Community Services Boards in the Commonwealth.
- ***Increase Rates for Adult Day Health Care (Unallotted).*** Adds \$796,755 GF the first year and \$833,109 GF the second year and a like amount of matching federal Medicaid funds each year to increase adult day health care rates by 10 percent, effective July 1, 2020.
- ***Modify Nursing Facility Operating Rates at Four Facilities (Unallotted).*** Adds \$733,303 GF the first year and \$754,247 GF the second year and a like amount of matching federal Medicaid funds each year to require the department to adjust the nursing facility operating rates for any nursing facility that changed ownership under certain parameters. This action affects four facilities located in Harrisonburg, Lynchburg, Roanoke and Waynesboro.
- ***Increase Payment Rate for Nursing Homes with Special Populations (Unallotted).*** Adds \$493,094 GF the first year and \$506,903 GF the second year and a like amount of federal Medicaid matching funds to change the reimbursement methodology for nursing facilities that provide services to a resident population in which at least 80 percent of the residents have specific chronic and disabling conditions and the facility has at least a 90 percent Medicaid utilization and a case mix index of 1.15 or higher in fiscal year 2021. These conditions tend to occur in a younger population who consequently have a significantly longer stay in a nursing facility than many nursing home residents. Consequently, the costs to serve these individuals is much higher. Currently, only one nursing facility, the Virginia Home, would meet the

criteria to qualify for additional funding pursuant to this reimbursement methodology change.

- ***Increase Supplemental Payments for Children’s National Medical Center (Unallotted).*** Provides \$354,766 GF each year and matching federal Medicaid funds to increase supplemental physician payments for physicians employed at Children's National, a freestanding children's hospital serving the Northern Virginia region.
- ***Adjust Medicaid Managed Care Reimbursement for Durable Medical Equipment (Unallotted).*** Adds \$345,621 GF and \$431,056 NGF the first year and \$352,534 GF and \$439,677 NGF the second year to reflect the impact of requiring Medicaid managed care organizations to reimburse at no less than 90 percent of the state Medicaid fee schedule for reimbursing durable medical equipment.
- ***Increase Medicaid Rates for Anesthesiologists (Unallotted).*** Provides \$253,376 GF and \$791,234 NGF the first year and \$262,491 GF and \$813,458 NGF the second year to increase Medicaid reimbursement for anesthesiologists to 70 percent of the equivalent Medicare rate in the fee for service and managed care programs. The intent of the 2019 General Assembly was to increase Medicaid reimbursement to 70 percent of the equivalent Medicare fee to physicians who were reimbursed less than 70 percent of Medicare rates. Anesthesiologists qualified for this increase but were inadvertently left out of the budget language.
- ***Fund Medicaid Rate Setting Analysis (Unallotted).*** Provides \$300,000 the first year from the general fund and \$300,000 from nongeneral funds for the Department of Medical Assistance Services to contract with a consultant with expertise in health care rate setting to thoroughly analyze current Medicaid rates for services likely impacted by an increase in the state minimum wage.

- ***Modify Capital Reimbursement for Certain Nursing Facilities (Unallotted).*** Adds \$119,995 GF each year and a like amount of matching federal Medicaid funds and language to require the Department of Medical Assistance Services to modify nursing facility capital reimbursement for a nursing facility that lost its status as a hospital-based nursing facility because a replacement hospital was built in a different location and has become a free-standing facility.
- ***Provide Supplemental Payment for Chesapeake Regional Hospital.*** Adds \$12.0 million NGF each year from federal Medicaid funds and language directing the

Department of Medical Assistance Services to implement a supplemental disproportionate share hospital (DSH) payment for Chesapeake Regional Hospital. The hospital is responsible for transferring the non-federal share of the funding to the agency in order to draw down the matching federal Medicaid funds.

### *Decreases*

- ***Implement an Emergency Room Utilization Program.*** Reflects a decrease of \$14.1 million GF and \$26.3 million NGF the first year and \$14.5 GF and \$26.8 million NGF the second year to allow the pending, reviewing and reducing of fees for avoidable emergency room level two, three and four claims, both physician and facility. The department will utilize the avoidable emergency room diagnosis code list currently used for Managed Care Organization clinical efficiency rate adjustments. If the emergency room claim is identified as a preventable emergency room diagnosis, the department shall direct the Managed Care Organizations to default to a payment level one.
- ***Modify the Hospital Readmissions Policy.*** Captures savings of \$5.7 million GF and \$9.1 million NGF the first year and \$5.8 million GF and \$9.3 million NGF the second year by changing to 30 days the hospital readmission criteria for Medicaid. Hospital readmissions after five days but within 30 days shall be paid at 50 percent of the normal rate.
- ***Capture Savings from Managed Care Contracts Related to Pharmacy Benefit Managers.*** Captures \$4.1 million GF and \$6.8 million NGF the first year and \$4.3 million GF and \$7.1 million NGF in savings to the state's Medicaid program from the passage of Chapters 1082 and 1083 of the 2020 Acts of Assembly (HB 1291/SB 568), which prohibits Medicaid managed care organizations (MCOs) from engaging in the conduct of "spread pricing" with the MCOs' contracted pharmacy benefits manager.
- ***Reduce Funding for Administrative Contracts.*** Reduces \$302,787 GF and a like amount of federal Medicaid matching funds each year as the agency reduces various contract costs by using more cost-effective alternatives.

### *Language*

- ***Modify Medicaid Forecasting Process.*** Includes language specifying involvement of staff from the House Appropriations and Senate Finance & Appropriations Committees throughout the process of developing the Medicaid forecast to improve transparency and provide legislative staff feedback.

- ***Adjust Hospital Provider Assessment Language.*** Modifies language to make technical changes to improve the actual assessment process and reflect how the agency has implemented such process.
- ***Provide Authority to Offset Lost Federal Revenue for Children's Hospital of the King's Daughters.*** Includes language authorizing the department to make indirect medical education payments to offset the potential loss of Disproportionate Share Hospital (DSH) payments that may be reduced as a result of a federal court case. This language allows other federal funding sources to offset the loss of DSH payments and therefore has no state funding impact.
- ***Setting Nursing Home Specialized Care Rates.*** Adds language authorizing the use an alternate methodology for setting operating rates for nursing homes that provide specialized care (ventilator care, tracheotomy care, etc.) over the 2020-22 biennium until the agency has more reliable managed care cost data. Unlike nursing facility rates that are rebased every three years, specialized care rates are rebased every year. Only a handful of facilities provide specialized care and this is a completely separate rate development from the usual nursing facility rates. Recent cost reports used for these rates have data integrity problems, and this alternative methodology will allow the agency time to ensure the data is accurate and reliable in setting the rates beyond fiscal year 2022.
- ***Establish an Advisory Panel on Behavioral Health Redesign.*** Adds language requiring the department to convene an advisory panel of representatives from stakeholder organizations to review and advise on agency efforts to redesign behavioral health services, including specifics of implementation and a review of operational processes that affect sustainable business models. Language requires a report on the findings from this review by December 31, 2020.
- ***Create an Advisory Group on Respite and Personal Assistance Services.*** Includes language requiring the department to convene a workgroup of stakeholders to review existing and any proposed regulations on the provision of respite or personal assistance services to determine the barriers to the provision of these services in certain settings. Language requires a report on the conclusions of the workgroup, including the need for emergency regulatory authority to minimize any barriers to services and support broader appropriate utilization of such services.
- ***Review of Medicaid Peer Recovery Services.*** Adds language directing the department to review and consider amending regulations related to peer recovery services and convene a stakeholder group to look at barriers to providing the services.
- ***Adjust the Medicaid Special Earnings Allowance for Individuals with Disabilities.*** Includes language to direct the department to make changes to the post eligibility

- special earnings allowance for individuals in Medicaid waiver programs to incentivize employment.
- ***Analyze Medicaid Payment Opportunities for Eastern Virginia Medical School.*** Adds language to require the department to determine if any additional Medicaid payment opportunities can be made to a teaching hospital affiliated with an accredited medical school in Planning District 23 based on the department's reimbursement methodology established for such payments and to determine the framework for implementing such payments. The language requires a reasonable cap on such payments if determined available, so as not to adversely impact other qualifying entities in future years.
  - ***Establish a Workgroup on Coverage of Innovative Drugs and Emerging Technologies.*** Includes language requiring the department to establish a workgroup to assess and determine a process for Medicaid coverage and reimbursement of emerging technologies and innovative drugs that are approved by the Food and Drug Administration. The language requires the workgroup to report on issues and recommendations to the Joint Subcommittee for Health and Human Resources Oversight by September 1, 2020.
  - ***Analysis of Medicaid Managed Care Programs.*** The adopted budget directs the department to conduct an analysis for merging the profit cap and revenue sharing in the Medicaid managed care programs. Currently, the department contracts with the same six managed care organizations for its two managed care programs, CCC Plus and Medallion 4.0, with separate medical loss ratios and underwriting gain provisions. In addition, language directs the department to submit a plan and feasible timeline for merging the Commonwealth Coordinated Care Plus and Medallion 4.0 programs.
  - ***Modify Requirements for Community Behavioral Health Managed Care.*** Adds language to require the department to amend its contracts with managed care organizations to ensure service authorizations for community mental health and rehabilitation services are handled in a timely and transparent manner.
  - ***Develop Plan to Pursue Mental Health Services Waiver.*** Includes language directing the department to continue working with the Department of Behavioral Health and Developmental Services to complete the actions necessary to qualify to file an 1115 waiver application for Serious Mental Illness and/or Serious Emotional Disturbance. The department will then develop such a waiver application that shall be consistent with the Addiction and Recovery Treatment Services waiver program.
  - ***Implement a Medicaid Risk Adjustment Model.*** Adds language requiring the department to develop and implement by January 1, 2021, a risk adjustment model which addresses behavioral health acuity differences among the Medicaid managed

care organizations for the community well population of individuals who are dually eligible for Medicare and Medicaid programs and served through the CCC Plus managed care program. Language also requires the department to develop different capitation rates for the remaining population served under the CCC Plus program and who are receiving behavioral health treatment for potential implementation. The net impact of these change are budget neutral.

- ***Implement Medicaid Supplemental Payments to Private Hospitals.*** Establishes the Medicaid Supplemental Payment Program Fund and requires the Department of Medical Assistance Services to accept and to pay into the fund, from any county, city, or town provider, assessment funds that have been collected, pursuant to an ordinance, from inpatient hospitals authorized to receive Medicaid supplemental payments pursuant to the State Plan for Medical Assistance Services amendments 11-018 and 11-019.
- ***Review Medicaid Reimbursement for School-Based Services.*** Directs the Department of Medical Assistance Services to consider options to allow local education agencies to bill for allowable Medicaid services provided outside of an Individualized Education Plan and expand the services that are reimbursable.
- ***Modify Reporting Requirement on Medicaid Waivers and State Plan Changes.*** Clarifies that the reporting process for review of state plan amendments or waivers be submitted to the Department of Planning and Budget (DPB) for review 45 days prior to submission to the Centers for Medicare and Medicaid Services to allow DPB adequate time for such review. The language clarifies that renewals of waivers are also to be included in any such review. In addition, the language requires reporting to the money committees.
- ***Clarify Billing by Freestanding Emergency Departments.*** Includes language to direct the Department of Medical Assistance Services to require freestanding emergency departments to bill for services separately from the main hospital with which they are affiliated.
- ***Add Representative to Pharmacy Liaison Committee.*** Adds a representative from federally qualified health centers to the Pharmacy Liaison Committee in the Department of Medical Assistance Services.

- ***Develop a Medicaid Referral Program for Employment Services.*** Adds language directing the Department of Medical Assistance Services to develop a referral

system designed to connect current and newly eligible Medicaid enrollees to employment, training, and education assistance and other support services.

- ***Create Workgroup on Medicaid Payment Policies and Care Coordination.*** Establishes a stakeholder workgroup lead by the Department of Medical Assistance Services to develop strategies and recommendations to reduce hospital readmissions, improve emergency department utilization and enhance value-based payment in the Medicaid program.
- ***Analyze Medicaid Costs Related to the Health Benefit Exchange.*** Adds language to direct the department to conduct a fiscal analysis of the provisions of Chapters 916 and 917 of the 2020 Acts of Assembly (HB 1428/SB 732) that create the Virginia Health Benefits Exchange and leverages state income tax returns to facilitate the enrollment of eligible individuals in insurance affordability programs.
- ***Modify Quarterly Medicaid Financial Review Committee.*** Adds language that modifies the quarterly meeting on Medicaid expenditures to clarify the main purpose of each meeting and to specify when the meeting will be held. This language also removes the specific reporting requirement on the Discrete Incentive Transition Program.
- ***Medicaid Call Center Requirements.*** Includes language directing the Departments of Medical Assistance Services and Social Services to establish, by no later than July 1, 2021, a single phone number for the Cover Virginia call center and the call center operated by Department of Social Services such that the call is routed to the appropriate call center.
- ***Modify Medicaid Expenditure Reporting Requirements.*** Revises language related to quarterly reporting on Medicaid managed care data to the Department of Planning and Budget, and the House Appropriations and Senate Finance & Appropriations Committees. It requires that expenditures be reported by program and service category and the data be summarized by service date for each quarter in the fiscal year and the previous two fiscal years and the report be made available on the Department of Medical Assistance Services website.

### ***Technical***

- ***Adjust Agency Budget to Reflect Current Operations.*** Reduces \$9.1 million NGF in FY 2021 and \$12.6 million NGF in FY 2022 to reflect several changes in the agency's operations. These actions include shifting \$3.0 million GF in FY 2021 and \$3.6 million GF in FY 2022, which the agency is absorbing in their administrative budget, to account for the reduction in the federal match rate for the Children's Health Insurance Programs. Much of the NGF reduction is related to the decline in federal funding for the Medicaid Incentive Program for support of providers moving to

electronic health records. This proposal also eliminates the funding provided for Vision to Learn, which is a program that provides low-income children with free eye exams and glasses.

- ***Increase Appropriation for Civil Money Penalties.*** Provides \$320,000 NGF the first year and \$1.3 million NGF the second year for the agency to spend additional revenue from civil money penalties in order to be in compliance with federal rules.

- **Department of Behavioral Health and Developmental Services (DBHDS)**

***System Transformation, Excellence and Performance in Virginia (STEP-VA) Services***

- ***Add Funds to Continue STEP-VA Implementation at Community Services Boards (Unallotted).*** The adopted budget provides \$20.9 million GF and \$0.5 million NGF the first year and \$33.1 million GF and \$2.3 million NGF the second year to continue implementation of behavioral health services pursuant to the System Transformation, Excellence and Performance in Virginia (STEP-VA) process as specified in Chapters 683 and 607 of the 2017 Acts of Assembly (HB 1549/SB 1005). Funding will support the build out of outpatient mental health and substance abuse services and crisis services, which were partially implemented in FY 2020. In addition, funding will support the following new services: peer support and family support services, and mental health services for members of the armed forces located 50 miles or more from a military treatment facility and veterans located 40 miles or more from a Veterans Health Administration medical facility. Language delays the mandatory implementation of psychiatric rehabilitation, care coordination, and case management services. Adopted funding is included in the budgets for the Department of Medical Assistance Services, Community Services Boards for community mental health and substance abuse services and the DBHDS Central Office. The summary table below details the STEP-VA related budget actions.

***Other Community Mental Health and Substance Use Disorder Treatment Services***

- ***Fund Discharge Assistance Planning Funds to Transition Individuals Ready for Discharge from State Mental Health Facilities (Unallotted).*** The adopted budget adds \$7.5 million GF the first year and \$12.5 million GF the second year to fund community discharge assistance planning for individuals ready for discharge from state mental health hospitals. - ***Fund Pilot Programs to Reduce State Hospital Census Pressures (Unallotted).*** Provides \$7.5 million GF each year to fund various pilot programs in the Commonwealth to help address census pressures on state psychiatric hospitals. Additional staff is needed to respond to emergencies such as fire alarms and patient aggression incidents, as well as monitoring critical building automation systems alerts or outages. Hiring will be phased in over FY 2021. A change in state law in 2014, that made the state hospitals the facility “of last resort,” has resulted in much higher admissions of individuals subject to temporary detention orders at all state hospitals as private hospitals have reduced their share of these admissions.
- ***Cover Increased Pharmacy Costs at State Facilities (Unallotted).*** Adds \$966,638 GF each year to cover the increasing pharmacy costs at state facilities.   - ***Increase Support for Brain Injury Programs (Unallotted).*** Provides \$1.0 million GF each year to increase contracts with community based brain injury service providers to provide for cost increases and to bring salaries in line with market demands in order to ensure staff retention. This additional funding increases total funding for such programs to \$7.0 million GF.
  - ***Provide Additional Support for Centers for Independent Living (Unallotted).*** Adds \$425,000 GF each year to support Centers for Independent Living that provide independent living services including: independent living skills training; advocacy; information and referral; peer mentoring; and, transition to people with significant disabilities. Transition services include youth transition services, services for individuals trying to transition from nursing facilities and other institutions, and services to prevent institutionalization. This funding increases total state support to \$5.5 million GF.
  - ***Fund Dementia Case Management (Unallotted).*** The adopted budget provides \$150,000 GF each year to provide an interdisciplinary plan of care and dementia care management for 50 individuals diagnosed with dementia. This service will be provided through a partnership between the Memory and Aging Care Clinic at the University of Virginia and the Alzheimer’s Association.
  - ***Increase Hourly Rate for Personal Attendant Rates to Mirror Medicaid Rates (Unallotted).*** Provides \$99,320 GF each year to increase the hourly rate for personal attendant services to mirror rates provided for similar services through the Medicaid program. This increases rates on average by \$0.38 per hour for 125 individuals who are not eligible for the Medicaid program.
  - ***Increase Support for the Jewish Social Services Agency (Unallotted).*** Increases state support by \$50,000 GF each year to the Jewish Social Services Agency that provides assistance to low-income seniors who have experienced trauma. - **Wilson Workforce and Rehabilitation Center**

- *Funding for Vehicle Purchase (Unallotted).* Provides \$80,000 GF the first year for the purchase of a specialty vehicle at the Wilson Workforce and Rehabilitation Center that is equipped for the disabled, including persons using a wheelchair, to transport persons with disabilities who are participating in the center's workforce and job training programs to various functions and events, including employment opportunities and interviews.

- **Department of Social Services**

*Child Welfare Programs and Services*

- *Annualize Costs to Implement the 2019 Foster Care Omnibus Bill.* Funds \$457,057 GF and \$347,957 NGF each year to annualize the costs of 18 new positions at the Department of Social Services to implement Chapter 446 of the 2019 Acts of Assembly (SB 1339) to improve the foster care system.
- *Fund Cost of Living Adjustment for Foster Care and Adoption Subsidy Payments.* Provides \$2.3 million GF and \$1.8 million NGF each year to adjust foster family home rates and adoption assistance maintenance payments by 5 percent. The Appropriation Act requires that these rates be increased in the year following a salary increase provided for state employees. State employees received up to a 5 percent raise in June 2019, therefore a similar percentage increase is provided for these rates. Federal Title IV-E grant funds provide the nongeneral portion of the amount.
- *Fund Foster Care and Adoption Forecast.* Funds a net increase of \$722,339 GF and \$4.1 million NGF each year for projected changes to the foster care and adoption programs. Adoption subsidies are projected to increase by \$12.0 million GF and \$12.0 million in federal Title IV-E funds over the 2020-22 biennium above FY 2020 appropriations. Title IV-E foster care expenditures are expected to decline by \$3.8 million GF and \$3.8 million NGF over the biennium below FY 2020 appropriations. The increased costs for the Title IV-E foster care and adoption programs are partially offset by a projected decline in state adoption subsidies of \$6.8 million GF over the biennium.

- ***Fund Increase to Relative Support Maintenance Payments with TANF Funds.*** Provides \$8.5 million NGF each year from the Temporary Assistance to Needy Families block grant to provide an increased maintenance/assistance payment to families who are providing relative care to children to avoid a foster care placement. Currently, relatives caring for children outside of foster care receive an average of \$240 per month per case/family or an average of \$163 a child in TANF funds. This request would increase monthly payments by \$200 for 3,524 eligible children and allow more families to afford to continue caring for a relative child.
- ***Fund Prevention Services at Local Departments of Social Services (Unallotted).*** Provides \$12.4 million GF and \$3.9 million NGF the first year and \$17.4 million GF and \$5.5 million NGF the second year for local departments of social services to establish preventive services departments and hire staff to implement the Family First Prevention Services Act.
- ***Fund Family First Prevention Services Act Evidence-Based Prevention Programs (Unallotted).*** The adopted budget provides \$8.4 million GF and \$8.4 million NGF from federal Title IV-E funds each year for prevention services for children at risk of foster care placement and their families, pursuant to the Family First Prevention Services Act. Services must be evidence-based and trauma informed mental health services, substance use disorder services and in-home parent skill based training. Further, they must be included in the list of recognized evidence-based programs contained in the federal title IV-E Prevention Services Clearinghouse.
- ***Fund Implementation of Statewide Contracts for Family First Evidence-Based Services (Unallotted).*** Provides \$1.1 million GF and \$1.1 million NGF each year and two positions to oversee, implement and sustain evidence-based programming for prevention and foster home services through Family First. Staff will provide technical assistance and support across the state for the implementation and sustainability for the prevention program. An evaluation team is required by Family First to ensure that the provision of evidence-based programs to children and families are producing the desired outcomes to improve the safety, permanency and well-being of children.
- ***Develop a Plan for Child Welfare Information System Improvements (Unallotted).*** The adopted budget provides \$250,000 GF the first year to develop a plan for a new comprehensive child welfare information system for case management to replace four information systems using federally required reinvestment funding. The new

system will be used for foster care and adoption case management, investigations of abuse and neglect, to track and monitor preventive services to at-risk families and provide for other record keeping needs. Since federal FY 2010, the program criteria for an applicable child for federal Title IV-E adoption assistance have resulted in an increase in children eligible for federal funding. Services for these children were fully state-supported, resulting in state savings. The savings are required by federal law to be reinvested in the child welfare system.

- ***Emergency Approval Process for Kinship Caregivers (Unallotted).*** Adds \$75,000 GF each year to implement an emergency approval process for kinship caregivers and the development of foster home certification standards for kinship caregivers. Any new approval process created will encompass the same safety standards that non-relative foster homes must comply with when getting approved as a foster home. This will help Virginia align its foster care approval process to the federal Family First Prevention Services Act legislation that directs states to use prevention dollars and keep children with kin rather than enter non-relative foster care.
- ***Use Family First Transition Act Funding.*** Supplants \$5.0 million GF the first year in child welfare prevention services and activities to implement the federal Family First Prevention Services Act (FFPSA) with federal Family First Transition Act funding. This act authorized funding to states to help offset the costs associated with implementing the FFPSA. These funds can be used from October 1, 2019, through September 30, 2021, and do not require a general fund match.
- ***Fictive Kin Eligible for Kinship Guardianship Assistance Program.*** Transfers \$3,838 GF the first year and \$7,676 GF the second year from the Department of Social Services to the Office of the Children's Services Act for costs associated with the implementation of Chapters 366 and 224 of the 2020 Acts of Assembly (HB 933/SB 178), which expand eligibility for the Kinship Guardianship Assistance program. The program allows payments to be made to fictive kin who receive custody of a child for whom they had been the foster parent. DSS has sufficient general fund dollars available for child welfare services to implement the provisions of the legislation.

#### ***COVID-19 Response***

- ***Provide Emergency Licensure Exemption and Background Check Portability for Child Day Programs Operating for Children of Essential Personnel.*** Adds language to allow emergency child care programs to be set up to care for children of essential workers during the COVID-19 state of emergency.
- ***Permit Emergency Program Changes in Response to COVID-19.*** Includes budget language to provide authority for the department to make program changes to eligibility and enrollment for public benefit programs in response to the COVID-19

pandemic. The department must receive written approval from the Governor and report any actions taken to the Chairs of House Appropriations and Senate Finance & Appropriations Committees.

### *Emergency Shelter Services*

- *Fund Improved Planning and Operations of Emergency Shelters (Unallotted).* Provides \$188,945 GF and \$240,475 NGF in FY 2021 and \$152,117 GF and \$193,603 NGF in FY 2022 to establish and sustain a trained state workforce for comprehensive support of local and state sheltering and to implement and establish a review and update cycle of state shelter sites.
- *Transfer Sheltering Coordinator Position from the Virginia Department of Emergency Management (Unallotted).* Transfers \$115,600 GF each year and one position from the Virginia Department of Emergency Management to DSS for a sheltering coordinator position and attendant responsibilities.
- *Fund Emergency Shelter Management Software and Application (Unallotted).* Adds \$492,800 GF and \$627,200 NGF the first year and \$154,000 GF and \$196,000 NGF the second year to procure an emergency shelter management system that can be integrated with the Virginia Department of Emergency Management’s web emergency operations center. The funding would also be used to develop an application that provides shelter details during declared disaster to the public.

### *Child Care and Development Fund*

- *Transfer Administration of the Federal Child Care and Development Fund (CCDF) to the Department of Education (DOE).* The adopted budget provides \$3.1 million NGF from the Child Care Development Fund (CCDF) Block Grant and transfers \$181.1 million from the federal CCDF block grant and 150 positions the second year to the Department of Education (DOE) to administer child care and education programs under one agency. The Department of Social Services (DSS) will be provided CCDF funding to continue administering the child care subsidy program on behalf of DOE. A companion amendment in DOE reflects this funding requirement. In addition, the adopted budget adds language to match that in DOE directing the Superintendent of Public Instruction to convene a work group to develop and establish a plan to transfer the Child Care Development Fund grant from DSS to DOE.
- *Backfill Funds for Adult Licensing and Child Welfare Unit Licensing (Unallotted).* Provides \$2.1 million GF and eight positions in FY 2022 for adult and child welfare licensing units to backfill for the loss of shared funding and positions with the child care licensing unit after it is transferred to the Department of Education.

- ***Fund Replacement of Agency Licensing System (Unallotted).*** The adopted budget provides adding \$2.2 million GF and \$3.2 million NGF in FY 2021 and \$431,638 GF and \$68,362 NGF in FY 2022 to replace the agency’s obsolete Division of Licensing Programs Help and Information Network (DOLPHIN), and perform necessary upgrades to the Central Registry System and the Background Investigations System. The new licensing system represents a six-year project with cost totaling \$7.5 million and will replace the 16-year old legacy software application which is currently not supported by VDSS Information Systems and does not provide fundamental functionality or support the capturing of certain data elements needed to comply with state and federal reporting requirements.

### ***Other Increases***

- ***Increase Local Staff Minimum Salary to Address Turnover Rates (Unallotted).*** The adopted budget includes \$5.6 million GF and \$5.7 million NGF each year to increase local departments of social services’ salaries and improve the recruitment and retention of staff. A local match will also be required. The average base salary for these staff is about 11 percent below both national median and average for social workers. Family Services Specialists positions have an average turnover rate over 40 percent within their first two years of employment. The funds will initially support a pay band minimum increase of 20 percent for the Social Work positions and a 15 percent increase for positions such as eligibility and administrative staff that are currently below the minimum threshold. In addition, an overall 1.5 percent increase will be applied to all local positions in an effort to address compression concerns.
- ***Fund Improvements in Determining Supplemental Nutrition Assistance Program (SNAP) Payments.*** Provides \$1.9 million GF the first year for penalties assessed by the federal government for payment errors in administering SNAP benefits in federal fiscal years (FFY) 2017 and 2018. The funds will be used for activities designed to reduce errors, such as targeted case reviews, training, system improvements and collaboration with local agencies and workers on improvement strategies. The \$1.9 million represents 50 percent of the penalty amount to be reinvested into approved activities to improve administration of the program. However, 50 percent of the penalty amount is at-risk for repayment if a liability for an excessive payment error rate is established for FFY 2019.
- ***Fund Office of New Americans.*** Adds \$350,897 GF the first year and \$305,571 GF the second year for the fiscal impact of Chapters 1078 and 1079 of the 2020 Acts of Assembly (HB 1209/SB 991), which establishes the Office of New Americans within the Department of Social Services, as well as an advisory board, to improve the integration of new Americans throughout the Commonwealth.

- ***Replace Federal Funds for Linking Systems of Care Program (Unallotted).*** Provides \$187,443 GF the first year and \$467,116 GF the second year and three positions to continue a federal grant program called Linking Systems of Care (LSC) for Children and Youth originally funded by the United States Department of Justice, Office of Justice Programs, and Office for Victims of Crime. The program is a statewide demonstration initiative with the goal of identifying children and youth who have had crimes committed against them and addressing the potential serious and long-lasting consequences of exposure to crime.
- ***Provide One-time Allocation to Laurel Center (Unallotted).*** Provides \$500,000 GF the first year for a one-time budget allocation to the Laurel Center for expansion of education, outreach, program services, and new career and education support.
- ***Fund Enhanced 2-1-1 VIRGINIA Services (Unallotted).*** The adopted budget funds \$153,614 GF and \$187,751 NGF each year over the biennium to fully fund the expansion of 2-1-1 VIRGINIA services that has occurred over the past 12 years. Growth in the contracted program is attributed to a rise in call volume and length, growth in agency participation, and a significant increase in the complexity and urgency of caller needs.
- ***Fund Supplemental Nutrition Assistance Program (SNAP) Changes to Allow Eligibility of Individuals with Drug-Related Felonies.*** Provides \$176,267 GF the first year and \$132,361 GF the second year and an equivalent amount of federal funds for the fiscal impact of Chapters 221 and 361 of the 2020 Acts of Assembly (HB 566/SB 124) which remove conditions under which a person who has been convicted of a drug-related felony may receive SNAP benefits.
- ***Establish a Driver's Licensing Program for Foster Care Youth (Unallotted).*** Provides \$100,000 GF the first year and \$200,000 GF the second year to support the development and implementation of a statewide driver's licensing program to support foster care youth in obtaining a driver's license. This program will help support youth who leave foster care in making a successful transition to adulthood.
- ***Use Auxiliary Grant Program Balances for a Rate Increase.*** Uses anticipated balances of \$3.3 million GF in the Auxiliary Grant program to increase the rate by \$80 per month beginning July 1, 2020. This increases the grant rate by 6 percent over the FY 2020 rate of \$1,329 per month, which reflects a \$12 per month increase to reflect a Supplemental Security Income cost of living adjustment beginning January 1, 2020. With the cost of living adjustment, the FY 2021 rate will increase by 9 percent above the current monthly payment of \$1,292.

The general fund amount provides an adjustment to cash benefits for two-parent families, which are funded only with general fund dollars. The TANF cash benefit amount was last raised by 5 percent in FY 2019;
- \$5.3 million NGF the first year to create a summer feeding pilot program to provide \$50 on a family's electronic benefit card each month during the summer for meal purchases;

- ***Contract Costs for Lawrenceville (Unallotted)***. Includes \$994,000 GF each year for increased contractual costs for continued private vendor operation of Lawrenceville Correctional Center. The adopted budget includes a net increase in NGF transportation appropriations of \$2,039.1 million (26.5 percent) in FY 2021 and \$1,794.4 million (23.3 percent) in FY 2022 compared to the base budget of Chapter 854 of the 2019 Acts of Assembly (HB 1700). The adopted budget also includes increases totaling \$1,522.0 million in FY 2021 and \$1,128.8 million in FY 2022 from updates to the financial plan, updated revenue projections, and transfers. In addition to these normal adjustments, the budget appropriates additional NGF revenues across the Secretariat of \$332.7 million in FY 2021 and \$462.7 million in FY 2022 from an omnibus statewide transportation funding legislation.

- **2020 Transportation Funding Legislation**

- *Statewide and Regional Transportation Funding.* The 2020 General Assembly adopted three separate pieces of legislation: Chapters 1230 and 1275 (HB 1414 / SB 890); Chapter 1235 (HB 1541); and, Chapters 1241 and 1281 (HB 1726/SB 1038) of the 2020 Acts of Assembly that collectively provide more than \$500.0 million annually in new transportation revenues, both statewide and regionally in Central Virginia and Hampton Roads. The omnibus funding legislation, Chapters 1230 and 1275 of the 2020 Acts of Assembly (HB 1414/SB 890), converts the current state motor fuels sales taxes to a fixed excise tax (approx. 16.2 cents per gallon) and increase the tax by five cents in each year of the biennium, reduces base vehicle registration fees by \$10, and establishes a new road use charge based on vehicle fuel economy.

The adopted legislation also eliminates recordation tax allocations to transportation programs of \$61.0 million annually that is currently appropriated for debt service on projects for Route 58 (\$40.0 million GF annually), the Northern Virginia Transportation District (\$20.0 million annual GF transfer, with reduction reflected in Department of Accounts Transfer Payments), and the Chesapeake Oak Grove Connector (\$1.0 million annual GF transfer with reduction shown in Department of Accounts Transfer Payments) and provide a portion of the increased Transportation Fund revenues to cover the cost of the debt service. Separate legislation, Chapters 1241 and 1281 (HB 1726/SB 1038) of the 2020 Acts of Assembly, dedicates \$20.0 million in statewide recordation tax revenues to the newly established Hampton Roads Regional Transit Fund administered by the Hampton Roads Transportation Accountability Commission.

The assumed net impact of the legislation reflected in the adopted budget, as shown in the table below, is intended to produce approximately \$332.7 million in new NGF revenue the first year and \$462.7 million NGF the second year for transportation programs in addition to the \$61.0 million GF in supplants.

Current *Code* language requires the Commonwealth Transportation Board establish the SYIP not later than June 30. However, given the unknown economic impact of the COVID-19 pandemic on currently forecast transportation revenues, adopting the SYIP prior to an official revenue reforecast would be unrealistic.
- ***Review of Virginia Passenger Rail Capacity Enhancements.*** Requires the MEI Project Approval Commission to review any Memorandum of Understanding for the Commonwealth's participation in the Long Bridge railroad infrastructure project prior to the execution of any binding funding agreement.
- ***Transit Ridership Incentive Program.*** Establishes a Congestion Mitigation subprogram within the new Transit Ridership Incentive Program, established pursuant to Chapters 1241 and 1281 of the 2020 Acts of Assembly (HB 1414/SB 890), for the award of up to \$5.0 million annually in incentive grants to transit companies that achieve maximum congestion mitigation in urban areas through high-levels of passenger miles of travel on public transportation routes.

- **Compensation Supplements**

- *Provide Funding for Employee Compensation Adjustments (Unallotted)*. Provides \$118.1 million GF the first year and \$146.8 million GF the second year in state and state-supported local employee across-the-board and targeted compensation adjustments, contingent upon sufficient FY 2020 year-end revenues. Includes a 3 percent bonus the first year for state employees, including higher education faculty, adjunct faculty, and staff, to be paid on December 1, 2020, and a 3 percent full-year, second year raise, effective June 10, 2021, for the July 1, 2021 payday.

For State Police troopers with three or more years of continuous state service, a compression adjustment of \$110 per year of service, up to 30 years, is provided in-lieu-of a first year bonus, as well as a 2 percent first year raise, effective August 10, 2020, for the September 1 payday, in addition to the 3 percent full-year second year raise provided to all state employees.

State-supported local employees receive a 2 percent bonus the first year, to be paid on December 1, 2020, and 3 percent full-year, second year raise, effective July 1, 2021. All compensation actions are contingent upon FY 2020 year-end actual general fund revenues collected and accounted for in the preliminary close of the fiscal year ended June 30, 2020 not being 1 percent or more below the official budget estimate for FY 2020, necessitating a statutorily required revenue reforecast.

Language also requires such revenue contingency to effectuate the compensation adjustment for SOQ funded instructional positions contained within Item 145. A separate action in Item 478 provides \$384,654 GF for increased agency internal service fund charges for the Department of General Services and the Virginia Information Technologies Agency as a result of the state employee compensation actions.

Actuarially projected growth in health care costs, enrollment updates, and actual 2019 healthcare claims expenditures suggested premium increases of 2.4 percent the first year and 6.7 percent the second year. Due to sufficient Health Insurance Fund balances, the budget assumes no increase in the employer or employee shares of premiums in the first year.

The net cost includes increases of \$4.0 million GF the first year and \$4.2 million GF the second year for the state employee programs,

partially offset by savings of \$55,805 GF each year for the state-supported local employee programs.

\*\$3.9 million GF the first year and \$4.1 million GF the second year is attributable to reducing the amortization period for the state retiree health care credit program’s legacy unfunded liability by five years, which will improve the funded status of the plan and save approximately \$289.0 million in contribution costs over the remainder of the 19 year amortization period. The funding to reduce the amortization period has been unallotted pending the impact of the assessment of the impact of a potential general fund revenue shortfall.
